The Royal Piano Forte, Compass $6\frac{1}{2}$ Octaves, with Cylinder Fall, Twenty Seven Guineas.

CAUTIONARY NOTICE.

D'ALMAINE and Co. finding that certain Vendors and Tuners of Pianofortes in London and the Country, as also Proprietors of Music Shops who lend their names to the instruments they sell, are from mercenary motives in the habit of representing that it is impossible to manufacture first class Pianofortes at the above prices, earnestly request intending purchasers to consult their own interests by inspecting and testing the Pianofortes manufactured by D'ALMAINE and Co. when they will be found equal in quality, tone, workmanship, material, and durability, to those of any maker in the kingdom. To the Nobility and Gentry yet unacquainted with their Establishment and the peculiar advantages of their Instruments, they offer, in opposition to the interested misrepresentations of the supporters of monopoly, long credit, and exorbitant profits, the following Testimonial of the leading Musicians of the age:

PROFESSIONAL TESTIMONIAL RESPECTING THE PIANO FORTES OF D'ALMAINE & Co.

We, the undersigned Members of the Musical Profession, having carefully examined the Royal Piano-Fortes manufactured by Messrs D'ALMAINE & Co., have great pleasure in bearing testimony to their merits and capabilities. It appears to us impossible to produce Instruments of the same size, possessing a richer and finer tone, more elastic touch, or more equal temperament, while the elegance of their construction renders them a handsome ornament for the library, boudoir, or drawing-room.
