Vice President Peterson read a letter from Mr. Donald C. Slichter to President Fred in which Mr. Slichter indicated that the Slichter family home at 636 North Frances Street was being given to the University without any restrictions but indicated that it would please the donors "...if it was used as a residence by a member of the faculty or by one or two married couples identified with the Graduate School...".

Upon motion of Regent Jones, seconded by Regent Steiger, it was VOTED, That, subject to the approval of the Governor and of the State Chief Engineer, the contract for waterproofing and restoration work on the Field House be awarded to Structural Waterproofing Corporation, Chicago, Illinois, on the basis of the low bid in the amount of \$6,385, chargeable to Fund 5-C, Intercollegiate Athletics; and that the Vice President of Business and Finance be authorized to sign the contract.

Regent Jones moved, and Regent Steiger seconded, the motion for the adoption of the following recommendation of the Business and Finance Committee:

"That the University administrative officers be directed to discuss with the Governor and the State Building Commission the need for additional funds to finance the construction of the addition to Birge Hall; and that, subject to the availability of funds, the Executive Committee be authorized to act for the Board on the approval of the schedule of costs and the award of contracts for the addition to Birge Hall."

At the request of Regent Jones, Vice President Peterson explained the implications of the above recommendation. He stated that the information concerning this recommendation was substantially in accordance with the information previously mailed to each Regent. He reported that the estimated schedule of costs for this project, on the basis of the base bids, was \$1,895,083; that \$1,400,000 had originally been allotted by the State Building Commission for this project, but that \$122,829 had subsequently been temporarily transferred by the State Building Commission to provide additional funds for the Service Memorial Institutes Addition; and that, in addition to the restoration of the \$122,829, an additional allotment of \$495,083 would be required in order to proceed with this project on the basis of the base bids. He also reported that the Business and Finance Committee was of the opinion that the deductions in the alternate bids should not be taken.

The question was put on the above motion and it was voted unanimously.

President Gelatt assigned consideration of Faculty Document 1178 (Statement on Leaves of Absence by the University Committee) to the Educational Committee of the Regents at their next meeting in September.

(Secretary's Note: Pursuant to the recommendation made by the University Committee in Document 1178, as subsequently approved by the University Faculty, the President of the University on May 13, 1955, made the following appointments to a special committee to recommend changes in the present leave program - Kurt F. Wendt (Chairman), Neil G. Cafferty, E. A. Gaumnitz, Harold M. Groves, Raymond J. Penn, Carlisle P. Runge and William H. Young.)

President Gelatt requested that the University administration submit to the Educational Committee of the Regents, at its next meeting, a report of progress on the items in the annual report of the Board of Visitors in order that the Regents may consider and be able to report back to the Board of Visitors on its very fine annual report.

Regent Renk, reporting for the Special Regent Committee on Agricultural Lands, requested Vice President Peterson to present the recommendation approved by that committee at its meeting earlier on this date. Vice President Peterson read the following recommendation of the Special Regent Committee on Agricultural Lands:

That, subject to the approval of the Special Regent Committee on Agricultural Lands, and of the appropriate State officers, the Vice President of Business and Finance be authorized to sign contracts and agreements with individuals or companies to provide various professional and other services required in connection with the development and sale of approximately 100 acres of land in the southeast corner of the University Hill Farms which are to be subdivided by the University in accordance with the Regent action of June 16, 1955.

Regent Renk moved, and Regent Jones seconded, the motion for the adoption of the above recommendation.

Vice President Peterson explained briefly the type of work which must be done to prepare the initial area of the Hill Farms for sale. He reported that this recommendation was essential because time is of the essence and it would not be practical to present each item involved in this development work to the full Board of Regents for approval. He reported that the Regents at their June meeting had authorized requesting the State Building Commission to advance the funds for this development work, which is estimated to cost from \$50,000 to \$75,000.

The question was put on the above motion and it was voted unanimously.

Regent Renk, reporting for the Special Regent Committee on Agricultural Research, reported that the committee had held several meetings which he believed were fruitful; and presented the following recommendation approved by the Special Regent Committee on Agricultural Research on the previous day:

The Special Regent Committee on Agricultural Research believes it is imperative that funds in the amount of approximately \$20,000 be obtained to equip a pilot plant for research on the improvement of concentrated whole milk, and recommends that the University administration investigate the possible sources of such funds.

(Cont.)

Upon motion of Regent Renk, seconded by Regent Steiger, the above recommendation of the Special Regent Committee on Agricultural Research was voted unanimously.

President Gelatt read a telegram of greetings and best wishes for this meeting from Regent Laird, who was not able to be present.

President Gelatt reported the receipt of a letter from Mr. John Berge, Executive Director of the Wisconsin Alumni Association, regarding possible closer cooperation between the Regents and the Alumni Association, and in which Mr. Berge suggested that this might be accomplished by periodically holding meetings of the Regents and the Executive Committee of the Alumni Association, and also meetings of the Regents, the Executive Committee of the Alumni Association and the Board of Visitors. President Gelatt stated perhaps such meetings could be held sometime during the coming winter.

Regent Wanvig inquired whether consideration had ever been given to the formation of advisory groups of graduates of the University who would be in a position to assist the Regents and the University administration in considering the needs of various areas of the University program. He suggested that in certain areas of University work, such as commerce, engineering, law and medicine, for example, graduates of the University who were active in those fields could probably greatly assist the Regents in an advisory capacity, because they would be in a better position than the Regents to evaluate the work of the University as related to the needs for training in those professions. He referred to the assistance given to the President of the University and the Regents by the lawyers of the state in the selection of the Dean of the Law School, and by the members of the medical profession in the selection of the Dean of the Medical School. He pointed out that, if such advisory groups were set up properly, they could perform a very useful service in certain fields. Other Regents commented favorably on Regent Wanvig's suggestion and proposed that further consideration be given to it.

Regent Wanvig referred to a report on scholarship funds, which had recently been considered by the Educational Committee of the Regents, and suggested that perhaps it should be summarized and sent to all members of the Board. He also indicated that it would be desirable to have a similar report prepared and sent to the Regents on the University student loan funds; and suggested that consideration be

given to ways of dignifying the use of student loan funds by the students in order that they would be better utilized.

Upon motion of Regent Steiger, seconded by Regent Arveson, it was unanimously VOTED that the Regents express appreciation and gratitude to Mr. and Mrs. Werner for their fine hospitality, and that the Regents all agree that they had a most enjoyable time on their visit to Sheboygan.

Regent Werner expressed the pleasure of Mrs. Werner and himself in having the Regents as their guests.

Vice President Peterson stated that the administrative officers of the University join with the Regents in their expression of appreciation to Mr. and Mrs. Werner.

Upon motion of Regent Arveson, seconded by Regent Steiger, it was VOTED, That the meeting adjourn.

The meeting adjourned at 11:20 A.M.

Clarke Smith, Secretary

STATEMENT BY UNIVERSITY PRES. E. B. FRED IN PRESENTING THE MARK TWAIN COLLECTION
TO THE REGENTS -- July 9, 1955

The University's acquisition of additional important materials on Mark Twain will further enhance its collection of manuscripts and literary documents pertaining to our native American literature. It is with pleasure that I now present and recommend for your acceptance the Gift of a Mark Twain rare book collection.

The collection, which includes first editions, manuscripts, letters, and other materials by and about the great American author, is offered to us by Mr. Norman Bassett, a life-long collector of Twainiana, Wisconsin graduate, devoted alumnus of the Class of 1914, and president of the Madison firm, Demco Library Supplies.

Now that the University, through the modern facilities of the Memorial Library, is equipped to house and preserve fine treasures of the printed word, our rare book department is growing and should contribute more and more to the enterprises of serious scholarship. I am told by our director of libraries, Gilbert Doane, that the Bassett collection, if added to the Brownell assembly of Twain materials, already held by us, will constitute one of the most important Twain working collections in the country.

For our English department, with its strong interest in American literature, it will contribute especially toward greater knowledge of the American literary scene.

I recommend that this gift be accepted, not only so that our graduate students and staff may learn through it, but so that the people of Wisconsin generally, through proper exhibits and display, may share these rare ties with our literary past.
