[illegible]

These Indexes are made of best quality of Paper, well and substantially bound, with wide Russia backs and corners, cloth sides, gilt roll, linen faced margins, and are strongly sewed with the best linen thread obtainable: They are in truth the *neatest* and *strongest* made Indexes in the market. Recognizing the fact that an Index receives more handling and hard usage than any other book on the desk, and that the *dilapidated*, *worn out* Indexes so generally seen are *proof* that very few are properly bound, we shall manufacture the *Printed Index* in a strong and durable manner sufficient for both *use* and *abuse*.

SOME ADVANTAGES OF GRAVES' PRINTED INDEX OVER ALL OTHERS.

It is evident to all that the more numerous the names to be indexed, the greater the number of divisions required, and the greater the number of divisions, the less space to look over, and consequently the less time required to find the name sought. The "PRINTED INDEX" divides each letter of the alphabet into as many divisions as there are *second* letters possible to occur in surnames, and with these numerous divisions is therefore greatly superior to the *Vowel Index*. The first two letters being *printed*, will save time in indexing—will prevent an entry in the wrong place—will catch the eye more quickly than the *written* letter—and will also prevent the possibility of mistaking what the letters are *intended* to be, as is so often the case with flourishing capitals or indifferent penmanship.

The use of the *first two* letters of a name is a *natural* division, whereas the use of the first letter and the *first vowel*, (which may be the *fourth* or *fifth* letter of a name,) is an *unnatural* and *forced* division.

The use of columns, separating Christian names or Initials from the surnames, prevents confusion and wonderfully facilitates the finding of names. The "*Residence*" column is an important feature, combining the advantages of an *Index* and *Address Book* in one and the same volume.

The *double margin* shows not only the first letter, as do all indexes, but also the *second* letter of the surname while the *manilla extension* facilitates handling and prevents dog-earing, curling or tearing the marginal letters.

Printed Notes, Drafts, Receipts, &c., save time—so does the Printed Index. The *printing* in the Index, if paid for at regular rates of copying, would equal the price of the book. This insignificant (?) item in every 1000 names, saves writing 2000 letters (half of them Capitals,) or an average of 400 words. If Time is Money, the time *saved* in indexing and finding names will alone fully repay the cost, while the vexation and trouble altogether done away with is unaccountable.

In brief—The "PRINTED INDEX" is *Simple, Natural, Practical, Convenient*—saving *Time, Labor, Mistakes* and *Vexation*. Every book-keeper using it will adopt its motto and trade mark "*EUREKA*" (I have found it).

ANY OF THE ABOVE WILL BE SENT PREPAID BY MAIL OR EXPRESS, ON RECEIPT OF PRICE.

The 1 M Cap has *two* columns for names on a page with space for ledger folio, but *no* space for residence. It is thin enough to place inside the ledger, and specially designed to take the place of the ordinary Vowel Index. The combinations of first and second letter of the surname are printed in both columns, and the entire number of combinations under any one initial letter are shown at one opening except *B, C, H, M, S* and *W*. The other *double column* styles have the combinations printed only in the left hand column on each page, each side giving space for Surname, Christian Name and Page. This arrangement makes them very convenient for two different ledgers or for separation of accounts in the same ledger, as city and country, wholesale and retail, or in different ways which will suggest themselves to the user. The 2 1/2 M Crown, 5 M Crown, 5 M Medium, 10 M Medium and 10 M *Double Cap have the combinations printed upon the *left hand page only*, thus giving a double page for each entry. All the other sizes have, on each page, one column for names together with ledger columns and space for residence or remarks as shown in the cut.

The regular Cap and Demy sizes are always in stock, and on receipt of price will be promptly sent by mail or express to any part of the country, all charges prepaid.

All the above sizes (with the exception of the 1 M Cap) are kept in sheets already printed and gathered, and will be bound up in *any style* on *very short notice*, with any special *DOWN RULINGS* or *PRINTED HEADINGS* desired, to suit the particular business or wishes of party ordering. Prices of Specially Ruled Indexes depend upon the capacity, size and style of binding, and will be made known upon application.

N. B.—The sole publication of GRAVES' PRINTED INDEX is secured to us by full assignment of copyright issued to W. H. GRAVES. Any infringement will be promptly prosecuted.

This **Manilla Extension**, projecting a trifle beyond the outer cover, facilitates handling and **prevents curling or tearing** the marginal letters. Place your last three fingers under the extension, your thumb on the **initial** letter, and bend the leaves a little, when the **second** letter will show on the **upper** margin, on which put your first finger, then remove your thumb, and the Book will open at the division required.
