The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

# PLAYPRON

Trade Mark Reg. U. S. Pat. Off.

## The uniform and dress protector for the nursery, hospital, and doctor's office

PLAYPRON is the perfect dress and uniform protector to wear when bathing or changing the baby. Better for baby, too, because Playprons are glistening white, smooth, and waterproof and do not collect lint or germ-laden dust, as fabrics do. It's the sensible way to guard a child from unnecessary exposure to infection.

Indispensable for home nursing, public health and Red Cross workers, and in the laboratory.

For nurses in doctors' offices and for dental hygienists, Playprons are more than practical. They add that desirable touch of casual, professional smartness. Fashioned in sanitary white to blend with the uniform, Playprons are made with a perky little swing pocket. The neck line stretches a yard to make it easy to put on or take off without removing the cap.

In the hospital, in surgery, or wherever protection from splash-soiling is important, Playprons are indispensable.

Quickly washed with Ivory Soap and water; instantly dried with a pat of a towel. One size for women 14 to 22; another size for little women 10 to 14.

International Latex Corporation, Playtex Park, Dover Delaware

**A Playtex Product made of creamy liquid latex. Sold by infants' wear departments everywhere**
