The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

The Choice is Yours... 4, 6 or 10

Wilson-Cook provides multiple choices to meet your various ligation procedural needs.

4-Band Ligator

6-Band Ligator

10-Band Ligator

Multiple Ligators to Meet Multiple Procedural Needs — Four, six and ten-band configurations to meet various ligation needs. Every kit includes a loading catheter, precision control handle, Opti-Vu™ barrel with four, six or ten preloaded bands, trigger cord and irrigation adapter.

New, Two-String Design — The new two-string trigger cord design provides maximum endoscopic view without sacrificing optimal suction of the varix or hemorrhoid.

Precision Control Handle — For ultimate band safety in preventing inadvertent deployment, the precision control handle is equipped with both a safety and a firing position.

Make your choice Wilson-Cook...call your Regional Sales Representative for the Saeed Multi-Band Ligator to suit your procedural needs or contact Customer Service at 1-800-245-4717.

4900 Bethania Station Road
Winston-Salem, NC 27105

Take Band Ligation to the Next Level.

The Saeed Six-Shooter™ Multi-Band Ligator -- a device that *Enhances the Quality of Care* by reducing post procedural complications and improving clinical and financial results.

Significantly Reduces Procedure Time

Places six highly visible bands with one intubation. Easy to use, fast loading and eliminates the need for an overtube thereby reducing complications.

Ultimate Band Safety and Deployment

Precision control handle attaches securely into the accessory channel of the endoscope. Safety and deployment modes prevent inadvertent band deployment.

Maximizes Endoscopic View

Opti-Vu™ barrel with six preloaded bands maximizes endoscopic view and provides optimal suction of varix or hemorrhoid.

Single Kit Size - Less Inventory

Adapts to a wide range of endoscopes. Complete with loading catheter, precision control handle, Opti-Vu barrel preloaded with six bands, trigger cord and irrigation adapter.
