The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

The Daily Cardinal.

UNIVERSITY OF WISCONSIN.

VOL. IV—No. 140.]

MADISON, WIS., WEDNESDAY, MAY 8, 1895.

[PRICE THREE CENTS.

HIGH SCHOOL MEET

INVITED TO COMPETE IN SEVERAL TRACK EVENTS.

TO BE HELD ON OUR CAMPUS, JUNE EIGHTH.

Valuable Prizes Offered—Conditions of Entry.

Entry blanks have been sent to superintendents of high schools all over the state under the direction of H. O. Stickney, last year's football coach, for an interscholastic track and field meet under the auspices of the University of Wisconsin Athletic association, to be held on the university campus June 8, 1895.

The program and order of events are as follows:

Track events—(1) 100 yard run, trial heats; (2) 1 mile walk; (3) 120 yard hurdle race, trial heats; (4) 440 yard run, trial heats; (5) 100 yard run, final; (6) 1 mile run; (7) 120 yard hurdle race final; (8) 440 yard run, final; (9) 220 yard run, trial heats; (10) 220 yard hurdle race, trial heats; (11) 880 yard run; (12) 220 yard run, final; (13) 220 yard hurdle race, final.

Field events—(1) Running high jump; (2) Putting 12 pound shot; (3) Running broad jump; (4) Throwing 12 pound hammer; (5) Pole vault.

The field and track events will be running simultaneously, the 100 yard trials and high jump both beginning at 2 p. m. sharp, but allowances will be made to enable men to compete in field and track events which happen to conflict.

In addition to the above events there will be a team race of four-fifths of a mile, teams to be composed of four men, each of whom shall run one-fifth of a mile (1 lap of the track). The meet will be governed by the rules of the Western Intercollegiate Amateur Athletic association.

The prizes will be four in number. First: A solid silver cup of special design (value \$75) to the school winning the highest number of points. Schools winning second and third highest number of points will be given valuable prizes, and to the team winning the relay race a handsome banner will be given. The points will be counted as follows: For first place in any event (except the team race which is a special event), 5 points, second 3 points, and third 1 point.

The gross gate receipts will be divided among the schools according to their number of actual competitors and distance each team covers by railroad travel. This money is to be used in defraying the expenses of the trip. Reduced railroad rates will be secured.

The conditions of entry are as follows:

(1) The games are open only to students of regular standing who have been in school taking at least five recitations a week since within five days of the opening of the spring term of 1895.

(2) The entries must be accompanied by a statement from the principal to the effect that the students whose

names are entered conform to condition 1.

(3) All entries must be made on the printed blanks.

(4) Entries for the games close June 3, 1895.

(5) Each school to be limited to four entries in any event, not more than two of them to compete, except in the team race, in which six men shall be entered, four only to run.

(6) These events are open only to accredited high schools and such other preparatory schools and academies as graduation from which entitles students to admission to the freshman year in the university course.

FOR THE LIBRARY.

Committee from the Historical Society Selected.

The executive committee of the State Historical society met last evening in the society's rooms in the capitol and selected three members of the board to superintend the erection of the new library building on the campus. The members selected were General Lucius Fairchild, Secretary R. G. Thwaites and Assemblyman George B. Burrows, in the order given. The governor is soon expected to make his three appointments as provided by the law and the university will make its three at once.

The work of the board, or commission on building, will begin at once. Plans will be studied and the matter in hand gone over carefully from every point. Some rough plans have already been submitted, embodying the principles of a joint building for the Historical society and the university, and as this is expected to be the final form of the building as the outcome of future legislation the plans already suggested may be in a large measure adhered to.

Under any circumstances there are a few general principles which will be followed in the main in planning the building probably. The books will be placed in "stacks," the modern and most improved substitute for the old-fashioned shelf. There will be a general reading room and the books will be arranged, so far as practicable, so as to be readily accessible to this reading room. The librarian's desk will be near a door through which all must pass who enter the reading room and he will have all the modern conveniences in the way of catalogues, cabinets, etc., at his hand. The museum features will probably be, to a great extent, arranged on the upper floors. The general shape of the building will probably be that of a cross with the reading room at the meeting of the four wings. The State Historical society, the university and the Wisconsin Academy of Letters and Science will, in time, each occupy portions of the building. It is proposed in the plans so far submitted to have a sort of gallery overlooking the reading room on the second floor from which visitors to the museum may see the sight of innumerable students and citizens studying the valuable collections which the great building will contain.

Early next spring the work of excavating for building will begin.

J. A. Kittell, formerly '96, now superintendent of Brown county, is visiting in the city for a few days.

THE SENIORS MEET

AND ELECT PERSONS TO VARIOUS OFFICES.

CAPS AND GOWNS EXAMINED AND CHOSEN.

Various Other Matters of Interest.

The senior meeting yesterday was one of unusual interest. O. M. Salisbury was elected to deliver the address to the juniors. Vroman Mason was chosen class prophet. Miss Vernon having resigned as class historian. Miss Edith Lyon and F. W. Thomas were chosen to fill the vacancy.

The committee on cap and gown exhibited several samples; after an exhaustive examination the class selected a plain black style the best style exhibited. The price of the cap and gown will be about six dollars for both the cap and gown. They will be here in about two weeks.

ENGINEERING SCHOLARSHIPS.

Conditions Under Which They May be Obtained.

The following circular has been issued in regard to the new engineering scholarships:

For the purpose of encouraging and assisting the most meritorious students in engineering and the mechanical arts, the Regents of the University have established the following scholarships:

Nine engineering scholarships which entitle the holders to the remission of their incidental fees for the period of two years will be annually thrown open to competition to all students who have been admitted to the freshman class and are registered in courses leading to degrees in the College of Engineering.

Seven additional competitive engineering scholarships which entitle the holders to the remission of their incidental fees for the period of two years will be annually awarded to students who are registered in courses leading to degrees in the College of Engineering, and who have successfully completed the required work of the first two years of their respective courses.

The scholarships to be awarded for the year 1895-96 and the methods of making the awards, are as follows, viz.:

1. Scholarships for the first two years will be given to freshmen who have registered in full standing, on the basis of the rank attained in special examinations in the following groups of subjects:

a. Arithmetic and algebra through quadratics.
b. Plane and solid geometry.
c. Rhetoric and English literature.
d. French or German.

2. Scholarships for the second two years will be given on the basis of the average ranks in the mathematics of the freshman and sophomore years

and the mechanics of the sophomore year, to juniors free from conditions who have a satisfactory standing in all studies of the freshman and sophomore years.

3. Examinations for the first scholarships will be held under the direction of the Faculty immediately after the entrance examinations in September of each year.

4. The award of the second scholarships will be announced by the President at the end of the second semester of each year.

5. In September, 1895, nine scholarships.

5. In September, 1895, nine scholarships, to hold for one year, will be thrown open to competition by sophomores, on the basis of the ranks attained in special examinations upon the algebra and analytical geometry of the freshman year, and seven to hold for one year will be awarded to seniors on the basis of the best general average rank for their course provided they have been resident at the university for at least two years.

6. Holders of engineering scholarships must be candidates for the first degree in engineering.

7. All persons shall be debarred from competition for engineering scholarships of the first two years who have in any previous year registered as a student in this or any other university or college.

8. The names of the successful competitors for engineering scholarships shall be collectively inserted in the annual catalogue together with the names of the schools at which they were prepared for college; and these names shall remain in the catalogue during the scholarship period.

9. Any student gaining either of the scholarships above provided for, may, on relinquishing the financial assistance thus afforded, still retain the title and credit of the scholarship; and any money so relinquished will be applied by the president and secretary for the assistance of necessitous and meritorious students in the College of Engineering.

10. Thorough preparation in mathematics is of the greatest importance to students entering the engineering courses of the University; and it is therefore advised that such students carefully review algebra either during the last term of their High School course or during the summer preceding their entrance into the University. The University Faculty consider it advisable that the review be made wherever practicable, during the last term of the High School course.

C. K. ADAMS,
President.

MELVIN CLUB.

The Melvin club will meet this evening at the home of Mrs. J. B. Winslow, 131 Langdon street. Rev. Calver of Milwaukee will lecture on "Cardinal Newman as a Poet." Exercises will begin at 7:45.

CHRISTIAN CONFERENCE.

Workers of the Y. M. and Y. W. C. A. met at library hall this afternoon to confer with State College Secretary H. W. Kellogg of Milwaukee and Mr. Mishner of Iowa, representing the national executive committee. Many phases of the work were discussed.

G. F. Downer.Boathouse Company.
President—J. B. Kerr.
Secretary—S. H. Cady.So much cutting of drill has been
going on this term that Prof. Hubbard,
secretary of the faculty, has published
the rules adopted at the last meeting
and issued notice that they will be
strictly enforced. Four unexcused ab-
sences will be followed by suspension.Our friend, the State Journal, has a
slight lapse from the strict truth when
it states that the present senior class
is the first to present a play on Class
Day. The only important feature of
the Class Day last spring was the play.
The class of '89 gave a play entitled
"A Man With Four Souls," written by
W. A. Curtis."In two years Wisconsin has spent
\$86,000 for a law library, \$125,000 for a
gymnasium and \$325,000 for a labora-
tory, all for the state university."—
Arbor Courier.The above statement is decided news
to Wisconsin students. No one here
knows anything about any such expen-
ditures. Within the last two years our
gymnasium has been completed at a
cost of about \$200,000 and not \$125,000
as stated. Besides this about \$28,000
has been expended for a horticultural
building and a like sum for enlarging
the machine shops. Outside of these
expenditures there have been no
others. We only wish we could have
some such amounts of money to spend
on new buildings. Wisconsin could
easily find ways to make use of it.—The joint debate with Minnesota
has been set for May 17.—Brown defeated Harvard yester-
day, 13 to 8.

RAISING THE FEES.

What Regent Johnston Said in an Inter-
view.This morning's Democrat contains
the following interview with Regent
Johnston on the question of the fees:Regent John Johnston, of
Milwaukee, who was in
the city to attend the meeting of the
executive committee of the State His-
torical society, was seen at the Park
hotel last evening and was asked his
opinion regarding the raise in fees in
the university. He said, "I am sure
that the fees for the college of science
and letters are not too high. They are
lower than those in Michigan and are
quite reasonable. I am inclined to
think, however, that the engineers'
fees have been made too high, and I
was not in favor of making the raise
so great in the college of law. Our
committee on raising fees was not in
favor of so great an increase in the
law fees, but it was the lawyers of
the board who insisted on the final
conclusion. There is one thing that
people should realize. There are about
300,000 families in the state and not
over a thousand of these send students
to the university and it is no
more than right that this thousand
should do more than the rest of the
families to support the university. We
have done nothing in the shape of
imposing a tuition fee, but we feel
justified in asking those who attend
the university to help pay the inci-
dental expenses.

GREEK LIFE.

Another illustrated lecture on Greek
life will be given by Prof. Smith,
Thursday afternoon at 4 o'clock. The
lecture will be of a more general
character than the previous ones and
a much greater number of beautiful
views will be exhibited. The class
taking this course will meet in Room
10, University hall, at 3 p. m. of the
same day.

DON'T STOP TOBACCO.

How to Cure Yourself While Using
It.The tobacco habit grows on a man until his
nervous system is seriously affected, impairing
health, comfort and happiness. To quit sud-
denly is too severe a shock to the system, as
tobacco, to an inveterate user becomes a stim-
ulant that his system continually craves.
Baco-Curo is a scientific cure for the tobacco
habit, in all its forms, carefully compounded
after the formula of an eminent Berlin physi-
cian who has used it in his private practice
since 1872, without a failure, purely vegetable
and guaranteed perfectly harmless. You can
use all the tobacco you want, while taking
Baco-Curo, it will notify you when to stop.
We give a written guarantee to permanently
cure any case with three boxes, or refund the
money with 10 per cent. interest. Baco-Curo
is not a substitute, but a scientific cure, that
cures without the aid of will power and with
no inconvenience. It leaves the system as
pure and free from nicotine as the day you
took your first chew or smoke. Sold by all
druggists, with our ironclad guarantee, at
\$1.00 per box, three boxes (thirty days treat-
ment), \$2.50, or sent direct upon receipt of
price. SEND SIX TWO-CENT STAMPS

YALE COMMENCEMENT.

Much curiosity is felt at Yale with regard to the exercises of the coming university commencement, which breaks for the first time with the earliest traditions of the college. The music will be more important than heretofore, since it will have a truly academic character and is not intended to be an accompaniment and encouragement to the conversation of the audience. This will be under the direction of Professor Parker. The music will be given by a large chorus of male voices, the New Haven Symphony orchestra of about fifty pieces, which has already done excellent work, and the organ. Perhaps the most interesting number will be the ode which Edmund Clarence Stedman '53, has written for the occasion, and which Professor Parker has set to music. Immediately before the conferring of degrees, the large chorus and the audience will sing "Gaudeteamus," "Integer Vitae," and probably "Lauriger Horatius." The opening and closing pieces will be classical music, played by the orchestra; the former for instance, a movement from one of Beethoven's symphonies, the latter perhaps, a march. The college choir and the Glee club are expected to form the nucleus of the large chorus. The interest of the occasion is such that every member of the university who can sing may well take pains to join the chorus, that he may have a part in the exercises of commencement.

GIFT TO COLUMBIA.

At a meeting of the trustees of Columbia college Monday, President Seth Low made a formal offer to assume personally the cost of erecting the new college library building. The president stated that he desired the building to be a memorial of his father, the late Apsel Abbott Low, whom President Low described as "A merchant who taught his son the value of the things for which Columbia college stands." The trustees, in accepting the gift, adopted an appropriate

resolution, and Bishop Potter, Dr. Dix, Dr. Chambers, and Mr. Nash were appointed a committee to take suitable recognition of President Low's generous gift. The new library, it is estimated, will cost \$1,000,000. William C. Shermerhorn, one of the trustees, announced that he would be responsible for the erection of a natural science building or other building or part of a building that may, in the judgment of the trustees, be more desirable, and that will not exceed in cost the sum of \$300,000. A vote of thanks was tendered to Mr. Shermerhorn for his generous offer. The Barnard medal for meritorious service to the cause of science, was awarded Lord Raleigh for the discovery of argon, a constituent of the atmosphere.

COINS IN INDIA.

In a few weeks Harvard University will be in possession of a rare collection of India coins. Negotiations are now being carried on with the authorities of the British Museum for copies of 172 coins of India, most of them very valuable ones, which were struck before the Mohamedan conquest A. D. 1000. The work will be done by Augustus P. Ready, a celebrated numismatist, who is curator of the department of coins in the British Museum. The coins will be reproduced by the electric process, in 344 halves, showing the obverse and reverse. On their arrival they will be placed in the library of the Sanskrit department, which contains what is probably the finest collection of Sanskrit manuscripts in the country. To this collection an addition of about 1,000 manuscripts will shortly be made available. They are now being catalogued. Half of these manuscripts were procured by Professor Lanman during his Indian travels, and the other half were given to the university by Dr. Fitz-Edward Hall '46, who is now residing in England. These additions will make the Harvard collection of Sanskrit manuscripts and coins unequalled by any on this side of the Atlantic.

THE DAILY CARDINAL.

SCOTCH MUSIC.

Musical enthusiasts may expect a delightful entertainment tomorrow evening at the Presbyterian church. Prof. John G. Dow will give an illustrated lecture on the Songs of Scotland. He has spent some time abroad and has made himself thoroughly familiar with Scotch ideals and customs. After receiving his M. A. degree at the University of Glasgow, Prof. Dow spent a number of years in Germany and Italy, confining himself in the latter country to vocal music. A number of articles have been written by him, including a work on Puritanism and Literature in Macmillan's Magazine for May. He has also contributed several articles to the English Historical Review, the London Academy and other leading English journals. Recently a valuable edition of the critical and philological study of Burns for the use in college has appeared over his name. Then there will soon be issued under his direction a production of the Creative Art in Literature. Thus it is evident that Prof. Dow is amply equipped to make a thoroughly enjoyable evening for all, by reason of his long study and consequent familiarity with the Scotch music. Besides all who have heard him declare that he has a splendid tenor voice, combining expression, sweetness and volume. The program is particularly attractive, and the admission of only twenty-five cents deserves to draw a good house.

Following is the program:

Song as words and melody: Tennyson, Mendelsohn; folk-songs and ballads.—"Tak Your Auld Cloak About Ye."

Early Scots music; the old scale; beauty and pathos of the old-fashioned melodies.—"Ca the Yowes to the Knowes." "Waly, Waly up the Bank."

How songs grow and become transfigured: illustrations from "Lady Cassilis' Lilt," "The Bonnie Brier-bush," etc.—"The Land o' the Leal."

Romance of the house of Stuart; James I. of Scotland; the Cavalier poets; Jacobite songs of the '15.—"The Wee, Wee German Laird."

Bonnie Prince Charlie and the '45; dispersion of the clans; the last of the Jacobites.—"Hey, Johnnie Cope." "The Macgregor's Gathering."

Scottish song and the literary revolution of the eighteenth century: Allan Ramsay and Robert Burns.—"The Lass o' Patie's Mill." "A Man's a Man for a' That."

Scottish song since Burns: Lady Nairne, Tannahill, Macneill, etc.—"Come Under My Plaidie."

Strange closes of Scots melodies; the unfinished tale and the beauty of the incomplete.—"Broom o' the Cowdenknowes."

SOCIAL CLUB.

The U. W. Social club will give their last indoor dancing social at Kehl's hall tomorrow evening. Parties desiring to attend are requested to be present promptly at 8 o'clock, the time set for the grand march.

A good attendance is assured and the members are already making arrangements for their next social, to be held at Winnequah some time in the near future.

CHRISTIAN ASSOCIATIONS.

The annual co-operation meeting of the Y. M. and Y. W. C. A. will be held in the senior law lecture room Thursday, May 9, at 6:45 p. m.

The aim to serve the best soda in the city. Hollister's Pharmacy.
