MINUTES OF THE ANNUAL MEETING  
of the  
BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM

Madison, Wisconsin

Held in the Clarke Smith Room, 1820 Van Hise Hall  
Friday, June 8, 1979  
9:10 A.M.

President Hales presiding

PRESENT: Regents Barkla, Beckwith, DeBardleben, Elliott, Erdman,  
Fitzgerald, Fox, Gerrard, Grover, Hales, Lavine, Lawton,  
McNamara, Majerus, Thompson, and Walter

ABSENT: None

Upon motion made by Regent Lavine, seconded by Regent McNamara, it was VOTED, That the minutes of the regular meeting of the Board of Regents of the University of Wisconsin System held on May 11, 1979, be approved as sent out to the members of the Board.

- - -

REPORT OF THE PRESIDENT OF THE BOARD

President Hales called for nominations for the position of President of the Board of Regents of the University of Wisconsin System.

Regent McNamara nominated Joyce Erdman as a candidate for President of the Board.

Regent Lavine nominated Herbert Grover as President of the Board.

Regent Beckwith nominated Dr. Ben Lawton for President of the Board.

Regent Erdman withdrew her name from consideration.

Regent Majerus moved that the nominations be closed, the motion was properly seconded, and it was voted.

President Hales announced the balloting revealed nine votes for Regent Grover, seven votes for Regent Lawton, and declared Regent Grover President of the Board as of July 1, 1979.

Regent Grover expressed his gratitude to the Board for the confidence placed in him in electing him President of the Board. He also expressed sincere appreciation to Regent Lawton for the magnanimous, statesmanlike gesture he had made in expressing his intention to honor the commitment he had made to support Regent Grover's candidacy. He noted that elections have always been substantially contested and there have been close elections in the past, but he had not found that once the election was over, divisiveness prevailed, and that individual differences became paramount as the Regents dealt with the substantive issues before the Board. He continued that, with the exception of the era of merger,

this institution at no other time has faced more critical decisions as it continues to serve the people of the state of Wisconsin, and that we have the opportunity to make good and wholesome decisions in picking people to fill the top administrative positions now being vacated. He stated that it is no secret that the institution faces other difficult problems a few years ahead, such as, enrollment problems, funding problems, the missions of the campuses, which might well have to be looked at, etc. He said that he hoped that at the end of this next year we can look back upon a most productive year and say in concert that this University continues to maintain the Wisconsin Idea and serve the people of this state with excellence, and equally important, maintain the quality of education that has brought it the national respect it has today.

President Hales called for nominations for the position of Vice President of the Board of Regents of the University of Wisconsin System.

Regent Majerus nominated Regent Fitzgerald for Vice President of the Board, and the nomination was seconded by Regent Gerrard.

Regent Walter nominated Regent Erdman for Vice President of the Board, and the nomination was seconded by Regent DeBardeleben.

Regent DeBardeleben moved that the nominations be closed, the motion was seconded by Regent Walter, and it was voted.

President Hales reported that the ballots revealed nine votes for Regent Erdman, seven votes for Regent Fitzgerald, and declared Regent Erdman Vice President for the term beginning July 1, 1979.

President Hales announced that the floor was now open for nominations for the offices of Secretary and Trust Officer, Assistant Secretary, and Assistant Trust Officer.

Regent Lavine nominated Joseph Holt as Secretary and Trust Officer, Robert Winter as Assistant Secretary, and Charles Stathas as Assistant Trust Officer.

Regent Lavine moved that the nominations be closed and that a unanimous ballot be cast for the election of Joseph Holt as Secretary and Trust Officer, Robert Winter as Assistant Secretary, and Charles Stathas as Assistant Trust Officer, the motion was properly seconded, and it was voted unanimously.

President Hales referred to the report of the Higher Educational Aids Board meeting held on April 27, 1979 (copy on file). There being no comment, the report was ordered placed on file. (EXHIBIT A, attached)

Because of a conflict with the July 13, 1979, meeting of the Higher Educational Aids Board, the following resolution was moved by Regent Beckwith, seconded by Regent DeBardeleben, and voted:

Resolution 1903: That the July 13, 1979, Board meeting begin at 8:00 A.M.

President Hales referred to the report of the Wisconsin Board of Vocational, Technical and Adult Education meeting held on May 22, 1979 (copy on file). There was no discussion, and President Hales ordered the report placed on file. (EXHIBIT B, attached)

Regent Erdman moved adoption of the following resolution, the motion was seconded by Regent Lavine, and it was voted:

Resolution 1904: That the October 5, 1979, Regent meeting be held at UW-Stout, Menomonie, Wisconsin.

Regent Grover moved adoption of the following resolution, the motion was seconded by Regent Lavine, and it was voted:

Resolution 1905:

WHEREAS, Lee Sherman Dreyfus served for more than 11 years as president and chancellor of the University of Wisconsin-Stevens Point, from 1967 through 1978, and

WHEREAS, his skills and knowledge as an administrator and educational leader enabled him to guide the university wisely through the Vietnam military era and the merger creating the University of Wisconsin System, and

WHEREAS, he led the university during a period of growth with enrollments increasing by 50 per cent, and guided the development of an attractive, modern campus incorporating significant environmental features, and

WHEREAS, he encouraged the faculty and students to broaden the university's educational horizons to include a number of international programs while strengthening traditional undergraduate academic offerings and mission-specific graduate specialties, and

WHEREAS, in the tradition of the Wisconsin Idea, he left his position as chancellor to seek successfully the Office of Governor of the State of Wisconsin,

BE IT RESOLVED, that the Regents commend Dr. Dreyfus for his many contributions as chief executive officer of the University of Wisconsin-Stevens Point and confer upon him the status of chancellor emeritus in the University of Wisconsin System.

Regent Gerrard moved adoption of the following resolution, the motion was seconded by Regent Fitzgerald, and it was voted:

Resolution 1906:

WHEREAS, after serving for eight years as president and chancellor at the University of Wisconsin-La Crosse, from 1971 through 1978, Kenneth E. Lindner was granted leave as a faculty member to become Secretary of the Wisconsin Department of Administration, and

WHEREAS, under his leadership the university established a School of Business Administration with a master's degree program, developed physical therapy and cardiac rehabilitation programs, and substantially expanded the health, physical education and recreation programs, and

**WHEREAS, he strengthened community relations and emphasized the importance of the individual student in the university, and stressed quality in the academic offerings of the university, and**

**WHEREAS, he was instrumental in the addition of major fine arts, classroom and physical education facilities to the university, guided the development of a functional and enhancing campus mall, and participated principally in the establishment of a Fish Control Research Laboratory at La Crosse, with which the university is associated, and**

**WHEREAS, his career as an administrator spanned appointments in the central office of the Wisconsin State Universities, the University of Wisconsin System, and following the tradition of university service to the state, as Secretary of the Department of Administration**

**BE IT RESOLVED, that the Board of Regents commend Dr. Lindner for his many services to public higher education in Wisconsin and confer upon him the status of chancellor emeritus in the University of Wisconsin System.**

#### REPORT OF THE PRESIDENT OF THE SYSTEM

Regent Lavine moved adoption of the following resolution, the motion was seconded by Regent Fitzgerald, and it was voted:

Resolution 1907: That the Report of Non-Personnel Actions by Administrative Officers to the Board of Regents and Informational Items Reported for the Regent Record be received for the record; and that actions included in the report be approved, ratified, and confirmed. (EXHIBIT C, attached)

President Young recognized Tim Fleming, President, United Council of Student Governments. Mr. Fleming congratulated the new President and Vice President of the Board and extended best wishes on behalf of the students to President Hales and Vice President Lavine. Mr. Fleming introduced Ms. Kim Kackelmyer, Legislative Affairs Director, a recent graduate from the Madison Campus, and Mark Gottstein, Administrative Director, an economics graduate from the Madison Campus.

President Young referred to the various amendments to the budget, noting that the only significant amendment was the \$28 million authorization for construction of the Veterinary Medicine School and a reduction of \$8 million from the building program authorization. He noted that among the many amendments considered there was one cutting by 5% across the board the money available for nonresident graduate tuition remissions offered by Senator Offner. He noted that it failed and it would have hurt very much our program of bringing minority students and others into the University. A second amendment offered by Senator Offner would have raised resident graduate fees from about 21% to 25% of costs in 1981-82, which would have raised their fees from \$150 to \$200, in addition to

the expected raise of \$150 to \$200 that will come about because of inflation. He stated that our doctoral cluster fees are the second highest in the Big Ten, and very high nationally compared to other public universities. The University cluster fees would have been significantly higher than in other comparable mid-western universities. He said the amendment failed but he feared that it will be instituted again, quite possibly in the Assembly. He said that he considered this to be a very unwise thing, because it will raise costs and therefore have impact upon enrollment, which again will raise the cost to other students. He said he felt this is the wrong time to do this, and there is a very fundamental philosophical difference between Senator Offner and some of the System administration. He said he believes that Senator Offner feels that education, particularly graduate education, is a personal matter and that if people get certain benefits, they should pay for them. President Young said that he felt that these graduate students are making large contributions to the state of Wisconsin and general society, and we should encourage such people, rather than discourage them. With respect to the cut of \$8 million from the building program approved by the Building Commission, President Young noted that some people got the implication from the discussion that the Building Commission had not looked at our budget very seriously. He noted that they had taken away more than half of what we had proposed, and this is a serious cut which we are working to get restored. He said it was not specific --just \$8 million cut from somewhere--and he felt it would be unwise and the Building Commission will have much to say about that. He said that he felt that to tie the cuts to enrollment decreases is improper and unwise.

President Young noted that a number of people, including Regent Thompson and himself, were invited to be an advisory group under the leadership of Mr. Lindner, of the Department of Administration. He reported that Mr. Lindner opened the discussion by stating that he hoped this would lead to the Department of Education and to the Secretary of Education's cabinet, with the implication that the group would furnish advice on policy. He said that he took the rather blunt position that the policies under which he operated are made by the Board of Regents and that he could not participate in a policy-making group that would make policies that would bear on what the Regents should do. He said he felt this is a fairly serious matter and will have to be faced sometime as to how or what happens. He said his own view is that we do not need a Secretary of Education to tell the Regents what to do. He noted that the Governor has input to the Regents in his appointments, and the Regents have demonstrated over 125 years their capabilities.

Regent Erdman noted that the Assembly still has to consider the budget, and the Assembly and Senate will then have to get together and pass a budget for the Governor's consideration, and in that light stated that she felt it is incumbent upon this Board to make known to the Legislature and the Governor how we feel about these prospective budget cuts.

Regent Erdman moved adoption of the following resolution, and the motion was seconded by Regent Walter:

BE IT RESOLVED, That the Board of Regents urges the Legislature and the Governor to adhere to the original recommendation of the Board regarding the new School of Veterinary Medicine, namely, that funding for this new school must be in addition to the current budgetary needs of the University of Wisconsin System.

FURTHER, The Board points out that cutting the System budget by over \$40 million while adding \$28 million for the veterinary school is hardly following our established educational priorities.

The Board especially recommends that the Legislature restore the \$1.2 million for the basic skills development and the \$545,000 for minority and disadvantaged programs.

Regent Lavine stated that he agreed with parts of the resolution but was not really sure that it is wise. He noted that the budget is a complex document, and, if we start making resolutions about the budget, we ought to have System Administration look at them, as System Administration has to deal with all the nuances downtown, and he did not know the impact of pointing out various things that were listed in the University budget priorities. He said he was concerned that the resolution would be misleading or misread, and he did not want anyone to have an excuse to do more damage than seems to have been done already. Regent DeBardeleben stated that similar resolutions had been approved in the past by the Board of Regents expressing its distress over actions such as those that have recently been taken, and he felt the resolution is entirely appropriate but that there is merit in suggesting that System Administration take a look at it and make suggestions that they may wish to make by way of revision and bring it back for consideration later in the meeting. With the consent of the maker of the motion and of the second the proposed resolution was withdrawn, with the understanding that the matter would be considered later in the meeting.

With respect to the position taken by President Young on the Educational Board meeting report, Regent Majerus suggested that the Board go on record supporting the President's position, and communicating to the Governor that we expect to retain the authority that we have and the jurisdiction that we have, and we support the position that President Young had taken at the meeting. President Young requested that the matter be deferred until we see how things develop. He said he appreciated the support given him, but, if we need some help, he will ask for a resolution. Regent Thompson stated that she felt it would be inappropriate to put another level of bureaucracy between one constitutional officer and another and felt that the direction and communication should be direct. She said that she supported President Young's position and he had reported it correctly. She said that the other agency heads were saying about the same thing as President Young had said and that Secretary Lindner knows our feelings, and she was sure that he had shared those feelings with the Governor. She agreed that no action at this time would be more positive than getting into the issue with a resolution.

#### REPORT OF THE EDUCATION COMMITTEE

The report of the Education Committee was presented by Regent Lawton.

Regent Lawton stated that the annual report to the Regents on changes in academic program designations and related academic approval actions was received by the Committee and placed on file.

Regent Lawton reported that Professor William Lenehan, UW-Madison, the Chairman of the Basic Skills Task Force, presented their report and stressed that the recommendations of the Task Force can be implemented only by the faculties of the individual institutions. Professor Lenehan stated that the Task Force had found no evidence that pre-college institutions had abandoned basic skills teaching and that the Universities and Centers should work more closely with K-12 institutions to make clear the colleges' skills expectations and to serve in various roles to help teachers and students achieve those goals.

The Task Force recommends placement testing to identify each student's needs and the provision of advisement and instruction to meet those needs. The college skills expectations consist of full proficiency in the verbal, mathematical, and investigative skills, a proficiency that can only be assured, Professor

Lenehan stated, by an entire university faculty's commitment. The Task Force has defined the basic skills as being verbal (reading, writing, speaking, and listening), mathematical and investigative (the ability to collect information efficiently, analyze the relationships among the parts, and synthesize ideas into new patterns). Professor Lenehan stressed the critical problem of accomplishing the basic skills proficiency objective without at the same time detracting from other university activities and, in effect, diluting the quality of the degree.

Recommendations for future consideration by the Board are:

1. That the Board of Regents reaffirm its commitment to access to higher education for all students who can benefit from such opportunity.
2. That the Board of Regents commit the System to offering the compensatory instruction necessary for retaining educationally disadvantaged students and seek funds to maintain these compensatory programs at the necessary levels.
3. That the Board of Regents and the UW System Administration facilitate the growth of a regional testing system to identify the instructional needs of incoming students.
4. That a staff person accountable to the Vice President for Academic Affairs be employed to serve as System liaison on basic skills development and to encourage commitment toward the ideal of basic skills proficiency among the faculty.

Regent Lawton reported that Committee members in their questions and comments indicated support for the report's recommendations and agreed that implementation of the recommendations must rest with the faculties of the institutions. There was some discussion as to whether this report should be pushed more rapidly--whether it was pertinent to the budgetary deliberations--but it was agreed that the faculty would have to have a shot at this. He said Vice President Smith noted that the Task Force report will now be reviewed in System Administration and will then be conveyed to the separate institutions for faculty review and comment. After the completion of the review process the recommendations, as affirmed or altered, will be returned to the Board for further hearing and discussion.

There was also brief discussion of the need to keep the System budget request for basic skills programming appropriately before state government.

Regent Lawton reported that Professor W. Lee Hansen, UW-Madison, spoke in opposition to the report. He stated that Professor Hansen raised questions dealing with the long- and short-range costs of implementation, the diversion of faculty from other tasks in order to teach basic skills, and whether there are not other ways to ensure that entering freshmen possess the necessary basic skills. He recommended that admissions standards be changed to require greater competence in basic skills and that existing remedial programs, by 1984, should be offered only in summers and on a non-credit basis. Committee members asked about societal implications of excluding intelligent students who lack specific skill competencies, and Chancellor Fort (UW-Center System) raised additional questions challenging some of the assertions made by Professor Hansen.

Regent Lawton stated that Professor Anatole Beck, UW-Madison, said that if entering students have not received the education they should have, the faculty is ready and able to teach them, which was encouraging because of the nagging suspicion that maybe the faculty does not support this. He said he was not

suggesting that other programs should be cut in order to provide the remedial instruction, but, speaking for the faculty he represents, he said they are ready and willing to take on the job.

Regent Beckwith noted that he had been unable to participate in the discussion on the previous day, but that he was troubled by several aspects of the report and hoped that further consideration would be given to his concerns by System Administration and the faculty. He said that his main concern is the lack of emphasis on any feedback. He noted that we are having an increasing problem with the basic skills, especially in the System, and if that problem is becoming worse, the institutions from which those freshmen come should be made aware of that, and more important, citizens that support those institutions should be made aware of it. He emphasized that he will not support any program that would sacrifice a current generation of students who have not been properly educated in the elementary and secondary schools and therefore are lacking in basic skills through no fault of their own. He said he did not feel that we want to be in the basic skills education business in the long run, and that is a job we would like to work our way out of. He said he previously observed, when we went through the basic skills recommended budget, that there are certain institutions in the System that have no requirements for a high school math course; so there are students who graduate from high school without ever having taken high school math and come to the University, and we are surprised that they do not have basic skills. He said he was not going to say we should turn them away now, but we ought to signal that as of some day in the future, 1983-85, we will no longer accept students who have not taken high school math. We should have some method of informing the high schools that repeatedly their students do not meet the quality of other students coming from other institutions in the state. He continued that there should be some admission requirements, recognizing that he did not know how much we can rely on testing, but at least there ought to be some course requirements. He said that the quality of a university system isn't only its faculty or its buildings, it is its student population as well, as the pace of learning and the interchange between students are affected by the quality of the student population, and we should do what we can in the University System to upgrade the quality of the incoming freshmen.

Regent Lavine urged that the Regents review the material made available on the previous day and postpone discussion until the faculty has had an opportunity for their extensive review.

Professor William Lenehan stated that the Committee devoted a great deal of attention in the report to the common interest of the University and the K-12 system in the basic skills problem. He said it is our position that the Task Force has worked long and hard to cooperate with the K-12 system. He said it is the perception of the committee that the basic skills needs should occupy an important and essential place in college education.

Regent McNamara stated that without question this is one of the most important reports submitted to the Regents in a long time. He continued that he felt that getting into detailed discussion of the report at this time is premature because what the Education Committee did yesterday was to accept the report for onward transmission to the various campuses, and he would therefore suggest that we withhold our discussion until the report has received the appropriate attention from the faculty and other interested bodies on the various campuses.

Regent Erdman commended Professor Lenehan and the Task Force for its conciseness, for the hard recommendations offered for dealing with the details, with working with the K-12 parts of our state, and approaching this as a whole and putting responsibility on the University of Wisconsin System. She said she

was concerned that only one or two sentences deal with the education of our teachers. She said she felt that the schools of education, of which the University of Wisconsin is the primary giver, have a strong responsibility in this area, and that if our schools of education put emphasis on subject matter, upon the basic skills, upon learning to read well and comprehensibly, to write grammatically and well, and learn to add and subtract, the result will be students who will have the proper qualifications to enter the University without lowering any of our standards.

Regent DeBardeleben strongly supported Regent McNamara's remarks relative to waiting until the report has been considered by the faculties of the various campuses. He noted that we heard some very strong and effective people yesterday stressing various viewpoints, and many of the members of the Board have instant opinions on this matter, which is a very difficult and complicated subject. He said he felt we have to guard against getting locked in on a position when we have not had the benefit of all the input that we as Regents should have.

With respect to Regent Erdman's question, Professor Lenehan noted that the matter had been addressed in recommendation 4. of section V of the Task Force report. He stated that the Task Force was aware of the activities in the basic schools of education in the University System and was working with them. He stated that a report from teachers of English indicated that we can do anything we want to with English teachers our schools of education are producing, but 90% of teachers are now in place for the next twenty years, and this is why the report stressed that we will work with the schools of education and stress programs like the Wisconsin Writing Projects--projects that are in place--and help to improve them to help students. He said it was felt that this was an important direction to go, perhaps even more important than major changes in requirements in the School of Education. He noted that it was only three or four years ago that the Department of Public Instruction got through a requirement that a certifiable secondary school teacher had to have a composition course for the teaching of English.

Regent Beckwith stated that he had read the report but could not participate in the discussion yesterday, which he understood was lengthy and very helpful. He stated that when this book goes out to the faculty and is then massaged by the Administration, it is going to come back as a big bulk and nobody is going to get a chance to rewrite the book at that time, as it will be either a yea or nay vote. He said he assumed that when we get something like this for informational purposes, it is entirely appropriate at least to ventilate our views so that they will be considered if they have any merit, or rejected if they are wholly without merit, by those who give them some consideration.

Regent Grover stated that he found the report stimulating. He said he felt we are dealing in very good faith with a critical problem facing elementary and secondary educational institutions and its impact upon this institution. He said he was frustrated in the terms of the job we are doing in elementary and secondary education--more and more of our time is being taken up by applicational, recreational, and every other kind of educational function, and we are not really addressing critically the problems that need to be spoken to as we prepare young people for college entrance. He stated that statistics indicate that students graduating from high schools that are enrolling in schools of education continually demonstrate low standardized achievement test scores. He said we need to upgrade entrance requirements and ultimately certification of teachers so that we can improve the quality of the kind of professional that ultimately matriculates. He agreed that district and local autonomy leads to variations in the requirements for the teaching of basic skills, but one of the things that bothers him is the granting of credit for remedial basic course work. He said that causes him concern about the diluting

of the standards of the University, but, on the other hand, he did not know how we are ever going to forcefully adjust locally in the districts the need to address their educational futures in a more serious fashion. He agreed that the matter should go to the faculty, but he would also like to hear people like the Wisconsin Education Association and the teachers' organizations, as they have some very interesting views as to why they are frustrated with the job we are doing. He said he felt that the gap between the two systems could be bridged, and the fact that we are addressing the problem is the first step toward ultimate resolution.

Regent Thompson noted that fifty years ago only 12% of the population graduated from high school, whereas today less than a million adults 25 years of age do not possess a high school diploma. She noted that at the present time approximately 75% to 85% of our people do graduate from high school. She said that many of them are not university material, and if they elect to enter an institution of higher learning and the governing body agrees to take these students, the universities have an obligation to work with them in the skills that they do not possess. She also noted that not all of the students who come to the University System are Wisconsin high school graduates. She also observed that there are incoming freshmen who have been out of school for some time but can go to the University only after they have earned enough money to pay the high tuition that is expected of them. She said they certainly deserve an opportunity to brush up on the necessary skills. She noted that local control of elementary and secondary education has been high on the agenda of the people of this state. She said we are now in the throes of discussing drawing away from the notion of a lifetime license to teach and are now thinking of a five-year renewal of teaching licenses. One of the things that would go with that five-year renewal would be an assurance that they would do some in-service work--continuous study while the teacher is in the school district working with boys and girls. She said she would be happy to coordinate some of the information sought with some of the people mentioned by Regent Grover, such as, the WEA and others who might want to volunteer, and that the BPI would be willing to prepare a document to supplement the document before us.

Regent Lawton reported that the Committee next considered an amendment to the faculty personnel policies and procedures--UW-Milwaukee dealing with the method for calculating prior probationary services in the case of academic staff appointments which are converted to faculty appointments.

Regent Lawton moved adoption of the following resolution, and the motion was seconded by Regent Lavine:

That, upon recommendation of the President of the UW System and the UW-Milwaukee Chancellor and Faculty Senate, the following amendment to the specified sections of the UW-Milwaukee faculty personnel policies and procedures as required under UWS 2.02 be approved:

Chapter 5.13 (4) Insert the following as a new 5.13(4).

Previous full time teaching service as a member of the academic staff at this University is included in calculating a person's probationary service as a faculty member. The maximum of seven (7) years probationary service will apply, except in cases when the person receives a terminal degree during this period. In such a case the total probationary service at this University shall not exceed ten (10) years.

(Continued)

In the case of less than full time appointments, the provisions of 5.13(1) apply. Prior probationary service must be established in writing at the time a faculty appointment is offered.

Renumber the present 5.13 (4) as 5.13 (5).

Regent DeBardleben inquired of Chancellor Baum, UW-Milwaukee, if the action of the faculty senate on this change was unanimous. Chancellor Baum responded that he did not recall but did not believe there was any significant objection. Regent DeBardleben inquired if the matter became the kind of issue that the one at Superior did some months ago when they extended the probationary period, and Chancellor Baum responded in the negative. He pointed out that this deals with a very small number of individuals who are on the teaching academic staff and may have a different spectrum of job performing requirements. Regent DeBardleben inquired why it increased from seven years to ten years without any apparent relationship between the amount of time after seven years that elapsed before the terminal degree was granted. Professor Leon Schur, UW-Milwaukee, responded that the principal alternatives considered were too arbitrary to enforce the seven-year rule for the teaching academic staff of the faculty. He said the majority of the faculty members felt that with an intervening Ph.D. there was enough objective evidence of a change in job objectives; for example, there might be someone with a Master's degree in English teaching basic English who decides that he or she has a change in job objectives, gets a Ph.D., and wants to transfer to faculty status. He said there was no sentiment for giving fourteen-year probationary periods--this would be too many. Regent DeBardleben noted that ten years would be in much the same category, and moved that the item be deferred until the next meeting of the Education Committee; the motion was seconded by Regent Lavine, and it was voted.

Regent Lawton reported that in the Committee meeting the previous day Dr. Marian Swoboda, Assistant to the President for Affirmative Action for Women, made brief comments about the report, "Profile of Enrollments by Instructional Program Areas", (copy on file with papers of this meeting). Some of the highlights were:

1. In 1977-78 women represented 46.7% of the System juniors and seniors, 47.2% of the Master's students, 28.7% of the Ph.D. students, and 30.2% of the medicine and law students. These were substantial increases over 1973-74.
2. 58.4% of women who have declared a major are concentrated in five program areas: education, health, public affairs and services, fine and applied arts, and home economics.
3. The highest concentration of women is in home economics and the lowest is in engineering.
4. Enrollment by women in business and management, agriculture and natural resources, biological sciences and engineering is increasing significantly.

Dr. Swoboda stated that the educational system is in a unique position to dispel the myths that tend to perpetuate cultural stereotypes that function to direct and control the entrance of women into limited fields of study. She concluded that continued affirmative action is needed to encourage the entry of women into all areas of study.

Regent Thompson asked about the effects of public school career education efforts on enrollment patterns of women in higher education and was told that career education doubtless contributes to the increased awareness on the part of women of additional educational and occupational opportunities. Regent Lavine suggested that the report could be strengthened by including additional information as to ways to enhance wider course selection by women in the future.

The report provides a current assessment of an area where universities can be helpful in working toward providing equal educational opportunities and eventual equal employment opportunities for women.

Regent Walter inquired if there is any feedback after graduation relative to the women majoring in foreign languages. Dr. Swoboda responded that statistics show that job opportunities in those fields have dropped, particularly with a Ph.D., and some transfer into other areas and retrain, particularly those with Master's and B.S. degrees.

Regent Lawton reported that Senior Vice President Smith made the following reports in the Committee meeting on the previous day:

1. Broadcasting Activities in the UW System

Dr. Smith reported that System Administration will explore the issue of the need for, or the advisability of, a UW System addendum to the Federal Communications Commission rules with System broadcast facilities staff and report back to the Education Committee later this year. Two facets of the issue will be discussed with station managers and institutional staff: (a) broadcast of network or commercial station programs when origination of such programs is outside the UW System; (b) broadcast of programs originating within or by individual UW System stations.

Vice President Smith noted that information regarding legal requirements pertaining to political broadcasting is made available on a current basis to UW System broadcast directors and station managers. The FCC regulations appear to be reasonable and workable with respect to broadcasts of a political or other controversial nature. However, since the issue of policy specificity regarding fairness and balance has been raised, the staff will offer recommendations on an appropriate response to the question.

2. UW System Role in Public Radio Broadcasting

Responding to an invitation from the Educational Communications Board, the UW System will cooperate with the ECB in a study "to ascertain if Wisconsin is maximizing the use of its existing public radio facilities". The ECB is looking for (a) a clear, authoritative statement regarding the UW System's role in public radio broadcasting vis-a-vis the ECB; and (b) a clearer definition of the purpose and role of the campus radio stations.

3. Academic Program Adjustment

Vice President Smith cited as an illustration of the ongoing process of institutional program adjustments the announcement of the phaseout of several programs at UW-Superior, including:

Ed.S. - Mathematics and Science  
 MST's (Master of Science in Teaching) in Biology, Business, English,  
 History, Mathematics, Music, and Physics  
 BA/BS - French

4. Michigan-Wisconsin Compact

The Michigan-Wisconsin Compact which affects the UW Center-Marquette Co. and Michigan two-year colleges at Bay de Noc and Gogebic has been approved by both states and the Higher Educational Aids Board for another two-year period. Under terms of this arrangement, students from either state can enroll at a college in the other state without paying out-of-state tuition.

Regent Lawton stated that the Committee received the Report of Faculty Promotions, Tenure Designations, and Other Changes of Status - 1979-80 Budget (copy on file with the papers of the meeting).

Regent Lawton reported that there was brief discussion of the effect of high-tenure density on the ability to prudently continue to advance additional faculty to tenure status, and that Dr. Smith, in observing that the overall number of tenure awards has declined from the previous year, noted that universities, nationally, face the serious question of whether, in the 80's, they can bring in and retain a sufficient proportion of outstanding scholars to provide a basis at the end of the 80's for continued academic excellence. Dr. Smith stated that the prospect is one of eroding the vitality of American intellectual resources because of a ten-year dip in enrollments and that the issue would be addressed in a report to state government in November, to be preceded by discussion with the Board.

Regent Lawton moved adoption of the following resolution, the motion was seconded by Regent DeBardeleben, and it was voted:

Resolution 1908: That, for their many years of dedicated service to the cause of quality higher education in the state of Wisconsin, the Board of Regents expresses its deepest gratitude and extends its best wishes for their many productive years ahead to the members of the faculty and staff who have have been granted emeritus status by the President and the Chancellors.

It was agreed that the President of the Regents, on behalf of the Board, would transmit the above resolution to each person appointed this year to emeritus status.

REPORT OF THE BUSINESS AND FINANCE COMMITTEE

The report of the Business and Finance Committee was presented by Regent Grover.

Regent Grover noted that the procedures for establishing unclassified staff compensation for 1979-80 are required to implement a provision that came

into the statute books in the merger implementation bill. The procedures outlined in the next resolution are consistent with those used every alternating year since that time, although they are slightly different from the procedures of two years ago. This is because of the different nature of the Regents' proposal this year, which does not contain a definitive percentage increase rate. Therefore, a point system for merit determination, as reflected in the resolution, will be used as the basis for allocating funds provided for unclassified staff salary adjustments upon passage of the 1979-81 state budget bill. In order for salary adjustments to become effective on July 1, merit evaluations of continuing unclassified staff must be completed prior to that date.

Regent Grover moved adoption of Resolution 1909 relating to procedures for establishing unclassified staff compensation, 1979-80, attached as EXHIBIT D, the motion was seconded by Regent Beckwith, and it was voted.

Regent Grover moved adoption of the following resolution, and the motion was seconded by Regent Walter:

**Resolution 1910:** That, upon recommendation of the President of the System, the gifts, grants and contracts presented at this meeting (copy filed with the papers of this meeting) be accepted, approved, ratified and confirmed; and that, where signature authority has not been previously delegated, appropriate officers be authorized to sign agreements.

Regent DeBardleben noted that the total for 1978-79, even in the inflated dollars with which we are dealing, is very little above 1977-78, and in terms of real dollars it would be substantially less. He said that he was concerned about this relatively worsening performance and requested that a report be made available relative to the matter at a future meeting.

The question was put on Resolution 1910, and it was voted.

Regent Grover reported that the late Edna Louise Lake bequeathed \$30,000 as a grant-in-aid fund for Geology students in memory of her late husband, Mack C. Lake.

Regent Grover moved adoption of the following resolution, the motion was seconded by Regent Walter, and it was voted:

**Resolution 1911:** That the bequest of the late Edna Louise Lake, Walnut Creek, California, to the University of Wisconsin be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the Last Will and Testament of Edna Louise Lake, Deceased; and that the Secretary or Assistant Secretary be authorized to sign a receipt on behalf of the Board of Regents of the University of Wisconsin System for this bequest, and to do all things necessary to effect the transfer of this bequest to the University of Wisconsin-Madison.

Regent Grover reported that the late Edna M. Leykauf bequeathed \$2,000 to the UW-Madison McArdle Institute for Cancer Research.

Regent Grover moved adoption of the following resolution, the motion was seconded by Regent Beckwith, and it was voted:

Resolution 1912: That the bequest of the late Edna M. Leykauf, Prairie du Sac, Wisconsin, to the University of Wisconsin be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the Last Will and Testament of Edna M. Leykauf, Deceased; and that the Secretary or Assistant Secretary be authorized to sign a receipt on behalf of the Board of Regents of the University of Wisconsin System for this bequest, and to do all things necessary to effect the transfer of this bequest to the University of Wisconsin-Madison.

Regent Grover stated that the increased board rates at UW-Eau Claire and River Falls were necessitated by cancellation of the existing contract on which the rates authorized in May were based. The increase at UW-La Crosse is due to the fact that the escalation permitted under the initial contract was not covered in the rate suggested and it is necessary to recover the \$10.

Regent Grover moved adoption of the following resolution, the motion was seconded by Regent Beckwith, and it was voted:

Resolution 1913:

Upon recommendation of the respective Chancellors and the President of the System, the board rate for the University of Wisconsin-Eau Claire be changed from \$650 to \$670; the board rates at the University of Wisconsin-River Falls be changed from \$798 to \$830 for the nineteen meal plan and \$771 to \$797 for the fourteen meal plan; the board rates at the University of Wisconsin-LaCrosse be changed from \$670 to \$680 for the nineteen meal plan, \$608.50 to \$620 for the fourteen meal plan and \$580.50 to \$590 for the ten meal plan for the 1979-80 academic year.

Regent Grover reported that the proposed rate of distribution of the income earned on the principal of the Consolidated University Trust Funds is 9.5¢ per share compared to last year's rate of 7.7¢ per share.

Regent Grover moved adoption of the following resolution, the motion was seconded by Regent Lavine, and it was voted:

Resolution 1914: That the income earned in 1978-79 on the principal of the Consolidated University Trust Funds be distributed at the rate of 9.5¢ per current share, and that any income in excess of the amount distributed be added to the Suspense Account for Equalization of Income.

## REPORT OF THE PHYSICAL PLANNING AND DEVELOPMENT COMMITTEE

The report of the Physical Planning and Development Committee was presented by Regent Barkla.

Vice President Lavine assumed the Chair.

Regent Barkla reported that we have received two appraisals, one for \$31,000 and another for \$30,000 on the 0.1 acre parcel of land at UW-La Crosse, which is within the approved campus boundaries and which was identified for acquisition.

Regent Barkla moved adoption of the following resolution, the motion was seconded by Regent Fitzgerald, and it was voted:

**Resolution 1915:** That, upon the recommendation of the UW-La Crosse Acting Chancellor and the President of the University of Wisconsin System, authorization be granted to purchase the following parcel of land at the optioned price, from Advance Land Acquisition Funds - GPR:

632 North 17th Street (0.11 acre), also described as the north 46.5 feet of Lot 1, Jung's Subdivision of Lots 1 through 5, of Boyd's Subdivision of Block 8, Ustick's Addition to the City of La Crosse, \$30,000

Regent Barkla noted that the lease for the property on State Street used for Center System administrative offices has an increase of 92¢ per square foot reflecting the consumer price index increase since the last lease was negotiated in May of 1976. The second lease provides office space for Center System staff that cannot be accommodated at the State Street location and includes an increase of 25¢ per square foot over the rate established in 1977.

Regent Barkla moved adoption of the following resolution, the motion was seconded by Regent Fox, and it was voted:

**Resolution 1916:** That, upon the recommendation of the UW Center System Chancellor and the President of the University of Wisconsin System, authorization be granted to lease the following property:

- (1) Approximately 8,100 square feet of space located at 602 State Street, Madison, Wisconsin for the period July 1, 1979 through June 30, 1981

Allen and O'Hara, Inc., Lessor  
P. O. Box AMF-30189  
Memphis, Tennessee 38130

Annual lease cost is \$52,000 (\$6.42 per square foot)

- (2) 1,765 square feet of space located at 905 University Avenue, Madison, Wisconsin for the period July 1, 1979 through June 30, 1980, with two successive six-month renewal options

The University of Wisconsin Foundation, Lessor  
702 Langdon Street  
Madison, Wisconsin 53706

Annual lease cost is \$10,590 (\$6.00 per square foot)

Regent Barkla stated that the next request is to secure authorization to renew the lease of the UW-Eau Claire Park School to the Eau Claire Joint School District #5. The lease was first entered into in December 1972 at an annual sum of \$22,500, with the UW-Eau Claire providing heat and utilities. The annual rate was increased to \$29,000 under the same conditions in February 1976. The current request is for an additional three-year period commencing with 1979-80 at an annual rate of \$69,500 for the first year, \$72,000 for the second, and \$74,700 for the third year to cover services, heat, and utilities, and depreciation. She reported that there was one dissenting vote in the Committee.

Regent Barkla moved adoption of the following resolution, and the motion was seconded by Regent Fox:

**Resolution 1917:** That, upon the recommendation of the UW-Eau Claire Chancellor and the President of the University of Wisconsin System, authority be granted to any System Vice President to sign an agreement with Eau Claire Joint School District No. 5 providing for the joint utilization of the UW-Eau Claire Park School Building for educational purposes for a three-year period commencing with the 1979-80 academic year. The school district shall pay \$69,500 (1979-80), \$72,000 (1980-81) and \$74,700 (1981-82) for services, heat and utilities and depreciation.

Regent Fox stated that he voted against the resolution on the previous day because he felt he did not have sufficient background to vote knowledgeably. Regent Barkla noted that the UW-River Falls Campus School is being phased out, and they had rather extensive negotiations with the school district to try to arrive at some arrangement like the one proposed here and were not able to do so. She said that this arrangement is very beneficial to the school districts and to the University and that she felt it ought to be approved.

The question was put on Resolution 1917, and it was voted.

Regent Barkla stated that the next resolution requests Board approval for the appropriate Board officers and System officials to submit an application for funding the possible purchase and renovation of the Bay Apartments owned by the Inland Steel Development Company. The Bay Apartments, which are adjacent to the academic core of the UW-Green Bay Campus, were originally constructed by the Carley group and subsequently were purchased by the Inland Steel Development Company. Inland Steel is currently very anxious to divest itself of its ownership of these apartments and is assisting the University in its effort to obtain federal funds for the purchase. She said the primary reason given by the UW-Green Bay administration for justifying the purchase of the unit is a very strong feeling that University-operated units are preferred by students and their parents; therefore this would improve the total enrollment picture for UW-Green Bay.

Regent Barkla moved adoption of the following resolution, and the motion was seconded by Regent Fox:

**Resolution 1918:** That, upon the recommendation of the UW-Green Bay Chancellor and the President of the University of Wisconsin System, authorization be granted to System Administration staff to pursue action which may lead to acquisition of the Bay Apartments, adjacent to the UW-Green Bay campus, including negotiation of a purchase price with the owner, and to the President or Vice President and Secretary or Assistant Secretary of the Board to sign the necessary application to the U.S. Department of Housing and Urban Development for a low-cost interest loan. The decision to accept the loan, acquire the property, and to accomplish required renovation of the Bay Apartments would be subject to further Regent approval and would require demonstration of the fiscal feasibility of such acquisition.

President Hales resumed the Chair.

Regent Barkla said that she was concerned, as she had been over the years, with the University's getting into the housing business when the original campus plan, as she understood it, was to have no housing, the same as at the University of Wisconsin-Parkside. She said the reason that she voted for the resolution was to give the University an opportunity to file the application with HUD. She said her other concern was that if Inland Steel decides to do something else with the property, we ought to be aware of that as it is situated next to the campus and is now being run as privately-owned housing. Regent DeBardeleben stated that he did not recall that the original concept of the UWGB was not to have any housing and requested that Chancellor Weidner outline the history of trying to get housing at the UW-Green Bay. Chancellor Weidner stated that the administration has been planning for housing on the campus ever since he was appointed Chancellor in October 1966. He said that the Board of Regents at that time approved plans that assumed that up to 60% of the students would be housed on campus, with one-half of the funding to be provided by the private sector and the remaining half by the public sector. He said the program was turned down by the Coordinating Committee for Higher Education for the 1971-73 biennium, and by the next time the matter was considered there was a housing crisis on a series of campuses and action was postponed. Regent DeBardeleben inquired as to the comparison of what this will provide in terms of need in relation to the last proposal that came before the Board. Chancellor Weidner stated that this is an entirely different proposal. The last proposal included authorization for private funding to the extent of two-thirds of the cost of two hundred beds. The present proposal is for approximately five hundred existing beds, which the campus could use. He said he was satisfied that the cost to the students would be comparable to those at other campuses. He said that Inland Steel is anxious to sell because they have no management expertise in this area and therefore they would like to get rid of the apartments. He said at the present time there are approximately 380 to 400 students in the apartments, with the remainder rented to non-students. In response to Regent Beckwith's inquiry why it would be more beneficial and better received by the students if owned by the University than if owned privately, Chancellor Weidner responded that at present we have no control over the counselling or safety of the students, and yet any time anything happens the University is held accountable, by the press, television, parents and students, and that is a very awkward situation. He said he felt that the campus would have far more students if the University owned the housing. He said UWGB is always listed as a non-dormitory campus in every official publication and has been told repeatedly by high school superintendents that this turns students away and they do not inquire further.

Regent Lavine stated that we not have enough housing on any campus in the System with perhaps one exception, but fortunately times are changing and student housing is becoming more important, and that not to explore the matter would be a mistake.

The question was put on Resolution 1918, and it was voted.

Regent Barkla moved adoption of the following resolution, the motion was seconded by Regent Fitzgerald, and it was voted:

Resolution 1919: That, upon the recommendation of the UW-Madison and UW-River Falls Chancellors and the President of the University of Wisconsin System, authority be granted to plan, bid and construct the following minor projects, at the cost and from the funding source indicated:

UW-Madison

Memorial Union Boat Deck Repair Project, \$30,800 Union Operating Budget - Non-GPR

N & R Hospital (1954 East Washington Avenue) Remodeling Project, \$85,000, University Hospitals Funds - Non-GPR

UW-River Falls

Coal Conveyor System Replacement Project, \$30,000 Building Trust Funds - GPR

Regent Barkla reported that the Committee reviewed the UW System Land Holding Report, and received the annual report on leased space.

Regent Barkla explained that the next resolution relates to the purchase of 0.12 acre parcel of land for the development of physical education teaching stations at the UW-La Crosse. Appraisals have been received for \$41,200 and \$39,400, and an option has been secured for \$40,000. She stated that the land adjacent to the UW-Madison Marshfield Experimental Farm provides additional land needed to do research related to pond irrigation and the potential for soybean and sunflower production in central Wisconsin. The land was sold to the present owners over one year ago for development use other than agricultural with the understanding that up to eighty acres would be made available to the University at their purchase price plus interest carrying charges. Two appraisals were obtained, one for \$39,000 based on agricultural use only, and the other for \$75,000 based on development use, such as industrial. She reported that the present owners also obtained two appraisals, one for \$75,000 and the second for \$60,000.

Regent Barkla moved adoption of the following resolution, and the motion was seconded by Regent Fox:

**Resolution 1920:** That, upon the recommendation of the UW-La Crosse Acting Chancellor and the UW-Madison Chancellor and the President of the University of Wisconsin System, authorization be granted to purchase the following parcels of land, at the optioned prices and from the funding sources indicated:

UW-La Crosse

614 North 17th Street (0.12 acre), also described as Lot 8, Boyd's Subdivision of Block 8, Ustick's Addition to the City of La Crosse, \$40,000 - Land Acquisition Funds - GPR

UW-Madison

Sixty acres NW 1/4 SE 1/4 south half NE 1/4 SW 1/4 Section 15, T 25 N R3E Wood County, Township of Marshfield, \$63,800 - Farm Receipts - Non-GPR

Professor J. Duain Moore, Director, Experimental Stations, explained that the existing station is on the edge of the City of Marshfield, immediately to the west of the location of a development area that the City of Marshfield has to sell land to people for industrial purposes. He explained that the station itself includes both land that we own, and about seventy-eight acres of land that we have on a long-term lease from Wood County at no cost to us other than paying school taxes. He said we have been trying since back in the 1960s to acquire additional land, and we should prefer land adjacent to the station for obvious reasons. He said the parcel under consideration is part of 272 acres sold by the County to the present owners, with the understanding that the University would be given an opportunity to buy up to eighty acres of the land immediately adjacent to the Experiment Station, with the understanding that we would pay the price that they paid plus interest. He said they would be delighted if we do not buy because they would like to sell it otherwise for a higher price.

The question was put on Resolution 1920, and it was voted.

Regent Barkla moved adoption of the following resolution, the motion was seconded by Regent Fox, and it was voted:

**Resolution 1921:** That, upon the recommendation of the UW-Green Bay, La Crosse, Madison and Whitewater Chancellors and the President of the University of Wisconsin System, authority be granted to plan, bid and construct the following minor projects, at the cost and from the funding sources indicated:

UW-Green Bay

Utility Tunnel Flood Prevention Project, \$57,000, State Building Trust Funds, GPR

UW-La Crosse

Mitchell Hall Insulation Improvements Project, \$28,600, State Building Trust Funds - GPR

(Continued)

UW-Madison

Charter Street Coal Bunker and Hopper Repairs Project,  
\$50,000, State Building Trust Funds, GPR

UW-Whitewater

Three Building Masonry Repair Project, \$26,250, State  
Building Trust Funds, GPR

Regent Barkla moved adoption of the following resolution, and the motion was seconded by Regent Fox:

Resolution 1922: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, authorization be granted to lease the following space, to be paid for from Residence Halls funds:

23,193 square feet of space located in

Randall Tower  
1314 West Johnson Street  
Madison, Wisconsin 53705

Eldon M. Stenjem, Jr., Lessor  
P. O. Box 2396  
Carefree, Arizona 85331

The term of the lease would be from August 1, 1979 through July 31, 1984 at a monthly rate of \$6,500 (\$78,000 annually)

Regent Barkla pointed out that the building will accommodate ninety-three single students, including two housefellows employed by the UW-Madison Division of Housing, in forty efficiency apartments and five one-bedroom apartments, all with full baths and kitchenettes. She stated that there continues to be a significant need for student housing at UW-Madison beyond the capacity of University-owned facilities. She reported that former Regent Mary Williams, now administrative aide to Governor Dreyfus, was present at the Committee meeting and indicated concern at this time for expansion in student housing on the UW-Madison campus in view of vacancies in student housing facilities on other campuses. She stated that it was reported by System Administration staff that all of the student housing facilities at other System universities, except at UW-Oshkosh and Superior, will be fully occupied.

Regent Erdman noted that the explanatory material indicated that the combined student room rental and ground floor commercial income will be sufficient to operate the building on a break-even basis over a five-year period while charging equitable rates, and stated that we should not acquire this and then have to subsidize student housing--we should have it on the same basis as all of our housing. Vice Chancellor Van Ess, UW-Madison, stated that it was felt that the operation can be run on a break-even basis, and the rates are equivalent to any single room in existing dorms. He noted that there has been a considerable increase in requests for University housing on the Madison Campus, and there has

been an increase from 1300 requests that the campus has not been able to meet to about 2,500. Regent Erdman noted that this is a five-year lease and in view of the projected enrollment asked if this is a reasonable way to go. Vice Chancellor Van Ess responded that enrollment projections indicated that at the end of the five-year period of this lease enrollments for Madison are projected to be slightly above what they currently are. For the next two or three years there will be a slight increase and then begins a downward trend, and at the end of this five-year period we will be able to establish what the real impact will be. In response to his question, Regent DeBardleben was advised that he was correct in assuming that the income and expenses of the property as far as costs to students are concerned will be the same as in other residence halls on the Madison Campus, and if the expenses are somewhat higher, the surplus costs will be spread over all residence halls fees.

The question was put on Resolution 1922, and it was voted.

Regent Barkla recalled that the University Foundation-Whitewater brought forth in March a proposal to construct a building on the Whitewater Campus with funds from the Foundation. There was concern at that time that the Campus Planning Committee had approved the site, and the Physical Planning and Development Committee was less than happy with the design, which was only a graphic sketch of the proposed building at that time. The matter was deferred, and they have now returned with the architect and the head of the campus development program. The architect explained the concept behind the Alumni Center is to provide alumni at the University of Wisconsin-Whitewater with a meeting and gathering place. The facility will also house other functions. The concept is to provide 1800 square feet at the site of Old Main before it burned down. The design concept is to blend the building into the contiguous buildings and put it on the site in such a way that it will demonstrate its function.

Regent Barkla moved adoption of the following resolution, and the motion was seconded by Regent Fox:

Resolution 1923: That, upon the recommendation of the UW-Whitewater Chancellor and the President of the University of Wisconsin System, Resolution 1171 (adopted 2/6/76) be rescinded and the Board of Regents indicate willingness to accept a "gift-in-kind" of the construction of an Alumni Center on the site of "Old Main" on the UW-Whitewater campus, from the University of Wisconsin-Whitewater Foundation, Inc., in accordance with the design submitted this date. This acceptance is with the understanding that System Administration will verify that funds are available to complete the project prior to authorizing the start of construction.

Regent DeBardleben stated that he was still concerned about the propriety of placing alumni buildings on state-owned land, noting that he raised this question the last time the matter was before the Regents, and he inquired if they are now in a position to tell us whether or not there is a precedent for this. Chancellor Connor stated that it was his belief that the Madison and Oshkosh Foundations are on state-owned land. President Young stated that he believed that the land was purchased and the building was built and then given to the University. Regent

DeBardeleben stated that here we are asked to take lands to which the alumni have contributed nothing, and take it out of the domain of land available for academic and other educational purposes, and appropriate it to alumni uses. Regent Barkla stated that in this case the Committee did consider whether the piece of adjacent land would ever be used for any kind of building on the campus and found that there was no practical use for that piece of land. It was pointed out that the building occupies 1800 square feet of land and there is a substantial amount of property in the immediate vicinity for any further development on the campus. Regent Barkla stated that the building is designed in such a way that if the Foundation no longer wanted it or it was not used for the Foundation or alumni, it could be used by the University--it is not a specialized facility.

Regent Fox stated that he voted against the matter yesterday and planned to vote against it today, pointing out that originally we got into this when Old Main burned down and people who were associated with Whitewater wanted a fitting monument or memorial to that building. He said he is not convinced that it is needed and not convinced that we ought to be in the business of building monuments to other buildings. He continued that if they want a monument, he felt they could get something that is more useful or something that doesn't take up as much space on the campus.

Regent Erdman stated that she felt that alumni functions are an integral part of a university operation. Once you graduate, you are not done--Social Security and Internal Revenue may lose you, but not the college of your choice--it has never yet lost any of us, and they always come after you for funds. She said she felt that alumni offices are very properly located on university campuses, but that Regent Fox has a very valid point--these functions are already being performed adequately on campus; let's leave it at that and have an appropriate resolution. Regent DeBardeleben agreed that alumni organizations do exist, and the purpose is to support the institutions from which the alumni were graduated, not for the institutions to support the alumni organizations. He said he did not feel it proper to use state funds or state property to subsidize the alumni organizations.

Regent Gerrard stated that the project cannot go ahead until it is certified so that the state cannot get stuck with anything. He noted that we are talking about 1800 square feet of land which the Foundation people have been very persistent in trying to get this accomplished, and he did not see what purpose would be served by denying them this.

Regent Beckwith stated that he was reminded of Regent McNamara's quotation of Bathhouse John: "There are times when we have to rise above our principles." He noted that the alumni chose this location as a focal point to raise \$80,000, or they won't raise the \$80,000 and won't build a building; so he was prepared to rise above his principles and vote for the resolution.

The question was put on Resolution 1923, and it was voted, with Regents DeBardeleben and Fox voting "No".

- - -

#### MISCELLANEOUS RESOLUTIONS

President Hales called upon Senior Vice President Smith for a report on the resolution introduced earlier in the meeting by Regent Erdman, which had been deferred to the close of the meeting. He reported on behalf of the most

ad hoc task force in history that it was its unanimous recommendation that it would be quite unwise for the Regents at this late hour to imply in any way a relationship between the actions of the Legislature and the operating budget requests and the funding of the construction and operating budget requests for Veterinary Medicine. He recalled that the Legislature acted, not as a part of this operating budget, but a year earlier, to direct the University to bring forward the plans, which we did, and the two items were separately considered. He reported that we brought forward the request for Veterinary Medicine in response to an earlier direction as a choice by the Legislature of what level of action they wish to take-- either to proceed or not to proceed. The Veterinary Medicine actions and the operating budget actions, as they were considered by Joint Finance, were separately considered. He said we believe that in all of our relationships the Legislature has proceeded with great integrity in this matter and with total respect to the Regents' position in the matter and that their judgment of actions taken on the operating budget were not tainted by the alternate consideration of linking the two together. He said we disagree with the adequacy of the operating budget at the present time, but from the point of view of the work of the Joint Finance Committee and from the point of view of the work of the Senate, this is what they believe the operating budget requirements for the University were up to this point. He said that to suggest otherwise, even by implication, would properly cause considerable resentment in the Legislature, where there was sporadic interest in the question of the linkage between these two and where the legislators and legislative leaders worked very carefully not to get the two linked. Dr. Smith said it would seriously embarrass our friends in the Legislature who are still attempting to give us some help on restoration of critical items in the operating budget. He pointed out that the Legislature funded the Veterinary Medicine building program and the operating budget for the first biennium and they did not give us a cutrate budget and say you figure out how to do it, but take it out of some other part of your hide.

Dr. Smith stated that it may be appropriate, if the Board wishes to do so, to resolve in support of critical elements of the operating budget, which was discussed in the Education Committee on the previous day, and which has been discussed by many of the Regents, and presented the draft of a resolution that is one of affirmation of the urgency of some restorations in the few remaining days of the legislative session.

Regent Erdman moved adoption of the following resolution, the motion was seconded by Regent McNamara, and it was voted:

Resolution 1924: The Regents affirm to state government their belief that the reductions in the operating and capital budget requests of the Regents have eroded initiatives aimed at maintaining the quality of educational opportunity in Wisconsin, and at a minimum urge restoration of: (a) the request for \$1,281,900 for the development of basic skills instruction in the System; (b) the full original request for \$626,800 to reinforce the support service programs for minority and disadvantaged students; and (c) the \$8,000,000 of bonding authority recommended by the Building Commission and removed by the Senate. In urging these restorations we do not in any way withdraw our belief in the integrity of the full budget as proposed by the Regents.

The Regents ask that in the remaining days of this legislative session, concerted attention be given by System Administration and supporters of higher educational opportunity to such restorations.

Regent DeBardleben moved adoption of the following resolution, the motion was properly seconded, and it was voted, with Regents Barkla, Beckwith, DeBardleben, Elliott, Erdman, Fitzgerald, Fox, Hales, Lavine, Lawton, McNamara, Thompson and Walter voting "Aye":

Resolution 1925: That the meeting recess into closed session to consider personnel matters as permitted by S. 19.85(1)(c) and S. 19.85(1)(f), and to consider purchase of public property as permitted by S. 19.85(1)(e), WIS. STATS.

The meeting recessed into closed session at 11:55 A.M., with Regents Gerrard, Grover, and Majerus entering after the above roll call vote was taken.

---

The Board arose from closed session at 1:05 P.M.

President Hales announced that the following resolutions had been approved in the closed session:

Resolution 1926: That, upon recommendation of the President of the UW System and the Chancellor of UW-Madison, the status of Winston J. Brill, Professor of Bacteriology, College of Agricultural and Life Sciences, UW-Madison be changed to Vilas Research Professor of Bacteriology, College of Agricultural and Life Sciences, UW-Madison, effective July 1, 1979, on a permanent basis, salary to be determined in the 1979-80 budget, with \$10,000 chargeable to the funds of the William F. Vilas Trust Estate for his salary and \$10,000 for an auxiliary allowance for 1979-80.

Resolution 1927: That, upon recommendation of the President of the UW System and the Chancellor UW-Madison, the status of Arthur S. Goldberger, Professor of Economics, College of Letters and Science, UW-Madison be changed to Vilas Research Professor of Economics, College of Letters and Science, UW-Madison, effective September 1, 1979, on a permanent basis, salary to be determined in the 1979-80 budget, with \$10,000 chargeable to the funds of the William F. Vilas Trust Estate for his salary and \$10,000 for an auxiliary allowance for 1979-80.

Resolution 1928: That, upon recommendation of the University of Wisconsin-Green Bay Chancellor and the President of the University of Wisconsin System, the following appointments to the University of Wisconsin-Green Bay Board of Visitors be approved:

Terms ending June 1981

Mr. Jack Pischner, Green Bay  
Ms. Lucile Kotas, Green Bay

Terms ending June 1982

Mr. Benjamin J. Teague, Green Bay  
Mr. Russell O'Harrow, Oconto Falls  
Mr. Lee Meyers, Florence  
Ms. Jeanette Hutchinson, Green Bay  
Ms. Sylvia Kaufman, De Pere

**Resolution 1929: That the president of the Board shall appoint a three-member committee of the Board to consider the question of whether or not the request of counsel for a hearing on the procedures followed by UW-Parkside in the case of Marvin Happel shall be heard by the Board, and to bring its recommendations to the Board.**

The meeting adjourned at 1:06 P.M.

6-19-79

J. S. Holt, Secretary

TO: Board of Regents of the University of Wisconsin System

FROM: Regent Members of the Higher Educational Aids Board

SUBJECT: HEAB Meeting of April 27, 1979

The Higher Educational Aids Board met in the Governor's Conference Room, State Capitol, Madison, on April 27, 1979. Regent member Herbert Grover was present.

### Student Loan Revenue Bonding

The Board received a report on the success of the state's nine month old student loan revenue bond program. Jim Jung said that a number of questions regarding the program have come up during the biennial budget discussions. He had invited Paul Belica of Smith, Barney, Harris Upham & Co. and John Egar of First Wisconsin to the Board meeting to discuss the program. Belica stated that the program had exceeded expectations and was very successful. Several states have adopted the model developed for Wisconsin and were moving ahead to sell revenue bonds for student loans.

Staff projections based on student loan demand in 1978-79 indicate that existing revenue bond proceeds will be inadequate to meet loan demand in 1979-80. Removal of the income level requirement from the Guaranteed Student Loan Program in the federal Middle Income Student Assistance Act apparently has created the increased demand for student loans. Existing loan resources are expected to be exhausted in August, 1979.

The Board approved the staff recommendation that the State Building Commission prepare the next revenue bond sale so that bonds can be issued immediately upon enactment of the budget.

In response to the request of Board members, Jerry Madison asked for Board consideration of the need for an income limit on state direct loans as part of the HEAB agenda in July.

The Board discussed the following proposals intended to strengthen the security of the revenue bond program preparatory to taking formal action at the July meeting: (1) purchasing loans from private lenders at the time loans enter repayment status for

EXHIBIT A

the purpose of accelerating cash flow and lowering interest costs; (2) a Health Education Assistance Loan (HEAL) program for Wisconsin students enrolled in health professions which has a federally supported unconditional direct 100% insurance feature; (3) a combination private purchase and HEAL approach.

Esther Kaplan expressed concern that HEAB was becoming more of a financial institution than an agency interested in students and also suggested that HEAB wait until the Legislature takes action on health profession tuition levels before developing a HEAL program. Jim Jung suggested the proposals would allow HEAB to offer loans at more modest rates and increase the availability of loans from private lenders.

#### 1979-80 Wisconsin Higher Education Grant Program

The Board received a status report on the 1978-79 WHEG program indicating that of the \$14,068,285 allocated and \$23,544,302 committed, \$14,050,645 had been vouchered. Thus activity was all but completed for 1978-79.

The Board approved the staff recommendation establishing WHEG program parameters for 1979-80. The dependent student budget, exclusive of tuition and fees, was set at \$2,550 for 1979-80. Minimum expectations of support for independent students were raised from \$1,800 to \$2,200 for single students and from \$3,600 to \$4,400 for students with spouses.

Staff reported on the difficulties encountered in setting WHEG award levels for 1979-80 induced by the impact of MISA and the timing of the state's biennial budget deliberations. Recognizing the situation, the Board approved staff recommendations that the WHEG equity levels and percentages for 1979-81 be set by statute within a sum sufficient appropriation. Further, the Board approved dependent equity levels at \$2,550/\$2,295 and setting the independent equity percentage at the level which would spend \$3,625,600. In the event that the above recommendations are not approved as part of the 1979-81 biennial budget, the Board will establish the 1980-81 equity levels and percentage based on the level of GPR funding expected in 1979-80.

The Board considered staff recommendations intended to improve the administration of the Talent Incentive Program (TIP). Although consensus has not been reached on a comprehensive revision of the TIP delivery system for 1979-80, the Board approved revisions which replaced the present eligibility criteria with some that are more objective. They also modified the institutional nomination procedures, and extended the two-year rule by one summer.

#### Tuition Grant Program 1979-80

Staff reported that as of April 2, \$8,074,715 in tuition grants had been vouchered for 1978-79. The Board approved the noninstructional student budget for dependent students at the level of \$2,550 and for independent single students at \$3,600. The minimum expectation for independent students was set at the levels used for the WHEG program.

State Student Incentive Grant Program (SSIG) and State Student Financial Assistance Training Program (SSFATP)

The staff reported that Wisconsin would receive \$1,594,771 for 1979-80 under the federally funded SSIG program. SSIG is used to expand the impact of the state's TIP.

The Board approved the staff's recommendation to use available SSFATP funds in 1979-80 as outlined in the staff's plan for training financial aids personnel.

Educational Information Centers (EIC)

Recognizing the probable termination of federal funding of the development of EICs, the Board approved the staff recommendation that it revise its approach. Instead of planning for EICs, the EIC policy committee would appoint a Research Steering Committee to identify the characteristics of participating as well as potentially participating part-time students and their informational, financial, academic and support needs.

The Board also concurred in the staff recommendation that the EIC research effort be used to collect the additional base data needed by the Board and UW staff to evaluate the financial needs of part-time students and to identify the alternatives to be considered in meeting those needs.

Lender Servicing

The revised data processing system for HEAB will combine the private lender servicing and state loan components into a system having a volume approximately five times that of the present private lender system. State programs represent about 75% of the total volume and thus will largely determine the economics of the Lender Servicing Program. Because of the variety of pricing options which can be developed, the staff recommended that the Lender Advisory Council of the Wisconsin Higher Education Corporation be requested to work with the staff in preparing Lender Servicing pricing options for Board consideration in July. The Board concurred in this recommendation. The Board also approved the staff recommendation that staff enter negotiations with the Student Loan Marketing Association (Sallie Mae) for the purpose of providing lender servicing to Sallie Mae.

Interstate Reciprocity Agreements

The Board received a report on the status of the Minnesota-Wisconsin and Michigan-Wisconsin interstate compacts. The staff has been informed that the 1979-81 Michigan-Wisconsin reciprocity agreement was scheduled for formal approval by Michigan in early May. This agreement was approved by the Wisconsin legislative Joint Finance Committee on March 29.

The state of Minnesota has presented a check for \$12,604,552.74 to Wisconsin to cover the education reciprocity agreement for the 1974-75, 1975-76, and 1976-77 academic years. At the time of this report, Minnesota had not taken formal action approving the 1979-80 reciprocity agreement; however, representatives had scheduled meetings to clarify outstanding issues and to move toward final agreement.

The Wisconsin Board of Vocational, Technical and Adult Education met at their offices in Madison on May 22, 1979. This report summarizes agenda items of interest to the UW System.

### Report of the State Director

Arthur DeBardleben  
P.O. Box 30  
Park Falls 54552

The Director, Eugene Lehrmann, presented a rather lengthy report on pending state and federal legislation which might have an impact on the VTAE system. The VTAE staff gave a brief analysis of the legislation and made recommendations on the position that the Board might take in support of or in opposition to the proposals. Because of the complex nature of many of the bills and their interaction with existing statutes, the WBVTAE found it difficult to define a Board position on all of the issues. Bills supported were those that positively addressed improvements in Vocational Education in the state. Several bills that would require additional reporting of information and activities to the state were opposed because of the additional costs of such reporting.

James N. Elliott  
5900 W. Center St.  
Milwaukee 53210

### Commendation to the State Director

Joyce M. Erdman  
3408 Circle Close  
Madison 53705

The WBVTAE and the Governor's office presented commendations to outgoing Director Eugene Lehrmann, thanking him for 35 years of service to higher education and for 8 years of service as the State Director of Vocational, Technical and Adult Education. Department of Administration Secretary, Kenneth Lindner, presented the citation on behalf of Governor Lee Dreyfus.

### Wisconsin Vocational Education Plan

The 1979-80 Wisconsin Vocational Education Plan was presented to the Board for its approval. This major item of Board business was summarized in "highlight" form and is of enough interest that a copy is appended for your information.

### Other Items

A copy of the agenda for the meeting is attached. If there are items of specific interest to members of the Board of Regents, additional information can be obtained from the System Administration Office of Academic Affairs.

2. Change Order No. E-II-30: (Phase I & II)	ADD \$ 26,446.00

### III. REPORT OF ACTIONS TAKEN (MEMOS OF AGREEMENT).

- A. An amendment to the Board of Regents/Nuclear Regulatory Commission Indemnity Agreement No. E-37, dated December 11, 1962, as amended, has been signed by the Vice President for General Services May 10, 1979. This provides that Article III, Paragraph 4(b)(2) is amended by deleting the amount \$140,000,000 and substituting therefor the amount \$160,000,000.
- B. A document, Offer to Amend Grant Agreement--Amendment No. 1, from the U.S. Department of Commerce has been signed by the Assistant Secretary of the Board May 21, 1979. Under terms of this amendment, the Department of Commerce agrees to modify the existing contract for the replacement of windows in Engelmann Hall, UW-Milwaukee to allow such financial assistance (estimated at \$31,017) to be used for this building and similar assistance (estimated at \$148,393) for window alteration, replacement, and pane replacement on the Campus Elementary School, UW-Milwaukee. The total grant amount is \$180,000.
- C. A license agreement between the Wisconsin Public Service Corporation and UW-Oshkosh to allow the university to use a described strip of land not to exceed 9 feet for a walking, jogging, or bicycling path within the confines of the City of Oshkosh, Winnebago County, Wisconsin, has been signed by the Assistant Secretary of the Board May 22, 1979.
- D. The lease of space on behalf of UW-Madison to house the northwest field agent of the Sea Grant Program, located in the Bayfield County Courthouse, Washburn, Wisconsin has been renewed for the period 7/1/79 through 6/30/80, with a one-year renewal option. The annual cost will be \$3.60 per square foot for 500 square feet of space.
- E. A Lease Agreement between the Trustees of the Janesville Public Library and the Board of Regents of the University of Wisconsin System providing for the loan of the Louise Fulcher Memorial Library of Sacred Choral and Organ Music by the UW-Extension Library to the Janesville Public Library has been signed by the Vice President and Controller.
- F. An agreement, dated May 14, 1979, between Washington Educational Research Associates, Inc., (WERA) and the University of Wisconsin System and the University of Wisconsin - Superior providing for a program of instruction in English as a foreign language by WERA has been signed by the Chancellor of UW-Superior and the Vice President and Controller.

IV. REPORT OF ACTIONS TAKEN BY THE STATE BUILDING COMMISSION ON 22 MAY 1979 AFFECTING THE UNIVERSITY OF WISCONSIN SYSTEM.

UNIVERSITY	PROJECT	ACTION
1. UW-EAU CLAIRE	Campus Development Plan-1979 was presented, reviewed and discussed, and APPROVED by Sub-Committee for Higher Education at its meeting at UW-Eau Claire on 14 May 1979.	ACCEPTED
2. UW-GREEN BAY	Requested allotment of an additional \$78,000 of State Building Trust Funds for the 1977-79 HVAC Systems Energy Conservation project for a revised total project cost of \$146,000.	DEFERRED for one month.
	* * *	Requested release of \$3,000 of Advance Planning Funds to prepare Preliminary Plans and a Concept and Budget Report for a 1979-81 Utility Tunnel Flood Prevention project for an estimated total project cost of \$52,200.
3. UW-LA CROSSE	Requested release of \$43,500 of Land Acquisition Funds to purchase one 0.13 acre parcel of land.	APPROVED
	* * *	

## UNIVERSITY

## PROJECT

## ACTION

UW-LA CROSSE (cont.)	Reported to State Building Commission Sub-Committee on Higher Education regarding results of negotiations with City of La Crosse on proposed closing of 16th and Badger Streets and proposed acquisition of three areas for parking, noting City consent to acquisition of half-block area for parking south of Fine Arts Center and deferral of vacation of 16th and Badger Streets pending provision of replacement parking, the acquisition of privately-owned property fronting on Badger Street, and negotiations for the purchase of Memorial Field.	Sub-Committee received report on 14 May 1979 and APPROVED inclusion of the half-block area within the campus boundary and authorized acquisition of same using Parking Program Revenues. Sub-Committee also noted that isolated hardship cases and special situations requiring land acquisition authority, occurring beyond the approved campus boundary but within the H-S-R plan, may be brought to the Commission for consideration. Commission ACCEPTED report of Sub-Committee.
4. UW-MADISON	Requested approval of the Concept and Budget Report for the 1979-81 Agricultural Engineering Building Addition-Phase I project and the release of an additional \$45,000 of Advance Planning Funds to prepare final plans and specifications for a total estimated project cost of \$1,275,000.	WITHDRAWN
	* * * Requested approval of the Concept and Budget Report and authority to plan, bid, and construct the 1977-79 Hydraulics Building Remodeling project, at a reduced scope, for a total estimated project cost of \$780,000.	APPROVED with release of an additional \$75,000 of Advance Planning Funds for design of entire project.
	* * * Requested authority to prepare a Concept and Budget Report for the construction of the 1975-77 UW Stores/ Extension Services Facility for a total project cost of \$2,000,000.	APPROVED with release of \$36,000 of additional Advance Planning Funds.

UNIVERSITY	PROJECT	ACTION
UW-MADISON (cont.)	Requested release of \$243,500 of Advance Planning Funds and authority to undertake preliminary design work for a 1977-79 Charter Street Heating Plant Air Quality Study project.	WITHDRAWN
	* * *	
	Requested allotment of \$49,000 of State Building Trust Funds to plan, bid, and construct a 1977-79 Four-Building Insulation project.	APPROVED at \$49,900.
	* * *	
	Requested authority to plan, bid, and construct a 1979 Hill Farm Storage Structure Replacement project, on the UW-Madison West Hill Farm in Madison, for an estimated total project cost of \$29,500.	APPROVED
	* * *	
	Requested authority to plan, bid, and construct a 1979 Irrigation Well project, at the UW-Madison Arlington Experimental Farm, for a total project cost of \$21,500.	NO ACTION Motion lacked a second.
	* * *	
	Requested authority to plan, bid, and construct a 1977-79 Primary Power Service project for the Accelerator Addition, at the Physical Sciences Laboratory Synchrotron-Radiation Center at Stoughton, Wisconsin, for a total project cost of \$25,000.	APPROVED
	* * *	
	Requested authority to plan, bid, and construct a 1979 Sanitary Sewer Connection project to serve the UW-Madison Marshfield Experimental Station, in Marshfield, Wisconsin, at a total estimated project cost of \$30,000.	DEFERRED for one month for BFM study.
	* * *	

## UNIVERSITY

## PROJECT

## ACTION

UW-MADISON (cont.)

Requested allotment of \$41,350 of State Building Trust Funds to plan, bid, and construct a 1977-79 Six-Building Roof Repair and Replacement project on several UW-Madison Experimental Farms.

APPROVED

\* \* \*

Requested approval of a 1979-81 Family Practice Clinic Facility in Appleton, Wisconsin, for an estimated total project cost of \$990,000, and enumeration of the project in the 1979-81 State Building Program.

On 1 May 1979 the Subcommittee for Higher Education and on 2 May 1979 the Commission APPROVED submitting a request to the Joint Finance Committee to enumerate a Family Practice Clinic Facility for Appleton in the 1979-81 State Building Program at an estimated total project cost of \$990,000 of Self-Amortizing Bonding.

5. UW-MILWAUKEE

Requested authority to pay the contractor the negotiated amount of \$9,802.38 and cancel the existing contract; cancel the 1977-79 Engelmann Hall Window Replacement project; and authority to plan, bid, and construct a 1977-79 Campus Elementary School Window Replacement project for a total project cost of \$180,000.

APPROVED

\$9,802.38 payment to contractor and cancellation of 1977-79 Engelmann Hall Window Replacement project.

AUTHORIZED

1977-79 Campus Elementary School Window Replacement project at \$148,980 providing a written agreement is secured from Federal LPW administrators confirming that funds will not be withdrawn or withheld if project work is not complete during 1979.

\* \* \*

APPROVED at \$28,000,000 exclusive of \$250,000 previously released for programming.

BUSINESS AND FINANCE COMMITTEE

Resolution 1909:

Upon recommendation of the President of the U.W. System and in accordance with s.36.09(1)(j), Wis. Stats., the Board of Regents affirms the following decisions on unclassified compensation adjustments:

1. Unless otherwise specified by executive/legislative action, the effective dates for the payment of the 1979-80 rates will be July 1, 1979 for annual basis employees, the start of the academic year pay period for those on academic year appointments, and other dates as set by the Chancellors for persons with appointment periods commencing at times other than July 1 and the beginning of the academic year.
2. Compensation adjustment allocations shall be distributed to the institutions as soon as possible after executive/legislative action and in conformity with the specifications of state policy.
3. Within the state authorization for compensation, the President shall establish guidelines and permissible ranges for institutional decisions on the proportions of resources for compensation increments to be assigned for past or future cost-of-living adjustments and additional adjustments based on evaluations of meritorious service.
4. Each institution shall complete its merit evaluations of continuing unclassified staff prior to July 1 and establish relationships for salary adjustments among individuals which can be applied expeditiously to determine salary increases in the presence of information on the state policy for 1979-80 and total resources available.
5. Each institution shall complete its actions on graduate assistant stipend schedules prior to July 1 and shall establish relationships for adjustments within stipend schedules which can be applied expeditiously to determine stipend increases in the presence of information on the state policy for 1979-80 and total resources available. Stipend schedules for each graduate assistant category shall be separately established on an annual/academic year basis within the resources generated by the state-authorized pay plan as applied to the respective base stipend payrolls.
6. The Board affirms the delegated authority of the President of the System and the Chancellors to establish individual salaries and stipend schedules for 1979-80 within state policy and the funds appropriated for that year, with appropriate annual budget documentation to be reported to the Regents for information.
7. The Board directs that any automatic adjustments applied to individuals in the State Executive Pay Plan and others above the Group 5 maximum shall be effective on the dates determined in the executive/legislative review and, given the possibility that the Board's meeting schedule will not afford an opportunity for timely action on any discretionary adjustments for these individuals, the Board authorizes the President to make the necessary preparations for final action by the Executive Committee if required.
8. Compensation actions related to the unclassified pay plans and delegated to the Chancellors shall be completed in accordance with statutory requirements and Regents' policy and shall be reported to the President of the System by August 1, or within three weeks after enactment of the biennial budget if passage is delayed, to make possible the preparation of payrolls and reporting to the Board of Regents at its September meeting.
