BAY LEAVES

Volume 1 May 1833

WILLIAMS BAY

at the Library of Congress

The Bay Leaves

The Bay Leaves appears today in it's initial Number. It is made possible by the loyal support of the Business Men of Williams Bay.

If possible to arrange it you will find another issue next week and every week during the Summer.

There is no subscription price as it is the desire of the Editor and Publisher to get copies into every home in Williams Bay and vicinity.

If you enjoy getting the paper and think it worth while, you can help by being a reporter. If you know of any news that will be of interest to your neighbors write it out on a slip of paper and hand it to the Editor or place it in the mails.

Will Summer home owners please let the Editor know when you come for the Season? The all year residents wish to know you better.

While there is no subscription price, the Publisher will be pleased to receive small amounts such as quarters to dollars which will help to put out a better issue.

Why a Williams Bay Newspaper?

Williams Bay is able to support a paper as well as some of our neighbors whose size is about that of our village. The last census gave the population as 630 but a conservative estimate of the Summer population is well over 3,000.

Williams Bay has as enterprising merchants as can be found in any community. They are large taxpayers and as such help to make the Village a fine place in which to live. They support our churches and schools, help to keep up an efficient fire department and have made possible Edgewater Park.

When in the market for almost anything talk over your wants with them. You will be surprised to find such complete stocks are available. They will do all in their power to serve you well.

The Village Officers are always ready to listen to your problems. Col. Atkins the Village President has appointed very efficient committees to study the varied problems that arise. On another page these are all listed. If you have any suggestions to make for the betterment of the Village or constructive criticism hand it in writing to any officer or trustee. The Village Board meets on the First Monday night of each month at the Library. The meetings are open to the public.

Ole: "I bane want a license."

Clerk: "What kind of a license do you want? A hunting license?"

Ole: "No. Aye t ank aye bane hunting long enough. Aye want a marriage license."

The Men's Community Club meets the First Tuesday of each month at a 6:15 dinner at one of the hotels. It tackles problems that concern the whole Village. It's attendance has kept up very well during the four years of its service. The annual dues are only one dollar. Dinners are 50¢. If any balance at end of year, it is spent for a worthy project. Last year it went for Christmas baskets.

The Village has a very active Women's Garden Club. It has thirty four members and meets on the first and third Tuesdays of each month at 2:30 at the Community Room. All women in the Village are invited to join and help beautify the Village. It keeps up the flower bed at the Park and is planting shrubs and trees around the Library, Water works etc.

The Parent-Teachers Association is noted throughout the state for its size and activities. It meets on the last Monday of each month during the school year. At the last meeting the new officers that were elected are, President - Mrs Philo Chamberlain, First Vice-Pres. Mrs Edward Zabler, Second Vice-Pres. Mr Ernest Krebs, Secretary, Miss Marjorie Purdy, Treasurer, Mr Carl Bjorge. The teachers served the refreshments. Prof. Fisher of Whitewater Teachers College was the speaker. "His impressions of a trip to Europe" were interesting to all and especially to one planning to take such a trip.

"Would you believe it? He actually ran away as they were standing at the altar."

"Lost his nerve, I suppose?"

"No - found it again."

The Village Board met on Monday Night for regular meeting.

The Finance Committee reported that an audit had been made of the Books of the Water Commission as at January 1st, 1933 and that they were found to be correct.

The Finance Committee was empowered to arrange for suitable bonds for the Clerk, Treasurer and Constable. The Building Committee was given control of the Lake Shore.

An Ordinance regulating Transient Merchants was read for 3rd reading and passed unanimously. It becomes a law upon posting.

A request for permission to build a Standard Oil Gas Station on the lot adjoining the John Nelson residence on Geneva Street was referred to the Building Committee.

An Appropriation of \$100 was voted to the Committee on Century of Progress whose activities appear in another column.

An ordinance making it obligatory to keep dogs upon the owners property or under leash was passed.

Power was given the Attorney to appear before the Committee hearings at Madison as bills in which the Village is especially interested are to be acted upon.

Paul W. Pemberton and wife were home over the week end from Central State Hospital at Waupun where Paul is a guard and instructor in the prison school.

Ignatius Schwinn was up to his home on Cedar Point. He was accompanied by his daughters, Mrs. Elizabeth Brown and Mrs. Edward Buschan. They will soon be here for the Summer.

Go to Church next Sunday

Williams Bay can well be proud of its churches.

Under the leadership of Rev. Victor E. Keiser the Congregational church is making rapid progress toward a capacity church. During the week proceeding Easter services were held every night except Saturday and on Easter over 200 were in attendance. At the Passion week service the lighting effects of candles and the electric lighted cross were very impressive.

On April 23rd there was an Appreciation service for the Officers of the Church and Sunday School. Carnations were presented to all the workers and bouquets of snapdragons were presented to Mrs F.M. Van Epps, the Chorister, Miss Van Biesbroeck, Pianist and Miss Calvert, Sup't. of the Sunday School.

On April 26th, the last of the Fellowship suppers was held. Every family brought something to share with others and enjoyed eating together. J.S. Hotton spoke on "Appreciation of Williams Bay". It is hoped these Fellowship suppers will be renewed in the Fall.

Last Sunday Rev. Keiser commenced a series of sermons on the Hebrew prophets, showing their message to their day and giving applications to similar conditions today. The first one was on "Amos".

Those who are of the Lutheran faith will find a fine group meeting under the leadership of Rev. E.J.C. Jehn in the Community Room on Sunday mornings at 9:30.

Gospel Tabernacle Services
11 a.m. and 8 p.m.
Bible School 12 m.

Last Sunday Rev. Clark preached in the morning and The Ambassadors from Wheaton College had charge of the service, in the evening.

NATIONAL AFFAIRS

President Roosevelt is relaxing each Sunday by taking trips down the Potomac in the Yacht Sequoia. While here Premier McDonald accompanied the President on the Yacht.

Secretary of the Treasury says that he enjoys his job and despite rumors to the contrary he is going to stick by the chief.

Emanating satisfaction with the results of his mission and uttering words of friendship and adieu, Edouard Herriot, the former prime minister of France sailed for home Saturday aboard the Isle of France.

Hope for the Bonus faded this session of Congress when the proposal was turned down. The Leaders of B.E.F. are trying to start another Bonus Army, much larger than before.

Norman H. Davis, the President's representative at the world economic conference which will meet on June 12th proposes an "armistice" pending the Conference.

This proposal did not meet favor so it means that every nation is free to raise up all kinds of tariff barriers.

The Forestry Army is getting anxious to be at work. There are two companies of 212 men each stationed at Ft. Sheridan. One of the camps will be stationed in the North woods in Wisconsin. While waiting for orders the men have been catching up on "eats" and some have gained as much as twelve pounds.

Polish and Italian nationalities predominate at Ft. Sheridan. About 5% of the applicants are rejected because of physical disabilities which make them incapable of doing the job required. As a whole the men are in fairly good physical condition in spite of the hard times.

Do not get discouraged because you do not understand all about inflation. The learned economists and politicians cannot agree on what it will do. Time only will

well. It is quite evident that we have started on the road to inflation from the way the dollar is acting abroad. The dollar will have less value as more paper money is issued without proper backing of gold or other values behind it. We will have to pay more for what we buy. Oh well, we will not mind that if we can get plenty of the inflated dollars to pay out.

HOLLYHOCKS

--Williams Bay Flower--

No one can have too many hollyhocks. Plant them at the back of the borders, among the shrubbery, along fences, and in great clumps in any old corner or around buildings. They may be allowed to foregather in unserried ranks as one often sees them in country gardens behind a white picket fence. Hollyhocks and white picket fences have a special affinity for each other. Hollyhocks are never amiss and are always beautiful.

They grow six to eight feet high. To get bloom the first year, start indoors in February - transferring the seedlings promptly in May. The plants like deep fertile soil but rank manure is not safe and the ground had best be prepared a little before planting. Allow about two feet of space per plant and it is better to cover them with leaves during the first winter.

A hollyhock cannot be counted upon to bloom more than three years. The first year stalks are about four feet high, afterwards if in

good soil they will be from six to eight feet.

As soon as the blooms are gone, save the seeds you want to keep and cut down and burn the stalks.

By sowing the seeds as soon as thoroughly ripe and dry plants can be raised which will be large enough to transplant in October and will bloom the next year. These young plants should be given a slight covering the first winter.

Right now is a good time to plant hollyhocks. The Garden Club members are doing a lot of trading of flowers among themselves. The local green-house has several varieties.

George Williams College is the new name for The Y.M.C.A. College which owns College Camp. The name is taken from the founder of the Y.M.C.A. movement.

This year the College Camp will celebrate 50 years of service to the Association Movement. As a part of the celebration there will be a re-union of former employees. Mr. Hotton retired Business Manager of the College is spending considerable time in promoting attendance.

Have you noticed the attractive stone fence at the West limits of Geneva Street? It is a gift to the College Camp by Mr. S.B. Chapin.

It really should be considered by every one in Williams Bay as a gift to the Village. Mr. Chapin loves Lake Geneva and its environs and is always keeping his eyes open for opportunities to help in making it more beautiful or in protecting the natural beauties along the highways.

Howard Hotton is back on his old job at the Kish-wau-ke-toc Golf Course but just let him hear that you are interested in a life insurance policy and he will be on

and in the evening to give the facts.

Frank Vavra is a busy man getting the Centzel residence (the Healy home for years) all painted and decorated for the new owner.

In glancing over the Aetna-izer, a magazine of Insurance, the editor noticed that the Letter No. 4 sent out by Hotton and Sons to the residents of the Bay and others recently, was published in full with very complimentary remarks

J.B. Wightman is remodeling the entire first floor of his store building on Main Street, near Center St. Lake Geneva and in about two weeks will have a complete funeral parlor. Mr Wightman and his wife, who assists him in his funeral work have the apartment up-stairs. It will probably be known as Wightman's Mortuary.

Chicago has well over 900 Conventions listed to be held in that city during the Century of Progress and they expect the delegates and families to leave \$75,000,000 with the merchants. Williams Bay should look forward to the time that groups will wish to come to this Village for Conventions. Someday a Community Hall with room for such Conventions may be built.

Word has been received of the serious illness of James (Jim) Bingham who lived here for some time, following the carpenters trade. He is in the St. Agnes Hospital at Fond du Lac. He is a brother of Chas. L. Bingham former Supt. of Y.M.C.A. Camp.

Mr and Mrs. Warren Smith are back for the Summer in a Cottage at Loch Vista. Mr Smith is a grandson of Mrs. Rockenfeller.

Miss Cedonia Swartz of Terre Haute, Ind. is visiting her grandmother, Mrs. Henrietta Swartz.

John Keiser was taken to the County Hospital on account of an attack of appendicitis last Saturday. It was found necessary to operate at once. He is recovering rapidly.

The Woman's Annual Banquet will be held this year on May 9th at Solid Comfort Resort. Mrs Karen Steels is chairman.

Mrs Frank Kudrna is recovering very nicely from a serious operation at the County Hospital.

Mrs Sidle with her daughter Beverly Ann are visiting with her parents Mr and Mrs Waterbury. They reside in Viroqua, Wisconsin.

The editor visited Sawyer's Green house last Monday and was surprised to find so many varieties of vegetables and flowers on hand, which have been raised right in the green-house this Winter. There are five varieties of Tomato plants, four varieties of geraniums and a large selection of perennials which will blossom this Summer.

Tell your merchant that you say his advertisement in "Bay Leaves".

Wm. H. Freytag has been selected by the Village of Walworth to be their Village Attorney.

Two of our young men are trying to build up business in Williams Bay in electrical work. Keep them in mind when in need of such service.

Earl Fleming received his training at the University of Wisconsin and Milwaukee School of Engineering. He is specializing on Repair work. George Proctor is a graduate of Cooke's School of Electrical Engineering Chicago and has had six years of experience. He is ready to do contracting in Electrical Installation.

Eus Mogg who sells Plymouths and Chryslers spent his Summers for many years in the Vicinity of Williams Bay. He was in California during the Winter. Reports are that he has sold several cars in the Bay recently.

Mr. and Mrs J.S. Hotton called recently upon Dr. and Mrs. F.H. Burt at Galva, Ill. Dr. Burt will be remembered as former president of Y.M.C.A. College, and is now retired.

Eldred Piehl is Secretary in Hotton and Sons Office.

Mr and Mrs F.E. Scholl of Chicago, were up to their Cottage for a day. They had as their guest Mrs. C.M. Baldwin of London, England, a sister of Mr. Scholl, who was anxious to see Lake Geneva again.

Williams (Bill) Porter and his daughter and husband, John Prusner, were pleasantly surprised by a group of fishermen and families last Sunday. There were eighteen in the party who brought a picnic lunch. Among the party were George Katerling, Paul Stech and John Logan, all business men from Rockford, Monte Miller and wife, a district manager for National Tea Co. in Chicago. Another picnic is planned for May 25th, the opening of the Fishing season.

High School News

Composite editorial by the Students of the American Problems Class.

"Moral Standards of Today"

Morals being defined as pertaining to human behavior or a teaching of the duties of life we might say that education has improved - therefore the morals must have improved.

Many people have the idea that the "younger generation is going to the dogs". They say, "If you don't believe the young people are immoral look at the extreme dress, and look at how the young couples carouse around in automobiles. It's shocking to say the least." They don't seem to remember when Grandma was a girl, her little pantalettes all covered with frills and lace, showed beneath her dress. Neither do they remember all those long buggy rides in the evening, when John just dropped the reins and let the horse find the way. We are no worse in our day, than Grandmother was in her day.

Today the young people are taught what is right and what is wrong and educated so that they know the difference between right and wrong. Our parents were told exactly what to do and were given no credit for intelligence.

Times have changed and to keep up with the new times we must move along with these things. If youth did not keep up with the pace of modern life it would not be youth.

But why should people paint such a dark picture of modern life for who knows maybe this younger generation is destined to go great things in this world.

The High School Band of twenty-eight pieces attended the district music tournament at West Allis on April 29, 1933. Wms. Bay shared first honors with West Allis in Class "C".

The band and its director wish to thank the Band Mothers' Association for their loyal support.

Williams Bay Anglers Club

edited by Roy Johnson

The Wisconsin Conservation Commission is sending a shipment of finger-ling trout,

The Commission will seine for bass in the Bay next week. It is a very interesting sight. The bass are taken to the state Fish Hatchery at Boner's Lake near Burlington for spawning purposes and returned to Lake Geneva in the Fall.

Visitors are always welcome at the Hatchery.

Trout season opened May 1st.

Pickereel and Wall-eyed pike can be caught commencing May 25th.

Wis. Statutes Sec. 29.14 "Any non-resident (male or female) over the age of 16 years must purchase a license to fish with hook and line in any inland waters of this state.

Non-resident licenses are effective only from May 1st to the next succeeding first day of December.

The penalty for violation of this provision is not less than \$50 or more than \$100."

Fishing Licenses can be procured from Roy Colby or Hopkins and Walker

The Mens' Community Club Promotes
Williams Bay in Connection with a
Century of Progress Exposition.

The idea of such promotion ori-
ginated at the March 7th meeting
when Dr. Jenkins told of the pre-
parations being made at the Obser-
vatory for the starting of the
Century of Progress Exhibition
from rays from the star Arcturus
which take 40 years to reach the
earth.

Quite extensive plans as result
of numerous meetings have been
worked out.

The executive Committee is com-
posed of chairmen of a dozen com-
mittees. The officers selected
are Chairman, W.H. Freytag, Sec.
P.H. Chamberlain, Treas. E.E. Iver-
son. J.S. Hotton was chosen manager

A Budget of \$900 was set as a
goal to cover the necessary ex-
penditures of promotion.

The drawing on the Cover this week was made by Prof. Geo. Van-Biesbroeck. The cover design and other art work are by Edna Tulane.

Your indulgence is asked on the reading of a few of the pages. The editor was a little too ambitious in getting out 1000 copies and the stencils would not stand so many.

This is the last number of Bay Leaves for this Summer. We thank all advertisers and subscribers. Though it has been a lot of work to get it out each week, yet it has been a pleasure. It is hoped that those who have been planning on giving a subscription will do so.

F. M. Van Epps
Editor and Publisher.

Extra copies on sale at Burton's

This past Summer has been very severe on many varieties of perennials and you will be wanting to replace them at the proper time for planting.

We invite you to visit our nursery and select a variety.
