The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

A detailed image of the Acu-Loc Targeted Distal Radius System. It features a long, silver-colored metal drill with a knurled handle and a radiolucent targeting guide. The guide is a light-colored, curved device with multiple holes and a green, curved base. The word "STANDARD" is printed on the side of the guide. The background is a soft, out-of-focus image of a human forearm with a surgical incision.
