MINUTES OF THE REGULAR MEETING
of the
BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM
Madison, Wisconsin

Held in the Clarke Smith Room, 1820 Van Hise Hall
Friday, September 7, 1990
9:00 a.m.

- President Lyon presiding -

PRESENT: Regents Davis, Doughty Luckhardt, Dreyfus, Flores, Gelatt
Gundersen, Hassett, Krutsch, Lyon, Nicholas, Schilling, Steil,
Vattendahl, Vos, and Weinstein

ABSENT: Regents Clusen and Grover

✓ Hassett, Regent Paul - welcomed as new Regent as VTAE ^{Board} President, P.1

Welcome to Regent Hassett

Regent President Lyon welcomed Paul Hassett, who had been elected President of the State VTAE Board on August 29 and who also had served on the Board of Regents from 1986-1988 as President of the VTAE Board. For many years, Regent Hassett was President of the Wisconsin Manufacturer's and Commerce, after which he became a consultant to the organization. He is to serve on the Regent Education Committee.

Approval of Minutes

Upon motion by Regent Schilling, seconded by Regent Vos, the minutes of the July 13, 1990, meeting were approved as distributed.

REPORT OF THE PRESIDENT OF THE BOARD

✓ VTAE ->

Report of the President of the VTAE Board explaining program to allow high school 16-year-olds to earn VTAE credits

Supplementing his written report, Regent Hassett emphasized the importance of the proposed program which would allow every person who is 16 years or older to attend VTAE schools and earn credit for vocational programs while in high school. This concept, which was endorsed by all 16 VTAE districts, is intended to help employers get an early start in training prospective employees and to sustain interest in education among non-college-bound students. Regent Hassett hoped that UW and VTAE staff would work together to explain what each system offers. P. 2

✓ HEAB ->

Report of the Higher Educational Aids Board, p. 2

Regent President Lyon called attention to the written report of the July 20, 1990, meeting of the Higher Educational Aids Board.

UW Hosp - Council of Trustees - Report on Hospital audit, resolution by Council on funding depreciation policy, statistical & financial reports

Report of the Council of Trustees, UW Hospital and Clinics pp 2-3

Reporting on the previous day's meeting, Regent Flores, Chair, noted that the Council first welcomed Dr. Lewis Chosy, the new president of the University Hospital medical staff.

The Council received a report from Peat Marwick, certified public accountant, which conducted an independent financial audit of the hospital for fiscal year 1989-90. The auditors found the hospital's financial and accounting systems to be sound and advised the Council about several matters related to the hospital's financial operations.

On the matter of funded depreciation, the auditors advised updating the policy for accumulating cash to plan for capital asset and equipment expenditures by reaffirming a resolution adopted by the Council in September 1979 in response to a motion by the Joint Finance Committee. The resolution adopted the previous day by the Council reads as follows:

"Whereas the Council of Trustees recognizes the benefits of adopting a policy of funding depreciation, the Council of Trustees reaffirms adoption of its policy of funding depreciation to accumulate funds for future plant expansion and replacement and acquisition of equipment. The funding goal shall equal the depreciation reserve. Transactions in the funded depreciation account will be reported to the Council of Trustees at least annually for review and acceptance."

Only in the last several years had it been possible to set aside money for a depreciation account. In view of the auditors' recommendations, it was considered important to attempt again to supply this fund. The process for Council review and approval of capital expenditures was to be discussed in detail at the November meeting.

The auditors recommended also that all restricted donations be routed through the hospital's fiscal department. Chairman Flores asked Superintendent Derzon and Mr. Peter Christman, Director of Finance, to examine the issue and bring to the Council at a future meeting their suggestions for a method of treating restricted accounts within the hospital's financial statements. Currently, some of those restricted accounts are overseen by the Foundation rather than by the hospital itself.

There had been a 7.2 percent increase in overall admissions in July and August and a corresponding increase of 2.1 percent in patient days, thus offsetting a reduction of 4.7 percent in average length of stay for the two-month period. Mr. Derzon also summarized statistical and financial indicators for the year ended June 30, noting that clinical activity generally exceeded that of the previous year. Outpatient visits increased almost 3 percent. The increased clinical activity, coupled with lower-than-expected bad debts, charity allowances and contractual allowances on Medicare and Medicaid, contributed to a favorable financial year.

Mr. Derzon reported also that preparations were being made for the September 19-21 survey to be conducted by the Joint Commission on Accreditation of Healthcare Organizations. A year ago, the UW Hospital was listed as one of the top 60 university hospitals in the country. It also was reported that the hospital this summer affiliated with Divine Savior Hospital in Portage, and that another affiliation is being planned with Mauston.

As required biennially, a subcommittee reviewed Council bylaws. Several recommendations were adopted by the Council and were to be brought to the Board in November.

✓ *Nicholas, Regent Albert - To appear on "Wall Street Week" TV program, p. 3*

National Television Appearance of Vice President Nicholas

Regent President Lyon reported that Regent Vice President Nicholas was to be the featured guest of Louis Rukeyser on an upcoming segment of "Wall Street Week." In reporting this appearance, *The Milwaukee Journal* observed that Regent Nicholas is one of the most successful mutual fund managers in the country.

✓ Campus Visits - *Thanks from Pres. Lyon to all involved in visits, p. 3*

Regent President Lyon thanked the Regents, Chancellors, President Shaw, Vice President Bornstein and Associate Vice President Ward for the excellent cooperation and efforts extended by all in arranging for the campus visits scheduled during the next two months. The visits were intended to provide unique opportunities for members of the Board to become better acquainted with the goals and needs of the institutions in preparation for biennial budget deliberations.

✓ Madison, Town of -

Signing of Petition for Referendum on Annexation of Town of Madison to City of Madison, p. 4

✓ (Xref) Madison, City of - (same)
At the June meeting, the Board had adopted a resolution authorizing the President of the Board to sign a petition for a referendum on annexation of the Town of Madison to the City of Madison, once the number of elector signatures required by statute had been collected--that requirement being 20 percent of the number who voted in the last gubernatorial election. Regent President Lyon reported that he had been notified by counsel for the petition circulators that the requisite number of signatures had been obtained, and he then signed the petition as directed by the June resolution. By taking that action, the Board had been responsive to the request that it facilitate holding of a referendum.

- - -

REPORT OF THE PRESIDENT OF THE SYSTEM

Approval of Nonpersonnel Actions/Informational Items

Upon motion by Regent Vos, seconded by Regent Davis, the following resolution was adopted by the Board of Regents:

Resolution 5574: That the report of nonpersonnel actions by administrative officers to the Board of Regents and informational items reported for the record (copy on file with the papers of this meeting) be received for the record; and that actions included in the report be approved, ratified and confirmed.

✓ (2) Women -

Presentation on the UW System Women's Studies Consortium, pp 4-6

Explaining that the explosion of research on women's experience/women's studies has been a major factor of change in teaching and scholarship over the past several decades, President Shaw said that with women's studies programs at the institutions, the UW System has been recognized as a national leader in the field for a long time. Since 1975, the UW System Women's Studies Consortium has served as a formal network for women studies departments. Focusing on collaborative initiatives and instruction, library resource development, research and outreach, the Consortium has become known as a pioneer inter-institutional model of educational innovation. It has enhanced the System's national prominence by helping to fulfill the central goals of the mission of the university and has led to the continued growth and development of education for and about women in the State of Wisconsin. It is one of the most cost-effective units, with investment dollars yielding many returns, such as donations of private funds and volunteer workers.

✓ (Xref) Regent Presentations - (same)

In introducing Dr. Jacqueline Ross, Interim Director of the Consortium, President Shaw stated that she was a founder and director for ten years of the women's studies program at UW-Platteville. She has published and

✓ (Xref) Academic Programs - (same)

presented papers nationally and internationally on women in the criminal justice system. For the past ten years, she also has worked as an administrator at the UW Centers and has been an instrumental force in the development of the Consortium.

Dr. Ross explained that the Consortium consists of the 14 campus-based and UW-Extension women's studies programs which have worked together since 1975. In 1989, it evolved into a formal network resulting from the requests by campus women's studies facilities, self-study and external evaluations. Dr. Ross then was appointed half-time Interim Director, and an Executive Committee was named. Work has continued on collaborative initiatives among departments, programs, research centers and scholars.

The major goal of the Consortium is to promote better education for, by, and about women, in order to prepare both women and men students for a more competitive world in the future resulting from major changes taking place which affect women's work, education and the role of higher education in particular.

Citing specific statistics, Dr. Ross said that by the year 2000, the majority of women will be working, with two thirds of the new entrants into the work force being women. Currently, one third of the women are in female-dominated jobs, representing little change from the situation in the 1960s. Women's wages have risen very little in relation to men's. In Wisconsin, for example, women with college degrees working full time earn an average annual salary slightly more than half of their male counterparts.

The percentage of women attending the university has increased, but women, by and large, continue to elect traditionally female fields of study. For example, only 12 percent of the engineering and 19 percent of the computer science undergraduates are women. This is due in part to societal expectations of women, the lack of role models in these departments, and the failure of the curriculum to adequately reflect women's concerns. The field of women's studies addresses these concerns.

Women's studies can be defined as "an expanding field of interdisciplinary scholarly inquiries." It focuses on women and women's experience and covers nearly the entire range of academic disciplines—from politics, to literature, to economics and science. Examples of courses taught systemwide include "Women and the Family," "Women and Health," and "Mass Media and the Sexes." A basic purpose of women's studies is to examine the roots of the problems women and men face in society and to create an awareness among students, enabling them to change themselves in positive ways.

Dr. Ross explained some ways in which the Consortium goals were focusing on collaborative solutions to today's problems. There were 18 campuses participating in the Consortium's Women and Science program which attracted over 2,000 middle and high school women, including minority women, to programs intended to interest them in science education and careers. Talks by distinguished women scientists highlighted these programs, which also included such activities as career seminars, tours of labs, and hands-on demonstrations.

A unique systemwide outreach program on women and the Wisconsin economy, sponsored by a grant from UW-Extension, will be undertaken this year, called "Self-Sufficiency for Women; Prosperity for All." It will develop programs throughout the state that address the entire situation of women in society--from education and career training to health care and family issues. Dr. Elizabeth Hirsch is coordinator of this new outreach project.

Dr. Ross announced also development of a curricular reform program which will promote the inclusion of gender issues throughout the university curriculum.

There is also an initiative to promote exchange programs with women in the Soviet Union who want to introduce women's studies into their country. Their first visit to the Consortium will take place in the fall of 1991.

Other Consortium activities include an audio-visual collection, conferences, publications and research. As a Consortium, it is the intent to pursue external funding to help support this project.

Concluding her presentation, Dr. Ross said: "Thus, we see the Consortium as providing significant support to the UW's efforts at bringing together female and male faculty from throughout the UW System to provide gender equity for women, and this way we will help to prepare our students, both women and men, to meet the challenges of the 1990s." Noting that the Consortium office is located in the central office of the UW Centers, she then introduced Dr. Audrey Roberts, Women's Studies Chair at UW-Whitewater, and Susan Searing, UW System Women's Studies Librarian.

In reply to a question by Regent Krutsch about what is meant by promoting the inclusion of gender issues throughout the university curriculum and how the Consortium can do this, Dr. Ross gave the example of a System program called "Women of Color Project," which was funded by a Ford Foundation grant to UW-Madison. Involving many other campuses in the System, it resulted in a series of seminars where distinguished minority speakers addressed the Consortium faculty. Those faculty members now are joining with other faculty to include material about minority women in a wide variety of courses throughout the curriculum. Another example would be in the sciences, where the Consortium has a "Women and the Sciences" initiative to oversee inclusion of gender materials in introductory science courses.

Responding to Regent Krutsch's further question about the meaning of material about gender in introductory science courses, Dr. Ross illustrated that in biology courses, for instance, they were ensuring that the role of women and women's bodies are adequately included and that information is properly noted about women who have been biologists and who have distinguished themselves in their field.

Regent President Lyon and System President Shaw both thanked Professor Ross for this informative presentation on women's studies.

✓ ~~Congratulations to UW-Extension - selected to be,~~

~~Announcing that the outstanding abilities of UW-Extension recently were recognized by three national programs, President Shaw noted first that UW-Extension will be the center of the National Rural Development Institute, and will receive a half million dollars in federal funding to train key federal agency officials and rural development councils in all of the 50 states. This was a unique accomplishment and an acknowledgment of UW-Extension's expertise in training and rural development.~~

~~Second, UW-Extension had been selected as the host institution for a new National Extension Administrative Development Program which will train current and promising future extension leaders at all levels throughout the country.~~

~~Third, UW-Extension was to host the quarterly meeting of the National Small Business Development Centers Advisory Board, Wisconsin was chosen because of its highly successful Small Business Development Center.~~

~~Students -~~

→ ~~SAT/ACT Test Results, p. 7~~

Reporting that Wisconsin high school students continue to score well above the national averages, President Shaw noted the average ACT composite score of the Wisconsin 1989 high school graduates was 20.1, compared to the 18.6 national score. New freshmen at UW institutions averaged 20.7, two points above the national average. On the 1990 SAT, Wisconsin students also score significantly higher in mathematics and in verbal aptitude than the national average.

However, national average performance in these tests had not been improving in recent years. SAT mathematics scores for the nation had held steady over the past three years, while verbal aptitude scores had fallen for the fourth year in a row.

Findings reported recently by the College Board emphasized the importance of good high school preparation for high performance on these tests. Nationally, 40 percent of the 1990 SAT takers had studied more than 20 academic courses in high school, and these students averaged about 50 points higher than the national average on both verbal and mathematics aptitude tests. This was true also in Wisconsin, where 57 percent of the test takers reported 20 or more years of academic courses, with an average score 84 points higher in verbal aptitude and 100 points higher in mathematics, when compared to the national averages.

President Shaw had written a letter to the editors of all Wisconsin newspapers emphasizing to students and parents the importance of giving highest priority to studies.

✓ UW System Administration - Welcome to

Welcome to New Staff/Visitor

~~President Shaw~~ introduced and welcomed Maureen Quinn, the new System Assistant Vice President for Information Services, replacing Harvey Breuscher. Maureen joined the staff in July after having served as the corporate and government communications officer for the Wisconsin office of the Automobile Association of America.

→ p. 8

✓ London - Welcome to visitor from

Second, he welcomed a special international guest, Mrs. Barbara Anderson, who is a personal assistant to the Vice Chancellor of the University of London and the administrative officer for public relations at that institution. She is visiting as part of a continuing international exchange program.

→ p. 8

✓ Smeltsor, Dr. Marjorie - Welcomed as Vice Chan, UW-Eau Claire as of 7/1/90, p. 8

Third, President Shaw introduced Dr. Marjorie Smeltsor, who had taken office as Vice Chancellor of UW-Eau Claire on July 1. Formerly Dean at Ball State University, Dr. Smeltsor holds a Ph.D. in English from UW-Madison.

✓ Chancellors - Dr. Marjorie Smeltsor, Vice Chan, UW-Eau Claire, 7/1/90, welcomed, p. 8

✓ UW-Eau Claire - staff - " " welcomed to Board as Vice Chan, effective 7/1/90, p. 8

→ Preliminary Enrollment Reports, p. 8

✓ Enrollment -

Noting that enrollment reports were not yet final, President Shaw reported that preliminary figures showed a 1300-1600 student reduction in enrollment over the previous fall, which would be 700-1000 students short of the overall four-year goal for enrollment reduction.

REPORT OF THE EDUCATION COMMITTEE

Regent Davis, Vice Chair, presented the Committee's report.

Consent Agenda Items

Regent Davis presented Resolutions 5575 through 5588 which had been approved unanimously by the Education Committee as consent agenda items and moved their adoption by the Board of Regents. There being no Regent request to remove any resolutions from the consent agenda, the motion was seconded by Regent Weinstein and carried unanimously.

✓ Academic Programs -

→ Five-Year Review: B.S. Computer Information Systems Program, UW-Stevens Point, R 5575, p. 8

Resolution 5575: That, upon recommendation of the Chancellor of the University of Wisconsin-Stevens Point and the President of the University of Wisconsin System, the B.S. in Computer Information Systems be continued, with the understanding that it will be included within that institution's normal academic evaluation process.

(xref) UW-Stevens Point -

Academic Programs -

Five-Year Review: B.A./B.S., Information and Computing Science,
UW-Green Bay, R 5576, p.9

✓ (Xref) UW-Green Bay - (same)
sub drop "UW-Green Bay"

Resolution 5576: That, upon recommendation of the Chancellor of the University of Wisconsin-Green Bay and the President of the University of Wisconsin System, the B.S./B.A., Information and Computing Science be conditionally continued until the 1993-94 academic year. At that time, it will be reviewed again and, if deemed acceptable, be presented to the Education Committee for approval and placement into the normal institutional review cycle. By that time it is expected UW-Green Bay will be able to report that:

the development of new course work specific to ICS, particularly in information structures, networks, and visual information systems, will have been completed and implemented, accompanied by the development of a new introductory course, and more integrative course work which will in turn have enabled the development of an interdisciplinary minor in ICS;

the establishment of ICS as an independent department and organizational budgetary unit will have been completed, and the effect on faculty, program development, resource maintenance and acquisition assessed;

a survey of students who drop from the major without completing the degree in ICS will have been completed to provide an understanding why the rate is so high;

the survey of former graduates regarding the quality and need for this program will be established as an ongoing activity;

a formal evaluation by an outside agent (e.g. the Institute for Learning Science at Northwestern University or the program in Information Sciences at the University of Pittsburgh), mutually agreed upon by System Administration and the University of Wisconsin-Green Bay, will have been completed.

✓ UW-Oshkosh -

Policy on Awarding Honorary Degrees, UW-Oshkosh R 5577, p.8

Resolution 5577: That, upon recommendation of the Chancellor of the University of Wisconsin-Oshkosh and the President of the University of Wisconsin System, the UW-Oshkosh Guidelines for Awarding Honorary Degrees be approved.

✓ UW-Eau Claire -

Policy on Awarding Honorary Degrees, UW-Eau Claire R 5578, p.9

Resolution 5578: That, upon recommendation of the Chancellor of the University of Wisconsin-Eau Claire and the President of the University of Wisconsin System, the UW-Eau Claire Guidelines for Awarding Honorary Degrees be approved.

Policy on Awarding Honorary Degrees, UW Whitewater

R 5579, p.10

Resolution 5579: That, upon recommendation of the Chancellor of the University of Wisconsin-Whitewater and the President of the University of Wisconsin System, the UW-Whitewater Guidelines for Awarding Honorary Degrees be approved.

UW Extension Divisional Name Changes

Resolution 5580: That, upon recommendation of the Chancellor of the University of Wisconsin Extension and the President of the University of Wisconsin System, and in accordance with policy guidelines contained in ACIS 1, the request of the Chancellor that the Division of General Extension be renamed the Division of Continuing Education Extension, University of Wisconsin-Extension, and that the Division of Telecommunications be renamed the Division of Extension Communications, University of Wisconsin Extension, be approved.

R 5580, p.10

Appointment of Solid Waste Research Council

Appointment of members,

Resolution 5581: That, upon recommendation of the President of the University of Wisconsin System, in conformance with 1989 Wisconsin Act 335, wherein the University of Wisconsin System Board of Regents was directed to appoint a Solid Waste Research Council to advise the Board concerning the awarding of funds for research projects associated with the Solid Waste Experiment Centers program, the following individuals are hereby appointed to constitute the Solid Waste Research Council:

R 5581, p.10

<u>Name</u>	<u>Institution</u>
Dr. Robert Wenger	UW-Green Bay
Dr. Paul Berthouex	UW-Madison
Dr. Tarun Naik	UW-Milwaukee
Dr. Thomas Herzing	UW-Oshkosh
Dr. Max Anderson	UW-Platteville
Dr. Robert Butler	UW-River Falls
Dr. Aga Razvi	UW-Stevens Point
Dr. Douglas Wikum	UW-Stout
Dr. Vay Rodman	UW-Whitewater
Dr. Patrick Walsh	UW-Extension

Also, that the Solid Waste Research Council develop policies and procedures for reviewing and funding solid waste research projects; invite requests from all UW System campuses that have an interest in advancing projects and forward to the Board for approval those projects which the Council recommends for funding. In addition, the Solid Waste Research Council members are asked to provide the Board with guidance for the Solid Waste Experimental Centers Program and to promote collaboration in solid waste research.

Authorizations to Recruit -

Authorization to Recruit Dean, UW Center-Rock County, R 5582, p. 11

✓ Teachers

Report of the Acting Vice President

Report on Credit Outreach for Teachers *p. 12*

elementary & secondary school

Acting Vice President Beaver reported to the Education Committee on UW Extension credit outreach for elementary and secondary school teachers. This report was given in response to questions raised by Regent President Lyon concerning UW System efforts related to credit outreach programs for teachers.

In discussion, Regents asked whether the information in the report was responsive to the questions which were raised: (1) Is the University System meeting the curricular needs of the elementary and secondary teachers, whether through on-campus credit instruction or credit and non-credit outreach courses and programs? (2) Are the efforts of the various universities coordinated to meet client needs? (3) Is there a problem in this area with respect to meeting demand for courses? It was suggested that a survey of teachers be taken to identify whether needs are being met.

✓ NSF - \$455,862 grant received by UW System / DPI for
National Science Foundation Grant

The Education Committee was informed that the National Science Foundation has awarded a continuation grant of \$455,862 to the UW System Administration/DPI cooperative project: "The Wisconsin Science Education Service Centers Network." The grant is part of the NSF's Teacher Enhancement Program in the Division of Science and Engineering Education. Centers are located at UW-Green Bay, UW-La Crosse, UW-Milwaukee, UW-Parkside, UW-Platteville, UW-Stevens Point and UW-Superior. → p. 13

New Card →
The total amount awarded by the NSF for the five years of the project (1986-91) is now slightly under \$2 million, which is one of the largest teacher enhancement awards granted by the National Science Foundation.

→ Undergraduate Education - Reports on undergraduate education to begin in October, p. 13

The Committee was advised that they would be presented with a series of informational reports on undergraduate education beginning in October. These reports will lay out the steps the System has already taken in this area, describe additional initiatives that campuses have taken to improve undergraduate education, and identify the remaining items that need additional attention as part of the agenda for the 1990s.

In addition, the October report will summarize several recent national reports, including *Campus Life: In Search of Community* and *College: The Undergraduate Experience in America* by Ernest Boyer and the "Seven Principles of Good Practice in Undergraduate Education" from *The Wingspread Journal*. These reports will culminate in a discussion of possible future initiatives in this area.

✓ Strategic Planning - Report on Strategic Planning in Teacher Education received, pp 13-14
Strategic Planning in Teacher Education

President Shaw presented to the Education Committee his report on strategic planning for teacher education, which included a description of the strategic planning process, the report and recommendations of the steering committee, and the President's proposed guidelines developed on the basis of those recommendations. Also appearing before the Committee were Robert L. Bauer, Dean of Professional Studies at UW-Green Bay, who chaired the steering committee, along with members of the committee.

The Education Committee then had a thorough discussion of the report, resulting in the following suggestions and conclusions: (1) recommendation for an urban training center should be more focused and should build on the UW-Milwaukee program; (2) teachers should be sensitized to the needs of non-college bound students, with expanded teacher awareness of career options and skill requisites of non-college programs; (3) the relationship

of VTAE to the secondary sector should be more fully considered; (4) there is need for flexibility at the campus level, with concomitant need for a better grasp and measure of the outcomes. Also discussed was whether an annual report should be required.

The guidelines, taking into consideration points raised in the discussion, will be reviewed for revisions and returned to the Board for recommended adoption.

✓ Academic Programs - Initial review for

New Program Plans

Regent Davis reported that the Committee conducted an initial review of authorizations to plan two new programs: (1) M.S. in Business with a major in Distribution Management, UW-Madison, and (2) B.S. in Materials Science and Engineering, UW-Madison, → P. 14

The programs will be brought before the Committee next month for action and review by the full Board.

✓ Administrative Code - First quarterly report on implementation of UWS 17, p. 14

Implementation of UWS 17, Wis. Admin. Code

The Committee received, for information purposes, the first quarterly report on the implementation of UWS 17, *Wis. Admin. Code*.

Regent Weinstein pointed out the following corrections to the preliminary minutes of the Education Committee: page 3, line 26, quality of education should be changed to quality of instruction. Page 7, Item 8 should indicate that the Committee was generally satisfied with the way UWS 17 is being enforced at the campus level and is not recommending any language change at this time.

- - -

REPORT OF THE BUSINESS AND FINANCE COMMITTEE

Regent Gelatt, Chair, gave the Committee's report.

Consent Agenda Items

The following resolutions, which were approved unanimously by the Business and Finance Committee, were presented as consent agenda items for action as a single unit by the Board of Regents.

With respect to Resolution 5589, Regent Gelatt explained the decline in student aid support as being the result of a change in the federal authorization methodology for Pell grants. By the end of the school year, the effect was expected to be minimal. Also on page 90 of the September report, there was a \$1 million overstatement of an award to UW-Whitewater. This mistake was to be corrected in next month's report.

The Lawrence C. Wheeting bequest (Resolution 5590) was amended to institute a new policy enacted by the Business and Finance Committee, restricting quasi-endowments over \$50,000 so that only the income may be expended.

Upon motion by Regent Gelatt, seconded by Regent Nicholas, Resolutions 5589 through 5591 were adopted by the Board of Regents, with Regent Davis abstaining from the vote on Resolution 5589.

Approval of Gifts, Grants and Contracts

Resolution 5589: That, upon recommendation of the President of the University of Wisconsin System, the gifts, grants and contracts presented at this meeting be accepted, approved, ratified and confirmed (copy on file with the papers of this meeting); and that, where signature authority has not been previously delegated, appropriate officers be authorized to sign agreements.

✓ Bequests -

→ Request of Lawrence C. Wheeting, R 5590, p.15

Resolution 5590: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of UW-Madison, the bequest of the late Lawrence C. Wheeting, Seattle, Washington be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the Will on the condition that only income be expended; and that the Trust Officer or Assistant Trust Officers be authorized to sign receipts and do all things necessary to effect the transfer for the benefit of UW-Madison.

(Lawrence C. Wheeting's Will stated the following:

C. One-fourth (1/4) of the rest, residue and remainder of my estate I hereby give, devise and bequeath unto the UNIVERSITY OF WISCONSIN, of Madison, Wisconsin.

Lawrence C. Wheeting received a Ph.D. in Agriculture from UW-Madison in 1928. The amount of the bequest is approximately \$100,000.00.)

→ Transmittal of Report on Base Salary Adjustments to Recognize Competitive Factors, R 5591, p.15

Resolution 5591: That, upon the recommendation of the President of the University of Wisconsin System, the Report on 1989-90 Base Salary Adjustments to Recognize Competitive Factors Required by Section 36.09(1)(j), Wisconsin Statutes, be accepted for transmittal to State Officials.

(X ref Salaries - same)
(X ref Compensation - same)

Tuition -
for 1991-93
biennial
suppl.
P. 16

Noting the request by a number of Regents at the July meeting for review of UW System tuition policies, Regent Gelatt summarized the report made the previous day with regard to the time frame for decision making. Executive Vice President Lyall indicated that in November the Board will take action on the 1991-93 biennial budget, which will propose the total amount of revenue to be raised from tuition. Actual tuition rates will be set in July 1991. A reasonable sharing of costs between students and the state requires a judgment as to the percentage of benefits flowing to the student and the percentage flowing to the society at large. The average share of instructional cost borne by all categories of students—undergraduates, graduates and professionals—has increased from 28 to 35 percent over the past 20 years.

Dr. Lyall outlined nine possible tuition-setting policies which fall into two basic categories: fees based on some percentage share of costs—which is the currently-used method, or fees based on some formula unrelated to actual instruction cost. She indicated that the formula-based approach appears to be easier to implement than it actually is. Most of those institutions using formula-based approaches tend not to actually follow the formula. She noted also that because 73 percent of all UW students are resident undergraduates, attempts to lessen the tuition burden on those students would require significant increases to the other much smaller categories of students, unless additional GPR is contributed.

Gloria Toivola, of TAUPW, and Brenda Leahy, of United Council, also addressed the Committee on the topic of tuition.

In discussion at the Board meeting, Regent Weinstein noted his previous request for information on MBA tuition as compared to Law School tuition and to MBA tuition at peer institutions.

Endowments -

Review of Policy Statement on Quasi-Endowments, pp 16-17

In response to a request by the Business and Finance Committee, System Administration had reviewed the Regents' ability to restrict the expenditure of principal of quasi-endowments. It was determined that restrictions could be placed on expending principal as long as to do so would not be contrary to donor intent.

xref Policies of the University - (same as above)

After discussion, the Committee endorsed a practice which specifies that, in the absence of donor language, all new quasi-endowments would be identified as designated endowments. Only the income from the trust would be available for expenditure in accordance with the terms of the trust agreement. A formal process for an exception to the policy was also established. In addition, the Committee asked System Administration to develop a resolution to be presented at the October meeting which would make this practice Regent policy.

In response to a question by Regent Flores, Regent Gelatt defined a quasi-endowment as an endowment in which principal may be expended if income from the fund is insufficient to meet the needs. The purpose of restricting

expenditure of principal is to protect the endowments to support future needs. Whether gifts are endowments or quasi-endowments is dependent on the language of the bequest.

✓ Faculty -

→ Report on Unclassified Pay Plan and Salary Catch-Up Adjustments, p. 17

Regent Gelatt reported on a presentation made to the Committee by Vice President Poellnitz of catch-up and pay plan adjustments for faculty and academic staff. In order for catch-up to be awarded, a strict set of criteria had to be met. Seventeen percent of the faculty and 49 percent of the academic staff received no catch-up increase. The pay plan was funded at 4.25 percent for 1990-91. An additional .25 percent could have been awarded from base fund reallocations. The Board restricted pay plan increases to those individuals with a satisfactory or higher performance. Two percent of the faculty and 5 percent of the academic staff received no pay plan increase.

(x ref Academic Staff - same)

The distribution of faculty catch-up indicated that funds were not distributed uniformly and were awarded to individuals in disciplines that were below the competitive market level.

(x ref Salaries - same)

In discussion at the Board meeting, Regent Flores asked if the fact that some faculty and staff received no catch-up and no pay plan increases indicated that there are problems which should be addressed.

✓
(x ref Compensation - same)

With regard to catch-up, President Shaw said the numbers indicated that serious efforts were made to make the market adjustments where they were most greatly needed. Regarding the 2 percent and 5 percent who received neither catch-up nor pay plan increases, he felt it could be assumed that they were judged not to have been performing at the level expected in many cases. In some cases, however, there were other reasons for failure to grant increases.

Regent Weinstein cited the example of departments where senior faculty members voluntarily passed up increases because money is needed to recruit new faculty.

✓
Budget -

Report of the Vice President

→ Gramm-Rudman-Hollings Plans, p. 17

Vice President Poellnitz gave a brief presentation to the Committee on Gramm-Rudman-Hollings planning. Although it was too early to know the impact on the institutions within the UW System, all were reviewing the situation and developing contingency plans in the event that there is a sequestration of funds.

✓
Athletics - Report on football & finances, pp 17-18
UW-Madison Athletic Department

Al Fish, UW-Madison Athletic Department Finance Director, reported that general public season football ticket sales totaled 22,550, compared to 19,411 last year. Student and staff projected season ticket sales were up

4,000 and 400, respectively. Attendance was estimated to range from 45,000 at the California game to 62,800 at the Michigan game. The average attendance for all home games was expected to be about 50,000--an increase of approximately 10,000 per game over last year.

In discussion at the Board meeting, Regent Nicholas expressed confidence in the progress being made in the Athletic Department. He thought Chancellor Shalala, Athletic Director Richter, and Head Coach Barry Alvarez were moving in the right direction. It will be necessary, he cautioned, to have patience, since it will take time to develop a winning program.

REPORT OF THE PHYSICAL PLANNING AND DEVELOPMENT COMMITTEE

Regent Gundersen, Chair, gave the Committee's report.

Consent Agenda Items

Resolutions 5592 through 5600, which were unanimously approved by the Physical Planning and Development Committee, were presented as consent agenda items for action as a single unit by the Board of Regents. It was moved by Regent Gundersen and seconded by Regent Steil that these resolutions be adopted by the Board.

At the request of Regent Steil, Resolution 5600 was withdrawn from the consent agenda.

Put to the vote, Resolutions 5592-5599 were adopted unanimously.

~~UW-Madison: Authorization to Construct Charter Street Heating Plant Chilled Water Variable Frequency Drive, R 5592, p. 18~~

Resolution 5592: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, authorization be granted to construct an East Campus Chilled Water Variable Frequency Drive Installation project for an estimated project cost of \$563,000, using 1989-91 General Fund Supported Borrowing - Maintenance Program funds.

~~UW-Madison: Authority to Construct Charter Street Heating Plant Air Compressor Replacement, R 5593, p. 18~~

Resolution 5593: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, authority be granted to construct a Charter Street Heating Plant Air Compressor Replacement project at an estimated total project cost of \$355,000, from General Fund Supported Borrowing - Maintenance Program funds.

UW-Stevens Point: Authorization for Land Use Agreement for Addition to Schaeckle Reserve Visitor Center, R 5600, pp 20-21

Regent Steil moved that the agreement for Resolution 5600 be amended to increase liability insurance coverage from \$300,000 to \$1 million. The motion was seconded by Regent Krutsch.

Regent Dreyfus inquired as to the fiscal implications of the amendment, and Vice President Brown replied that the impact would be minimal.

Put to the vote, the amendment was unanimously approved.

The question then was put on Resolution 5600 and it was adopted unanimously as follows:

Resolution 5600: That, upon the recommendation of the UW-Stevens Point Chancellor and the President of the University of Wisconsin System, authorization be granted for the Chancellor to execute a Land Use Agreement with the Wisconsin Conservation Hall of Fame, Inc., for Construction of an addition to the Schmeckle Reserve Visitor Center with further authorization granted to accept, upon completion, this gift-in-kind valued at approximately \$90,000. Approval is conditioned on the construction contract providing liability insurance coverage of \$1 million.

✓
Radio & Television - Approval of -

WHA-TV Tower Replacement, R 5601, pp 21-23.

Summarizing Committee review of this project, Regent Gundersen noted the increased cost which was based on bids opened on August 28. While the original proposal requested authority to construct the tower replacement, the Committee concluded that it would be desirable to establish the financial viability of the project prior to granting the authority to construct. The resolution was amended accordingly. The resolution also provides authorization to negotiate a lease-purchase agreement with the Motorola Corporation, so that the UW System would not own and operate the tower.

Regent Gundersen moved adoption by the Board of Regents of the following resolution, which was unanimously approved by the Committee, and the motion was seconded by Regent Davis:

Resolution 5601: That, upon the recommendation of the President of the University of Wisconsin System, approval be granted for a budget increase of \$32,995, to a revised authorized project budget of \$3,182,995, from Program Revenue Supported Borrowing, with authority to construct contingent upon subsequent approval by the Board of Regents after the financial viability of the project has been established; with further authorization granted to the President (or designee) to negotiate a lease-purchase agreement with the Motorola Corporation. The revenue stream for the debt service will be lease payments made by tower occupants or by Motorola.

Regent Gelatt stated his understanding that Motorola was reluctant to build the tower but would be interested in leasing it from the university. He questioned whether it would be appropriate state policy to use state bonding authority to subsidize the construction of a tower for private enterprise.

Regent Flores noted that the tower would not be constructed only for Motorola but also would be used for university purposes.

Regent Krutsch added that another issue for consideration is whether it is a worthwhile expenditure to build a new tower at this time, simply because the existing tower is situated on land that might at some future time be used for research. The Committee's understanding was that the existing tower is adequate to meet current needs.

Noting that the 40 acres in question are on Research Park property, President Shaw commented that, because of the time it would take to move the tower, it would not be possible to wait to proceed until a potential Research Park occupant came forward. The proposal before the Board had received approval by the Legislature and the Governor.

Regent Bornstein added that the time period involved in moving the tower is approximately two-three years and that authority must come from the State, the Federal Communications Commission, and from the Federal Aviations Board. These agencies would cancel construction permits after a certain period of time if the project did not proceed. He considered it in the best interest of the university and the state to move ahead at this time.

Regent Krutsch asked if there is something unique about this site that 40 acres in another location could not match.

In reply, Vice President Bornstein explained that the 40-acre site is in a prime area of development, adjacent to a major road and not far distant from a piece of property already occupied by a medical facility.

President Shaw added that people moving into a research park want to be able to work with colleagues in other parts of the park. Therefore, a 40-acre tract elsewhere would not be attractive.

It was noted by Vice President Bornstein that, from a standpoint of aesthetics, prospective Research Park tenants would not want a 1,250-foot tower nearby. There also is the problem in winter of ice collecting on the wires and endangering people in the vicinity.

Regent Dreyfus pointed out that there is no broadcasting need to change the tower's location. The real issue is the question raised by Regent Krutsch as to whether it is worth \$3 million to undo a previous decision and move farther west in order to provide research space in that specific location.

Regent Bornstein noted that the project would not be GPR funded.

Regent Dreyfus pointed out, however, that the power to borrow at a much lower rate is tied to a tax payer base, in addition to which WHA and WERN each would pay \$60,000 a year for space in a replacement tower.

Vice President Bornstein added that there is potential for taking down two other towers currently existing in the Madison skyline and combining them in this facility, which would house Channels 21, 47 and 27.

Noting that Channel 47 may not survive, Regent Dreyfus considered the transaction questionable, which is why the Committee approved only negotiations but not construction.

Regent Davis urged approval of the resolution with recognition that it did not authorize construction of the tower. He was comfortable with a lease/purchase arrangement because it would transfer cash flow risk from the state to the private sector.

As to whether the new tower should be built, he commented that the Research Park land is an inappropriate place for a tower and is too valuable to be used for that purpose.

Regent Flores commented that, for a relatively small amount of money, 40 prime acres would be made available. Noting that the resolution only authorized the administration to try to put a package together, he urged the Board to approve it.

Regent Gundersen asked if any interested party had turned down land in the Research Park because of the tower.

Replying in the affirmative, Chancellor Shalala remarked that the Research Park is booming and that it is important to anticipate the future by making available those 40 acres.

As one who had served on the Research Park Board, Regent Nicholas thought it made sense to make the land available as long as a great financial risk is not involved. He therefore supported the resolution.

Put to the vote, Resolution 5601 was adopted unanimously.

✓
Charter Street Heating Plant - Flyash from plant turned by
Wisconsin Power & Light - Rock County
generating station, p. 23

Report of the Vice President

Fly Ash Project with Wisconsin Power and Light

Regent Gundersen reported on a project involving the burning of fly ash from the UW-Madison Charter Street Heating Plant in the Wisconsin Power and Light Company-Rock County generating station. This new process saves the university approximately \$140,000 per year in landfill cost as well as avoiding the filling up of scarce landfill space. Deposits also provide about 10,000 tons of fuel to Wisconsin Power and Light, which makes it unnecessary to use that amount of non-renewable fossil fuel resources. This represents a very worthwhile program and reflects imagination and initiative.

The Committee considered it appropriate to recognize that effort and therefore adopted resolutions of commendation for the three individuals most closely involved with the program: Craig Weiss, Division of State Facilities Management power plant engineer; Greg Eirschele, environmental engineer with Wisconsin Power and Light Company; and Stan Novotney, UW-Madison Charter Street power plant superintendent, who has the primary responsibility for implementing the program. Copies of the resolutions are to be given to those three worthy individuals.

✓
Energy Conservation - Incentive award of \$100,000 from Madison Gas & Electric to
Walnut Street Heating Plant chiller, pp 23-24
Energy Conservation Incentive Award

It was reported to the Committee that Madison Gas and Electric Company granted the university a \$100,000 energy conservation incentive award for the decision to purchase a high-efficiency chiller for the UW-Madison Walnut

✓
(x ref) Walnut Street Heating Plant - same

Street Heating Plant. This new chiller is expected to save the university about \$12,000 a year in energy costs and will help to hold down utility rate increases. The chiller will also be used to air condition the Veteran's Administration Hospital, allowing that project to be completed earlier than expected and at a reduced cost to the federal government.

Regent Gundersen considered these examples of inter-agency cooperation and energy conservation efforts to be highly commendable, especially in light of the present crisis in the Middle East.

Bldg & Land - Survey to evaluate condition of System buildings, Building Condition Survey p. 24

Regent Gundersen reported on the building condition survey being conducted throughout the University of Wisconsin System and which was to be completed by the end of September. The result of this survey will form the basis for evaluating various needs throughout the System and determining priorities for the infrastructure portion of the 1991-93 capital budget. Copies of the forms and instructions sent to the chancellors were distributed to the Committee and were explained by Vice President Brown and other staff. Regent Gundersen asked Mr. Brown to send them to all Regents, since the survey represents a significant step forward in knowledge of maintenance shortfall.

He commended Vice President Brown and his staff for having initiated this project last fall, in order to provide a significant tool for determining the priorities and costs of infrastructure projects.

UW-Eau Claire - Bldg & Land - approval of

UW-Eau Claire Davies Center Project Budget Increase, R 5602, p. 24

The Committee was advised that this request was generated because of bids which were received on the project. The increase will allow inclusion in the project of storage space needed in conjunction with the addition. This space was included in the design report previously approved by the Board, but the Division of State Facilities Management staff had required it to be shown as an alternate when the project was bid.

Adoption by the Board of Regents of Resolution 5602, which was approved by the Committee, was moved by Regent Gundersen, seconded by Regent Gelatt and carried, with Regent Doughty Luckhardt voting "No."

Resolution 5602: That, upon the recommendation of the UW-Eau Claire Chancellor and the President of the University of Wisconsin System, authorization be granted for a \$194,000 increase in the budget for the Davies Student Center Remodeling project, from \$2,516,000 to a revised total project cost of \$2,710,000, to be funded from Program Revenue - Student Center Funds.

Request - Officers -

ADDITIONAL BUSINESS

Approval of Position Description for Secretary of the Board, R 5603, p. 25

The members of the Board had received an updated position description for the Secretary of the Board which reflects current responsibilities.

Upon motion by Regent Weinstein, seconded by Regent Steil, the position description was unanimously approved as distributed.

Resolution 5603: That the position description for the Secretary of the Board of Regents be approved.

(A copy of the position description is on file with the papers of this meeting.)

At 10:50 a.m., the following resolution, moved by Regent Nicholas, was unanimously adopted on a roll call vote, with Regents Davis, Doughty Luckhardt, Gundersen, Krutsch, Lyon, Nicholas, Schilling, Steil, Vattendahl and Vos voting "Aye" (10), and no Regents voting "No."

Resolution 5604: That the Board of Regents recess into closed session to consider personnel matters, as permitted by s. 19.85(1)(c), *Wis. Stats.*; to consider possible action on appointments to the UW-Milwaukee Board of Visitors and UW-Madison honorary degree nominations, and to consider personal histories relating to naming of a room at UW-River Falls, as permitted by s. 19.85(1)(f), *Wis. Stats.*; and to confer with legal counsel, as permitted by s. 19.85(1)(g), *Wis. Stats.*

The Board arose from closed session at 12:35 p.m. and made the following announcements:

II. CONTRACT CHANGE ORDERS IN EXCESS OF \$30,000

A. UW-Madison:

- 1) 1987-89 1987-89 CSHP Steam Service Safety Device Modification (8309-17)

a) Change Order 1: *Clinical Sciences Center - Special Use Permit with Forest Products Lab. for one-year power* \$ 47,265

III. REPORT OF ACTIONS TAKEN (MEMOS OF AGREEMENT) *on construction site, Norpus.*

(Kref)

Forest Products Lab - Special Use Permit with CSC for one-year power on construction site, Norpus. 1/15/90

A) The UW-Madison Vice Chancellor for Administration has signed on *Item A* July 2, 1990, on behalf of the Board of Regents, a Special Use Permit with Forest Products Laboratory to facilitate overhead power services for one year to the construction site of the Clinical Science Center Patient/Visitor Parking Ramp. This will allow the installation of a pad mount transformer and adjacent power pole at the existing transformer located on the Forest Produces Laboratory (FPL) property inside the perimeter chain-link fence between Highland Avenue and the FPL Pilot Plant.

Trademark Registrations - Acceptance of 14 trademark registrations for UW-Madison, Norpus Item B

B) The UW-Madison Vice Chancellor for Legal and Executive Affairs, on July 3, 1990, signed, on behalf of the Board of Regents, fourteen State of Wisconsin trademark registrations. These trademarks identify the University of Wisconsin-Madison, its programs, services and goods. Their use by outside parties will be subject to license agreements.

C) University of Wisconsin Press Agreements:

- Richard M. Merelman PARTIAL VISIONS: Culture and Politics in Britain, Canada and the United States
- Frederick Cooper, et al. REBUILDING HISTORICAL PARADIGMS: Peasants, Labor and the Capitalist World System in Africa and Latin America
- Catherin M. Coles and Beverly B. Mack (Editors) HAUSA WOMEN IN THE TWENTIETH CENTURY
