The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

Even this expert on bananas likes it!

Because Donnagel-PG contains the therapeutic equivalent of paregoric rather than paregoric itself, your patients get the same antidiarrheal benefits without the unpleasant taste. And the real banana flavor makes it acceptable, even to children.

Of course, good banana taste isn't the only reason for prescribing Donnagel-PG. There's the comprehensive formula which treats both diarrhea and accompanying cramping, tenesmus, and nausea. Donnagel-PG provides the demulcent-detoxicant effects of kaolin and pectin and the antispasmodic benefits of the belladonna alkaloids (as in Donnatal®) . . . plus a paregoric equivalent to relieve painful cramping, promote the production of formed stools, and lessen awareness of the urge to defecate.

Children may not "go ape" for Donnagel-PG, but we wager they'll lick the spoon!

For acute, non-specific diarrheas

Donnagel[®]-PG (Donnagel[®] with paregoric equivalent)

Each 30 cc. contains:

Kaolin	6.0 Gm.
Pectin	142.8 mg.
Hyoscyamine sulfate	0.1037 mg.
Atropine sulfate	0.0194 mg.
Hyoscine hydrobromide	0.0065 mg.
Powdered opium, USP (equivalent to paregoric 6 ml.) (Warning: may be habit forming)	24.0 mg.
Sodium benzoate (preservative)	60.0 mg.
Alcohol	5%
