The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

## WHY STOP HERE ?

Growth doesn't cease with infancy. In fact, the problem of maintaining calcium metabolism as an aid to skeletal formation continues throughout the entire developmental period.

Jeans & Stearns, Youmans and others emphasize the need for continuing vitamin D reinforcement long after the arbitrary age of 2 or 2½ years. Kronfeld and others confirm its importance, particularly as a contribution toward the formation of the permanent teeth.

### WHITE'S COD LIVER OIL CONCENTRATE

in its convenient dosage forms renders it easy for you to continue A and D reinforcement without interruption from infancy through childhood, and beyond if necessary.

For Infants—there is the convenient *Liquid Form*. Two drops provide the vitamin A and D potency of one teaspoonful of cod liver oil.\*

For the Child over 2 or 2½ years—the equally convenient, pleasant, easy-to-take *Tablets*. Each tablet provides the vitamin A and D potency of one teaspoonful of cod liver oil.\*
