MINUTES OF THE ANNUAL MEETING

of the

BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM

Madison, Wisconsin

June 8, 1990

This is a summary of actions taken by the Board of Regents on the above date. Full minutes of the meeting will be available within a month at the main library or archives on each campus of the University of Wisconsin System and the Legislative Reference Bureau of the State Capitol.

MINUTES OF THE ANNUAL MEETING

of the

BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM

Madison, Wisconsin

Held in the Clarke Smith Room, 1820 Van Hise Hall
Friday, June 8, 1990
9:00 a.m.

- President Schilling presiding -

PRESENT: Regents Clusen, Davis, DeLong, Doughty Luckhardt, Dreyfus, Flores,
Gelatt, Grover, Gundersen, Krutsch, Lyon, Nicholas, Schilling,
Steil, Vos and Weinstein

ABSENT: Regent Vattendahl

Approval of the Minutes

Upon motion by Regent Vos, seconded by Regent Weinstein, the minutes of the May 11, 1990, meeting of the Board of Regents were approved as distributed.

Regents - Staff

REPORT OF THE PRESIDENT OF THE BOARD

Welcome to Pamela O'Brien, Research Assistant to the Board, p. 1

Regent President Schilling welcomed Pamela O'Brien, who recently was appointed Research Assistant to the Board.

O'Brien, Pamela - welcomed as Research Assistant to Board, p. 1

Walter
Board of Regents Meeting Minutes 6/8/90

ECB - Report by Regent Clusen & statement on need for upgrading of outdated equipment. Suggesting that Regent Clusen - 2
Report of the Chair of the Council for Public Broadcasting *facilities* P. 2

Supplementing her written report, Regent Clusen, Chair of the UW System Council for Public Broadcasting, called attention to the capital funding needs of campus radio stations, which were highlighted by a recent review showing that 78 percent of the broadcast and production equipment was past its useful life expectancy.

Suggesting that Regents include tours of broadcast facilities in their campus visits, she cited interesting arrangements being made at UW-Superior to greatly increase the power of station KUWS and to implement a joint operating agreement with the Educational Communications Board. She credited Chancellor MacTaggart for his hard work and successful efforts in putting together this package of improvements in programming capability.

App Board - Report & presentation of plaque to Pres. Schilling, P. 2
Report of the President of the State VTAE Board

Regent DeLong, President of the State Board of Vocational, Technical and Adult Education, presented a plaque to Regent President Schilling for his two years of distinguished service to the Wisconsin VTAE System, serving as a member of that Board while serving as President of the Board of Regents.

Hospital Council of Trustees - Report on major project construction; Council resolution on architect accountability for projects & approval of hospital budget
Report of the Council of Trustees of the UW Hospital and Clinics P. 2-4

Regent Flores, Chair of the Council, reported on the previous day's meeting, at which the Council first approved a proposed revision to the medical staff bylaws and reviewed the hospital's policies on withholding care to terminally ill patients.

Vice Chancellor Noren presented a request to approve the design report for a major construction project entitled, "Critical Care in Surgical Services," which represented the combination of several projects already approved and enumerated in the 1987-89 and the 1989-91 biennial budgets. The project is comprised of remodeling and expansion of ambulatory surgery, cardiac intensive care facilities, emergency department, the trauma and life support center and the operating recovery room.

The consultant architect hired by the state submitted a design report projecting a cost exceeding the approved and enumerated \$12.6 million level by \$3.1 million, thus requiring a budget increase to \$15.7 million in order to bid and construct the full project. Dr. Noren stated that one-third of the increase was attributable to errors admitted by the architect in the form of omission of 4,000 square feet of space in the cardiac intensive care unit and inaccurate cost estimates in other areas. An additional one-third of the increase is needed to cover inflationary increases in construction cost due to necessary phasing of the combined projects over a longer timeframe in order to maintain essential patient care services. One-sixth of the increase is needed to cover space changes which were identified but could not be resolved at the time the closing statement was submitted. The remainder of the increase resulted from construction supervision and contingency fees assessed on the overrun.

The members of the Council expressed dismay that architects are not held accountable by the state for errors in project planning. While the Council approved the design report and budget increase, it also adopted a resolution to the Physical Planning and Development Committee and the Board of Regents expressing concern over the lack of consultant architect accountability. The project was reviewed by the Physical Planning and Development Committee the previous day.

The Council then discussed the hospital's proposed 1990-91 budget, which will be presented to the Board of Regents at its July meeting. Regent Nicholas also attended and participated in the Council's discussion on behalf of the Business and Finance Committee.

The hospital budget for 1990-91 recommended a 5.8 percent increase--the lowest in four years and significantly lower than the 8.5 percent average increase reported by Wisconsin hospitals from January 1989 through April 1990. The UW hospital's rates continue to be lower than the majority of midwest university hospitals. The increase would not affect the rate of a semi-private room, which would remain at \$293 per day--significantly lower than the room rates of many other midwestern university hospitals, which range from \$350 to \$600 per day.

Peter Christman, Director of Finance for the hospital, advised the Council that the rate increase is needed to cover projected inflation and other increased expenditures, including salary increases, particularly for nurses; rising rates for fringe benefits; supplies and other expenses such as drugs and pharmaceuticals. Additionally, governmental payers such as Medicare, Medicaid, and general relief continue to reduce reimbursement for hospital services. Thus, part of the rate increase would compensate for those shortfalls, amounting to an estimated \$29.4 million in the 1990-91 year.

During discussion of the budget, several members of the Council endorsed the hospital's efforts to achieve higher levels of reserves which are needed to cover future capital expenditures as well as to ensure continued operations in the event of unforeseen shortfalls or deficits. Vice Chancellor Noren noted that most university hospitals have much higher reserves than UW Hospital, and health care experts, including outside auditors, strongly advised University Hospital to accumulate increased reserves.

It was noted that the hospital's cost for support of educational activities amounts to approximately \$18 million, although state GPR support for hospital-based clinical education amounts to only \$2.28 million. Serious concern was expressed regarding the inadequate level of the GPR support, and a proposal on that matter will be submitted for the next budget request.

Following discussion, the Council voted to recommend approval of the proposed budget. Superintendent Derzon reported that the hospital expects to end the current year in a favorable financial situation due to higher-than-projected patient volume and lower-than-expected deductions from revenue.

The Council reviewed a quality assurance report prior to adjourning the meeting.

In discussion at the Board meeting, Regent Weinstein underscored the seriousness of the GPR support issue by pointing out that the hospital's pick up of educational cost is equivalent to adding ten percent to the rate structure, which also adversely affects the hospital's competitive position.

With regard to the architectural error on the hospital project, Regent Weinstein noted that architects are selected by the state, not by the university. This blunder, he commented, is further evidence of the problem with the entire construction process which had been pointed out by Regent Gundersen. Recalling that there had been other costly architectural mistakes, Regent Weinstein pointed out that the architects who committed the errors nonetheless were awarded the entire contract by the state.

System - Officers - Resolution of

Commendation for Vice President Trani, R 5511, pp 4-6

Regent Grover presented the following resolution, which was adopted by acclamation:

Resolution 5511: WHEREAS, Eugene P. Trani will leave the University of Wisconsin System on July 1, 1990 after four years of distinguished service as Vice President of Academic Affairs; and

(Xref) Trani, Eugene P.
(same)

WHEREAS, in his role of chief academic officer of the UW System his leadership has spurred implementation of Regent initiatives and objectives for the enhancement of educational quality; and

WHEREAS, much of Dr. Trani's success in his implementation effort was directly related to the wide use of a very effective communications medium known to all his colleagues in Wisconsin--and an understandably limited number in Virginia--as the Tranigram; and

WHEREAS, his enthusiasm, his unruffled temperament and his disarming candor have served him and the UW System well in varied and continuing associations with chancellors, faculty, staff and students; and

WHEREAS, his innovative direction in the development of values central to the educational experience and his extensive contributions to university activities internationally have added great luster to the reputation and good name of the University of Wisconsin System; and

WHEREAS, Dr. Trani's recognized administrative skills and exemplary scholarship have earned him the presidency of Virginia Commonwealth University;

THEREFORE, be it resolved that the Board of Regents of the University of Wisconsin System expresses its heartfelt gratitude and appreciation for service rendered, and extends sincere congratulations and best wishes to Dr. Trani and his wife, Lois, as they embark on a distinguished and challenging new assignment.

Regent Schilling presented Vice President Trani with a plaque which read, "Presented by the Board of Regents in appreciation for distinguished service, Eugene P. Trani, Vice President for Academic Affairs, UW System, 1986 to 1990."

Regent Grover then presented a plaque on behalf of the Department of Public Instruction which read: "An award for excellence presented to Eugene P. Trani, who as an influential and inspired Vice President for Academic Affairs, University of Wisconsin System, forged a stronger relationship between the Wisconsin public schools and the UW System institutions. Your efforts have transformed education and improved the quality of life for future generations."

In farewell remarks, Vice President Trani recalled his first report to the Board in October 1986, at which time he listed an array of projects his office would undertake to implement *Planning the Future*. Among those were development, with the institutions, of protocols and procedures for identifying and reviewing academic programs which needed special attention; reviewing institutional missions for identification of special areas of academic emphasis; ensuring the most efficient transfer of credits from institution to institution; improving procedures for development and monitoring of system-level and institutional programs for minority students; selecting pilot projects to begin the assessment of educational outcome; completion of a strategic planning study of business programs; and initiation of a strategic planning study of engineering and technology programs. Thirty-nine meetings later, he was pleased to report that all of those goals and more had been accomplished. Strategic planning efforts also had been undertaken in teacher education, libraries, agricultural and natural resources, student services, and liberal arts and sciences.

Most of the recommendations of the Regent Study Group had been implemented. Mission statements had been revised and centers of excellence identified. The undergraduate transfer policy had been revised. The associate degree was accepted as meeting the general education breadth requirements on transfer. Programs in need of special attention were in the last phases of a five-year review cycle. The review of general education programs at all institutions was in the midst of a ten-year review cycle, coinciding with the North Central Accreditation reviews. The issue paper on the UW System academic quality program he viewed as a revolutionary document and looked forward to seeing the program implemented within the UW System.

The Education Committee had dealt with all these issues, as well as issues involving integration of the extension function; faculty teaching load analysis; admission policies; criteria and exceptions; add/drop procedures; leave of absence policy; and remedial education. Such topics had comprised some of the 120 topical written reports that were presented to the Education Committee during Dr. Trani's tenure.

Noting that the pace of activity over the past four years had been frantic, he commented that much had been accomplished--but at some price. In retrospect, he wished there had been more time to do fewer things but with more depth and substance--more time to spend on presenting important issues more cogently and more succinctly. Somehow, he cautioned, ways must be found to reduce the information overload into doses that can be more easily absorbed.

He continued to be impressed with the vitality of the UW System institutions, with their special individual characteristics and areas of excellence, with the strength of their faculties and staff, and with the freshness and intellectual vigor of their students.

"The citizens of this state have made a tremendous investment in public higher education, and I have great confidence that our University System serves those citizens well," he stated, adding that the institutions are headed by a remarkable and talented group of chancellors and vice chancellors who are dedicated to their faculties and students, to the citizens of the communities and the state which they serve.

He expressed special appreciation to the other System vice presidents, as well as to his colleagues in Academic Affairs for their support and cooperation.

To President Shaw, Vice President Trani expressed a particular debt of gratitude for the confidence he had placed in him and for the advice, counsel and encouragement he had so willingly extended. "He is a model educational leader and administrator."

Dr. Trani concluded his remarks by saying he had learned a great deal from the University of Wisconsin System and the people with whom he had been associated.

REPORT OF THE PRESIDENT OF THE SYSTEM

Approval of Nonpersonnel Actions

Upon motion by Regent Dreyfus, seconded by Regent Vos, the following resolution was adopted unanimously by the Board:

Resolution 5512: That the report of nonpersonnel actions by administrative officers to the Board of Regents and informational items reported for the record (copy on file with the papers of this meeting) be received for the record; and that actions included in the report be approved, ratified and confirmed.

System - Officia - Comments by System Pres. on departure of VP Trani, p. 7

Comments on Retirements and Departures

(Xref) J. Trani, Eugene P. - (same) Vice President Eugene Trani

President Shaw observed that under Dr. Trani's able and energetic stewardship, the Office of Academic Affairs had been an effective and successful change agent in working with the institutions to implement the many significant policy directions set by the Board in *Planning the Future*. His emphasis on strategic planning and international education helped to position the UW System well for the 1990s. When Dr. Trani took office, President Shaw told him that implementing *Planning the Future* might make him unpopular. Instead, he had earned genuine respect and affection.

Associate Vice President Elwin Cammack

System - Officia - Comments by System Pres. on retirement of Assoc. VP Cammack, p. 7

(Xref) Cammack Elwin - (same)

President Shaw recognized Elwin Cammack who was retiring from a long and distinguished career of 23 years in higher education, with special skills and accomplishments in identifying, formulating and researching important policy questions and providing critical information needed for making decisions.

Not the least of these had been his demographic projections, his important leadership in the development of the WisNet, and his pioneering work in developing the central database for which he was recognized as a national leader.

System - Officia - Comments by System Pres. on retirement of Asst. VP Breuscher, p. 7

(Xref)

Assistant Vice President Harvey Breuscher

President Shaw recognized Harvey Breuscher, who was retiring after 24 years of outstanding service. During that time, he had built a solid rapport with the executive branch, the legislative branch, and with the state's press corps; he had been an able and articulate spokesman for the UW System; and he had won the love and admiration of his colleagues.

Breuscher, Harvey - (same)

UW System Directory of University Resources for Business and Industry

Business & Industry - Fifth edition of
~~Announcement of publication of the fifth edition of the UW System Directory of University Resources for Business and Industry, President Shaw said this widely used publication had grown to include more than 800 entries offering expertise, advice and technical assistance on topics ranging from agribusiness to X-ray lithography.~~ *p. 7*

He expressed appreciation to the University Relations staff, Chancellor Larry Schnack and the Systemwide committee for producing this outstanding resource directory, which represents the UW System's ongoing commitment to work with business, industry and government to enhance state economic development through this decade and beyond.

In reply to a question by Regent Gundersen, President Shaw noted the directory is widely distributed without charge to small business owners, the Wisconsin Manufacturers and Commerce organization, chambers of commerce and others.

REPORT OF THE PHYSICAL PLANNING AND DEVELOPMENT COMMITTEE

James Paper

Regent Gundersen presented the Committee's report.

~~Issues of the 1990s: Infrastructure for the 1990s~~ *paper received, p. 8*

Reporting that the Physical Planning and Development Committee, with all Regents invited to participate, discussed the issue paper entitled "Infrastructure for the 1990s," Regent Gundersen emphasized that the problems are very serious and must be addressed.

(ref) Bldgs & Land - (same)

In the next few months, he pointed out, the Regents would be asked to make very difficult decisions as to funding either infrastructure needs or meritorious academic projects. He did not believe, however, that it would be necessary to choose one or the other. Instead, he believed they could be carefully integrated to move the UW System through the 1990s in an appropriate fashion.

Consent Agenda Items

Regent Gundersen presented Resolutions 5513-5518, which were approved unanimously, and he moved their adoption by the Board of Regents as consent agenda items.

Regent Flores asked if there were any local opposition to the UW-River Falls campus development plan, and Vice Chancellor Parlin replied that there was not.

There being no request to remove any items from the consent agenda, the motion for adoption was seconded by Regent Vos and carried unanimously.

UW-River Falls - Bldgs & Land

~~UW River Falls: Approval of 1990 Campus Development Plan~~, *R 5513, p. 8*

Resolution 5513: That, upon the recommendation of the UW-River Falls Chancellor and the President of the University of Wisconsin System, the 1990 Campus Development Plan, reflecting updates to the 1978 Plan and documenting physical facilities and campus boundaries, be approved.

UW-Extension - Bldgs & Land

UW-Extension: Authority to Renew Lease

Resolution 5514: ~~That, upon the recommendation of the UW-Extension Chancellor and the President of the University of Wisconsin System, approval be granted to renew the following lease of space to provide administrative offices and laboratory space for the Wisconsin Geological and Natural History Survey~~

~~13,612 square feet of space located at 3817 Mineral Point Road in the City of Madison, Wisconsin~~

Madison, R 5514, pp 8-9

Lessor: The Reppen Corporation
 4010 Hillcrest Drive
 Madison, WI 53705

The proposed lease is for a ten-year period beginning July 1, 1990 through June 30, 2000, at an annual rental rate of \$148,128 (\$10.88 per square foot) for the first year and \$152,572 (\$11.21 per square foot) for the second year. In the third year (fiscal year 1992-93), the cost of this lease will be reduced to \$122,508 per year (\$9.00 per square foot). Each year of the lease includes a rental increase of three percent, as indicated in the schedule below:

FY 1990-91	\$148,128	FY 1995-96	\$133,867
FY 1991-92	152,572	FY 1996-97	137,883
FY 1992-93	122,508	FY 1997-98	142,020
FY 1993-94	126,183	FY 1998-99	146,280
FY 1994-95	129,968	FY 1999-00	150,669

This is a full service lease and includes taxes, insurance, parking, snow removal, janitorial service, and all utilities and services (except electricity, which costs about \$7,000 per year). Lease costs will continue to be paid by UW-Extension's GPR Operating Budget.

X
Bldg & Land

~~UW Madison Approval to Convey Property~~

Resolution 5515: ~~That, upon the recommendation of the UW Madison Chancellor and the President of the University of Wisconsin System, approval be granted to convey 0.03 acre of unimproved property at the Hancock Agricultural Research Station in the Town of Hancock, Waushara County to the Waushara County Highway Department for highway improvement purposes at the intersection of County Trunk Highways 6 and V, at a price of \$100.~~

Blatter Land - ?

UW-Madison: Chatter Street Heating Plant Fugitive Coal Dust Control Project, pp 10-11

Summarizing Committee review of this item, Regent Gunderson reported that the project was initiated because of directives from the City of Madison, due to neighbors' complaints, and from the Department of Natural Resources, due to a high level of particulate matter in the air. Because of these directives to expedite the project, it was placed on the May 29 agenda of the State Building Commission, contingent upon the Board's approval of the request.

(Xref) Chatter Street Heating Plant - (same)

When the Commission acted on the request, only a first-phase project was approved, at a cost of \$780,000. This would cover the cost of constructing a 15-foot high cement wall along two sides of the heating plant site. Within this wall, there would be a tarpaulin-covered reserve pile. The wall to enclose the uncovered, active pile was deferred.

The Committee was told that construction of this enclosure would create protection from the wind and allow the dust to be contained. Division of State Facilities Management staff felt this would adequately address the problem for the present.

Regent Dreyfus expressed concern that this was only a partial solution and the DNR could be expected later to require total enclosure of the area, possibly with a roof. He wanted to be certain that the walls would be constructed to provide for future contingencies.

Stating that the Committee unanimously approved the following resolution, Regent Gunderson moved its adoption by the Board of Regents, and the motion was seconded by Regent Dreyfus.

That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, authority be granted to construct a 1987-89 Charter Street Heating Plant Fugitive Dust Control Project, on the campus at UW-Madison, at an estimated total project cost of \$1,342,000, using 1983-85 General Fund Supported Borrowing - Air Quality Compliance and Fuel Conservation Funds.

Regent Davis asked if the coal is sprayed with water, to which Vice President Brown replied that it is sprayed with water and with oil to hold down the dust.

To Regent Davis, the proposed solution seemed impractical. He asked if the consultant had looked at what is being done at other plants around the state and offered to arrange such visits if other solutions had not been considered.

Regent Schilling asked how a 15-foot-high wall could be so costly.

Regent Gundersen said he would welcome further consultation and review of the project, particularly since phased projects invariably are more expensive.

Regent Weinstein moved to table the resolution. The motion was seconded by Regent Vos and carried unanimously.

Regent Clusen asked that, when the matter is returned to the Board, information be provided as to whether the proposed solution would comply with DNR air pollution control regulations.

Clinical Science Center

UW-Madison Clinical Science Center: Approval of Design Report, Budget Increase and Authority to Construct Critical Care and Surgical Services

*R 5519
pp 11-12*

The Committee considered approval of the design report, including authority to include the necessary \$3,088,700 budget increase in the 1991-93 capital budget, and authority to construct the Clinical Science Center Critical Care and Surgical Services project, at a revised total cost of \$14,818,700. The Committee expressed special concern regarding possible additional fees which would be paid to the architect whose oversights and calculation errors had contributed to \$1.8 million--more than half--of the overrun.

(X) Bldg. Fund - (same, but add "at Clinical Science Center")

After discussing this request with System staff and Health Sciences Vice Chancellor Jay Noren, the Committee unanimously approved Resolution 5519. The Committee also directed System Administration staff to modify the request to the State Building Commission for this project and insist that negotiations take place with the project architect to limit the architectural fee increase related to the cost increase. The Committee did not support any increase in the architectural fees which were due to cost escalations related to time delays and architectural errors.

Moving adoption by the Board of Regents of Resolution 5519, Regent Gundersen stated that the progress of the project should not be delayed. The motion was seconded by Regent Dreyfus and carried unanimously.

Resolution 5519: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, the Design Report be approved, authority granted to include the necessary \$3,088,700 budget increase in the 1991-93 Capital Budget, and authority granted to construct the 1989-91 Clinical Science Center Critical Care and Surgical Services project on the UW-Madison campus, at a revised total estimated cost of \$14,818,700 of Program Revenue Supported Borrowing Funds.

- - -

REPORT OF THE EDUCATION COMMITTEE

Regent Grover, Chair, presented the Committee's report.

Consent Agenda Items

Regent Grover presented Resolutions 5520-5539, which were approved unanimously by the Education Committee, and moved their adoption by the Board of Regents as consent agenda items. The motion was seconded by Regent Flores.

At the request of Regent Vos, Resolution 5538 was removed from the consent agenda. Resolution 5539 was removed to permit abstention by Regent Dreyfus.

Put to the vote, Resolution 5520-5537 were adopted.

System - Officers - Designation of
Vice President of the University Emeritus and Professor of the University Emeritus *to Robert L. Clodius, R 5520, pp 12-13*

Resolution 5520: That, upon the recommendation of the President of the University of Wisconsin System, the following be approved:

(pref) Clodius, Robert L. - (same, but drop "to Robert L. Clodius")

Whereas the Board of Regents recognizes the continuing contributions to higher education Robert L. Clodius has made in his capacity as President of the National Association of State Universities and Land-Grant Colleges since 1979; and

Whereas Robert L. Clodius was a Professor of Agricultural Economics, Educational Administration, and Economics; and

Whereas Robert L. Clodius was Vice President for Academic Affairs of the former UW System from 1962 until 1964, Vice President of the University from 1964 through 1970, and acting President from October through December 1970; and was awarded the special chair of "Professor of the University of Wisconsin" by the Regents in 1971 upon his return to the UW-Madison campus; and

Whereas Bob Clodius has devoted 40 years of his life to the University of Wisconsin-Madison and the University of Wisconsin System as an award winning teacher, as a scholar and author, as an internationalist, and as an administrator at the campus and System levels;

Therefore be it resolved that the Board of Regents confer the status of "Vice President of the University Emeritus and Professor of the University Emeritus" in addition to the status of "Professor Emeritus" of Agricultural Economics, Educational Administration and Economics upon Robert L. Clodius, effective June 30, 1990.

Tenure -

Tenure Designations, Status Changes, and New Tenured Appointments 1990-91, R 5538, pp 16-17

Regent Vos explained that he was voting against Resolution 5538 because he did not believe faculty should be given lifetime tenure.

Put to the vote, Resolution 5538 was adopted, with Regent Vos voting "No."

Resolution 5538: That, upon recommendation of the respective Chancellors and the President of the University of Wisconsin System, the 1990-91 tenure designations, other changes in status, and new tenured appointments, reported in the attached materials by institutions, be approved.

~~Emeritus Designations~~ - Designations for 1990-91, R 5539, p.17

The following Resolution was adopted with Regent Dreyfus abstaining from the vote:

Resolution 5539: That, for their many years of dedicated service to public higher education in the state of Wisconsin, the Board of Regents expresses its deep appreciation to the members of the faculty and staff who have been granted emeritus status and distinguished service designations by the Chancellors. Further, the Board of Regents extends to each of them its best wishes for many productive years ahead.

Issues Papers - Paper on

Issues of the 1990s: UW System Academic Quality Program, p.17

Regent Grover reported that, in a session to which all Regents were invited, the Committee discussed the Issues Paper "UW System Academic Quality Program."

Strategic Planning for Teacher Education due Sept, p.17

It was reported to the Committee that the recommendations from the strategic planning study for teacher education will be on the agenda of the September meeting.

UW-Stevens Point - Report that UW-Stevens Pt.

Solid Waste Experiment Center

~~Vice President Trani reported to the Committee his approval of establishment of a solid waste experiment center at UW-Stevens Point, to focus on the solid waste composting facility at Portage, p.17~~

Academic Programs -

Annual Informational Report on Academic Program Designations, p. 18

Regent Grover reported that the Committee reviewed the annual information report on 1989-90 academic program designations and related academic approval items.

Equal Opportunities -

Annual Report on Gender Equity Compliance, p. 18

Dr. Marian Swoboda presented to the Education Committee the annual report on compliance with gender equity policies.

In discussion at the Board meeting, Regent Davis stated that the report was broad-based and very well-done. It showed that, while there has been significant progress in some areas, much remains to be achieved. The report was helpful in pointing out a number of areas where future efforts can be focused.

Academic Staff - Report on job security, pp 18-19

Academic Staff Job Security

Regent Grover reported on presentation made to the Education Committee on academic staff job security.

In Committee discussion, Regent Weinstein requested information about academic staff policies in other university systems. Executive Vice President Lyall stated a need to balance flexibility with reasonable job security. She noted also that indefinite appointments are not the only form of job security and that the institutions have a variety of appointments designed to meet individual needs and address individual circumstances, without the rigidity of the proposal presented by the Wisconsin Education Association Council (WEAC). She assured the Committee that the UW System will audit institutional compliance with UW System guidelines in 1990-91.

In discussion at the Board meeting, Regent Flores suggested that the issue be revisited in the future. He thought modifications might be needed and expressed concern in particular about rolling horizon appointments.

Regent Schilling observed that what began as an invitation for WEAC to make suggestions about job security turned into a well-rounded discussion at which the Regents heard not only of concerns but of positive developments in academic staff governance and progress in job security matters.

Regent Clusen reported that the discussion covered the full range of possibilities regarding job security. Along with the recommendation from WEAC, there were various proposals from institutional academic staff representatives. One of the messages conveyed was, "If it ain't broke, don't fix it." The other message was, "Let us do it our own way on our own campuses." There were many positive statements about chancellors cooperating with academic staff.

While he did not consider the system to be problem-free, Regent Davis concluded from the discussion that the problems were being addressed at the campus level, and almost all presenters opposed the idea of having a systemwide solution imposed on the institutions. He thought the Regents could feel reassured by knowing an audit will be done to make sure the System President's guidelines are being followed and to understand the nature and impact of the changes motivated by those guidelines.

Regent Weinstein suggested sending the Regents a copy of President Shaw's guidelines and timetable for implementation, along with an explanation of the rolling horizon contract, how it is used, and how it fits into these guidelines.

Regent Flores saw as a problem excessive use of short fixed-term appointments in positions for which they are not necessary. He did not believe the solution should be rolling horizon appointments; instead, he favored indefinite appointments with notice and termination rights.

Regent Schilling observed that, while some appointments must be for a limited term, there are other positions which clearly would continue to be needed. In the area of instructional staff, indefinite appointments in those areas would have to allow for termination due to changing program needs and other factors. The audit would provide additional opportunity for assessment of types of appointments used in various areas.

Regent Clusen recalled that the discussion took place because the Regents had asked WEAC to make suggestions, which they had done ably. Academic staff representatives had noted that the results of their new governance structures were just emerging and that it would be best not to intervene at this time. Positive suggestions for adjustment were made, but there was no consensus on any one action which should be taken at this point.

REPORT OF THE BUSINESS AND FINANCE COMMITTEE

Regent Nicholas, Chair, presented the Committee's report.

Consent Agenda Items

Reporting unanimous Committee approval of Resolutions 5540 and 5541, Regent Nicholas moved their adoption by the Board of Regents as consent agenda items for action as a single unit. The motion was seconded by Regent Weinstein, and carried, with Regents Davis and Schilling abstaining from the vote on Resolution 5540.

Approval of Gifts, Grants and Government Contracts

Resolution 5540: That, upon recommendation of the President of the University of Wisconsin System, the gifts, grants and contracts presented at this meeting (copy on file with the papers of this meeting) be accepted, approved, ratified and confirmed; and that, where signature authority has not been previously delegated, appropriate officers be authorized to sign agreements.

Requests -
Approval of Disposition of Personal Property of the Irene R. Clauson Estate, R 5541, p. 20

Resolution 5541: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of UW-Madison, the bequest of the late Irene R. Clauson, of Baraboo, Wisconsin, be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the will; and that the Trust Officer or Assistant Trust Officers be authorized to consent to the disposition of the fur coat to Ruth Herrmann and clothing to the Saint Vincent De Paul Society, to sign receipts and do all things necessary to effect the transfer for the benefit of the Mc Ardle Laboratory for cancer research and for research in heart disease at UW-Madison.

(The will provides as follows:

"All the rest, residue and remainder of my estate I give, devise and bequeath to the Regents of the University of Wisconsin, one-half thereof to be used at Mc Ardle Laboratory for cancer research and one-half thereof to be used for research in heart disease.")

Financial Aid -
Report on Trends in Federal Grants, pp 20-21

Regent Nicholas summarized a report made to the Business and Finance Committee on trends in federal grants at UW-Madison. Associate Vice Chancellor Torphy had presented a number of graphs and charts which showed increases from one federal agency to one college being offset by decreases from other agencies to a different college. In addition, expenditure data from the past five years was presented and compared with award data for the same period. This data showed that, while awards may fluctuate, expenditures have been much more stable.

Competition for research dollars is increasing. Preliminary results of a study comparing 1977 to 1987 show that 46 percent of 14,500 applications received support in 1977, but only 28 percent of 26,800 applications received support ten years later. A recent article in *The New York Times* reported a 28 percent increase in eligible projects submitted to the National Institutes of Health and a 37 percent drop in funding of proposals.

There is nationwide concern about the fact that younger faculty are not getting their research funded, which will have a significant impact on the future. There are reasons on the national level for the decline, such as five-percent across-the-board reduction of grants selected by NIH; a 15-percent reduction in continuing grants next year by National Institute of Mental Health (NIMH); a ten-percent increase in the National Science Foundation (NSF) budget, but only a one- to two-percent increase in research funding by NSF. There are fewer NIH funds available for new grants.

Vice Chancellor Ward stated that UW-Madison consistently ranks third or fourth in terms of federal support. He indicated, however, that the turnover of faculty in the 1990s will significantly affect UW-Madison as well as other major research universities. Very competitive start-up packages will be necessary to attract the brightest scientists.

Associate Vice Chancellor Torphy explained some of the reasons for the decline in awards this year. The decrease is found in three schools and colleges: Engineering, Letters and Science, and the Medical School. While the drop in federal awards in 1989-90 is not as serious as it appeared, future declines may become more serious as competition for grants increases, less funding is available overall, and less experienced faculty replace retiring faculty.

Schilling, Regent Paul -

ELECTION OF OFFICERS OF THE BOARD OF REGENTS

Remarks by Regent President Paul R. Schilling at last meeting re Board President, and resolution of commendation, RS 542, pp 21-24

Stating that it had been a great honor to serve as Regent President, Regent Schilling expressed the hope that he had merited the confidence placed in him. Much had been accomplished, with significant highlights including further implementation of *Planning the Future*, which contained many difficult substantive issues. The UW System fared well in the 1989-91 biennial budget and again in the mini-budget of this past year. Much was achieved not only in the operating budget but--much to Vice President Brown's credit--in the capital budget as well.

Communications with the VTAE System had been enhanced under the leadership of Regent DeLong. Regent Grover, Vice President Trani and others opened avenues of communication and solid cooperation between the UW System and the Department of Public Instruction.

Another significant accomplishment was integration of the UW Centers. When it came to transfer of credit, Chancellor Portch had been given the delicate and difficult assignment of negotiating agreements with people who did not necessarily agree with him. Members of the Board had helped enormously in making sure that everyone got together, and now the Centers are very much integrated into the overall System.

There had been interesting international initiatives, for which Vice President Trani deserved much credit.

Another accomplishment in which the Board took pride was the hiring of new staff persons--Fred Ellen Bove and Pamela O'Brien.

In the area of procedure, the Board had doubled the number of out-of-Madison meetings in order to visit each of the System institutions more frequently.

A standing Personnel Matters Review Committee had been created for consistent handling of such cases. The procedure now is specified and predictable, not only for the Regents, but for the appellants and the

chancellors. The Board established a standing Committee on Student Discipline and Student Governance Appeals, which would serve the Board well in helping to resolve ongoing disputes on the role of students in the governance of the System. The Board had improved its process for evaluation of chancellors and the System President, to provide a positive way for the Regents to state their views and to bolster the System's fine chancellors and President. In addition, the Board adopted a consent agenda format for its meetings.

Stating the importance to the Regent President of support offered by individuals, Regent Schilling said that everyone in the room had helped him enormously. He then extended special appreciation to: Regent Dreyfus, who as Governor, had appointed him to the Board; Regent Grover, who had predicted long ago that someday Regent Schilling might become President of the Board; Vice President Trani, who had been very helpful, as had the other vice presidents; Executive Vice President Lyall, who had been a valued counselor and mediator, a person who always put the UW System first; President Shaw, for his fine leadership; Regent Weinstein, with whom he had served as vice president, for teaching him a great deal and for setting him on the course that led him to the presidency; Regent Vice President Lyon, the best of advisors and a very wise man; Secretary Temby, who had anticipated needs and had given sound advice; his wife, Carol, and his family, for their support throughout his presidency.

Regent President Schilling then made the following comments about the future:

"We have all said it many times but, clearly, the UW System is the state's greatest asset. As great as it is and as big as it is, it is always delicate. It is fragile. It could come apart more quickly than any of us would like to believe.

"I think this Board plays a critical role in preserving and enhancing the System. Some words of advice as we go forward: In order to do that preserving and enhancing, we have to keep doing some of what we have done very well in the last four or five years. I think we certainly have to remain completely nonpartisan. It is a great credit to all of us that we are able to do that, and we demand it of ourselves.

"We should continue to demand a System perspective. When we look at issues, instead of seeing "a Madison problem" or "a Whitewater problem," we should always look at all of our issues from the perspective of the good of the System.

"Certainly, we all have to be reminded on occasion that we are not professional academic administrators. We should not deem ourselves to be the managers of this place. That is what we hire President Shaw and our able chancellors for. What we should do is keep asking those plain-English questions and demand the plain-English answers.

"Finally, I think we have to continue to insist on quality, even in these tough times when it means higher tuition or limiting access in other ways. Quality should always come first, as difficult as that is.

"With those admonitions for the future, I would like simply in closing to thank you for helping me help us to be the great Board and System that we are."

Regent Vice President Lyon presented the following resolution, which was adopted with a standing ovation for Regent President Schilling:

Resolution 5542: Whereas, Paul R. Schilling has completed two terms of distinguished service as President of the Board of Regents of the University of Wisconsin System, having been unanimously elected Regent President in June 1988 and unanimously reelected in June 1989; and

Whereas, he has led the Board and the University of Wisconsin System with wisdom, with vigor, and with firm commitment to advancing the principles of educational quality set forth in Planning the Future, and to promoting significant progress toward the critically important goals enunciated in the Design for Diversity; and

Whereas, as the President and chief spokesperson of the Board, he has been a strong and effective advocate of the needs and priorities of the University of Wisconsin System: Persuasively representing the Board's position before the Governor, the Legislature, and other state leaders, he played a key role in gaining support for salary catch-up funding and other major budgetary and legislative objectives; and

Whereas, among the major accomplishments achieved under President Schilling's leadership were adoption of a Joint Statement of Principles with the VTAE System to facilitate transfer of credit while maintaining the distinct missions of the two systems; strengthening of linkages with the Department of Public Instruction; adoption of policies on remedial education, executive salary structure, and competition with the private sector; and expansion of international relationships through signing of a comprehensive scholarly exchange agreement with Moscow State University, and exploration of expanded UW System activities in Japan; and

Whereas, he initiated beneficial innovations to improve the Board's structure and procedures, including the decision to hold Regent meetings more frequently at UW System institutions around the state; creation of new standing committees for faculty, staff, and student appeals, and creation of a new subcommittee to focus attention on the audit function; and

Whereas, throughout his tenure, Paul R. Schilling has enriched the Regent Presidency by the high level of energy which he has brought to this demanding office; by his consistently fair and even-handed approach which has encouraged maximum participation by all in the Board's deliberations; and by his insightful understanding of UW System relationships in the state government decision-making process.

Therefore, Be It Resolved that the Board of Regents of the University of Wisconsin System hereby highly commends Paul R. Schilling for the exceptional leadership he has provided as Regent President and extends to him special appreciation for the major contributions he has made to higher education in Wisconsin.

Regent Vice President Lyon presented a plaque to Regent President Schilling in appreciation for his distinguished service as President of the Board of Regents from 1988-1990.

Regent - Officers -

~~Election of Regent President~~ *Lyon as President, p. 24*

Regent Gundersen nominated Regent Lyon for the office of President of the Board of Regents. The nomination was seconded by Regent Clusen, who stated that Regent Lyon has served the Board well in every capacity in which he has been involved; that he is hard-working, open-minded and fair in his decisions; and that he will represent the Board very well before all constituencies.

(x ref) Lyon, Thomas - Elected Board President, p. 24

Regent Weinstein moved that Regent Lyon be elected by acclamation. The motion was seconded by Regent Vos and unanimously carried.

Regent Officers -

~~Election of Regent Vice President~~ *Nicholas as Vice President, p. 24*

Regent Dreyfus nominated for Vice President of the Board Regent Nicholas, Chair of the Business and Finance Committee, who had demonstrated great skill in private life as a financial manager and also had demonstrated commitment to the UW System as a whole, as well as an unfailing sense of respect for the opinions of others.

(x ref) Nicholas, Regent Albert - Elected Board Vice President, p. 24

Seconding the nomination, Regent Weinstein stated that Regent Nicholas would be a loyal partner to President Lyon and that his contacts with state government officials would be very valuable.

There being no further nominations, Regent Nicholas was elected by acclamation.

Congratulating Regents Lyon and Nicholas, Regent Schilling stated his confidence in their ability to provide excellent leadership to the Board.

Board - Officers -

~~Election of Regent Secretary~~ *Judith Temby as Board Secretary, pp 24-25*

Nominating Judith Temby for reelection as Secretary of the Board, Regent Weinstein expressed appreciation for her devotion to working for the Board and for a job extremely well done. The nomination was seconded by Regent Steil.

(x ref) Temby, Judith - Re-elected Board Secretary, pp 24-25

Upon motion by Regent Weinstein, seconded by Regent Flores, nominations were closed and a unanimous ballot was cast for Judith Temby as Secretary of the Board.

Regent Grover, who had been out of the room when officers were elected, asked that the record show his support for the new President and Vice President.

Lyon, Regent Thomas L. - Comments upon election as President of the Board, p. 25
- Regent President Lyon presiding -

Comments by the Regent President

Expressing appreciation to Regent Schilling, Regent President Lyon said that one of the great experiences in his time in public service had been working closely with Regent President Schilling over the past two years.

He stated appreciation for the confidence and the support extended to him, not only this day, but throughout the four years he had served on the Board. While he recognized the considerable responsibility of the presidency, he was reassured by knowing that there are 16 extremely competent other Regents who share in this responsibility and are willing to assist in every possible way.

Prior to the July meeting, he planned to contact each Regent relative to committee assignments and any other matters they might wish to discuss as the format for the coming year is developed. He would have more remarks on that subject at the July meeting.

~~Regent Committee~~

PERSONNEL MATTERS REVIEW COMMITTEE

~~Regent Committee - (same)~~
Status Report on Petition of David Iaquinta, p. 26

(X ref) Regent Davis, Chair, presented the Committee's report.

(X ref) UW-Oshkosh Staff - (same)

Regent Davis noted his report at the May meeting that a brief had not yet been received from Dr. Iaquinta's representative on the issue of whether or not the Committee should recommend to the full Board granting of Professor Iaquinta's petition for Regent review. At that time, Regent Davis had said he would not convene the Committee to consider this matter until briefs had been filed. Since then, a brief from Dr. Iaquinta's representative had been received on May 18, approximately one month later than the original briefing schedule. The Committee had committed to allowing UW-Oshkosh, represented by Acting Chancellor Ward, ten days to make a response. Given that he was out of the country until June 4, he was allowed ten working days beyond that date to file his brief, which would be due on June 18. After that time, the Committee will convene. Both parties will be offered the opportunity to present oral arguments before the Committee.

Iaquinta, David - Status of petition to Personnel Matters Review

The Committee hoped to be able to make a recommendation to the Board at its July meeting as to whether or not the petition for Regent review should be granted.

Committee, p. 26

~~Madison, Town of -~~

ADDITIONAL RESOLUTION

Request for Action to Petition for Referendum on Town of Madison Annexation, R 5543, pp 26-32

Prior to presentation of the agenda item, Regent President Lyon read for the record the following letter from Regent Grover: "On the advice of the Department of Public Instruction legal counsel, I respectfully abstain from any discussion, voting or action by the Board of Regents relating to the issue of annexation of or petitioning by the Town of Madison or University of Wisconsin for changes in municipal boundary lines. My request to abstain on the annexation issue is based on the need to avoid any presumptions or perceptions of a conflict of interest with my statutory role to advise and act on disputes regarding school district boundaries. While there may not be an immediate correlation between school districts and municipal changes of the kind about to be proposed, the question of consequent school district reorganization could predictably arise as a result of any action by the Regents on this issue. Sincerely, Herbert J. Grover, State Superintendent of Public Instruction."

(X ref) Bluffs & Land - (same)

Introducing the agenda item, Regent Weinstein reported that in April he and Regent Davis had been contacted by the Mayor of the City of Madison, who was seeking a way to address the issue of annexation. The University owns half of the land in the Town of Madison and the Board's signature on the petition would be necessary in order to put the matter to a referendum. Because of the size of its landholdings, the Board could not be a neutral party by failing to sign the petition.

Emphasizing that the Board was being asked simply to sign the petition, not to circulate it or campaign for it, Regent Weinstein said the purpose is to enable the residents of the area to determine what governing structure they want. He had discussed the matter at length with the Mayor, with Chancellor Shalala, and with Regent Davis, all of whom agreed that this was simply a question of self-determination. Therefore, he had asked, along with Regent Davis, that the matter be put before the Board of Regents.

Mayor Soglin introduced presenters who made the following statements in support of the Mayor's position:

George Austin, the City Director of Planning and Development, explained that the Township of Madison is comprised of nine separate pieces of land, virtually surrounded by the city. The population of the town is approximately 6,500 residents, and 15 percent of the residential structures in the town are single family homes. Eighty percent of the residents in the township are renters. About 20 percent of the town is comprised of residential, commercial, industrial and transportation uses. The balance of the township--approximately 80 percent--is comprised primarily of recreational, water and institutional uses.

The Board of Regents was not being asked to support the annexation of the town, but rather to assist in giving the residents of the town the opportunity to decide whether they want to become part of the City of Madison.

Noting that there are several methods of annexation, he explained that the Board was being asked to participate in the annexation procedure known as "annexation by referendum," in which a referendum is placed on the ballot if a petition is signed by electors equal to 20 percent of those in the town casting ballots for Governor in the last election and by the owners of one-half the real property either in area or in value. The University owns approximately 1,050 acres out of the 2,100 total acres in the town.

Stating that the Board was not being asked to lead an annexation effort, he noted adoption by the Madison Common Council of a resolution supporting annexation and encouraging a referendum to be held. In addition, there were grassroots efforts in the township to gather the necessary signatures of electors and additional property owners.

When the requisite signatures have been collected, they must be presented to and accepted by the Madison City Council. A referendum would then be scheduled, probably for the fall general election. The cost of this referendum would be paid by the City of Madison.

Speaking as a resident of South Madison, Mr. John Quinlan urged that the decision be brought to the people. He thought the boundaries of the current town cut people off from their government and that most did not realize they live in the town.

As the town's largest property owner, the Board would be deciding whether the people of the town have the opportunity to determine their own future. As to proposals to form a new city, he noted that would involve separating out city residents on the south side. While its time might come in the future, he thought South Madison has challenges that need to be addressed now. Therefore, the Board was asked to allow this particular issue to be put on the ballot without delay.

Jonathan Barry, former County Executive and President of the W.T. Rogers Company, indicated the interest his company has in the viability of South Madison. Their observation was that this viability has been jeopardized by inability of the residents to have a single focus for their government. His support for governmental consolidation of South Madison was based on the urban problems faced by the area and lack of clarity as to coordination of services.

Noting that 80 percent of the town residents are renters and only 15 percent were residents five years ago, he felt there is a real confusion and inability to express power, which could only be resolved by having a single governmental structure in the area. He urged the Board to let the town residents have an opportunity through referendum to express their will in the matter.

Tom Solberg, Chair of the Town of Madison, began his statement by emphasizing that the town does not disagree with the idea of holding referenda. In fact, a referendum in the town held five years ago resulted in a three-to-one margin in favor of incorporation. However, the city of Madison then went to the Legislature, which made adjustments in the law that resulted in the incorporation process being invalidated.

Mr. Solberg questioned whether the Board of Regents should become involved in the referendum process. Noting the six different ways provided by statute to annex a town, he commented that the Mayor had tried virtually every other method to annex the Town of Madison over the last year, all of which had failed. Indeed, one of the other five annexation methods involves an initiative process from government. However, the Madison City Council failed to pass an annexation resolution.

In a survey of area businesses--one-third in the Town of Madison, one-third in the City of Madison, and one-third in the City of Fitchburg--the membership opposed annexation by a 2-1 margin, and all of the businesses in the Town of Madison opposed annexation.

For the method of annexation being proposed, two classes of signatures are required on the petition: electors and property owners. However, property owners' signatures can be obtained by two methods. One method is 50 percent by land area, which he felt would produce a lopsided result, since the Board owns almost half of the Town of Madison land. The other method is 50 percent of assessed value. Stating that the Mayor had no hope of obtaining the signatures of 50 percent of the land owners based on assessed value, he commented that, if the University land were not a factor, the Mayor also would be unable to obtain the signatures of 50 percent of the property owners in terms of land mass.

With regard to the argument that failure by the Board to sign the petition would obstruct a democratic process, Mr. Solberg observed that demand for a referendum was not a grassroots initiative. Instead, it came from the Mayor's Office. Secondly, the city had another option--the assessed value methodology--which had not been even tried.

Third, he considered the request to be premature. At this time, there was no petition and there were no signatures. At a minimum, he felt the matter should be tabled until backers obtained enough signatures to hold a referendum, "but for" the action of the Board. In fact, he commented, the

Mayor was coming to the Board, not to overcome an obstruction, but to initiate the process. Stating that this would not be a neutral position to take, he predicted that circulators of the petition certainly would point out that the Board of Regents had already signed it.

Residents wished to keep their town government, he said, because it is efficient, provides excellent services, and is responsive.

Because of some problems resulting from geographic fragmentation, Mr. Solberg had proposed holding a referendum to decide if the town and city portions of South Madison should be incorporated as a new city or village. That would maintain the benefit of community focus and accountability for local issues, with the county government responsible for larger scale issues.

If the University of Wisconsin System were dissatisfied with the services received from the Town of Madison in the Arboretum, he said, there might be a basis for Board involvement in this matter. However, the town and university always had an excellent working relationship. In the absence of such a reason, he felt the Board should not use its land ownership position to become involved in a local political issue.

Affirming the soundness of the relationship between the town and the university, Mr. John Gerlach, attorney for the Town of Madison, said there would be no benefit to the University by becoming involved in the annexation process. Noting the right of town residents to start a petition at any time to annex all or part of the town to the city, he urged the Board to let the people decide what they want to do.

Mr. Jerry Lay, Senior Vice President of the Park Bank, with a branch located in the Town of Madison, stated the bank's satisfaction with the services provided and the responsiveness of the town.

Mr. Buckenaga, property manager of Somerset Townhouses in the Town of Madison, noted that Somerset had been identified by the Mayor as an example of problems the Town of Madison cannot handle. Noting existence of the same problems within the City of Madison, he urged that Somerset not be used as an issue to influence the Board's vote.

Mr. Ben Heifetz, a business owner in the Town of Madison for many years, cited widespread satisfaction with town services, responsiveness and efficiency. He urged the Board to leave well enough alone.

Ms. Karen Johannsen, of Johannsen Greenhouses in the Town of Madison, stated her business' satisfaction with town services. In addition, she commented that annexation would result in large tax increases and greater expense for services. She asked that town residents and business owners be allowed to address the issue without Board intervention.

Regent President Lyon noted provision by the Mayor's office of a resolution for consideration by the Board. He and President Schilling had made sure the Town of Madison also had been contacted well in advance of the meeting, so there would be no surprise on either side and ample opportunity for both parties to make presentations.

Regent Weinstein added that the Mayor had been asked to provide a resolution which would state exactly what the Mayor was asking the Board to do.

It was moved by Regent Weinstein and seconded by Regent Flores that the following resolution be adopted by the Board of Regents:

THAT, the Board of Regents is duly authorized to purchase, sell, exchange and otherwise act regarding real property; and

THAT, it has been proposed to the Board that certain University-owned lands, constituting the University of Wisconsin Arboretum, located in the Town of Madison, Town 7 North, Range 9 East, Dane County, be annexed to the City of Madison, and that due to the acreage of the Arboretum, said lands are necessary in order for resident-electors proponents of annexation of the Town of Madison to obtain the minimum required signatures of owners of land by area to successfully petition for annexation by referendum, under Sec. 66.021(2)(b), *Wis. Stats.*; and

THAT, the Board of Regents supports placing the question of annexation on a referendum ballot to permit qualified electors in the Town of Madison to vote on this issue; and

THAT, the Board of Regents hereby authorizes and directs its President to sign a petition for annexation by referendum, on behalf of the Board of Regents, as owner of lands located in the Town of Madison, proposed to be annexed to the City of Madison.

Regent Weinstein noted that the means of annexation being proposed is one of those provided by statute and therefore a legitimate method of proceeding. If the President of the Board signed the petition, signatures of 20 percent of the voters still would be required for a referendum to take place. Then the voters of the town could make their decision. He had heard no persuasive argument against allowing a referendum.

Regent Schilling felt it would be more appropriate to obtain the requisite number of electors' signatures before asking the Board to sign the petition.

Regent Davis thought it understandable that the Mayor would want to know the position of the Board before incurring the expense of soliciting electors' signatures, since the signature of the Board would be required for the petition to succeed. As owner of 50 percent of the land, the Board could not avoid being involved, since signatures of owners of half the land area or assessed property value is required for a referendum. Since only 14 percent of the town is residential structure, most of the property is business and apartments, the owners of which probably have no wish to have their taxes raised. The question was whether the voters would have the opportunity to decide.

Regent Schilling did not think the Board should take a position unless absolutely necessary to permit the vote. At this time, there had not even been an effort to obtain signatures on the basis of assessed value. He did not believe the Board should initiate the process.

Regent Gelatt moved that the second-to-last paragraph be struck from the resolution and that the last paragraph be modified to add after the words "That the Board of Regents," the words, "upon completion of the other requirements of s. 66.021(2)(b)." The motion was seconded by Regent Gundersen.

In fairness to the city, Regent Schilling did not want the resolution open to interpretation as requiring signatures of 20 percent of the voters; 50 percent of the assessed value; and also 50 percent of the land area. He thought the amendment should specify only the required 20 percent of the electors.

Regent Gelatt modified his motion to read "upon presentation of a petition with the requisite number of qualified electors having signed, as provided in s. 66.021(2)(b), *Wis. Stats.*"

Regent Krutsch stated her concern about the Board being able to fulfill the entire landowner part of the requirement. She thought the Mayor should pursue the option of obtaining support from half the property ownership by assessed value.

Regent Vos agreed, especially since the Board does not pay taxes in the town. He thought the assessed property owners should have a greater voice in the matter than the Board.

Regent Weinstein saw no need for the amendment since both the landowner and the elector requirements would have to be met, regardless of who signed first. He did not think the Board's signature would have the effect of influencing others to sign the petition. With regard to the method of annexation, he did not consider it pertinent to debate whether 50 percent of the assessed value or 50 percent of the land area is a better way to annex, since the law permits both methods.

While he agreed with Regent Weinstein, Regent Flores felt the amendment would increase support for the main motion.

Put to a roll-call vote, the amendment was adopted with Regents Clusen, Davis, DeLong, Doughty Luckhardt, Dreyfus, Flores, Gelatt, Gundersen, Lyon, Nicholas, Schilling, Steil and Weinstein voting "Aye" (13), Regents Krutsch and Vos voting "No" (2), and Regent Grover abstaining.

Regent DeLong considered it a dangerous precedent for the Board to become involved in a local political issue. As a non-taxpaying landowner, he thought the Board should not enter into the matter; instead, those paying the bill should decide. He urged the Board to stay neutral and not adopt the resolution.

Regent Davis commented that, in signing the petition, the Board would be neutral on the issue of whether the town should be annexed but would not be neutral on the issue of whether democracy should work. As to the argument for using the assessed value method, he noted that there are

thousands of people living in the area but a very small number of landowners. He did not think it would be democratic to allow a small number of landowners who may or may not live in the community to dictate the outcome. If a few businesses opposed a referendum, then thousands of residents would be deprived of voting.

Regent Vos did not think it would be democratic for one landowner to tell all the others what they must do. If people really want a referendum, he commented, they will come out in support of it, instead of having the Board decide what is best for them.

Regent Dreyfus did not believe the Board could take a neutral stance, since failing to sign the petition would thwart one process simply because of the size of the Board's land ownings, while signing it would activate the process. The only way he could perceive being neutral would be to annex the Arboretum to the City of Madison. Noting that the referendum would fail if the voters did not want annexation, he urged the Board to let the people decide.

Regent Gundersen cautioned that, if the Arboretum were annexed to the city, there might well be charges for fire protection and other services.

Regent Doughty Luckhardt opposed taking an action which would force the Town of Madison to have a referendum.

Put to a roll call vote, the amended resolution was adopted, with Regents Clusen, Davis, Dreyfus, Flores, Gelatt, Gundersen, Lyon, Nicholas, Steil and Weinstein voting "Aye" (10), Regents DeLong, Doughty Luckhardt, Krutsch, Schilling and Vos voting "No" (5), and Regent Grover abstaining.

Resolution 5543: THAT, the Board of Regents is duly authorized to purchase, sell, exchange and otherwise act regarding real property; and

THAT, it has been proposed to the Board that certain University-owned lands, constituting the University of Wisconsin Arboretum, located in the Town of Madison, Town 7 North, Range 9 East, Dane County, be annexed to the City of Madison, and that due to the acreage of the Arboretum, said lands are necessary in order for resident-electors proponents of annexation of the Town of Madison to obtain the minimum required signatures of owners of land by area to successfully petition for annexation by referendum, under Sec. 66.021(2)(b), *Wis. Stats.*; and

THAT, upon presentation of a petition with the requisite number of qualified electors having signed, as provided in s. 66.021(2)(b), *Wis. Stats.*, the Board of Regents hereby authorizes and directs its President to sign a petition for annexation by referendum, on behalf of the Board of Regents, as owner of lands located in the Town of Madison, proposed to be annexed to the City of Madison.

At 11:50 a.m., the following resolution, moved by Regent Nicholas and seconded by Regent Davis, was unanimously adopted on a roll call vote, with Regents Davis, DeLong, Doughty Luckhardt, Dreyfus, Gelatt, Grover, Lyon, Steil, Vos and Weinstein voting "Aye" (10), and no regents voting "No."

Resolution 5544: That the Board of Regents recess into closed session to consider personnel matters, as permitted by s. 19.85(1)(c), Wis. Stats., including action on salary increases above Group 6 of the Executive Pay Plan, authorization to offer a salary above the approved range, UW-Madison, possible action on appointment of Dean of Law, UW-Madison, and possible appointment of Dean of Education, UW-Madison; and to confer with legal counsel, as permitted by s. 19.85(1)(g), Wis. Stats.

The Board arose from closed session at 1:55 p.m. and made the following announcements:

CLOSED SESSION ACTIONS

for Dean of International Studies and Programs

Faculty -
Authorization to Offer Salary above Approved Range, UW-Madison, R 5545, p. 33

Resolution 5545: That, upon recommendation of the Chancellor of the University of Wisconsin-Madison and the President of the University of Wisconsin System, the Chancellor of the University of Wisconsin-Madison be authorized to offer a salary in the range of C\$85,000 to C\$98,000 for a Dean of International Studies and Programs.
