MINUTES OF THE ANNUAL MEETING

of the

BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM

Madison, Wisconsin

Held in the Clarke Smith Room, 1820 Van Hise Hall
Friday, June 8, 1984
9:00 a.m.

- Vice President Knowles presiding -

PRESENT: Regents Clusen, Conroy, Finlayson, Gerrard, Grover, Hanson,
Heckrodt, Knowles, Lawton, Nikolay, O'Harrow, Schilling, Veneman,
Weinstein and Zirbel

ABSENT: Regent Fish

Upon motion by Regent Veneman, seconded by Regent Finlayson, the minutes of the regular meeting of the Board of Regents of the University of Wisconsin System, held on May 11, 1984, were approved as mailed to the members of the Board.

- - -

REPORT OF THE PRESIDENT OF THE BOARD

Election of Regent Officers

It was noted by Vice President Knowles that according to the Board's bylaws officers elected at the June meeting did not take office until the first day of July, although the practice had been for them to take office upon election. This year there was a particular concern about the trust officer's position being vacant, due to the retirement of Vice President Lorenz. Regent Knowles therefore asked unanimous consent to suspend the bylaws, so that the officers elected at this meeting could take office immediately. There being no objection, it was so ordered.

Regent Officers - Election of Ben Lawton, Pres; Robert Knowles, VP,
Judith Temby, Sec; Charles Stathas, Acting Trust Officer, & David
Konshak, Asst Trust Officer, P. 2. X-ref Each Officer.

Annual Board of Regents Meeting 6/8/84

Regent Ben R. Lawton was nominated for the position of President of the Board of Regents by Regent Gerrard, and the nomination was seconded by Regent O'Harrow. Upon motion by Regent Finlayson, seconded by Regent Schilling, nominations were closed, and Regent Lawton was elected unanimously.

- President Lawton presiding -

Stating that he was proud to be asked to serve as President, Regent Lawton added, "I am also very grateful for the unanimity, because if there was ever a time we need unity, it is now. Unity, not just of Board members, but of Board members with administration, faculty, the Legislature and the Governor. I am not going to give a 'State of the Union' message, but only say that I pledge all the time and effort necessary to make and keep this the greatest university system in the world."

Regent Robert P. Knowles was nominated for reelection as Vice President of the Board by Regent O'Harrow, and the nomination was seconded by Regent Schilling and Regent Conroy. Upon motion by Regent Gerrard, nominations were closed, and Regent Knowles was reelected unanimously.

Regent Finlayson nominated Judith Temby for reelection as Secretary of the Board and the nomination was seconded by Regent Veneman. Nominations were closed upon motion by Regent Heckrodt, seconded by Regent Zirbel, and Ms. Temby was unanimously reelected.

It was moved by Regent Grover and seconded by Regent Veneman that Robert W. Winter be reelected Assistant Secretary of the Board. Upon motion by Regent O'Harrow, seconded by Regent Zirbel, nominations were closed, and Mr. Winter was reelected unanimously.

The nomination of Charles Stathas as Acting Trust Officer was moved by Regent Schilling and seconded by Regent Weinstein. Upon motion by Regent Knowles, seconded by Regent Conroy, nominations were closed and Mr. Stathas was elected unanimously.

It was moved by Regent Schilling and seconded by Regent Veneman and Regent Conroy that Mr. David Konshak be elected Assistant Trust Officer. Upon motion by Regent Heckrodt, seconded by Regent Conroy, nominations were closed, and Mr. Konshak was unanimously elected.

Report of the Council of Trustees of the University Hospital and Clinics

Regent Lawton, Chairman of the Council of Trustees, reported that the hospital was expected to be in a better cash position at the beginning of the next fiscal year than had been anticipated.

With respect to diagnostic-related groups, which were to be the new payment mechanism for Medicare, he pointed out that there was much concern in medical education circles about the adverse effect DRGs could have on university hospitals. The program was being phased in around the country, and the UW Hospital planned to start in July with 25 percent of its Medicare patients. The impact on educational efforts was not predictable at this time, he said, adding that the situation would be monitored closely during the coming months.

The Council also acted on appointments of hospital staff and received an update on the cooperative incineration venture with other Madison hospitals. In addition, there was a report on the Joint Commission of Hospitals' recent inspection. While the Commission did not criticize patient care in any way, it was critical of some aspects of procedure/documentation, particularly in federally funded programs, and these concerns were being addressed promptly by hospital staff.

Regent Finlayson added that the hospital was negotiating a helicopter leasing arrangement, to be in effect in the next two or three months in a 150-mile area. The hope was to cooperate with the helicopter service that had been established at the Medical College of Wisconsin in Milwaukee.

✓ VTAE - Report on district board app'ts, buildings in Msn., *Fox Valley Industrial development project, electric vehicle project and new programs, pp. 3-4.

Report of the President of the State Board of Vocational, Technical and Adult Education

Regent Zirbel, President of the VTAE Board, noted the Board was pleased that Regent Knowles could attend its May meeting, at which appointment of the district board members was the main agenda item. Describing the local appointment process, she explained that districts selected members for approval by the State Board and that these nominees were required to meet criteria for categories of employers, employees, members at large, district administrator or superintendent of schools, and elected officials. When the size of these boards was expanded from seven to nine members, the State Board had expressed its commitment not only to meeting these criteria, but also to maintaining an appropriate balance of women and minorities on local boards. In areas where the State Board felt this was not being done, appointments were returned. Noting that every district had a considerable number of applicants, Regent Zirbel observed it was fortunate that so many capable and dedicated people were willing to serve on these boards. The district boards, she added, were in the process of holding budget hearings.

Reporting that the State Board approved a building renovation and remodeling project at District Four in Madison, she commented that the renovated downtown complex should prove to be a great enhancement to the city.

Regent Zirbel then described an economic development plan undertaken by Fox Valley Technical Institute in cooperation with local government and industry. The Fox Cities Technical Research Incubator Park, consisting of 295 acres on the north side of Appleton, was being set aside to attract tenants who had a special association with vocational-technical training and an interest in a well-planned, campus-like environment. It was expected to produce new jobs for the Fox Valley, foster business development, contribute to shifting the heavy manufacturing base on which the valley was dependent,

and provide hands-on experience for Fox Valley students. "We think this will be an asset and can be used as a model throughout the State of Wisconsin. We are very excited about this and agreed to put in some federally funded dollars to help get it off the ground."

The VTAE Board also received a report by Northeastern Technical Institute at Green Bay and District Four in Madison regarding the electric vehicle project. Although upkeep on the vehicle was satisfactory, the initial cost was found to be very high.

In other action, the State Board approved programs in diagnostic medical synography at Eau Claire, electro-mechanical technology at Lake Shore, computer electronics at Morraine Park, and international trade at Waukesha. Also approved were associate degrees in manufacturing engineer technology, marketing communications, and mechanical design drawing.

The next VTAE Board meeting was scheduled for July 24 and 25 in Madison.

✓ Regional Testing Program - See Testings

REPORT OF THE PRESIDENT OF THE SYSTEM

Report of Non-Personnel Actions and Informational Items

It was moved by Regent Veneman, seconded by Regent Knowles and unanimously carried that the following resolution be adopted:

Resolution 3075: That the report of non-personnel actions by administrative officers to the Board of Regents and informational items reported for the record be received for the record; and that actions included in the report be approved, ratified and confirmed.

*✓ Testings Program - Presentation on the Regional Testing Program, pp 4-7
x-ref. Under System COORDINATIONS*

Presentation on UW System Regional Testing Program

Introducing the presentation, President O'Neil observed that the regional testing program was one of the major steps in the university's evolving relationships with other levels of the educational process. Associate Vice President Vernon Lattin then introduced several members of the Regional Testing Advisory Board: UW-Eau Claire Professor Billie Earl Sparks, Chair of the Advisory Board; Dr. Allan Cohen, Director of the UW-Madison Office of Testing and Evaluation Services; Professor James Sobota, of the UW-La Crosse Mathematics Department; and Professor Clay Willmington, of the UW-Oshkosh Speech Department.

Dr. Sparks noted that the goal of all placement testing was to allow students to start in the correct course in various fields, so that neither was their time wasted nor were they set up for failure. Over the years, most System campuses had used some form of placement testing, particularly within the fields of English and mathematics, and the UW-Madison had developed a regional testing program whereby placement tests for UW-Madison were given to students in the spring of their senior year at most of the campuses in the UW System, including the Centers.

Several years previously, he explained, the question was asked as to why more System institutions were not participating in regional testing, and it was discovered that many were not satisfied with the particular battery of tests being given. The result was development of English and mathematics tests which were now in use by most institutions in the System. Success in these areas generated interest in others, including the fields of communications and foreign languages.

Remarking that the test development process had proved to be an excellent vehicle for cooperation across the System, Dr. Sparks said that, as faculty worked together, they identified common concerns and interests. "We found that now we were talking to each other instead of talking about each other, and it has served as a very nice communication device about programming within the various departments. So not only are students benefiting from the test development efforts that we have done, but also the faculty have been benefiting." In the process, he added, the System had received a bargain in the form of test development which had been accomplished at comparatively little cost.

It was noted by Professor Sparks that the UW System/Department of Public Instruction Joint Report on Preparation for College had stimulated discussion as to how the regional testing program might assist students in precollege course selection. The answer was to test high school juniors so that they could see where they would fit at that time in the range of courses available to university freshmen. This early warning system would allow them to take whatever additional high school courses might be helpful and, therefore, perhaps avert the need for some of them to take remedial courses at the university. Noting that in Wisconsin a pilot program of junior testing had just begun this year, he added that other states were contemplating such programs and that Ohio had been a leader in testing thousands of high school juniors in mathematics.

Dr. Allan Cohen described the high school junior testing program which was developed as a response to concerns of high school and college personnel, as well as students themselves, about expectations regarding the skills necessary for entry into introductory English and mathematics courses in the UW System. While admission standards stated the minimum course work required, they did not address the skill levels necessary for adequate preparation. Other testing programs, such as the Pre-Scholastic Aptitude Test (PSAT) of the College Board, provided a comparative ranking of students nationally, but said nothing about individual skill levels for introductory English and mathematics courses. The intent of the high school testing program was to provide juniors with two kinds of information: a clear message concerning UW System expectations and a comparison of the students' levels of preparation with those of their peers, as well as with those of entering UW freshmen. Observing that the UW System and the Department of Public Instruction were both concerned about providing students with as much information as possible to help them make their postsecondary plans, Dr. Cohen said that in March and April this year high school juniors were given an opportunity to take tests in mathematics and English and that about 300 students were interested enough to pay the ten dollar fee required to do so. Each student then received an individualized narrative report, describing in detail how well he or she performed on each of the tests, as well as what additional course work they might want to consider before matriculating to a UW System campus.

Dr. Sparks added that the English test for juniors included a writing sample, as well as a multiple choice segment which tested editing skills. The writing was individually analyzed and an evaluation was included in the interpretive report. Although the writing sample was not currently part of the usual English placement test, he said, many campuses in the System wanted that section included for entering freshmen as well.

Regent Hanson asked if the high school juniors who took the test were from all parts of the state.

Dr. Sparks responded in the affirmative but added that there were clusters from certain places, probably because some high school counselors emphasized the testing more than others. Because tests were given on all four-year campuses in the System and on most of the two-year campuses, the locations were convenient for students across the state.

Regent Schilling asked if sophomores or even freshmen should be tested, since the junior year might be too late to correct some deficiencies.

Referring to cooperative efforts with the Department of Public Instruction, Dr. Sparks said that DPI's competency testing program might be the most appropriate method of assessment for those below the junior level, since what the university administered were actually college placement exams. He added, however, that it might be advisable to give the exams earlier in the junior year, before senior courses were scheduled, although it was possible for students to make changes after receiving the test results.

Regent Clusen asked if it had been determined whether or not corrective action was taken by students who did not do well on parts of the tests and whether they showed improvement upon entering the University System.

In response, Dr. Cohen indicated that 20 percent of those sampled indicated that they took the test results to their counselors. There currently were no plans to monitor what happened in the following years.

Professor James Sobota, of the UW-La Crosse Mathematics Department, reported that in Ohio there had been a marked improvement in student preparation for college mathematics, which was attributed to early testing. The number of students placed in calculus had gone up dramatically, while the number of students placed in remedial courses was going down.

It was noted by Dr. Sparks that so many students in Ohio wanted to take more mathematics courses in their senior year that there were not enough teachers to provide them.

Regent Zirbel inquired as to the work being done with guidance counselors to make students more aware of the tests.

In reply, Dr. Sparks said there was a proposal for teams of faculty members to present the testing program in visits to various schools in order to increase awareness of its value. This kind of personal interaction, he felt, would also have a positive impact on the general area of university relationships with secondary schools.

Professor Clay Willmington then described the most recent test development effort, which was in the field of communications. Stating that studies of secondary education called for emphasis on basic oral communication skills, he noted that the report of the Joint Council on College Preparation identified eight separate speaking and listening abilities essential for successful college study. However, he pointed out, most university freshmen never had taken a high school speech course. One reason for developing a placement test was that, while many students had no formal instruction in oral communication, some had extensive experience gained primarily in co-curricular speech activities. Another problem in basic communication classes was that students experienced various degrees of communication apprehension or "stage fright." Therefore, basic speech courses at the university level included students with a wide variety of experience and ability.

Two years previously, Professor Willmington continued, speech teachers representing all four-year System institutions had agreed that a speech placement test would be useful and had set about developing one. It was noted that many speech placement exams were written tests only and most were conducted by small institutions. The UW System group decided on a three-stage format: first, a written test of knowledge of communication theory; second, a test of sensitivity, to be conducted by presenting on video some communication scenarios and evaluating student responses; and third, an oral performance test of interpersonal and public speaking abilities. It was expected that the written and video tests would be ready for piloting on every campus in the fall and that by next spring they could be used in the regional testing program. Professor Willmington then showed an example of a video test question.

Dr. Sparks added that there was also an enthusiastic group of foreign language faculty looking into developing placement exams in Spanish, French and German.

Regent Lawton noted that an oral performance test could be extremely time-consuming.

Expressing agreement, Professor Willmington explained that stages one and two would serve as screening devices and that those students who performed well could then be invited to take the oral test.

Introduction of Acting Chancellor, UW-Eau Claire; Departure of Retiring Vice President Reuben Lorenz

President O'Neil welcomed Dr. Larry Schnack, who had been appointed Acting Chancellor at UW-Eau Claire following the resignation of Chancellor Hannah. (See page 32.)

He noted that this was the last Board meeting for Vice President Reuben Lorenz, who officially retired some weeks previously but had remained to see the annual operating budget through its final stages. Mr. Floyd Case, who had been named System Vice President for Business and Finance, was to take office in August.

✓ Academic Staff - Convening of Academic Staff representatives and Academic Staff Compensation Comm. - p. 8

Annual Board of Regents Meeting 6/8/84

~~Compensation~~ COMMITTEES ✓ CONVENING OF ACADEMIC STAFF COMPENSATION - 8
COMM., p. 8.

Convening of New Academic Staff Committees

It was reported by President O'Neil that on May 16 Vice President Lyall had convened the first meeting of the new group of Academic Staff Representatives and that the session had been a very substantial and productive beginning of a new relationship, not only between System Administration and academic staff, but among the representatives themselves. On June 6, Vice President Bornstein convened the initial meeting of the Academic Staff Compensation Committee, which included members of the academic staff, several faculty members, two personnel managers from the private sector, and State Senators Barbara Lorman and Marvin Roshell. Observing that this group, too, was off to a promising start, the President noted that it faced a major challenge in completing salary recommendations by September 1 in order to make them part of the biennial budget request.

Extension - report on

↳ Integration of UW Extension with UW System Universities, p. 8 x-reg. - UW Ext

President O'Neil reported that at all the universities except UW-Madison and UW-Milwaukee appropriate interinstitutional agreements had been signed and would be in effect in the new fiscal year. While that by itself was a noteworthy accomplishment, it was recognized that the bulk of faculty for whom integration was envisioned by the Regent resolutions of April 1982 would be at the two doctoral institutions. Therefore, the major part of the task was yet to be completed.

"I think the fairest comment," the President stated, "is that neither the university faculties nor the Extension faculty is quite ready for that marriage which integration clearly presupposes. When the Madison and Extension faculty senates met on May 7, both had decided to postpone--not to cancel--the wedding date. There will not be any further action until November at the earliest under the Madison faculty resolution--though as a practical matter, given the academic calendar, it would be hard to do much before then anyway.

"I remain confident that integration will be achieved and should occur during the coming year. Indeed, I believe integration is imperative unless the Regent mandate is to be withdrawn or modified, and I have not sensed any inclination on the Board's part to do so. I will proceed on the premise that the Regent directive to achieve integration remains in full force, and I am confident that the chancellors, deans and faculties will do likewise. A year from now, I have every expectation of bringing to you a more positive report on this subject."

President Lawton stated that he detected no softening of the Board's resolve to accomplish integration.

Amendments to Chapter UWS 8, Wisconsin Administrative Code

President O'Neil presented the revised report of the System Committee on revisions to Chapter UWS 8, Wisconsin Administrative Code. Since December 1983, when the Board directed the Committee to reconsider certain issues which State Senator Lynn Adelman had raised, the President felt progress toward accommodation had been made. In addition, he thought the Committee would not object to taking one further step which the Senator had urged in his recent letter to the Board--adding the phrase "and personnel" in the section which required standards regarding extensive use of university facilities and equipment for outside activities. The other issues raised in the letter had been carefully reviewed by the Committee, he said, and it was their firm recommendation that such changes should not be made. He then introduced Senator Adelman, who had requested an opportunity to address the Board.

Senator Adelman commended the System Committee for the substantial progress that had been made but emphasized that he considered it necessary to require reporting of income from outside activities by broad categories. Expressing disagreement with the Committee's view that the amount of money earned in such activities was not relevant for purposes of the ethics code, he stated that money was the most important indicator of time spent and of potential conflict of interest. Failure to require reporting of dollars, he said, would not allow the public to decide whether there was in fact a conflict. He thought, however, that it would be an intrusion into the privacy of an individual to ask for the exact amount earned and had therefore suggested three categories: over \$1,000, over \$5,000 and over \$10,000. Without dollar figures, he commented, one could not differentiate between a professor who received \$100 for a guest lecture and another who might have made \$25,000 in outside consulting. As a consequence, he thought that the person who decided whether there was a conflict would in fact be the person who was reporting, which would defeat the purpose of having an ethics code.

The Senator also suggested that some of the items included as guidelines be placed in the code itself, such as the statement that all decisions regarding direction of students assisting in research be made in the best interest of the students. Referring to s. 8.03, which stated that an individual may not use his or her public position in a manner contrary to the interest of the university to gain anything of substantial value for private benefit, he expressed the view that the phrase "contrary to the interest of the university" was subject to differing interpretations and should be further defined.

In conclusion, however, he stated that with addition of a requirement for reporting compensation, the code would provide a responsible charter for university/industry relationships.

Regent Clusen agreed that reporting of income was essential, adding that she did not consider such a requirement to be demeaning or intrusive, particularly if done in categories. Noting that the Regents were required to file reports similar to what was being suggested, she stated that those in educational institutions should set an example for others. "In addition to that, I would say that I think it is impolitic and not good public relations to refuse to do this at a time when we are asking the citizens of Wisconsin to considerably increase faculty compensation."

Regent Conroy moved that the report be referred back to the System Committee to incorporate the suggestions of Senator Adelman. "I think we ought to be a courageous board and spare the Legislature the debate that might well occur over this issue. We have a responsibility to make sure that the taxpayers and the citizens know what is going on with those who serve the public." The motion was seconded by Regent Clusen.

Regent Knowles asked if Regent Conroy would defer her motion until other speakers were heard, and Regent Conroy responded in the affirmative.

Regent Nikolay asked whether it would satisfy the Senator's concern if the reporting form were changed simply to include brackets for three categories of income.

The Senator responded in the affirmative.

President Lawton then called upon Dr. Peter Eichman, Chairman of the UW-Madison University Committee, who also had requested the opportunity to speak before the Board.

Introducing Professor Paul Williams, who had chaired the UW-Madison faculty committee which studied this matter, Dr. Eichman stated their support for the System Committee's proposal and their view that the issue of conflict had a time basis, rather than a dollar basis. Noting that people did not work at the same hourly rate, he said compensation, therefore, did not reflect commitment of time.

Professor Williams pointed out that the UW-Madison faculty was extremely diverse in terms both of outside relationships and of duties within the academic community. After canvassing a wide range of faculty, his Committee had found a consensus that time involved was the critical unit to be monitored because it represented the major component of faculty commitment to the university. Stating that a conflict of time could be distinguished from a conflict of interest, he said the latter existed primarily as a potential until proven. From the Committee's point of view, the dollar values involved were not relevant to the issue. At UW-Madison, he noted, the department was the unit most acutely attuned to whether individual faculty members were carrying out their duties and therefore could best assess the faculty member's time commitment to the university. It was the Committee's belief that to introduce the concept of dollar values would raise sensitivities that could be detrimental to the kinds of relationships that faculty were striving to establish as part of the university mission.

Regent Weinstein pointed out that the reporting form proposed by the System Committee did not provide a space for stating time spent on outside activities.

Professor Williams said his Committee would agree that the form should be revised to include that information.

Noting that various schools and departments had different traditions with respect to the amount of time which might be devoted to outside work, Dr. Eichman pointed out that there would need to be flexibility and recognition that consulting as part of the extension function was encouraged more in some places than in others.

With respect to the issue raised by Senator Adelman, Regent Weinstein observed that the key words were "conflict" and "interest," the question being how to measure interest. He asked the UW-Madison representatives to explain why they felt the amount of remuneration was irrelevant in making that determination.

Dr. Eichman said they would not argue that time was the only measure of conflict of interest. Noting that there were conflicts that had nothing to do with time or dollars directly, he cited the example of a person who might use his or her position against the interests of the university to advance a profitable deal which did not involve time or identifiable earned dollars. There was no disagreement that such activities should be strictly prohibited.

Referring to the statement which had been made that no other university in the United States required reporting by dollars, Regent Veneman asked why it was being argued that it should be done in Wisconsin when other universities of comparable reputation and quality had not found it necessary.

Vice President Lorenz, Chairman of the System Committee, said it seemed to the Committee that the most relevant information about the performance of unclassified employees related to matters which were already public: the number of class hours taught, dissertations supervised, research published and public service performed. The Committee felt it was for performance of these duties that the person was accountable to the employer, and public disclosure of dollars related to outside activities would not enhance such accountability. Stating that compensation received for participation in outside work was not a reliable index of either time commitment or of any intellectual bias with respect to that activity, he said time and possible bias were the matters to which the interests of the public and the university would appear to be limited, a view which was consistent with the finding of other institutions around the country that money received was not the key to accountability. With the exception of legislators, governing boards, and other top state officials, he noted state employees did not have to report outside income, and the Committee felt strongly that to require such disclosure of university faculty and staff would be an intrusion into their private lives. In the course of its study, the Committee had reviewed more than 100 codes of ethics from other universities, none of which required reporting of outside income.

Senator Adelman added that the subject had been much discussed by commissions, foundations, and private universities. Many of the latter, he thought, required reporting of outside income.

In response to a question by Regent Veneman, he said Harvard and Yale were two institutions with such requirements.

Regent Heckrodt pointed out that the Senator was asking for public disclosure but was saying only that some private universities might have internal disclosure requirements which were not a matter of public record.

Mr. Lorenz said the System Committee was not aware of any private universities which required reporting of dollars, even on a non-public basis.

Since the UW System was a public body, Senator Adelman stated, the essential point was that the people of Wisconsin were the employer. At a time when there was great encouragement of closer relationships between faculty and industry, he felt the implications of such relationships raised more troubling

questions for public universities than for private ones and that the best way for addressing those kinds of situations was through an ethics code of the type he had suggested. He did not think it was particularly important to disclose the amount of time spent on outside activities; rather, he considered dollars to be the best indicator of any conflict of interest. Without reporting of dollars, he commented, no one outside the university would have any basis to decide whether there was reason to suspect a conflict, and the public would be shut out. Emphasizing that the whole point of an ethics code was to create accountability to those outside the System, he contended that disclosure of dollars in broad categories would strike the proper balance between public disclosure and protection of individual privacy. He felt that his proposal was consistent with Wisconsin's leadership tradition and that, just as the state was trying to pioneer in high technology, it should similarly be a pioneer in creating mechanisms to deal with the possible pitfalls inherent in those efforts.

Regent Schilling pointed out that it was important to consider what the public was expected to do with the information provided and whether disclosure of a certain amount of outside income could be taken to imply that the person involved might be guilty of some impropriety.

In response, Senator Adelman indicated that in most cases nothing would be done with the information but that the purpose was to make it available for inspection by those who were interested in what kinds of checks and balances the university imposed. Therefore, he thought the requirement would be easy to accommodate, and there would be few problems. The reporting mechanism itself would serve as an incentive, he added, for faculty to make sure their decisions were grounded in the interests of the university and of the public.

While he thought disclosure of time spent would give both the university and the public relevant information to weigh, Regent Schilling was concerned that reporting of income would only serve to provide the basis for an annual news story. "It is not anything that we can gauge. I think hours would be significant, but I am opposed to a situation where we are providing information that does not mean anything."

Senator Adelman felt the net effect would be to show that there were not many professors making outside income of more than \$10,000, and that the result would be greater public support for increased salaries.

Noting that he had been involved in this issue at the national level, President O'Neil said he participated in the upcoming report of the Twentieth Century Fund Task Force, called "The Commercialization of Academic Science"--a title which indicated sensitivity to pitfalls in this area. In the relevant section, the report would suggest that reporting requirements which were appropriate for public officials were not best adapted to professorial relationships with industry. While as President of the University System, he felt accountable to provide any information requested by the Legislature or any other part of state government, he did not feel the same relationship to state government as a professor of law at UW-Madison, and it was the distinction between those roles which he thought should be understood in discussion of this topic. He was particularly concerned about any action which would convey lack of confidence in the integrity of university faculty at a time when such confidence was critical to faculty morale. A second concern was that a policy which would be unique in the country could disadvantage System universities in competition for the most productive

scholars and research faculty. Recognizing, however, that there might be strong sentiment to seek accommodation of the views which had been set forth, he assured the Board that the System Committee would be willing to try again to do so.

Regent Heckrodt disagreed with the Senator's proposal on the basis that it would shift scrutiny of these matters away from the faculty governance bodies which were best equipped to make sure that their colleagues were performing satisfactorily.

Noting that Senator Adelman's letter had arrived only the previous day, Regent Lawton urged that action be deferred so that the issues could be more thoroughly addressed.

Regent Conroy then returned her motion to the floor.

Speaking against the motion, Regent Weinstein said if it failed he would propose that the matter be sent back to the System Committee for consideration of Senator Adelman's letter and the discussion at this meeting, plus the additional documents he had received that morning. "I feel strongly that the people affected should have maximum input in our decision-making. What troubles me about the Committee's report is that we were not privy to their rationale. And I think it would be most helpful if we could be."

Regent Clusen did not think referral back to the Committee would be useful because the Committee would not be receiving a clear message from the Board. "They know what they have heard from the faculty, but I don't think they are going to know one thing more about where the Board stands if we just once again delay action."

While she did not feel strongly about the particular dollar figures to be attached to income categories suggested by Senator Adelman, Regent Conroy did think it was important that outside compensation be reported. Noting that there were many ways to account for time, she pointed out that dollars, on the other hand, constituted the type of hard evidence needed for monitoring activities.

In response to a question by Regent Conroy, President O'Neil said some of the Twentieth Century Fund Task Force members were from academia, but a majority were from industry.

Regent Conroy stated that she would rather take action to "lock the barn door before the horse is stolen, instead of trying to explain how this happened when we should have done something to prevent it."

Replying to a question by Regent Heckrodt, Regent Conroy confirmed that it was the intention of her motion to incorporate Senator Adelman's suggestions, in principle, into the proposed rules.

Regent Gerrard noted that Wisconsin's economy needed the university's aid. However, he observed, if reporting of outside income were required, an adverse news story could result if a faculty member were paid a certain amount for rendering needed expertise. "What does that do to our institutions? It

hurts them. Let's foster the university by having anybody in this System that can help the State of Wisconsin help it. And if they spend enough time and they have the expertise and they work hard enough, they are entitled to money." He thought participation in such outside activities should be monitored through the processes of faculty governance.

It was pointed out by Regent Veneman that Wisconsin had not been a leader in high technology; instead, the state had been lagging in that regard. "If you ask anyone in this state what is bothering them most, it is the fact we are one of the leaders in the country in unemployment. Now, I don't know if this disclosure in any way will restrict relationships that may create jobs, but there is some potential that this might happen."

Although he supported efforts to improve the economy, Senator Adelman said, it was important to bear in mind that the values of the university and the values of industry were not always in harmony, and that relationships which emerged would therefore raise numerous ethical problems. He suggested that an ethics code involving more than the traditional amount of disclosure was necessary to guide the relationships which developed. Referring to Regent Gerrard's comments, he did not think there would be adverse public reaction to a faculty member being paid for making a needed contribution. The best way to make sure that contribution was appropriate, he stated, would be to let the public know about it.

Regent Schilling reiterated that disclosure was not useful if the information did not lead to a conclusion about the propriety of the person's activity. "I think that if it is our view that someone who makes \$10,000 or more has to fill out an added form, those criteria have to have some sort of implication. Just reporting that you made \$10,000 and not having that be the cause of something--further inquiry, prohibition--is just meaningless." This kind of requirement, he pointed out, could simply lead people to draw unintended conclusions.

The question was put on the motion by Regent Conroy, and it was defeated on a roll call vote, with Regents Clusen, Conroy, Hanson, and Nikolay voting "Aye" (4) and Regents Finlayson, Gerrard, Grover, Heckrodt, Knowles, Lawton, O'Harrow, Schilling, Veneman, Weinstein and Zirbel voting "No" (11).

Regent Weinstein then moved adoption of the following resolution. The motion was seconded by Regent Veneman and adopted unanimously:

Resolution 3076: That the Board of Regents refers the proposed revisions to Chapter UWS 8, Wisconsin Administrative Code, back to the System Committee which studied this matter for the following purposes:

- (1) To incorporate in the form for reporting outside interests and activities a space for reporting the amount of time devoted to those activities, as contemplated by the text of the proposed rules;
- (2) To consider the discussion at the June 8, 1984, Board of Regents meeting and to review materials referred to in that discussion, including those related to the question of reporting dollar amounts; and

- (3) To report back to the Board the results of the Committee's review, including the rationale for its responses to suggestions made in the aforementioned materials.

Report of United Council of UW Student Governments

In his first report as President of the United Council of UW Student Governments, Mr. Scott Dacey spoke about several matters, the first of which concerned an upcoming plenary session of the Council at UW-River Falls. Key issues included reauthorization of federal funds for student financial aid, the proposal for a national drinking age, and legislation to place a student on the Board of Regents.

While students at UW-River Falls had voted to withdraw from United Council, he reported, the Council was optimistic about inclusion of schools from the UW Centers. It was expected that referenda on that matter would be held in the fall.

With regard to topics on the Regent agenda, Mr. Dacey commended all who were involved in preparing the comprehensive reports on the progress and status of minority students. Regent action directing specification of goals and programs along with costs, he observed, would add to the reports' credibility. Applauding the UW System/DPI joint report, he noted that implementation of the proposed programs could only be realized through extensive commitment of GPR dollars.

The report on recent trends in student financial aid, he continued, was of particular interest to United Council because it illustrated the extent of guaranteed student loan debts which were beginning to strap students financially after graduation--a burden which was made greater with every fee increase.

Turning to the fee increase presented for approval at this meeting, Mr. Dacey considered the recommendation an attempt to maintain quality education at the highest possible level while enabling over 3,500 unexpected students to attend System institutions. The university had succeeded where the state had failed, he stated, adding that the state must devise a method to fund the System for all students who could afford to pay their proper share of an education. He felt that further efforts to increase fees should be resisted and that Wisconsin should be proud of having rates among the lowest in the Big Ten.

REPORT OF THE EDUCATION COMMITTEE

Chairman Schilling presented the Committee's report.

Appropriate Action - presentation of

✓ UW System Annual Report to the Regents on the 1982-83 Progress and Achievement of Goals for American Racial and Ethnic Minority Students and Report of the UW System/Department of Public Instruction Committee on Minority Student Affairs; Res. requesting statement of goals & programs, pp. 16-17.

These reports were discussed at a portion of the meeting to which all Regents were invited. Outlining some key elements included in the document, Vice President Lyall indicated that in 1983-84, 7,146 minority students were enrolled in the UW System, an overall increase of 227, including increases in Asian, Hispanic and American Indian students. There was, however, a decrease of 14 in Black student enrollment. Minority enrollment rose slightly to 4.4 percent of total Systemwide enrollment. Encouragement could be taken from improved retention rates for the second year in a row in all minority groups and from success in the discipline-specific recruitment/retention programs. The UW System Advisory Committee on Minority Student Affairs had proposed a new approach to setting and measuring progress toward goals, keyed to minority high school graduation rates, that was considered both more realistic and more ambitious than the previous goals. Evaluations of existing minority student support programs had been completed and were included in the reports.

Attention was called to the following recommendations of the Chancellors' Subcommittee on minority student issues: expanding precollege programs in cooperation with the Department of Public Instruction (DPI), establishing five recruitment centers in the System to better coordinate minority student recruitment, expanding the demonstration projects on retention to the entire System, expanding the graduate Advanced Opportunity Program, and extending that program to undergraduates. The UW System/DPI Committee on Minority Student Affairs also issued 25 recommendations for joint action.

President O'Neil then summarized accomplishments of the System Advisory Committee in addressing the need for better data, including high school graduation rates of minorities. The Wisconsin Assessment Center study of adult minority students suggested another important pool of potential students which needed to be reached more effectively, and additional studies were planned on academic preparation of minority students for college and their financial needs. The new information, President O'Neil concluded, allowed the System to redefine its goals: The ethnic distribution of the entering freshman class should equal that of the previous spring's graduating high school class; minority retention rates should equal non-minority retention rates; minority graduation rates should equal non-minority graduation rates; the continuing relationship of undergraduate to graduate enrollments should assure graduate-level increases as numbers of undergraduates increased; and separate five and ten year goals should be set for the separate minority groups. The President expressed his appreciation to the Chancellor's Subcommittee and Joint System/DPI Committee for the reminder that no significant progress could be made without cooperation and that, while improvement might be costly, it was needed in the areas of financial aid, precollegiate programs, expansion of the demonstration/retention projects, recruitment, and American ethnic studies.

At the Committee meeting, Regent Grover distributed a comparison of recommendations included in the reports. Expressing concern that proposals had not been fully coordinated, he urged that the UW System and DPI combine the best of both studies in a joint effort. He stressed the importance of more resources to permit early work with minority students in the schools and the need for additional efforts to attract more of the most gifted minority students to UW institutions.

In answer to Regent questions, System Senior Staff Associate Susan Exo and Vice Chancellor Kuepper of UW-Green Bay described the methodology for creating the new goals and pointed out that in five years they were projected to be higher than the current goal. Associate Vice President Lattin observed that the goals would change from year to year as minority high school graduation rates changed.

Regent Weinstein then proposed Resolution 3077, which was approved at the Committee meeting. In support of the resolution, it was noted that the separate reports had differing fiscal implications and that the Board should approve a single set of recommendations. Opposition was expressed on the basis that the Board knew what it wanted to do and should act at this meeting. Regent Grover felt that differences between the reports could be readily resolved and that the cost implications of the recommendations should be jointly developed by the UW and DPI.

Concluding Committee discussion, Regent Finlayson commented on the need for more attention to recruitment of minority faculty/staff and to better counseling in the schools. Chairman Schilling stressed that the Committee's action did not represent lack of commitment to the intention of the recommendations, but rather the need for a coordinated approach.

At the Board meeting, Regent Schilling moved and Regent Veneman seconded the following resolution:

Resolution 3077: That the Board of Regents be presented at the July meeting with a resolution in two parts regarding recruitment and retention of minority and educationally disadvantaged students, the first part to be a statement of goals and the second part to be a statement of programs, including an estimate of the funding level for each of those programs.

Explaining his opposition to the resolution, Regent Nikolay stated that while he did not oppose the recommendations in the reports, he could not support the tendency to delay action on such matters.

Put to the vote, Resolution 3077 was adopted, with Regent Nikolay voting "No."

Approval of an Interinstitutional Agreement between UW-Parkside and Carthage College

Regent Schilling continued the report of the Education Committee with a summary of the proposed interinstitutional agreement, which was described by Vice President Lyall as similar to several others including those between UW-La Crosse and Viterbo College, UW-Superior and St. Scholastica, and UW-Eau Claire and Emmanuel Lutheran. There was to be no exchange of dollars; rather, students would have access to unique courses at the participating institutions on a space-available basis. Such exchanges would be balanced to ensure an approximately equal flow of students in each direction.

It was reported by Acting Vice Chancellor Greenebaum that Carthage College's approval processes had been completed and that Regent approval would be the final step in the transaction. President O'Neil noted that the premise of such agreements was often that areas of special course strength at one institution would not be developed at the other.

It was moved by Regent Schilling, seconded by Regents Zirbel and Finlayson, and unanimously carried that Resolution 3078 be adopted by the Board.

Resolution 3078: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Parkside, the "Agreement for Inter-institutional Cooperation" between the University of Wisconsin-Parkside and Carthage College, proposed to enhance educational opportunities for students of both institutions, is approved for implementation effective Fall Semester, 1984.

✓ Reg - Carthage College Approval of Interinstitutional Agreement with UW-Parkside

Approval of Revision to UW-Whitewater Faculty Personnel Rules, Chapter III, (2), (f)(4, 5 & 6)

The Committee reviewed the proposed amendments, which were designed to clarify practices regarding execution and recording of faculty evaluations by stating more specifically that evaluations were to be constructive and that a record would be preserved in the faculty member's permanent file. There was some discussion by the Committee of language concerning the counting of abstentions as negative votes.

Upon motion by Regent Schilling, seconded by Regent Weinstein, Resolution 3079 was adopted unanimously by the Board.

Resolution 3079: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Whitewater, the Amendment of Chapter UWW III of the University of Wisconsin-Whitewater Faculty Personnel Rules be approved.

✓ UW-Whitewater - Staff - Approval of amendments to Faculty Personnel Rules, R. 3079, p. 18.

Academic Program

✓ Annual Report on 1983-84 Academic Program Designations and Related Academic Approval Actions, p. 19.

Regent Schilling stated that highlights of this informational report were reviewed by Vice President Lyall, who noted that the year had been typical in that 31 submajors were added and 12 were deleted. Among the 17 other changes were merging of departments, along with a number of name changes. Twelve new majors were approved by the Board while five were eliminated.

Placing the past year's activities in the context of all program changes since merger, she pointed out that since 1974 there were 122 new degree programs added, evenly divided between undergraduate and graduate levels, while 127 had been eliminated. New programs approved since 1974 constituted only 10 percent of the total program array and represented less than one new program per year per institution in a period when Systemwide enrollments had grown by more than 18 percent. It was noted that recent enrollment shifts to more expensive technical and professional programs had to be supported through resource reallocation and had strained the System's ability to keep the curriculum vital.

In response to Regent questions, Dr. Lyall said most of the new programs this year had been in the technical and professional areas. The Committee requested an analysis of whether humanities programs were being eliminated while professional/technology programs were being added, and Chairman Schilling urged that the basic liberal arts not be slighted in favor of trend-conscious professional or technical programs.

Shakhashiri

✓ Statement by UW-Madison Professor Bassam Shakhashiri, p. 19

President O'Neil asked Dr. Shakhashiri to say a few words to the Committee before his departure for a two-year appointment with the National Science Foundation. Reviewing his career at UW-Madison, the Professor paid tribute to faculty colleagues throughout the System and praised the excellent quality of the university's faculty, students and facilities. In his work at NSF, he hoped to assist in revitalizing the teaching of science at all levels. The Committee wished him well and expressed the hope that he would return to Madison at the end of his Washington assignment.

Regent Schilling reported that Resolutions 3080-3085 were approved by the Education Committee in closed session.

Business School of

✓ Authorization to Recruit a Professor and Dean, UW-Madison School of Business, R. 3080, pp. 19-20

Adoption of the following resolution was moved by Regent Schilling, seconded by Regent Finlayson and carried unanimously:

Resolution 3080: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Madison, the Chancellor of the University of Wisconsin-Madison be authorized to recruit for a Professor and Dean, School of Business, University of Wisconsin-Madison.

✓ Professorship - Vilas

Martha M. Howe named Vilas Professor, Dept of Bacteriology, UW-Mdn., R-3081, P-20 ✓ X-reg Howe

Named Professorship, UW-Madison

Regent Schilling moved adoption of Resolution 3081. The motion was seconded by Regent Finlayson and unanimously adopted.

Resolution 3081: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Madison, the status of Martha M. Howe be changed from Professor, Department of Bacteriology, College of Agricultural and Life Sciences, to Vilas Professor, Department of Bacteriology, College of Agricultural and Life Sciences, University of Wisconsin-Madison, effective July 1, 1984.

✓ Professorship - Hawkins, Glenn B & Cleone R. - Herbert M. Jacob named Glenn B. Hawkins & Cleone R. Hawkins Distinguished Professor, Dept of Political Science, UW-Mdn., R-3082, P-20. X-reg Jacob

Named Professorship, UW-Madison

The following resolution was adopted unanimously, upon motion by Regent Schilling, seconded by Regent Zirbel:

Resolution 3082: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Madison, Herbert M. Jacob be appointed Glenn B. Hawkins and Cleone Orr Hawkins Distinguished Professor, Department of Political Science, University of Wisconsin-Madison, effective July 1, 1984 at an academic year salary of \$60,000 for 1984-85.

✓ Professorship - Henry-Bascom - Margaret J. Safrit named Henry-Bascom Professor, Dept Physical Ed & Dance, UW-Mdn., R-3083, p.20

Named Professorship, UW-Madison

X-reg Safrit

It was moved by Regent Schilling, seconded by Regent Finlayson and unanimously carried, that Resolution 3083 be adopted.

Resolution 3083: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Madison, Margaret J. Safrit be changed from Professor, Department of Physical Education and Dance, School of Education, University of Wisconsin-Madison, to Henry-Bascom Professor, Department of Physical Education and Dance, School of Education, University of Wisconsin-Madison, effective immediately.

It was moved by Regent Schilling, seconded by Regent Zirbel, and carried unanimously that the following resolution be adopted:

Resolution 3084: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Madison, Gayle L. Worf be changed from Professor, Department of Plant Pathology, College of Agricultural and Life Sciences, University of Wisconsin-Madison and University of Wisconsin-Extension, to Vaughan-Bascom Professor, Department of Plant Pathology, College of Agricultural and Life Sciences, University of Wisconsin-Madison and University of Wisconsin-Extension, effective immediately.

✓ Professorship - Vaughan-Bascom - Gayle L. Worf named Vaughan-Bascom Prof., Dept. of Plant Pathology, UW-Madison, R. 3084, p. 21
✓ Reg. Worf

Regent Lawton noted the Committee had been advised by Vice Chancellor Cohen that women faculty at UW-Madison had approximately the same percentage of named professorships as they occupied full professor roles.

✓ UW-GB - Staff - Frederick L. Kersten named Frankenthal Prof of Humanistic Studies, UW-GB, R. 3085, p. 21
✓ Reg. Kersten

Named Professorship, UW-Green Bay

Regent Schilling moved and Regent Zirbel seconded the following resolution, which was unanimously adopted:

Resolution 3085: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Green Bay, Frederick L. Kersten be appointed a Frankenthal Professor of Humanistic Studies at the University of Wisconsin-Green Bay, effective July 1, 1984 through June 30, 1987.

- - -

REPORT OF THE BUSINESS AND FINANCE COMMITTEE

Presenting the Committee's report, Chairman Veneman noted that the first two agenda items were considered at a portion of the meeting to which all Regents were invited.

1984-85 Fee/Tuition Schedules

President O'Neil presented the proposed schedules to the Committee, after which comments were heard from Mr. Avram Rosen, Co-President of the UW-Madison Wisconsin Student Association, and Dr. Edward Muzik, representing the Association of University of Wisconsin Faculties. Following discussion, the Committee approved Resolution 3086, with Regent Nikolay voting "No."

It was moved by Regent Veneman and seconded by Regent Weinstein that the following resolution be adopted by the Board:

Resolution 3086: That, upon recommendation of the President of the University of Wisconsin System, the fee/tuition schedules for the 1984-85 academic year and the 1985 Summer Session, as presented in Annual Budget Policy Paper #84-85/1, be approved. (EXHIBIT A)

Regent Nikolay urged other Board members to join him in voting against the resolution. "I think it is not fair to the students who want to come to our University System schools to impose a tuition increase on them when the Legislature is not providing us with sufficient GPR funds to run these universities properly," he said. Noting that funds used for such programs as inheritance tax relief could have been provided to the university to avert a fee increase, he emphasized that money to support the university must come from all citizens of the state, not just the students, in order to prevent pricing students out of the UW System.

While he agreed that more funding should be provided by the Legislature, Regent Knowles pointed out that the only alternative to raising fees was to turn down state funds for the 3.84 percent faculty salary increase, as well as \$23.5 million for instructional and library support. "That being our option, it seems to me we simply must vote for the tuition increase, which is in my opinion totally beyond our control."

Regent Conroy expressed concern about the increase in fees adding to the already burdensome level of student debt.

In response to a question by Regent Hanson, President O'Neil explained that in the Governor's budget recommendations for the biennium, the student fee share would not have exceeded approximately 27 percent for either year. The Joint Finance Committee, however, decided that a larger share of the increase which the Governor had proposed should come from fees rather than from state appropriations. The inevitable result of combining the approval of certain expenditure levels and the withdrawal of state funding was to generate a student fee which was higher than 27 percent. The last time the student share was 25 percent, he added, was sometime in the late 1970s. Since then, for different reasons, it had crept up first to 26 and 27 percent and now to a bit over 28 percent of total expenditure for a full-time-equivalent student.

Regent Weinstein asked President O'Neil what he would do if the Board were to reject the proposed increase.

In response, the President indicated that the only alternative would be to reduce the unclassified salary increase or the fringe benefit package. In the second year of the biennium, he noted, there really was not much that could be done about increases which had been approved as part of the biennial budget process.

Replying to a further question by Regent Weinstein, President O'Neil said the next lowest fee level in the Big Ten was \$1200 at Purdue and that the average for Big Ten public universities was about \$1665. Michigan's rate was to be more than \$2200 for lower division resident undergraduates and over \$2500 for upper division resident undergraduates.

Regent Gerrard asked how the student share of support in the UW System compared with other universities on a percentage basis.

While in Wisconsin the student share was 28.3 percent, the President responded, in Michigan it was about 40 percent, in Indiana it was approximately 35 percent, and Minnesota's policy was to move toward 35 percent. The percentages in Wisconsin and Iowa were the two lowest in the Big Ten.

Although he thought the Board shared the concerns stated by Regents Nikolay and Conroy, Regent Gerrard felt there was no choice but to approve the proposed increase.

Should there be another enrollment increase this year, Regent Heckrodt asked if it was true that there would be no additional GPR support for those students. President O'Neil answered in the affirmative, adding that there was none for the enrollment increase in the past year.

Regent Lawton commented that he was very sympathetic with the concerns that had been expressed, but that this was the time for unity and cooperative venture with the Legislature and the Governor. Noting that the Faculty Compensation Committee's recommendation was based on a combination of GPR and student fees, he thought "the responsible thing to do is to follow that and hope the Legislature will take our recommendations to heart, too."

In response to a question by Regent Conroy, President O'Neil explained that the student share of 31.6 percent included resident, non-resident, graduate, and undergraduate students taken together. The 28.3 percent rate was for resident undergraduates only.

Regent O'Harrow commended President O'Neil and other System officials for their skillful efforts in representing the University's needs before the Legislature. "They were there for days and made the plea for our needs and for lower fees."

Noting that it was an election year, Regent Nikolay said, "It is time for us to send a signal out to candidates so that the people who are sending students to the university can ask those running for the Assembly or the State Senate what they are going to do about supporting the university adequately, so that the fees don't have to continue to go up."

The question was put on Resolution 3086 and it was adopted with Regent Nikolay voting "No."

✓ Compensation
Statutes

➔ Approval of 1984-85 Salary Adjustments, Promotions in Rank, Tenure Designations, and other Changes in Status, R-3087, PP 23-24

x-ref
Promotions
&
Tenure

Upon motion by Regent Veneman, seconded by Regent Hanson, the following resolution was unanimously adopted by the Board:

Resolution 3087: That, upon recommendation of the President of the University of Wisconsin System, the 1984-85 unclassified salary adjustments, promotions in faculty rank, tenure designations and other changes of status reported in the Book A Supplement, 1984-85 Annual Budget Documentation, be approved.

Approval of Gifts, Grants & Contracts

The Committee then reviewed the monthly list of gifts, grants and U.S. government contracts, the last such report for this fiscal year. The year's total of almost \$262 million was \$36 million more than for 1982-83, the federal portion was almost \$190 million, \$14 million more than the previous year, \$13 million of that increase being for research. The non-federal increase of \$22 million was largely the result of a single contract with the World Development Bank for \$20 million. This month's list included almost \$5 million from National Institutes of Health.

Adoption of Resolution 3088 was moved by Regent Veneman, seconded by Regent Hanson and voted unanimously.

Resolution 3088: That, upon recommendation of the President of the University of Wisconsin System, the gifts, grants and contracts presented at this meeting (copy on file with the papers of this meeting) be accepted, approved, ratified and confirmed; and that, where signature authority has not been previously delegated, appropriate officers be authorized to sign agreements.

Financial Aid

Report on Recent Trends in Student Financial Aid, pp. 24-25

Regent Veneman summarized a report on recent trends in student financial aid, presented to the Committee by System Administration. It was noted that periodic reports were made on the nature and extent of financial aid, including state, federal and institutional programs of grants, work and loans awarded to UW students on the basis of need. System Administration had recently developed the capacity in the central data base to report on trends and longer-term studies related to financial aids programs, and this report provided a brief overview of these programs for the period of 1978-79 through 1982-83.

In fiscal year 1983, more than 55,000 UW students were recipients of some \$160 million of need-based aid, most of which was from federal sources in the form of grants, work and loans. The state, through the Wisconsin Higher Education Grant program, provided over \$6.5 million.

During the five-year period, both the number of students demonstrating financial need and the amount of need per student had increased. At the same time, there was a change in the quality of aid in that the amount of grant and work aid available had not kept pace with the need, forcing students to resort to borrowing. It was pointed out that the shift to more loans raised questions regarding the level of debt. For those students having guaranteed student loans, the combined cumulative debt was near \$4,900; however, current freshmen and sophomores were already approaching that level.

In the next months, System Administration planned to examine further the cumulative debt issue and the need for more grant/work aid. It was anticipated that recommendations regarding these programs would be made to the Board.

Report on Cash Balance

Vice President Lorenz advised the Committee that the estimated cash balance of \$1,663,000 was to be carried forward next year to cover possible shortfalls in fee/tuition income and other contingencies.

Noting that this was the last Business and Finance Committee meeting for retiring Vice President Reuben Lorenz, Chairman Veneman stated that the Committee had benefited greatly from his wisdom and experience. "I feel compelled to inform this Board and the public that the orderly conduct of Business and Finance Committee matters was largely do to his assistance, and on behalf of the Committee, Reuben, we thank you and wish you good luck and happiness."

REPORT OF PHYSICAL PLANNING AND DEVELOPMENT COMMITTEE

Chairman O'Harrow presented the Committee's report.

Approval of Land Transactions: UW-Oshkosh and UW-River Falls

The following resolution was unanimously adopted, upon motion by Regent O'Harrow, seconded by Regent Nikolay:

Resolution 3089: That, upon the recommendation of the UW-Oshkosh and River Falls Chancellors and the President of the University of Wisconsin System, the following land transactions be authorized:

UW-Oshkosh - Bldgs & lands

Approval by →

✓ Purchase of a 0.24 acre parcel of improved, vacant land, located at 1021 Algoma, at an estimated cost of \$68,500 plus \$1,000 for appraisal and closing costs and an estimated \$500 for relocation expenses. R. 3089, p. 25

UW-River Falls - Bldgs & lands

Approval by →

✓ Purchase of a 0.13 acre parcel of improved land, located at 205 Cascade for UW-River Falls at an estimated cost of \$47,000 plus \$1,000 for appraisal and closing costs and an estimated \$5,000 for relocation expenses. R. 3089, p. 25

~~Appro~~ Research Park Approval of

Financing Plan for UW-Madison Research Park, R. 3090, P. 26

Regent O'Harrow reported on Committee consideration of a proposed financing plan for development of the UW-Madison Research Park. In order to establish a long-term endowment for research programs, the overall development plan proposed conveying the property to a nonprofit, university-affiliated corporation which in turn would convey the property to the occupants, preferably by means of long-term land leases. This basic concept was approved by the Regents on November 11, 1983, in Resolution 2953. The actual sale transaction and transfer of title would occur when there was a definite occupant for the particular site, remaining in university ownership prior to that time and available for use by the College of Agricultural and Life Sciences. Phase I of the development plan required expenditures of approximately \$500,000 in 1984-85 for such improvements as street construction, utility expansion, and provision for proper drainage. Funding would be on a loan basis from state building trust funds. Presentations about the plan were made to the Committee by Chancellor Shain and Mr. Wayne McGown, special assistant to the Chancellor.

It was moved by Regent O'Harrow, seconded by Regent Heckrodt, and carried unanimously that the following resolution be adopted by the Board:

Resolution 3090: That, upon the recommendation of the University of Wisconsin-Madison Chancellor and the President of the University of Wisconsin System, and in accord with the provisions of Section 36.33 Wisconsin Statutes, the University be granted authority to sell the Charmany and Rieder Farms (except the parcel identified as "Vet. Science Medical Research Center" on the accompanying map) to the University Research Park, Inc., a not-for-profit corporation, herein referred to as the "corporation"; and further

That the conveyance of title of specific parcels of the Charmany and Rieder Farms occur upon notification by the corporation to the University of its intent to acquire them, and upon payment by the corporation to the University for them at a price to be determined initially by fair market appraisals which may be adjusted periodically to reflect the impact of inflation or recession, such pricing schedule subject to final approval by the State Building Commission; and further

That authorization be granted to seek the release from the State Building Commission of up to \$500,000 for construction of streets and other development costs for Phase I of the Research Park, under the provisions of Section 13.48 (2)(d), Wisconsin Statutes.

Research Park

University Research Park Design Review Board approved, ^{expanded} Hill Farms Architectural to function in that capacity, R. 3091, p. 27 X-~~reg~~
 The Committee then approved the appointment of Laszlo G. Fulop and ^{Hill Farms} Edward L. Hopkins to the Hill Farms Architectural Control Committee, in accordance with the declaration of covenants, restrictions and easements for ^{Architectural} the University Hill Farms Commercial Reserve Addition. ^{Control}
COMM.

There was also a need to implement the provision of the Charmany-Rieder Farm development plan (approved in November 1983) requiring creation of a Design Review Board. There would be plans for such a board to review and act on this fall and it was recommended that the duties of the Hill Farms Architectural Research Control Committee be expanded to include functioning as the University Research Park Design Review Board.

Upon motion by Regent O'Harrow, seconded by Regent Nikolay, Resolution 3091 was unanimously adopted.

Resolution 3091: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, Laszlo G. Fulop and Edward L. Hopkins, of the UW-Madison Department of Planning and Construction, be appointed to the Architectural Control Committee for the University Hill Farms development and,

Further, that the duties of the Architectural Control Committee be expanded to include functioning as the Design Review Board for the University Research Park.

Gift of Dormitory, UW-Madison

Regent O'Harrow reported on Committee review of a request that the Board indicate willingness to accept a gift in kind from the Stone family of a residence hall at UW-Madison and grant authority to the Chancellor to enter into an agreement with the donor family and the University of Wisconsin Foundation, as well as to provide a permit to the Stone family for temporary use of university land during construction of the residence hall. Further authority was requested for the university to acquire at not more than the average of two appraisals plus relocation costs property located at 927 West Dayton Street and 118 North Park Street.

Regent O'Harrow then invited Chancellor Shain to comment at the Board meeting on the proposed gift.

Chancellor Shain stated that the offer was a most remarkable gift by three generations of the Stone family, the youngest of whom graduated from UW-Madison. In recognition of the excellent education he received, the family wished to make what amounted to a \$1.25 million gift, for which the university was extremely grateful. Among the conditions of the offer, he noted, was that eligibility for living in the dormitory would be based on two factors: financial need and high grade-point average. It would be open to both graduate and undergraduate students who met those criteria. Because there would be no debt service on the building, the rates at this dormitory would be lower than at others on campus.

UW-Msn Bldgs & Lunds - Auth. to accept gift in kind of

 & 118 N. Park for its construction, R. 3092, pp. 27-28
 Annual Board of Regents Meeting 6/8/84
 X-ref - Stone Residence Hall, West Dayton, 927, N. Park, 118 - 28

If the cost of the building were to exceed \$1.25 million, Regent Hanson asked if the Stone family was willing to pay the additional amount.

Responding in the affirmative, Chancellor Shain said the family would have the building constructed and pay the actual cost. They planned to engage the School of Architecture at UW-Milwaukee to help design the building, after which they would develop the construction contracts. The university would retain an oversight responsibility to make sure that building standards were met.

Adoption of Resolution 3092 was moved by Regent O'Harrow, seconded by Regent Weinstein and voted unanimously.

Resolution 3092: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, the Board of Regents indicates its willingness to accept a gift-in-kind of a residence hall and grants the following authority to the UW-Madison Chancellor:

- (1) To enter into the agreement with the Stone family and the University of Wisconsin Foundation (which includes naming the facility "Stone Residence Hall") and to provide a Use Permit to the Stone family for temporary use of University land during construction of the residence hall (copy of the Memorandum of Understanding on file with the papers of this meeting).
- (2) To acquire, at not more than the average of the two appraisals, plus related required relocation costs, the property located at 927 West Dayton Street and 118 North Park Street.

Regent O'Harrow asked Chancellor Shain to convey the Board's gratitude to the Stone family for this extraordinary gift.

Leases of Space: UW-Madison and UW-Extension

Resolution 3093 was unanimously adopted, upon motion by Regent O'Harrow, seconded by Regent Veneman.

Resolution 3093: That, upon the recommendation of the UW-Madison and UW Extension Chancellors and the President of the University of Wisconsin System, authority be granted to lease the following property:

N. Sherman, 1601 - Auth
 For UW-Msn to lease space
 at 1601 N. Sherman
 from Madison School
 Dist to 6-30-85
 R. 3093, PP 28-29
 X-ref Msn. School
Dist

UW-Madison

2,500 square feet of first floor work/training space in a building located at 1601 North Sherman Avenue, Madison, Wisconsin

Madison School District, Lessor
 The Shaw Company, Agent
 1045 East Dayton Street
 Madison, Wisconsin

The term of the lease covers a one year period from July 1, 1984 through June 30, 1985 at an annual rate of \$12,000.00 (\$4.80 per square foot). Lessor is responsible for the cost of custodial service, maintenance, and all utilities. Rental payments will be provided from Program Revenue funds.

~~Auth to lease~~
Auth for UW Ext to lease space at

UW Extension - Bldgs & hands

~~1,928 square feet of space located in the Honrath Building, 1835 N. Stevens Street, Rhinelander, Wisconsin, 54501~~ FROM

John W. Honrath, ^{to 6-30-86} Lessor, R. 3093, pp 28-29
P. O. Box 593
Rhinelander, Wisconsin 54501 X-ref Honrath, John W

The term of the lease is a two-year period from July 1, 1984, to June 30, 1986, with two one-year renewal options, at an annual rate of \$15,751 (\$8.17 per square foot), an increase of 38¢ per square foot over the present cost. The lease also contains annual increases, according to the following schedule: year 2, \$16,224; year 3, \$16,711; year 4, \$17,212, with all costs provided by General Program Operations funds.

UW-Whitewater - Bldgs & hands - budget increase for

Heating Plant Repairs, UW-Whitewater R-3094, p. 29.

Regent O'Harrow moved adoption of the following resolution. The motion was seconded by Regent Heckrodt and carried unanimously.

Resolution 3094: That, upon the recommendation of the UW-Whitewater Chancellor and the President of the University of Wisconsin System, authority be granted to increase the budget of the Heating Plant Repairs project by \$85,000 and to bid and construct for a revised total cost of \$330,000 from GPR-General Fund Supported Borrowing-Min. Maintenance/Health and Safety Allocation.

Approval of Minor Projects: UW-Eau Claire and UW-Milwaukee

The next item on the Committee's agenda concerned three minor projects, one at UW-Eau Claire and two at UW-Milwaukee. At UW-Eau Claire, there was need to replace a steam line, while the projects at UW-Milwaukee required \$205,500 from GPR-supported capital improvement fund earnings for repair of structural damage to Engelmann Hall and \$75,000 of non-GPR program revenues to construct a 1,000-person Engelmann Field spectator seating area to accommodate increasing student interest in the sport of soccer.

Upon motion by Regent O'Harrow, seconded by Regent Heckrodt, Resolution 3095 was unanimously adopted.

Resolution 3095: That, upon the recommendation of the UW-Eau Claire Acting Chancellor, the UW-Milwaukee Chancellor and the President of the University of Wisconsin System, the following minor projects be approved and authority granted to plan, bid and construct, at the costs and from the funding sources indicated:

UW-Eau Claire - Bldgs & hands

✓ Approval of → Upper Campus Steam Distribution System Replacement Project, ~~\$222,000, GPR Cap. Imp. Fund Earnings-Min. Maint./Health and Safety Alloc.~~ R-3095, pp 29-30

UW-Milwaukee - Bldgs & hands

✓ Approval of Engelmann Hall Masonry/Caulking Repairs Project, and \$205,500, ~~GPR Cap. Imp. Fund Earnings-Min. Maint./Health and Safety Alloc.~~

→ Engelmann Field Spectator Seating Project, \$75,000, ~~Non-GPR Program Revenues~~ R-3095, pp 29-30.

✓ Telecommunications Systems - Report on DOR tentative approval of specifications for UW-SP telecommunications system, p. 30
Status of Projects ✓ X-reg - UW-SP

Regent O'Harrow reported on tentative approval by the State Department of Administration of specifications for acquisition of a telecommunication system by UW-Stevens Point. One of the important objectives being addressed was determination of current and future telecommunications network requirements for voice, data, teleconference and video.

✓ UW-Oshkosh Bldgs & hands - report on →

The Committee was also advised that bids for the Blackhawk Commons Fire restoration and addition project were \$529,400 under the budget, for a total of \$2,639,900. P 30

A report was made to the Committee on State Building Commission actions at the May 23, 1984, meeting. While all System concept and budget reports were approved, there were modifications in three of them. The UW-Platteville Ottensman Hall project was increased by \$18,000 of program revenues for a new total of \$2,268,000 in order to include the cost of relocating a small parking area on the project site; the primary electrical distribution system repairs project at UW-Stevens Point was authorized for planning only, due to funding limitations in the statewide minimum maintenance/health and safety allocation; and the Golda Meir Library addition and remodeling project at UW-Milwaukee was approved, but construction of the remodeling portion was made contingent upon enumeration of the project in the 1985-87 capital budget.

✓ UW-Platteville Bldgs & hands - report on state Bldg Comm. Increase for Ottensman Hall project, p. 30

✓ UW-SP Bldgs & hands - primary electrical distribution system repairs authorized by state Bldg Comm. for planning only, p. 30

✓ UW-Milw. Bldgs & hands - report of approval by state Bldg Comm of Golda Meir Library addition & remodeling, with remodeling contingent on enumeration in 1985-87 Capital Budget, p. 30.

At 11:55 a.m., the following resolution, moved by Regent Knowles, and seconded by Regent Heckrodt, was unanimously adopted on a roll call vote, with Regents Finlayson, Gerrard, Hanson, Heckrodt, Knowles, Lawton, Nikolay, O'Harrow, Schilling, Veneman and Zirbel voting "Aye" (11), and no Regents voting "No."

Resolution 3096: That the Board of Regents recess into closed session to consider personnel matters, as permitted by s. 19.85(1)(c), Wis. Stats., and to consider personal histories, as permitted by s. 19.85(1)(f), Wis. Stats.

CLOSED SESSION ACTIONS

The Board arose from closed session at 1:00 p.m., and adoption of the following resolutions was announced:

Resolution 3097: That, upon the recommendation of the President of the University of Wisconsin System and the Executive Dean of the UW Centers, the following persons be appointed to the UW Centers Board of Visitors for terms ending July 1, 1987:

*UW centers - Visitors
Appt. of*

- Mrs. Kay Levin, of Cleveland, Wisconsin*
- Mr. Allen Paschen, of Baraboo, Wisconsin*
- Mr. Gerald Viste, of Wausau, Wisconsin*
- R. 3097, p. 31 X-reg - Each appointee.*

Resolution 3098: That, upon the recommendation of the President of the University of Wisconsin System and the Executive Dean of the University of Wisconsin Centers, Roland Baldwin be appointed Dean at University of Wisconsin Center-Manitowoc, effective August 1, 1984, at an annual salary of \$38,000.

*UW-Center-Manitowoc
Appointment of Roland Baldwin as Dean of UWC - Manitowoc, R. 3098, p. 31
X-reg Baldwin*

Resolution 3099: That, upon the recommendation of the President of the University of Wisconsin System and the UW-Madison Chancellor, the following persons be reappointed to the UW-Madison Board of Visitors for terms ending May 1, 1987:

*Visitors, UW-Madison
Appointment of*

- Mr. Byron C. Ostby, of Madison, Wisconsin*
- Mr. Robert J. Soderholm, of Monroe, Wisconsin*
- Mrs. Joy G. Teschner, of Milwaukee, Wisconsin*
- R. 3099, p. 31*
- X-reg - Each appointee.*

Resolution 3100:

That, upon the recommendation of the President of the University of Wisconsin System, the Board of Regents accepts the resignation of Chancellor Mary Emily Hannah from the Office of Chancellor, University of Wisconsin-Eau Claire and the UW System, effective June 1, 1984.

UW Eau Claire - Staff
Acceptance of
resignation of Chancellor
Hannah; authorization
to search for successor;
R-3100, p. 32.

The Board further authorizes the President of the University of Wisconsin System to proceed with the establishment of a Chancellor Search Committee for the University of Wisconsin-Eau Claire, in accordance with Regents' policy on the constitution of such committees.

Hannah - Acceptance of
resignation effective
6-1-84, R-3100, p. 32

Resolution 3101:

That, upon the recommendation of the President of the University of Wisconsin System, the Board of Regents approves the salaries of UW System chancellors for 1984-85 at the rates stated in Schedule A.

Chancellors - Approval of
1984-85 salaries, R-3101,
p. 32 for chancellors

& vice chancellors, R-3101 & 3103, p. 32

Resolution 3102:

That, upon the recommendation of the President of the University of Wisconsin System, the Board of Regents approves the salaries of UW System vice presidents for 1984-85 at the rates stated in Schedule B.

Vice Presidents - Approval of
1984-85 salaries, R-3102,
p. 32

Resolution 3103:

That, upon the recommendation of the President of the University of Wisconsin System and the respective chancellors, the Board of Regents approves salaries for vice chancellors whose 1984-85 rates will be above the maximum of range 5, executive pay plan, as stated in Schedule C.

Resolution 3104:

That, upon the recommendation of the President of the University of Wisconsin System and the respective chancellors, the Board of Regents approves the salary rates for faculty and staff whose 1984-85 salaries will be above the maximum of range 5, executive pay plan, as stated in Schedule D.

(Secretary's note: The schedules to which Resolutions 3101-3104 refer are on file with the papers of this meeting.)

Resolution 3105:

That the Board of Regents establishes the salary for the President of the UW System for 1984-85 at \$78,000.

Compensation - Approval of 1984-85 salaries for Pres, VPs,
chancellors, vice chancellors, & faculty & staff above range 5
The meeting was adjourned at 1:00 p.m. maximum, R-3105, p. 32.
R-3101-3105,
p. 32.

President, System - 1984-85 salary set at \$78,000, R-3105, p. 32

ANNUAL BUDGET POLICY PAPER #84-85/1

SUBJECT: Academic Fee/Tuition Rates for the 1984-85 Academic Year
and the 1985 Summer Session

INTRODUCTION

An average increase of 7.8% in academic fee/tuition rates* is proposed for 1984-85. This increase is less than the July, 1983 estimate of 8.8% because of lower than anticipated increases in health insurance costs and enrollment changes. Factors considered in calculating the rates for various categories of students are discussed below.

ACADEMIC FEE/TUITION RATES FOR UNDERGRADUATES AND GRADUATE STUDENTS

In the 1983-85 biennial budget request, the Board of Regents proposed that 30% of the cost of instruction and all related direct and indirect, supporting costs be paid from academic fees and nonresident tuition, with the remaining 70% to be appropriated from State General Purpose Revenue (GPR). Under the proposal, resident undergraduates would have paid 27% of cost. The Legislature changed the Regents' proposed cost sharing formula by shifting the cost of the instruction/library improvement package, \$23.5 million for the biennium, entirely to academic fee/tuition revenue. This shift would have required students to pay about 31% of instruction-related costs by 1984-85, with resident undergraduates paying 27.5%.

Because enrollments exceeded the projected level by 3,576 FTE students, fee revenue collections for 1983-84 exceeded the budget by \$4.6 million. Given revised projections that 1984-85 enrollments will exceed the earlier, biennial budget projection by a similar number, the Department of Administration allotted the additional \$4.6 of fee revenue for both 1983-84 and 1984-85. Budgeting this additional fee revenue in 1984-85 does not require fee increases above the level projected in the biennial budget, because the revenue is generated by additional students rather than fee rate adjustments. Raising the additional revenue will, however, increase the overall percent of cost paid by students from 31.0% to 31.6%, with undergraduates moving to 28.3%. The increased student share reflects the fact that no GPR was added for the additional 3,576 students. As in 1983-84, fee/tuition rates for nonresident undergraduates have been held to 100% of cost, with the exception of the Centers' nonresident charge which will be held at the 1983-84 dollar level (103.6% of cost).

*The academic fee is paid by residents and all other students, and tuition is the additional charge paid by nonresidents except for those who have tuition remissions.

The major cost increases contributing to the 7.8% average increase in fees include fringe benefit cost increases and salary and wage adjustments of 3.84% effective July 1, 1984; the legislatively authorized improvement in the support for instruction and libraries measured on a per student basis; and utility cost increases.

When applying uniform percents of cost by cluster and student category, the rates of increase in fee/tuition charges vary among the Doctoral Cluster, University Cluster and University Centers. Varying rates of enrollment change affect the pool of students over which costs are spread in each cluster, and therefore influence costs-per-student.

Table 1 shows the proposed academic fee/tuition rates for undergraduates and graduate students, including law students who are included in the Doctoral Cluster's graduate student category. The approved fee/tuition revenue target to support the instructional mission is \$189 million. In accordance with Biennial Budget Policy Paper #83-85/2, approved by the Board of Regents in March, 1983, a 1% safety factor is withheld from institutional budget allocations to accommodate any unanticipated revenue shortfalls and other contingencies such as enrollment shifts among fee categories.

ACADEMIC FEE/TUITION RATES FOR THE MEDICAL SCHOOL AND VETERINARY MEDICINE

The statutes provide that the resident academic fee for study in the Medical School shall be set at 26% of cost and the total nonresident charge at 38% of cost.

The student share of the cost of veterinary medical education, while not specified by statute, is governed by the same percentages. Information on actual costs of instruction on a fully operational basis will not be available until a total complement of students is enrolled in 1986-87. Until that time, the fee/tuition schedule for veterinary medicine will be based on estimated per student costs assuming a fully operational program.

Fee/tuition rates for Medical School and School of Veterinary Medicine are also shown in Table 1.

RECIPROCITY FEE DIFFERENTIAL FOR MINNESOTA RESIDENTS

Under the reciprocity agreement between Wisconsin and Minnesota, students crossing the border to attend a college or university will pay the approximate academic fee they would have paid at a comparable institution in their home state. Approximations are used in some cases because fees for some Minnesota student categories are averaged for use in Wisconsin.

Fees for the University of Minnesota will not be available until after July 1, 1984. For the July meeting of the UW System Board of Regents, fees for Minnesota students attending Wisconsin institutions will be developed and incorporated into the 1984-85 fee schedule approved in June.

SUMMER SESSION FEES/TUITION FOR THE 1985 SUMMER SESSION

Summer session fees/tuition rates are based on the fee/tuition schedule for the previous academic year. Table 2 translates the 1984-85 academic year rates into a schedule for the 1985 summer session. Except for rounding, the summer rates for full time students are one-half the semester rates (or approximately one-fourth the academic year rates) since a full time course load in summer session is defined as one-half that for a semester. This conversion leaves the per credit rate essentially the same for the academic year and summer session.

RECOMMENDATION

Following consultation with the Chancellors, System Administration recommends approval by the Board of Regents of the fee/tuition schedules in Tables 1 and 2.

RECOMMENDED 1985 SUMMER SESSION ACADEMIC FEE AND TUITION SCHEDULE*

	<u>UNDERGRADUATE</u>		<u>GRADUATE</u>	
	<u>1984</u>	<u>1985</u>	<u>1984</u>	<u>1985</u>
<u>DOCTORAL CLUSTER</u>				
Resident Students	264	288	384	416
Nonresident Students	984	1,014	1,236	1,300
<u>UNIVERSITY CLUSTER</u>				
Resident Students	222	246	330	365
Nonresident Students	822	864	1,050	1,140
<u>CENTER SYSTEM</u>				
Resident Students	210	216		
Nonresident Students	792	792		

* The rates shown represent the fees and tuition paid by a "full time" summer session student. Full-time is defined as one-half the full-time semester load for the academic year. The per credit fee for summer session is equivalent to the semester per credit rate for the previous academic year except for rounding to the nearest dollar.

Segregated fee charges for summer session are established using one-half of the semester rate for the previous academic year as the guideline. The charge per credit and maximum fee are set by the individual campus with review by the Vice President for Business and Finance.

III. REPORT OF ACTIONS TAKEN (MEMOS OF AGREEMENT).

- A. A renewal agreement between UW-Madison and the City of Madison for the City's Department of Public Health use of 2,686 net square feet of space at 1954 East Washington Avenue has been signed by the Vice Chancellor for Administration, extending the agreement through May 31, 1985, with four one-year options to renew. The rental rate will be \$10.54 per net assignable square foot per year, with the rental to increase by 6% per year for each year of occupancy.

*Madison City of - Agreement for City of Madison to rent
space at 1954 E. Washington Ave, Jim A. X-reg. 1954 E. Wash*

~~Amendment~~ Access to Independence - amendment & renewal of
 lease to Access to Independence for space at
 1954 E Wash Ave, Item B
 X-ref. 1954 E Wash.

B. The amendment to and renewal of an agreement between Access to Independence, Inc., and UW-Madison for lease of an additional 173 square feet of space at 1954 East Washington Avenue, effective March 1, 1984 (at the current rental rate plus a monthly payment of \$250 for required renovation expenses through June 1984), have been signed by the Vice Chancellor for Administration. The new agreement consolidates the 1,644 square feet of leased space and covers the period July 1, 1984 through June 30, 1987. The monthly payment for renovation expenses will continue through February 28, 1985.

Madison Gas & Electric - Easement to

C. ~~An underground electric power easement to Madison Gas and Electric Company to service the UW-Madison Protection and Security facility at 101 North Mills Street has been executed by the Vice President and Secretary of the Board of Regents May 10, 1984. The service to a new pad mount transformer is to be installed in order to provide for the increased electrical demand of computer operations and related air conditioning requirements in the facility.~~

Item C. X-ref. 101 N. Mills

D. An Education Development Program agreement on behalf of UW-System Administration and with International Business Machines Corporation for one-year loan of certain IBM machines and licensed programs has been signed by the UW-System Director of Purchasing.
