## STUDENTS FAIL TO ASK USE OF HONOR SYSTEM

**Prof. F. C. Sharp Willing to Give Psychology Finals on That Basis**

"No student so far has approached me on the matter of conducting the psychology final examination on the honor system," said Prof. F. C. Sharp, yesterday. "The students must take the initiative. If a sufficient number feel that the sentiment of their fellow-students favors the honor system, I will put the matter to a vote of both sections. If two-thirds of the class believe in the honor system, the examination will be held in that way."

Monday, Professor Sharp announced to two large introductory psychology sections that the examination would be conducted on the honor system if a number of students told him that they thought the majority of the class favored the system. Last year a group of students wanted the system, but the class voted it down by three votes.

"Several years ago, though," said Professor Sharp, "a class of 120 students in business ethics voted in favor of the system. When the examination was given the leaders who had favored it seated themselves around the room and reported that they observed not one case of cribbing. I have faith that if the majority vote against the police system that there will be perfect honor in the examination, but I never force the honor system on any class. I always want the students to take the initiative."

## 30 INDUSTRIAL WOMEN TO TAKE "U." COURSES

A new feature for the summer session has been planned by the joint city and university Y. W. C. A. These organizations have work for a class of 20 to 30 industrial women from cities in Wisconsin and other states, who will be given a six weeks' course in English, economics, and physical education. The work was done last year on a smaller scale. Six industrial women from Madison were chosen by the Y. W. C. A. and had their summer session expenses paid by that organization.

## OFFICERS ELECTED BY ATHENAE AT MEETING

Officers of Athenae Literary society were elected at a meeting last night. John Sumner '26 was chosen for president, Robert Schwesger '27, vice president; A. T. Burrows '27, secretary, and William Leissring '26, censor.

## Pleasing Program Presented By Club at Baptist Church

By K. E. C.  
Singing with precision, beauty of tone, and deep volume, the Men's Glee club presented its first concert of the year at the Baptist church last night. An enthusiastic audience found it difficult to draw more than one encore from the club, though it tried hard. Alternating the martial strains of "March of the Men of Harlech" from the old Welsh with the light lilting melody of "Dance of the Gnomes" by MacDowell the club displayed delightful diversity of program.

Perfect unison marked the crescendos and diminuendos of "Goin' Home" by Dvorak-Fisher. One finds a certain amount of pleasure in the clear enunciation of the club on all numbers.

Eugene Leonard of the club presented three solos and an encore. Leonard has a strong, rich baritone voice and sings with an unlooked for stage presence. Miss Erma Duncan, mezzo-soprano, and Harry Sisson '26, violinist, assisted the Glee club. Of their numbers, Miss Duncan's "Ah, Love but a Day" by Gilberte and Mr. Sisson's "Gavotte" by Haesche were best received by the audience.

## Gown After Gown to Promenade in New Prom Revue

For the first time in the history of Prom an attempt will be made by the Prom Revue to publish on the evening of the event a complete list of the gowns worn by the women attending the affair. The Prom Revue is the official Prom paper which will appear on the floor of the capitol late Prom evening. It will be published by Sigma Delta Chi.

Heretofore such a list as the Prom Revue will attempt to make, has always appeared after the event was over. To make it as complete as possible letters will be sent to all the guests of honor, patronesses, sororities, and rooming houses asking for the gown descriptions.

The Prom Revue will also carry a list arranged by boxes of those attending Prom, and a description of all pre-Prom and post-Prom parties. To secure this information letters will be sent to all organizations reserving boxes.

## AMERICAN YOUTH WILL AID MY ART

—PAVLOWA

**Appreciation of One Art Brings Consideration of All Others**

"American youth is so energetic, so ambitious," says Madame Pavlowa, "that I know it will do much for my art."

A broad education helps one understand any art, believes Pavlowa. College-educated people not only appreciate the art of dancing, but make better dancers themselves. And the appreciation of one art brings with it a greater appreciation of all other arts.

So enthused is Pavlowa over "her art" as she calls it, that all who come in contact with her are filled with it too. A spirit of comradeship and friendliness is apparent between all the members of Pavlowa's entire company of 82. They smile and chatter in everything but English, and are most pleasant and courteous to all they meet.

"Art calls you," Pavlowa asserts. "When you can listen to the call, oh it is fine! But do not take dancing for a little while, for your fun. If your family objects to the stage, it is too bad. But you must not hurt your people."

## Look Into Case of Students Avoiding Non-resident Fees

Out of state students registering in state to avoid paying non-resident fee are brought before M. E. McCaffrey, secretary of the board of regents who investigates these cases.

"Most of the cases are straight fraud though many of them have a legal question involved," Charles A. Smith, secretary of the faculty, said. "For example, if a student's mother and father are separated and the father lives out of the state, while the mother and student are resident of the state, the type of tuition must be paid by the parent actually supporting the student." Usually straight fraud cases are detected through the mails. If a semester report comes back unclaimed the case is investigated.

## BISHOP BROUGHT HERE BY MADISON COUNCIL

Bishop Paul Jones, formerly bishop of the Episcopal church in Utah, will be in Madison February 9 and 10 under the auspices of the Madison Peace council. Bishop Jones, who was removed from his Utah bishopric because of his attitude on war, is one of the secretaries and active lecturers of the Fellowship of Reconciliation league. While here he will speak to a group of students interested in the question of pacifism, at the university Presbyterian church, which is a member of the Madison Peace council.

## Pavlowa Presents Art in High and Most Comprehensive Form

By CHATTY

Art in its highest and most comprehensive form.

That is what the ballet is, especially the ballet as presented by Anna Pavlowa and her company. Pavlowa dances and dances, returns on engagements time and time again and never seems to lose her charm, her grace, her expression.

Perhaps it was because of the fact that she was scheduled to give "Snowflakes" when last she came to Madison and because her train was late was unable to present it that she gave it last night. And, since things long waited for are more appreciated, she was received all the more heartily.

It is difficult to imagine anything with more beauty in it than this ballet, with its soft lighting effects, its Tchaikowski music—which itself needs no epithets—and its dancing on the part of the company and the star, perfect in composition.

Perhaps Pavlowa is at her best in "The Swan." Alone on the stage, she seemed to have the grace and purity of that bird, and

put into her dance all of its spirit with a bit of gentle tragedy.

The only criticism which one might make against her is that she is no longer as sure of herself as she once was and that she is not generous with encores, not we believe, because of any modesty, but because of indifference.

The first ballet, "Coppelia" was a charming bit of fun and love-making in which Mlle. Butsova indicated that she has much of that vivacity and humor that so characterizes Lydia Lopokova of Serge Diaghileff's Russian Ballet.

It was probably the Chinese dance which took the fancy of the audience more than any other, with its quaint costumes and exaggerated mimicry, and the Holland dance with its care-free gaiety and jolly courtship.

Of the two male stars, we liked Volinine the better, for he was more of an artist and less of an acrobat than Noykoff, and ballet is or should be art rather than acrobatics. Volinine, besides, did a most entertaining pierrot and we are unusually susceptible to the fascination of a pierrot in any form.

## Groups Must Get Prom Tickets and Boxes From Riley

Fraternities and other groups which wish boxes for the "Prom to Remember" must make arrangements personally with Jack Riley '26, chairman of the ticket committee, it was announced yesterday. Social chairmen who have not made final arrangements for boxes are urged to do so at once.

Boxes cannot be obtained unless tickets are purchased at the same time. The committee cannot hold boxes for a group unless all the tickets for that group have been purchased.

The sale at Morgan's and the University pharmacy is for individual tickets. Early next week tickets will be placed on sale on the hill. The price is \$5.

## INTERNATIONAL CLUB WILL HOLD MEETING

There will be a meeting of all people interested in starting an international club house at 3 o'clock Sunday afternoon in the cabinet room of the Y. M. C. A.

Previous to the world war the International club was an active organization but became inactive during the war. The club has slowly strengthened its organization until now it is planning to occupy its own house.

Plans are being formulated to rent the Phi Delta Psi house if the members act favorably on such a suggestion at the coming meeting.

## CROWD OF STUDENT SKATERS OCCUPY RINK

The rink on the lower campus was crowded with skaters last night, from 7 until 9:30 o'clock. More students were making use of the rink than have at any previous time this year.

## WILEY TO ASSIST IN Y. M. TUTORING PLAN

Roland H. Wiley '26 will be in the offices of the Y. M. C. A. from 4:30 to 5:30 o'clock every day next week to hold conferences with freshmen who desire to take advantage of the tutoring help that is being conducted by the junior council of the association. If sufficient men want assistance in a subject the Y. M. C. A. will organize a special class in the course.

## PROFESSOR LEITH IS GUEST OF IOWA DEAN

Prof. C. K. Leith of the geology department is the guest of Dean George F. Kay of the University of Iowa. He will give a series of lectures before the Geology club of that university and conduct a round table discussion of "Some International Aspects of the Mineral Resources of the World."

## PLANS MADE FOR FARMER'S WEEK

**Home Economics Meetings Will Be Held February 2 to 7**

"Arrangements are now under way for Farmers' Week which is to be held February 2 to 7," according to Mrs. N. K. Jones, state leader of the home economics extension.

"Home economic meetings will be held in the Chemistry auditorium from 1:30 to 5 o'clock each day, during which time lectures and demonstrations will be given by all of the members of the home economics extension staff, including Miss Gladys Stillman, milk inspector; Misses Gladys Meloche, Sadie McNulty, and Mary Purcell, clothing specialists; Miss Wealthy Hale, home management specialist; and Miss Edna Hoffman, food specialist.

"Several members of the resident staff, including Miss Abby L. Marlatt, director of the course in home economics; Miss Ellen Hillstrom, director of the art department; Miss Helen Parsons and Miss Ann Braun will give helpful demonstrations and lectures," she said.

A reception will be given by the Daughters of Demeter at 4 o'clock on Thursday, February 5, in Lathrop parlors, at which a variety of fine linens will be shown.

## Student Worker in China to Speak at Y. W. Tuesday

Miss Maud Russell, in charge of the student work in the Y. W. C. A. at Changsha Hunan, China, will be in Madison on Tuesday and Wednesday, to speak to the women of the university about China. She will be present at the meetings of the Y. W. C. A. discussion groups and at the meeting of the commissions. On Wednesday she will hold an open meeting during the noon hour in the S. G. A. reading room. While in China, Miss Russell conducted a daily two-hour school for children from the Women's Beggar Home, an assurance against future beggars. The Chinese beggar, a tradition in China as well as in other countries of the orient, was one of her hardest problems.

China is at the present time, in the midst of its greatest annual celebration, the Chinese New Year, says Miss Russell. Starting late in January or early in February the Chinese New Year continues for two weeks and likewise is preceded by two weeks or more of preparations.

## PROM SUPPER IS UNDER NEW PLAN BY RECENT RULING

**Served at Park Hotel, Capital Cafe; Reservations Made Personally**

Prom supper, due to a recent ruling of the student life and interest committee, will not be handled this year by the committee of which Margaret Ashton is chairman.

It will be necessary for those attending Prom who intend to have supper some time during the evening to make their reservations personally with the different places at which supper will be served. These places are the Park hotel and the Capitol

Ashton '26  
—De Longe Photo cafe.

The Park hotel which is serving from 12 o'clock on, will use tables for four or six people while long tables will be available for groups. In addition there will be one private dining room available which has a capacity of 25 persons. Though not necessary, reservations can now be made at the hotel for \$1 a plate. The capacity of the Park hotel for the evening is 600 persons.

Three shifts, each with a capacity of 200, will be run at the Capitol cafe. Reservations must be made in advance here also, and will cost \$1 a plate. In addition the Loraine hotel Coffee Shop will remain open till 1 o'clock but will serve only short orders.

"Due to the fact that more than 1,800 people are expected at Prom this year and that the combined capacity of the various places that will serve supper is only a little over 1,200, those who wish to make sure of their supper should make their reservations with the respective managements as soon as possible," Margaret Ashton said yesterday.

Though the committee will have nothing further to do with supper reservations, Miss Ashton will be glad to answer any questions that may be had concerning the supper. The other members of the committee working with her are Russell Coleman, Gertrude Ruff, Walter Christianson and Barbara Warren.

## FRESHMAN PRESIDENT INJURED IN AUTO CRASH

Clyde K. Kluchohn '28 was injured in an automobile accident yesterday, when the automobile in which he was riding collided with a truck at the corner of Gilman and Herry streets. Kluchohn, who was sitting in the rear seat of the car, was thrown through one of the windows. He was badly cut, and was weakened by the loss of blood.

## Clothing Makers Offer \$5,000 Prize For Wage Treatise

A cash prize of \$5,000 has been recently authorized by Messrs. Hart Schaffner and Marx for the best original treatise on the subject that the theory of wages is of exceptional importance, and that constructive study of it should be stimulated. All manuscripts must be in the hands of Prof. J. Laurence Laughlin of the University of Chicago on or before October 1, 1926.

No restriction is made upon the method, scope, or character of the studies submitted, beyond the fact that they must make a genuine contribution to the understanding of the subject.

Emphasis may be laid upon the analysis of the economic principles underlying determination of wages, upon conditions which set the maximum and minimum limits to the prices paid for important types of labor, upon quantitative studies of the factors involved, or upon any other aspect which the writer of the essay considers significant.

## JUNE 22 IS DATE SET FOR REGATTA AT POUGHKEEPSIE

### Meet to Be Open Champion- ship For Intercollegiate Crews

June 22 is the date set for the National Intercollegiate Regatta at Poughkeepsie on the Hudson this year. The Eastern Board of Stewards in charge of the regatta set this date at their last meeting.

Just as in recent years this season's regatta will be an open championship permitting the fast crews from the Pacific coast to enter. Although there is some argument in favor of changing the race to a four-mile course it is highly probable that the shells will race over the three-mile course that was used last spring.

#### Washington to Enter

Washington university, winner of the event for the last two years, will be sure to enter another strong crew while there is a chance that California will also be represented.

Wisconsin, winner of second place last year, may also have a crew in the race this season after the fine showing made by the Badgers in their comeback after a ten year absence from the Hudson.

#### Eastern Crews Out

Practically all of the eastern universities have signified their intentions of entering the race. This means that such prominent shells as the Navy, Yale, winner of the Olympics, Columbia, Harvard, Cornell, and Princeton will all be out determined to take away the laurels that Washington has held for two years.

## VARSITY CAGE MEN PRACTICE HARD; DETERMINED TO DEFEAT MICHIGAN

The squad of varsity cage men are working every day in hard practices for the coming game with the strong Michigan quintet. Although the Meanwell men did not get a good start in their first two games, they are determined to take the game from the Wolverines Monday. The long road trip of the Badger team will be counter-balanced by the hard game the Michigan men will face tonight against the veteran Ohio team. This game may not leave them in the best of condition for the game with Wisconsin on the following Monday.

No definite changes in lineup are being made, and it is expected that the same team will start the game Monday for Wisconsin as opened against the Buckeyes. Varney has

been showing good form in all of the practices and although he was not in top form for the Ohio contest, he is expected to give the Wolverines trouble. Captain Diebold has been speeding up at the guard position, and with Barwig may hold the Michigan men to low scores.

Brooks is coming in real style. His playing has been improving consistently, and it is likely that Coach Matner's men will have a hard job to watch him. Wackman is having some trouble with his mask, but is making the goals in spite of the handicap. Bain, who replaced Barwig in the Ohio game is showing good form in the practices. He is a speedy man, and may play a part of the game Monday.

### So It Seems

Three conference games are billed for tonight. Indiana is at Illinois; Ohio at Michigan, and Minnesota at Chicago. The Ohio-Michigan tilt and the Indiana-Illinois game are the big ones.

It's getting harder and harder to pick the winners of these games. The first big one was the victory that Purdue sneaked over Michigan.

Here goes on guesses—Illinois, Ohio, and Minnesota should be the winners. Indiana, however, may spring a surprise and slip a victory over the Orange and Blue, because any team that can come close to defeating Ohio is mighty good.

I award a victory to Illinois

on two grounds; first, the Suckers are on their own floor; and second, with two conference victories under his belt, Coach Craig Ruby will not take any chances, but will use all he has to triumph.

Ohio, after decisively defeating Wisconsin, should not encounter a great deal of trouble with Michigan. The Buckeyes from the looks of things so far have the best quintet in the conference.

The Minnesota-Chicago game should be close. Minnesota, however, after her victory over Wisconsin, has assumed a confident air, and will play the game for all it is worth.

The Illinois-Northwestern game Wednesday was more or less of a farce. The Orange and Blue were never forced to exert themselves at all, and it was more of a practice game than a real battle for the Rubymen.

## RIFLE MEN ENTER SIXTH CORPS AREA CHAMPIONSHIP MEET

### Michigan State College Holds Last Year's Shot Com- petition Honors

Meeting the best teams from all universities and colleges in Illinois, Michigan, and Wisconsin, the rifle team will begin the sixth corps area competition today, entering a team of 15 men.

Michigan State college holds the championship for last year and will undoubtedly give the Badger rifle-men strong competition this season. The University of Michigan, University of Illinois, and Ripon college are reported to have expert teams also, and will make a strong bid for the prize.

Wisconsin won the Sixth Corps area championship for three consecutive years in 1921, 1922, and 1923, and last year lost the cup only by a small margin. Coach Shire believes he has a winning team this year and has been coaching the men for this event during the early part of the season.

The first stage of this match, the standing position, will be fired today, and consists of 10 shots on the "K" target. The other five stages will be fired during the next three weeks.

On February 21 and 22 Coach Shire will take a team of 10 men to represent Wisconsin in the annual rifle meet at Milwaukee. Last year the team won second place, and missed first place by only two points. The chances are good for a victory this year over the strong 105th Cavalry team.

LONDON — Harry Furniss, 70, noted caricaturist, author and lecturer, died Thursday at Hastings.

### SCORE TWO UPSETS IN BASKET LEAGUE

The interfraternity basketball league received two upsets in the games last night. The Delta Kappa Epsilon team had lost a game last night when they were defeated by the Phi Sigma Kappa five by a 15-11 score. The Alpha Chi Rho cage team found little trouble in defeating the strong Sigma Phi Epsilon quintet. The game was close until the second period when the Alpha Chi's lead of five jumped to ten and the game ended with the Alpha Chi's leading by a 21-11 score.

### WOMEN GET CHANCE TO SIGN FOR HOCKEY

"The reason we are putting out publicity a few days ahead of registration is to give every woman in the university who is interested in ice hockey an equal opportunity to sign up for that sport," said Cynthia Wesson of the department of physical education yesterday. Enthusiasm evinced by skating advocates speaks favorably for prospective membership in the hockey classes. Register after 10 o'clock Saturday morning by signing the bulletin board next to the elevator in Lathrop hall. Classes will begin at 4:30 o'clock Monday on the varsity rink of the lower campus.

He was for many years a contributor to the principal magazines in England and America.

## SEVEN BIG EVENTS ON WISCONSIN SPORT CARD TODAY

### PROGRAM INCLUDES SWIM MEET, GYMNASTICS, TRACK, RIFLE SHOOT, ICE RACES

Wisconsin athletes in seven sports will enter the lists today to test their strength in combat. Some of these are indoor, some outdoor, some at home, some away. While the varsity swimmers are trying to outstroke and outdive the Hawkeye swimmers tonight, the men of the foils and gymnastic apparatus will be performing at the Milwaukee Y. M. C. A. The events at home will consist of an interclass track meet, a frosh-varsity wrestling meet, the ice boat race on Mendota at 11 o'clock, and the beginning of the rifle team competition in the sixth corps area firing.

The interclass track meet comes first as it is scheduled to come off at 2:30 o'clock this afternoon in the annex. This will be the third of a series of interclass, frosh-varsity, and interfraternity indoor meets which will be held this season. The meet will be a form of tryouts for non "W" track men who are contending for positions on the varsity team.

Just as squires in the olden days of chivalry used to strive to become full fledged knights so will the men trying for a place on the regular team attempt to win recognition as real track material. Coach Jones and Coach Burke will be back from the I. A. C. meet in time to witness the meet and form their opinions as to the relative value of the competing tracksters.

All of the regular track events will be run off with the exception of the discus and hammer throw, two events that can not be held in the annex on account of limitation of space.

An interesting side light of the meet will be the efforts of the frosh to stop the stampede of Chuck McGinnis, soph 20-point man. The first year men are concentrating their efforts against McGinnis as this will be one of the surest means of securing victory. To do this they will have to find men who can win the high jump, pole vault and both high and low hurdles.

There is one hope for the frosh which, if it materializes, will greatly relieve the minds of the freshmen. It is possible that McGinnis will not be in the meet on account of his participating in the Wisconsin-Iowa swim meet tonight. Coach Steinauer is in need of competent divers and as McGinnis is one of the best in the university he may be kept out of the track meet so as to be in shape to compete against the Hawkeye splashers.

### 6 MEETS PLACED ON SKI CLUB LIST

#### Extensive Season Outlined in Gathering of Organization Thursday

One of the most extensive series of meets in the history of the Badger Ski club was outlined at the meeting held Thursday at the Y. M. C. A. The season, which will include trips to Canton, S. D., Chicago, Cary, Wesley, and Milwaukee, will be featured by the national ski meet which will be held at Muir Knoll in February.

President Johnson stated that work has already begun for this meet. He declared that the publicity is well under way and that by next Saturday will have begun in preparation of the slide for the event.

The first meet for the Badgers will be held at Cary, Ill., Sunday, January 18. Four men will represent Wisconsin at the meet. One week later Bjorn Mortenson and two other Badger skiers will enter a contest to be held at Chicago. Paul Stone, Robert Pabst, and Bjorn Mortenson will enter a meet to be held at Wesley, Ill., February 5. Immediately after the national meet here, the club will finish its present schedule at Milwaukee. Carmichael, Stone, and Pabst have entered this meet.

Final selections of the Badger men who are to take the water here tonight against Iowa will be made this morning by Coach Joe Steinauer. After the dual meet, which starts at 8 o'clock, the Wisconsin water basketball team will take on the water cagers from Iowa. Although this game has no direct bearing on the outcome of the outcome of the meet, it will be an exciting finish to the contest.

After having practiced since October 20, 12 men have been chosen who will receive water basketball suits. They are Joe Feuchtenwanger, Coleman, Kissel, Burrus, Leberman, Winchell, Dick Feuchtenwanger, Flickenger, Ruscha, Barden, Bell, and Alstrin. The first three men named are regulars from last year, when water basketball was made a minor sport. The Badgers swam and shot over the Hawkeyes last year at Iowa City, and won the game easily by a 4-0 score. The best Iowa man last year was Hickok, famous plunger, but he is not with the team this year.

#### Water Polo Next Year

Three games are scheduled for this season, and they will all be played in conjunction with the regular swimming meets. Iowa and Indiana will be met at Madison, and Chicago will be played there. If the Badgers succeed in taking all three of these games it will mean that they will have the opportunity to meet the other Big Ten division winners in the conference meet at Chicago.

Next year water polo will be substituted for water basketball, mainly because water polo is at present practically a national game, and water basketball is strong only in the Big Ten circles. In the latter game there are six men on a team, and the halves are eight minutes in length.

#### Steinauer Picks Men

Coach Steinauer has contestants picked for the meet with Iowa tonight. These selections are temporary and there will doubtless be some changes made this morning after the last practice. The Badger relay squad will consist of Fleuck, Gilbreath, Herschberger, and either Frazier or Radcliffe.

Captain Simpkins, McGinnis, and Hall will take care of the diving events. Wheatley is ineligible. Herschberger, Frazier, and Beck will be relied upon for the 40-yard dash, while Abendroth, Bell, and Hotten will take care of the 200-yard breast stroke. Dick Feuchtenwanger and Cook are the only hopes in the plunge. Radcliffe, Herschberger, Fleuck, and Frazier are the candidates for the 100-yard dash, and Hotchkiss and either Porter or Herschberger will compete in the 220-yard free style. Porter, Butler, and Gilbreath will swim the back stroke.

#### FROSH-VARSITY MAT MEET SET FOR TODAY

This afternoon stars of the mat and track compete at 2:30 o'clock with class rivalry and future hopes of red "W's" on white sweaters spurring them on. First-year wrestlers meet the victors over Chicago in a match which takes place in the wrestling loft on the third floor of the gymnasium. Coach Hitchcock invites the public to the matches.

#### At Milwaukee

COACH SCHLATTER

His gymnasts and fencers engage the Milwaukee Y. M. C. A. squad at Milwaukee tonight. Interest has been running high in these sports this year.

#### GYMNASTS, FENCERS AT MILWAUKEE TODAY

Badger gymnastic and fencing men have their first competition of the season with the Milwaukee Y. M. C. A. at Milwaukee tonight. Schlatter expresses the Badger chances as poor, as Milwaukee has a team of veterans. Wisconsin was defeated twice by the Cream City squad last year.

Schlatter expects Capt. Huck Schmidt to win points, and possibly George Kress, but he is doubtful as to the strength of the other men.

Six gymnasts, four fencers, and one sabre flourisher are entered in the meet. Captain Schmidt will compete in the horizontal and parallel bars, rings, side-horse, and tumbling events. Other Wisconsin performers are Earl Hicks, horizontal bars, rings, side-horse; George Kress, side-horse; Hugo Hiemke, horizontal and parallel bars, side-horse; George Weiss, parallel bars, tumbling; Walter Snavely, side-horse; and Walter Huxley, horizontal and parallel bars, rings, and tumbling. Paul Waters, Walter May, Elmer Freytag, and Elias Mathys will work with the foils, and Walter Parson with the sabre.

#### Schmedeman to Address Pumpkin Hollow Meeting

Arthur G. Schmedeman, minister to Norway under ex-president Wilson's administration, is to address the Pumpkin Hollow Community club at its meeting Friday evening at 8 o'clock in the Pumpkin Hollow schoolhouse on highway 10 between Madison and Token Creek. Some additional numbers are to be presented on the program by local talent.

DENVER—A brain operation to remove alleged criminal tendencies may be performed upon Dr. G. W. Presnall, widely known Trinidad, Colo., physician, who is facing a charge of murder in connection with the death of his wife, May J. Presnall, near Trinidad last July, officials of the Denver veterans' bureau said.

### MUCH OF GRIDIRON PROFITS GO INTO INTRAMURAL WORK

#### Ohio Puts \$13,500 Into This Branch of Sports; Minnesota Second

COLUMBUS, Ohio, Jan. 16.—Members of the Western conference expended nearly \$70,000 out of their football profits last year to maintain their growing systems of intramural athletics.

Ohio State, which led the conference in the number of participants and in the amount of money invested in intramurals, spent almost as much for intramurals as it did for varsity football. Fourteen thousand eight hundred and twenty-seven men at Ohio State participated in 19 intramural sports last year, 77 per cent of the departmental goal of 100 per cent, and \$13,500 was expended in behalf of these sports.

By contrast, only \$20,000 was spent to maintain the football squad in spite of the trips to Iowa and Illinois. The profits from the football season made the intramural expenditure possible.

Minnesota, with \$11,000 and Michigan with \$10,500 expenditure for intramurals rank next in the conference. The remainder of the schools range from \$3,500 to \$7,000 each.

#### Britain Makes New Offer In Debt Plan

PARIS—An official renewal of the proposal for settling the inter-allied debts contained in the Balfour note of 1922 is made by the British cabinet in the reply given to the recent letter of Finance Minister Clementel on that subject.

The British cabinet thus proposes only to demand from the allies the amount by which Great Britain's payments to the U. S. for her debt exceeds the amount she receives from Germany.

Mr. Churchill's letter says negotiations regarding methods of payment will be necessary between the two governments in the same spirit of "comradeship" that united them during the war.

Business Assistants—Ulla Rothermel, Grace Morley, Elizabeth Stone, Bessie Zabin, N. L. Erickson, Howard Jirtle, Lester A. Sentry, Othmar Weber.

DESK EDITOR—PAUL S. MCGINNIS

## A GOOD START

The hockey team has gotten off to a first rate start. With a heavy schedule facing it, it commenced the season by defeating what is said to be one of the best aggregations in these parts.

Whether this splendid start is the result of good coaching or good material or both is immaterial. Indications lead one to believe that the season will be more successful this year than ever before. It is certainly right and fitting that Wisconsin should be "up among 'em" in hockey as it should in every winter sport.

Hockey has been in the building here for a number of years until now it is recognized as one of the most important of the minor sports. Indeed, it will not surprise any one if it should become a major sport before many more years go by.

Congratulations to the team.

## BUILDING ROME

The wave of criticism launched at those in charge of the skating rink, instead of subsiding as was expected, seems to continue. Every day communications come to the office from some one who has a pet peeve on his mind in connection with the rink. Since the communications are not signed they can not be published. Nevertheless, they continue to arrive.

It is very doubtful whether those who are the most severe critics have looked into the matter as deeply as they should. If they had, they would not be so hasty in condemning those in charge of the rink.

Rome, it is said and we are inclined to believe the assertion, was not built in a day, and just as it has taken a number of years to bring Wisconsin a real hockey team such as it now has, so does it take several weeks to construct a suitable rink or rinks.

Coach Iverson has been in Madison just two weeks. His services were not secured early enough to permit him to be here earlier. Since his arrival, however, he has worked, few people realize how hard, building up the skating rink, supervising its flooding until the wee small hours of the night. And

skaters have criticized because they were put off the rink at 9:30 o'clock at night. Certainly they would rather skate on good ice for a short time than on poor ice as long as they choose, it would be expected.

The fact that he is putting out what appears to be a winning hockey team should show that he confines the hockey rink to the use of his team with reason—and with results.

Be it known that a skating rink is now under construction at Camp Randall, is being worked on day and night and will be ready for use in a few days. When that is completed it is very possible that a portion of the lake will be scraped and flooded.

Just remember that everything can not be done at once and in a second's time. Old man winter played an unkind trick on us all when he froze Lake Mendota in such a wretched manner, but artificial means are being used as fast as possible to turn the tables and give the students adequate skating space.

## FROM ACROSS THE SEAS

Announcements have been made in the Daily Cardinal and two Madison papers almost every day concerning a lecture or an address that Prof. Oskar Hagen, the Carl Shurz memorial professor, who is here this semester from Goettingen university, is to give. Nor has Madame Hagen, his wife, been called upon any less frequently.

Some may be inclined to think that Professor Hagen and his wife have an excellent press agent. But the fact is that they do not need one. People who have interesting things to say do not need press agents; there are more demands on their time than they can possibly fill.

It is safe to say that students and citizens of Madison have learned more about renaissance art and kindred subjects during the past four months than at any former period of the same length.

Such things as exchange professorships do more to break down the walls of misunderstanding between nations than a corps of diplomats working for months. We are glad to see that several Wisconsin professors are going on similar missions next semester. As much as we shall miss them here, their going is one of the best antidotes for provincialism yet devised.

Filled with the spirit of winter, several seniors have voiced their desire of going off the ski jump on Muir Knoll before leaving the university. Since they are novices on the skis, they are evidently looking for a short-cut method of exit.

## Beyond Our Campus

By B. A. G.

The resignation of Charles E. Hughes last Saturday as secretary of state precipitated a situation during the week that can only be called unique. As a result, the second Coolidge administration, beginning March 4, will present an altogether different appearance from the present one. Frank Kellogg of Minnesota, now ambassador to Great Britain, will become secretary of state, and Alanson B. Houghton of New York, who is ambassador to Germany, will cross the channel to relieve Mr. Kellogg in England. Medill McCormick, retiring senator from Illinois, is being suggested for the German post.

Mr. Coolidge's private secretary, Bascom Slemph of Virginia, resigned on Tuesday to return to private life. The president asked Everett Sanders of Indiana to succeed Slemph.

Rumor has it that Herbert Hoover may be asked to shift from secretary of commerce to secretary of agriculture to take the place of retiring Secretary Gore. The president, it is understood, wants a man well grounded in economics to handle the agricultural position, as agriculture bids fair to be the greatest of domestic questions during the next four years.

Secretary of Labor Davis, Postmaster General New, and Secretary of War Weeks will remain in the cabinet. Theodore Roosevelt, defeated Republican candidate for governor of New York, may soon be appointed director of the United States veterans' bureau, as the present incumbent, Maj. Frank T. Hines, expects to resign soon.

"Entangling Alliances," two words that were glibly thrown about by "irreconcilables" in the days of Woodrow Wilson, have been taken out for a dusting. The occasion is the signing of a war claims agreement in Paris by the United States and other European powers. By the agreement this country receives about \$10,000,000 annually, and later \$25,000,000 annually, out of German reparations as agreed in the Dawes plan, until the entire claim for costs of the American army occupation of Germany is paid. But here's the rub! Ambassador Kellogg, in signing the agreement allowed that the United States was responsible not only for the parts involving the United States, but for the whole protocol, which provides for the collection of the debt as well as its distribution. Are we becoming involved? Some say we are. Some say we're not. And some say, "Sure! But why not?"

## TODAY'S BAD THOUGHT

What would happen if the Prom chairman connected with the smallpox, on say, the night before Prom? (Oh microbe, spare my child!)

## WOULD YOU MARRY A PLUMBER?

We commend to our customers the remarkable presence of mind of the "well dressed young man about 20" who tried to make his way to the second floor of 630 Langdon the other night by means of a ladder. That "Came to look at the pipes" was worth a Boy Scout medal for knot tying. But then, what would you have said when the darn woman was "late as usual" even for an elopement.

The authorities may learn the identity of the couple by hanging around the N. W. station to see who tries to return a couple of tickets for Florida. Too bad he lost the ladder, we have been thinking of using it ourselves a little farther on down the street.

Notice further that the young lady who carelessly called in the strong arm of the law, couldn't describe him beyond the fact that he was "very well dressed." She never got beyond his necktie! Pete Burns, we are coming!

## WE CAN'T BEAR THIS

Ida says that the Phi Kaps have a song in which there is a line as follows: "The cross I'd bear...." Is this a slam at poor departed Violet?

Don't forget to watch for the Greecy History Rockets will run next week. Delivered every morning to your door. Please return the empty bottles.

A page in the garage is worth two in the notebook.

## OH FER A MIRACLE

The title of the pre-Prom play

is "The Rescuing Angel." Our definition of one of those would be a check from home about now.

## FAITH AND HOPE

The dumbest man in the world is the bird who gets a blind date for Prom.

The other day we got a letter from last year's daily thrill. Among other things she says, "You must write and tell me all about the Prom at Wisconsin. I've heard a little about it, so tell me every last detail."

Here's what we'll write her: "Last night was Prom night. We had a wonderful time at the movie, and a great big sundae at the Vanilla Shop."

## ON THE RINK

There she goes, on her nose All dressed up in her skating clothes

My best girl!!

Just like a big sack of flour She slides around by the hour I pick her up, now and then But she falls right down again On her ear.

While the rest are skating— She's perambulating I guess she should have worn A pillow from the start, Black and blue, tired, too, Just one thing for me to do Taxi her home.

With the flu, tonsils, etc., old H. Hazzard Inc., has seen some stormy seas. And now—papa hap has gone to Arizona leaving the children at home—which spoils our name. However, we request the audience not to be moved to premature tears, the children will carry on with Saturday rockets—still under the personal hindrance of Jay and Stew—and all quite asinine as usual, esp. the latter. With papa hap gone we shall sign ourselves: THE ORPHANS.

## The Readers' Say-So

### EDITOR'S NOTE:

The following communication sent to Prof. J. F. A. Pyre is self-explanatory and is printed here at the request of the St. Paul alumni:

### "Meanwell for Director"

January 12, 1925

Professor J. F. A. Pyre, University of Wisconsin, Madison, Wisconsin  
My dear Professor Pyre:

The St. Paul alumni are very deeply interested in the selection of a new director of athletics. We feel very strongly that a man of experience, force and mature judgment should be selected and that he should be director in fact and not in name only.

We believe, further, that the selection of such a man working under conditions such as prevail at Michigan, Chicago and Illinois will be a big step toward solving the athletic problem at Wisconsin.

After a survey of available possibilities the alumni of St. Paul unqualifiedly indorse Dr. Walter E. Meanwell for the position of director of athletics. We respectfully request that you place this recommendation before the Athletic council, stating that it represents the sentiment of the St. Paul alumni.

Very sincerely yours,  
HERMAN EGSTAD,  
Secretary.

### A FOOLISH CUSTOM

Editor, the Daily Cardinal:  
Naturally at this time of year much is being said about exams, and not the least to voice opinions on the subject are the students themselves. And one of the objections to methods of writing exams, or rather giving them, is to subdivide each question into a, b, c, etc. This is highly confusing and absolutely unnecessary. The professor making up exam questions might just as well call it ten questions or twenty if necessary instead of having only five with several sub-divisions to each one. For one thing it would eliminate the student's misjudging his time al-

lowance on each question and it would also eliminate the student's "leaving out" a part of a question.

Another source of irritation is to give out a set of questions that require a lengthy oral explanation by the instructor in attendance. Certainly a question can be written in such a way so as not to be vague. Typographical errors, of course, are excusable if not too abundant. At any rate, professors, please remember that there is nothing more distracting than to be interrupted just about the time a student has the first question almost "doped out" only to have to begin all over again.

E. J.

## Three Years Ago

President and Mrs. Harding were unable to attend the Junior Prom. As they were contemplating taking a middle western tour about the time of the event it was hoped they might attend.

A Prom benefit movie was shown at the Majestic theater under the auspices of the Prom committee, which received half of the proceeds.

## Chess Experts of Students to Meet Faculty Members

The student and the faculty chess teams will compete at 7:30 o'clock tonight at the Y. M. C. A., the only sport or diversion in which these two groups have representatives. This second annual game between the two groups has aroused considerable interest and each is putting a well-balanced team in the field.

Last year the student team was victorious. This year several members of last year's student team are out of school, among them R. U. Reel, state champion. The student team will consist of Manuel Ortega '26, F. G. Kojis, Medic 2, Frederick Koelsch '28, Arne Asplund '27, and Edward Porter '28, alternate. Each man will play two tournament games. The faculty has not announced its quintet.

## PLAY SELECTED BY FRENCH CLUB

Parts to Be Announced Later;  
Tryouts Held During  
March

"Le Mirage de Figaro," by Beaumarchais has been selected by the French club as the play which it will present sometime in May. The play is of great historic value and is considered as having had great influence on the French revolution. Tryouts will take place during the month of March. Parts of the play selected for the tryouts will be announced later by the dramatic committee of the Romance language department.

"El Idilio de Lolita en Nueva York," a play by Samuel Wofsy of the Romance language department, has been definitely decided as the vehicle which the Spanish club will present shortly before the spring recess.

It is quite probable that the Romance language department will present a program in which short plays will be given in the three main romance languages, French, Spanish and Italian. Natives of these tongues and members of the department will take part in the plays.

## "AMERICA DEEVELOPING FEMALE BABBIT CROP"

"America is growing a dangerous crop of female Babbitts in her club women," declares Mrs. Peter Oleson of Minnesota, the first woman ever nominated for the United States senate. Mrs. Oleson approves of women's clubs and approves of women's activities outside the home, but desires that they loose their seemingly fiendish control over women.

## COMMITTEE TO DECIDE ON ROOM APPLICATIONS

At a meeting of the junior council held yesterday at the Y. M. C. A. a decision was reached whereby a committee consisting of two men from each of the four scholastic years accept and review applications made for rooms at the Y. M. C. A. dormitory. It was also decided that a man should be in the building from 4:30 o'clock to 5:30 o'clock daily to tutor anyone needing help in studies.

## \$250,000 IS HOSPITAL GIFT TO HOOSIER "U."

BLOOMINGTON, Ind.—A gift of \$250,000 to Indiana university by Mr. and Mrs. William H. Coleman of Indianapolis for a 100-bed women's hospital to be used principally for lying-in patients, was announced by the officials of the university last week. The new hospital will

## With the Alumni

The Twin City Alumni association of the University of Wisconsin met at a luncheon on December 10 in Minneapolis. Dr. Anna A. Von Helmholtz Phelan, who received the B. A. degree in 1905, the M. A. in 1906 and the Ph. D. in 1908, spoke at the meeting. Dr. Phelan is now assistant professor of English at the University of Minnesota. She spent the past summer in Czechoslovakia, Austria, and Germany. A year ago she returned from nearly

three years of travel in England, France, Belgium, Holland, Germany, Italy and Austria.

Dr. John A. Lopp, a former student, is now chairman of the social action department of the National Council of Catholic Women at Washington, D. C. He is also the author of several textbooks on civics and is a free lance writer on current topics.

C. L. Brewer is the only university graduate under consideration as the new athletic director.

Bertha Schwenn '21 recently resigned her position as accountant with the State Board of Control to accept a position as alumni recorder and bookkeeper with the alumni headquarters.

G. A. Ramsdell '21 has been placed in charge of a new cereal laboratory for the chemical analysis of grain and grain products recently established by the Wisconsin Grain and Warehouse commission at Superior.

R. F. Schuchardt '97 has been nominated for president of the American Institute of Electrical Engineers. He is now chief electrical engineer of the Commonwealth Edison company, and is the author of many technical papers on electrical engineering.

Marian Neprud '18 is acting as a regional organization secretary for the National League of Women Voters for the states of Ohio, Indiana, Illinois, Wisconsin, Michigan, Kentucky and West Virginia.

Pistol club will meet at 7:30 o'clock Monday evening in the Scabbard and Blade room.

The pep band will meet for rehearsal at 7:15 o'clock Monday night in Music hall.

**WASHINGTON**—A bill designed to harmonize the methods of disposing of potash deposits on government land with the provisions of the oil and mineral leasing act of 1920, known as the general leasing act, was assed today by the house and sent to the senate.

## Now That He's Asked You—

### What are you going to wear?

Whatever is newest and smartest and most becoming, of course. Our special correspondent in New York has sent us a report of the evening fashions endorsed by society's younger set. Read this fashion news, then come down to Kessenich's. In our fabric and trimming departments you will find everything mentioned in the report and many other lovely things for Prom.

### IN EVENING COLORS

#### WHITE COMES FIRST

"Partly because it is so tremendously effective in the popular bouffant chiffon dress and partly because as a fashion color it is doubly important now, every society event since the Junior Assembly Ball at the Ritz early in the season has seen white as a predominating presence.

#### "CHAIR," PEACH AND APRICOT FEATURES OF THE PASTEL SHADES

"The Pastel-like Shades are getting much attention now in New York because they are colors most featured for Palm Beach wardrobes.

"And of the pastel shades the ones that appear in by far the greatest number belong to the peach range—the pinks with a slight yellowish cast. A pale tone called "chair" by the French, just a bit more yellow than the color we call "flesh," was worn with enthusiasm by Parisians at Biarritz, and is one of the lovelier, more subtle colors.

"Peach and apricot, the latter a rich yellow-pink, are next in popularity and following the peach range in importance are the other pastel colors—blues, yellows, light greens and mauves.

### IN EVENING FABRICS

#### THE CHIFFON DRESS

"The Chiffon Dress with flaring skirt receives the full fashion approval of the younger woman. It is this season's star for the midwinter's night dance and all indications point to a record run which will be continued far into the summer.

"CREPE SATIN is emphasized almost as much as chiffon and TULLE is not far behind, particularly when the low-placed flounce is a feature of the frock.

#### THE BRILLIANT DRESS

"Since the brilliant dress suits some young women like better than tulle or chiffon or satin, the metal lace and the metal cloth dress are also often represented." Dull gold, bright gold, steel, and bright silver laces 1½ to 36 inches wide, in exquisite patterns are being displayed in our trimming department as well as a gorgeous assortment of plain and figured metal cloths.

#### THE DRESSES OF LACE

"And now, the very newest note in evening fashions brought to the fore by Palm Beach displays. Fifth Avenue's smartest shops all make THE DRESS OF LACE one of their most important entries in formal fashion. Nearly all of them combine sheer overdresses of lace, or lace and chiffon with under-slips of color. The newest and smartest combinations are blonde lace with a yellow-pink or rose slip, and black lace over a flesh or shell pink slip." Soft, delicate Bourdon lace in several lovely blonde shades, silk chiffon Spanish lace and black laces are all being shown by our trimming department.

MEIGHAN

IN

Think of this:

A star who's in a class by himself.

A novel that ranks among the best ever written.

A director who has "A Sainted Devil" to his credit.

It HAD to be a great picture. And it IS!

## Ice Rinky-Dinks May Slip, Crash But They All Come Up Smiling

A slip, a crash, and a laugh—just a merry student taking a fall on the lower campus ice rink. Have you ever stopped to watch them, these men and women who take half an hour or more from a busy day to glide on the smooth ice? You will find them all, from the confident ones who gracefully pivot and cut figures, to timid beginners with weak ankles who clutch the wooden benches for a rest before starting out again.

The evening is the most popular

time to skate, when there are approximately 50 on the rink. Any thing from a white sweater to a fur coat is worn, and these very odd and assorted costumes may be seen from 10:30 o'clock in the morning to 9:30 o'clock at night.

Some like to skate just for the pleasure of skating, others because they find the crisp air and vigorous exercise puts them in a good condition for study, but whatever the reason, they all agree that it is fun, and great sport.

## WHA BROADCASTS TO NEW ZEALAND

### Professor Terry Receives Notice From Conductor of Auckland Station

The latest triumph that WHA has achieved is that a message from one of its experiment stations has reached Auckland, New Zealand. Prof. E. M. Terry of the Physics department has received a letter from the conductor of an experiment station there, which states the date and the exact time the message was received.

"I could hear you very plainly, although there was considerable interference," stated a portion of the letter. "Please consult your log as soon as possible in order that I may know whether or not it was WHA that I heard. Will you send me a card as soon as convenient?"

Professor Terry considers this a real record for WHA and says that one of the most interesting phases of radio is receiving notices that WHA has been heard at some far away station. Points in Canada and Nova Scotia have heard the programs regularly.

## Bulletin Board

This column is for the use of all organizations and university staff members who wish to reach large groups readily. No charge is made for notices. Notices may be brought to the editorial office in the Union building, 752 Langdon street, or phoned to Badger 250 before 5 o'clock of the day preceding publication.

### PROM USHERS.

Men interested in ushering at Prom should call Edwin Morgenroth at B. 6144.

### SOPH GROUPS

There will be a meeting of the Sophomore discussion group at 12:45 o'clock, Friday, in the physical education lecture room on the fifth floor of Lathrop hall.

### PROM ROOMS

Men who wish to secure rooms for their lady friends during Prom, call Dorothy Strauss at B. 6719.

### SIGMA PHI EPSILON

Sigma Phi Epsilon announces the pledging of Walter A. Butz '27, Milwaukee; Charles W. Thwaites '27, Milwaukee; William A. Jensen '28, Clinton; Benjamin R. Teare Jr. '27, Menomonie; Frank J.

## Physical Education Bulletin Published Sometime in Feb.

The physical education bulletin issued last year by the physical education club and this year by the physical education alumnae will make its appearance some time in February, according to Maurine Hall '24, joint editor.

The bulletin will be six by nine inches in size and contain 30 pages. Happenings of the physical education faculty, physical education club, Orchestus, Dolphin, Outing club, W. A. A., the alumnae, with a resume of the fall sport season and all year championship, clatterings of W. A. A. cottages, reports of the A. P. E. A. convention, by Miss Blanche Trilling, the A. C. A. C. W. convention by Isabel Capps '23 and an alumnae directory comprise the tentative contents.

Subscriptions are in charge of Daisy Simpson '25, Elizabeth Shepard '26, Marguerite Schwarz '27, and Charlotte Anderson '28. All subscriptions must be in by the end of this week. The price of the bulletin is 75 cents. Anyone interested in the magazine may obtain a subscription by getting in touch with any student majoring in physical education.

Blakefield '28, Baileys Harbor; Claude S. Hansen '27, Green Bay; Clarence L. Carlson '26, Hudson.

### PALESTINE BUILDERS

The Palestine Builders will meet at 10:15 o'clock Sunday in Lathrop parlors. Professor Kahlenberg will speak on "Jewish Influences on University Education," and a report will be given on the Midwest Zionist convention. Election of officers will follow the program. The meeting will be open to the public.

"The Thief of Bagdad" is an amazingly romantic and dramatic story, abounding in happenings, heretofore thought impossible of achievement, and told with enchanting charm. It was born of a poet's dream in Araby and developed by Douglas Fairbanks into a beautiful reality. Nothing like it has ever been attempted; nothing like it has ever been seen; nothing like it has ever been accomplished. Before your very eyes, a Magic Carpet bears the lovers over the housetops and into the clouds—a Winged Horse carries The Thief in dashing flight through the air—a Great Army is created out of nothingness by the scattering of Magic Seed. A treasure-house of almost unbelievable wonders!

## MANY COUNTRIES CLAIM LIBRARIANS

### Graduates of School Found in 21 States of the Union

Graduates from the library school in 21 states of the Union, the District of Columbia, Canal Zone, Philippine Islands, Canada, China, Denmark and Norway are actively engaged in the profession, according to statistics recently compiled by Miss Mary Hazeltine, preceptor of the library school.

"There is always more demand for trained librarians than we can fill each year," Miss Hazeltine said. "The salaries for beginners range from \$1,200 to \$1,500 a year, while the workers who have been in the field any length of time receive much better pay."

The number in the school is limited to 38, due to lack of equipment. The school is located on the second floor of the Madison Free Public library building. Although legally designated as the Library School of the university, it is administered jointly by the university and the Wisconsin Free Library commission.

"Few men take the library course, although we have one this year taking the work. Positions for men in this field are good, confined mostly to industrial library work," Miss Hazeltine said. "The requirements for entrance are a diploma from either a high school or college with a special examination, or senior standing in the university. The degree of A. B. and a library certificate are given."

### Flowers Express More Than Speech Says Pollworth

"Flowers can express any desirable sentiment better than words," declared C. C. Pollworth, president of the society of American florists in his talk on "Why Say It With Flowers" at the meeting of the State Horticulture society Thursday afternoon in the capitol.

Other speakers were Prof. C. L. Kuehner, university extension division, who gave a talk upon "Running Around the State," William Toole, sr., upon "Color in the Native Landscape"; Prof. A. C. Hottes, Ohio State university upon "Roses" Louis Boeglin, Minneapolis, upon "Roses, Hardy and Otherwise"; and W. J. Moyle upon, "A Couple of Dozen Roses Worth Growing."

An illustrated lecture by Huron H. Smith, curator of botany in the Milwaukee museum on his travels in the western hemisphere was the feature on the program at the annual banquet of the society in the Lorraine hotel Thursday night.

A skit, "Cross-words" was given by Delta Siekert, Joe M. Mr. Barton and an interpretative dance by Wilhelmina Haak.

### Kuhlman, Graduate, Wins Second Prize in Essay Contest

C. B. Kuhlman '06 was the winner of the second prize of \$500 offered by Messrs. Hart, Schaffner and Marx in their 1924 essay contest. Mr. Kuhlman's subject was "The Development of the Flour Milling Industry in the United States with Special Reference to the Industry in Minneapolis."

Prof. George Ward Stocking of the economics department in Dartmouth college received the first prize of \$1,000 for his essay, "Oil Industry and the Competitive System."

The first prize of \$300 in class B was received by George Inch Emery of Harvard for his essay, entitled, "Seasonal Movement of New York Discount Rate."

#### WOMEN'S ICE HOCKEY

Registration for ice hockey will be held at 10 o'clock Saturday, near the bulletin board in Lathrop hall.

### Prof. Kahlenberg to Speake Before Palestine Builders

Prof. L. Kahlenberg, of the chemistry department, will speak on "Jewish Influences on University Education," before the Palestine Builders at their next regular meeting at 10:15 o'clock Sunday, in Lathrop parlors.

Professor Kahlenberg is well versed on the history of science and of the great men who contributed to its present state of development. He is also well known as a student of ethics and philosophy.

A report will be given by one of the members on the Midwest Zionist convention held in Milwaukee on January 3 and 4. After the program, the organization will elect its officers for the coming semester.

The meeting will be open to the public and all students and townspeople interested are cordially invited.

Classes will be on Tuesday and Thursday at 4:30 o'clock or Monday and Wednesday at 4:30 o'clock.

### FEB. 3 OPENS AG SPECIAL COURSE

#### Dairy School Staff With Out- side Aid Present Curricula

"Bring overalls, notebook and pencil" is the injunction to all who are to enroll in the special courses in American cheese making and judging, ice cream making and butter making for experienced makers, operators and factory managers by the College of Agriculture in the dairy building, February 3, 4, 5 and 6.

Besides the dairy school staff, several experienced men from outside will aid in the presentation of these courses. Among them are P. H. Kasper, Bear Creek, who will demonstrate his prize-winning methods in American cheese making, and W. H. Totman, and F. W. Bouska, Chicago, who will handle creamery butter making.

In the making of ice cream, sev-

eral different mixers will illustrate various practices. This course will be given by Dr. H. H. Sommer and Mr. C. W. Vilbrandt, both of the local staff.

The men are asked to come to Madison the day before the courses open in order to register and get located. No fees are charged.

### Postoffice Building Not Hit by Veto of Pay Bill

That Pres. Coolidge's recent veto of the postal pay bill, which would give

postal employes a \$68,000,000 pay increase, will in no wise retard the building of Madison's new postoffice, according to Postmaster W. A. Devine.

"As a matter of fact, the postal pay bill has nothing whatever to do with the financing of the new post office. The site is selected and paid for and we have at present about \$212,000 to begin building. However, we are waiting for congress to pass an appropriation of \$640,000 before we actually begin building," he declared.
