Long Distance Rates

Rates are quoted below for different classes of telephone service to a number of out-of-town points. Rates to other points not listed below may be obtained on request by calling "Long Distance."

International telephone service is available from your telephone to any point in Austria, Belgium, Czechoslovakia, England, France, Germany, Holland, Scotland, Spain, Switzerland and Wales, to most cities in Italy and to many important cities of other European countries. Telephone service is given to any point in Canada and Cuba and to the important cities of Australia, Java, Mexico and South America. Telephone service also is available to certain steamships while the vessels are at sea and within calling range. Calls may be placed to these points or rates and other information secured by merely calling "Long Distance."

*This rate is for an initial period of 5 minutes. The rate per minute for overtime will be proportionate.

For collect station-to-station calls, the regular station-to-station rate applies with these exceptions: If the station-to-station day rate is 20 cents, the collect station-to-station rate of 25 cents applies; if the station-to-station day rate is less than 20 cents, the person-to-person rate applies.

For additional information, ask for "Long Distance."

"Station-to-Station Toll Service is faster and costs less."

Person-To-Person Service

*from One Person
to Another*

A PERSON-TO-PERSON CALL is one on which you specify a particular person, department or private branch exchange terminal to be reached at the called telephone. To complete such calls requires a greater amount of operating effort and use of circuits. The rate on such calls is somewhat higher than Station-to-Station service and is not subject to evening and night rates. It should be used where it is necessary for you to talk to a particular person or department. Person-to-Person calls are subject to report charges as explained below.

To place a Person-to-Person call, ask for "Long Distance." Then if you know the number to be called, say for example: "I want to talk to Milwaukee, Wisconsin, Mr. John Brown at Daly 3395." Give your

number when the operator requests it.

An APPOINTMENT CALL is a Person-to-Person call on which you express a desire to talk to a particular person at a specified time. Arrangements are made in advance with the called party by the operator to talk to you at a time specified.

Charges are made at the Person-to-Person rate and report charges apply.

A MESSENGER CALL is a Person-to-Person call which requires a messenger to secure attendance of the designated person at the called telephone.

Charges are made at the Person-to-Person rate plus the charge for messenger service. Report charges apply.

Messenger charges incurred are to be paid whether or not conversation is held.

Collect Calls And Report Charges

A COLLECT CALL is a Station-to-Station or a Person-to-Person call for which you wish to have the charge paid by the subscriber at the distant point. This request should be made to the operator when the call is placed so that she can endeavor to obtain acceptance of the charge before the connection is established.

A REPORT CHARGE is made on Person-to-Person calls if within one hour the operator secures a connection to the distant telephone but is unable to complete the call because the particular person desired is not in, will not talk, or if the calling party is absent or refuses to talk when

the called party is reached. It also applies if the called party is not reached due to the calling party not giving the exact telephone address.

No report charge is made if the call is finally completed to the called party or to a substitute at the called telephone.

This charge is to compensate for the operating work performed and the use of the toll circuits. It is approximately one-fourth of the "Station-to-Station" day rate.

In any case where a report charge applies the minimum charge is 10 cents.

HOW TO MAKE OUT-OF-TOWN CALLS

To call Out-of-Town points, call "Long Distance." When the operator answers, give her the details of your call.

To meet the various requirements of our customers, there are listed below the different classes of out-of-

town service that are available. On each out-of-town call first decide whether Station-to-Station or Person-to-Person service will best suit your purpose and then follow the instructions given below for the type of service you select.

Faster Service If You Call By Number

Out-of-town calls can be completed almost as quickly as local calls providing you know the number of the distant telephone. If not, such numbers can be readily obtained by call-

ing "Information." If you wish to have the telephone numbers for a list of out-of-town subscribers, our Business Office will be glad to furnish them.

Station-To-Station Service

*From One Telephone
to Another*

A STATION-TO-STATION call is one on which you call for a distant telephone without specifying a particular person, department or extension telephone.

This service is cheaper and quicker than other services and should be used when you are willing to talk to anyone who answers the called telephone, or when you are sure the person with whom you wish to talk will be there.

To place a station-to-station call ask for "Long Distance."

IF THE TELEPHONE NUMBER IS KNOWN, place the call as follows: "I want to talk to Green Bay, Wisconsin, Adams 1234." Give your number when the operator requests it.

IF YOU DO NOT KNOW THE TELEPHONE NUMBER, call as follows: "I want to talk to Superior, Wisconsin, ANYONE at Mr. John Brown's

residence, 521 Main St." Give your number when the operator requests it.

CALLS ON A STATION-TO-STATION basis can be made at REDUCED RATES for evening and night service as follows:

•EVENING SERVICE RATE (7:00 P.M. to 8:30 P.M.) is about three-quarters of the day station-to-station rate except when the minimum rate applies.

•THE NIGHT SERVICE RATE (8:30 P. M. to 4:30 A. M.) is about one-half of the day station-to-station rate except when the minimum rate applies.

THE MINIMUM RATE for evening and night service is 35c unless the day rate is less than 35c in which case the evening and night rate is the same as the station-to-station day rate.

Report charges are not applicable to station-to-station calls.

Helpful Suggestions

and

Information for Bell Telephone Patrons

The Use of the Company's Lines is limited to communications between parties both of whom are present at the telephone, and employees of the Company are prohibited from accepting written or verbal messages for transmission or delivery.

Local Exchange Calls originating at public pay stations or telephones where it is necessary to deposit a nickel for each conversation are limited to five minutes duration and a charge of five cents will be made for each period of five minutes.

Subscribers to Party Lines are limited to five minutes use of the line at one time.

The Information Operator will Furnish on request the telephone numbers of subscribers not listed in this directory.

It is Impractical for Operators to give attention to reports of service difficulties; therefore subscribers are requested to report any irregularities in their service promptly to the Chief Operator.

If Your Telephone is Out of Order please notify us by calling "Repair Service" as soon as possible.

Ten Days' Notice for Changing location of telephones should be given. Subscribers are requested to report fully by letter any change in firm name or business for correction in the following issue of Directory.

Service Charges are due and payable at the Company's office within the discount period shown on each bill. Accounts unpaid after the expiration of the discount period are overdue and service is subject to suspension.

Schedules of Rates Effective at each exchange are on file at the Manager's office and can be examined by applying there.

A Copy of this Directory is delivered free to every subscriber for use until the next issue, but the book remains the property of the Company. It is imperative that the current issue be always used to obtain correct call numbers.

This Company Assumes no Liability for damages arising from names left out of this Directory or from errors occurring in its compilation or printing.

Telephone Directories of the Principal Cities throughout the Country may be obtained by any

of our Subscribers desiring them, on payment of the charges made by the issuing company. Prices and other information may be secured by calling the Manager's Office.

The Fire Department and the Police Department are always available by telephone. Tell your story briefly, calmly and distinctly, giving your street address, and answer promptly any questions asked by the Department called.

Patrons are Cautioned against the possible entry into their premises of Fraudulent Persons posing as Repairmen, Inspectors or Collectors. Employees of the Company, duly authorized to install, repair or remove telephones, or collect for service, are provided with credentials. Please guard yourself against any misrepresentation by asking to see these credentials.

Use of Foreign Equipment. The Company is responsible for satisfactory telephone service. It cannot permit the use of any equipment or other apparatus in connection with that furnished by it. Subscribers are cautioned not to purchase or use any equipment not furnished by this Company.

This Company Connects with the American Telephone & Telegraph Company, furnishing service to all of the important cities in the country.

Telegrams May Be Sent over the wires of this Company, to or from Telegraph offices. The Telephone Company does not assume responsibility for the correct transmission of the messages.

Supervision by Private Branch Exchange Operators—The long distance operator is held responsible for the supervision and timing of all messages and for the character of the service furnished. Supervision of connections by Private Branch Exchange Operators interferes with satisfactory service, and such operators should not remain "cut in" on the line after the connection has been established.

The Company Cordially Invites all users of the telephone to call at any Exchange for an inspection of the operating room and other interesting details of the business. The unique features of a Telephone Exchange are but little understood by the public at large, and observations by the subscribers often lead to suggestions, tending to the best results in the service.

Lightning *SPEED* On Out-of-Town Calls

For fastest Long Distance Telephone Service,
give your call to the long distance operator in
this order —

1. The CITY you want —
2. The NAME or telephone NUMBER of
the party you are calling —
3. YOUR OWN telephone number when
the operator requests it.

The low cost of telephone service gives every-
one an opportunity for frequent voice-to-
voice visits with out-of-town friends.

The low cost of telephone service gives everyone an opportunity for frequent voice-to-voice visits with out-of-town friends.

Wisconsin Telephone Company

BELOIT

Classified Telephone Directory

"WHERE TO BUY IT"

It's Easy to Use The Classified Telephone Directory

THIS DIRECTORY IS A CATALOG of telephone subscribers classified according to businesses, commodities and services and is designed to furnish a convenient means for finding telephone numbers and for locating sources of supply.

TO FIND THE TELEPHONE NUMBER OF A BUSINESS CONCERN you have in mind, look among the listings under the heading descriptive of the business.

FOR LOCATING SOURCES OF SUPPLY, look for the classification by the name of the commodity or, if that is not indexed, by the name of the business which ordinarily distributes it.

MANY TRADE MARKED PRODUCTS are now shown in this directory and they may be found indexed by their Trade Mark name either as heading classifications or as a group of listings similarly indexed under the heading descriptive of the business which supplies them.

This service is readily recognized by the Trade Mark symbol or cut which always appears in connection with the Trade Mark name.

THE DISPLAY ADVERTISEMENTS appearing on or near the page containing the heading classification in which you are interested will provide more complete buying information.

It Saves Hours of Time and Miles of Steps

ARCHITECTS

Remember
the Telephone
in Planning Home
or Office Comfort and
Convenience

Provision should be made for wires necessary to furnish adequate telephone service when planning apartment houses, hotels, office buildings and residences.

We shall be glad to give architects, owners, contractors and builders the benefit of our experience in these matters and assist them in planning the best system of telephone facilities in each instance.

CONTRACTORS

PROVISION should be made to carry the wires necessary to furnish telephone service before building apartment houses, hotels, office buildings and large residences.

If some arrangement is not included in the original building plans, it may be necessary to make extensive and costly alterations, after the completion of the building, in order to conceal the wires placed in the halls and rooms.

We will be glad to give architects, owners or builders the benefit of our experience in such matters and assist in planning the best system of wires for each case.

Telephone Typewriter Service

Telephone typewriters are important factors in the progress of modern business. Sending the typewritten message instantaneously from one office to another, from one building to another, or from one city to a distant one, the telephone typewriter is a real servant to business.

It can be made to fit in with your particular business and make your inter-office or inter-branch office communication fast, convenient and expeditious.

Telephone Equipment

TO FIT YOUR PARTICULAR NEEDS

If you have a communication problem, either in your home or office, you will find its solution in one of our many types of telephone services. A partial list of the many time saving and convenient facilities offered for your consideration follows:

TELEPHONE SYSTEMS for communication between different parts of the home, office or plant.

EXTENSION TELEPHONES in another part of the office or home.

TELEPHONE TYPEWRITER SERVICE for instantaneous communication of typewritten messages between offices in the same building, in the same city or in different parts of the country.

LOUD RINGING BELLS for locations where noise makes it difficult to hear the ordinary telephone bell.

EQUIPMENT for the reception of telephone orders with speed and efficiency.

Manual and dial private branch exchange systems, hand type telephones and additional services and equipment to meet your special requirements are available.

A telephone call to our Business Office will bring a representative who will gladly discuss your particular communication problems.
