The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

**NOW . . . Faster Recovery
of Sterilizing Temperature**

**PELTON Presents
a truly super-automatic
sterilizer . . . a new war-
time development**

PELTON'S new thermostatic device means faster recovery of sterilizing temperature. When you replenish the water supply in the boiler, the thermostat *immediately* re-engages the high heating element. The result is quicker boiling.

You will appreciate Pelton's new speed and efficiency. It saves valuable time now being wasted by a sluggish recovery of sterilizing temperature.

This new thermostat is standard equipment on all Pelton automatic instrument sterilizers.* Ask your dealer for a demonstration.

**For AC operation*
