TO THE TRADE.

.....

IN presenting this, our third catalogue, to you, we would call your careful attention to the many new styles of Chairs that we have added to our line during the early part of the year 1895. We have also just placed in position one of the latest improved embossing machines. Any dealer desiring Chairs made with embossed backs or raised carved mouldings, can have them at a very slight advance in price. We are also making a line of upholstered Chairs, and of cobbler seats, made expressly for ease and solid comfort, and we believe this line will meet the approval of the trade. Our line of Cane Seat Dinners is all that could be desired. All of our Chairs are well made, and posts are firmly bolted to seat (something no other manufacturer does). This is a point dealers should not overlook. In Children's and Misses' Chairs we are the leaders. Our line is complete, both in variety of styles, as well as price and quality. In price, we have them from \$18.00 per dozen net, down to a Doll's Chair for 72 cents. Our line of High Chairs is select, and the very best sellers made, and we firmly believe, will compare favorably, if not superior, to that of any other High Chairs produced, when price and quality are taken into consideration. During the past two years there has been a general depression in business; manufacturers all over the country have reduced the number of employees, cut wages, run on short time, some closed down entirely for two or three months, but we are happy to state, that while we have felt the depression, and found it at times discouraging, yet our factory has never been idle, and we have run with a full compliment of men ten hours per day, for every month during the past two years. This speaks volumes and comment is unnecessary. We extend our sincere thanks to our friends and customers, who have patronized us so liberally, and with facilities we now have for making Chairs, the very highest standard of perfection, we hope to be favored with your continued liberal patronage.

Silk and worsted.
