## DRAMA CLUBS TO SEND PLAY TO ROCKFORD

"On the Hiring Line" Will Be  
Presented Again at  
Parkway on  
Feb. 18

"On the Hiring Line," the joint production of the three university dramatic clubs, will be presented at Rockford, Ill., on Friday, Feb. 17, and again at the Parkway theater in Madison on Saturday, Feb. 18. This decision was reached last night at a joint meeting of Red Domino, Twelfth Night, and Edwin Booth.

"We have been trying for seven years to take a joint production on the road, but this is the first year we have been able to do it," said Miss Gertrude Johnson, of the speech department, who coached the play.

### Rule Amended

"Eleven years ago, when I first coached university dramatics, to take a production containing women students away from Madison was an unheard-of suggestion."

The rigid rule of the Student Life and Interests committee prohibiting the taking of productions containing women on the road was amended three years ago, but this is the first time the clubs have been able to take advantage of the new privilege.

Last year it was planned to take the joint production "Mrs. Bumpstead-Leigh" on the road, but the rented stage settings could not be kept long enough for the trip.

### Scheinplug in Charge

The decision to present the play again in Madison was a result of the favorable way in which it was received and the fact that the interference of Prom parties kept many from attending.

Ralph Scheinplug '23, president of Edwin Booth, was elected by the clubs to take complete charge of the production in the two presentations.

## McCaffery Talks Tonight on Blast Furnace Problem

"Sulfur Elimination in Blast Furnaces" will be the subject of a discussion by Prof. R. S. McCaffery, professor of mining and metallurgy, at a meeting of the Wisconsin section of the American Chemical society, in the Chemistry building tonight at 8 o'clock.

During the war Professor McCaffery patented an acid-neutral-base lining to be used in the Bessemer converter for the metallurgy of certain steels. This modification promises a considered place in the steel industry, it is said.

Professor McCaffery recently has devoted his time in research of sulfur elimination in blast furnaces. Such work is highly valued by Wisconsin due to the large sulfur ore productions of the state.

## Jamboree Date Set For All Fools' Day

The date for the annual Varsity Jamboree has been definitely announced for April 1 by Chairman Maynard W. Brown '23. The various committee chairmen and their workers will be announced in a few days.

The affair will be in costume. This year the feature of masks is also being planned. All the proceeds of the affair go to the clearing of the debt left by the old "Awk," humor magazine, several years ago.

## SCRAPE ICE FOR SKATE CARNIVAL NEXT SATURDAY

Track Cleared For Sixth Annual Ice Contest and Carnival

Lake Mendota will become the scene of the university's sixth and biggest ice carnival when the report of the starting gun announces the start of the first race, a 220 yard dash, at 1:30 o'clock, Saturday afternoon, Feb. 11.

The ice on a quarter mile oval track and a half mile straight away has already been shaved smooth and is now in a good condition for the events. Another sheet of ice will be cleared for the benefit of the skaters not entering the races, while bleachers are to be erected near the oval for those not caring to skate.

The bleachers will remain standing for those attending the night carnival which will run from 7:30 until 11 o'clock Saturday night.

### Announce Races

The 220 yard dash which is the first race of the afternoon will be followed by the quarter mile girls' singles, and the quarter mile men's doubles, after which the doubles for the same distance will take place. Immediately after these events the half mile and one mile races are to be run off, followed by the backward races and the mixed doubles. The inter-fraternity and inter-sorority relays as well as the obstacle and the two mile race have been scheduled for the latter part of the afternoon.

Several fraternities have entered the relay race, in competition for the silver loving cups to be awarded. Entries for this race will be received by Gilbert Hoffman '24 until the end of the week. The entry fee for each fraternity relay team is \$2.

Many of the prizes to be awarded to winners of the skating races are on display at Sumner and Cramton's drug store, and others will be added to this list today and tomorrow. The prizes being offered are skis, skates, sweaters, and various articles of clothing suitable for skaters.

## Brown Will Speak At First "Y" Meet

The first Fellowship meeting for this semester will be held at the Y. M. C. A. Thursday evening at 7 o'clock, at which J. Stanley Brown of the Northwestern Illinois Normal school, De Kalb, Ill., will talk on "The Qualifications Necessary to Make a Successful Teacher."

On Thursday noon Mr. Brown will address the Rotary club on the subject, "Leveling Up."

## Banquet Thompson's Orchestra Members

A banquet and dance was given to members of Thompson's orchestra last Monday night at Thompson's new dance hall on the first floor of the new Insurance building. The new hall was opened to the public last night at a 9 o'clock dance.

### PI EPSILON DELTA ELECTS

PI Epsilon Delta, honorary dramatics fraternity, announces the election of Beatrice Humiston, grad, Helen Double '23, Miriam Doan '22, Olivia Fentress '23, Marjorie Boesch '23, Lawrence Norem '22, William Purnell '22, Wells Carberry '22, Reginald Garstang '22, Henry Rubel '23, and William Tannowitz '23.

## ATHLETIC COUNCIL DECLINES BID OF CALIFORNIA TO TRACK MEET; INVESTIGATE PROFESSIONALISM

Council Says Action Wise in  
Face of Growing Predomi-  
nance of Athletics  
Over Studies

Wisconsin yesterday declined the University of California's invitation to participate in an inter-sectional track meet at Berkeley, Cal., on April 15.

The refusal came as a heavy blow to Varsity track men after the Athletic council had considered the proposal at length before it finally decided to drop all negotiations for a meet.

### To Investigate Professionalism

Decision to consider the question of professionalism and investigate cases of Wisconsin men was made, and the council will meet again this noon to take up charges of professionalism which have been hurled at Badger athletes. Anonymous allegations will not be considered, but those which offer proof are to be probed until charges are proven false or substantial.

In rejecting California's proposal for an inter-sectional competition, the Athletic council offered three reasons for its action.

An important motive in the refusal of the meet is given as the "exploitation of athletics" throughout the country. The extreme popularity of college sports, forcing the football season to be ended six weeks after the usual date and resulting in a plethora of inter-sectional contests has turned college faculties against a predominance of athletics in student life. Pres. A. L. Lowell, of Harvard, recently aroused the country when he announced that sports were forcing

(Continued on Page 7)

## First Tryouts For Haresfoot Feb. 15

The general tryouts for the twenty-fourth Haresfoot production, "Jerusalem Junction," will be held on Wednesday, Feb. 15, at the Wisconsin high school.

Tryouts will be held for all phases of work, the cast, the chorus, and the production staff. Specialty acts are especially wanted.

Men interested in working on costumes, stage, properties, or general business are urged to tryout.

Preliminary conferences in preparation for the tryouts are being held this afternoon and Friday afternoon at 3:30 in the Haresfoot office on the third floor of the Union building.

## Will Collect Blue Dragon Dues Feb. 9

Dues for Blue Dragon, senior women's organization, will be collected Thursday, Feb. 9, from 8:50 a. m. until 5:30 p. m. in the S. G. A. room of Lathrop. Half of the 400 senior women have paid their dues, which are 50 cents.

This year's budget includes the following main items: \$50 for the co-operative houses; \$20 for the silver teas which were given in the fall; \$35 for the Badger page; \$15 for the spring party to the sophomores, and donations toward the Senior Chimes fund and the senior swing-out.

## Officers Installed By Commerce Club

The new officers of the Commerce club for the spring semester were installed at the regular meeting of the club last night. The officers installed are: Rollin E. Ecke '22, president; Arthur Inman '23, vice-president; Ewart K. Clear '22, secretary; Orvil H. Anderson '23, treasurer; Peter V. Cheli '23, assistant treasurer, and L. W. Brann '22, sergeant-at-arms. Plans for the new semester and for Commerce week were discussed by the club.

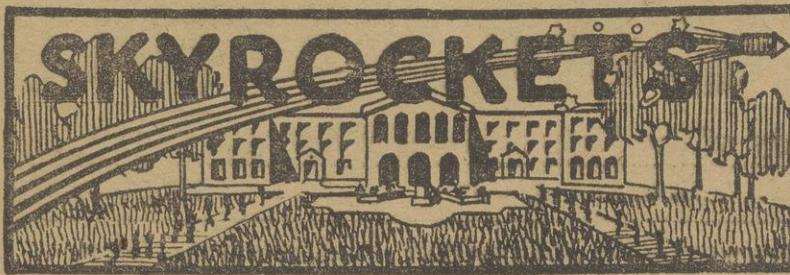

## S. G. A. Officers to Be Nominated at Mass Meet Feb. 15

Nominations for S. G. A. officers for the coming year are to be made at an S. G. A. mass meeting which will be held next Wednesday evening, Feb. 15, at Lathrop hall. Amendments to the constitution will also be considered at this meeting. Attendance by board members will be compulsory since February 15 is the date for the regular board meeting. A large representation of the women of the university is necessary for the carrying out of the business of the meeting.

According to S. G. A. ruling nominations for each office are made from the floor at the annual mass meeting. These nominations, together with two nominees recommended by the council, are voted upon the second week in March. The privilege of making a nomination belongs to any university woman, regardless of any affiliation she may or may not have with any group. The officers to be nominated are president, vice-president, secretary, treasurer, and census chairman.

## No Flu Here, Say Clinic Physicians

The "flu" epidemic which has started in Chicago will not strike Madison, according to present indications, clinic physicians said yesterday. Only 32 students are confined to the infirmary with grip and tonsilitis, and it is reported that none of them are seriously ill.

WE are here to offer first and last aid to the dead and dying. We bid you all farewell and our hearts are with you. Our smiles will follow you with all the sympathetic sincerity of a tooth-pasted, and a dyspeptic undertaker. After all, you, who are leaving us by request, have nothing to lose and even less to gain. Think of the armless Armenians, the ruminating Rumanians, the hungry Hungarians, and the absent Abyssinians,—look at them. We repeat, look at them, and profit by their noble and long-suffering example. Poverty and destruction lie before you, and —(hisses, catcalls, cabbage, and tomatoes from the cheering mob)—we have no more to say. We thank you.

HOWEVER, the Pillars of Society are still supporting the torn and mutilated remains of what is known as Bascom hall. Jimmie and Mary are doing as well as can be expected. Ralph, the tall and black-browed play-boy of the D. U. World, is sitting with attentive ears and eyes at the aesthetic feet of learning..... And Heinz, the ever flowing, ever free, is still burning imported tobacco in an imported (and we produce a scented handkerchief from our hip pocket) pipe.

THE best substitute for gazing at yourself in a collapsible shaving glass is to watch your light, fantastic movements in the Prom movies..... That's where we lost out; we generously allowed her one

hop, skip, and a jump with a cousin from Kansas and the filum was shot before we had a chance to cut in.

BOSCO disregarded the no cut rule..... The Sig Chis have politely requested him to return his pin, but Bosco, in some embarrassment, explained the situation by announcing his engagement.

THINGS WE'D LIKE TO FORGET

Three cons, a poor, and a flunk. That over-drawn bank account. The make-up exams. The last gin party. The Deans.

THE ZERO HOUR

When Father's ire was roused  
At my low grades,  
'Twas worse than being soured;  
When Father's ire was aroused,  
'Twas o'er my frame he browsed.

Behind drawn shades,—  
When Father's ire was aroused  
At my low grades.

HASHEESH.

STOP, LOOK, LISTEN, WAIT  
We have just received permission to publish the unexpurgated, unabridged Diary of a Descended Movie Star, complete in seven reels and a fade out. The opening flicker will flash before your eyes upon our next appearance.

"Life isn't what it's cracked up to be," said the wafer as it fell into a bowl of chili.

Allen Speaks Before Math Club Tomorrow

Dr. Florence Allen of the Mathematics department, will speak on "Cremona Transformations" before the Mathematics club at its first meeting of the second semester tomorrow afternoon in 409 North hall.

## Indian Spirit Stone Formally Dedicated On Library Grounds

"The spirit stone of the Potawatomi" has been moved from near Waubesa in Forest county to the grounds of the Wisconsin Historical society, and was formally dedicated in its new place, corner of Park and State streets, last Tuesday.

The stone resembles a human form in shape, is of granite formation, and weighs about 150 pounds. Indian legend has it that the stone was once an Indian chief who, after his life on earth, had been turned

into stone by the Great Spirit.

Gov. John J. Blaine accepted the stone, which was presented by Mrs. E. H. Van Ostrand, vice-president of the Wisconsin Archeological society. Judge E. Ray Stevens, president of the Wisconsin Historical society, presided at the afternoon program, which consisted of talks by Joseph Schafer, superintendent, by Dean George L. Collie Beloit college, and by Judge A. H. Long, Prairie du Chien. At a meeting of the landmarks committee, Halvor L. Skavlem, Janesville, gave a demonstration of the making of Indian arrowheads, and David Atwood, chairman, led a discussion of plans for the year.

## Mills to Speak on "The Beggars Opera"

Prof. C. H. Mills, director of the School of Music, will give a lecture on "The Beggar's Opera," the musical play which is to appear at the Parkway theater next Friday, at 11 o'clock tomorrow morning in Music hall.

Professor Mills intends to give the historic background and the origin of the play, which was first produced in 1728 as a satire upon the politics of the day. He will accompany his lecture with some selections from the opera.

## Barnard Head Goes To Central America

Ethel W. Stockdale '22, member of Keystone, and president of Barnard hall last semester, has left the university this semester to accompany her father, Scranton Stockdale of Milwaukee, on a business trip through Central America. They will sail from New Orleans, Feb. 11, for Guatemala, and will spend several months in Panama and other republics of the tropics.

Miss Stockdale plans to finish her course in Letters and Science next year, graduating in February.

## We Buy the First Tube A Month's Test

### Fruit on Teeth

It brings to whole races beautiful teeth, almost immune to decay.

Now dental authorities want every brushing to apply those fruit effects to teeth.

You may try it for a month at our cost, if you will.

### Apply It Five Times Daily on a tooth brush, in this delightful way

Dental research has lately discovered the effect that fruit has on teeth.

There are races whose diet is rich in fruit. They have beautiful teeth, almost immune to tooth troubles.

In this climate, where fruit is not a constant diet, 49 in 50 people suffer tooth attacks.

Those facts led to this research. And science now has found the ways in which fruit protects the teeth.

#### One great effect

Starch deposits on the teeth do a vast amount of damage. They gum the teeth, get between the teeth. And they often long remain there to form acids.

Nature puts ptyalin in the saliva to digest those starch deposits. But that ptyalin is generally too weak.

Now it is found that certain fruits increase that ptyalin up to 12 times over. Thus they create for starch deposits a multiplied attack.

#### More alkali

Acids cause tooth decay. Nature puts alkalis in the saliva to neutralize those acids as they form. But, with average diet, those alkalis too often lack the power.

Now tests show that certain fruits multiply those alkalis—up to 7 times over. Thus they combat the acids with a seven-fold power.

That is why millions keep sound, white teeth through a diet rich in fruit.

#### A better way

Now dental science has evolved a better way to bring the same results.

The essential fruit elements are embodied in a tooth paste. One may thus apply them regularly and at proper times.

The name of this tooth paste is Dentifruit. It instantly brings in the mouth the needed fruit effects. And it brings them when you need them most, particularly at bedtime.

#### One month free

It is now desired that everyone should watch these fruit effects. So we supply a month's test to anyone who asks. We buy a full-size tube.

You will enjoy the test. The tooth paste yields a fruity taste. Each use attacks the starch deposits which keep most teeth unclean. It leaves the mouth in alkaline condition, so the after-effects are refreshing.

Day and night you will feel that teeth are being properly cleaned and protected. You will know at once why modern authorities insist on these fruit effects.

Get this free tube and enjoy it.

### FREE—A 35c Tube

Mail this coupon to DENTIFRUIT, INC.  
Dept. 36, 1102-1106 S. Wabash Ave. Chicago  
Then we will mail you an order on your druggist  
for a 35c tube of Dentifruit, and the druggist will  
charge it to us.

Insert name and address clearly.  
Only one tube to a family.

### Dentifruit

Reg. U. S. Pat. Off.

#### The Five-Fruit Dentifrice

Based on elements derived from pineapple, orange, pawpaw, grapes and apples. Made to regularly bring the benefits to teeth which these five fruits would bring. Every application multiplies the tooth-protecting forces in the mouth.

Increases many fold the factors which digest the starch deposits and neutralize the acids.

Nearly every other dentifrice has always brought the opposite effects. Dental opinion now regards that as a grave mistake.

181

**A**NOTHER semester has come and gone and left in its wake the usual number of fails, cons, and poors in Accounting 181. The situation has become chronic. In its acute stage it might have been called accidental; it is entirely possible that a high percentage of stupidity might characterize each class in 181 for three or four successive semesters, but it is not probable.

We believe that the average of intelligence in these classes is just as high as that in other classes of the same size. We do not believe that accounting is inherently so difficult of comprehension that it cannot penetrate successfully the cerebrum of the average college student, particularly those who have selected commerce as a life work.

Something is wrong somewhere.

We believe that the trouble lies chiefly in the organization and conduct of the course. Terrorization seems to the student to be the dominant spirit of the course. Every student coming into the course is impressed with the precariousness of his situation. The formidable casualty list of the preceding semester is fresh in his mind. He is immediately confronted with an array of regulations to prevent his being a crook. He must not look up from his paper when perspiring through a quiz. He must not put a pen scratch on his paper after the bell has sounded the end of the hour; if he does, ten per cent will be deducted from his paper. If he is dissatisfied with his mark on a quiz he must bear it in meekness and gentility of spirit. If he makes bold to ask to see his paper he is likely to meet a stern rebuff.

All these things shatter the morale of the students. They feel a justifiable resentment against the system. They feel that their work is being done under odious compulsion. They feel that they are distrusted. They resent the disproportionately large number of hours of

sent the absence of courtesy often noticeable on the part of the instructional staff.

The department ought to be called to account, and that soon. The military discipline should be transferred to the armory. The ordinary canons of courtesy in the dealings between man and man should be given a trial. The rules of the College of Letters and Science should be obeyed as scrupulously as the instructors in the department demand obedience to their own rules.

The Daily Cardinal has always stood for high standards in university work. We believe that the standards in the accounting department can be kept high and yet be conducted along lines of decency. We have little sympathy for the usual post mortem complaints on grades. Yet we feel that the case in question is one where the complaints are entirely justifiable.

The accounting department ought to do some accounting.

### REWRITING AMERICAN HISTORY

**T**HE British lion baiters have donned their war paint again and are hot on the trail of some recently published school histories of the United States. Fresh dangers to the republic are discovered in these texts which are characterized as "British propaganda."

The basis of the charges appears to be the treatment of the War of the Revolution in some of the more recent text-books. The critics are alarmed that the tender youth of the land should be misled into thinking that the colonists were fighting for their ancient English liberties denied them by a German king and a reactionary ministry. It dilutes patriotism, they say, to remind American children that the English people and the leading liberal English statesmen rejoiced when the colonists rebelled. It is a' most to intimate that there might have been an economic slant to the war in view of the restriction of the colonists' trade by the mother country. Other wars in our history have been "plutocratic," but not the War of the Revolution. Then, these texts do not refer to the British soldiers as "red-coat devils." They are not calculated to keep alive a healthy hatred of England and everything English. Therefore, out with them.

A large number of these critics are in a new and untried role as champions of 100 per cent Americanism. Many of them were not seriously entangled in the folds of the flag during the late war. Many of them are accustomed to smile cynically at the "110 per centers." For these it is antiquated, hypocritical, and unintellectual to refer to patriotism. But when patriotism serves their purpose to precipitate a brawl with England they kiss the Stars and Stripes and invoke the spirit of Washington and Jefferson.

School text books should be free of all propaganda. The facts should speak for themselves. The tone of elementary school histories in the past has been decidedly anti-British. The facts have been distorted and ignored. It is time to straighten them out. American patriotism does not thrive on the perpetuation of hatred and ill will toward any nation on earth.

### HONOR NOT ENOUGH

After both sides of the question had been presented, the study body of Lawrence College, of Appleton, Wis., rejected the honor system by a vote of 395 to 260. The principal objection was that it had not worked in the past and would not work in the future.

California University has a unique method of reprobating extremists in attire. Any girl appearing on the campus with too short a skirt, too much rouge, or other "vampish" features, is tapped on the shoulder by a member of the recently organized reform committee and asked to reform.

Meeting of the University of Wisconsin Chess club at the Y. M. C. A. cabinet room Wednesday, Feb. 8, at 7:15 p. m. All interested in chess are welcome.

### PRESIDENT'S GUARD

Drill Thursday at 7:15 p. m. Everyone out without fail.

### MU ALPHA

Important meeting of Mu Alpha in Music hall today at 4:30 p. m.

### SENIOR WOMEN'S DUES

Senior women's dues will be collected in the S. G. A. room of Lathrop hall, Thursday, Feb. 9, from 8:30 a. m. until 5:30 p. m.

## BRYAN RENEWS DARWIN CLASH; SENDS LETTER

Commoner Reviews Controversy With Birge; President Makes No Statement

A letter has recently been received by Chester C. Platt from William Jennings Bryan on the controversy between Bryan and President Birge of the university on the alleged teaching of atheism at the university. Mr. Bryan's letter to Mr. Platt is in the nature of a review of the whole controversy. The letter is of such length that The Daily Cardinal is unable to print the whole of it in this issue. It will appear in tomorrow's issue of the Cardinal.—The Editor.

President E. A. Birge was not aware of the receipt of a letter here from William Jennings Bryan last night and had no statement to make concerning it.

The following excerpt from Mr. Bryan's letter is given by him in his letter as the issue of the question:

"I affirm that no teacher paid by taxation has a right to rob the student of faith in God, draw him out from belief in the inspiration of the Bible and shut out his hope of immortality by teaching him the brute doctrine without a fact in the universe to support it and irreconcilable with the Bible. If Dr. Birge does not believe in Darwinism why does it make him angry for me to point out the effects of Darwinism in teaching? If he does believe in Darwinism and teaches it to the students every Christian taxpayer has a right to protest. If he wants to teach atheism and agnosticism he should organize a school of his own and receive pay from parents who want that kind of education for their children."

### Spoke Here Last Spring

Bryan gave a lecture at the university gymnasium last spring on the subject "Brother or Brute" which attempted to demonstrate that evolution and religion were incompatible and which denounced the spread of Darwinism in American universities, stating that it led to atheism.

Following the lecture President Birge, Prof. M. F. Guyer, of the biology department, and several other faculty members made statements attempting to show that present day biology corroborated Darwin's theory and that there was not necessarily a conflict in the belief in evolution and the belief in God.

President Birge stated that Bryan's view was interesting insofar as it represented ideas which were generally accepted several decades ago.

### KEYSTONE

### Gamma Phi Entertains Visiting Delegates

Mrs. J. A. Younger, Seattle, Wash., is a guest at the Gamma Phi Beta house this week. Mrs. Younger is a national visiting delegate of the sorority.

Mrs. Younger and Mrs. A. F. Goodyear, house mother of the sorority, will share honors Thursday afternoon at a tea which members of the sorority will give at the chapter house from 4 to 6 o'clock.

### Pledge Announced

Beta Chi Sigma fraternity announces the pledging of Charles F. Christensen, Milwaukee, a freshman in the College of Engineering, and George E. Walsted, Milwaukee, freshman in the College of Letters and Science.

### Phi Beta Pi Will Give Dance in New House

Alpha Pi of Phi Beta Pi fraternity will entertain with an informal "Prom Echo" dancing party on Saturday evening, at the new chapter house of the fraternity at 416 N. Carroll street. Mr. and Mrs. G. C. Kreutz will chaperon.

### Achot House Dance

Achot sorority will give an informal dancing party on Saturday evening at the chapter house on N. Frances street. Mrs. Frances Wheelock, house mother, will chaperon the party.

### Triangle Pledges to Entertain Chapter

Active members of Triangle fra-

ternity will be the guests of their pledges at an informal dance at the Triangle house on Saturday evening. Prof. and Mrs. Ray Owen have been invited to chaperon the party.

### Personal

Miss Jeannette Boyer, Duluth, who was in the university last year, has returned to school this semester.

Miss Florence Kelly, Wausau; Miss Elizabeth Witmer, Kansas City, and Miss Josephine Pearson, Mt. Claire, N. J., who came to Madison to attend Prom, are visiting for a few days at the Gamma Phi house.

Miss Reinette Douglas, Milwaukee, who has been a student in the university for two years, but who has not been in school during the past semester, has returned to Madison and taken up her work on the hill again.

Miss Mignon Bryant, who was a student here last year, has returned and entered school again this semester.

Miss Mildred Anderson left yesterday for Chicago where she will join her parents for a trip to South America. They plan to sail from New York early next week.

Miss Marguerite Doherty, Cedar Rapids, Ia., who has been at her home during the past semester, has entered the university again and will complete her work here this semester.

Miss Louise Haley has entered the university this semester after spending the first part of the year at her home.

# NEWS OF CONFERENCE SPORTS

## HOOSIERS HALT GOPHER MARCH IN BIG 10 RACE

Wisconsin. Basketeers Meet Suckers Here Friday

The standings of the various Big Ten conference basketball teams have been placed in a muddle and almost uniform state by the games of the past two weeks. While Purdue still retains the lead, Wisconsin, Minnesota, Illinois, and even Indiana are not far behind.

The Boilmakers showed signs of weakening on January 7, when they played Iowa, but managed to nose a single point victory. The services of the star captain, White, were lost following this game, and the new team made its first appearance on the Illinois floor last night. With Illinois, Indiana, and Chicago still to be met, it is almost certain that the Purdue quintet will be dealt the one defeat which will put them out of the running for the conference championship.

### Hoosiers Check Minnesota

The sensational Gopher pennant-winner race was checked by the Hoosiers, after taking a beating from Minnesota on the former's own floor. Up to this time, Doctor Cooke's five had been the dark horse of the conference, winning unexpected victories over Iowa and Wisconsin. They have a series of hard games facing them this half, however, and are apt to drop games to either Illinois or Wisconsin.

Much of the success that will attend the Suckers during the remainder of the race depends upon the showing which they will make against Wisconsin on Friday night.

Winter's team had not yet recovered from the loss of Walquist when they played Chicago last week, but should be back in form for the two games appearing on their schedule this weekend. Illinois has a hard schedule facing them, however, and will have to receive all the breaks of luck in the remaining games if hopes of a championship are to be entertained.

More than one conference team is offering a silent vote of thanks to the Hoosiers for "turning the trick" against Minnesota. Levis' team looked woefully weak upon its first few appearances, but managed to pull one of the unexpected upsets, which have come to characterize the Big Ten conference basketball races, and consequently revive the hopes of fellow-aspirants. At the present rate of travel, Indiana is apt to put a crimp in the progress of Michigan, Ohio State, and even Purdue before the season is over.

Ohio State has not played a game for so long that one almost forgets that she remains in the conference. The Buckeyes appear to possess plenty of potential strength, but have been able to get only a 50-50 split in the four games played thus far. Coach Trautman's team swings into action on Saturday night, however, and they face a real test in that they will play six hard games inside of a period of a little more than two weeks.

### Maroons Hit Winning Stride

The Maroons have just hit their stride, and are a team to be feared from this time on. Coach Meanwell witnessed their stand against Illinois last week, and he states that they are 100 per cent better than when he saw them meet Michigan less than a month ago.

Chicago gets but one chance at Purdue, but will be given plenty of opportunity to display its prowess against Wisconsin, Illinois, and Minnesota.

Michigan and Iowa are two teams who have their innings coming to them. Both are considered out of the race, due to early season defeats, but both possess plenty of power and ability, and should win at least a majority of

### Hockey Team Hits Michigan Saturday

The Varsity hockey team will meet Michigan here on Friday, Feb. 10, at 4 o'clock.

Michigan is reported not to be as strong as Minnesota, having been twice defeated by the Michigan School of Mines. With additional training the Badger team expects to stand a good chance of beating the Wolverines next Friday, notwithstanding the defeat by Minnesota.

Only 14 men are reporting regularly for hockey practice, and with the loss of one man through ineligibility, there is still an opportunity to make the team. Coach Viner wants more men to report.

### MATMEN TRAVEL TO MINNEAPOLIS FOR DUAL MEET

### Wrestlers in Top Condition For Gopher Contest Friday

With every man feeling in top condition, Coach George Hitchcock's wrestling team takes its final work-out tonight preparatory to engaging in its first big meet of the season, Minnesota at Minneapolis Friday night. Seven men and the coach will make the trip. They will weigh in early Friday and go to the mat with the Northmen in the evening.

"The team this season is not as experienced as I should like to have it," said Hitchcock yesterday. "Peterman and Templin are the two men who have had most of the matches. Prideaux, while not having engaged in many matches, also has the advantage of last year's conference competition."

### Lineup Announced

The team as it will probably lineup when final selection of the men is made Wednesday evening is as follows: Prideaux, 115; Woelffer or Doeher, 125; Schenk or Cattau, 135; Capt. Peterman, 145; Templin, 155; Heuer or Young, 175; Young or Kiessling, heavy.

Several of the men have undergone one of the most grueling weeks of practice ever held for a Badger mat team in making weight and getting into condition for the match. Peterman took off nine pounds during the last week, and still has one or two pounds of added weight to drop. The lightweights, Schenk and Cattau, also are above the required mark, and must take off seven pounds. Templin, Prideaux, Young, Heuer, Kiessling, and Doeher are almost down to the figures at which they will go on the mat.

The men have been taking a routine of work including a two-mile run around the track, from 20 to 40 minutes of steady work on the mat ending up with a final bout with Coach Hitchcock himself, followed by a half hour in the new steam bath recently installed at the gym.

### Adopt Iowa Training Plan

Coach Hitchcock has adopted the plan used at Ames University, Iowa, where championship teams are turned out with clocklike regularity. By so doing he hopes to break into the unmarred record of victories the Ames team has established thus far. To date the Iowans have not lost one match in their four dual meets, winning all by scores of from 42 or 56 to 0. Wisconsin meets Iowa on March 10.

the games still appearing on their schedules.

Northwestern, as usual, is trailing along at the tail-end of the race. While the Purple have put up good battles at times, they seem to lack the final push necessary to cinch a victory. Evan's team will be fortunate if they duplicate their record of last year, when a single game was won, that from Wisconsin. Ohio State is the only team from which Northwestern has a chance of winning a game.

### Trainloads of Snow Will Bring Winter Here For Ski Meet

### Best Jumpers of Country Will Appear in Contest Feb. 18

Bringing winter to Madison is the task which M. K. Drewry '22, president of the Badger Ski club, has undertaken in preparation for the big ski meet to be held here a week from Saturday, Feb. 18. If there is no heavy fall of snow here by next Monday, the frozen crystals necessary to back the slide will be imported by trainloads, probably from the region around Baraboo.

The meet which the Badgers are planning for February 18 will be one of the biggest of its kind to be held in the Middle West, and will rival that held at Cary. A number of star jumpers are expected to enter. Bad weather conditions which forced the postponement of the three scheduled dual meets have led the club to concentrate its efforts on the coming contest.

### Star Jumpers Will Appear

Five veteran riders from the University of Minnesota will oppose the Badger representatives in a dual jumping contest, and in addition the meet will decide the Wisconsin State Amateur Ski championship. Over 40 of the best individual sliders from La Crosse, Stoughton, Superior, Stevens Point, Milwaukee, Chippewa Falls, and Eau Claire have entered the meet in competition for the amateur title.

Twelve of the best jumpers of the Norge Ski club, Chicago, are expected to be here for the meet. These men accepted invitations to the original meet which was postponed from lack of snow, and have signified their intention to take part in the events on February 18.

Special features of the meet will be exhibition jumps by Lars Haugen, professional champion of the United States, and by Ragnar Omtvedt, amateur champion. No prizes will be awarded the professionals who perform at the meet, as the contest is strictly for amateurs.

The team which Wisconsin will enter against Minnesota will be picked from the following: Hans Gude, Sverre Storm, Tom Norberg, Arne Brinck, Einar Isbehel, Gordon Taylor, and Ken Fagg. None of the men have had much practice due to the mildness of the winter, but many of the team showed good form in the meet at Cary and can be counted on to put up an interesting contest against the Gophers.

### COUNCIL TURNS DOWN BID OF COAST SCHOOL

### Track Men Will Not Attend Western Meet

the issue of inter-sectional games in the Big Ten conference.

"Wisconsin and Minnesota have always maintained a conservative attitude on the question of post-season contests," said a member of the council yesterday. "We want to see how other members of the conference stand on it, and to bring the matter to a head. With the current fight against professionalism and predominance of athletics, it is wise at this time to decline California's invitation for a track meet."

California had rearranged its entire track schedule to make room for Wisconsin on the April 15 date. Some time ago, Leland Stanford broached the possibility of a dual track meet with Wisconsin, but this proposal also was discarded.

### Approve 3 Hockey Matches

Three hockey matches were approved by the Athletic council. Michigan Agricultural college will be taken on at Lansing, Mich., on February 18, and the Badger puck chasers will meet the University of Michigan in a return match on February 20. The third game approved was that against the Milwaukee Athletic club which will be played at Milwaukee on March 11.

Plans for dressing quarters in the new section of the Camp Randall stadium were presented and discussed.

A "SNUB" POLLARD COMEDY

**"Beggar's Opera" Is  
Big Attraction at  
Parkway This Week**

Melodious music, wit that is just a wee bit wicked, humor that is broad, scenes laid in prison yards, and musty taverns are some of the ingredients that make up the Beggar's Opera, which is the legitimate attraction of the Parkway theater on Friday and Saturday of this week.

In London where the Beggar's Opera has had a tremendous run for the past three years, all previous records for continued popularity were broken. History repeated itself, for in 1728, the time when the Beggar's Opera was first produced it also held unapproached attendance records.

Written by John Gay, it furnished the very antithesis to the then existing stage, which held no mirror up to nature, but purveyed absurdly stilted, sugar-coated versions of high life. It was daring and debonair.

The first production of the Beggar's Opera shook the town awake; the reformers thundered against it; respectable communities forbade its presentation on the contention that it incited youth to turn highwaymen. For Gay really did build his sportive yarn upon the chronicles of a real highway robber, —a notorious one.

The Beggar's Opera became the forerunner of the modern musical comedy, and it is often called better than the best.

## Answering the Call

Of the Winter Sports Carnival Come these  
Smart Colorful Wraps

Who cares for nipping breezes? They bring sparkling eyes and rosy cheeks to the fortunate wearers of these trig sport things!

"On Wisconsin," we have named these handsome double new silk scarfs of cardinal, fringed and trimmed at the ends with bands of white. Their cheering brightness is destined to bring many a contestant to victory during the Ice Carnival. Surely nothing could be more appropriate for Campus wear than a really good looking silk scarf in the U. W. colors. They are most becoming. \$7.50.

### Warm Wool Gauntlet Gloves

Women's and children's wool gauntlet gloves and mittens with plain heather or fancy striped or checked cuffs. Less one-fourth, or 75c, \$1.12, \$1.50, \$1.87, \$2.62, and \$3.

### Novelty Wool Hose, \$1.50

Reduced from \$2

Dropped stitch novelty wool hose in brown, oxford gray and green heather mixtures.

### Clocked Wool Hose, \$3.50

Heavy Wool Hose in heather color combinations with fancy clocks.

### Extra Heavy Sport Hose,

\$1.75—were \$2.50

In brown and blue heathers, these are excellent rolled for sport wear.

### 1,000 Pairs LaFRANCE Seconds

Special for Wednesday, \$1.30

The irregularities in these pure silk hose are practically unnoticeable and they wear just as long as the regular stock, selling for \$2.50.

Many, who prefer to wear two pairs of silk hose in place of the wool, find these very practical to wear as underhose.

For the Co-ed who demands the best—

MISS NELL COLLINS

Expert Corsetiere

will give individual fittings of the Binner Corset all this week—fittings by appointment.

### Marjorie Says— Handbags of Leather—

Find new ways of interesting the hand of fashion. There is a clever new tooled style with a heavy silk cord for a handle, reasonably priced at \$3.50. Another with a strap handle in a small tooled style is very practical, \$2.50.

### Captivating New Shades—

May be made of picot-edged two-color ribbons. The ways in which pretty ribbon may be looped tied and knotted with flowers are as varied as the sashes themselves—and all are very smart. Many new pieces in the ribbon section suggest quaint and becoming trimmings for Spring things.
