Grow Your Heifers To Be Heavy Milkers

For big frames, big barrels,
And high-capacity milkers,
Build the Purina Way . . .
With Purina Bulkly Las and oats
Or D & F Chow

Then feed a
Purina Milking Rration
for high production

If the milking ration lacks essentials
needed for heavy production, milk supply
will fall off. Protect your investment.
Feed the Purina Way. There's a Purina
Milk Chow built to fit your particular
needs.

SEE YOUR
PURINA DEALER
AT THE STORE
WITH THE
CHECKERBOARD SIGN

ELIMINATE THE MAJOR CAUSE OF MASTITIS by using a MARLOW MILKER

With the Marlow Perfected low-10" vacuum Milking Method, you are assured of all the money-making, money saving benefits found in the great Marlow Milker itself:

1. Eliminates major cause of mastitis.
2. Increases milk production.
3. Insures greater profits.

J. C. says: "The Marlow doesn't milk all the cows in the world, but it does milks hundreds of the champions and highest producers. Ask to see these top records of Marlow Milked cows spread throughout the nation. A milker works on a live subject, therefore the machine

must be designed to please the cow. It must also avoid injury to the udders. Penicillin, aueromycin, etc., do not effect a permanent mastitis cure, but only temporary relief.

Get a Marlow and eliminate the cause of the majority of mastitis flare-ups. Cut veterinary bills, cut the high cost of drugs. Cut the extra time consumed in treating mastitis in cows.

Get first-hand information from those who use the Marlow. Act today! Do something about this daily loss you are taking.

Marlow Milking Parlor

There's a Marlow Milking Parlor system to fill your needs, or a Marlow Milker installation for your present stanchion type barn. Ask your Marlow dealer or write direct for complete information.

The Marlow is Not
Just Another
Milker . . .
It's Different!

MAIL COUPON TODAY

J. C. Marlow Milking Machine Co.
Dept. WD, Mankato, Minn.

Please send me at no obligation your free booklet "They Didn't Believe It" () and free plans on Marlow Milking Parlor Systems ().

President's Message

Many dairymen are becoming alarmed at the growing tendency to substitute foreign fats and oils for butter fat. The consuming public is being misled on the value of such products. There never will be a food as nearly perfect as milk and dairy products. We need a positive program to improve consumer relations with the dairy industry, "Public Relations," in other words can do much to sell the consumers on the value of our product.

We must increase our advertising of our own product because the consumer buys products that are constantly being advertised in our newspapers, over the radio and in magazines.

Many dairymen are also confused on the increasing emphasis on solids-not-fat in milk. Many do not realize that high fat milk is also high solid milk. A method must be found to increase the price of these solids and lower the price of fats so that the dairyman will realize the same price for his milk.

This problem has the attention of many of our dairy leaders and it is hoped that in the near future that some equitable pricing method can be worked out.

Butter has always been the balance wheel of the dairy industry but we can no longer depend on its continuing to be that balance wheel.

Consumer understanding of dairy farmers problems and the value of dairy products in the diet will have to be the goal of all dairymen in the future. This is most important when 85% of our dairy products must find a market outside of the state.

Let's all get together to sell this program.

P. N. STEFFANUS,
President, Wisconsin Dairymen's Ass'n.

SECRETARY'S REPORT

The Wisconsin Junior Dairymen's Association sponsored by the Wisconsin Dairymen's Association continues to grow with more and more groups of Junior Dairymen becoming affiliated with it.

An outstanding part of the leadership training of these future dairymen is the state wide extemporaneous speaking contest on dairy subjects. Twenty five junior dairymen competed in the 1952 program. Duane Pike of Berlin was the state winner and was awarded a handsome trophy at Marshfield at the 5th annual Junior convention.

The Junior Dairyman of the year was awarded a trophy. Ralph Bindle of Reedsburg won this coveted honor.

A trip to the national Dairy Cattle Congress held at Waterloo was one of the highlights of the Junior directors activities.

STATE FAIR EXHIBIT

This year the Wisconsin Dairymen's exhibit featured a cow family. Elsmar Berg and Son of Brownsville supplied the cattle. A grand old Holstein cow her three daughters and two grandsons made up the fine array of typy production bred animals.

More attention to these outstanding cow families should be given by dairymen if they are to build profitable dairy herds.

LEGISLATION

Your Secretary continues to represent you in legislative matters of importance to dairymen both on the state and national levels.

This year we have been instrumental in having a bill introduced in cooperation with the Council of Agriculture and the Dairy Husbandry Department of the College of Agriculture, to license all D.H.I.A. Supervisors and technicians and all dairy plants and cheese factory testers. This should eliminate a great deal of difficulty over test and eliminate competitive pricing between plants as well as build confidence between the producer and plant operator.

MEMBERSHIP

Membership in the Wisconsin Dairymen's Association has increased again last year with 6 new County D.H.I.A. Cooperative becoming affiliated. These Counties are: Chippewa, Clark, Rusk, Rock, Kewaunee and Waupaca-Waushara

About 1,00 new members were added to the roll with these groups.

SECRETARY'S REPORT (Continued)

WISCONSIN DAIRYMEN'S ASSOCIATION

Financial Statement

July 1, 1951 to July 1, 1952

Receipts—

MADISON WISCONSIN

MANURE HAULING

Easier

from Start to Finish

Quick Hitching

No need to lift the front end of the Case tractor spreader, nor to prop it up. The self-hoisting hitch rest right on the ground while hooking up; lifts front of the box when tractor starts ahead, safer. It's so handy that daily spreading is really practical, whether you have big herds or only a few head.

Easy Loading

Low wheels and low box make loading easier, faster, whether by hand or by mechanical loader. Self-hoisting hitch lets front of box down for still lower loading. These Case spreader backs into barns, pulls close to pilese like a two-wheel cart. Sturdy steel frame, long-lived bearings and good lubrication give **ENDURANCE**—long life with low upkeep.

Sure Spreading

Spreader wheels are placed so weight of load aids their "ground-grip" until full unloaded; full load adds weight to tractor wheels, aid their traction. Sharp beater teeth shred manure thoroughly; steadier apron travel assures even spreading. Geared for rubber-tired speed, this spreader makes practical the extra gains of thinner spreading on greater acreage.

See this Handy Sturdy Spreader. Let Your Case dealer show you this stronger, more durable, more convenient spreader. Send for new booklet that tells how to make manure go farther, produce up to twice as big a boost in crop yields.

J. I Case Company, Racine, Wisconsin

CASE

Only five short years had elapsed between the return of battle-tired Civil War soldiers to their native Wisconsin and the year in which was founded the WISCONSIN DAIRYMEN'S ASSOCIATION. The purposes behind that organization, now known the country over, were clearly stated:

"A statewide organization of dairy-men devoted to bettering the home, the income and the living of farming people of Wisconsin."

There can be no doubt of the high degree to which those purposes have been fulfilled. There can be no doubt that dairying as a way of life has been made richer and better in every way as a result of WISCONSIN DAIRYMEN'S ASSOCIATION, collectively and by individual members.

Jamesway congratulates your Association and your Members.

FIRST AID TO QUALITY MILK PRODUCTION

RAPID-FLO

TRADE MARK OF JOHNSON & JOHNSON

Fibre-Bonded **FILTER DISKS**

The safest, most retentive single-service milk filter disks obtainable, preferred by most dairy farmers coast-to-coast.

Available either without gauze or gauze-faced (to fit the needs of strainers in general use).

All Rapid-Flo Filter Disks are FIBRE-BONDED, the exclusive Johnson & Johnson process that makes Rapid-Flo Filter Disks safer, more retentive and efficient, providing an even more reliable Farm Sediment Check-Up.

THE *RAPID-FLO* FARM SEDIMENT CHECK-UP

Your daily safeguard for Better Milk Quality and protection against possible loss of milk, endorsed by leading dairy authorities.

1. After filtering each can of milk (10 gallons or less) carefully remove the used filter disk from the strainer and place it on a cardboard to dry.
2. When it is dry, examine the disk closely. Identify the sediment or extraneous matter, in order to determine where it came from, so you can prevent any more getting into milk in the future.

A clean, used filter disk, the Badge of Merit of a good dairy farm

Bred for Production and Type

Herd headed by "Glen Urguhart Imperial's Ideal" son of "Glen Urguhart Imperial 86582 Imp." and "Glen Campbell Sunflower 323416" with a 2 yr. old record of 9983 lbs. of 4.36% milk, 435 lbs. butterfat. A 4 yr. old record of 11145 lbs. butterfat. A 4 yr. old record of 11145 lbs. 4.30% milk, 475 lbs. butterfat..

A Few Choice Bull Calves for Sale.

LAWRENCE BLANK

Ripon, Wisconsin

HACKER BROS.

BRILLION

Breeders of the Ayrshire Cow that has the

State Record for Longtime Production.

LEAN MEAT WANTED

For daily meals, mothers buy more meat of medium finish. Sufficient fat for flavor is desired. But excessive fat costs you money in lowered market prices — and in higher feeding costs, too.

Your job in raising livestock is to convert feed into meat profitably. Livestock of good conformation, well muscled livestock, are the types most profitable to you to raise and sell.

We feel sure the knowledge you obtain in selecting and feeding your show animals will help you earn well deserved profits from your livestock production for years to come. We wish you every success.

Your Friendly Livestock Market

PROGRAM HIGHLIGHTS FOR 1952

STATE SALE

The fifth annual Wisconsin State Sale will be held at the Baraboo Fairgrounds on Saturday, June 6. The offering will consist of approximately 60 head all consigned by breeders in the state. All animals will be carefully selected by the state committee. A banquet on Friday night will be held at the Warren Hotel and all are cordially invited to attend.

CANTON SHOWS

One day aCnton Shows for each o fthe 10 organized Cantons are being planned for the month of July, starting July 8 and ending July 18 with Canton 3's Show and the tSate Picnic.

CANTON MEETINGS

Afternoon meeting in each Canton were held in March. Breeders came away more enthusiastic than ever about Brown Swiss.

4-H ENCOURAGEMENT

The top boy or girl in both 4-H and FFA will receive a pen and pencil set and the second place award will be \$10.00 cash. A two day trip to view some of the outstanding swiss herds in the state will also be given to the top two winners in 4-H and FFA. Prizes, too, for the best showmen and county groups at the 152 State Fair.

GOLDEN GUERNSEY MILK

Now 3 Different Ways

1. "CREAM AT THE TOP." For those who wish to remove a half pint of delicious cream from the top of the bottle, and serve a milk high in solids and vitamins for drinking.
2. "HOMOGENIZED." For those who prefer the smooth velvety flavor of delicious butterfat—broken up and distributed into minute particles throughout the entire bottle.
3. "SKIM." For those who, under doctor's orders, require a skimmilk of excellent flavor, high in solids-non-fat content.

For information about producing Golden Guernsey Milk write: The American Guernsey Cattle Club, Promotion Division, 07 Main St., Peteborough, N.H.

GUERNSEY BREEDERS

Be a member of your County and
State Association

SERVICE:

To Breeders—We offer our sales service for dispersal sales and for private sales. Also cooperate with our county association sales groups. Let us know if you need help on your back registrations. We can help you.

We supervise the sale of Golden Guernsey milk in Wisconsin — The best market for a high quality milk.

Wisconsin Guernseys Our state magazine to every member, your membership is needed we will give you value received.

OUR YOUTH PROGRAM:

20 special awards to 4-H and FFA members. Showmanship awards and other special awards given at County and State Fair.

Cooperation with county associations to give more help and awards to our junior breeders.

SELL HER MILK!

**Her calf doesn't need it
...with **KAFF-A****

The safe replacement for milk!

Raise healthy calves on vitamin-high Kaff-A! A million healthy heifers have already been raised on Kaff-A. It's the *safe* replacement for milk . . . the one you can be sure will produce healthy calves! So don't take a chance on an inferior imitation of Kaff-A. A nickel saved on feed may cost you many dollars if your cows turn out to be poor milkers. Be safe! Feed Kaff-A! *Its* vitamin content is known! Kaff-A has a nutritious dried buttermilk base. It also contains other dairy by-products, some cereal products, plus Vitamin A and D Feeding Oil!

Every box gives you up to 500 extra pounds of milk to sell! Just 1 lb. of Kaff-A replaces 10 lbs. of milk in calf feeding! That means every 50 lb. box of Kaff-A fed with low-cost hay and grain can release as much as 500 lbs. of milk you can sell! And you'll find that adds up to a handsome profit!

Easy to feed! Just mix one part Kaff-A to 9 parts of warm water, and begin to feed on the 4th day! By the 10th day your calves will be weaned! So feed Kaff-A and sell your cow's milk! Kaff-A is the safe replacement for milk!

CONCRETE

Dairy Improvements Aid Milk Production

A concrete milk house, cooling tank, or dairy barn will help you step up milk production. Concrete's sanitary features meet health board requirements; keep your cows healthier; make your work easier.

The Portland Cement Association has prepared suggested designs for these and other farm structures which will give many years of economical service. Concrete is low in first cost and upkeep. It's easy to build. Materials usually available locally.

Write for the Helpful Free Booklet . . .

WISCONSIN HOLSTEINS

Over 2,300 Breeders Are Members

Membership entitles them to subscriptions to the national breed publication, **The Holstein-Friesian World**, and to the state paper, the **Wisconsin Holstein News**. As a member of the state, as well as the national association, they receive a special 50c reduction in transfer fees.

The state Holstein association sponsors the **Country Contest**, a breed improvement recognition program, youth activities and awards, and handles cattle inquiries for grade or purebred cattle. Many other projects and activities are part of the association's program.

We invite you to join the state Holstein association, if you are not a member.

THE PROVING GROUND

—Of Our—

CATTLE BREEDING BUSINESS

is in the cow barns on farms where daughters of our sires show what they can do under practical farm conditions.

DHIA REPORT FROM USDA

19 Holstein Sires now in the stud of Badger Breeders Cooperative have 483 daughters average 12,561 lbs. of milk, 3.6% and 452 lbs. of fat.

11 Guernsey Sires now in the stud of Badger Breeders Cooperative have 104 daughters average 8,985 lbs. of milk, 5.0% and 449 lbs. of fat. This is 200 lbs. of fat above the average cow in Wisconsin.

Badger Breeders Cooperative

SHAWANO, WISCONSIN

Visitors Welcome

Visiting hours: 10:00 A.M. — 12:00 A.M.
1:00 P.M. — 4:00 P.M. Daily

FOR SERVICE CALL

Greetings Folks:

May we tell you a bit about our breeding program? We have mated the daughters of our proven sires **Fillsdale Ormsby Aggie Lad** and **Pabst Burke Governor Crusader** with **Honeywood Regal Creator** and **Bright Star Regal Lad**, both sons of **Pabst Regal**—**G. M.** and **EX.** These crosses have produced cows with lots of size, type and dairy characteristics with udders that are well shaped and well attached and really produce!

A few foundation females and some dandy Herd Sires prospects for sale at a price you can afford to pay.

Why not visit our herd soon?

Several H.I.R. records over 600 B.F. 2X.

WISCONSIN

JERSEYS

**Pay Top
Profits!**

Figure it this way

Jerseys begin milking 2 to 10 months earlier than other breeds. So it costs you less to buy or raise them.

Jerseys require less feed than other breeds. So you can keep more cows on your farm.

Jerseys convert more of their feed into milk solids. So you get greater returns per dollar of feeding cost.

Jersey milk contains more butterfat than milk from other breeds. So you get a higher price for every hundredweight you sell.

It's Simple Arithmetic

Jerseys cost you less, pay you more.

So you make more money with Jerseys.

in Wisconsin for 1951.**

MILKING SHORTHORN CATTLE

"The Cattle of the Century"

Milking shorthorn cattle are the oldest of improved breeds, the first to become registered in the United States (1846) and TODAY the most modern of all cattle breeds in adaptation to general farm needs.

Visit Wisconsin Herds

The Milking shorthorn cow is popular with Wisconsin farmers. They appreciate her TWO-WAY bargaining power. On farm feeds and roughage she will produce more 4 per cent milk and offer greater salvage value when through milking than other breeds.

Pounds Count

You sell milk by the pound—Beef by the pound. With Milking Shorthorns you get more of both in one animal at the same time—MORE PROFIT.

Get the Facts

Subscribe to Milking Shorthorn Journal, the official breed magazine—\$2.00 per year.

Maintain Production Of Salable Milk
With The Drug Most Effective
Against MASTITIS

VETERINARY AUREOMYCIN

Crystalline OINTMENT

Lederle

Easy-To-Use • Economical

Thousands of dairymen have found that treatment with **VETERINARY AUREOMYCIN Crystalline OINTMENT** for Udder Infusion is the quickest, easiest and most effective way to check milk losses due to mastitis.

One infusion maintains concentrations of **AUREOMYCIN** in the udder active against *Streptococcus agalactiae*, *Staphylococcus aureus* and other mastitic organisms for 48 hours or longer without interference with milking schedules.

In cases of acute septic mastitis, in addition to udder infusion, the injectable form of **SULMET*** Sulfamethazine *Lederle*** should be used. Subsequent treatment may be conducted with **SULMET OBLETS***.

VETERINARY AUREOMYCIN Crystalline Intravenous** may be used in the treatment of acute septic mastitis as a highly effective agent against a broad range of bacteria.

VETERINARY AUREOMYCIN OINTMENT may also be used for the *prevention* of superficial udder and other mastitic infections. When injuries to the udder or teat occur, it is advisable to apply this ointment locally to the wound and at the same time infuse the quarter adjacent to the wound with one full tube of **VETERINARY AUREOMYCIN OINTMENT** as a preventive measure.

For maximum efficiency in the use of **VETERINARY AUREOMYCIN OINTMENT** for Udder Infusion and best management practices and disease-control procedures for avoidance of reinfection, consult your veterinarian.

Write for folder on **AUREOMYCIN OINTMENT**.

*Reg. U. S. Pat. Off.

**By, or on the advice of, a veterinarian.

New York 20, N. Y.

Less Labor Milks More Cows and Handles More Milk with the Flexible Model F DE LAVAL COMBINE MILKER

Milk This Way...

INSTALLED IN A SEPARATE MILKING ROOM...

Milking 30-35 cows per hour per operator is common practice in many dairies using the De Laval Combine Milker installed in a separate milking room in connection with either a loose housing or stanchion-type barn. Stoo- ping, squatting, walking from cow to cow and carrying milk are eliminated.

Or This Way

OR IN YOUR DAIRY BARN OR MILKING SHED

Dairymen are enthusiastic about the wonderfully efficient results obtained with the De Laval Combine Milker installed in the barn or milking shed. One man milks 50 or more cows per hour. The teat cups are moved from cow to cow and the milk is conveyed through sanitary pipe to the milk room.

... and Handle Your Milk in Any of These Three Ways

Run Directly into Cans...
Most Combine users have installations which automatically filter the milk and fill the 40 qt. cans in the adjacent milk house. Carrying and pouring are eliminated.

Aerate, Cool and Can...
In some sections, such as California, the installation is arranged to filter and convey the milk and discharge it over a surface cooler, thence into the 40 qt. cans.

Discharge into Farm Tank
The De Laval Combine discharges the milk into the refrigerated farm tank, from which it is either "canned off" or pumped directly into the milk tank truck.

LONGER

**Wood is used where wood is best
Steel is used where steel is best**

In this

**NEW JOHN DEERE
Model "L" SPREADER**

Heavy mechanical loading . . . high-speed operation over rough fields . . . manure or phosphate acids—these spreader killers don't stand a chance against the rugged new John Deere Model "L" Tractor-Drawn Spreader. The jar- and jolt-resisting heavy steel frame and armor-plated box-guards and the arch pipe over the beaters absorb the toughest operational punishment. And the specially-treated wood box won't rust—lasts longer.

New, wider range, five-speed, ball-bearing feed conveyor drive . . . new, stronger, longer-wearing steel roller chain drives . . . improved widespread . . . proper weight distribution for best traction on tractor and spreader wheels . . . and bigger-capacity box are other top value features of this new two-wheeled tractor-drawn spreader.

Your John Deere dealer welcomes the opportunity to show you this new spreader. Make a point of seeing him soon.
