A Great Railway.

The Chicago, Milwaukee & St. Paul Railway Company now owns and operates fifty-six hundred and seventy miles of thoroughly equipped road in Illinois, Wisconsin, Minnesota, Iowa, Missouri and Dakota. Each recurring year its lines are extended in all directions to meet the necessities of the rapidly populating sections of the country west, north-west and south-west of Chicago, and to furnish a market for the products of the greatest agricultural and stock raising districts of the world.

In Illinois it operates 316 miles of track; in Wisconsin 1,304 miles; in Iowa 1,572 miles; in Minnesota 1,122 miles; in Dakota 1,216 miles; in Missouri 142 miles; and the end is not yet.

It has terminals in such large cities as Chicago, Milwaukee, La Crosse, St. Paul, Minneapolis, Fargo, Sioux City, Council Bluffs, Omaha and Kansas City and St. Joseph, Mo., and along its lines are hundreds of large and small thriving cities, towns and villages. Manufacturing interests are cultivated, and all branches of trade find encouragement. The Railway Company has just appreciation of the value of its patrons, and its magnificent earnings are the result of the good business tact which characterizes the management of its affairs.

The popularity of the line is attested by the fact that, notwithstanding the strongest kind of competition of old and new lines, the Chicago, Milwaukee & St. Paul Railway continues to carry the greater proportion of all the business between Chicago, Milwaukee, St. Paul and Minneapolis. It is the best patronized route to and from all points in Wisconsin, Minnesota, South and North Dakota and Iowa, and its Kansas City and St. Joseph line will undoubtedly take equal rank with the older lines leading to and from the Southwest.

On all its through lines of travel, the Chicago, Milwaukee & St. Paul Railway runs the most perfectly equipped trains of Sleeping, Parlor and Dining Cars and Coaches. The through trains on all its lines are systematically heated by steam. No effort is spared to furnish the best accommodations for the least money, and, in addition, patrons of the road are sure of courteous treatment from its employes.

## PREFACE.

---

MADISON, capital of the state of Wisconsin and county seat of Dane county, pleasantly situated on an isthmus between Lakes Monona and Mendota, was founded in 1836. The first directory was published in 1855 by William N. Seymour. According to the United States census of 1890, Madison numbers **13,515** souls. It has 7 miles of lake front, 52 miles of streets, 300 acres of public parks, 15 houses of worship, 9 public and 10 private schools; it is also the site of the University of Wisconsin, an institution having an annual attendance of 700. The city has the best water system in the northwest, with ample health sewerage. It is well lit by electricity and gas, and has a very complete street railway system. Thirty-five passenger trains arrive and depart daily over three great trunk lines: The Chicago & Northwestern, Milwaukee & St. Paul and the Illinois Central Railways.

We take great pleasure in presenting this, our second Volume of the City Directory of Madison, and desire to express to the public our thanks for the generous patronage we have received, and trust to merit the same by giving them a volume as nearly perfect as patience, money and experience can make a work of such a character.

THE PUBLISHERS.

## STREETS.

### STREET NUMBERS.

Every space of twenty-two lineal feet frontage of lots or parts of lots on any street in the city of Madison should be numbered with a separate number and known thereby as follows: The numbers on all streets running northeast and southwest commence at Monona or Wisconsin avenues; and all streets running northwest and southeast commence at Washington avenue, in case said streets intersect said avenues, and such numbers run continuously from those

avenues, one hundred numbers being assigned to the length of the block, so that the first number on the first block should be number one, the second block one hundred, and so on; the odd number should be on the southerly and easterly sides of the street, and the even numbers on the opposite side. All streets intersecting Washington avenue are known as North ——— Street in that part which lies northerly of said avenue; and South ——— Street in that part which lies southerly of said avenue; and all streets which intersect Wisconsin and Monona avenues are known as West ——— Street, in that part lying westerly of said avenues, and East ——— Street, in that part lying easterly of said avenues. Blocks upon streets running in directions which do not intersect said avenues should bear like numbers with the blocks upon streets which do intersect, at like distances from those avenues, so far as practicable. It is the duty of each owner and occupant of any building or tenement fronting upon any street in the city of Madison to securely attach or apply to the front of such building or tenement, in a conspicuous position, and not higher than the first or ground story of said building, so that the same can be plainly seen from the street, the proper number of such building or tenement, as inscribed upon the map prepared by the city engineer, and on file in the office of the city clerk, in figures not less than two inches and one-half in height.

# MADISON ❖ BOOK ❖ BINDERY,

G. GRIMM, Proprietor.

Book Binder, Ruler, AND Blank Book Manufacturer.

SOLE MANUFACTURER FOR DANE COUNTY OF THE  
BRONSON PATENT FLAT-OPENING BLANK BOOK.

Having bought the right for Dane County for the manufacture of the Bronson Patent Flat-Opening Blank Book, I wish to call the attention of Book-Keepers, Accountants and Officials in offices of record, to the most valuable invention ever discovered in the manufacture of blank books.

**The Only Book that will Open Perfectly Flat,** and being stronger, more flexible and more durable on account of the sewing than a book possibly can be when bound by any other process.

By means of springs, which are fastened at each end of the book, so that when it is opened they draw the outside covers together, thus shortening the width between covers, the book is forced up to a sharp bend in the back, as shown in cut. Another great advantage is, that books, especially large ones, are kept from losing their shape. **They cannot be flattened out in the Back.** If you wish to see a sample, call at office in State Journal Block. Hoping to receive your patronage, I am, very respectfully,

G. GRIMM.

# SAVINGS Loan and Trust COMPANY, MADISON, WISCONSIN.

---

## BOARD OF DIRECTORS:

HALLE STEENSLAND,  
President and Treas.

N. B. VAN SLYKE,  
Vice-President.

W. A. P. MORRIS,

FRANK G. BROWN,

OLE TORGERSON,

A. O. FOX.

E. B. STEENSLAND, Secretary.

Incorporated Under the Laws of Wisconsin,  
with a Full Paid Capital of

— \$100,000.00. —

The entire capital is invested in notes or bonds and mortgages, being first liens on improved real estate situated in the State of Wisconsin. The security in each instance worth not less than double, and in most cases four or five times the amount loaned thereon.

One of the objects of this Company is to give to people of all classes, whether possessed of large or limited means, the opportunity to invest their funds to the very best advantage, both as to absolute security—which of course is always the main question—as well as to interest income, and save them the trouble and risk of making loans for themselves, looking after taxes upon mortgaged property, collecting interest, etc.

The Company is under the management of parties who, for over twenty years have been engaged in loaning money upon real estate security, and whose success in that line of investment is a guarantee for the prudent management of its funds.

[OVER]

# INVESTMENTS.

---

**F**OR THOSE HAVING FUNDS TO INVEST, it is more profitable to leave them for investment with this Company than to deposit them in a bank, because it can afford to, and does, insure a higher rate of interest; and it is certainly as safe, for the reason that it has a full paid capital equal to that of many, and larger than most banks outside of the large cities, and its capital and the funds intrusted to it, are loaned upon real estate securities, while banks, for the most part, loan upon personal securities, which are subject to the risks of mercantile failures, commercial panics and the like. This Company cannot be seriously affected by any such means, because of the solid character of its securities. If a good farm is not good security then there is no good security. Neither war, pestilence nor famine can destroy it, nor can fire burn it up.

To add to the security of investors in this Company, the law under which it is organized requires yearly reports by its officers to the Secretary of State of Wisconsin, and provides that the Supreme Court of this State may at any time, on application of interested parties, authorize an examination of the books and accounts of the Company and inquire into its management and affairs. (See chap. 86 R. S. and chap. 158 Laws 1887.)

## Five Per Cent. Convertible Debentures.

The Company offers to investors its Coupon Debentures, running from one to five years, in sums of one hundred dollars and upwards, drawing 5 per cent. interest, payable half-yearly, either at the Company's office or at the First National Bank, Madison, or in Exchange on Milwaukee, Chicago, or New York.

These Debentures are convertible at any time into Real Estate Bonds and Mortgages, if so desired by the owner, for equivalent amounts and at the same rate of interest.

*The Entire Assets of the Company are Pledged to their Redemption*

Parties holding money in trust, such as EXECUTORS, ADMINISTRATORS, GUARDIANS, RECEIVERS, CHURCH, SCHOOL or LIBRARY TRUSTEES, in short, ALL holding moneys in TRUST or otherwise, for any purpose, and desiring to invest the same securely for a long or short time, and realize a fair income thereon, will do well to confer with the officers of this Company.

The Debentures are either registered (in which case none but the lawful holder thereof can make any use of them) or issued to bearer, and are then subject to registration at any time.

This form of security is comparatively new in the west, but is a favorite in eastern markets and in Europe, and will undoubtedly become popular here.

## MORTGAGE LOANS

Secured on improved real estate will be made at current rates of interest, without commission or brokerage and without long delay. If desired by borrowers, the privilege will be granted to them of

### PAYING OFF THE LOANS IN SMALL AMOUNTS

each interest paying day, thereby enabling them gradually to reduce their indebtedness, and thus practically furnishing the same facilities for saving that are offered by Savings Banks or Loan and Building associations.

## BORROWERS

and those seeking investments should get our terms before making arrangements elsewhere.

This company is by law authorized to act as Trustee, Executor, Administrator, Guardian, Receiver, etc.

Further information gladly furnished on application, either by investors or borrowers.
