## JUST FOOLISHNESS

( London, England, " Sphere")

The United States contains 6 per cent of the world's area and 7 per cent of its population. It normally consumes 48 percent of the world's coffee, 53 percent of its tin, 56 per cent of its rubber, 21 per cent of its sugar, 72 per cent of its silk, 36 per cent of its coal, 42 per cent of its pig iron, 47 per cent of its copper and 69 per cent of its crude petroleum.

The United States operates 60 per cent of the world's telephone and telegraph facilities, owns 80 per cent of the motor cars in use, operates 33 per cent of the railroads. It produces 70 per cent of the oil, 60 per cent of the wheat and cotton, 50 per cent of the copper and pig iron and 40 per cent of the lead and coal of the globe.

The United States possesses almost \$11,000,000,000 in gold, or nearly half of the world's monetary metal. It has two-thirds of civilization's banking resources. The purchasing power is greater than that of the 500,000,000 people in Europe and much larger than that of the more than a million Asiatics.

Responsible leadership which cannot translate such a bulging economy into assured prosperity is destitute of capacity. But pompous statesmen, looking over the estate, solemnly declare that the methods by which it was created are all wrong, ought to be abandoned, must be discarded, that the time has come to substitute political management for individual initiative and supervision.

There's only one way to characterize that proposal -- its just ~~da~~ foolishness.

-----  
It is sometimes a good thing to get the opinion of those out side of our borders. Editor.

DAS IST WAHRE ANGELLEIDENSCHAFT

In the " DIE WOCHE " published on March 2, 1938 a full page was devoted to illustrations of Cisco Fishing on Geneva Lake. A picture showing the group of some fifty huts off Wrigley 's estate covered half the page. A view of two fishermen sitting on barrels inside a hut, with an oil heater and basket of ciscos and lunch box was shown together with one of two little girls looking at a basket of ciscos. The picture had been taken by representatives of the Associated Press and probably sent around the world. Mr. Ernst C. Schmidt of Black Point called the article to the editor's attention. The magazine is published in Berlin and is entirely in German.

The editor would like other articles which show the publicity which Geneva Lake, Lake Geneva, Williams Bay, Fontana and vicinity may get in various parts fo the world or in America.

## NEWS AROUND GENEVA LAKE

### GENEVA THEATRE TO INSTALL COOLING PLANT

Word has just been received from Leo Haney, manager of the Geneva Theatre, Lake Geneva, that in a few weeks time that theatre will begin work on a new \$10,000 Cooling Plant, which will be completely installed around the first of June.

This will add greatly to the comfort of the Geneva Theatre patrons as even on the hottest days one will be able to attend the show and enjoy it thoroughly without sweating or fretting about the heat. One needn't fear drafts or suffer the fear of catching cold, as this cooling plant will be of the newest type and the theatre will be controlled to an even degree of temperature at all time.

In addition to the cooling plant, the Geneva Theatre is also erecting a new canopy, work on which will start within a few days. All measurements have been taken and at this writing the final "drawing up of the plans" are being made. According to Mr. Haney, this will be the finest canopy in the State of Wisconsin, in fact one of the finest in the country. All the metal work will be of stainless steel and will have indirect lighting effects, everything that the finest and most modern theatre canopies have to offer.

It is with extreme pride that Mr. Haney announces these two gigantic improvements to his theatre, and is glad that the theatre can offer its patrons all of the modern comforts of today's modern theatres, as up-to-date as any theatre anywhere in the country.

Mr. and Mrs. Philip Fogle and daughter, Patricia, went to Racine on Monday for the Silver Wedding Anniversary celebration of Mrs. Fogle's parents, Mr. and Mrs. Martin Jensen, at the Danish Brethren Hall. The baby's great-grandfather C. Larson was present.

### SITE IN LAKE GENEVA SELECTED FOR YOUTH HOSTEL

Lake Geneva has been selected as a suitable place for a youth hostel, which is an over-night lodging for youths who travel on bicycle or on foot and are members of the association. The place for the hostel will be at the Hillside farm, owned and operated by J. Rudolph Schlicher. It is expected to open May 15. Adult memberships are \$2.00 per year and youth's memberships are \$1.00 per year.

The following committee was appointed: Rev. John Walker, chairman; Robert Nall, publicity; Dr. Jean Jeffers, health and sanitation; Robert McNally, trail marking; Mrs. Hiram Smith, Miss Georgiana Hibbard, Henry Hammersley, membership; Mrs. Eleanor Carlson, equipment.

The Lake Geneva Woman's Club will sponsor a lecture on Scandinavia by Dudley Crafts Watson of the Art Institute, Chicago, for Wednesday, April 13.

Palmer Boat Co. has received an order and is building two Class "E" Sail Boats and three Class "C" Boats for Culver Military Academy. An order for several large Hacker-craft has also been received from Culver. Last Winter some 70 boats were destroyed by a fire at one of the Boat Storage Buildings on the Lake there.

### LISTEN TO THIS!

The following post-card was received by the editor this week-- "Dear Mr. Van Epps--

I am the boy that worked for you around Fontana last summer in the Slocum house. California is fine but there is nothing like Lake Geneva. I remain, as ever,

# ASSESSOR OF WILLIAMS BAY

AT THE ELECTION APRIL 5, 1938

Friends:

I am seriously interested in the Assessor's position and in the Village of Williams Bay.

I am familiar with the duties of the Assessor and well-qualified to know real estate values.

My personal real estate business depends on equalized assessments and low taxes and consequently, as Assessor, I firmly believe I can do each property owner a great deal of good if elected.

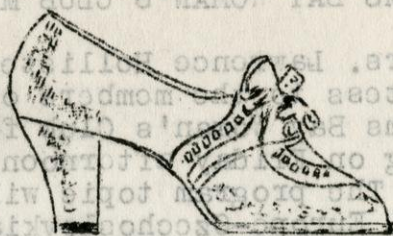

YOUR VOTE FOR ME WILL DO YOU SOME GOOD.

Sincerely,

*Geo. R. Hotton*

approximately 85% of the amount of the bonds sold. Of the remaining 15%, 9% was purchased by banks and trust companies; 3% by corporations, and approximately 3% by associations. Most purchases are made to provide funds for education of children, for retirement funds, or to set up a reserve for emergencies.

Among the features of the bonds most frequently influencing their purchase are safety, the constant availability of the funds and the fact that Savings Bonds increase 33-1/3% in the value if held for ten years. The redemption feature, which eliminates any chance of loss to the investor, appeals to all purchasers. The \$100 bond is the most popular denomination; the \$25 unit ranks next; then the \$50 unit; the \$1000 and the \$500.

These tabulations are for one year's sale, from September 1, 1936, through August 31, 1937, this being the first year these tabulations were kept.

### THE BELFRY PLAYERS

A great deal of interest is being shown in the first local presentation by The Belfry Players, of "Mr. Pim Passes By, the popular Milne play which they presented at Winona, Minn. this past winter in the Anvil Players Theatre, and which received such excellent reviews in the Winona press. The play is scheduled for presentation in the Lake Geneva high school auditorium, for the evening of April 21, with the same cast that appeared in it at Winona. The play is perhaps the best known, and certainly the best liked of all the Milne plays. It opens in the home of the Marden family, who are a typical tradition loving English household, in which innovations of anything modern in thot or decor would be considered in the light of sacrilege. George Marden, the country squire of a large estate, is married to Olivia, who had been a widow when they met, and the entire three acts take

For those who are interested in house plants and gardening, and a great many of us are thinking of such things just now, you will enjoy visiting in the home of Mrs. Frank Herman on Observatory Place. There they will see the following beautiful plants, all in bloom, and so many rare colors, makes them unusually attractive; a purple gloxinia with 14 blossoms and many buds; several large begonia plats with pink blossoms; a very rare Chinese plant that has several mixed red and green blooms, which look like a goose neck; a beautiful Christmas cactus still in bloom; a large petunia plant took our eye, with purple and dark red double blossoms. An exquisite purple morning glory which had blossoms open in the evening; a large foliage plant; snapdragons; many beautiful geraniums, ferns; and a large blooming poinsetta plant.

Mrs. Herman has any number of plants started for transplanting in her outdoor garden soon, and tells us that in Czechoslovakia the school children bring their garden tools to school and are given a plot of ground and taught how to prepare the soil for planting and how to plant the different seeds and care for their gardens.

Next week we shall tell of Mrs. Hugo Bodorff's plants and garden preparations.

### OUR FEATHERED FRIENDS ARE HERE

Mr. Caryl Ripley, our genial Supt. of Waterworks, and who knows "his birds" as well, tells us to look for the following birds now in our yards: robin, bluebird, killdeer, Western meadowlark, red-wing blackbird, bronze grackle, all were here before March 10. Since have come field sparrow, vesper sparrow, flicker, phoebe, mourning dove, and the martins are expected any time now.

during the space of a single day, during which Mr. Pim, a stranger comes with a letter of introduction and tells of seeing Olivia's supposedly dead husband on a boat.

# U.S. SAVINGS BONDS ARE A GOOD INVESTMENT

Secretary of the Treasury Morgenthau has announced that the total maturity value of United States Savings Bonds sold through the close of business March 7, 1938, amounted to \$1,584,462,875. This total was purchased by more than 1,260,000 investors, and represents an average sale for each business day since March 1, 1935, when these bonds were first sold, of \$1,720,375.

A record for one day's sale of Savings Bonds was set on Monday, January 10, of this year, when \$10,029,775, maturity value, of these bonds were reported sold on this single day. Sales by post-offices throughout the country on that day represented \$9,025,350, maturity value of bonds, and direct by mail orders were received in Washington for Savings Bonds of a maturity value of \$1,004,425.

The sale of Savings Bonds for the calendar year 1937 was 34.2% greater than for 1936, and the year 1936 exceeded the ten months' sale of these bonds in 1935 by 82.8%.

The total maturity value sale for the calendar year 1937 amounted to \$635,419,175, with approximately 600,000 purchasers, and an average sale for each business day of \$2,090,200.

Direct by-mail and post office sales from Chicago, give that city the lead for the nation. Chicago's cash sale for the period was \$25,577,200. Approximately 16,000 post offices throughout the country are authorized to sell United States Savings Bonds.

The Government to date actually retains more than 92% of all the money that has been invested in Savings Bonds, less than 8% of the bonds sold having been redeemed.

The majority of the registered owners are small investors who are buying the bonds out of income. Purchases by individuals represent
