LEGISLATION.

A new feature in banking has manifested itself of late which, if permitted to go on unhindered, will eventually result in a monopoly control of the banking business. I refer to the so-called holding companies which are increasing with alarming rapidity in various parts of the country. One of these companies with headquarters at Minneapolis, Minnesota, own a controlling interest in more than fifty banks in Minnesota, Iowa, Wisconsin and the Dakotas. In Wisconsin, eight or ten banks are now controlled by this one company; two other companies have recently been organized at Minneapolis, Minnesota, for the purpose of getting control of banks either by buying up a majority interest in banks now in existence or by organizing new banks. The same objection that has repeatedly been advanced against branch banking or chain banking applies with equal force to this new method of manipulating the banking business. The representatives of the holding company are usually elected to the offices of president and cashier of the bank, and while they generally have some local directors, the management is dominated by the holding company influence, and the loans are in the majority of cases made to parties residing outside of this state. Legislation should be had to discourage this evil in every proper manner.

Aside from the foregoing, I am of the opinion that the recommendations offered in the fourteenth annual report of this department for the year 1908 apply to the condition of the banking business at this time.

It should be borne in mind that nearly all proposed banking legislation introduced at the last session of the legislature was

referred to a special legislative committee; a report of the findings of this committee will no doubt reach you in the near future, making it unnecessary for me at this time to repeat recommendations heretofore made.

GENERAL REMARKS.

The condition of the financial institutions under the supervision of this department was generally speaking very satisfactory during the past year. The deposits in the state and mutual savings banks increased \$13,525,372.04 and the aggregate gain in total resources was \$15,310,030.41.

The trust companies now operating under the new law enacted by the last legislature also show substantial gains in volume of business transacted. All the state banks, mutual savings banks, trust companies, and building and loan associations have been examined at least once during the year and I am again able to report that there have been no losses to depositors in any of these institutions. As shown in another part of this report, the state has not been entirely free from mismanagement in some of these institutions and two banks and one trust company was ordered to liquidate. The depositors, however, were paid in full except such depositors as saw fit to sell their claims to the directors taking their personal notes for same before the liquidation took place.

STATE BANKING DEPARTMENT.

One deputy, four examiners and two clerks have been employed by this department during the year, all of them being appointed under the banking law, except one examiner who was appointed under chapter 517 of the laws of 1905. TRUST COMPANIES.

The Trust Company Law enacted by the Legislature of 1909, has not been on trial long enough to disclose all of its defects. It is, however, apparent even at this early date, that certain limits should be fixed by law, both as to the amount that might be loaned to any one person, firm or corporation, as well as the territory where such loans may be made, in order that added protection be given to the depositors, and also to materially simplify the work of examination and supervision. I can conceive of no good reason for permitting savings and time deposits in trust companies, to be invested under different rules than those established for the same class of deposits in state banks and mutual savings banks. This law as a whole is, however, an improvement over the old law, in so far as it requires the deposits received to be held or invested separately from other funds or properties held by the corporation, so that in case of insolvency or liquidation, all such funds and investments made therefrom are primarily liable and must be used for the payment of such deposits.

LEGISLATION.

The Special Legislative Committee on banking appointed by the Legislature of 1909, in their report submitted January 15th, 1910, seem to have carefully considered most of the needed amendments to the banking laws.

It will not be necessary therefore at this time to supplement their report, with further recommendations, except to emphasize the urgent need for additional examiners and clerks to properly perform the ever increasing duties imposed upon the State Banking Department.

When it is taken into consideration that the institutions under supervision have nearly doubled in number, and fully doubled in total assets during the past six years, and during the past year alone have increased 40 in number, and \$22,000,000.00—in total assets, it should be apparent that the force employed in this department is wholly inadequate to perform the work it is called upon to do.

The Legislative Committee of the Wisconsin Bankers' Association in their report submitted at the Convention of 1910, realized that more examiners and clerks must be provided, and endorsed the bill recommended by the Special Legislative Committee on banking on this subject, in the following language, to-wit:

“Some of the members of the Association may be inclined to think that the increase in fees to be paid for examinations is somewhat burdensome, but your Committee finds that the proposed fees are in line with those now exacted from national banks, and if we are to have an efficient banking department, and one that can make thorough examinations of all banks at least twice a year, in the interest of the banks themselves and of the general public, it is just to require the banks to pay liberally toward the cost of maintaining this department.”

GENERAL REMARKS.

The institutions under the supervision of this department, with few exceptions, have had a very prosperous year, as will be seen by an examination of “Table B” of this report. The deposits in the state and mutual savings banks have increased

\$19,523,967.83, and the aggregate gain in total resources was \$21,978,064.66.

It became necessary upon several occasions during the past year to insist upon complete reorganization of banks, in all but one instance, however, the banks were able to comply with our requirements without it being necessary for the department to take possession.

The Farmers' Bank of Cuba City was closed by this department on September 3rd, and one of the examiners, Mr. A. R. Emerson, was placed in charge until the reorganization was perfected on November 10th, 1910, when the bank was permitted to reopen, under a new management as the Cuba City State Bank, and with every prospect for a successful career.

The two trust companies mentioned in our fifteenth annual report as not having their continuation resolution filed at the time of making said report, did subsequently file such resolution before February 1st, 1910, and within the time provided by law. All the trust companies operating in this state at the time the new law was enacted have complied with its provisions by filing the required continuation resolution.

All the state banks, mutual savings banks, and trust companies, have been examined at least once during the last twelve months, and it gives me great pleasure to be able to report that there have been no losses to depositors in any of the institutions under the supervision of this department.

In addition to the deputy commissioner of banking, four examiners and two clerks have been employed during the year.

The names and compensation of the clerks are herewith reported as required by law, to-wit:

Name.	Office.	Salary.
Andrew C. Pond.....	Clerk, 4 months	\$500 00

Ida J. Davidson.....	Clerk and stenographer, 7 months.....	700 00

TWELFTH ANNUAL REPORT

OF THE

COMMISSIONER OF BANKING

ON THE CONDITION OF THE

Building and Loan Associations

OF WISCONSIN

Submitted to the Governor, March 15, 1909

MADISON, WIS.

DEMOCRAT PRINTING COMPANY, STATE PRINTER

1909

TWELFTH ANNUAL REPORT

OF THE CONDITION OF THE

Building and Loan Associations

OF WISCONSIN.

MADISON, WIS., March 15, 1909.

Honorable JAMES O. DAVIDSON,
Governor of Wisconsin.

SIR: I have the honor to submit herewith the twelfth annual report of this department on the condition of building and loan associations of Wisconsin for the year ending December 31st, 1908, based upon sworn statements rendered by them as required by law.

The total number of associations reporting is fifty. Two associations dissolved, liquidating by paying creditors in full. They are:

1. Grand Rapids Building and Loan Association.....Grand Rapids, Wis.
2. Ft. Howard Building, Loan & Savings Association.....Green Bay, Wis.

The total number of shares of installment stock outstanding is 122,898 $\frac{3}{4}$, which is 2,913 $\frac{1}{4}$ more than on December 31st, 1907.

Assets have increased from \$4,490,486.53 in 1907, to \$4,730,694.95 in 1908, showing an increase of \$240,208.42.

Outstanding shares of paid up stock number 5,512 $\frac{41}{100}$, a gain of 220 $\frac{18}{100}$ shares since last report.

Real estate holdings were reduced from \$68,404.72 to \$63,480.82. The contingent fund increased from \$60,936.99 to \$85,124.21, a gain of \$24,187.22.

The total operating expenses for the year 1908 amounted to \$51,220.94, which is 1.08 per cent of the total assets.

A comparison of the principal items of resources and liabilities on December 31st, 1908, and on December 31st, 1907, is afforded in the following table:

Resources.	Dec. 31, 1908.	Dec. 31, 1907.	Increase.	Decrease.
Loans on mort. security.....	\$4,161,984 51	\$3,963,589 99	\$195,394 52
Loans on stock security.....	290,299 81	274,581 54	15,715 27
Other loans & bills rec.....	7,653 66	2,995 38	4,658 28
Real estate.....	63,480 82	68,404 72	\$4,923 90
R. E. sold on contracts.....	57,180 60	41,694 79	15,485 81
Cash.....	83,380 51	79,129 67	4,250 84
Liabilities.				
Installment stock.....	\$3,253,951 59	\$3,132,546 45	\$121,405 14
Paid up stock.....	514,223 42	495,038 98	19,184 44
Contingent fund.....	85,124 21	60,936 99	24,187 22
Bills payable.....	219,226 72	187,127 27	32,099 45
Undivided profits and dividend account.....	553,573 30	542,004 50	11,568 80

All the associations have been examined during the year, and show a gradual increase in volume of business done, while in number they are decreasing. The so-called investment company law, known as chapter 219, laws of 1905, has accomplished more than was expected from it, as it has driven the "get-rich-quick" concerns out of the state, as no complaint has been received from any part of the state during the past year.

Very respectfully,

MARCUS C. BERGH,

Commissioner of Banking.
