The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

pass the new state boards with only one try!

nursing boards review to make sure you pass on the first try. (95% of our participants do!)

95% of all NBR participants have passed their state board exams the first time they take them, many with exceptionally high scores. To maintain this success rate, experts have spent over a year designing NBR's format for the new, integrated exam beginning in July.

The new NBR has all of the same, top-quality ingredients which have made NBR *uniquely* effective to date:

- △ a 5-day, in-depth classroom review of *all* subject areas tested on the integrated exam
- △ a faculty with doctoral and/or master's degrees, with experience in education and clinical nursing, and with active positions in leading nursing schools or hospitals
- △ course-design by nationally recognized clinical specialists and nurse educators, in collaboration with the Educational Services Division of the American Journal of Nursing Co.
- △ highest quality study guides *free* with the course and valued for future reference
- △ audiovisuals developed expressly for NBR to make learning and recall easier
- △ dependable dates and convenient locations across the country.

Write or call now for further information on preparing with NBR in June 1982 for the new, integrated exam in July.
