The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

Keeping pace with the  
highly specialized needs of  
modern orthopedic practice

Elastic  
Plaster Bandages

*Johnson & Johnson*

# ORTHOFLEX Elastic Plaster Bandages

A new and unique addition to the broad line of Johnson & Johnson orthopedic products. Now for the first time, the conformability of elastic fabric has been combined with the traditional strength and durability of hard-coated plaster bandages.

NOTE: ORTHOFLEX Bandages have been developed for rigid compression casting following amputation. Cylindrical casts for routine immobilization should be split or bivalved to avoid the possibility of constriction.
