The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

Only Loma Linda makes two soy formulas to cover infants' sensitivities.

R_x prescribe for babies
with sensitivities to lactose and
cow milk protein.

Over half-a-century of
clinical use.

R_x prescribe for infants
with additional sensitivities
including corn products.

It works where other
formulas fail.

LOMA LINDA

Pioneer in Infant Soy Formulas.
