Regent Jones moved the adoption of the following recommendation of the Business and Finance Committee, and the motion was seconded by Regent Renk:

That authority be granted to remove the following temporary buildings: T-1, T-2, T-3, and T-6, located at the corner of Park Street and University Avenue; T-16 located at the corner of Babcock Drive and Linden Drive.

Regent Gelatt inquired whether T-16 was a World War I or a World War II building. He was advised that it was a World War II building. Vice President Peterson reported that the University was committed to the State Building Commission to

tear down certain temporary buildings at the University upon completion of the Commerce Building and the Pharmacy Addition to the Chemistry Building. This commitment was part of the agreement at the time the State Building Commission provided the funds for these two new buildings, and T-16 was one of the buildings on that list of temporary buildings to be torn down. Regent Watson inquired whether the administration would recommend razing T-16 if it did not have a commitment to do so; and Vice President Peterson reported that that would probably be the recommendation because the building is an auditorium type for which there is not now a real need since the auditorium in the Commerce Building has been completed. Regent Rennebohm suggested that no action be taken on the previous commitment to remove T-16 without asking the State Building Commission whether it wants the University to honor the commitment even though we have use for the building. Vice President Peterson explained that T-16, being an auditorium-type building, has a sloping, concrete floor, and that it would be very expensive to remodel the building to make it usable for other purposes. It was also explained that temporary buildings T-1, T-2 and T-3 were World War I buildings, and that T-6 would have to be removed because of the construction of the new Chadbourne Hall.

There was further discussion of the commitment to the State Building Commission with reference to T-16, and whether the motion could be separated in order to take a separate action regarding T-16. Regent Watson moved that the motion be amended by deleting T-16 from the motion. The motion to amend was seconded by Regent Jensen.

Regent Renk stated that the University might just as well build temporary buildings all over the campus, and not build permanent buildings, if it does not intend to abide by its commitments. He noted that a large amount of money was invested in the Bacteriology Building, and that the temporary building T-16 in front of it spoils its appearance.

A called vote was taken on the motion to amend the recommendation of the Business and Finance Committee by deleting temporary building T-16 from the motion - Regents Gelatt, Jensen, Laird, Rennebohm, Steiger, Wanvig, Watson and Werner voting "Aye"; Regents Jones and Renk voting "No". The motion on the amendment was declared carried.

The question was then put on the motion as amended, which reads as follows, and it was voted:

That authority be granted to remove the following temporary buildings; T-1, T-2, T-3, and T-6, located at the corner of Park Street and University Avenue.

Regent Jensen moved the adoption of the following motion, which was seconded by Regent Renk:

That authority be granted to remove temporary building T-16 located at the corner of Babcock Drive and Linden Drive.

There was discussion of whether this motion was in order; and it was suggested that the administration study the question of removing T-16 and report to the Regents at the next meeting.

Regent Renk withdrew his second to the motion and Regent Jensen agreed to withdraw the motion.

Upon motion of Regent Jensen, seconded by Regent Renk, it was VOTED, That the question of the removal of temporary building T-16 be referred back to the appropriate committee for consideration at the next meeting.

-

Regent Jones moved the adoption of the following recommendation of the Business and Finance Committee, which was seconded by Regent Steiger:

That, upon recommendation of the University Campus Planning Commission, the approval by the Regents on December 10, 1955, of the preliminary sketches for a new Chadbourne Hall, to house 600 students, be rescinded; and that the revised preliminary sketches for a new Chadbourne Hall, to house 600 students, consisting of a one-story dining unit and a "Y" shaped dormitory unit, be approved.

Vice President Peterson presented exterior sketches and floor plans of the revised preliminary proposal for a new Chadbourne Hall. He explained that the new plan would provide for better utilization of the site, including additional parking space, and would result in a reduction in the cubic feet of space and the cost of the building. He noted that the previously approved plan contained excessive space in the central core of the two dormitory units which could not be effectively utilized.

The question was put on the motion and it was voted unanimously.

Regent Rennebohm presented the Report of the Special Regent Committee on Agricultural Lands.

Upon motion of Regent Rennebohm, seconded by Regent Jones, it was VOTED, That the State Building Commission be requested to make a temporary advance of \$140,000 to cover payments due on approved farm purchases.

There was discussion of the quantity and cost of agricultural lands purchased to date, and copies of a statement of the status of farm purchases was distributed to the Regents (copy on file).

Regent Renk stated that there were no further purchases of farm lands in the Arlington area contemplated at the present time; that 1170 acres had been acquired to date; and that eventually it would probably be necessary to make additional purchases to bring the total to about 2500 acres. He noted that this latter total acreage was considerably less than the acreage of farm lands at several of the other midwestern universities.

-

Upon motion of Regent Rennebohm, seconded by Regent Werner, it was VOTED, That the Vice President of Business and Finance be authorized to sign an agreement with John C. Haley and Sons, Madison, Wisconsin, extending for a period of six months from February 23, 1956, the present agreement covering their services as contract broker in the sale of lots in the University Hill Farms Subdivision, on the same terms and conditions as the existing agreement.

Regent Renk presented the Report of the Special Regent Committee on Agricultural Research.

Regent Renk moved the approval of the following recommendation of the Special Regent Committee on Agricultural Research, and the motion was seconded by Regent Jones:

That the Executive Committee be authorized to approve plans, financing, and advertising for bids for the building of facilities to be attached to Babcock Hall for housing special milk drying equipment.

Regent Renk reported that up to \$30,000 would be required for the building costs for this project. In answer to a question as to whether the University was late in getting into research in the production of dry milk, Vice President Baldwin reported that this research project was an attempt to develop a better product which will have better consumer acceptance. The laboratory studies indicate favorable results which now require testing on a pilot plant basis.

The question was put on the above motion and it was voted unanimously.

Regent Jensen moved the adoption of the following resolution:

That we ask Mr. Baldwin to convey to our beloved and respected President our gratification at the news of his improving health and our heartfelt wishes for a complete and speedy recovery.

The above motion was seconded by Regent Jones and it was voted unanimously.

Upon motion of Regent Steiger, seconded by Regent Jones, it was VOTED, That the meeting adjourn.

The meeting adjourned at 10:55 A.M.
