## INTRODUCTION.

---

In accordance with Chapter 657 of the Laws of 1911, the thirty-sixth volume of the official Wisconsin Blue Book is herewith presented.

Under the present law the Blue Book is limited in size to 800 pages.

This has made necessary the elimination of much of the material heretofore published in the book.

Great care has been exercised in determining what matter should be omitted, but doubtless mistakes have been made.

Suggestions for future guidance relative to the subjects to be included in the Blue Book will be gratefully received.

One valuable new feature added to this volume is the statistics of agriculture for Wisconsin as reported in the 13th census of the United States.

The pictures of state institutions, members of Congress and of the state legislature, state officers and supreme judges, have been continued in this volume, as have most of the usual statistics relating to taxes, state finances, banks, schools, Grand Army of the Republic, and the State Militia.

COMMISSIONER OF LABOR AND INDUSTRIAL STATISTICS.

# DECLARATION OF INDEPENDENCE.

UNANIMOUSLY PASSED BY THE CONGRESS OF THE THIRTEEN UNITED STATES OF AMERICA, JULY 4, 1776.

When, in the course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth the separate and equal station to which the laws of nature and of nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal; that they are endowed by their Creator with certain inalienable rights; that among these are life, liberty, and the pursuit of happiness. That to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed; and that whenever any form of government becomes destructive of these ends, it is the right of the people to alter or to abolish it, and to institute a new government, laying its foundation on such principles, and organizing its powers in such form, as to them shall seem most likely to effect their safety and happiness. Prudence, indeed, will dictate that governments long established should not be changed for light and transient causes; and accordingly, all experience hath shown that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same object, evinces a design to reduce them under absolute despotism, it is their right, it is their duty, to throw off such government, and to provide new guards for their future security. Such has been the patient sufferance of these colonies, and such is now the necessity which constrains them to alter their former systems of government. The history of the present king of Great Britain is a history of repeated injuries and usurpations, all having, in direct object the establishment of an absolute tyranny over these States. To prove this, let facts be submitted to a candid world:

He has refused his assent to laws the most wholesome and necessary for the public good. He has forbidden his Governors to pass laws of immediate and pressing importance, unless suspended in their operation till his assent should be obtained; and, when so suspended, he has utterly neglected to attend to them. He has refused to pass other laws for the accommodation of large districts of people unless these people would relinquish the right of representation in the legislature—a right inestimable to them, and formidable to tyrants only. He has called together legislative bodies at places unusual, uncomfortable, and distant from the depository of their public records, for the sole purpose of fatiguing them into compliance with his measures. He has dissolved representative houses repeatedly for opposing, with manly firmness, his invasions on the rights of the people. He has refused, for a long time after such dissolutions, to cause others to be elected; whereby the legislative powers, incapable of annihilation, have returned to the people at large for their exercise, the State remaining, in the meantime, exposed to all the danger of invasion from without and convulsions within. He has endeavored to prevent the population of these States; for that purpose, obstructing the laws for naturalization of foreigners; refusing to pass others to encourage their emigration hither, and raising the conditions of new appropriations of lands. He has obstructed the administration of justice, by refusing his assent to laws for establishing judiciary powers. He has made judges dependent on his will alone for the tenure of their offices and the amount and payment of their salaries. He has erected a multitude of new offices, and sent hither swarms of officers to harass our people, and eat out their

substance. He has kept among us, in times of peace, standing armies, without the consent of our legislature. He has effected to render the military independent of and superior to the civil power. He has combined with others to subject us to a jurisdiction foreign to our constitution, and unacknowledged by our laws; giving his assent to their acts of pretended legislation:

For quartering large bodies of armed troops among us; for protecting them, by a mock trial, from punishment, for any murders which they should commit on the inhabitants of these States; for cutting off our trade with all parts of the world; for imposing taxes on us without our consent; for depriving us, in many cases, of the benefits of trial by jury. For transporting us beyond seas to be tried for pretended offences. For abolishing the free system of English laws in a neighboring province, establishing therein an arbitrary government, and enlarging its boundaries, so as to render it at once an example and fit instrument for introducing the same absolute rule into these colonies; for taking away our charters, abolishing our most valuable laws, and altering, fundamentally, the powers of our governments; for suspending our own legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever. He has abdicated government here, by declaring us out of his protection, and waging war against us. He has plundered our seas, ravaged our coast, burnt our towns, and destroyed the lives of our people. He is at this time, transporting large armies of foreign mercenaries to complete the works of death, desolation, and tyranny, already begun, with circumstances of cruelty and perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the head of a civilized nation. He has constrained our fellow citizens, taken captive on the high seas, to bear arms against their country, to become the executioners of their friends and brethren, or to fall themselves by their hands. He has excited domestic insurrections among us, and has endeavored to bring on the inhabitants of our frontiers the merciless Indian savages, whose known rule of warfare is an undistinguished destruction of all ages, sexes, and conditions.

In every stage of these oppressions, we have petitioned for redress, in the most humble terms; our repeated petitions have been answered only by repeated injury. A prince whose character is thus marked by every act which may define a tyrant, is unfit to be the ruler of a free people.

Nor have we been wanting in attention to our British brethren. We have warned them, from time to time, of attempts made by their legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them, by the ties of our common kindred, to disavow these usurpations, which would inevitably interrupt our connections and correspondence. They, too, have been deaf to the voice of justice and consanguinity. We must, therefore, acquiesce in the necessity which denounces our separation, and hold them, as we hold the rest of mankind, enemies in war—in peace, friends.

We, therefore, the representatives of the United States of America, in General Congress assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the name and by the authority of the good people of these colonies, solemnly publish and declare, that these United Colonies are, and of right ought to be, free and independent States; that they are absolved from all allegiance to the British crown, and that all political connections between them and the State of Great Britain is, and ought to be, totally dissolved; and that, as free and independent States, they have full power to levy war, conclude peace, contract alliances, establish commerce, and to do all other acts and things which independent States may of right do. And for the support of this declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our lives, our fortunes, and our sacred honor.

(Signed)

JOHN HANCOCK.

And by the delegates from New Hampshire, Massachusetts Bay, Connecticut, Rhode Island, &c., New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, North Carolina, South Carolina, and Georgia.

## PREAMBLE.

WE, the people of the United States, in order to form a more perfect union, establish justice, insure domestic tranquillity, provide for the common defense, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this Constitution for the United States of America.

## ARTICLE I.

SECTION 1. All legislative powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives.

SECTION 2. The House of Representatives shall be composed of members chosen every second year by the people of the several States, and the electors in each State shall have the qualifications requisite for electors of the most numerous branch of the State legislature.

No person shall be a Representative who shall not have attained to the age of twenty-five years, and been seven years a citizen of the United States, and who shall not, when elected, be an inhabitant of that State in which he shall be chosen.

Representatives and direct taxes shall be apportioned among the several states which may be included within this Union according to their respective numbers, which shall be determined by adding to the whole number of free persons, including those bound to service for a term of years, and excluding Indians not taxed, three-fifths of all other persons. The actual enumeration shall be made within three years after the first meeting of the Congress of the United States, and within every subsequent term of ten years, in such manner as they shall by law direct. The number of Representatives shall not exceed one for every thirty thousand, but each State shall have at least one Representative; and until such enumeration shall be made, the State of *New Hampshire* shall be entitled to choose three, *Massachusetts* eight, *Rhode Island and Providence Plantations* one, *Connecticut* five, *New York* six, *New Jersey* four, *Pennsylvania* eight, *Delaware* one, *Maryland* six, *Virginia* ten, *North Carolina* five, *South Carolina* five, *Georgia* three.

When vacancies happen in the representation from any State, the executive authority thereof shall issue writs of election to fill such vacancies.

The House of Representatives shall choose their Speaker and other officers, and shall have the sole power of impeachment.

SECTION 3. The Senate of the United States shall be composed of two Senators from each State, chosen by the legislature thereof, for six years; and each Senator shall have one vote.

Immediately after they shall be assembled in consequence of the first election, they shall be divided as equally as may be into three classes. The seats of the Senators of the first class shall be vacated at the expiration of the second year; of the second class, at the expiration of the fourth year, and of the third class, at the expiration of the sixth year, so that one-third may be chosen every second year; and if vacancies happen by resignation or otherwise, during the recess of the legislature of any state, the executive thereof may make temporary appointments until the next meeting of the legislature, which shall then fill such vacancies.

No person shall be a Senator who shall not have attained to the age of thirty years, and been nine years a citizen of the United States, and who shall not, when elected, be an inhabitant of that State for which he shall be chosen.

The Vice President of the United States shall be President of the Senate, but shall have no vote unless they be equally divided.

The Senate shall choose their other officers, and also a President *pro tempore* in the absence of the Vice President, or when he shall exercise the office of President of the United States.

The Senate shall have the sole power to try all impeachments. When sitting for that purpose, they shall be on oath or affirmation. When the President of the United States is tried, the Chief Justice shall preside; and no person shall be convicted without the concurrence of two-thirds of the members present.

Judgment in case of impeachment shall not extend further than to removal from office, and disqualification to hold and enjoy any office of honor, trust or profit under the United States; but the party convicted shall, nevertheless, be liable and subject to indictment, trial, judgment and punishment, according to law.

SECTION 4. The times, places, and manner of holding elections for Senators and Representatives shall be prescribed in each State by the legislature thereof; but the Congress may at any time by law make or alter such regulations, except as to the places of choosing Senators.

The Congress shall assemble at least once in every year, and such meeting shall be on the first Monday in December, unless they shall by law appoint a different day.

SECTION 5. Each house shall be the judge of the elections, returns, and qualifications of its own members, and a majority of each shall constitute a quorum to do business; but a smaller number may adjourn from day to day, and may be authorized to compel the attendance of absent members, in such manner and under such penalties as each house may provide.

Each house may determine the rules of its proceedings, punish its members for disorderly behavior, and with the concurrence of two-thirds, expel a member.

Each house shall keep a journal of its proceedings, and from time to time publish the same, excepting such parts as may in their judgement require secrecy, and the yeas and nays of the members of either house on any question shall, at the desire of one-fifth of those present, be entered on the journal.

Neither house, during the session of Congress, shall, without the consent of the other, adjourn for more than three days, nor to any other place than that in which the two houses shall be sitting.

SECTION 6. The Senators and Representatives shall receive a compensation for their services, to be ascertained by law, and paid out of the Treasury of the United States. They shall, in all cases except treason, felony and breach of the peace, be privileged from arrest during their attendance at the session of their respective houses, and in going to and returning from the same; and for any speech or debate in either house, they shall not be questioned in any other place.

No Senator or Representative shall, during the time for which he was elected, be appointed to any civil office under the authority of the United States, which shall have been created, or the emoluments whereof shall have been increased during such time; and no person holding any office under the United States shall be a member of either house during his continuance in office.

SECTION 7. All bills for raising revenue shall originate in the House of Representatives; but the Senate may propose or concur with amendments as on other bills.

Every bill which shall have passed the House of Representatives and the Senate, shall, before it becomes a law, be presented to the President of the United States; if he approves, he shall sign it, but if not he shall return it, with his objections, to that house in which it shall have originated, who shall enter the objections at large on their journal and proceed to reconsider it. If after such reconsideration two-thirds of that house shall agree to pass the bill, it shall be sent, together with the objections, to the other house, by which it shall like-

wise be reconsidered, and if approved by two-thirds of that house it shall become a law. But in all cases the votes of both houses shall be determined by yeas and nays, and the names of the persons voting for and against the bill shall be entered on the journal of each house respectively. If any bill shall not be returned by the President within ten days (Sundays excepted) after it shall have been presented to him, the same shall be a law in like manner as if he had signed it unless the Congress by their adjournment prevents its return, in which case it shall not be a law.

Every order, resolution or vote to which the concurrence of the Senate and House of Representatives may be necessary (except on a question of adjournment) shall be presented to the President of the United States; and before the same shall take effect, shall be approved by him, or, being disapproved by him, shall be repassed by two-thirds of the Senate and House of Representatives, according to the rules and limitations prescribed in the case of a bill.

SECTION 8. The Congress shall have power to lay and collect taxes, duties, imposts and excises, to pay the debts and provide for the common defense and general welfare of the United States; but all duties, imposts and excises shall be uniform throughout the United States:

- To borrow money on the credit of the United States;
- To regulate commerce with foreign nations, and among the several States and with the Indian tribes;
- To establish an uniform rule of naturalization, and uniform laws on the subject of bankruptcies throughout the United States;
- To coin money, regulate the value thereof, and of foreign coin, and fix the standard of weights and measures;
- To provide for the punishment of counterfeiting the securities and current coin of the United States;
- To establish post offices and post roads;
- To promote the progress of science and useful arts, by securing for limited times to authors and inventors the exclusive right to their respective writings and discoveries;
- To constitute tribunals inferior to the Supreme Court;
- To define and punish piracies and felonies committed on the high seas, and offenses against the laws of nations;
- To declare war, grant letters of marque and reprisal, and make rules concerning captures on land and water;
- To raise and support armies, but no appropriation of money to that use shall be for a longer term than two years;
- To provide and maintain a navy;
- To make rules for the government and regulation of the land and naval forces;
- To provide for calling forth the militia to execute the laws of the Union, suppress insurrections and repel invasions;
- To provide for organizing, arming, and disciplining the militia, and for governing such part of them as may be employed in the service of the United States, reserving to the States respectively, the appointment of the officers, and the authority of training the militia according to the discipline prescribed by Congress;
- To exercise exclusive legislation in all cases whatsoever, over such district (not exceeding ten miles square) as may, by cession of particular States, and the acceptance of Congress, become the seat of government of the United States, and to exercise like authority over all places purchased by the consent of the legislature of the State in which the same shall be, for the erection of forts, magazines, arsenals, dockyards, and other needful buildings; and

To make all laws which shall be necessary and proper for carrying into execution the foregoing powers, and all other powers vested by this Constitution in the Government of the United States, or in any department or officer thereof.

SECTION 9. The migration or importation of such persons as any of the States now existing shall think proper to admit, shall not be prohibited by the Congress prior to the year one thousand eight hundred and eight, but a tax or duty may be imposed on such importation, not exceeding ten dollars for each person.

The privilege of the writ of habeas corpus shall not be suspended, unless when in cases of rebellion or invasion the public safety may require it.

No bill of attainder or ex post facto law shall be passed.

No capitation, or other direct tax shall be laid, unless in proportion to the census or enumeration hereinbefore directed to be taken.

No tax or duty shall be laid on articles exported from any State.

No preference shall be given by any regulation of commerce or revenue to the ports of one State over those of another; nor shall vessels bound to, or from one State, be obliged to enter, clear or pay duties in another.

No money shall be drawn from the treasury, but in consequence of appropriations made by law: and a regular statement and account of the receipts and expenditures of all public money shall be published from time to time.

No title of nobility shall be granted by the United States; and no person holding an office of profit or trust under them, shall, without the consent of the Congress, accept of any present, emolument, office or title of any kind whatever, from any king, prince or foreign State.

SECTION 10. No State shall enter into any treaty, alliance or confederation; grant letters of marque and reprisal; coin money; emit bills of credit; make anything but gold and silver coin a tender in payment of debts; pass any bill of attainder; ex post facto law, or law impairing the obligation of contracts, or grant any title of nobility.

No state shall without the consent of the Congress, lay any imposts or duties on imports or exports, except what may be absolutely necessary for executing its inspection laws; and the net produce of all duties and imposts, laid by any State on imports or exports, shall be for the use of the Treasury of the United States; and all such laws shall be subject to the revision and control of the Congress.

No state shall, without the consent of Congress, lay any duty of tonnage, keep troops or ships of war in time of peace, enter into any agreement or compact with another State, or with a foreign power, or engage in war, unless actually invaded, or in such imminent danger as will not admit of delay.

## ARTICLE II.

SECTION 1. The executive power shall be vested in a President of the United States of America. He shall hold his office during the term of four years, and together with the Vice-President, chosen for the same term, be elected as follows:

Each state shall appoint, in such manner as the legislature thereof may direct a number of electors, equal to the whole number of Senators and Representatives to which the State may be entitled in the congress; but no Senator or Representative, or person holding an office of trust or profit under the United States shall be appointed an elector.

The electors shall meet in their respective States, and vote by ballot for two persons, of whom one at least shall not be an inhabitant of the same State with themselves. And they shall make a list of all the persons voted for, and of the number of votes for each; which list they shall sign and certify, and transmit, sealed, to the seat of government of the United States, directed to the President of the Senate. The President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates, and the votes shall then be counted. The person having the greatest number of votes shall be the President, if such number be a majority of the whole number of electors appointed; and if there be more than one who have such a majority, and have an equal number of votes, then the House of Representatives shall immediately choose by ballot one of them for President; and if no person have a majority, then from the five highest on the list the said House shall in like manner choose the President. But in choosing the President, the votes shall be taken by States; the representation from each State having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the States, and a majority of all the States shall be necessary to a choice. In every case, after the choice of the President, the person having the greatest number of votes of the electors, shall be the Vice-President. But if there should remain two or more who have equal votes, the Senate shall choose from them by ballot the Vice-President.

The Congress may determine the time of choosing the electors, and the day on which they shall give their votes; which day shall be the same throughout the United States.

No person except a natural-born citizen, or a citizen of the United States, at the time of the adoption of this Constitution, shall be eligible to the office of President; neither shall any person be eligible to that office, who shall not have attained to the age of thirty-five years, and been fourteen years a resident within the United States.

In case of the removal of the President from office, or of his death, resignation, or inability to discharge the powers and duties of the said office, the same shall devolve on the Vice-President, and the Congress may by law provide for the case of removal, death, resignation or inability both of the President and Vice-President, declaring what officer shall then act as President, and such officer shall act accordingly, until the disability be removed, or a President shall be elected.

The President shall, at stated times, receive for his services a compensation which shall be neither increased nor diminished during the period for which he shall have been elected, and he shall not receive within that period any other emolument from the United States, or any of them.

Before he enters on the execution of his office, he shall take the following oath or affirmation:

"I do solemnly swear (or affirm) that I will faithfully execute the office of President of the United States, and will, to the best of my ability, preserve, protect, and defend the constitution of the United States."

SECTION 2. The President shall be commander-in-chief of the army and navy of the United States, and of the militia of the several States, when called into the actual service of the United States; he may require the opinion, in writing, of the principal officer in each of the executive departments, upon any subject relating to the duties of their respective offices, and he shall have power to grant reprieves and pardons for offenses against the United States, except in cases of impeachment.

He shall have power, by and with the advice and consent of the Senate, to make treaties, provided two-thirds of the Senators present concur; and he shall nominate, and by and with the advice and consent of the Senate, shall appoint ambassadors, other public ministers and consuls, judges of the Supreme Court, and all other officers of the United States whose appointments are not herein otherwise provided for and which shall be established by law; but the Congress may by law vest the appointment of such inferior officers as they think proper, in the President alone, in the courts of law or in the heads of departments.

The President shall have power to fill up all vacancies that may happen during the recess of the Senate, by granting commissions which shall expire at the end of their next session.

SECTION 3. He shall from time to time give to the Congress such information of the state of the Union, and recommend to their consideration measures as he shall judge necessary and expedient; he may on extraordinary occasions convene both Houses, or either of them, and in case of disagreement between them, with respect to the time of adjournment, he may adjourn them to such time as he shall think proper; he shall receive ambassadors and other public ministers; he shall take care that the laws be faithfully executed; and shall commission all of the officers of the United States.

SECTION 4. The President, Vice-President, and all civil officers of the United States, shall be removed from office on impeachment for, and conviction of treason, bribery or other high crimes and misdemeanors.

### ARTICLE III.

SECTION 1. The judicial power of the United States shall be vested in one Supreme Court, and in such inferior courts as the Congress may from time to time ordain and establish. The judges, both of the supreme and inferior courts, shall hold their offices during good behavior, and shall at stated times receive for

their services a compensation which shall not be diminished during their continuance in office.

SECTION 2. The judicial power shall extend to all cases, in law and equity, arising under this Constitution, the laws of the United States, and treaties made or which shall be made, under their authority; to all cases affecting ambassadors, other public ministers and consuls; to all cases of admiralty and maritime jurisdiction; to controversies to which the United States shall be a party; to controversies between two or more States; between a State and citizens of another State; between citizens of different States; between citizens of the same State claiming lands under grants of different States, and between a State or the citizens thereof, and foreign States, citizens or subjects.

In all cases affecting ambassadors, other public ministers and consuls, and those in which a State shall be a party, the Supreme Court shall have original jurisdiction. In all the other cases before mentioned, the Supreme Court shall have appellate jurisdiction, both as to law and fact; with such exceptions, and under such regulations as the Congress shall make.

The trial of all crimes, except in cases of impeachment, shall be by jury; and such trial shall be held in the State where the said crime shall have been committed; but when not committed within any State, the trial shall be at such place or places as the Congress may by law have directed.

SECTION 3. Treason against the United States shall consist only in levying war against them, or in adhering to their enemies, giving them aid and comfort. No person shall be convicted of treason unless on the testimony of two witnesses to the same overt act, or on confession in open court.

The Congress shall have power to declare the punishment of treason, but no attainder of treason shall work corruption of blood or forfeiture except during the life of the person attainted.

#### ARTICLE IV.

SECTION 1. Full faith and credit shall be given in each State to the public acts, records, and judicial proceedings of every other State. And the Congress may by general laws prescribe the manner in which such acts, records and proceedings shall be proved, and the effect thereof.

SECTION 2. The citizens of each State shall be entitled to all privileges and immunities of citizens in the several States.

A person charged in any State with treason, felony, or other crime, who shall flee from justice and be found in another State, shall, on demand of the executive authority of the State from which he fled, be delivered up, to be removed to the State having jurisdiction of the crime.

No person held to service or labor in one State, under the laws thereof, escaping into another, shall, in consequence of any law or regulation therein, be discharged from such service or labor, but shall be delivered up on claim of the party to whom such service or labor may be due.

SECTION 3. New States may be admitted by the Congress into this Union; but no new State shall be formed or erected within the jurisdiction of any other State; nor any State be formed by the junction of two or more States, or part of States, without the consent of the legislature of the States concerned as well as of the Congress.

The Congress shall have power to dispose of and make all needful rules and regulations respecting the territory or other property belonging to the United States; and nothing in this Constitution shall be so construed as to prejudice any claims of the United States, or of any particular State.

SECTION 4. The United States shall guarantee to every State in this Union a republican form of government, and shall protect each of them against invasion, and on application of the legislature, or of the executive (when the legislature cannot be convened), against domestic violence.

#### ARTICLE V.

The Congress, whenever two-thirds of both houses shall deem it necessary, shall propose amendments to this Constitution, or, on the application of the legis-

lature of two-thirds of the several States, shall call a convention for proposing amendments, which in either case, shall be valid to all intents and purposes, as part of this Constitution, when ratified by the legislatures of three-fourths of the several States, or by conventions in three-fourths thereof, as the one or the other mode of ratification may be proposed by the Congress; provided that no amendment which may be made prior to the year one thousand eight hundred and eight, shall in any manner effect the first and fourth classes in the ninth section of the first article; and that no State, without its consent, shall be deprived of its equal suffrage in the Senate.

ARTICLE VI.

All debts contracted and engagements entered into, before the adoption of this Constitution, shall be as valid against the United States under this Constitution as under the Confederation.

This Constitution, and the laws of the United States which shall be made in pursuance thereof, and all treaties made, or which shall be made, under the authority of the United States, shall be the supreme law of the land; and the judges of every State shall be bound thereby, anything in the Constitution or laws of any State to the contrary notwithstanding.

The Senators and Representatives before mentioned, and the members of the several State legislatures, and all executive and judicial officers, both of the United States and of the several States, shall be bound by oath or affirmation, to support this Constitution; but no religious test shall ever be required as a qualification to any office or public trust under the United States.

ARTICLE VII.

The ratification of the conventions of nine States shall be sufficient for the establishment of this Constitution between the States so ratifying the same.

Done in convention by the unanimous consent of the States present, the seventeenth day of September, in the year of our Lord one thousand seven hundred and eighty-seven, and of the Independence of the United States of America the twelfth. In witness whereof we have hereunto subscribed our names.

## AMENDMENTS.

[The first ten amendments were proposed at the first session of the first Congress of the United States, which was begun and held at the city of New York, on the 4th, of March, 1789, and were adopted by the requisite number of States.—I vol. Laws of U. S., p. 72.]

[The preamble and resolution following, preceded the original proposition of the amendments, and, as they have been supposed by a high equity judge (8 Wendell's reports, p. 100) to have an important bearing on the construction of those amendments, they are here inserted. They will be found in the journals of the first session of the first Congress.]

CONGRESS OF THE UNITED STATES, begun and held at the city of New York, on Wednesday, the 4th of March, 1789. The conventions of a number of the States having at the time of their adopting the Constitution, expressed a desire, in order to prevent misconstruction or abuse of its powers, that further declaratory and restrictive clauses should be added; and as extending the ground of public confidence in the government, will best insure the beneficent ends of its institution,—

*Resolved by the Senate and House of Representatives of the United States of America, in Congress assembled, two-thirds of both houses concurring, That the following articles be proposed to the legislatures of the several States, as amendments to the Constitution of the United States, all or any of which articles, when ratified by three-fourths of said legislatures, to be valid to all intents and purposes as part of said Constitution, namely:*

## ARTICLE I.

Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the government for a redress of grievances.

## ARTICLE II.

A well regulated militia, being necessary to the security of a free State, the right of the people to keep and bear arms shall not be infringed.

## ARTICLE III.

## ARTICLE IV.

## ARTICLE V.

No person shall be held to answer for a capital, or otherwise infamous crime, unless on a presentment or indictment of a grand jury, except in cases arising in the land or naval forces, or in the militia, when in actual service in time of war or public danger; nor shall any person be subject for the offense to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use, without just compensation.

## ARTICLE VI.

In all criminal prosecutions the accused shall enjoy the right to a speedy and public trial, by an impartial jury of the state and district wherein the crime shall have been committed, which district shall have been previously ascertained

by law, and to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the assistance of counsel for his defense.

#### ARTICLE VII.

In suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved, and no fact tried by a jury shall be otherwise re-examined in any court of the United States, than according to rules of the common law.

The President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates, and the vote shall then be counted; the person having the greatest number of votes for President shall be the President, if such number be a majority of the whole number of electors appointed; and if no person have such majority, then from the persons having the highest numbers, not exceeding three on the list of those voted for as President, the House of Representatives shall choose immediately, by ballot, the President. # HISTORICAL OUTLINE OF THE ADMISSION OF WISCONSIN TO THE UNION.

[By REUBEN G. THWAITES, Superintendent of State Historical Society of Wisconsin.]

Previous to the fall of New France (1763), what is now Wisconsin was held by the French, who had several military posts within its borders—the chief among them, at Green Bay and Chequamegon. Upon the assumption of British control, the country northwest of the River Ohio (including the present Wisconsin) was made a part of the Province of Quebec; but by the treaty of peace consequent upon the successful issue of the Revolution (1783), the country became a part of the United States. There were, at first, claims by tide-water States to some of the land in the then Northwest, but eventually these were surrendered, and the district became national domain. By the Ordinance of 1787, the trans-Ohio country was erected into the Northwest Territory; the ordinance provided for the ultimate establishment therefrom of five states. The story of how Ohio, Michigan, Indiana, and Illinois were in due course of time detached, will be found set forth in detail in the article on "The Boundaries of Wisconsin," in *Wisconsin Historical Collections*, Vol. xi.

The country west of Lake Michigan and north of the Illinois line, became in 1818 a part of Michigan Territory, and was organized into Brown and Crawford counties, whose officers exercised civil jurisdiction. Congress, in 1836, erected Wisconsin Territory—the name being derived from its principal river. It is an Indian name, the exact meaning of which is unknown; popular writers are fond of telling us that it signifies "gathering of the waters," or "meeting of the waters"—but there is no warrant for this. The earliest-known French form of the word, is "Misconsing," which gradually became crystallized into "Ouisconsin." When the English language became dominant, it was necessary to change the spelling in order to preserve the sound; it thus, at first, became "Wiskonsan," or "Wiskonsin," but finally, by official action, "Wisconsin." The "k" was, however, rather strenuously insisted on by Governor Doty and many newspaper editors, in the days of Territory.

*Preliminary Agitation.*—Some of the people of Wisconsin were not content with a Territorial government. The Territory was only two years old, when a bill was introduced in Congress for a State government, but the attempt proved abortive. In 1831, Governor Doty, the leader in the movement, had the question put to popular vote within the Territory, 92 voting for, and 499 against it; in 1832, there was still another vote—ayes 619, nays 1,821; in 1834, a third attempt was defeated in the Territorial council; and in 1845, still another met defeat in the assembly.

At last, after ten years of Territorial existence, popular sentiment had been educated to a general desire for statehood. Accordingly, Morgan L. Martin, of Green Bay, then the Territorial representative in Congress, gave notice in the House of Representatives (January 9, 1846), "of a motion for leave to introduce a bill to enable the people of Wisconsin to form a constitution and State government, and for the admission of such State into the Union." He followed this

(January 13) by the introduction of a bill to that effect; the measure was approved by President Polk, August 10.

Meanwhile, in January and February, 1846, the council and house of Wisconsin Territory had favorably voted on the proposition, and discussed some of the principal features of the proposed State constitution. On April 17, the question of statehood was passed upon by the people of the Territory, the returns this time showing 12,334 votes for, and 2,487 against. August 1, Governor Dodge issued a proclamation calling a convention for the drafting of a constitution, and apportioning 124 delegates to the various counties; these delegates were elected September 7.

*First Constitutional Convention.*—The convention was in session in the Territorial capitol at Madison, between October and December 16, 1846. Don A. J. Upham was president, and Lafayette Kellogg, secretary. The membership was as follows:

The convention, as above constituted, was an able body of thoroughly representative men, of whom 42 were natives of New York State, 29 of New England, and 12 of foreign birth; 69 of them were farmers, and 26 lawyers. The oldest man was 65 years, and the youngest 23. The speeches, as recorded in the newspapers of the day, were of an exceptionally high order of excellence. The constitution which these men framed was submitted to popular vote, April 5, 1847, the result being 14,119 ayes and 20,231 nays. The contest over the document had been of an exciting nature; the defeat was owing to differences of opinion upon the article relating to the rights of married women, the article on exemptions, and those on banks, the elective judiciary, and the numerical size of the legislature.

*Second Constitutional Convention.* As soon as practicable, Governor Dodge (Sept. 27, 1847) called a special session of the legislature, which convened at Madison October 18, and made provisions for a second constitutional convention, with 69 members. Most of the members of the first convention declined reelection to the second; six alone were returned—S. W. Beall, Warren Chase, Stoddard Judd, Theodore Prentiss, Garret M. Fitzgerald, and Frederick S. Lovell. The membership was as follows, Morgan L. Martin being president, and Thomas McHugh secretary.

*Brown*—Morgan L. Martin

*Chippewa and Crawford*—Daniel G. Fenton.

*Waukesha*—Peter D. Gifford, George Seagel, Squire S. Case, Alfred L. Castleman, Emulous P. Cotton, Eleazer Root.

The second convention, which, on the whole, was thought to represent a more conservative element than the first, was in session at Madison from December 15, 1847, to February 1, 1848. The nativity list shows that 25 were born in New York State, 24 in New England, and only 7 in foreign lands. The oldest man was 65, and the youngest 25, with an average age of about 37.

<sup>1</sup> This member never took his seat.

The members of both conventions were men of high standing in their respective communities; and later, many of them held prominent positions in the service of the nation and the State.

*The State Admitted.*—As soon as possible after the close of the convention, notice was given in Congress (February 21, 1848) by our representative, John H. Tweedy, of his intention to introduce another bill for the admission of Wisconsin into the Union. March 13, the people of the Territory voted on the new constitution, and it was adopted by 16,799 ayes and 6,384 nays. March 16, in a special message, President Polk submitted to Congress the Wisconsin constitution, with accompanying documents. March 20, Mr. Tweedy introduced his promised bill, which on April 13 was favorably reported from the committee on territories, read first and second times, and referred to the committee of the whole. It was made special order for May 9, and "each day thereafter until disposed;" and on the 11th was engrossed, read a third time, and passed. The Senate at once took action; May 12, the bill was there read first and second times and referred to committee on territories; a week later (May 19), the bill was concurred in, and ten days later (May 29) it was approved by the President.

*The State Begins Business.*—Wisconsin was thus admitted to the Union of States, by the Act of Congress approved May 29, 1848.

Upon the day of the general vote on the new constitution (March 13), the Territorial legislature adjourned *sine die*, after making full arrangements for the new government which was to succeed it; for it was well understood what the popular verdict would be.

The general election for the first State officers and the members of the first State legislature was held May 8. Upon the 7th of June, Governor Nelson Dewey and his fellow officials were sworn into office, and the legislature opened its first session. Thus the State of Wisconsin began business.

*Why the "Badger" State?*—In the early lead-mining days in southwestern Wisconsin, the miners from Southern Illinois and farther south returned home every winter and came back to the diggings in the spring, thus imitating the migrations of the fish popularly called the "sucker," in the Rock, Illinois, and other south-flowing rivers of the region. For this reason, the south-winterers were jocosely called "Suckers," and Illinois became known as "The Sucker State." On the other hand, lead-miners from the Eastern States were unable to return home every winter, and at first lived in rude dug-outs—burrowing into the hillsides after the fashion of the badger (*Taxidea americana*). These men were the first permanent settlers in the mines north of the Illinois line; and thus Wisconsin, in later days, became dubbed "The Badger State." Contrary to general belief, the badger itself is not frequently found in Wisconsin.

## RESOLUTIONS.

Resolved.—That the Congress of the United [sic] be and is hereby requested, upon the application of Wisconsin for admission into the Union, so to alter the provisions of an act of Congress entitled “an act to grant a quantity of land to the Territory of Wisconsin, for the purpose of aiding in opening a canal to connect the waters of Lake Michigan with those of Rock river,” approved June eighteenth, eighteen hundred and thirty-eight, and so to alter the terms and conditions of the grant made therein, that the odd-numbered sections thereby granted and remaining unsold may be held and disposed of by the State of Wisconsin as part of the five hundred thousand acres of land to which said State is entitled by the provisions of an act of Congress entitled “an act to appropriate the proceeds of the sales of the public lands and to grant pre-emption rights,” approved the fourth day of September, eighteen hundred and forty-one; and further, that the even-numbered sections reserved by Congress, may be offered for sale by the United States for the same minimum price and subject to the same rights of pre-emption as other public lands of the United States.

Resolved.—That Congress be further requested to pass an act whereby the excess price over and above one dollar and twenty-five cents per acre, which may have been paid by the purchasers of said even-numbered sections which shall have been sold by the United States, be refunded to the present owners thereof, or they be allowed to enter any of the public lands of the United States to an amount equal in value to the excess so paid.

Resolved.—That in case the said odd-numbered sections shall be ceded to the State as aforesaid, the same shall be sold by the State in the same manner as other school lands, provided that the same rights of pre-emption as are now granted by the laws of the United States, shall be secured to persons who may be actually settled upon such lands at the time of the adoption of this Constitution; and provided further, that the excess price, over and above one dollar and twenty-five cents per acre, absolutely or conditionally contracted to be paid by the purchasers of any part of said sections which shall have been sold by the Territory of Wisconsin, shall be remitted to such purchasers, their representatives or assigns.

Resolved.—That Congress be requested, upon the application of Wisconsin for admission into the Union, to pass an act whereby the grant of five hundred thousand acres of land, to which the State of Wisconsin is entitled by the provisions of an Act of Congress entitled “an act to appropriate the proceeds of the sales of the public lands, and to grant pre-emption rights,” approved the fourth day of September, eighteen hundred and forty-one, and also the five per centum of the net proceeds . . . . . of the public lands lying within the State, to which it shall become entitled on its admission into the Union, by the provisions of an Act of Congress entitled “an act to enable the people of Wisconsin Territory to form a Constitution and State government, and for the admission of such State into the Union,” approved the sixth day of August, eighteen hundred and forty-six, shall be granted to the State of Wisconsin for the use of schools, instead of the purposes mentioned in the said acts of Congress respectively.

Resolved.—That the Congress of the United States be and hereby is requested, upon the admission of this State into the Union, so to alter the provisions of the Act of Congress entitled “an act to grant a certain quantity of land to aid in the improvement of the Fox and Wisconsin rivers, and to connect the same by a canal in the Territory of Wisconsin,” that the price of the lands reserved to the United States, shall be reduced to the minimum price of the public lands.

Resolved.—That the Legislature of this State shall make provision by law for the sale of the lands granted to the State in aid of said improvements, subject to the same rights of pre-emption to the settlers thereon, as are now allowed by law to settlers on the public lands.

Resolved.—That the foregoing resolutions be appended to, and signed with the Constitution of Wisconsin, and submitted therewith to the people of this Territory, and to the Congress of the United States.

We, the undersigned, members of the Convention to form a Constitution for the State of Wisconsin, to be submitted to the people thereof for their ratification or rejection do hereby certify that the foregoing is the Constitution adopted by the Convention.

In testimony whereof, we have hereunto set our hands, at Madison, the first day of February A. D. eighteen hundred and forty-eight.

<sup>1</sup> Previous to the election of 1804, each elector voted for two candidates for President: the one receiving the highest number of votes, if a majority, was declared elected President; and the next highest Vice President.

<sup>2</sup> Three states out of thirteen did not vote: New York, which had not passed an electoral law, and North Carolina and Rhode Island, which had not adopted the constitution.

<sup>3</sup> There having been a tie vote, the choice devolved upon the House of Representatives. A choice was made upon the 36th ballot, which was as follows: Jefferson—Georgia, Kentucky, Maryland, New Jersey, New York, North Carolina, Pennsylvania, Tennessee, Vermont, and Virginia—10 states; Burr—Connecticut, Massachusetts, New Hampshire and Rhode Island—4 states; Blank—Delaware and South Carolina—2 states.

STATE AND EDUCATIONAL INSTITUTIONS.  
GRAND ARMY DATA.

## STATE INSTITUTIONS.

---

Wisconsin, with an area of 56,000 square miles of forest and prairie land, became an organized territory in 1836, with a population of 11,000. It was admitted as a state May 29, 1848, with a population approximating 250,000. Her growth since her admission into the Union, has been steady and rapid. The lead and zinc mines in the southwest part of the state, attracted a considerable population of miners while Wisconsin was a territory. The surface mines were quite generally worked out in 1863, or '64. Until recently mining in that section has been carried on by but few individuals, and in no regular way. Recently, however, several very valuable mines have been opened and owing to the general disappearance of the water that in the earlier days proved a serious obstacle, lower leads have been uncovered and large deposits of zinc ore, as well as galena, are now being mined. The development of iron mining in the northern part of the state has brought a large amount of additional wealth. The pine forests have generally disappeared, but in their place are today found large sections of valuable agricultural land, and perhaps no state in the Union at the present time offers greater inducements to settlers than does northern and central Wisconsin.

In the matter of state institutions for the improvement of the condition of those physically and mentally unfortunate, and for reformatory purposes Wisconsin stands second to no state in the Union, population and resources considered. These institutions are under the general direction of a state board of control, comprised of able men and women who have within the last few years, succeeded in bringing about a system in the general management and conduct of these institutions that has attracted the attention of nearly every other state in the Union. In the matter of strictly educational institutions the state has made wonderful advancement. There are today 7,769 public school buildings, 292 free high schools, and 12 independent high schools; 243 of these are on the accredited list of the state university—that is, pupils who graduated from these schools are admitted to the university upon the reputation of the school, and without any further examination—eight state normal schools, a score or more of colleges, seminaries, and academies, a state university among the foremost in the entire country in domination of education in the higher branches, and an agricultural college giving an exceptionally attractive and valuable four year course in the science of agriculture. For several years past short courses in agriculture, dairying, horticulture, and domestic science, have been a regular part of the university work. The students in these schools are almost without exception boys directly from the farm, and vitally interested in gaining agricultural knowledge. The course extends through two years of fourteen weeks each year. A full two-year course has just been added to agricultural college work. It may quite properly be called "The Practical Farmers' Course."

## THE STATE CAPITOL.

---

(By REUBEN GOLD THWAITES, Superintendent of State Historical Society of Wisconsin.)

Wisconsin Territory, previously a part of Michigan Territory, was organized at Mineral Point, July 4, 1836. The first legislature met at Old Belmont (now Leslie, Lafayette County) October 25, in a two-story building for which the timber had been brought from Pittsburg. The structure is now used as a cattle barn. A long struggle took place over the location of the permanent seat of government. There were seventeen applicants (Belleville, Belmont, Cassville, Dubuque, Fond du Lac, Green Bay, Helena, Koshkonong, Madison, Milwaukee, Mineral Point, Peru, Portage, Platteville, Racine, Wisconsinapolis, and Wisconsin City.) Several of these existed only on maps issued by real estate "boomers." Madison, which was one of this class, was finally chosen through the influence of James Duane Doty, who had been federal circuit judge for that portion of Michigan Territory lying west of Lake Michigan. Just previous to the contest, Doty, together with Stevens T. Mason, governor of Michigan Territory, purchased from the United States government about 1,000 acres in sections 13, 14, 23, and 24, in township 7, range 9 east. Capitol Park, which is upon the common corners of these sections, was formally deeded to the Territory January 6, 1839, by the owners, in a document which is still preserved in the State archives. The prospective town received its name in honor of the fourth president of the United States. The first dwelling, a log boarding house for the accomodation of workmen on the proposed capitol, was built in Madison in the spring of 1837. The following June work was commenced on a capitol building whose corner stone was laid with appropriate ceremonies on July 4.

The legislature met for the first time at Madison, November 26, 1838. The capitol was not then in a suitable condition for the sessions, which were thereupon held in the basement of the American House, where Gov. Henry Dodge delivered his first annual message. Here the legislature met and adjourned from day to day, until temporary arrangements could be made for the reception of members in the Assembly Hall. During 1836 and 1837, the federal government appropriated \$40,000 for the Capitol, Dane county \$4,000, and the Territorial legislature about \$16,000, thus making the cost of the old capitol \$60,000. The building was a substantial structure, which in architectural design and convenience of arrangements compared favorably with contemporary capitols of adjacent and older states.

After twenty years, this capitol proved inadequate to the growing wants of the State, and the legislature of 1857 provided for its enlargement. The commissioners of school and university lands were directed to sell the ten

sections of land appropriated by congress "for the completion of public buildings," and to apply the proceeds toward enlarging and improving the capitol. The State also appropriated \$30,000 for the same object, and \$50,000 was given by the city of Madison. The work began in the fall of 1857, and continued from year to year until 1869, when the dome (the most satisfactory portion of the structure) was finally completed.

The legislature of 1882 appropriated \$200,000 for the construction of two transverse wings, on the north and south sides, of the original building. These wings were to provide additional space for the State Historical Society, the Supreme Court, the State Library, and the increasing staffs of the State officers. November 8, 1883, the south wing fell while in process of construction and eight workmen were killed. The total appropriations for these enlargements and for the improvement of the park, up to 1904, aggregated about \$900,000.

Early in the morning of February 27, 1904, a large part of the interior of the capitol was, with its contents, destroyed by fire; the central portion and the west wing particularly suffered. The department receiving the greatest injury was the Wisconsin Free Library Commission, which lost a considerable library of expensive books, numerous traveling libraries, and all of its records.

At the time of the fire, a building commission, appointed by the legislature of 1903, was taking into consideration the construction of a new and larger Capitol. After the disaster, the matter was taken up with vigor. Plans for a new building were submitted to the legislature of 1905, which somewhat reconstructed the composition of the commission of 1903, and extended its powers and duties. A further act of 1907 restricted the cost of the new capitol to \$6,000,000, including a heating plant and warehouse located about a half mile to the east of the park. This latter building and the capitol are connected by tunnel. The new capitol was designed by George W. Post & Son of New York City, and is now being built in sections—the west and east wings have been completed, and the south wing and central rotunda are well under way. When completed, the capitol will occupy the site of the old structure, but will be much larger.

The capitol park is seven hundred and ninety-two feet square, cornering on the cardinal points of the compass. It contains fourteen and four-tenths acres, and is handsomely situated on an elevation commanding a view of Lakes Monona and Mendota and the surrounding Four Lakes country. The capitol stands diagonally in the center of this square, its wings extending toward the corners. Owing to errors of survey, previous buildings have not been set quite true, either as to the centre of the park or as to the compass; but this fault has been corrected in the one now under construction. An extension of the capitol park is much to be desired.

## INDEPENDENT HIGH SCHOOLS.

There are 14 schools of this class; 4 in Milwaukee, 2 in Manitowoc, 2 in Superior, 1 each in LaCrosse, Madison, Menomonie, Oshkosh and Racine. These schools have strong courses of study and strong teaching forces. The average salary to principals for the year ending June 30, 1911, is \$2,192.30. The number of teachers employed, 306, of which 105 were men and 201 women. The number of pupils enrolled 7104, the average daily attendance for each school was 473. The schools were in session on an average 194 days. The largest number enrolled in any school was 970, with an average daily attendance of 961. The smallest number enrolled in any one school was 115, with an average daily attendance of 98. The number of graduates for 1910 was 343 boys, 548 girls. There were 311 non-resident pupils. The average rate of tuition was \$3.97 per month, and the whole amount received for tuition \$9,518.67. The average yearly salary of the assistants \$971.07. The total amount paid for teachers' wages \$317,632.96. There were 2704 pupils enrolled in the first or freshman year, 1911 in the second year, 1281 in the third, and 936 in the fourth or senior year. Instruction in manual training and domestic science is given in connection with these schools.

## DISTRICT FREE HIGH SCHOOLS.

The legislature of 1875 provided for the establishment of district free high schools in Wisconsin. A year or so later, town free high schools were provided for. A number of cities in the state at that time had secured graded schools of several departments and in a number of cities there were private schools, commonly known as academies. The inducements offered for the organization of free high schools led to their immediate adoption in many places. The number in operation at the present time is 292, of which 236 are in counties under the jurisdiction of county superintendents and 66 are in cities and villages. The number of town and union free high schools is 38. The statute providing for union free high schools went into effect 1909. It differs somewhat in the form of government from the plan adopted for town free high schools and permits any territory containing thirty-six square miles, whether all in one town or not, to be organized as a union free high school district. The amount of state aid to the schools of the latter class is one-half of the amount expended for instruction, limited, however, to the sum of \$900 in cases where there are two teachers in the high school, \$1,200 where there are three employed and not to exceed \$1,500 in any high school each year. The teachers in all free high schools must hold some form of a state certificate higher in grade than what is known as the "county superintendent's certificate" in order to be legally qualified for the different positions. The number of teachers employed for the year ending June 30, 1910, was, men 471, women, 860. The number of pupils enrolled 27,714. There were 3,000 more boys than girls. The average salary of the principals was \$1,175.66; the average salary of the assistants \$590, and the total amount \$958,543.40. The number of pupils studying English branches only 16,883; the number studying German in addition 7,170; and Latin, 4,513. The average age of pupils on entering the high school is 14.5 years. The number of graduates for the year ending June 30, 1910, was 10,662 boys, and 2,483 girls. The number of non-resident pupils attending 8,014. The total amount received by the high school district because of the tuition paid by the towns from which these non-resident pupils came was \$132,006.73. About 25 per cent of the graduates took up teaching immediately after leaving the high school. The number of pupils enrolled in the freshman or first year 9,588; in the second or sophomore year 6,913; in the third year 5,503; in the fourth or senior year 4,354. From this it will be seen that about one half of the persons entering the high school completed the four years' work.

The statute provides that high schools may establish manual training, domestic science and agricultural departments. The provision for agriculture is an act of the legislature of 1911. The number of high schools receiving state aid for manual training and domestic science for the year ending June 30, 1910, was 29. The legislature of 1911 provides that a high school giving manual training course in the high school only may receive \$250 each year in addition to the regular high school apportionment. If the course is offered to the three upper grades below the high school \$350 may be apportioned. What is true of manual training is also true with reference to domestic science and agricultural departments. It is now possible for a high school by teaching these three courses to receive \$1,050 in addition to the usual state aid. The amount available for apportionment to the district high schools at the present time is \$100,000, and the amount to the town and union free high schools is \$50,000. All but 80 of these high schools are accredited to the state university.

### STATE GRADED SCHOOLS.

Chapter 439, laws of 1901, provides for a classification of graded schools in this state into first and second classes. \$120,000 may be used annually as special aid for schools of this class complying with the general provisions of the law. A state graded school of the first class must have at least three separate departments, must be maintained for at least nine months during the year, with an average daily attendance of not less than fifteen in each of the two departments in the case of a school of the second class, in at least three of the departments in schools of the first class. The principal of a school of the first class must have some form of a state certificate. One assistant may hold a third grade certificate providing such assistant has had at least one year of successful experience as a public school teacher in Wisconsin. One teacher may be qualified by a second grade certificate, and all other assistants must hold first grade certificates or certificates of a higher grade. The principal of a state graded school of the second class must hold at least a first grade county certificate and shall have had at least one year of successful experience as a teacher in the public schools or he may be legally qualified if he holds a second grade certificate and has had not less than two years successful experience as a teacher. The assistant in the second grade schools may be legally qualified under any grade of certificate but if the third grade only is held the holder must have at least one year of successful experience. The school buildings, grounds, and accessories must be free from unsanitary features and the equipment in the matter of seats, furniture and apparatus must be good, and sufficient to meet the demands and conveniences of the pupils enrolled. Two graded school inspectors appointed by the state superintendent are provided for by the statutes and it is the duty of these officers to visit these schools at least once each year for the purpose of advising with the teachers and members of the school board with reference to such conditions. They are also empowered to recommend such things in the way of equipment, etc., as may be deemed necessary to bring the school up to the required standard of equipment and efficiency and these recommendations must be complied with by the electors and officers. Refusal to do so may forfeit the right to share in the special aid of \$300 to which well conducted graded schools of the first class are entitled and \$200 to which properly conducted schools of the second class are entitled. There are 191 schools of the first class, employing more than 750 teachers, and 308 of the second class, employing 616 teachers. The enrollment in the first class schools 25,917, the average daily attendance 18,455. There were paid for teachers' wages, \$337,651.75; for all other purposes \$301,585.43. The enrollment in the second class schools was 19,153, the average daily attendance 12,617. The amount paid for teachers' wages \$212,957.58; for all other purposes \$139,449.68.

# GRAND ARMY OF THE REPUBLIC.

The objects of this order are (1) to keep green the memory of the events and associations of the Civil War; (2) to aid unfortunate comrades, and (3) to keep alive and active the spirit of patriotism. The first post was organized April 6, 1866, at Decatur, Ill. The first National Encampment was held November 20, 1866, at Indianapolis.

## THE WISCONSIN DEPARTMENT.

The Department of Wisconsin was organized June 7, 1866, and the first Wisconsin Post was chartered at Madison, June 10, 1866. This post, now known as Lucius Fairchild, No. 11, is still active and has 150 members. Post No. 4, of Berlin, was chartered Sept. 8, 1866, and has maintained ever since an unbroken organization. It is said to be the oldest Post in existence with an unbroken record. Post No. 10, Oshkosh, was chartered Aug. 1, 1866.

General James K. Proudfit was the leading spirit in the organization of the Grand Army of the Republic in Wisconsin and became the first Department Commander. He is now the oldest Past Department Commander living. The following is the list of all Department Commanders up to the present:

\* Deceased.

† Elected Commander-in-Chief.

The Department reached its largest membership in 1889, when it was 13,944. December 31, 1910, there were 217 Posts, with 6,478 members.

The legislature of 1901 established in the capitol a permanent G. A. R. memorial hall for the preservation of relics and books commemorative of the war, pictures of war scenes, and portraits of men and women who did good service in war times. This hall was to be maintained by the state. It was made the headquarters of the Department of Wisconsin and was well equipped by the state for that purpose. It was the finest department headquarters in the United States. When, Feb. 27, 1904, fire broke out in the capitol, this hall, with all it contained, was completely destroyed; but in the new capitol there

will be a larger room of this kind and much better equipped. H. W. Rood, Company E, 12th Wisconsin, is custodian of the Memorial Hall. At present the Department headquarters are in a hall rented by the state at 118 Monona Ave. Wisconsin is generous in her attitude toward the old soldiers.

At the last encampment, Green Bay, June 8-9, 1911, the following named officers were elected: Commander, H. J. Smith; senior vice-commander, J. W. Hinkley, Greer Bay; junior vice-commander, E. O. Kimberley, Janesville; medical director, Dr. H. R. Bird, Madison; chaplain Rev. W. R. Brown, Wau-paca; adjutant general, Frank H. Lyman, Kenosha; quartermaster general, F. A. Bird; chief of staff, H. J. Goddard, Chippewa Falls; chief mustering officer, C. N. Griffin, Whitewater; inspector, W. H. Starkweather, Milwaukee; patriotic instructor, H. W. Rood, Madison; judge advocate, F. S. Veeder, Mauston; chief of transportation, John W. Ganes, Ripon.

The next department encampment will be held at Antigo, the second Tuesday in June, 1912.

### LADIES OF THE GRAND ARMY OF THE REPUBLIC.

This society of loyal and patriotic women is said to have had its origin in Portland, Maine, in 1867, under the name of the Loyal Ladies' League. The first organized Department was that of New Jersey, 1881, with eight subordinate Leagues. Mrs. Carrie M. Burge, of Vineland, was the first Department President. The following were the stated objects of the order:

"To unite with loyalty, love for one another; to practice precepts of true fraternity of feeling toward all the sisters of our order, thus emulating the spirit that unites our fathers, husbands and brothers; to honor the memory of our fallen heroes; to perpetuate and keep forever sacred Memorial Day; to assist the Grand Army of the Republic in its high and holy mission—aid, encourage and sympathize with them in their noble work of charity; to extend needful aid to members in time of sickness and distress; to aid sick soldiers, sailors and marines, and do all in our power to alleviate suffering."

Eligibility to membership required an applicant to be of good moral character, and the mother or wife, sister or daughter of an honorably discharged soldier, sailor or marine who served in the Union Army during the Civil War of 1861-65. These requirements differed from those of the Woman's Relief Corps, which organization decided at its national convention in Denver, in 1883, to admit to membership any loyal woman of worthy character.

The department of Wisconsin was organized in 1893. There are 25 circles with 900 active members and 500 honorary. The names of the present department officers are as follows: President, Mrs. Ethel Irish, Fond du Lac; Senior Vice President, Mrs. Martha E. A. Merriam, Milwaukee; Junior Vice President, Mrs. Cynthia Botsford, Altoona; Secretary, Mrs. Sara Bishop, Fond du Lac; Treasurer, Miss Adelaide V. Bell, Milwaukee; Chaplain, Mrs. Anna Schauer, Green Bay; Counselor, Mrs. Jennie Hopkins, Milwaukee; Patriotic Instructor, Mrs. Sarah Reifentuhl, Milwaukee; Librarian, Mrs. Charlotte Stevens, Beloit; Inspector, Mrs. Ellen Pooler, Oshkosh; Corresponding Secretary, Mrs. Cora Carpenter, Eau Claire.

### WOMAN'S RELIEF CORPS.

In 1881 the Society received the official recognition of the G. A. R., and they then took the full title, "Woman's Relief Corps, Auxiliary to the Grand Army of the Republic." The first national gathering was at Denver, Col., July 25, 1883. It was there decided that all loyal women, whether of kin to soldiers of the war or not, should be eligible to membership. Those positively in favor of admitting only women of the families of soldiers withdrew and organized the "Ladies' Loyal League," now "Ladies of the Grand Army of the Republic."

The plan of organization is much like that of the G. A. R. Local societies are called corps; state associations, departments; and the annual meetings, conventions. Department and national conventions are held at the same times and places with encampments of the G. A. R.

The objects of the society are: "To specially aid and assist the Grand Army of the Republic and to perpetuate the memory of their heroic dead. To assist such union veterans as need our help and protection, and to extend needful aid to their widows and orphans. To find them homes and employment, and assure them of sympathy and friends. To cherish and emulate the deeds of our army nurses and of all loyal women who rendered loving service to their country in her hour of peril. To inculcate lessons of patriotism and love of country among our children, and in the communities in which we live. To maintain true allegiance to the United States of America. To discountenance whatever tends to weaken loyalty, and to encourage the spread of universal liberty and equal rights to all men."

Amount expended for the year ending June 30, 1910, \$149,305.88. Number of persons aided that year, 31,665.

The Department of Wisconsin was organized at La Crosse, June 26, 1884. Seven local corps were there represented, and, if the records are correct, there were eleven voting members present. The order has grown steadily since then, and now has 144 corps in Wisconsin, with 7,324 members.

The present department officers, July 1, 1911, are as follows:

President, Ada B. Cooper, Eau Claire; Senior Vice President, Mary Liebman, Green Bay; Junior Vice President, Grace E. Brown, Fort Atkinson; Treasurer, Alfreda McIntire, Waupaca; Chaplain, Henrietta Corbin, Marinette; Secretary, Ada M. Kasten, Eau Claire; Counselor, Emma E. Grinnell, Beloit; Inspector, Lizzie Williams, Edgerton; Instituting and installing officer, Etoile R. Cook, Ashland; Press correspondent, Cora E. Harris, Evansville; Patriotic Instructor, Mary L. Dailey, Milwaukee.

The next department convention for Wisconsin will be held at Antigo on the second Tuesday in June, 1912.

### THE SONS OF VETERANS.

One of the most active organizations auxiliary to the Grand Army of the Republic is The Sons of Veterans of the United States of America. The order was established November 12, 1881, at Pittsburg, Pennsylvania, by Major A. P. Davis, and it has grown rapidly. It is based upon the following:

Principles.—(1) A firm belief and trust in Almighty God, and a realization that under His beneficent guidance the free institutions of our land, consecrated by the services and blood of our fathers, have been preserved, and the integrity and life of the nation maintained.

(2) True allegiance to the government of the United States, based upon a respect for, and devotion and fidelity to, its constitution and laws, manifested by discountenancing anything that may tend to weaken loyalty, incite to insurrection, treason or rebellion, or in any way impair the efficiency and permanency of our national union.

Objects.—To keep green the memories of our fathers and their sacrifices for the maintenance of the Union; to aid the members of the Grand Army of the Republic in caring for disabled and helpless veterans; to extend aid and protection to their widows and orphans; to perpetuate the memory and history of their heroic dead, and maintain the proper observance of Memorial Day; to aid and assist worthy and needy members of our order; to inculcate patriotism and love of country, not alone among our members, but among all people of our land; and to spread and sustain the doctrine of equal rights, universal liberty and justice to all.

Membership.—Members must be at least eighteen years old, and the sons of deceased or honorably discharged Union soldiers. The sons of members of the order are eligible to membership on becoming twenty-one years of age.

The present officers, July 1, 1911, of the Wisconsin division are as follows:

Commander, J. E. Waldron, Eau Claire; Senior Vice-Commander, Otto C. Knabe, Sheboygan; Junior Vice-Commander, B. W. Rynders, Antigo; Secretary-Treasurer, Charles Hudson, Madison; Counselor, H. S. Siggelko, Madison; Chaplain, Rev. Ernest L. Benson, Madison; Inspector, George W. Palmer, Eau Claire; Patriotic Instructor, R. E. Browne, Racine; Sergeant-Major, E. A. Hickey, Sheboygan; Division Council, George E. Buckstaff, Oshkosh; George B. Fox, Plainfield, B. F. Hales, Hancock.

The first camp of the Division was organized at Waukesha in 1883, the first annual encampment was held in Oshkosh in 1884, and the first Division Commander was Dr. John Hinney, Clintonville.

Memorial University.—The Sons of Veterans have established at Mason City, Iowa, a Memorial University costing, so far, a quarter of a million dollars, and dedicated to the Grand Army of the Republic. It receives both men and women as students. It has several full courses of study, but emphasizes the value of American history—the development, growth and preservation of our free institutions. Instruction there is neither sectarian nor partisan, but is intensely patriotic. There are more than forty instructors and lecturers. In establishing this school the Sons of Veterans have given a worthy example of practical patriotism.

The annual encampments of the Sons of Veterans are held at the same time and place with those of the Grand Army of the Republic. The next division meeting will be held at Antigo, the Second Tuesday in June, 1912.

**STATE PENSION AGENCY.**

The state of Wisconsin has by law constituted the adjutant general—at present Charles R. Boardman—state agent for pensions. He will, upon application, supply free necessary blanks for applications and evidence in all classes of pensions; will give advice and all possible assistance in procuring evidence; will file copies of testimony and perform all the various offices of pension attorney for all soldiers or their heirs residing in Wisconsin free of charge, regardless of the branch of service or organization to which the applicant was attached.

Since this free state pension agency was established in 1889, 13,100 claims have been filed with the adjutant general, over 12,899 of which have been adjudicated and more than 80 per cent successfully prosecuted.

# OUTLINE HISTORY OF WISCONSIN.

(EDITED BY REUBEN GOLD THWAITES, SUPERINTENDENT OF STATE HISTORICAL SOCIETY OF WISCONSIN. COMPLETELY REVISED FOR BLUE BOOK FOR 1911.)

## I. Spanish Dominion—1512—1634

Because of early discoveries by her navigators and inland explorers Spain made a general but undefined claim to the greater part of North America, to which was given the name Florida. Within this vast territory, however, no Spaniards approached nearer Wisconsin than the coast of Texas and the lower reaches of the Mississippi. The kings of Spain who laid general claim to nebulous Wisconsin, were Ferdinand V, 1512-16; Charles I, 1516-56; Phillip II, 1556-98; Phillip III, 1598-1621; and Phillip IV, 1621-65.

## II. French Dominion—1634—1763

In 1604 French settlers established themselves in Nova Scotia, and in 1608 founded Quebec as the capital of New France. Penetrating the continent by way of the St. Lawrence and Ottawa rivers and the Great Lakes, they claimed our great inland water system on the ground of discovery by their fur-traders and missionaries. They did not, however, reach Wisconsin soil until 1634.

The French kings during this period were Louis XIII, 1610-43; Louis XIV, 1643-1715; and Louis XV, 1715-74. All white persons and nominally all Indians within our borders, were subjects of these monarchs.

The governors of New France were as follows: Samuel de Champlain, 1608-35; Marc Antoine de Brasdefer de Chasteaufort, *ad interim*, 1635-36; Charles Huault de Montmagny, 1636-48; Louis d'Ailleboust de Coulonge, 1648-51; Jean de Lauson, 1651-56; Charles de Lauson de Charny, *ad interim*, 1656-57; Louis d'Ailleboust de Coulonge, *ad interim*, 1657-58; Pierre de Voyer, vicomte d'Argenson, 1658-61; Pierre du Bois, baron d'Avauvour, 1661-63; Augustin de Saffray, chevalier de Mézy, 1663-65; Jacques le Neuf de la Pterrie, *ad interim*, 1665; Daniel de Rémy de Courcelles, 1665-72; Louis de Baude, comte de Frontenac, 1672-82; Antoine Lefebvre de la Barre, 1682-85; Jacques René de Brisay, marquis Denonville, 1685-89; Louis de Baude, comte de Frontenac, 1689-98; Louis Hector de Callières, 1698-1703; Philippe de Rigaud, marquis de Vaudreuil, 1703-25; Charles le Moyne, first baron de Longueuil, 1725-26; Charles de la Boische, marquis de Beauharnois, 1726-47; Michel Rolland Barrin, comte de la Galissonnière, 1747-49; Jacques Pierre de Taffanel, marquis de la Jonquière, 1749-52; Charles le Moyne, second baron de Longueuil, *ad interim*, 1752; Ange du Quesne, sieur de Menneville, 1752-55; Pierre Rigaud de Cavagnal, marquis de Vaudreuil, 1755-60.

**1634.**—The first governor of New France, Samuel de Champlain, was much interested in Western exploration. In 1634 he dispatched Jean Nicolet, an official interpreter, who had lived some time among the Huron Indians, to visit and report upon the Northwest. Proceeding by way of Ottawa River and Lakes Huron and Michigan, he landed on what is now Wisconsin soil, somewhere on

the shores of Green Bay. Clad in a gayly-figured silken robe, he advanced into a village of the Winnebago, and discharged pistols which he held in each hand. The Indians welcomed him as the god of lightning and thunder, and in his honor made a great feast, at which a hundred and twenty beavers were eaten. After negotiating treaties with the tribes of the region, Nicolet made some further explorations—to what extent, however, is not known. Having returned to the Huron Indians, he later made his way to Canada and reported his discovery to Champlain.

**1654-56.**—For twenty years no more was heard of the Northwest until Pierre Esprit Radisson and Médard Chouart des Groseilliers, roving fur-traders, in the autumn of 1654 came with tribesmen who were returning from a trading visit to Montreal, and wintered among the Potawatomi around Green Bay. In the spring of 1655 they ascended Fox River, and at the site of the present city of Portage crossed over to the Wisconsin, spending four months on the trip. The following year was spent in exploring the shores of Lake Superior and beyond, the return to Quebec occurring in August, 1656.

**1659-60.**—The same two adventurers, with six other fur-traders and a band of Huron Indians, skirted the south shore of Lake Superior in their canoes, learned of mines of copper in the neighborhood, and late in the autumn entered Chequamegon Bay. Somewhere between the Ashland and Washburn of our day, they built a crude waterside fort. Later *caching* their stores, to hide them from the Indians, they visited a Huron village in the interior, and wandered as far west as the Mille Lac region in Minnesota, there wintering among the Sioux. In the spring they returned to Chequamegon Bay, built another fortified trading hut, and during the following summer descended to Canada, never again to visit the Northwest.

**1660-61.**—The Jesuit missions to the Huron Indians, in Ontario near Georgian Bay, having been destroyed by a war-raid of the Iroquois, the Huron fled to Northwest Wisconsin. Thither Father René Ménard followed them in the autumn of 1660. After a winter of great hardship among the Indians at Ke-weenaw Bay, he and a white companion started to visit the Huron villages on the Chippewa and Black rivers. After many difficulties and much suffering, they reached Wisconsin River, which they descended for a considerable distance. In portaging Bill Cross Rapids, Father Ménard lost the obscure trail, and was never again seen. He probably died from exposure.

**1665.**—Father Claude Allouez, another Jesuit missionary, was sent by his superior to re-open the mission among the Huron. On Chequamegon Bay, he chose for his hut a site on the southwest shore, which he named "La Pointe du Saint Esprit." Remaining here four years, he instructed roving bands of Huron, Ottawa, and other Indians, who had fled from the fury of the Iroquois. In 1669 Allouez was relieved by Father Jacques Marquette.

**1666.**—Nicolas Perrot, an adventurous fur-trader, visited the Winnebago, Potawatomi, Fox, Sauk, and Mascoutin villages near Green Bay, and persuaded the Potawatomi to send a delegation to trade and treat with the governor of New France at Montreal.

**1669.**—Father Allouez visited the region of Green Bay, where he ministered to the several tribes clustered around its shores. He wintered in a small cabin whose location is not now known.

**1670-71.**—After visiting the Fox village on Wolf River, and that of the Mascoutin on the upper Fox (near the present Berlin), Father Allouez returned to Sault Ste. Marie (May 20, 1670). In the autumn, accompanied by Father Claude Dablon, he was again in Wisconsin, when the mission of St. François was begun for the Menominee and the Potawatomi, that of St. Marc for the Foxes, and that of St. Jacques for the Mascoutin.

**1671.**—Simon François Daumont, sieur de St. Lussou, was sent to Sault Ste. Marie, and there (June 14), in the presence of Allouez and other Jesuits, with Perrot acting as interpreter, took official possession of the Northwest in the name of the French king.

**1672.**—Father Allouez, reinforced by Father Louis André, enlarged the Wisconsin missions, building at De Pere (abbreviated from Rapides des Pères, the "Fathers' Rapids") a chapel and mission house, to which was given the name of St. François Xavier. This became the centre of Jesuit missionary work in Wisconsin.

**1673.**—Louis Jolliet and Father Jacques Marquette set out in May from St. Ignace mission, at the Straits of Mackinac, and entering Green Bay and Fox River reached the Mascoutin village on June 7. Portaging into Wisconsin River, they descended the latter to its mouth, at which they arrived June 17. Thence they descended the Mississippi as far as the mouth of the Arkansas, passing on their way villages of the Illinois and other Southern tribes. Satisfied that the great river made its way to the Gulf of Mexico, and warned of danger if they advanced, they planted a cross at the limit of their discovery and on July began the return voyage. Ascending Mississippi and Illinois rivers they portaged at Chicago to Lake Michigan, and by the close of September were again at the mission at De Pere.

**1674-75.**—In October, Marquette started with two assistants to establish a mission among the Illinois Indians. Proceeding along the east coast of Green Bay, where is now the Sturgeon Bay ship canal, they portaged to Lake Michigan and paddled up that lake to the mouth of Chicago River, where they wintered on a sand dune near the shore. In the spring they pushed on to the Illinois villages near Peoria. But a mortal illness was on the intrepid Marquette and he turned back to Mackinac, hoping to live to reach that station. He died on the journey (May 19), and was buried at the mouth of Père Marquette River in Michigan. Later, Indians removed his bones to St. Ignace.

**1673-76.**—Father Allouez, aided by Fathers André and Antoine Silvy, continued his work among the tribes around Green Bay. Crosses were erected in the important villages, and baptisms conferred. The number of Indian refugees in these villages, fleeing from the raiding Iroquois, increased more rapidly than the converts.

**1677.**—Father Charles Albanel came as superior of the Green Bay missions, and a substantial chapel was built at De Pere. Allouez voyaged by way of Lake Michigan to the Illinois, finding bitumen just north of Milwaukee.

**1678-80.**—Daniel Greysolon Duluth explored and traded in the western end of Lake Superior, discovering the Bois Brule-St. Croix route to the Mississippi, and hunting with Sioux Indians on Wisconsin soil.

**1679.**—Robert Cavalier de la Salle, licensed by the French king to monopolize the Western fur-trade, arrived off Green Bay early in September in the "Griffon"—the first sailing vessel on the Great Lakes. It had been built at Niagara River above the cataract. Sending her back laden with peltries collected at Green Bay, La Salle with a party of fourteen men in laden canoes started southward up the west shore of Lake Michigan. The voyage was one of great peril, for the lake was swept by gales. In Milwaukee Bay their camp was visited by a band of Fox Indians, who stole some of their property. La Salle induced them to make restoration, whereupon he moved on up the lake coast, finally reaching the Illinois by way of St. Joseph and Kankakee rivers.

**1680.**—Father Louis Hennepin, a Recollect friar of LaSalle's party, with two of the latter's subordinates, Michel Accau and Antoine Auguel, left the mouth of Illinois River (March 12) to explore the upper Mississippi. On their way they passed the site of Prairie du Chien. Below Lake Pepin the party were taken prisoners by the Sioux, who carried them to the present site of St. Paul, thence to the Mille Lacs. After wandering some months with roving bands of Sioux, Hennepin and his companions were rescued by Duluth, and crossing by the Wisconsin-Fox river route proceeded to De Pere and Mackinac.

**1683.**—At De Pere, in May, Duluth defended the mission against an Iroquois attack. Subsequent disorder and confusion occurred in the Green Bay region, and Perrot, acting under the orders of the commandant at Mackinac, re-established peace. About this time, Duluth, having punished Indian murderers of the French at Sault Ste. Marie, rendered Lake Superior safe for French traders and explorers.

**1684.**—Wisconsin tribesmen, led by Perrot, joined La Barre's abortive expedition against the Iroquois.

**1685.**—Perrot was appointed "commandant of the West." With a small squad of twenty soldiers, he passed over the Fox-Wisconsin route and wintered on the east bank of the Mississippi, about a mile above the present village of Trempealeau. Afterwards he established several trading posts on the Mississippi River, among them Fort Nicolas, near the site of Prairie du Chien, and Fort St. Antoine on Lake Pepin.

**1686.**—Perrot presented a silver ostensorium to the De Pere mission, a relic still preserved in the State Historical Society's museum at Madison.

**1687.**—Wisconsin tribesmen, under Perrot's leadership, joined Denonville, on Lake Ontario, for an expedition against the New York Iroquois. During their absence the mission house at De Pere, with all the furs stored therein, was burned with a loss of over 40,000 livres.

**1689.**—Perrot, commandant among the Sioux, took possession at Fort St. Antoine, in the name of the French king, of the St. Croix, St. Peter, and upper Mississippi valleys.

**1690-92.**—Perrot discovered and began operations in the lead mines of Iowa and Wisconsin, where he built temporary forts. He also adjusted peace between the Sioux and the Foxes together with their allies.

**1693.**—Continued wars between the Sioux and the Wisconsin tribesmen rendered the Fox-Wisconsin route unsafe for French traders. Count Frontenac thereupon sent Pierre Charles le Sueur to command at Chequamegon and keep open a route from Lake Superior to the Mississippi. He built a stockaded fort at La Pointe, on Chequamegon Bay, and another on an island in the Mississippi near Red Wing, Minnesota.

**1696.**—Licenses for fur-trading were revoked, all Western commandants being recalled and the posts evacuated and abandoned.

**1698.**—Father Jean François Buisson de St. Cosme, a Sulpician missionary en route for the Mississippi, coasted from Mackinac along the west shore of Lake Michigan. Finding the Fox-Wisconsin route closed by the hostility of the Fox Indians, his party was obliged to seek the Chicago-Illinois portage. October 4 they camped at a Potawatomi village on the site, it is supposed, of Sheboygan. Three days later they reached Milwaukee, where was found a large Indian town of mixed tribes. The next stop was on the site of Racine; but they found the water too low to portage over to the Pistakee (or Fox River of the Illinois), so after a five day's rest they continued on to Chicago.

**1700.**—Having secured permission from France, Le Sueur brought with him thirty experienced miners imported from the motherland, and voyaged up the Mississippi from its mouth to some mines that he claimed to have discovered in the Sioux country. En route he examined lead deposits at or near the sites of Dubuque and Galena, and at "Snake Diggings," near Potosi, Wisconsin.

**1701.**—Peace was made at Montreal between the Iroquois and all Northwestern tribes. Wisconsin Indians being present at the council in large numbers. A post at Detroit having been built by Antoine la Mothe, sieur de Cadillac, Wisconsin Indians were invited to this new settlement to trade and dwell in the vicinity. Most of the Potawatomi thereupon removed to St. Joseph River.

**1702.**—Juchereau de St. Denis paid a thousand crowns' worth of goods to Fox Indians to allow his fleet of trading canoes to pass to the Mississippi over the Fox-Wisconsin route. Le Sueur's fort in Minnesota was plundered and destroyed by Foxes and their allies.

**1710.**—A large party of Foxes, with their allies, yielded to French solicitations and removed to the neighborhood of Detroit.

**1712-16.**—The Foxes, with their friends the Sauk and Mascoutin, were attacked and defeated at Detroit by a body of French-allied Indians. The remnant of the tribe at Green Bay immediately took up arms and harassed the French traders and their allies. This rendered unsafe the most important trade routes between the Great Lakes and the Mississippi.

**1716.**—Louis de la Porte, sieur de Louvigny, was chosen to conduct a campaign against the hostile tribesmen. With a detachment of eight hundred men, he advanced to Green Bay and up Fox River to a large Fox village near Little Lake Butte des Morts. There, peace was granted by the French, the Indians having bought off the invading army and given hostages. These latter were carried in triumph to Montreal.

**1717.**—A fort was built at Green Bay (probably on the site of the modern Fort Howard), whose first commandant was Etienne Roebert, sieur de la Morandière.

**1718.**—A post was founded at Chequamegon by Paul de Gardeur, sieur de St. Pierre, with Godefroy de Linctot second in command. A settlement of French traders was this year reported as existing at Green Bay.

**1719.**—Three Fox chiefs, with a Kickapoo and a Mascoutin, visited Montreal to excuse themselves for continuing the war against the Illinois, claiming to have acted in self-defense.

**1721.**—Father Pierre François Xavier de Charlevoix, Jesuit historian, visited Wisconsin, accompanied by Jacques Testard, sieur de Montigny, who superseded the Sieur de la Morandière in command of the post of La Baye. Charlevoix reported the continued enmity of the Foxes, and that Father Chardon, a Jesuit, maintained the mission at De Pere.

**1722-23.**—The Foxes continued their war upon the Illinois, defeating the latter on Illinois River, at the site known as "Le Rocher."

**1724-26.**—Several attempts were made by Marchand de Lignery, commandant at Mackinac, and François d'Amariton, commandant at Green Bay, in concert with Jesuit missionaries, to make peace among the warring tribes. In 1726 a truce was secured, permitting the building of a post among the Sioux.

**1727.**—In order to detach the Sioux from the Fox alliance, also to furnish a basis for westward exploration, Fort Beauharnois was built on Lake Pepin, with René Boucher, sieur de la Perrière, in command.

**1728.**—Lignery, with an expedition composed of 450 French and 1,200 savages, left Mackinac early in August, and advanced up Fox River only to find that the Foxes had fled from their villages. These he destroyed, as well as large crops of maize. On his return he demolished the French fort at La Baye and sent messengers to warn the garrison at Fort Beauharnois. October 3 the garrison evacuated the latter, and on their descent of the Mississippi were captured and retained as hostages by roving Mascoutin and Kickapoo.

**1729.**—The captive French detached the Mascoutin and Kickapoo from the Fox alliance and made peace between them and the Illinois. Reports of copper mines on Lake Superior were made to the French government by the commandant at Chequamegon.

**1730.**—Pierre Paul Marin, in charge of Menominee Indians, aided the Winnebago in an attack upon a Fox fort on Little Lake Butte des Morts. The Foxes, discouraged by reverses, attempted to seek asylum with the Iroquois. Somewhere in the prairies of Indiana, not far from the southern end of Lake Michigan, the migrating tribes encountered and were badly defeated by French forces hastily gathered from Forts St. Joseph, Chartres, and Ouatanon, under command of Sieur de Villiers. Nearly a thousand of the tribesmen were killed or captured.

**1731.**—The remnant of the Foxes, hiding in western Wisconsin, were attacked by a band of mission Indians from Canada. Cowed by this series of misfortunes, Kiala, the principal Fox chief, gave himself up as a hostage to the commandant at Green Bay and was transported to the island of Martinique. The destruction or dispersion of the remainder of the tribe was thereupon decreed by the Canadian authorities, but this was never wholly effected.

**1732.**—The post of Green Bay was rebuilt under command of Nicolas Antoine Coulon de Villiers. René Godefroy, sieur de Linctot, with a company of fur-traders, rebuilt the Lake Pepin post.

**1733**.—A remnant of Foxes refuged at Green Bay among the Sauk, who defended them. Commandant De Villiers and his son were killed at the Sauk village. Thereupon a severe battle ensued at the gates, being renewed the next day farther up the river. The result was the amalgamation of the Sauk and Fox tribes, and their refuge in the lead mine region.

**1737**.—Trade and travel being still insecure in the West, St. Pierre was forced to abandon his fort on Lake Pepin.

**1738**.—Louis Denis, sieur de la Ronde, in command at Chequamegon, secured a permit to work the Lake Superior copper mines, and expert miners were sent from Germany to examine the lodes. Marin, being chosen commandant for the Sauk and Foxes, built a fort on the Mississippi near Rock River, and induced a Fox chief to visit Montreal and secure grace for his tribe.

**1739-43**.—Marin pacified all the Wisconsin Indians, and ended the Fox wars. The Winnebago returned to their old home in Fox River Valley; the Sauk and Foxes built villages on the Wisconsin; Milwaukee became the resort of vagrant tribesmen and unlicensed traders. Lead mining was undertaken in southwestern Wisconsin.

**1743**.—The license system was revoked, and the post at Green Bay auctioned to the highest bidder. The conduct of the lessees caused much dissatisfaction both among the Indians and the officers of the post.

**1749**.—The Indians at Green Bay conspired against their commandant, but the plot was detected and foiled. The license system was restored, Marin being transferred to command at Green Bay. His son Joseph commanded at Chequamegon. Pierre Mathurin, sieur Millen, a young French officer, was drowned while hunting on the waters of Green Bay.

**1750**.—Marin re-established a post among the Sioux. He was in partnership with the governor, Marquis de la Jonquière, to exploit the upper country, and obtained from the Wisconsin fur-trade a net profit of 150,000 livres per year.

**1752**.—Joseph Marin relieved his father at the Sioux post. The latter was recalled to serve on the Ohio frontier, where he died in 1753.

**1753**.—Grant of the post of La Baye to François Rigaud, brother of the Marquis de Vaudreuil, last governor of New France. Peace was made by Marin and St. Pierre between the Sioux, Cree, and Chippewa, insuring quiet among the Wisconsin tribesmen.

**1755**.—Wisconsin Indians, under Charles Langlade, participated in Bradock's defeat on the Monongahela (July 9.)

**1756**.—Sioux post abandoned by Joseph Marin.

**1757**.—Hubert Couterot was last French commandant at La Baye, and Pierre Joseph Hertel, sieur de Beaubassin, at Chequamegon.

Wisconsin Indians took part in the siege and massacre of Fort William Henry, on Lake George (August 3-9).

**1758**.—A Menominee insurrection resulted in the death of several Frenchmen and the pillage of a storehouse at La Baye. To expiate the crime, seven tribesmen were sent to Montreal, where three of them were publicly shot.

**1759**.—Wisconsin Indians participated in the defense of Quebec, both at the Falls of Montmorency and on the Plains of Abraham.

**1760**.—Wisconsin Indians went to aid in the defense of Montreal, but retired before its capitulation. News of the surrender being forwarded to Mackinac, the last French commandant, Louis Liénard de Beaujeu-Villemonde, evacuated the fort, retiring with his garrison to the Mississippi. In passing through Wisconsin, en route to Rock River, where he wintered, he probably took with him the garrison at La Baye, leaving that post unoccupied.

### III. British Dominion—1763-1783

Upon the surrender of New France to the British, Wisconsin became English colonial territory, being governed from Mackinac and Quebec. Previous to 1774 Wisconsin was under military authority, but the "Quebec Act" of that year made it a part of the Province of Quebec, and thus it remained until the close of the Revolutionary War, when it was ceded to the United States.

The governors of Canada during the time Wisconsin was under British dominion, were: Sir Jeffrey Amherst (commander-in-chief), 1760-63; Gen. Thomas Gage (commander-in-chief), 1763-64; Gen. James Murray (first governor-general), 1764-66; Lt.-Col. Aemilius Paulus Irving (president of council), 1766; Sir Guy Carlton (lieutenant-governor and commander-in-chief), 1766-73; Hector Theophilus Cramahé (acting lieutenant-governor while Carlton was in England), 1770-74; Gen. Sir Frederick Haldimand (governor-general), 1778-84.

While the Northwest nominally became United States territory by the treaty of 1783, Great Britain still held the military posts on the upper lakes till 1796, among them Mackinac, of which Wisconsin was a dependency. Henry Hamilton (lieutenant-governor of Canada) succeeded Haldimand, 1784-85; Gen. Henry Hope (president of council), 1785-86; Lord Dorchester, formerly Sir Guy Carlton (governor-general); 1786-96; and John Graves Simcoe (lieutenant-governor of the Upper Province of Canada), 1792-96.

**1760-61.**—Immediately after the evacuation of Montreal a detachment was sent under Maj. Robert Rogers to occupy the Western posts. Detroit was surrendered Nov. 29, 1760, but the attempt to occupy Mackinac was defeated by the ice in the lakes. No further move was made until after Sir William Johnson made treaties at Detroit, in the summer of 1761, with all the Northwestern tribes. Then Capt. Henry Balfour, of the Eightieth British infantry, was dispatched from Detroit to occupy the Western posts. He arrived at Green Bay October 12, and took possession of the old French stockade, renaming it Fort Edward Augustus. He left here in garrison Ensign James Gorrell of the Sixtieth (Royal American) regiment, with a sergeant, corporal, and fifteen privates. Sometime that autumn, British traders began to arrive from Albany and followed the tribesmen to their wintering grounds.

**1762.**—Gorrell made treaties with the Menominee, Winnebago, Ottawa, Sauk, Foxes, and Iowa, and assisted in a treaty between the Chippewa and Menominee. In June, Ensign Thomas Hutchins, afterwards a famous geographer, visited the fort with orders and instructions for Gorrell. Several English traders were scattered throughout the territory, two of whom were killed by their employes.

**1763.**—The territories of New France, including Wisconsin, were formally ceded by the French to the British. Gorrell made a treaty with the Sioux. Pontiac's conspiracy led to a confederation of most of the Western Indians formerly allied with the French. They attacked the English posts on the upper Great Lakes, eight of which were captured. Divided counsels existed among Wisconsin Indians, however, and by skillful diplomacy Gorrell maintained himself at the Green Bay post, until after the massacre of a large part of the garrison at Mackinac. Then he received orders from his Mackinac superior to evacuate his fort (June 21). The friendly Menominee escorted Gorrell and his party to l'Arbre Croche (on the east shore of Lake Michigan), where were quartered the remnants of the Mackinac garrison, who were finally ransomed and sent down to Montreal, chiefly under the protection of Wisconsin Indians. Fort Edward Augustus was never again garrisoned by British troops.

**1764.**—Wisconsin Indians attended a general treaty at Niagara, and received certificates of commendation for their friendly conduct in Pontiac's conspiracy. The Langlade family removed from Mackinac and established themselves in the small French settlement at La Baye.

**1765.**—Alexander Henry and Jean Baptiste Cadotte founded a fur-trading post on Chequamegon Bay, which region had been abandoned by whites since 1758.

**1766.**—Jonathan Carver, a British soldier in the French and Indian War, visited Wisconsin. In his published narrative he described the settlement at Green Bay, the old Indian town on Doty's Island, the Fox and Wisconsin rivers, and the trading mart at Prairie du Chien.

**1773-75.**—Peter Pond, a Connecticut fur-trader, visited Wisconsin and Minnesota, and wrote a detailed description of the Indian and French inhabi-

tants of this region. He found a French ex-soldier named Pinnashen permanently established at the Fox-Wisconsin portage, transporting boats and cargoes. Pond assisted in escorting Sioux chiefs to Mackinac, where an advantageous peace was concluded with the Chippewa.

**1774.**—Civil government was established over the Northwest and Canada by the "Quebec Act," under which Wisconsin became a part of the British Province of Quebec.

**1776-78.**—Wisconsin Indians under Charles Langlade and Charles Gautier de Verville assisted the British during the Revolutionary War, and were concerned with the defense of Canada and the expedition of Burgoyne.

**1778-79.**—Langlade and Gautier rallied the Indians to the aid of the British Lieut.-Gov. Henry Hamilton of Detroit. After the latter's capture at Vincennes (February 24, 1779), they opposed the projects of Col. George Rogers Clark's enterprising agent, Godefroy Linctot, Indian trader at Prairie du Chien, who detached many Wisconsin Indians from the British alliance. The Indian village at Milwaukee was largely in the American interest. In the autumn, Capt. Samuel Robertson of the British sloop "Felicity" made a voyage of reconnaissance around Lake Michigan, inducing traders and Indians to support the British cause.

**1780.**—An expedition of Canadians and Indians from Wisconsin advanced by way of Prairie du Chien, with a supporting column under Langlade on the Illinois River, against the Spaniards at St. Louis and the Americans in the Illinois. They were repulsed and driven back (May 26), after having killed and captured several whites and negroes. The Americans sent a retaliatory expedition to Rock River, one division of which penetrated southwestern Wisconsin. The British merchants of Mackinac sent a party to secure their furs stored at Prairie du Chien. Those that could not be carried away by them were burned, to prevent their falling into the hands of Americans.

**1781.**—The Spanish organized an attack upon Fort St. Joseph, near the southeast corner of Lake Michigan, in which Milwaukee Indians participated. This is the traditional date of the settlement of Prairie du Chien by Basil Giard, Augustin Ange, and Pierre Antaya, although French traders had long dwelt upon the site.

**1783.**—The treaty of Paris was concluded by which British territory east of the Mississippi was ceded to the United States. Joseph Calvé was sent from Mackinac to notify the Indians along the upper Mississippi of the cessation of hostilities.

#### IV. American Dominion—1783—date

Although the territory embracing Wisconsin was ceded to the United States in 1783, the British refused to evacuate the Northwestern military posts until 1796, and Wisconsin remained a *de facto* dependency of Mackinac and the British military government at that place. Practically it was controlled by British fur-traders, who had combined in great fur-trading companies, chief of which were the North West and Mackinac companies, to which most Wisconsin traders belonged. The jurisdiction and boundaries during these early years were as follows:

*Wisconsin a part of Northwest Territory.*—Owing to the vague and undefined westward bounds assured to the early English colonies in their respective charters, Massachusetts, Connecticut, and Virginia claimed territory within the present limits of Wisconsin. They ceded their Western claims (Virginia in 1784, Massachusetts in 1785, and Connecticut in 1786) to the federal government, to form a national domain, from which to create new states. The country "northwest of the River Ohio," of which Wisconsin was a part, was by the congressional Ordinance of 1787 erected into the Northwest Territory, whose governor was Gen. Arthur St. Clair (1789-1802).

*A part of Indiana Territory.*—May 7, 1800, the Northwest territory was divided into two territories by a north and south line beginning on Ohio River opposite the mouth of Kentucky River, running thence to Fort Recovery (near the present

FISH HATCHERY AND PONDS, DELAFIELD

Greenville, Ohio), and thence north to the international boundary; all east of that line became Ohio, and west of it Indiana Territory. Wisconsin became a part of the latter, whose governor was Gen. William Henry Harrison (1800-11). He appointed justices of the peace at Green Bay and Prairie du Chien (1802-03).

*A part of Illinois Territory.*—February 3, 1809, Indiana Territory was reduced to the limits of the state of that name, the western and northern remainder being set off as Illinois Territory, the latter including what is now Wisconsin. Its governor was Ninian Edwards (1809-18).

*A part of Michigan Territory.*—April 18, 1818, the state of Illinois was created, with its existing boundaries; and all north of that state and west of Lake Michigan to Mississippi River was added to Michigan Territory. This territory was further aggrandized (June 28, 1834) by annexing for administrative purposes, all trans-Mississippi country north of Missouri and east of Missouri and White Earth rivers. The governors of Michigan Territory while Wisconsin was a part of it, were: Lewis Cass, 1813-31; George B. Porter, 1831-34; Stevens T. Mason, 1834-35; and John Scott Horner, 1835-36 (secretary and acting governor).

*Wisconsin Territory.*—April 20, 1836, Wisconsin Territory was erected. It embraced all of what is now Wisconsin, and extended westward to Missouri River, thus including the present Minnesota and Iowa, and much of the two Dakotas.

June 12, 1838, the Territory of Iowa was erected out of that portion of Wisconsin lying west of Mississippi River. When Wisconsin was admitted into the Union (May 29, 1848), the portion lying between St. Croix river and the Mississippi was detached and given to the new Territory of Minnesota. In this manner Wisconsin was restricted to its present boundaries.

**1795.**—Death of Pierre Grignon senior at Green Bay.

Jacques Vieu, agent of the North West Company, established posts at Ke-waunee, Sheboygan, Manitowoc, and Milwaukee. He selected the last mentioned place as headquarters, and found there a Potawatomi village, with Sauk, Foxes, and Winnebago intermingled.

**1796.**—The British evacuated the Western posts. Mackinac was occupied by an American garrison commanded by Maj. Henry Burbeck. A British garrison and fur-trade headquarters were established on St. Joseph Island in Lake Huron.

**1797.**—The Spanish incited the Sauk and Foxes to pillage British traders at Prairie du Chien: the latter's goods were saved by friendly Sioux. A Sioux-Chippewa war was waged in northern Wisconsin.

**1799.**—The X Y Company was organized to compete with the North West and Mackinac companies.

John Lawe arrived in Green Bay as clerk for Jacob Franks.

Governor Harrison of Indiana Territory granted commissions as justices of the peace to John Campbell and Robert Dickson, also of Prairie du Chien; and organized the militia with Henry Monroe Fisher as captain, Basil Giard as lieutenant, and Michel Labat as ensign.

**1803.**—Charles Reaume was commissioned justice of the peace at Green Bay, and Henry Monroe Fisher at Prairie du Chien.

**1804.**—Harrison made a treaty with the Sauk and Foxes at St. Louis, by which their title to lands in the southern portion of Wisconsin, including the lead region, was extinguished.

North West and X Y companies were amalgamated.

**1804-07.**—François Victor Malhiot, clerk for the North West Company, built a new fort and traded at Lac du Flambeau. Posts of the same company existed on the site of Superior, at Madelaine Island, and on Lac Court Oreilles.

**1805-06.**—Lieut. Zebulon M. Pike was dispatched up the Missouri from St. Louis, to inform Indians and traders of the purchase of Louisiana, and of American arrangements for posts and trading. In the ascent, he spent several days at Prairie du Chien, where he found a few American settlers among the French-Canadian inhabitants. After wintering near the Leech Lake source of the Mississippi, he returned to St. Louis in the spring, holding a conference with the Winnebago and Sioux at Prairie du Chien.

Wisconsin Indians participated in Battle of Tippecanoe.

**1812.**—Wisconsin traders participated in the British capture of Mackinac (July 17). Some Wisconsin Indians aided in the massacre of Fort Dearborn (Aug. 15).

**1813.**—Lieut. Joseph Perkins was sent from St. Louis to fortify Prairie du Chien, where he built Fort Shelby, the first American post in Wisconsin. Robert Dickson, adhering to the British, collected Indians to attack this post, and wintered on Garlic Island in Lake Winnebago.

**1814.**—Maj. William McKay organized an expedition at Mackinac for the capture of Fort Shelby. He started June 28, in six days reaching Green Bay, where he was joined by thirty habitants and about 100 Indians; Dickson with his forces met them at Portage. July 17 they landed at the mouth of the Wisconsin and summoned Lieutenant Perkins to surrender, which the superior numbers of British forces compelled him to do. McKay with difficulty saved the prisoners from massacre by his Indian allies. The name of the fort was changed from Shelby to McKay.

Wisconsin traders and Indians aided in the British defense of Mackinac (Aug. 4) against the attack of the Americans.

**1815.**—After the treaty of Ghent with Great Britain, Capt Alfred Bulger, the British commandant, abandoned Fort McKay (May 24) and retired to Mackinac. American jurisdiction was resumed by Nicolas Boilvin as Indian agent and justice of the peace.

**1816.**—A series of treaties with Indians was held at St. Louis, in which the tribesmen renewed their allegiance to the United States. Fort Crawford at Prairie du Chien was erected by Gen. Thomas A. Smith; Fort Howard at Green Bay was begun by Col. John Miller. Col. John Bowyer was sent to the latter place as Indian agent.

By act of Congress the fur-trade was restricted to American citizens, and Astor's American Fur Company began operating in Wisconsin. Government fur-trade factories were established both at Green Bay and Prairie du Chien, with Matthew Irwin and John W. Johnson as their respective factors.

The code of Michigan Territory was made the basis of law; but no courts were organized except those of justices of the peace.

**1822.**—Government fur-trade factory system abolished. The New York Indians (Oneida, Stockbridge, Munsee, and Brothertown) purchased lands of the Menominee and began their removal to Wisconsin.

Government decided to lease lands in southwestern Wisconsin for mining purposes. Col. James Johnson, having secured a lease of part of the present Galena, began mining on a large scale. There followed an inrush of speculators and prospectors into southwest Wisconsin.

**1823.**—First steamboat, the "Virginia," ascended the Mississippi as far as Fort Snelling.

**1826.**—Fort Crawford was abandoned, and the troops sent to Fort Snelling, near St. Paul.

**1827.**—The Winnebago murdered several half-breeds, and attacked two keel-boats on the Mississippi. These outrages produced great alarm. Settlers fled to Prairie du Chien, and there organized and manned the abandoned fort. Troops were, however, sent from St. Louis and Fort Snelling. Col. Henry Dodge raised a hundred mounted volunteers in the lead mines. Maj. William Whistler, in command at Fort Howard, moved up the Fox to Portage, and the troops on the Wisconsin, under Gen. Henry Atkinson, pursued the fleeing Winnebago. They were overtaken near Portage and gave up the murderers, one of whom (Red Bird) soon died in prison. His associates were tried and sen-

fenced, but afterwards pardoned on condition that the Winnebago cede their mining lands to the United States.

**1830.**—A Protestant mission was founded on Madelaine Island by Frederick Ayer. Rev. Cutting Marsh opened a Presbyterian mission to the Stockbridge Indians at Statesburg (South Kaukauna).

**1832.**—Black Hawk, a Sauk headman, resented the intrusion of the American settlers, and in April, crossing from Iowa, passed up Rock River to Prophetstown, there intending to raise a crop. This "invasion" aroused general alarm in Illinois and what is now Wisconsin. Settlers fled the country or gathered into log forts. Gen. Henry Atkinson, with an army of volunteers and regulars, marched from Fort Armstrong against Black Hawk, who sent a defiant message and retreated up Rock River to the neighborhood of Lake Koshkonong. Thence he descended into Illinois, and with Potawatomi and Winnebago help, attacked the frontier settlements. Some two hundred whites and as many Indians lost their lives in the ensuing skirmishes. Meanwhile, forts had been thrown up in the lead region and a company of mounted militia recruited among Wisconsin miners and farmers. Gen. Henry Atkinson with a force of nearly four thousand federal regulars and Illinois militia pursued the hostile tribesmen, who retreated by way of the present site of Madison. At the crossing of Wisconsin River a mile below Prairie du Sac, a skirmish occurred (July 21). The final battle was at the mouth of the Bad Axe (August 2), where the savages attempted to recross the Mississippi into Sioux territory. Black Hawk surrendered to some Winnebago and was brought to Prairie du Chien, whence he was sent to Jefferson Barracks at St. Louis. Of the thousand Indians who crossed the Mississippi with him in the spring, not over a hundred and fifty survived. This outbreak greatly advertised Wisconsin throughout the country, and stimulated settlement. In the autumn, treaties were negotiated with the Menominee, Sauk, and Winnebago, voiding the title to all their lands south and east of Fox and Wisconsin rivers.

**1833.**—By a treaty at Chicago, the Chippewa, Ottawa, and Potawatomi concurred in the above treaties and ceded the lands south and west of Milwaukee.

Horner of Virginia as secretary. The new officers were sworn in at Mineral Point, then the largest town in the Territory. The supreme court was constituted by the appointment of Charles Dunn, David Irwin, and William C. Frazer as justices. The first territorial assembly met at Old Belmont (now Leslie), October 25. On November 24 Madison, then merely a town on paper, was, against many competitors, chosen the capital

through the influence of Judge Doty, owner of the site. George W. Jones was elected by this legislature the first territorial delegate to Congress.

Miller appointed judge of United States district court. A free school system was established by law. A land grant for a university was made by Congress, and the State University was incorporated.

A large German immigration settled in Milwaukee and the eastern counties.

A partially successful attempt was made to remove the Wisconsin Winnebago to Long Prairie, Minnesota. The Menominee ceded a large tract east of the Wisconsin and north of Fox River, and removed to a reservation in Waushara County.

### PLATFORM OF THE REPUBLICAN PARTY, ADOPTED AT CHICAGO, ILL., JUNE 18, 1908.

Once more the Republican party, in national convention assembled, submits its cause to the people. This great historic organization, that destroyed slavery, preserved the Union, restored credit, expanded the national domain, established a sound financial system, developed the industries and resources of the country and gave to the nation her seat of honor in the councils of the world, now meets the new problems of government with the same courage and capacity with which it solved the old.

**REPUBLICANISM UNDER ROOSEVELT.**—In this the great era of American advancement the Republican party has reached its highest service under the leadership of Theodore Roosevelt. His administration is an epoch in American history. In no other period since national sovereignty was won under Washington, or preserved under Lincoln, has there been such mighty progress in those ideals of government which make for justice, equality and fair dealing among men.

The highest aspirations of the American people have found a voice. Their most exalted servant represents the best aims and worthiest purposes of all his countrymen. American manhood has been lifted to a nobler sense of duty and obligation. Conscience and courage in public station and higher standards of right and wrong in private life have become cardinal principles of political faith; capital and labor have been brought into closer relations of confidence and interdependence, and the abuse of wealth, the tyranny of power and all the evils of privilege and favoritism have been put to scorn by the simple, manly virtues of justice and fair play.

The great accomplishments of President Roosevelt have been first and foremost, a brave and impartial enforcement of the law, the prosecution of illegal trusts and monopolies, the exposure and punishment of evildoers in the public service, the more effective regulation of the rates and service of the great transportation lines, the complete overthrow of preferences, rebates and discriminations, the arbitration of labor disputes, the amelioration of the condition of wageworkers everywhere, the conservation of the natural resources of the country, the forward step in the improvement of the inland waterways, and always the earnest support and defense of every wholesome safeguard which has made more secure the guarantees of life, liberty and property.

These are the achievements that will make for Theodore Roosevelt his place in history, but more than all else the great things he has done will be an inspiration to those who have yet greater things to do. We declare our unflinching adherence to the policies thus inaugurated and pledge their continuance under a Republican administration of the government.

**EQUALITY OF OPPORTUNITY.**—Under the guidance of republican principles the American people have become the richest nation in the world. Our wealth today exceeds that of England and all her colonies, and that of France and Germany combined. When the Republican party was born the total wealth of the country was \$16,000,000,000. It has leaped to \$110,000,000,000 in a generation, while Great Britain has gathered but \$60,000,000,000 in 500 years,

The United States now owns one-fourth of the world's wealth and makes one-third of all modern manufactured products. In the great necessities of civilization, such as coal, the motive power of all activity; iron, the chief basis of all industry; cotton, the staple foundation of all fabrics; wheat, corn and all the agricultural products that feed mankind, America's supremacy is undisputed. And yet her great natural wealth has been scarcely touched. We have a vast domain of 3,000,000 square miles, literally bursting with latent treasure, still waiting the magic of capital and industry to be converted to the practical uses of mankind; a country rich in soil and climate, in the unharnessed energy of its rivers and in all the varied products of the field, the forest and the factory. With gratitude for God's bounty, with pride in the splendid productiveness of the past and with confidence in the plenty and prosperity of the future the Republican party declares for the principle that in the development and enjoyment of wealth so great and blessings so benign there shall be equal opportunity for all.

**THE REVIVAL OF BUSINESS.**—Nothing so clearly demonstrates the sound basis upon which our commercial, industrial and agricultural interests are founded, and the necessity of promoting their continued welfare through the operation of Republican policies as the recent safe passage of the American people through a financial disturbance which, if appearing in the midst of Democratic rule or the menace of it, might have equalled the familiar Democratic panics of the past. We congratulate the people upon the renewed evidence of American supremacy, and hail with confidence the signs now manifest of a complete restoration of business prosperity in all lines of trade commerce and manufacturing.

**RECENT REPUBLICAN LEGISLATION.**—Since the election of William McKinley, in 1896, the people of this country have felt anew the wisdom of intrusting to the Republican party through decisive majorities the control and direction of national legislation.

The many wise and progressive measures adopted at recent sessions of Congress have demonstrated the patriotic resolve of Republican leadership in the legislative department to keep step in the forward march toward better government.

Notwithstanding the indefensible filibustering of a Democratic minority in the House of Representatives during the last session many wholesome and progressive laws were enacted, and we especially commend the passage of the Emergency Currency bill; the appointment of the national monetary commission; the employers' and government liability laws; the measures for the greater efficiency of the army and navy; the Widows' Pension bill; the child labor law for the District of Columbia; the new statutes for the safety of railroad engineers and firemen and many other acts concerning the public welfare.

**PLEDGES FOR FUTURE TARIFF.**—The Republican party declares unequivocally for a revision of the tariff by a special session of Congress immediately following the inauguration of the next President, and commends the steps already taken to this end in the work assigned to the appropriate committees of Congress, which are now investigating the operation and effect of existing schedules.

In all tariff legislation the true principle of protection is best maintained by the imposition of such duties as will equal the difference between the cost of production at home and abroad, together with a reasonable profit to American industries. We favor the establishment of maximum and minimum rates to be administered by the President under limitations fixed in the law, the maximum to be available to meet discriminations by foreign countries against American goods entering their markets, and the minimum to represent the normal measure of protection at home; the aim and purpose of the Republican policy being not only to preserve, without excessive duties, that security against foreign competition to which American manufacturers, farmers and producers are entitled but also to maintain the high standard of living of the wage earners of this country, who are the most direct beneficiaries of the

NORMAL SCHOOL, OSHKOSH

protective system. Between the United States and the Philippines we believe in a free interchange of products with such limitations as to sugar and tobacco as will afford adequate protection to domestic interests.

**CURRENCY.**—We approve the emergency measures adopted by the Government during the recent financial disturbance, and especially commend the passage by Congress at the last session of the law designed to protect the country from a repetition of such stringency. The Republican party is committed to the development of a permanent currency system, responding to our greater needs, and the appointment of the national monetary commission by the present Congress which will impartially investigate all proposed methods, insures the early realization of this purpose. The present currency laws have fully justified their adoption, but an expanding commerce, a marvelous growth in wealth and population, multiplying the centers of distribution, increasing the demand for the movement of crops in the West and South and entailing periodic changes in monetary conditions, disclose the need of a more elastic and adaptable system. Such a system must meet the requirements of agriculturists, manufacturers, merchants and business men generally, must be automatic in operation, minimizing the fluctuations in interest rates, and, above all, must be in harmony with that Republican doctrine which insists that every dollar shall be based upon and as good as gold.

**POSTAL SAVINGS.**—We favor the establishment of a postal savings bank system for the convenience of the people and the encouragement of thrift.

**TRUSTS.**—The Republican party passed the Sherman anti-trust law over Democratic opposition, and enforced it after Democratic dereliction. It has been a wholesome instrument for good in the hands of a wise and fearless administration. But experience has shown that its effectiveness can be strengthened and its real objects better attained by such amendments as will give to the Federal Government greater supervision and control over, and secure greater publicity in, the management of that class of corporations engaged in interstate commerce having power and opportunity to effect monopolies.

**RAILROADS.**—We approve the enactment of the Railroad Rate law and the vigorous enforcement by the present administration of the statutes against rebates and discriminations, as a result of which the advantages formerly possessed by the large shipper over the small shipper have substantially disappeared and in this connection we commend the appropriation by the present Congress to enable the Interstate Commerce Commission to thoroughly investigate and give publicity to, the accounts of interstate railroads. We believe, however, that the interstate commerce law should be further amended so as to give railroads the right to make and publish traffic agreements subject to the approval of the commission, but maintaining always the principle of competition between naturally competing lines and avoiding the common control of such lines by any means whatsoever. We favor such national legislation and supervision as will prevent the future overissue of stocks and bonds by interstate carriers.

**RAILROAD AND GOVERNMENT EMPLOYEES.**—The enactment in constitutional form at the present session of Congress of the employers' liability law, the passage and enforcement of the safety appliance statutes, as well as the additional protection secured for engineers and firemen; the reduction in the hours of labor of trainmen and railroad telegraphers, the successful exercise of the powers of mediation and arbitration between interstate railroads and their employees, and the law making a beginning in the policy of compensation for injured employees of the Government, are among the most commendable accomplishments of the present administration. But there is further work in this direction yet to be done, and the Republican party pledges its continued devotion to every cause that makes for safety and the betterment of conditions among those whose labor contributes so much to the progress and welfare of the country.

**WAGE EARNERS GENERALLY.**—The same wise policy which has induced the Republican party to maintain protection to American labor, to establish an eight-hour day in the construction of all public works, to increase the list of employees who shall have preferred claims for wages under the bankruptcy laws, to adopt a child labor statute for the District of Columbia, to direct an investigation into the condition of working women and children, and, later, of employees of telephone and telegraph companies engaged in interstate business, to appropriate \$150,000 at the recent session of Congress in order to secure a thorough inquiry into the causes of catastrophes and loss of life in the mines, and to amend and strengthen the law prohibiting the importation of contract labor, will be pursued in every legitimate direction within Federal authority to lighten the burdens and increase the opportunity for happiness and advancement of all who toil. The Republican party recognizes the special needs of wage workers generally, for their wellbeing means the wellbeing of all. But more important than all other considerations is that of good citizenship, and we especially stand for the needs of every American, whatever his occupation, in his capacity as a self-respecting citizen.

**COURT PROCEDURE.**—The Republican party will uphold at all times the authority and integrity of the courts, State and Federal, and will ever insist that their powers to enforce their process and to protect life, liberty and property shall be preserved inviolate. We believe, however, that the rules of procedure in the Federal courts with respect to the issuance of the writ of injunction should be more accurately defined by statute, and that no injunction or temporary restraining order, should be issued without notice, except where irreparable injury would result from delay, in which case a speedy hearing thereafter should be granted.

**THE AMERICAN FARMER.**—Among those whose welfare is as vital to the welfare of the whole country as is that of the wage earner is the American farmer. The prosperity of the country rests peculiarly upon the prosperity of agriculture. The republican party during the last twelve years has accomplished extraordinary work in bringing the resources of the National Government to the aid of the farmer, not only in advancing agriculture itself, but increasing the convenience of rural life. Free rural mail delivery has been established; it now reaches millions of our citizens and we favor its extension until every community in the land receives the full benefits of the postal service. We recognize the social and economic advantages of good country roads, maintained more and more largely at public expense and less and less at the expense of the abutting owner. In this work we commend the growing practice of State aid, and we approve the efforts of the national Agricultural Department by experiments and otherwise to make clear to the public the best methods of road construction.

**THE NEGRO.**—The Republican party has been for more than fifty years the consistent friend of the American negro. It gave him freedom and citizenship. It wrote into the organic law the declarations that proclaim his civil and political rights, and it believes today that his noteworthy progress in intelligence, industry and good citizenship has earned the respect and encouragement of the nation. We demand equal justice for all men, without regard to race or color; we declare once more, and without reservation, for the enforcement in letter and spirit of the Thirteenth, Fourteenth and Fifteenth amendments to the Constitution, which were designed for the protection and advancement of the negro, and we condemn all devices that have for their real aim his disfranchisement for reasons of color alone, as unfair, un-American and repugnant to the supreme law of the land.

**NATURAL RESOURCES AND WATERWAYS.**—We indorse the movement inaugurated by the administration for the conservation of natural resources; we approve all measures to prevent the waste of timber; we commend the work now going on for the reclamation of arid lands, and reaffirm the Republican policy of the free distribution of the available areas of the public domain to the land-

less settler. No obligation of the future is more insistent and none will result in greater blessings to posterity. In line with this splendid undertaking is the further duty, equally imperative, to enter upon a systematic improvement upon a large and comprehensive plan, just to all portions of the country, of the waterways, harbors and Great Lakes, whose natural adaptability to the increasing traffic of the land is one of the greatest gifts of a benign Providence.

**THE ARMY AND NAVY.**—The present Congress passed many commendable acts increasing the efficiency of the army and navy; making the militia of the states an integral part of the natural establishment; authorizing joint manœuvres of army and militia; fortifying new naval bases and completing the construction of coaling stations; instituting a female nurse corps for naval hospitals and ships and adding two new battleships, ten torpedo boat destroyers, three steam colliers and eight submarines to the strength of the navy. Although at peace with all the world and secure in the consciousness that the American people do not desire and will not provoke a war with any other country, we nevertheless declare our unalterable devotion to a policy that will keep this Republic ready at all times to defend her traditional doctrines, and assure her appropriate part in promoting permanent tranquillity among the nations.

**PROTECTION OF AMERICAN CITIZENSHIP ABROAD.**—We commend the vigorous efforts made by the administration to protect American citizens in foreign lands and pledge ourselves to insist on the just and equal protection of all our citizens abroad. It is the unquestioned duty of the Government to procure for all our citizens, without distinction, the rights of travel and sojourn in friendly countries, and we declare ourselves in favor of all proper efforts tending to that end.

**EXTENSION OF FOREIGN COMMERCE.**—Under the administration of the Republican party the foreign commerce of the United States has experienced a remarkable growth, until it has a present annual valuation of approximately \$3,000,000,000 and gives employment to a vast amount of labor and capital which would otherwise be idle. It has inaugurated through the recent visit of the Secretary of State to South America and Mexico a new era of Pan-American commerce and comity which is bringing us into closer touch with our twenty sister American republics, having a common historical heritage, a republican form of government and offering us a limitless field of legitimate commercial expansion.

**ARBITRATION AND HAGUE TREATIES.**—The conspicuous contributions of American statesmanship to the great cause of international peace so signally advanced in the Hague conferences, are an occasion for just pride and gratification. At the last session of the Senate of the United States eleven Hague conventions were ratified, establishing the rights of neutrals, laws of war on land, restriction of submarine mines limiting the use of force for the collection of contractual debts, governing the opening of hostilities, extending the application of Geneva principles and in many ways lessening the evils of war and promoting the peaceful settlement of international controversies. At the same session twelve arbitration conventions with great nations were confirmed and extradition, boundary and neutralization treaties of supreme importance were ratified. We indorse such achievements as the highest duty a people can perform and proclaim the obligation of further strengthening the bonds of friendship and good will with all the nations of the world.

**MERCHANT MARINE.**—We adhere to the Republican doctrine of encouragement to American shipping and urge such legislation as will revive the merchant marine prestige of the country, so essential to national defense, the enlargement of foreign trade and the industrial prosperity of our own people.

**VETERANS OF THE WARS.**—Another Republican policy which must ever be maintained is that of generous provision for those who have fought the country's battles and for the widows and orphans of those who have fallen. We commend the increase in the widow's pensions made by the present Con-

gress and declare for a liberal administration of all pension laws, to the end that the people's gratitude may grow deeper as the memories of heroic sacrifice grow more and more sacred with the passing years.

**CIVIL SERVICE.**—We reaffirm our declarations that the Civil Service laws, enacted, extended and enforced by the Republican party, shall continue to be maintained and obeyed.

**PUBLIC HEALTH.**—We commend the efforts designed to secure greater efficiency in national public health agencies and favor such legislation as will effect this purpose.

**BUREAU OF MINES AND MINING.**—In the interest of the great mineral industries of our country we earnestly favor the establishment of a bureau of mines and mining.

**CUBA.**—The American Government, in Republican hands, has freed Cuba, given peace and protection to Porto Rico and the Philippines under our flag, and begun the construction of the Panama Canal. The present conditions in Cuba vindicate the wisdom of maintaining between that republic and this imperishable bonds of mutual interest, and the hope is now expressed that the Cuban people will soon again be ready to assume complete sovereignty over their land.

**PORTO RICO.**—In Porto Rico the Government of the United States is meeting loyal and patriotic support; order and prosperity prevail, and the wellbeing of the people is in every respect promoted and conserved.

We believe that the native inhabitants of Porto Rico should be at once collectively made citizens of the United States, and that all others properly qualified under existing laws residing in said island should have the privilege of becoming naturalized.

**THE PHILIPPINES.**—In the Philippines insurrection has been suppressed, law is established and life and property are made secure. Education and practical experience there advancing the capacity of the people for government, and the policies of McKinley and Roosevelt are leading the inhabitants step by step to an ever increasing measure of home rule.

**THE PANAMA CANAL.**—Time has justified the selection of the Panama route for the great isthmian canal, and events have shown the wisdom of securing authority over the zone through which it is to be built. The work is now progressing with a rapidity far beyond expectation, and already the realization of the hopes of centuries has come within the vision of the near future.

**NEW MEXICO AND ARIZONA.**—We favor the immediate admission of the Territories of New Mexico and Arizona as separate States in the Union.

**THE LINCOLN CENTENARY.**—February 12, 1909, will be the one hundredth anniversary of the birth of Abraham Lincoln, an immortal spirit whose fame has brightened with the receding years and whose name stands among the first of those given to the world by the great Republic. We recommend that this centennial anniversary be celebrated throughout the confines of the nation by all the people thereof; and especially by the public schools as an exercise to stir the patriotism of the youth of the land.

**DEMOCRATIC INCAPACITY.**—We call the attention of the American people to the fact that none of the great measures here advocated by the Republican party could be enacted and none of the steps forward here proposed could be taken under a Democratic administration or under one in which party responsibility is divided. The continuance of present policies, therefore, absolutely requires the continuance in power of that party which believes in them and which possesses the capacity to put them into operation.

Beyond all platform declarations there are fundamental differences between the Republican party and its chief opponent which makes the one worthy and the other unworthy of public trust.

In history the difference between Democracy and Republicanism is that the one stood for debased currency, the other for honest currency; the one for free silver, the other for sound money; the one for free trade, the other for pro

tection; the one for the contraction of American influence, the other for its expansion; the one has been forced to abandon every position taken on the great issues before the people, the other has held and vindicated all.

In experience the difference between Democracy and Republicanism is that one means adversity, while the other means prosperity; one means low wages, the other means high; one means doubt and debt, the other confidence and thrift.

In principle the difference between Democracy and Republicanism is that one stands for vacillation and timidity in government; the other for strength and purpose; one stands for obstruction, the other for construction; one promises, the other performs; one finds fault, the other finds work.

The present tendencies of the two parties are even more marked by inherent differences. The trend of Democracy is toward socialism, while the Republican party stands for wise and regulated individualism. Socialism would destroy wealth, Republicanism would prevent its abuse. Socialism would give to each an equal right to take. Republicanism would give to each an equal right to earn. Socialism would offer an equality of possession which would soon leave no one anything to possess; Republicanism would give equality of opportunity which would assure to each his share of a constantly increasing sum of possessions. In line with this tendency the Democratic party of today believes in Government ownership, while the Republican party believes in Government regulation. Ultimately Democracy would have the nation own the people, while Republicanism would have the people own the nation.

CONCLUSION.—Upon this platform of principles and purposes, reaffirming our adherence to every Republican doctrine proclaimed since the birth of the party, we go before the country, asking the support not only of those who have acted with us heretofore, but of all our fellow citizens who regardless of past political differences, unite in the desire to maintain the policies, perpetuate the blessings and make secure the achievements of a greater America.

Walechke, Eland Junction; eleventh district, J. T. Murphy, Superior; Dr. P. H. Lindley, Chippewa Falls.

PLATFORM OF THE REPUBLICAN PARTY OF THE STATE OF WISCONSIN.

Adopted at Madison, Wis., September 28, 1910, by the Republican Platform Convention, Consisting of Heldover Republican Senators, the Nominees for State Senate, Assembly and State Offices Selected in the Primary Election on September 6, 1910.

The Republican party was organized to advance the cause of human welfare. Its first great mission was the abolition of slavery. For many decades it was the faithful servant of the people, and through its wise administration brought happiness and prosperity to all. Later special privileges began to encroach upon common rights and to dominate public affairs. Through the agency of the Republican party representative government is now being restored to the people. Progressive Republicans are winning victories from coast to coast. We congratulate our sister states upon the magnificent victories achieved.

LA FOLLETTE THE PIONEER.

It is now recognized through the country that Robert M. La Follette was the pioneer in this progressive movement, and although he had behind him years of sound progressive work, tried and approved in this state, when he entered the United States Senate, he had there neither sympathizers nor following. With the courage, ability and determination that has characterized all his public service, he adhered to his course, grew into leadership, and now holds a position of undisputed power and influence in the nation. The people of Wisconsin believe the results secured promise opportunity for greater achievement and they have by an unprecedented majority expressed their faith in his vision and statesmanship, and approved his re-election to the United States Senate.

COMMENT WISCONSIN PROGRESSIVES.

We indorse and commend the services of progressive Republicans from Wisconsin in the House of Representatives who consistently fought to fulfill the promises of the Republican party and their efforts to amend the rules in order that the House may again become a representative body. Wisconsin is to be congratulated upon having representatives in the Senate and the House who remained true to the people and to the national platform of the party, notwithstanding the efforts to punish them for so doing by withdrawal of federal patronage.

PAYNE-ALDRICH BILL CONDEMNED; DEMAND TARIFF COMMISSION.

The Payne-Aldrich tariff is not a compliance with the pledge of the Republican party in its national platform. The true basis of a protective tariff is the difference between the cost of production at home and abroad, and we hold any increased cost of production due to higher wages and standards of living of American labor should be accompanied by compensatory tariff duties. The present tariff board has no power of investigation and is not required to report to Congress. We favor the creation of a non-partisan tariff commission, empowered to ascertain the cost of production in this and other countries, and required to make frequent reports of the information gained to Congress. Upon the information so obtained Congress should proceed to revise the different schedules independently of each other, according to true protective tariff principles.

URGE COMMERCE LAW AMENDMENTS.

Because of the patriotic service rendered by progressive Republicans in the Senate and the House in the last session of Congress, the railroad bill as proposed was changed from a public menace to a public benefit. Further amendments are required. The magnitude of the problems involved renders it impossible

for the members of the interstate commerce commission to perform their duties with justice and dispatch. Subordinate boards should be provided to relieve the interstate commission from a portion of its duties and facilitate the prompt and efficient administration of the law.

#### FOR PHYSICAL VALUATION OF RAILROADS.

We urge an amendment to the present law providing for the physical valuation of railroad property, without which the commission is powerless to determine reasonable rates.

#### POSTAL BANK LAW AMENDMENT ASKED.

The postal savings bank law should be amended to compel the establishment of postal savings depositories throughout the country within easy reach of depositors, and to prevent the concentration of the postal savings in the large centers and their use in financial manipulations by the great corporate and banking interests of Wall street.

#### FAILURE OF ANTI-TRUST LAWS.

The operation of federal and state anti-trust and conspiracy laws has been productive of flagrant inequalities. The laws have been circumvented by the most dangerous and powerful of monopolies and trusts, which through their control of banks, money and credit centered in Wall street, are able to control the natural resources, the food, clothing and highways of the nation. This money power, taking refuge under corporation law, in order to defy or evade the conspiracy laws, has crushed competitors and has built up financial monopolies in the interests of speculators and against the interests of bona fide investors, producers, wage-earners and farmers.

These very laws that have failed to prevent financial and industrial monopoly have been used to suppress the unions and co-operative efforts of wage-earners and farmers in their struggle to protect the value of their labor against moneyed interests. Under the pretense of equal treatment of capital and labor, the farmer and the laborer whose capital is their labor and their savings from their labor, have been compelled to pay toll to those whose capital is their political power and their power to withhold money and credit from the commerce and industry of the country.

#### UNIONS AND FARMERS' ORGANIZATIONS SHOULD BE EXEMPT.

We favor such classification of unions, associations, monopolies, trusts and corporations as shall abolish this pretense and shall establish real equality before the law. Where monopoly is inevitable we favor complete regulation by government. But we are opposed to any change in the laws against trusts and monopolies except as herein stated, until the people have regained control of government, and have been able to assert complete control over all questions of monopoly and corporation law.

#### WISCONSIN LAWS PROVE PRACTICABILITY.

We point to the regulation of public service corporations in Wisconsin during the last five years as conclusive proof that control of monopoly by the people through their government is successful, is reasonable to investors, and essential to public welfare.

#### INDIVIDUAL VIOLATORS SHOULD BE PUNISHED.

Whether the corporation is a monopoly or not, we favor such control as shall punish individually, for abuse of power, its officials, promoters and financiers, instead of innocent investors. Where farmers and wage earners, unable to resort to corporation or partnership laws, are nevertheless compelled to organize in order to protect the value of their labor, we favor the most complete liberty of organization under suitable laws promoting publicity, collective bargaining, trade agreements and voluntary arbitration.

## SHOULD RETAIN ALASKAN COAL LANDS FOR PEOPLE.

The attempt of private monopoly to steal the Alaskan coal fields was defeated for the time being through the efforts of a few courageous officials, whose sacrifice and devotion to duty furnish an example worthy of emulation in every department and rank of the public service. Failing to secure the coal fields through perjury and fraud, special interests will exploit them through a monopoly of transportation. The title to the coal fields of Alaska should be forever retained by the government, subject to lease under proper regulation. The situation of Alaska is exceptional. Transportation is the basis of control. It is the key to this vast territory of treasure. As exceptional conditions in Panama required the government of the United States to own and operate a railroad on the isthmus in order to protect its interests and the interests of shippers, so we hold that exceptional conditions in Alaska require that the federal government should construct, own and operate the railroads, docks and steamship lines necessary to the opening up of the Alaskan coal fields and other natural resources.

## SHIP SUBSIDIES ARE A SPECIAL PRIVILEGE.

We are unequivocally opposed to the granting of shipping subsidies by the federal government, in the form of ocean mail subvention or otherwise. We hold that an American merchant marine can not be upbuilt by appropriations from the tax-contributed treasury of the people for the enrichment of a special interest.

## ELECT UNITED STATES SENATORS BY DIRECT VOTE.

Election of United States senators by direct vote has long been demanded by an overwhelming majority of the people. The House of Representatives has five times, the last time by unanimous vote, adopted and transmitted to the Senate a resolution proposing a constitutional amendment to that end. The Senate has refused to permit a vote upon these resolutions. We favor the election of senators by direct vote and urge that Congress take immediate action accordingly.

## PLEDGE LA FOLLETTE'S ELECTION.

A nomination for United States senator, under the primary law passed by the legislature and adopted by the people, when free from fraud, is the mandate of the party, and is morally binding on its members in the legislature. Honorable Robert M. La Follette, having fairly and honestly received the Republican nomination for United States senator at the recent primary, we pledge the Republican members of the legislature to vote for him at the next session for United States senator to succeed himself.

## EXPERIENCE DEMONSTRATES WISDOM OF WISCONSIN'S PROGRESSIVE LAWS.

Wisconsin stands in the forefront of states by reason of the progressive legislation enacted under Republican administration during the last ten years, including laws for direct nominations; for an untrammelled vote at the election; for the ad valorem system of taxing railroads; to remove the pernicious influence of the lobby in legislation; to promote education, and particularly agricultural and industrial training; to provide adequate regulation through the railroad commission of rates and services of railroads and public utilities; to conserve the state domain through the forestry commission; to regulate insurance; to protect employes in hazardous occupations; to regulate child labor; to prevent adulteration in foods; and to protect public health by sanitary regulations.

Experience has abundantly demonstrated the wisdom of all these laws. We stand pledged to their faithful administration and to the enactment of such amendments thereto as experience may show to be necessary to render them more efficient.

NORMAL SCHOOL, MILWAUKEE

## ADVOCATE EFFECTIVE CORRUPT PRACTICES ACT.

We are opposed to the excessive use of money in political campaigns. It is the weapon of special interests. It is an instrument of evil. It debauches manhood and corrupts the electorate. It serves every bad cause and embarrasses every good one.

We favor the enactment of a law which will authorize the publication by the state of necessary information concerning the qualifications of candidates at all primary and general elections.

No candidate for office should disburse money for the purpose of promoting his nomination or election, except:

First, for his own personal traveling expenses.

Second, payments required to be made to the state for information published.

Third, contributions to his personal campaign committee.

Fourth, contributions to his party campaign committee.

Except for these purposes, no money should be expended or disbursed by any person to nominate or elect any candidate for office unless by and through a publicly registered campaign committee to be appointed by the candidate himself, or through the regular party committee of his party. Such committees should be required to keep accurate books of account and file sworn statements with public authority at regular intervals during the progress of the campaign, showing all moneys contributed to and disbursed by it, the amount thereof, from whom received, to whom paid, and for what purposes. Within thirty days after every primary and general election a complete statement, in detail, of all financial transactions of such committees should be filed in like manner.

The total expenditure by or on behalf of any candidate should be limited by law and restricted to the following purposes: Hall rent, traveling expenses of speakers, clerical assistants, printing of literature and distribution thereof by mail or public messenger, and newspaper advertising. All campaign literature and advertising should bear the name of the author and of the person causing the publication thereof. No political activity should be permitted on either primary or general election day.

Compliance should be compelled by rigorous penalties, including imprisonment and disqualification of the candidate for public office.

We pledge legislation embodying these principles.

## ACTIVITY OF SPECIAL INTERESTS CONDEMNED.

We condemn the pernicious activity in the recent primary campaign of special interests, including certain brewery corporations acting in combination, insurance agencies and the binder twine trust, which sought to control the nomination of candidates for public office through misrepresentation as to the true issues.

## PLEDGE VOTER SECOND CHOICE PRIMARY BALLOT.

We pledge amendment to the primary law which will secure majority nominations by giving the voter the right to name his second choice candidate for each office.

## FAVOR THE INITIATIVE, REFERENDUM, RECALL.

We favor giving to the people the power to propose laws and amendments to the constitution and to enact, adopt or reject the same at the polls; to reject by their vote any act of the legislature; and to remove any recalcant or incompetent public official; and we pledge submission as early as possible of constitutional amendments providing for the vesting of such powers in the people under the initiative and referendum and the recall.

## FAVOR PUBLICITY OF COMMITTEE MEETINGS.

We favor the enactment of state and national laws requiring permanent public records to be made and preserved of appearances of parties and attendance of members at legislative and congressional committee meetings and of

all votes of members, and that the roll be called upon all bills, resolutions and amendments acted upon in such committees.

#### DECLARE FOR HOME RULE FOR CITIES.

Subject only to such restrictions as may be essential to the general welfare of the state as a whole, we favor granting to cities the fullest measure of home rule, as well as the initiative, referendum and recall.

#### FOR STATE AID FOR HIGHWAYS.

We pledge the enactment without further delay of laws for the substantial and permanent improvement of highways under state supervision and with state aid.

#### DECLARE FOR AN INCOME TAX, STATE AND NATIONAL.

We favor the immediate passage of a graduated income tax law, with reasonable exemptions, and the ratification of the proposed amendment to the federal constitution permitting a national income tax.

#### OPPOSE STATE CONTROL OF WATER POWERS IN PUBLIC DOMAIN.

We are unalterably opposed to the surrender to the states by the federal government of its control over water power sites still a part of the national domain.

#### FOR STATE AND NATIONAL CONSERVATION OF NATURAL RESOURCES.

The conservation of the natural resources of soil, forest, mines and water power and the settlement of the uncultivated lands suitable for agriculture, are the foundations of the prosperity of the state. We pledge legislation that shall encourage the earliest and highest development of these resources, while retaining all the rights of the people in them. A general law should be passed outlining a comprehensive plan for the development and operation of water power plants and providing proper restrictions under which water power franchises may be obtained, to the end that all persons holding water power rights may be made subject to the same general law. Private monopoly should be controlled by the leasing of water power on limited permits subject to regulation, valuation and reasonable compensation. Prompt action should be taken to complete our forest reserves as soon as practicable and to preserve our forests from destruction by fire.

#### FAVOR LEGISLATION TO CONSERVE PUBLIC HEALTH.

We commend the efforts designed to secure greater efficiency in public health agencies and favor such legislation as will better conserve the life and health of our citizens, particularly the advancement of the well established methods of controlling and eliminating the cause of diseases known to be preventable.

#### PLEDGE PARTY TO PROSECUTE WORK IN PUBLIC INTEREST.

The efficient administration of the progressive legislation enacted in Wisconsin, and especially the work of the railroad commission in the regulation of rates and services of public service corporations and of the dairy and food department, in fearlessly safeguarding the public against fraud and adulteration in food products is commended. And we pledge the hearty support of a Republican administration and a Republican legislature to the maintenance, advancement and more vigorous prosecution of this great work in the public interest.

#### DECLARE FOR INVESTIGATION OF CO-OPERATIVE METHODS TO AMELIORATE THE HIGH COST OF LIVING.

The high cost of living in cities, compared with the prices received by farmers for their products, requires our immediate attention; we denounce the suppression by special interests in Congress of the investigations of the country

life commission, and we favor a thorough investigation of the conditions of country and city life, as an aid in bringing the wage-earner and farmer closer together, eliminating the wastes of distribution, promoting co-operative selling, buying, storage and warehousing, co-operative credit and knowledge of co-operative methods, collective bargaining and arbitration between employers and employes, and the encouragement of the ownership of homes by wage-earners and farmers.

#### FAVOR EMPLOYERS' LIABILITY AND WORKMEN'S COMPENSATION LAWS.

Losses occasioned by bodily injuries in industrial accidents should be borne by the industry in the first instance rather than by the disabled wage-earner or his dependents. We pledge immediate enactment of employers' liability laws, so framed as to meet the requirements of present conditions, and to the immediate creation of a system of workmen's compensation. We favor a thorough investigation of the subject of occupational diseases, with a view to the early enactment of suitable legislation.

#### CONDEMN EXCESSIVE LABOR HOURS AND BAD CONDITIONS.

Excessive hours of labor of children and women are a menace to the health, intelligence and industry of the state. Adults working under unwholesome conditions and excessive hours require the protection of the law. Public employment should be made model employment. We favor such labor and factory legislation, such thorough factory inspection, such provision for the health of workers, such enforcement of the truancy laws, and such investigation of tenement house conditions as shall place Wisconsin on a level with the most progressive states or nations.

#### COMMEND WORK OF THE STATE UNIVERSITY.

We are proud of the high eminence attained by our state university. We attribute its advancement both to the able and courageous guidance of its president and faculty and to the progressive and enlightened character of the citizenship that sustains it. We commend its research work, illustrated by what has been accomplished in agricultural and dairy affairs, conserving our natural resources which have affected a saving of millions of dollars annually to the people of our state. We also commend its investigations for the improvement of the relations of men to one another. We regard the university as the people's servant, carrying knowledge and assistance to the homes and farms and workshops, and inspiring the youth toward individual achievement and good citizenship. We recognize that its service to the state, through investigations in agriculture, industry and social institutions, depends upon its freedom to find the truth and make it known, and we pledge the Republican party to the policy of academic freedom so well expressed by the Board of Regents in 1894, when they declared: "Whatever may be the limitations which trammel inquiry elsewhere, we believe that the great state university of Wisconsin should ever encourage that continual and fearless sifting and winnowing by which alone the truth can be found."

#### PLEDGE LAWS TO BETTER EDUCATIONAL SYSTEM.

The progress and permanency of republican institutions depend upon the intelligence of the people. The enactment and enforcement of wholesome laws require a broad understanding of the principles of good government. The education of the children is one of the most important duties of the state. The Republican party pledges such legislation as may be needed to secure such improvement of our educational system as will insure to every child the opportunity to obtain a liberal and practical education.

## COMMEND SERVICE OF STATE COMMISSIONS.

The creation of state commissions has been necessary to secure better railway service and an equitable adjustment of the tax burdens of the state. Through such commissions over \$1,800,000 is now annually collected in railway taxes more than was paid ten years ago.

Of the increased revenues so received, the cost of administration is less than six per cent of the amount collected, while approximately eighty per cent is used to meet the growing necessities of the educational, charitable and penal institutions of the state. During the same period the administrative duties of five of the largest state departments have more than doubled, according to official data, while the increased annual expenses of all these departments have been less than two per cent. We commend the economical administration of state business which has been conducted under recent Republican administrations, and pledge the party to its continuance.

## FAVOR OPERATION OF BINDER TWINE PLANT.

In the year 1907 the legislature of this state empowered the Board of Control to establish and maintain a plant for the manufacture of binder twine in the state prison at Waupun and appropriated \$125,000 for this purpose. Believing that the investment of public money already made should be safeguarded, we favor the immediate completion of this plant and its operation by state convicts in the manufacture of binder twine.

## URGE DEVELOPMENT OF RIVER TRAFFIC.

We urge that the federal government take action immediately, to determine the type of craft best adapted for use on our rivers, and the proper method of operating the same, to the end that the future improvement of rivers shall conform to and harmonize with such method of operation.

## FAVOR DRAINAGE LAW CHANGES.

We favor amendment of our drainage laws, which will simplify and economize proceedings, insure benefits to the lands drained commensurate with the expense of draining, and protect the taxpayers of the county from unjust taxation.

## DECLARE FOR EXTENSION OF AD VALOREM TAXATION SYSTEM.

The ad valorem system of taxation of public service corporations has demonstrated the wisdom and fairness of that system. We favor the enactment of laws extending this system of taxation to all public service corporations of this state.

With a firm conviction of duty well performed, and reaffirming allegiance to the glorious record of the Republican party upon all issues vital to the people, we await with confidence their verdict.

## PLATFORM OF THE DEMOCRATIC PARTY.

Adopted at Denver, Col., July 10, 1908.

We, the representatives of the Democrats of the United States, in national convention assembled, reaffirm our belief in and pledge our loyalty to the principles of the party.

We rejoice at the increasing signs of an awakening throughout the country. The various investigations have traced graft and political corruption to the representatives of predatory wealth, and laid bare the unscrupulous methods by which they have debauched elections and preyed upon a defenceless public through the subservient officials whom they have raised to place and power.

The conscience of the nation is now aroused to free the government from the grip of those who have made it a business asset of the favor-seeking corporations; it must become again a peoples' government, and be administered in all its departments according to the Jeffersonian maxim of "equal rights to all and special privileges to none."

"Shall the people rule?" is the overshadowing issue which manifests itself in all the questions now under discussion.

**THE MISUSE OF PATRONAGE.**—We condemn as a violation of the spirit of our institutions the actions of the present Chief Executive in using the patronage of his high office to secure the nomination of one of his Cabinet officers. A forced succession in the Presidency is scarcely less repugnant to public sentiment than is life tenure in that office. No good intention on the part of the executive and no virtue in the one selected can justify the establishment of a dynasty. The right of the people to freely select their officials is inalienable and cannot be delegated.

**PUBLICITY OF CAMPAIGN CONTRIBUTIONS.**—We demand Federal legislation for ever terminating the partnership which has existed between corporations of

the country and the Republican party under the expressed or implied agreement that in return for the contributions of great sums of money wherewith to purchase elections they should be allowed to continue substantially unmolested in their efforts to enroach upon the rights of the people.

Any reasonable doubt as to the existence of this relation has been forever dispelled by the sworn testimony of witnesses examined in the insurance investigation in New York and the open admission, unchallenged by the Republican National Committee, of a single individual that he himself, at the personal request of the Republican candidate for the Presidency, raised more than a quarter of a million of dollars to be used in a single state during the closing hours of the last campaign. In order that this practice shall be stopped for all time we demand the passage of a statute punishing with imprisonment any officer of a corporation who shall either contribute on behalf of or consent to the contribution by corporations of any money or thing of value to be used in furthering the election of a President or Vice-President of the United States or of any member of congress thereof.

We denounce the action of the Republican party, having complete control of the Federal Government, for its failure to pass the bill introduced in the last Congress to compel the publication of the names of contributors and the amounts contributed toward Congress funds, and point to the evidence of their insincerity when they sought by an absolutely irrelevant and impossible amendment to defeat the passage of the bill. As a further evidence of their intention to conduct their campaign in the coming contests with vast sums of money wrested from favor-seeking corporations, we call attention to the fact that the recent Republican National Convention at Chicago refused, when the plank was presented to it, to declare against such practices,

We pledge the Democratic party to the enactment of a law preventing any corporation contributing to a campaign fund, and any individual from contributing an amount above a reasonable minimum, and providing for the publication before election of all such contributions above a reasonable minimum.

**THE RIGHTS OF THE STATES.**—Believing, with Jefferson, in "the support of the State Governments in all their rights as the most competent administration for our domestic concerns and the surest bulwark against anti-Republican tendencies," and in "the preservation of the general government in its whole constitutional vigor as the sheet anchor of our peace at home and safety abroad," we are opposed to the centralization implied in the suggestions, now frequently made, that the powers of the general government should be extended by judicial construction. There is no twilight zone between the Nation and the State in which exploiting interests can take refuge from both; and it is as necessary that the Federal Government shall exercise the powers delegated to it as it is that the State Government shall use the authority reserved to them, but we insist that Federal remedies for the regulation of interstate commerce and for the prevention of private monopoly shall be added to, not substituted for state remedies.

**TARIFF.**—We welcome the belated promises of tariff reform now affected by the Republican party in tardy recognition of the righteousness of the Democratic position on this question, but the people cannot safely trust the execution of this important work to a party which is so deeply obligated to the highly protected interests as is the Republican party. We call attention to the significant fact that the promised relief was postponed until after the coming election—an election to succeed in which the Republican party must have that same support from the beneficiaries of the high protective tariff as it has always heretofore received from them; and to the further fact that during years of uninterrupted power no action whatever has been taken by the Republican Congress to correct the admittedly existing tariff inequities.

We favor immediate revision of the tariff by the reduction of import duties. Articles entering into competition with trust controlled products should be placed upon the free list, and material reductions shall be made in the tariff

upon the necessities of life, especially upon articles competing with such American manufacturers as are sold abroad more cheaply than at home, and graduated reductions should be made in such other schedules as may be necessary to restore the tariff to a revenue basis.

Existing duties have given to the manufacturers of paper a shelter behind which they have organized combinations to raise the price of pulp and of paper, thus imposing a tax upon the spread of knowledge. We demand the immediate repeal of the tariff on pulp, print paper, lumber, timber and logs and that these articles be placed upon the free list.

**TRUSTS.**—A private monopoly is indefensible and intolerable. We therefore favor the vigorous enforcement of the criminal law against guilty trust magnates and officials, and demand the enactment of such additional legislation as may be necessary to make it impossible for a private monopoly to exist in the United States.

Among the additional remedies we specify three: First, a law preventing a duplication of directors among competing corporations; second, a license system which will, without abridging the right of each state to create corporations or its rights to regulate as it will foreign corporations doing business within its limits, make it necessary for a manufacturing or trading corporation engaged in interstate commerce to take out a Federal license before it shall be permitted to control as much as 25 per cent. of the product in which it deals, a license to protect the public from watered stock and to prohibit the control by such corporation of more than 50 per cent. of the total amount of any product consumed in the United States; and, third, a law compelling such licensed corporations to sell to all purchasers in all parts of the country on the same terms after making due allowance for cost of transportation.

**RAILROAD REGULATION.**—We assert the right of Congress to exercise complete control over interstate commerce and the right of each state to exercise like control over commerce within its borders.

We demand such enlargement of the powers of the Interstate Commerce Commission as may be necessary to compel railroads to perform their duties as common carriers and prevent discrimination and extortion.

We favor the efficient supervision and rate regulation of railroads engaged in interstate commerce; to this end we recommend the valuation of railroads by the Interstate Commerce Commission, such valuation to take into consideration the physical value of the property, the original cost and cost of reproduction and all elements of value that will render the valuation made fair and just.

We favor such legislation as will prohibit the railroads from engaging in business which brings them into competition with their shippers; also legislation which will assure such reduction in transportation rates as conditions will permit, care being taken to avoid reductions that would compel a reduction of wages, prevent adequate service or do injustice to legitimate investments. We heartily approve the laws prohibiting the pass and the rebate, and we favor any further necessary legislation to restrain, control and prevent such abuses.

We favor such legislation as will increase the power of the Interstate Commerce Commission, giving to it the initiative with reference to rates and transportation charges put into effect by the railroad companies, and permitting the Interstate Commerce Commission, in its own initiative, to declare a rate illegal and as being more than should be charged for such service. The present law relating thereto is inadequate by reason of the fact that the Interstate Commerce Commission is without power to fix or investigate a rate until complaint has been made to it by the shipper.

We further declare that all agreements of traffic or other associations of railway agents affecting interstate rates, service or classification, shall be unlawful unless filed with and approved by the Interstate Commerce Commission.

We favor the enactment of a law giving to the Interstate Commerce Commis-

sion the power to inspect proposed railroad tariff rates or schedules before they shall take effect, and if they be found to be unreasonable, to initiate an adjustment thereof.

**BANKING.**—The panic of 1907, coming without any legitimate excuse, when the Republican party had for a decade been in complete control of the Federal Government, furnishes additional proof that it is either unwilling or incompetent to protect the interests of the general public. It has so linked the country to Wall Street that the sins of the speculators are visited upon the whole people. While refusing to rescue wealth producers from spoliation at the hands of the stock gamblers and speculators in farm products, it has deposited Treasury funds, without interest and without competition, in favorite banks. It has used an emergency for which it is largely responsible to force through Congress a bill changing the basis of bank currency and inviting market manipulation, and has failed to give to the fifteen million depositors of the country protection in their savings.

We believe that, in so far as the needs of commerce require an emergency currency, such currency should be issued, controlled by the Federal Government and loaned on adequate security to national and State banks. We pledge ourselves to legislation under which the national banks shall be required to establish a guarantee fund for the prompt payment of the depositors of any insolvent national bank under an equitable system which shall be available to all State banking institutions wishing to use it.

We favor a postal savings bank, if the guaranteed bank cannot be secured, and that it be constituted so as to keep the deposited money in the communities where it is established; but we condemn the policy of the Republican party in providing postal savings banks under a plan of conduct by which they will aggregate the deposits of rural communities and redeposit the same while under Government charge in the banks of Wall Street, thus depleting the circulating medium of the producing regions and unjustly favoring the speculative markets.

**INCOME TAX.**—We favor an income tax as part of our revenue system, and we urge the submission of a constitutional amendment specifically authorizing Congress to levy and collect a tax upon individual and corporate incomes to the end that wealth may bear its proportionate share of the burdens of the Federal Government.

**LABOR AND INJUNCTIONS.**—The courts of justice are the bulwark of our liberty, and we yield to none in our purpose to maintain their dignity. Our party has given to the bench a long line of distinguished judges, who have added to the respect and confidence in which this department must be jealously maintained. We resent the attempt of the Republican party to raise false issues respecting the judiciary. It is an unjust reflection upon a great body of our citizens to assume that they lack respect for the courts.

It is the function of the courts to interpret the laws which the people create, and if the laws appear to work economic, social or political injustice, it is our duty to change them. The only basis upon which the integrity of our courts can stand is that of unswerving justice and protection of life, personal liberty and property. If judicial processes may be abused, we should guard them against abuse.

Experience has proven the necessity of a modification of the present law relating to injunctions, and we reiterate the pledge of our national platforms of 1896 and 1904 in favor of the measure which passed the United States Senate in 1896 but which a Republican Congress has ever since refused to enact, relating to contempts in Federal courts and providing for trial by jury in cases of indirect contempt.

Questions of judicial practice have arisen, especially in connection with industrial disputes. We deem that the parties to all judicial proceedings should be treated with rigid impartiality, and that injunctions should not be issued in any cases in which injunctions would not issue if no industrial dispute were involved.

The expanding organization of industry makes it essential that there should be no abridgement of the right of wage earners and producers to organize for the protection of wages and the improvement of labor conditions, to the end that such labor organizations and their members should not be regarded as illegal combinations in restraint of trade.

We favor the eight-hour day on all Government work.

We pledge the Democratic party to the enactment of a law by Congress, as far as the Federal jurisdiction extends for a general employers' liability act covering injury to body or loss of life of employees.

We pledge the Democratic party to the enactment of a law creating a department of labor, represented separately in the President's Cabinet, which department shall include the subject of mines and mining.

**MERCHANT MARINE.**—We believe in the upbuilding of the American merchant marine without new or additional burdens upon the people and without bounties from the public treasury.

**THE NAVY.**—The constitutional provision that a navy shall be provided and maintained means an adequate navy, and we believe that the interests of this country would be best served by having a navy sufficient to defend the coasts of this country, and protect American citizens wherever their rights may be in jeopardy.

**PROTECTION OF AMERICAN CITIZENS.**—We pledge ourselves to insist upon the just and lawful protection of our citizens at home and abroad and to use all proper methods to secure for them, whether native born or naturalized, and without distinction of race or creed, the equal protection of law and the enjoyment of all rights and privileges open to them under our treaties; and if, under existing conditions, the right of travel and sojourn is denied to American citizens, or recognition is withheld from American passports by any countries on the ground of race or creed, we favor prompt negotiations with the governments of such countries to secure the removal of these unjust discriminations.

We demand that all over the world a duly authorized passport issued by the Government of the United States to an American citizen shall be proof of the fact that he is an American citizen and shall entitle him to the treatment due him as such.

**CIVIL SERVICE.**—The laws pertaining to the Civil Service shall be honestly and rigidly enforced to the end that merit and ability shall be the standard of appointment and promotion rather than services rendered to a political party.

**PENSIONS.**—We favor a generous pension policy, both as a matter of justice to the surviving veterans and their dependents and because it tends to relieve the country of the necessity of maintaining a large standing army.

**HEALTH BUREAU.**—We advocate the organization of all existing national public health agencies into a national bureau of public health, with such power over sanitary conditions connected with factories, mines, tenements, child labor and such other subjects as are properly within the jurisdiction of the Federal Government and do not interfere with the power of the States controlling public health agencies.

**AGRICULTURAL AND MECHANICAL EDUCATION.**—The Democratic party favors the extension of agricultural, mechanical and industrial education. We therefore favor the establishment of district agricultural experiment stations and secondary agricultural and mechanical colleges in the several states.

**POPULAR ELECTION OF SENATORS.**—We favor the election of United States Senators by direct vote of the people and regard this reform as the gateway to other national reforms.

**OKLAHOMA.**—We welcome Oklahoma to the sisterhood of states, and heartily congratulate her on the auspicious beginning of a great career.

**ARIZONA AND NEW MEXICO.**—The national Democratic party has for the last sixteen years labored for the admission of Arizona and New Mexico as sepa-

rate states of the Federal Union, and recognizing that each possesses every qualification to successfully maintain separate state governments, we favor the immediate admission of these territories as separate states.

**CRAZING LANDS.**—The establishment of rules and regulations, if any such are necessary, in relation to free grazing upon the public lands outside of forest or other reservations until the same shall eventually be disposed of should be left to the people of the states respectively in which such lands may be situated.

**WATERWAYS.**—Water furnishes the cheapest means of transportation, and the National Government, having the control of navigable waters, should improve them to their fullest capacity. We earnestly favor the immediate adoption of a liberal and comprehensive plan for improving every watercourse in the Union which is justified by the needs of commerce, and to secure that end we favor, when practicable, the connection of the Great Lakes with the navigable rivers and with the Gulf through the Mississippi river, and the navigable rivers with each other, and the rivers, bays and sounds of our coasts with each other by artificial canals, with a view to perfecting a system of inland waterways, to be navigated by vessels of standard draught.

We favor the co-ordination of the various services of the Government connected with waterways in one service, for the purpose of aiding in the completion of such a system of inland waterways; and we favor the creation of a fund ample for continuous work, which shall be conducted under the direction of a commission of experts to be authorized by law.

**POST ROADS.**—We favor Federal aid to state and local authorities in the construction and maintenance of post roads.

**ARBITRARY POWER OF SPEAKER.**—The House of Representatives was designed by the fathers of the Constitution to be the popular branch of our Government, responsive to the public will.

The House of Representatives, as controlled in recent years by the Republican party, has ceased to be a deliberate and legislative body, responsive to the will of a majority of its members, but has come under the absolute domination of the Speaker, who has entire control of its deliberations and powers of legislation.

We have observed with amazement the popular branch of our Federal Government helpless to obtain either the consideration or enactment of measures desired by a majority of its members.

Legislative government becomes a failure when one member in the person of the Speaker is more powerful than the entire body.

We demand that the House of Representatives shall again become a deliberate body, controlled by a majority of the people's representatives, and not by the speaker, and we pledge ourselves to adopt such rules and regulations to govern the House of Representatives as will enable a majority of its members to direct its deliberations and control legislation.

**ECONOMY IN ADMINISTRATION.**—The Republican Congress in the session just ended has made appropriations amounting to \$1,008,000,000, exceeding the total expenditures of the last fiscal year by \$90,000,000 and leaving a deficit of more than \$60,000,000 for the fiscal year. We denounce the needless waste of the people's money which has resulted in this appalling increase as a shameful violation of all prudent conditions of government, as no less than a crime against the millions of working men and women from whose earnings the great proportion of these colossal sums must be extorted through excessive tariff exactions and other indirect methods. It is not surprising that in the face of this shocking record the Republican platform contains no reference to economical administration or promise thereof in the future. We demand that a stop be put to this frightful extravagance and insist upon the strictest economy in every department compatible with frugal and efficient administration.

**OFFICEHOLDERS.**—Coincident with the enormous increase in expenditures is a like addition to the number of officeholders. During the last year 23,784

were added, costing \$16,156,000, and in the last six years of the Republican administration the total number of new offices created, aside from many commissions, has been 99,319, entailing an additional expenditure of nearly seventy million dollars, as against only 10,279 new offices created under the Cleveland and McKinley administrations, which involved an expenditure of only \$6,000,000. We denounce this great and growing increase in the number of officeholders as not only unnecessary and wasteful but also as clearly indicating a deliberate purpose on the part of the administration to keep the Republican party in power at public expense by thus increasing the number of its retainers and dependents. Such procedure we declare to be no less dangerous and corrupt than the open purchase of votes at the polls.

**NATURAL RESOURCES.**—We repeat the demand for internal development and for the conservation of our natural resources contained in previous platforms, the enforcement of which Mr. Roosevelt has vainly sought from a reluctant party, and to that end we insist upon the preservation, protection and replacement of needed forests, the preservation of the public domain for homeseekers, the protection of the national resources in timber, coal, iron, and oil against monopolistic control, the development of our waterways for navigation and every other useful purpose, including the irrigation of arid lands, the reclamation of swamp lands, the clarification of streams, the development of water power and the preservation of electric power generated by this natural force from the control of monopoly; and to such end we urge the exercise of all powers, national, state, and municipal, both separately and in co-operation.

We insist upon a policy of administration of our forest reserve which shall relieve it of the abuses which have arisen thereunder, and which shall, as far as practicable, conform to the police regulations of the several states where they are located which shall enable homesteaders as of right to occupy and acquire title to all portions thereof which are especially adapted to agriculture, and which shall furnish a system of timber sales available as well to the private citizen as to the larger manufacturer and consumer.

**PHILIPPINES.**—We condemn the experiment in imperialism as an inexcusable blunder, which has involved us in an enormous expense, brought us weakness instead of strength, and laid our nation open to the charge of abandoning a fundamental doctrine of self-government. We favor an immediate declaration of the nation's purpose to recognize the independence of the Philippine Islands as soon as a stable government can be established, such independence to be guaranteed by us as we guarantee the independence of Cuba, until the neutralization of the islands can be secured by treaty with other powers. In recognizing the independence of the Philippines our Government should retain such land as may be necessary for coaling stations and naval bases.

**PAN-AMERICAN RELATIONS.**—The Democratic party recognizes the importance and advantage of developing closer ties of Pan-American friendship and commerce between the United States and her sister nations of Latin America, and favors the taking of such steps, consistent with Democratic policies, for better acquaintance, greater mutual confidence and larger exchange of trade as will bring lasting benefit not only to the United States but to this group of American republics having constitutions, forms of government, ambitions and interests akin to our own.

**TELEGRAPH AND TELEPHONE.**—We pledge the Democratic party to the enactment of a law to regulate the rates and services of telegraph and telephone companies engaged in the transmission of messages between the states, under the jurisdiction of the Interstate Commerce Commission.

**ASIATIC IMMIGRATION.**—We favor full protection, by both national and state governments within their respective spheres, of all foreigners residing in the United States under treaty, but we are opposed to the admission of Asiatic immigrants who cannot be amalgamated with our population, of whose presence among us would raise a race issue and involve us in diplomatic controversies with Oriental powers.

ALASKA AND PORTO RICO.—We demand for the people of Alaska and Porto Rico the full enjoyment of the rights and privileges of a territorial form of government, and the officials appointed to administer the government of all our territories and the District of Columbia should be thoroughly qualified by previous bona fide residence.

HAWAII.—We favor the application of all the principles of the land laws of the United States to our newly acquired territory, Hawaii, to the end that the public lands of that territory may be held and utilized for the benefit of bona fide homesteaders.

PANAMA CANAL.—We believe the Panama Canal will prove of great value to our country and favor its speedy completion.

FOREIGN PATENTS.—We believe that where an American citizen holding a patent in a foreign country is compelled to manufacture under his patent within a certain time similar restrictions should be applied in this country to the citizens or subjects of such a country.

CONCLUSION.—The Democratic party stands for democracy, the Republican has drawn to itself all that is aristocratic and plutocratic.

The Democratic party is the champion of civil rights and opportunities to all; the Republican party is the party of privileges and private monopoly. The Democratic party listens to the voice of the whole people and gauges progress by the prosperity and advancement of the average man; the Republican party is subservient to the comparatively few who are the beneficiaries of governmental favoritism. We invite the co-operation of all regardless of previous political affiliation or past differences, who desire to preserve a government of the people, by the people and for the people, and who favor such an administration of the government as will insure, as far as human wisdom can, that each citizen shall draw from society a reward commensurate with his contribution to the welfare of society.

## DEMOCRATIC STATE PLATFORM.

We, the candidates of the Democratic party, duly assembled according to law, do hereby reaffirm the declaration of principles contained in the platform adopted by the National Democratic Convention, held in Denver, 1908, and do further adopt and promulgate the following declaration of principles.

### AIMS OF DEMOCRACY.

Democracy is a conservator of property and of the equal rights and liberties of all the people. It opposes alike paternalism and communism. It is a friend to both capital and labor. It adds to the reward of human endeavor

by giving equal opportunity to all and special privileges to none; but it emphatically denies that wealth and cunning cooperating together may lawfully concentrate into a few hands the profits of the productive energy of the nation.

#### TARIFF.

We hold that the Republican system of tariff protection, like any other system of laws which enables the favored few to take, without consideration, a large portion of the earnings of toiling millions, is economically unsound, politically corrupt, contrary to sound morals and is legalized robbery. It brings into close combination two dangerous forces in the life of this republic, unmerited vaunting political ambition and corrupt commercial avarice.

We denounce the Payne-Aldrich tariff act, passed by the Republican party in flagrant violation of a solemn promise made by such party to the people, as an indefensible masterpiece of injustice, legally authorizing remorseless extortions from the many to enrich the few through the operation of trusts and monopolies which it fosters. Tariff taxation, like other taxation, should be for revenue purposes only and not for private profit, and should be so levied as not to discriminate against, nor be in favor of any section, class, industry or corporation and limited to the actual necessities of government, honestly and economically administered. We insist that any law enacted with the intention of enabling individuals, or corporations, to levy tribute upon the American people, or to guarantee a "reasonable profit" to any class, is in violation of the constitution of the United States and is indefensible from either a legal or moral standpoint. We favor any honest, nonpartisan investigation of the tariff by authorized experts to the end that the electors of the nation may be enlightened as to the iniquity of the present system of spoilation, established and maintained by the Republican party for the past fifty years; but we regard the creation of a board of tariff experts by the last congress and the appropriation of a quarter of a million of dollars to enable them to visit foreign countries, and then specifically limiting the report of their investigations to the president alone, as a mere subterfuge satisfactory to the special interests, intended to deceive the American people, and deliberately proposed to indefinitely postpone a reduction of tariff taxation.

We approve of the gallant opposition of the Democratic members of congress to the enactment of the Payne-Aldrich tariff act and pledge our candidates for congress and United States senate to work and vote for an honest reduction of the tariff in favor of the people, without reference to the interests of the product of any trust or combination whatever.

#### INCOME TAX.

We favor the ratification of the proposed amendment to the United States constitution, authorizing congress to levy and collect a graduated income tax.

We favor the immediate enactment of a graduated income tax law pursuant to the amendment of the constitution of Wisconsin as ratified by the people of this state at the last election.

#### ELECTION OF UNITED STATES SENATORS.

We favor the amendment of the constitution of the United States in such manner as to permit of the election of United States senators by direct vote of the people

#### 3. SUBSIDIES.

We are opposed to all subsidies by the government, and we especially condemn the ship subsidy bill, pending before congress.

#### POSTAL SAVINGS BANK AND LAWS.

We denounce the postal savings bank law, passed by the Republican party, which forces the savings of the people from the localities where such moneys are needed for business purposes, to the money centers of Wall street, and

specifically reaffirm the declaration contained in the last National Democratic platform in favor of guaranteed bank deposits and postal savings banks.

We direct attention to the fact that while seeking to retain the Republican party in power, and to retain their official places, the insurgent faction of that party are now promulgating the long delayed public confessions, that for more than a quarter of a century the party with which they have been and are now allied, has deceived and betrayed the American people, robbed them of representative government, and fastened upon them the shackles of political and industrial slavery, and we emphasize the assurance that the return of the united Democratic party to power in the nation, will restore to the American people their rights and liberties under the constitution long before the Republican factions will have reformed each other.

We condemn the hypocrisy of the Republican members now claiming to be opposed to Cannonism and yet refusing to join the Democrats in congress in accepting Cannon's challenge to remove him from office, and we assert with confidence that Cannonism can be overturned by the success of the Democratic power.

We favor the amendment of the rules of the house of representatives to enable the representatives to choose the members of their own committees.

#### NATURAL RESOURCES.

We charge that the Republican party has been a reckless squanderer of our natural resources. Of our public domain, once the greatest heritage of our people, the Republican party has from the year 1862 down to the present time granted to corporations 182,419,568 acres and to foreign capitalists and noblemen 17,172,000 acres, equal in the aggregate to the size of ten average states of the union; from all of which the people of the United States derived no profit or compensation whatever.

The Democratic party, during its history, added to our public territory the lands bounded by the Mississippi river on the east and the Pacific ocean on the west, and consistently conserved these lands for the use of homesteaders of the nation. During approximately three-quarters of a century of Democratic rule, there was granted of the public domain to the several states, in trust only for the education of the people, 67,893,919 acres of land. During the whole of that period Democracy opposed the countless schemes and importunities of friends and favorites and refused to grant any of the public domain except to bona fide homesteaders and for the purpose of free public education. We point to these facts of history as evidences of the attitude of the Democratic party in respect to the conservation of our natural resources.

True to the policy and history of the Democratic party, we favor the conservation of our natural resources and we denounce the president of the United States for appointing to and retaining in office Secretary Ballinger, and denounce such secretary for dismissing from the public service tried and true officers, who fought for the preservation of such resources.

The Democratic party favors the conservation of all the natural resources of the state for the benefit of the many instead of the few. We believe that the resources of the state are the heritage of all and should be conserved for the benefit of all.

Believing in the principle of equal rights to all and special privileges to none, we declare ourselves against the giving of any franchise without exacting in return just compensation therefor. Special compensation should always be paid for special privilege.

We therefore favor the special taxation of all water power franchises hereafter granted and all water power franchises heretofore granted in so far as the state has the power to tax them. And we further favor the special tax on all franchises for the use or benefit of any of the natural resources of the state hereafter granted or heretofore granted in so far as the state has power to tax them.

We further favor that if such person or corporation shall refuse to pay such taxes or become a party to any trust, it shall forfeit any and all rights in and to the franchises granted to such person or corporation.

#### STATE CONTROL OF TRUSTS.

It is within the power of the state to protect its citizens against the extortions of trusts. It is the duty of public officers to rigorously enforce against trusts and combinations the statute law of the state, and we pledge ourselves to the enactment of such further legislation as will shield and protect our citizens from the oppression of trusts operating within the state.

#### CAMPAIGN CONTRIBUTIONS.

We condemn the extravagant use of money contributed by individuals or corporations to control either the primary or general elections as corrupting and debauching the electors of the state; and we condemn the use of public funds and the waste of the time of salaried public servants to control or influence either primary or general elections as a breach of public trust; and we condemn the practice of candidates and party managers secretly soliciting campaign contributions from individuals or corporations, either upon the express or implied promise to extend governmental favors if the request is complied with, and by threats or intimidation if the request is denied.

We pledge ourselves to the enactment of a law requiring the publication of a detailed statement of all contributions and expenses, both before and after the primary and before and after the general election. We favor the enactment and rigorous enforcement of a stringent corrupt practices act, limiting the amount to be expended by and for each candidate, to the end that politics may be purified and that all violating such act shall be adequately punished and that any successful candidate violating its provisions shall, in addition to any other punishment prescribed by law forfeit all rights to the nomination, if he violated such act during the primary, and the forfeiture of his office in case of the violation of the provisions of the act, either during the primary or general election.

We condemn the action of the Republican party in Wisconsin for the enactment of a law which was deliberately intended to prevent political parties, excepting the Republican party, from having a place as a party on the official ticket, and demand the unconditional repeal of the so-called 20 per cent law.

#### EXTRAVAGANCE.

We favor the application of strict business methods to the administration of the federal government in order to reduce its fast growing, useless and extravagant expenses which involve a waste, now admitted to be \$300,000,000 per year. We reaffirm our devotion to the Democratic principles of economy in public expenditures, both state and national. We denounce the reckless and unjustifiable expenditures of the Republican state and national administrations, and we oppose the practice of creating unnecessary offices for the purpose of supplying places to political henchmen, whose chief occupation is that of keeping the Republican party in power at the expense of the tax-payers; and demand that the expenses of state government be radically diminished by reducing the large army of unnecessary office holders and employees and by limiting expenses to necessary public purposes instead of wasting the same for the benefit of administration favorites or to promote the political advancement of party or a faction thereof.

If the people of Wisconsin will trust the Democratic party with the control of government, we hereby promise that we will carefully cause to be investigated and examined the books and records of the state for the purpose of ascertaining whether or not the funds of the state have been lawfully expended and appropriated for the use of the state and that we will institute proper proceedings to recover any and all moneys that may have been unlawfully expended or used.

We favor the enactment of a law requiring the presentation to the governor at least forty days before each biennial session of the legislature, a budget showing in detail the financial needs of the several state institutions and departments of state government to the end that the legislature may be fully advised in relation thereto.

#### EDUCATION.

Popular education being the only safe basis of popular government and the nursery of good government, we pledge that our common schools and higher institutions of education shall always receive the fostering care of the Democratic party; we favor every means of increasing intelligence. Freedom of and independence in education being the essential of civil and religious liberty, as well as the necessity of the development of intelligence, must not be interfered with on any pretext whatsoever by any party whatsoever.

#### INDUSTRIAL INSURANCE.

The Democratic party always has a profound interest in the welfare of laboring people and favors the enactment of a law providing for industrial insurance which shall justly compensate employes in case of injury received in their employment and justly compensate their families in case of death caused by such injuries, such enactment to be so framed as to do full justice as near as may be, alike to the employes and employers.

#### GOOD ROADS.

We favor the enactment of a law relative to the improvement of public highways, to the effect that the owners of all automobiles in this state be required to pay into the treasury of the state a reasonable and just license fee, graduated according to the weight and power of such automobiles, such moneys to be used for the sole and only purpose of improving the main highways in this state.

#### PERSONAL RIGHTS AND HOME RULE.

The Democratic party as a matter of history has been and now is opposed to sumptuary laws and kindred legislation which are an interference with the individual rights and liberties of citizens and we believe in the fundamental principles of the Democratic doctrine that the largest individual liberty, consistent with the rights of others, insures the highest type of American citizenship and the best government. We believe that the right of home rule is inherent in the smallest of the divisions into which the state is divided for governmental purposes, namely: towns, villages and cities, and that all questions of local concern should be determined by the electors of such separate divisions.

We hold it is the patriotic duty of all men, engaged in whatever business, profession, trade or calling, to take an active part in the nomination and election of public officers, and an intelligent, unselfish interest in legislation. We are opposed to county option, but we condemn, as dangerous to the public welfare, the selfish activity of any and all special interests, corporations and combinations of business enterprises, in the nomination or election of public officers, or in any manner aiding in the nomination, election or defeat of candidates for public office, or in attempting to control any legislation inimical to the common welfare. We believe that our government should be controlled by patriotic, unselfish men and not by the money influence, coercion or intimidation of selfish corporate interests.

In municipal affairs we favor the largest measure of home rule, consistent with the terms of the state constitution, and if legislation granting home rule to municipalities be found in conflict with any of the provisions of the constitution, than we favor such an amendment of the constitution as will make the application of the principals of home rule to cities constitutional, and we

STATE REFORMATORY ADMINISTRATION BUILDING—GREEN BAY

STATE REFORMATORY

believe it is strictly in accordance with the principles of home rule that the citizens of municipalities should be permitted by the state legislature to determine whether or not they shall adopt the initiative, the referendum and the recall.

#### INITIATIVE, REFERENDUM AND RECALL.

We favor the submission to the voters of an amendment to the constitution of Wisconsin, providing for the initiative, for the referendum and for the recall.

We favor the immediate enactment of the dollar a day pension bill introduced at and championed in both the 60th and 61st congresses by the Democratic veteran, General Isaac R. Sherwood of Ohio, and we condemn the arbitrary action of the Speaker of the House and the administration in refusing to allow this beneficent and patriotic measure to come to a vote in the house of representatives.

We favor the amendments to the primary election law which will simplify and make it as nearly as may be expressive of the free choice of the people.

#### PLATFORM OF THE PROHIBITION PARTY.

(Adopted at Columbus, Ohio, July 16, 1908).

The Prohibition party, of the United States, assembled in convention at Columbus, Ohio, July 15-16, 1908, expressing gratitude to almighty God for the victories of our principles in the past, for encouragement at present, and for confidence in early and triumphant success in the future makes the following declaration of principles and pledges their enactment into law when placed in power:

1. The submission by Congress to the several states, of an amendment to the Federal constitution prohibiting the manufacture, sale, importation, exportation, or transportation of alcoholic liquors for beverage purposes.
2. The immediate prohibition of the liquor traffic for beverage purposes in the District of Columbia, in the territories and all places over which the National Government has jurisdiction; the repeal of the internal revenue tax on alcoholic liquors and the prohibition of interstate traffic therein.
3. The election of United States Senators by direct vote of the people.
4. Equitable graduated income and inheritance taxes.
5. The establishment of postal savings banks and the guaranty of deposits in banks.

6. The regulation of all corporations doing an interstate commerce business.
7. The creation of a permanent tariff commission.
8. The strict enforcement of law instead of official tolerance and practical license of the social evil which prevails in many of our cities, with its unspeakable traffic in girls.
9. Uniform marriage and divorce laws.
10. An equitable and constitutional employers' liability act.
11. Court review of post-office department decisions.
12. The prohibition of child labor in mines, workshops and factories.
13. Legislation basing suffrage only upon intelligence and ability to read and write the English language.
14. The preservation of the mineral and forest resources of the country, and the improvement of the highways and waterways.

Believing in the righteousness of our cause and the final triumph of our principles, and convinced of the unwillingness of the Republican and Democratic parties to deal with these issues, we invite to full party fellowship all citizens who are with us agreed.

#### PROHIBITION PARTY STATE PLATFORM.

Adopted September 27, 1910.

The Prohibition Party State Convention, having drafted a platform and instructed their nominees in convention assembled, pursuant to law, September 27, 1910, to ratify the same we do hereby adopt their said platform in words as follows, to-wit:

1. The prohibition of the manufacture, sale, importation, exportation and transportation of alcoholic liquors for beverage purpose.
2. The election of United States Senators by direct vote of the people.
3. Equitable graduated income and inheritance tax.
4. State and national regulation of all corporations doing an interstate commerce business.
5. The creation of a permanent tariff commission.
6. Uniform marriage and divorce laws.
7. An equitable employers' liability act.
8. Court reviews of post-office department decisions, and
9. We further declare in favor of
  - (a) The strict enforcement of all laws and against official tolerance of law violation and vice and particularly by the practical license of the social evil which prevails in many of our cities with its unspeakable traffic in girls.
  - (b) The strict enforcement of the child labor law forbidding children to work in mines, workshops and factories.

(c) The right of suffrage to women on the same conditions as men.

(d) The reservation of the mineral, forest and water power resources of the country and the improvements of the highways and waterways, for public utility instead of graft.

(e) The modification of the present state primary law in the direction of simplicity so as to make it easier for individuals and party candidates to secure place on the official ballots, and

(f) The initiative, referendum, recall, and corrupt-practices act.

10. We are convinced by an experience of forty years in combating the liquor traffic, that local option and county option are no settlement of the liquor problem; but that the only way to secure effective prohibition is to erect prohibition men to office, and that it be the duty of every prohibitionist to use all of his energy and resources to secure national, as well as state prohibition thru a party pledged to do this work.

Believing in the justice of our cause and in the sure triumph of our principles, and being convinced of the inability of any other party to deal with these issues, we invite the cooperation at the ballot box of all citizens who are with us agreed.

### PLATFORM OF THE SOCIALIST LABOR PARTY, ADOPTED AT NEW YORK, JULY, 1908.

The Socialist Labor party of America, in convention assembled, reasserts the inalienable right of man to life, liberty and the pursuit of happiness.

We hold that the purpose of government is to secure to every citizen the enjoyment of this right; but, taught by experience, we hold furthermore that such right is illusory to the majority of the people to-wit: the working class, under the present system of economic inequality that is essentially destructive of their life, their liberty, and their happiness.

We hold that the true theory of politics is that the machinery of government must be controlled by the whole people; but again, taught by experience, we hold, furthermore, that the true theory of economics is that the means of production must likewise be owned, operated and controlled by the people in common. Man cannot exercise his right of life, liberty and the pursuit of happiness without the ownership of the land on and the tools with which to work. Deprived of these, his life, his liberty, and his fate fall into the hands of the class that owns those essentials for work and production.

We hold that the existing contradiction between the theory of democratic government and the fact of a despotic economic system—the private ownership of the natural and social opportunities—divides the people into two classes—the capitalist class and the working class; throws society into the convulsions of the class struggle, and perverts government to the exclusive benefit of the capitalist class.

Thus labor is robbed of the wealth which it alone produces, is denied the means of selfemployment, and by compulsory idleness in wage slavery, is even deprived of the necessaries of life.

Against such a system the Socialist Labor party raises the banner of revolt, and demands the unconditional surrender of the capitalist class.

The time is fast coming when, in the natural course of social evolution, this system, through the destructive action of its failures and crises on the one hand and the constructive tendencies of its trusts and other capitalist combinations on the other hand, will have worked out its own downfall.

We, therefore, call upon the wage-workers of America to organize under the banner of the Socialist Labor party into a class-conscious body, aware of its rights, and determine to conquer them.

And we also call upon all other intelligent citizens to place themselves squarely upon the ground of working-class interests, and join us in this mighty and noble work of human emancipation so that we may put summary end to the existing barbarous class conflict by placing the land and all the means of production, transportation and distribution into the hands of the people as a collective body, and substituting the cooperative commonwealth for the present state of planless production, industrial war and social disorder—a commonwealth in which every worker shall have the free exercise and full benefits of his faculties, multiplied by all the modern factors of civilization.

#### SOCIALIST LABOR STATE PLATFORM.

Adopted 1910.

The Socialist Labor Party of Wisconsin, in convention assembled, declares its affiliation with and its endorsement of the principles and tactics of the Socialist Labor Party of the United States.

Under our present system of society a government cannot be in the interests of all the people, because society is divided into two antagonistic classes. In fact, our present government, so-called "State" is essentially a capitalist state, and as such its primary function is to protect the property of the owners of the means of production and distribution who constitute the capitalist class, and this will hold good as long as the present private ownership of the means of production and distribution continues. It makes no difference whether certain industries are owned by private capitalists, as at present, or by the state. The difference would be in name only; instead of private capitalism we would have state capitalism. The only means that will ever bring about the salvation of the working class is the abolishment of the private ownership of the means of production and distribution, and the substitution therefor of all the means of production for use in place of the present production for profit.

In order to establish socialism, under which production will not be carried on for profit, it becomes absolutely necessary for the working class to organize themselves on the political field, as well as on the economic field into an industrial union to take over the industries and carry on production, thus establishing the industrial commonwealth in which every worker will enjoy the full product of his labor.

At the present time the capitalist system has developed to a point where the craft form of organization as represented by the American Federation of Labor has outgrown its usefulness, and can do very little good for the working class. This craft form of organization divides the workers. While one craft is out on strike the others, by remaining at work break the strike. And this same A. F. of L. is endorsed by the Social Democratic Party of Wisconsin, the Social Democratic Herald being the official organ of the Wisconsin State Federation of Labor and the Social Democratic Party.

Therefore we call upon the working classes to join the Socialist Labor Party as the political arm of the only revolutionary labor movement, and the Industrial Workers of the World with headquarters in Hamtramck, Mich., as the industrial arm:

## RESOLUTIONS.

Whereas, the immigration problem is one which the socialist movement has to contend with, be it

Resolved, that the Socialist Labor Party of Wisconsin take a position in accordance with the resolution adopted by the International Socialist Congress at Stuttgart. We brand all attempts at exclusion of any race or color by any so-called socialist party as hypocritical and a detriment to the labor movement of the world. Be it further

Resolved, that the immigration problem being an economic one, we see no reason why we should bar workers who also feel the yoke of the present industrial system in their respective country; and we further brand all attempts on the part of so-called labor organizations to ring in biological and other reasons for the exclusion of foreigners, as an evasion of the truth; and be it further

Resolved, that we hold that immigration has a tendency to intensify the class struggle and thereby hasten the overthrow of capitalism, we therefore stand for immigration in its broadest sense so as to hasten the doom of the capitalist system and rear the industrial government of the working class.

Whereas, a certain element is at work to mislead the revolutionary working class movement through its press and literature, be it

Resolved, that the Socialist Labor Party call upon all workers to read the Daily and Weekly People, Sozialistische Arbeiter Zeitung, Der Arbeiter, Arbeitaren, and the literature of the New York Labor News Co., in order that they may get acquainted with the movement of their class.

Whereas, the Socialist Labor Party is a working class party, standing for the interest of that class only, and therefore not having the support of the capitalist class; therefore be it

Resolved, that we call upon all working people and sympathizers to give us their moral and financial support in this fight. The emancipation of the working class must be the work of the working class itself.

#### STATE PLATFORM OF THE SOCIAL DEMOCRATIC PARTY.

The Social Democratic Party is the American political expression of the international movement of the modern working class for better food, better houses, sufficient sleep, more leisure, more education and more culture.

Under the present system society is rapidly dividing into two classes—the rich and the poor, the capitalist class and the proletariat. The one toils without enjoying, the other enjoys without toiling.

The wage earners of the cities and the farmers are the principal producers of this country. Under our present economic system both are exploited for the benefit of the capitalist class, the laborer on the sale of his labor power and the

farmer on the sale of his products. Both are again exploited in the purchase of practically all the necessities of life.

The final aim of the Social Democratic party is the emancipation of the producers and the abolition of the capitalistic system. For that purpose we organize the producing classes in city and country into a political party to take control of the powers of government.

The most characteristic expression of the present economic system is the trusts and the monopoly.

Electricity, steam and many modern inventions have struck the death blow at manufacturing on a small scale. Competition has wiped out competition. Manufacturing on a large scale makes monopoly an inevitable condition. The trust and the monopoly are here, whether we wish it or not. The only question is whether they shall be public or private monopolies.

#### MONOPOLIES—WHAT KIND?

Private monopoly is a curse to the nation. Thus we see the coal trust making untold millions out of the suffering of the poor; the oil trust piling up the greatest fortune the world has ever seen upon the ruin of innumerable small dealers, and in defiance of all laws and courts of justice; the meat trust sending thousands of unsuspecting human beings to an early grave by selling diseased meat, simply to make dividends and heap up millions. Similar statements could be proven against all the other trusts.

The trusts have proven that nowadays a small number of capitalists have it in their power to decide how much meat and how much bread we shall eat; how much we shall spend for coal and how much for oil; how nicely or how poorly we shall be clothed and housed; what kind of furniture we are permitted to use; and in what kind of a coffin we are to be buried. They can do this by fixing the price of everything. In short, the trusts decide how well or how ill, how long or how short a time we shall live.

The policy of "regulation" has failed. The trusts dominate congress, the legislatures, the courts and the executive officers to a degree that makes so-called governmental control a farce. The only solution is collective ownership and democratic control.

#### TAKES PRODUCTION FROM FEW.

The inability of the present economic system to keep all willing workers employed at all times is its greatest curse. This fact condemns it as unfit to meet the demands of a modern civilization. The fear of a recurring industrial crisis hangs like a cloud over the industrial world. It is constantly threatening the business interests of the nation as well as the workers with destruction. Thus we witness the cruel and grotesque spectacle of millions of men, women and children suffering for the necessities of life—in a country with boundless resources.

Therefore, the Social Democratic party demands that the production of this country shall be taken away from the control of a small number of irresponsible men, whose only aim is to exploit us to the last limit of our endurance, without regard to human life or welfare.

There is no relief to be expected from any of the other parties. The other parties stand for capitalism and the present economic system.

With this end in view, the Social Democratic party of the state of Wisconsin, in convention assembled, reaffirms its allegiance to the principles of international Socialism and declares its adherence to the declaration of principles and platform of the national Socialist party, demands suffrage for all citizens without difference of sex or race, and pledges itself at the present time to the following measures:

That the state legislature, the governor and our representatives in congress shall take such action as is calculated:

First, to abolish the written constitutions of the state and the nation, except

as stating certain fundamental rights—the laws of the congress and the legislature to stand supreme unless reversed by a referendum of the people.

Second, to bring about the nationalization of all the trusts, notably the coal, the meat, the oil, the sugar, and others of the same kind.

Third, to bring about the national ownership of the railroads, telegraphs, telephones and express companies and steamship lines.

Fourth, to enact a law granting every wage-worker over 60 years of age, who has earned less than \$1,000 a year and has been a citizen of the United States for sixteen years at least, a pension of not less than \$12 a month for the rest of his or her life.

#### CITY AND TOWNSHIP LOANS.

Fifth, to bring about the enactment of a national law by which the government of the United States shall lend the cities and townships money on bonds issued by said cities and townships. Such loans shall be made in legal tender and without interest, the refund to take place in twenty years in equal shares. The money shall have its intrinsic value secured by the bonds and the assessed valuation of the city or township that receives the loan, and it shall be canceled with the bonds as fast as the loan is refunded. The money thus issued by the government is to be used immediately for the relief of the unemployed—by extending all kinds of useful public works in the state, county and municipality. All persons employed on such work shall be employed under an eight-hour work-day and at the prevailing union wages. The government shall also contribute to the labor organizations for the purpose of assisting their unemployed members.

#### ABOLISH UNITED STATES SENATE.

Sixth, to abolish the United States senate, which is a bulwark of capitalism and trustocracy—the general referendum of all the people to take its place as a check, under proper provisions. Furthermore, to elect the United States judges by the people of their respective districts for terms not to exceed four years—instead of having them appointed by the president—this in order to make an end of government by injunction.

Seventh, to demand that the government adopt such measures as will prevent the importation of all Asiatic coolie labor, because it has the tendency to reduce wages and it threatens the comparatively higher conditions of the American working class.

Eighth, to establish life insurance by the national government, and also insurance against sickness, accident and loss of employment.

Ninth, that all elective officers, national, state and municipal—including the judges—shall be made subject to the imperative mandate and to a recall by the expressed wish of their constituencies.

#### FRANCHISES, PUBLIC UTILITIES

Tenth, that no city in Wisconsin shall have the right to sell, lease or give away public franchises. Provided, however, that in cases where existing laws and public necessity make a franchise unavoidable, it shall be granted only upon such terms as will guarantee justice to the people in the matter of rates, extension of service, and fair treatment of the workers in respect to hours of labor, wages, etc. and especially shall provide for the transfer of the utility to public ownership at the earliest possible hour. Provided further, that the granting of such franchise shall first be approved by general referendum of the respective city or township.

Eleventh, that every city in Wisconsin shall have the right to take possession of all its public utilities by paying to the present owners the price of the properties involved as fixed by an impartial jury, the same not to include any franchise values; and every city and township shall have the right to issue special bonds for that purpose. All unlimited franchises now in existence to be declared null and void. Cities of the first, second or third class shall be brought

within the state banking law, for the purpose of enabling such cities to place their bonds on deposit with the state treasurer as collateral security, against which the city treasury may receive savings deposits, as is now customary with savings banks. This obviates the necessity of issuing bond of small denominations.

Twelfth, complete self-government for cities and townships. They shall have the right to erect public slaughter houses, cold storage plants, elevators, coal and wood yards, ice houses, stock yards and manufacture commodities and sell them to the citizens at cost.

#### BETTER SCHOOLS, FREE BOOKS.

Thirteenth, that the state shall provide free school books and school utensils to the pupils of public schools. We also demand legislation enabling school districts in the country to give better school facilities.

Fourteenth, that no further water rights shall be given away to individuals or private corporations and those that have been given away shall be recovered as rapidly as possible. All mineral rights reserved in private contract shall be abolished and accrue to the state. No land belonging to the state shall be sold, and all lands now belonging to the state shall be kept for state purposes. Lands sold for taxes shall in future be bought by the state, subject to redemption by the owner.

Fifteenth, that steps be taken to protect the head waters of our rivers. We demand also the reforesting of denuded tracts suitable for reforesting, so as to provide wooded land for future generations who have been robbed by the timber thieves. Lumber to be supplied from the forest reserves to actual settlers at cost.

#### FARM SCHOOLS AND LOANS.

Sixteenth, that the state of Wisconsin establish farming schools and in connection with every school a model farm in every county of the state. The respective school and farm to take into consideration the kind of agriculture suitable for that part of the state—fruits, truck, grain, dairying, or stock.

Seventeenth, the state government to advance loans to settlers for use for agricultural, market gardening, dairying or stock raising purposes. Such loans to be issued upon fixed or installment mortgages upon the farm at a low rate of interest. Borrowers to have the right to repay the loan partly or wholly at any time, or in twenty installments.

Eighteenth, we hold that intemperance in the use of liquor is the result of the present enervating economic conditions. With the growth of a people strong in physique, intellect and popular morals, intemperance will gradually disappear and temperate habits in all things prevail. We condemn the attempts at sumptuary laws as inimical to the cause of economic and personal liberty. Until the profit system has been abolished and a more harmonious economic order has been established, the attempts of all well-meaning people to introduce temperate habits by law will prove only an evasion of the real issue.

#### LIMIT HOURS OF TOIL.

Nineteenth, that laws be enacted limiting the working of youths under 21 years of age and women of any age employed anywhere in Wisconsin to eight hours a day, and prohibiting the employment of children under 16 years of age in any factory, store, workshop or mine, also for the strictest protection of life and limb in workshops, factories, mines, stores, railways and boats. Also the removal of the principle of contributory negligence from our statutes, and the enactment of laws to compensate workmen when injured while employed. All wages to be paid weekly in lawful money.

Twentieth, that a graduated income and increased inheritance tax be enacted, small incomes to be exempt.

Twenty-first, that fire and accident insurance be established by the state, pending the establishment of national insurance.

## FIGHTS FOR THE MASSES.

The Social Democratic party also stands for every radical change that will bring more wealth, more culture and more security to the masses of the people. But we call attention to the fact that the measures we urge are not a cure for all the existing evils, nor are they all Socialistic measures. They are to be viewed rather as mere palliatives, capable of being carried out even under the present conditions. Under no circumstances should the people rest content with palliatives of this kind. The people should move onward to the conquest of all public powers, to an entire change of the present system for one which will secure to the people collectively the ownership of the means of production and distribution and thereby the blessings of our modern inventions, and a standard of civilization and culture hitherto unknown in history.

This is the program of the Social Democratic party in Wisconsin. We call upon every intelligent voter of this state, regardless of race, nationality or religion, to join the Social Democratic party, vote its ticket, build up its organization and stand shoulder to shoulder for a better order and a higher civilization. And especially to the economically oppressed we call, in the words of the immortal Karl Marx:

"Proletarians of all countries, unite! You have nothing to lose but your chains, and a world to gain."

---

 PLATFORM OF THE SOCIALIST PARTY, ADOPTED AT CHICAGO,  
MAY, 1908.

Amended by Referendum, September 7th, 1909.

## PRINCIPLES.

Human life depends upon food, clothing and shelter. Only with these assured are freedom, culture and higher human development possible. To produce food, clothing or shelter, land and machinery are needed. Land alone does not satisfy human needs. Human labor creates machinery and applies it to the land for the production of raw materials and food. Whoever has control of land and machinery controls human labor, and with it human life and liberty.

Today the machinery and the land used for industrial purposes are owned by a rapidly decreasing minority. So long as machinery is simple and easily handled by one man, its owner cannot dominate the sources of life of others. But when machinery becomes more complex and expensive, and requires for its effective operation the organized effort of many workers, its influence reaches over wide circles of life. The owners of such machinery become the dominant class.

In proportion as the number of such machine owners compared to all other classes decreases, their power in the nation and in the world increases. They bring ever larger masses of working people under their control, reducing them to the point where muscle and brain are their only productive property. Millions of formerly self-employed workers thus become the helpless wage slaves of the industrial masters.

As the economic power of the ruling class grows it becomes less useful in the life of the nation. All the useful work of the nation and in the shoulders of the class whose only property is its manual and mental labor power—the wage worker—or of the class who have but little land and little effective machinery outside of their labor power—the small traders and small farmers. The ruling minority is steadily becoming useless and parasitic.

A bitter struggle over the division of the products of labor is waged between the exploiting propertied classes on the one hand and the exploited propertyless class on the other. In this struggle the wage working class cannot expect adequate relief from any reform of the present order at the hands of the dominant class.

The wage workers are therefore the most determined and irreconcilable antagonists of the ruling class. They suffer most from the curse of class rule. The fact that a few capitalists are permitted to control all the country's industrial resources and social tools for their individual profit, and to make the production of the necessities of life the object of competitive enterprise and speculation is at the bottom of all the social evils of our time.

In spite of the organization of trusts, pools and combinations, the capitalists are powerless to regulate production for social ends. Industries are largely conducted in a planless manner. Through periods of feverish activity the strength and health of the workers are mercilessly used up, and during periods of enforced idleness the workers are frequently reduced to starvation.

The climaxes of this system of production are the regularly recurring industrial depressions and crises which paralyze the nation every fifteen or twenty years.

The capitalist class, in its mad race for profits, is bound to exploit the workers to the very limit of their endurance and to sacrifice their physical, moral and mental welfare to its own insatiable greed. Capitalism keeps the masses of workmen in poverty, destitution, physical exhaustion and ignorance. It drags their wives from their homes to the mill and factory. It snatches their children from the playgrounds and schools and grinds their slender bodies and unformed minds into cold dollars. It disfigures, maims and kills hundreds of thousands of workmen annually in mines, on railroads and in factories. It drives millions of workers into the ranks of the unemployed and forces large numbers of them into beggary, vagrancy and all forms of crime and vice.

To maintain their rule over their fellow men, the capitalists must keep in their pay all organs of the public powers, public mind and public conscience. They control the dominant parties and, through them, the elected public officials. They select the executives, bribe the legislatures and corrupt the courts of justice. They own and censor the press. They dominate the educational institutions. They own the nation politically and intellectually just as they own it industrially.

The struggle between wage workers and capitalists grows ever fiercer, and has now become the only vital issue before the American people. The wage working class, therefore, has the most direct interest in abolishing the capitalist system. But in abolishing the present system, the workmen will free not only their own class, but also all other classes of modern society. The small farmer, who is today exploited by large capital more indirectly but not less effectively than is the wage laborer; the small manufacturer and trader who is engaged in a desperate and losing struggle for economic independence in the face of all of the all-conquering power of concentrated capital; and even the capitalist himself, who is the slave of his wealth rather than its master. The struggle of the working class against the capitalist class, while it is a class struggle, is thus at the same time a struggle for the abolition of all classes and class privileges.

The private ownership of the land and means of production used for exploitation, is the rock upon which class rule is built; political government is its indispensable instrument. The wage-workers cannot be freed from exploitation without conquering the political power and substituting collective for private ownership of the land and means of production used for exploitation.

The basis for such transportation is rapidly developing within present capitalist society. The factory system, with its complex machinery and minute division of labor, is rapidly destroying all vestiges of individual production in manufacture. Modern production is already very largely a collective and social process. The great trusts and monopolies which have sprung up in recent years have organized the work and management of the principal industries on a national scale and have fitted them for collective use and operation.

There can be no absolute private title to land. All private titles, whether called fee simple or otherwise, are and must be subordinate to the public title.

The Socialist Party strives to prevent land from being used for the purpose of exploitation and speculation. It demands the collective possession, control or management of land to whatever extent may be necessary to attain that end. It is not opposed to the occupation and possession of land by those using it in a useful and bona fide manner without exploitation.

The socialist Party is primarily an economic and political movement. It is not concerned with matters of religious belief.

In the struggle for freedom the interests of all modern workers are identical. The struggle is not only national but international. It embraces the world and will be carried to ultimate victory by the united workers of the world.

To unite the workers of the nation and their allies and sympathizers of all other classes to this end, is the mission of the Socialist Party. In this battle for freedom the Socialist Party does not strive to substitute working class rule for capitalist class rule, but by working class victory, to free all humanity from class rule and to realize the international brotherhood of man.

**GENERAL DEMANDS.** 1.—The immediate government relief for the unemployed workers by building schools, by reforestation of cutover and waste lands, by reclamation of arid tracts, and the building of canals, and by extending all other useful public works. All persons employed on such works shall be employed directly by the Government under an eight-hour work day and at the prevailing union wages. The government shall also loan money to state and municipalities without interest for the purpose of carrying on public works. It shall contribute to the funds of labor organizations for the purpose of assisting their unemployed members, and shall take such other measures within its power as will lessen the widespread misery of the workers caused by the misrule of the capitalist class.

2.—The collective ownership of railroads, telegraphs telephones, steamships lines and all other means of social transportation and communication and all land.

3.—The collective ownership of all industries which are organized on a national scale and in which competition has virtually ceased to exist.

4.—The extension of the public domain to include mines, quarries, oil wells, forest and water power.

5.—The scientific reforestation of timber lands, and the reclamation of swamp lands. The land so reforested or reclaimed to be permanently retained as a part of the public domain.

6.—The absolute freedom of press, speech and assemblage.

**INDUSTRIAL DEMANDS.** 7.—The improvement of the industrial condition of the workers.

(a)—By shortening the work day in keeping with the increased productivity of machinery.

(b)—By securing to every worker a rest period of not less than a day and a half in each week.

(c)—By securing a more effective inspection of workshops and factories.

(d)—By forbidding the employment of children under sixteen years of age.

(e)—By forbidding the interstate transportation of the products of child labor, of convict labor, and of all uninspected factories.

(f)—By abolishing official charity and substituting in its place compulsory insurance against unemployment, illness, accidents, invalidism, old age, and death.

**POLITICAL DEMANDS.** 8.—The extension of inheritance taxes graduated in proportion to the nearness of kin.

9.—A graduated income tax.

10.—Unrestricted and equal suffrage for men and women, and we pledge ourselves to engage in an active campaign in that direction.

11.—The initiative and referendum, proportional representation and the right of recall.

12.—The abolition of the Senate.

13—The abolition of the power usurped by the Supreme Court of the United States to pass upon the constitutionality of legislation enacted by Congress. National laws to be repealed or abrogated only by act of Congress. or by a referendum of the whole people.

14—That the Constitution be made amendable by majority vote.

15—The enactment of further measures for general education and for the conservation of health. The Bureau of Education to be made a department. The creation of a department of Public Health.

16—The separation of the present Bureau of Labor from the Department of Commerce and Labor, and the establishment of a Department of Labor.

17—That all judges be elected by the people for short terms, and that the power to issue injunctions shall be curbed by immediate legislation.

18—The free administration of justice.

Such measures of relief as we may be able to force from capitalism are but a preparation of the workers to seize the whole powers of Government. in order that they may thereby lay hold of the whole system of industry and thus come to their rightful inheritance.

PLATFORM OF THE INDEPENDENT PARTY, ADOPTED AT CHICAGO, ILL., JULY 28, 1908.

We, independent American citizens representing the Independence party in forty-four states and two territories, have met in national convention to nominate, absolutely independent of all other political parties, candidates for President and Vice-President of the United States.

Our action is based upon a determination to wrest the conduct of public affairs from the hands of selfish interests, political tricksters and corrupt bosses and make the Government as the founders intended, an agency for the common good.

At a period of unexampled national prosperity and promise, a staggering blow was dealt to legitimate business by the unmolested practice of stock watering and dishonest financiering. Multitudes of defenseless investors, thousands of honest business men and an army of idle workingmen are paying the penalty. Year by year, fostered by wasteful and reckless governmental extravagance, by the manipulation of trusts and by a privilege creating tariff, the cost of living mounts higher and higher. Day by day the control of the Government drifts further away from the people and more firmly into the grip of machine politicians and party bosses.

The Republican and Democratic parties are not only responsible for these conditions but are committed to their indefinite continuance. Prodigal of promises, they are so barren of performance that to a new party of independent voters the country must look for the establishment of a new policy and a return to genuine popular government.

Our object is not to introduce violent innovations or startling new theories. We, of the Independence party look back, as Lincoln did, to the Declaration of Independence as the fountain-head of all political inspiration. It is not our purpose to attempt to revolutionize the American system of government, but to restore the action of the Government to the principles of Washington and Jefferson and Lincoln. It is not our purpose, either to effect a radical change in the American system of government, but to conserve for the citizens of the United States their privileges and liberties won for them by the founders of this Government and to perpetuate the principles and policies upon which the nation's greatness has been built.

The Independence party is therefore, a conservative force in American politics, devoted to the preservation of American liberty and independence, to honesty in elections, to opportunity in business and to equality before the law. Those who believe in the Independence party and work with it are convinced that a genuine democracy should exist; that a true republican form of government should continue; that the power of government should rest with the majority of the people, and that the Government should be conducted for the benefit of the whole citizenship, rather than for the special advantage of a particular class.

**DIRECT NOMINATIONS.**—As of first importance in order to restore the power of government to the people, to make their will supreme in the primaries in the elections and in the control of public officials after they have been elected, we declare for direct nominations, the initiative and referendum and the right of recall.

It is idle to cry out against the evil of bossism while we perpetuate a system under which boss is inevitable. The destruction of an individual boss is of little value. The people in their politics must establish a system which will eliminate not only an objectionable boss but the system of bossism. Representative government is made a mockery by the system of modern party conventions dominated by bosses and controlled by cliques. We demand the natural remedy of direct nominations by which the people not only elect, but which is far more important, select their representatives.

**THE REFERENDUM.**—We believe in the principle of the initiative and referendum and we particularly demand that no franchise grant go into operation until the terms and conditions have been approved by popular vote in the locality interested.

**RECALL.**—We demand for the people the right to recall public officials from the public service. The power to make officials reside in the people, and in them also should reside the power to unmake and remove from office any official who demonstrates his unfitness or betrays the public trust.

**ELECTION CORRUPTION.**—Of next importance in destroying the power of selfish special interests and the corrupt political bosses whom they control is to wrest from their hands their main weapon—the corruption fund. We demand severe and effective legislation against all forms of corrupt practice at the elections, and advocate prohibiting the use of any money at elections except for meetings, literature and the necessary traveling expenses for candidates. Bidding for votes, the Republican and Democratic candidates are making an outcry about publicity of contributions, although both the Republican and Democratic parties have for years consistently blocked every effort to pass a corrupt practices act. Publicity of contributions is desirable and should be required, but the main matter of importance is the use of which contributions are put. We believe that the dishonest use of money in the past, whether contributed by individuals or by corporations, has been chiefly responsible for the corruption which has undermined our system of popular government.

**ECONOMY.**—We demand honest conduct of public office and businesslike and economical administration of public affairs, and we condemn the gross extravagance of Federal administration, and its appalling annual increase in appropriations. Unnecessary appropriations mean unnecessary taxes, and unnecessary taxes, whether direct or indirect, are paid by the people and add to the ever-increasing cost of living.

**OVERCAPITALIZATION.**—We condemn the evil of overcapitalization. Modern industrial conditions make the corporation and stock company a necessity, but overcapitalization in corporations is as harmful and criminal as is personal dishonesty in an individual. Compelling the payment of dividends upon great sums that have never been invested, upon masses of watered stock not justified by the property, overcapitalization prevents the better wages, the better public service and the lower cost that should result from American inventive genius and that wide organization which is replacing costly individual competition. The collapse of dishonestly inflated enterprises robs investors, closes banks, destroys confidence and engenders panics. The Independence party advocates as a primary necessity for sounder business conditions and improved public service the enactment of laws, state and national, to prevent watering of stock, dishonest issues of bonds and other forms of corporation frauds.

**LABOR AND INJUNCTIONS.**—We denounce the so-called labor planks of the Republican and Democratic platforms as political buncombe and contemptible clap-trap unworthy of national parties claiming to be serious and sincere.

The Republican declaration that "no injunction or temporary restraining or-

der should be issued without notice, except where irreparable injury would result from delay," is empty verbiage, for a showing of irreparable injury can always be made and is always made in ex parte affidavits.

The Democratic declaration that "injunctions should not be issued in any case in which injunctions should not issue if no industrial dispute were involved" is meaningless and worthless.

Such insincere and meaningless declarations place a low estimate upon the intelligence of the average American workingman and exhibit either ignorance of or indifference to the real interests of labor.

The Independence party condemns the arbitrary use of the writ of injunction and contempt proceedings as a violation of the fundamental American right of trial by jury.

From the foundation of our Government down to 1872 the Federal Judiciary act prohibited the use of any injunction without reasonable notice until after a hearing. We assert that in all actions growing out of a dispute between employers and employees concerning terms or conditions of employment no injunction should issue until after a trial upon the merits, that such trial should be held before a jury that in no case of alleged contempt should any person be deprived of liberty without a trial by jury.

The Independence party believes that the distribution of wealth is as important as the creation of wealth, and indorses these organizations among farmers and workers which tend to bring about a just distribution of wealth through good wages for workers and good prices for farmers, and which protect the employer and the consumer through equality of price for labor and for product, and we favor such legislation as will remove them from the operation of the Sherman anti-trust law.

We endorse the eight hour work day, favor its application to all Government employees and demand the enactment of laws requiring that all work done for the Government, whether Federal or State, and whether done directly or indirectly through contractors or sub-contractors shall be done on an eight-hour basis.

We favor the enactment of a law defining as illegal any combination or conspiracy to black-list employees.

We demand protection for workmen through enforced use of standard safety appliances and provisions of hygienic conditions in the operation of factories, railways, mills, mines and all industrial undertakings.

We advocate state and federal inspection of railways to secure a greater safety for railway employees and for the traveling public. We call for the enactment of stringent laws fixing employers' liabilities and a rigid prohibition of child labor through cooperation between the state governments and the National Government.

We condemn the manufacture and sale of prison made goods in the open market in competition with free labor manufactured goods. We demand that convicts shall be employed direct by the different states in the manufacture of products for use in state institutions and in making good roads and in no case shall convicts be hired out to contractors or sub-contractors.

We favor the creation of a Department of Labor, including mines and mining, the head of which shall be a member of the President's Cabinet.

The great abuses of grain inspection, by which the producers are plundered, demand immediate and vigorous correction. To that end we favor federal inspection under a strict civil service law.

**A CENTRAL BANK.**—The Independence party declares that the right to issue money is inherent in the Government, and it favors the establishment of a central governmental bank, through which the money so issued shall be put into general circulation.

**THE TARIFF.**—We demand a revision of the tariff, not by the friends of the tariff, but by the friends of the people, and declare for a gradual reduction of tariff duties, with just consideration for the rights of the consuming public

NORMAL SCHOOL, PLATTEVILLE

and of established industry. There should be no protection for oppressive trusts which sell cheaply abroad and take advantage of the tariff at home to crush competition, raise prices, control production and limit work and wages.

**THE RAILROADS.**—The railroads must be kept open to all upon exactly equal terms. Every form of rebate and discrimination in railroad rates is a crime against business and must be stamped out. We demand adequate railroad facilities and advocate a bill empowering shippers in time of need to compel railroads to provide sufficient cars for freight and passenger traffic and other railroad facilities through summary appeal to the courts. We favor the creation of an Interstate Commerce Court, whose sole function it shall be to review speedily and enforce summarily the orders of the Interstate Commerce Commission. The Interstate Commerce Commission has the power to initiate investigation into the reasonableness of rates and practices and no increase in rates should be put into effect until opportunity for such investigation is afforded. The Interstate Commerce Commission should proceed at once with a physical valuation of railroads engaged in interstate commerce.

**TRUSTS.**—We believe that legitimate organizations in business designed to secure an economy of operation and increased production are beneficial wherever the public participates in the advantages which result. We denounce all combinations for restraint of trade and for the establishment of monopoly in all products of labor, and declare that such combinations are not combinations for production, but for extortion, and that activity in this direction is not industry, but robbery.

In cases of infractions of the Anti-Trust law or of the Interstate Commerce act, we believe in the enforcement of a prison penalty against the guilty and responsible individuals controlling the management of the offending corporations, rather than a fine imposed upon stockholders.

**PUBLIC OWNERSHIP.**—We advocate the extension of the principle of public ownership of public utilities, including railroads, as rapidly as municipal, state or National Government shall demonstrate ability to conduct public utilities for the public benefit. We favor specifically government ownership of the telegraphs, such as prevails in every other civilized country in the world, and demand as an immediate measure that the Government shall purchase and operate the telegraphs in connection with the postal service.

**PARCELS POST; POSTAL BANKS.**—The parcels post system should be rapidly and widely extended and Government postal savings banks should be established, where the people's deposits will be secure, the money to be loaned to the people in the locality of the several banks and at a rate of interest to be fixed by the Government.

**GOOD ROADS.**—We favor the immediate development of a national system of good roads connecting all states and national aid to states in the construction and maintenance of post roads.

**POSTAL CENSORSHIP.**—We favor a court review of the censorship and arbitrary rulings of the Post-Office Department.

**STATEHOOD OF ARIZONA AND NEW MEXICO.**—We favor the admission of Arizona and New Mexico into separate statehood.

**BUCKET SHOP SUPPRESSION.**—We advocate such legislation, both state and national, as will suppress the bucket shop and prohibit the fictitious selling of farm products for future delivery.

**NATIONAL HEALTH BUREAU.**—We favor the creation of a national department of public health, to be presided over by a member of the medical profession, this department to exercise such authority over matters of public health, hygiene and sanitation which come properly within the jurisdiction of the National Government and do not interfere with the right of states or municipalities.

**ASIATIC EXCLUSION.**—We oppose Asiatic immigration which does not amalgamate with our population, creates race issues and un-American conditions, and which reduces wages and tends to lower the high standard of living and the high standard of morality which American civilization has established.

We demand the passage of an exclusion act which shall protect American workmen from competition with Asiatic cheap labor and which shall protect American civilization from the contamination of Asiatic conditions.

**THE NAVY.**—The Independence party declares for peace and against aggression and will promote the movement for the settlement of international disputes by arbitration.

We believe, however, that a small navy is poor economy and that a strong navy is the best protection in time of war and the best preventive of war. We, therefore, favor the speedy building of a navy sufficiently strong to protect at the same time both the Atlantic and Pacific coasts of the United States.

**WATERWAYS AND RESOURCES.**—We rejoice in the adoption of both the Democratic and Republican platforms of the demand of the Independence party for improved national waterways and the Mississippi inland deep waterways project, to complete a ship canal from the Gulf to the Great Lakes. We favor the extension of this system to the tributaries of the Mississippi by means of which thirty States shall be served and 20,000 miles added to the coast line of the United States. The reclamation of arid lands should be continued and the irrigation programme now contemplated by the Government extended and steps taken for the conservation of the country's natural resources, which should be guarded not only against devastation and waste, but against falling into the control of the monopoly. The abuses growing out of the administration of our forest preserves must be corrected and provision should be made for free grazing from public lands outside of forest or other reservations. In behalf of the people residing in arid portions of our Western States we protest vigorously against the policy of the Federal Government in selling the exclusive use of water and electric light power derived from public works to private corporations, thus creating a monopoly and subjecting citizens living in these sections to exorbitant charges for light and power, and diverting enterprises originally started for public benefit into channels for corporate greed and oppression, and we demand that no more exclusive contracts be made.

**PROTECTION OF CITIZENS ABROAD.**—American citizens abroad, whether native born or naturalized, and of whatever race or creed, must be secured in the enjoyment of all rights and privileges under our treaties, and wherever such rights are withheld by any country on the ground of race or religious faith, steps should be taken to secure the removal of such unjust discrimination.

**POPULAR ELECTION OF SENATORS.**—We advocate the popular election of United States Senators and of judges, both State and Federal, and favor a graduated income tax and any constitutional amendment necessary to these ends.

**EQUALITY AND OPPORTUNITY.**—Equality and opportunity, the largest measure of individual liberty consistent with equal rights, the overthrow of the rule of special interest and the restoration of government by the majority exercised for the benefit of the whole community; these are the purposes to which the Independence party is pledged, and we invite the cooperation of all patriotic and progressive citizens, irrespective of party, who are in sympathy with these principles and in favor of their practical enforcement.

## PLATFORM OF THE PEOPLE'S PARTY, ADOPTED AT ST. LOUIS, MO., APRIL 3, 1908.

PREAMBLE.—The People's Party of the United States, in convention assembled, at St. Louis, Mo.; this 2d day of April, 1908, with increased confidence in its contentions, reaffirms the declarations made by its first national convention at Omaha, in 1892.

The admonitions of Washington's farewell address; the state papers of Jefferson, and the words of Lincoln, are the teachings of our greatest apostles of human rights and political liberty. There has been a departure from the teachings of these great patriots during recent administrations. The Government has been controlled so as to place the rights of property above the rights of humanity and has brought the country to a condition that is full of danger to our national wellbeing. Financial combinations have had too much power over Congress, and too much influence with the administrative departments of the Government.

Prerogatives of government have been unwisely and often corruptly surrendered to corporate monopoly and aggregations of predatory wealth. The supreme duty of the hour is for the people to insist that these functions of government be exercised in their own interest. Not the "giver of the thirty pieces of silver" has been condemned, but the "Judas" who received them, has been execrated through the ages. The sycophants of monopoly deserve no better fate.

MONEY.—The issuance of money is a function of government and should not be delegated to corporation or individual. The Constitution gives Congress alone the power to issue money and regulate the value thereof; we, therefore, demand that all money shall be issued by the Government direct to the people without the intervention of banks, and shall be a full legal tender for all debts, public and private and in quantity sufficient to supply the needs of the country.

The issuance and distribution of full legal tender money from the Treasury, shall not be through private banks, preferred or otherwise, but direct to the people without interest, for the construction and purchase of Federal and internal improvements and utilities, and for the employment of labor.

We demand that postal savings banks be established by the Government for the safe deposit of the savings of the people.

LAND.—The public domain is a sacred heritage of all the people and should be held for homesteads for actual settlers only. Alien ownership should be forbidden, and lands now held by aliens or by corporations who have violated the conditions of their grants, should be restored to the public domain.

TRUSTS AND MONOPOLY.—To prevent unjust discrimination and monopoly, the Government should own and control the railroads and those public utilities, which in their nature are monopolies. To perfect the postal service, the Government should own and operate the general telegraph and telephone systems and provide parcels post.

As to those trusts and monopolies which are not public utilities or national monopolies, we demand that those special privileges which they now enjoy and which alone enable them to exist, shall be immediately withdrawn.

Corporations being the creatures of government, should be subjected to such governmental regulation and control as will adequately protect the public.

We demand the taxation of monopoly privileges while they remain in private hands, to the extent of the value of the privilege granted.

We demand that Congress shall enact a general law uniformly regulating the powers and duties of all incorporated companies doing interstate business.

INITIATIVE AND REFERENDUM.—As a means of placing all public questions directly under the control of the people, we demand that legal provisions be made under which the people may exercise the initiative and referendum proportional representative and direct vote for all public officers, with the right of recall.

We recommend a Federal statute that will recognize the principle of the

initiative and referendum, and thereby restore to the voters the right to instruct their national representatives.

**LABOR.**—We believe in the right of those who labor, to organize for their mutual protection and benefit, and pledge the efforts of the People's Party to preserve this right inviolate.

We condemn the recent attempt to destroy the power of trades unions through the unjust use of the Federal injunction, substituting government by injunction for free government.

We favor the enactment of legislation looking to the improvement of conditions for wage earners.

We demand the abolition of child labor in factories and mines, and the suppression of sweat-shops.

We oppose the use of convict labor in competition with free labor.

We demand the exclusion from American shores of foreign pauper labor imported to beat down the wages of intelligent American workmen.

We favor the eight-hour work day, and legislation protecting the lives and limbs of workmen through the use of safety appliances.

We demand the enactment of an employers' liability act within constitutional bounds.

We declare against the continuation of the criminal carelessness in the operation of mines, through which thousands of miners have lost their lives to increase the dividends of stockholders, and demand the immediate adoption of precautionary measures to prevent a repetition of such horrible catastrophies.

We declare that in times of depression, when workmen are thrown into enforced idleness, that works of public improvement should be at once inaugurated and work provided for those who cannot otherwise secure employment.

We especially emphasize the declaration of the Omaha platform, that "Wealth belongs to him who creates it and every dollar taken from industry without a just equivalent is robbery."

We congratulate the farmers of the country upon the enormous growth of their splendid organizations and the good already accomplished through them, securing higher prices for farm products and better conditions generally, for those engaged in agricultural pursuits. We urge the importance of maintaining these organizations and extending their power and influence.

**COURTS.**—We condemn all unwarranted assumption of authority by inferior Federal courts, in annulling, by injunction, the laws of the States, and demand legislative action by Congress, which will prohibit such usurpation and will restrict to the Supreme Court of the United States, the exercise of power in cases involving State legislation.

**GAMBLING IN FUTURES.**—We are opposed to gambling in futures.

**CONCLUSION.**—We present to all people the foregoing declaration of principles and policies as our deep, earnest and abiding convictions; and now, before the country and in the name of the great moral, but eternal power in the universe, that makes for right thinking and right living and determines the destiny of nations, this convention pledges that the Peoples' Party will stand by these principles and policies in success and in defeat; that never again will the party by the siren songs and false promises of designing politicians, be tempted to change its course, or be drawn again upon the treacherous rocks of fusion.

## WOMAN SUFFRAGE.

In the United States women possess suffrage upon equal terms with men at all elections in five States: In Wyoming, established in 1869; in Colorado, in 1893; in Utah, in 1896; in Idaho, in 1896, and in Washington, in 1910.

In Kansas women possess school suffrage established in 1861, municipal suffrage established in 1887 and bond suffrage in 1903. Full suffrage was rejected by the Kansas Legislature in 1909.

In 1910 woman suffrage was defeated in the Massachusetts House of Representatives by a vote of 47 to 148. It was acted upon unfavorably by the Judiciary Committees of both houses of the New York Legislature. Women school suffrage was rejected by the Louisiana Legislature, and municipal suffrage by the Maryland Legislature.

The California Republican State convention of 1910 adopted a resolution favoring submission to the voters of a constitutional amendment providing for woman suffrage.

Woman suffrage amendments were voted upon in Oregon, Washington, South Dakota, Oklahoma, New Mexico, and Arizona in November, 1910.

School suffrage for women prevails in some form in twenty-nine States, as follows: Arizona, Colorado, Connecticut, Delaware, Florida, Iowa, Illinois, Indiana, Idaho, Kansas, Michigan, Massachusetts, Minnesota, Mississippi, Montana, Nebraska, New Hampshire, New Jersey, New York, North Dakota, Oklahoma, Ohio, South Dakota, Utah, Vermont, Washington, Wyoming and Wisconsin.

In 1887 Montana gave tax-paying women the right to vote on questions submitted to tax-payers; in 1894 bond suffrage was given to women in Iowa; in 1898 the women of Minnesota were given the right to vote for library trustees, and in the same year Louisiana gave women taxpayers the right to vote in person or by proxy on all questions of taxation. In 1908 Michigan adopted a constitutional amendment providing for tax-paying suffrage for women taxpayers.

In 1901 the New York Legislature passed a law providing that "a woman who possess the qualifications to vote for village or for town officers, except the qualification of sex, who is the owner of property in the village assessed upon the last preceding assessment roll thereof, is entitled to vote upon a proposition to raise money by tax or assessment."

In Great Britain women can vote for all officers except members of Parliament.

In Australia and New Zealand women have full suffrage; also in the Isle of Man, Iceland and Finland. They have full parliamentary suffrage in Norway.

Women have municipal suffrage in Ontario, Nova Scotia, Manitoba, Quebec, British Columbia and the Northwest Territory. In Iceland, Denmark and Sweden. In France women engaged in commerce have the right to vote for Judges of the Tribunal of Commerce. Women have some voting privileges in Cape Colony.

The International Woman Suffrage Alliance is composed of National Woman Suffrage Associations composed of twenty-two nations. Its officers are: President, Carrie Chapman Catt, New York; Vice-President, Millicent Garrett Fawcett, London; Second Vice-President, Annie Fuhrljelm, Finland; Treasurer, Mrs. Stanton Coit, London; Secretaries—First, Mrs. Annie Lundin, Germany; Second, Miss Martina Kramers, Holland; Miss Signe Bergman, Sweden.

The officers of the National American Woman Suffrage Association are: Rev. Anna Howard Shaw, Moylan, Pa., President; Catherine W. McCulloch, Evanston, Ill., First Vice-President; Kate M. Gordon, New Orleans, La., Second Vice-President; Mary W. Dennet, 505 Fifth Ave., New York City, Corresponding Secretary; Mrs. Ella S. Stewart, Chicago, Recording Secretary; Jessie Ashley, 505 Fifth Ave., New York City, Treasurer; Miss Laura Clay, Lexington, Ky., First Auditor; Alice Stone Blackwell, Dorchester, Mass., Second Auditor. National Headquarters, 505 Fifth Ave., New York City.

The New York State Association Opposed to Woman Suffrage has its central office in New York City. Its officers are as follows; Mrs. Francis N. Scott,

President; Mrs. Fritz Achelis, First Vice-President; Mrs. Elihu Root, Mrs. Richard Watson Gilder, Mrs. William A. Putnam, Mrs. Robert McVickar, Mrs. George D. Miller, and Mrs. William P. Northrup, Vice-Presidents; Mrs. Francis S. Bangs, Treasurer, Mrs. George Phillips, Secretary, Room 819, Engineering Societies Building, 29 West 39th St., New York City. There are also organizations in Massachusetts, Illinois, Oregon, Iowa, Washington and California. These are founded with the object of testifying to legislative committees and through the medium of the public press that the opposition to woman suffrage is based upon what is claimed to be "the intelligent conviction of the majority of representative women in all lines of social, industrial, and domestic progress." Pamphlets with information as to the objects of the Association may be had from the Secretary.

# POLITICAL DISTRICT APPORTIONMENTS, 1911.

## CONGRESSIONAL DISTRICTS.

In accordance with provisions of the Sixty-second congress providing for eleven congressmen from Wisconsin, the legislature of 1911 reapportioned the state into eleven congressional districts. The total population of the state is 2,333,860, and the average population per congressional district is 212,169 and 1-11 persons, practically 212,169. By the new apportionment there are four districts with population below the normal, the Second, Seventh, Eighth and Ninth. The population of the other seven districts is above normal. The Eighth district has the least population, 200,134, or 12,035 below normal. The Ninth has the largest population, 225,389, or 13,220 above normal, a total difference of 25,255 between the lowest and highest in point of population. In point of population the First district is closest to the normal figures, being but 436 above. The apportionment into congressional districts follows: [See map, back of book.]

SENATORIAL DISTRICTS.

[Average population per district, 70,723. See map, back of book.]

The apportionment of the state, by the legislature, into thirty-three senatorial districts, following each federal and state census of population, is in accordance with constitutional provision. By the census of 1910 the total population of the state is 2,333,860. Hence the unit, or normal for senatorial districts is 70,723 and 1-33 or practically 70,723. In the following table the districts as numbered in the apportionment act, and the actual population of each is given, also the excess of population above the normal figure in those districts having an excess, and the deficiency, or number under the normal, in those below the normal figure. The basis for this figuring is 70,723 even, not taking into account the fraction of one thirty-third of a person to each district. This prohibits an exact balancing of the totals in the excess and efficiency columns by 1, the total of one thirty-third of a person to each district.

The table shows a total of sixteen districts, each having an excess above the normal, and seventeen each below the normal. The greatest difference in population of any two districts is between the Third, Racine and Kenosha, with 90,353, an excess of 19,630, and the Twenty-first, Waushara, Adams, Juneau and Marquette with a total population of 57,800, or 12,923 below normal, a total difference between them of 32,553. The table shows the excess or deficiency in each district, the list of districts, as constituted, following the table:

In the apportionment adopted there are forty-seven districts, each with a population above the normal and fifty-three each with population below normal. The forty-seven above normal have a total population of 1,326,080, a total of 159,150 above normal. Their average population is 28,214 22-47 each, or an average of 4,876 each above normal. The other fifty-three districts have a total of 1,007,780 population. Their average population per district is 19,015, an average of 4,323 each below normal. Under this apportionment forty-seven members of the assembly will represent 56 82-100 per cent. of the people and fifty-three members will represent 43 18-100 per cent. of the people of the state. The district with the highest excess above normal is that constituted by Marinette county with an excess of 10,474. The one least above is the second district of Dane county, with an excess of only 128. The second district of Manitowoc county is 302 below normal, while Taylor county is 9,697 below normal. There are fifteen districts practically within 1,000 of the normal figure numbers 38 to 52, inclusive, and nineteen are within 1,500 of the normal figure. A complete list of the assembly districts as constituted by the apportionment of 1910 is as follows:

ISAAC STEPHENSON (Rep.) was born in York county, near Fredericton, New Brunswick, June 18, 1829. His early life was spent in assisting his father who was a farmer and a lumberman. A short time was spent at public schools but most of his education is the result of observation and experience. At the age of fourteen years he moved to Bangor, Me., but shortly thereafter came west, locating at Milwaukee. After a few years spent in unsuccessful farming, he transferred his operations to lumbering in the northern peninsula of Michigan. His earliest work in the field was contracting for putting in logs in the winter, while during the summer, he carried freight to Chicago and Milwaukee by boat. When the first land office was opened in northern Michigan in 1848 Mr. Stephenson and his associates purchased large tracts of timber lands on the Escanaba, Ford and Sturgeon rivers and on Big Bay de Noquet. In 1857 he discontinued contracting logs and engaged in the manufacture of lumber. Since that date his business operations have grown rapidly until today he is one of the most extensive lumber manufacturers in the United States. In addition to its manufacture, he maintains large yards for the wholesale and retail distribution of lumber and is also heavily interested in the manufacture of paper. Mr. Stephenson is also a banker and owns a model dairy and stock farm. His business interests are centered at Chicago, Milwaukee and at his home city, Marinette. Politically he has been a Republican since the organization of that party. He was a member of the assembly in 1866 and re-elected in 1868. In 1882 he was elected to congress and served three terms, when his business affairs required his declining a renomination. In 1880 and in 1892 he was a delegate to the Republican national convention. In 1900 was delegate at large to the Republican national convention at Philadelphia; elected delegate at large to Chicago convention in 1904 and was chairman of the delegation. In 1908 was elected delegate at large at the primary election to the national convention at Chicago. In May, 1907, Mr. Stephenson was elected to the United States senate to serve for the unexpired term of Hon. John C. Spooner, resigned. His term of office expired March 4, 1909. He was re-elected March 4, 1909. His term of office will expire March 4, 1915.
