The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

Dear Nurse,  
Mother and I want to thank  
you for telling us about  
**DENNISON**  
**DIAPER LINERS**

If your littlest patients could write, you would get fan mail for recommending Dennison Diaper Liners! These smooth, soft, lint-free liners are worn inside regular cloth diapers. They retard the growth of ammonia-forming bacteria — one of the principal causes of diaper rash.

**Mothers appreciate Dennison Diaper Liners, too.** They lift out intact when soiled — make diaper washing easier while they're keeping baby happy. No more messy handling of badly

soiled diapers! No more soaking and scrubbing to get rid of stubborn stains! Dennison Diaper Liners are disposable... help diapers last longer... cost less than a penny a change.

**The Medical Facts About Ammonia Inhibition by Dennison Diaper Liners**

	Ammonia* content mg/cc
Urine, unincubated, control	0.12
Same urine, incubated 27 hrs. at 37°C.	1.05
Same urine, incubated with Dennison Diaper Liner for 27 hrs. at 37°C.	.19
