STATEMENT BY PRESIDENT FRED
REGENTS' MEETING - July 16, 1949

I would like to take a few minutes at this time for a few words to our friends of the press.

The action of the Regents today, approving the budget, closes a little test carried out during the past months. When we began working on our budgets to be submitted to the Legislature, I called on these same members of the press and told them our troubles, frankly and in considerable detail. And I asked them to tell me what to do. I wanted them to give me some pointers on how to get our story across to the people of the state and their representatives in the legislature.

The members of the press gave me their advice. And I followed it as best I could.

I think the results speak for the excellence of their counsel. We did not do as well as we would have liked with our operations budget. But maybe that was because we were not following the advice so well. We really put their theories to the test in the request for a library . . . and you know the wonderful result.

Long after we have gone and our work is forgotten, a memorial will stand to this our Centennial year . . . the year we asked the press for advice and help.

In all my years at Wisconsin, I have never witnessed such a rallying of support for the University, such an enthusiasm for a cause, such hard work from so many different groups, and such gratitude when success came. The University of Wisconsin has many, many friends. I sincerely hope that we prove worthy of their friendship.

I have many letters from our faculty and from people outside the University congratulating us on the library appropriation.

Certainly many must share these congratulations, for passage of the library appropriation was the work of many hands.

There were the legislators who voted the funds unanimously when they heard our story.

There was the Governor who recommended the action, worked for passage of the measure, and will sign it into law.

There were the Regents, the Visitors, the faculty, the staff, and the students who planned the library and worked like Trojans to get the appropriation. Of our own staff, I want to pay special tribute to the effective and untiring work of Mr. Luberg.

There were the alumni and friends of the University all over the nation who worked for approval.

EXHIBIT A

And there were the people of Wisconsin who, when you of the press told them the facts, let their representatives know that they would willingly pay for the library.

Yes, in the last analysis, it was you of the press who aided us to get our library with your advice and help, and your clear-cut stories of the library and of our needs for a library.

I want to thank you, then, for a job well done . . . and tell you now of another problem that faces us. Over there on the window ledge, free for you to take and print, are mimeographed lists which give the salaries of our full-time staff.

Perhaps the gossips would like very much to read that . . . and see, for example, that Mr. Smith or Mr. Jones did or did not get a salary increase this year.

You know, perhaps better than I do, what the repercussions would be in lowered faculty morale if this full listing were published, especially since it takes days to explain in detail why each and every salary is what it is . . . why one person got a higher raise than the other . . . how some salaries pay for ten months of work and others for twelve months.

For example, if one of our professors who was paid \$5,000 on the academic year basis last year is needed during the summer period and is transferred to the twelve months basis, he would be paid \$6,000 -- without any salary raise.

This 20 per cent extra pay for summer service has a maximum limit of \$1,500. In general, those teaching in summer school are not on the 12 month basis, but appear in the summer session budget. Their rate of pay is 20 per cent of their previous academic year rate -- with, of course, the limit of \$1500 on summer salaries. The 12 month employees are engaged in administrative, research, and public service activities.

In our listings of salaries, we keep the academic year salaries and the 12 month salaries in separate columns, because manifestly the total salary reflects the amount of time devoted during the year to University service, as well as rate of pay.

These salaries are being paid by the public, and are open at all times to public scrutiny.

I want to assure you right now that the list is open to you, that I will spend the rest of the day with you explaining each item in it, if you like.

I have made a careful study of this budget, and I know there are items of interest in this list which would particularly interest the public. I have tried to pick out a few of these items and will give them to you now if you think they are news:

EXHIBIT A

First of all, the raises; there are a number of work-load adjustments, bringing people up to full-time status, which include sizeable adjustments in salaries. The top real raises were around \$1,000 per year, and ranged down from there to no raise at all . . . and in some cases where the character of the work changed, to an actual decrease.

In the news story which has been distributed to you, we point out that academic salaries have been increased an average of 8.3 per cent for those faculty members on the academic year basis and 8.6 per cent for those on the annual basis.

These percentages are based on the entire faculty payroll, even though only about 80 per cent of the faculty are receiving increases.

You may be interested in how the present University salaries compare with the cost of living index.

Since 1940-41 Civil Service salaries have risen 7.15 per cent. This is just slightly above the cost of living index rise during the same period.

Within the faculty, instructors' salaries have risen about 70 per cent, which just about meets the rise in cost of living. All these ranking above instructor have been increased less than the cost of living has risen.

Assistant Professors	---	62 per cent
Associate Professors	---	58 per cent
Professors	---	51 per cent
Associate Deans and Directors	---	50 per cent
Deans	---	40 per cent

Another item which you could dig out of that listing with a few days' work would be the promotions of our faculty members and the appointment of new faculty members.

This work, Mr. Taylor and his News Service staff already have done for you. You have these listings, complete with biographical details on the new faculty appointments.

A change of administrative set-up in which you will be interested is the return to full-time academic work of my assistant Scott Cutlip. As you know, we are strengthening the Journalism School. We have appointed a new director, and named one new man to the faculty. The new director also has asked that Mr. Cutlip be relieved of his administrative duties in my office so that he can devote full time to the Journalism School.

I acceded to this request with regret at losing Mr. Cutlip's services. You of the press are particularly familiar with the fine work he has done for me. I valued his services highly, and if I can talk Mr. Nafziger into it, I will steal a little of Mr. Cutlip's time now and then next year.

Statement by President Fred

-4-

Mr. Taylor, the director of the News Service, will take over Mr. Cutlip's burdens with the help of two other people most of you know.

Clay Schoenfeld, who has been editor of the Alumnus magazine and executive secretary of the University Centennial Committee, has been transferred into the News Service on a part-time basis. He, like Mr. Taylor, will teach part-time in the Journalism School.

Then, an old friend of ours, knocked out for a year by illness, is returning to the News Service. Robert Foss reports that he is feeling fit again and is ready to return. He is making arrangements now to move his family, and as soon as he's settled, he will be back, aiding Mr. Taylor in the job of keeping the people of the state and nation informed about what we are doing here at the University.

I want to tell you once again that the doors of this office and the books of the University always are open to you. And I want to thank you again for your support.
