The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

SPECIALLY DESIGNED FOR HEALTHCARE PROFESSIONALS

Medical Response to Weapons of Mass Destruction

An Online Course on Nuclear, Biological, and Chemical Warfare for HealthCare Providers

EXPERTISE YOU CAN TRUST.

World-renowned medical publisher Lippincott Williams & Wilkins and software developer Medantic Technology have collaborated with the Uniformed Services University of the Health Sciences (USUHS) and the Henry M. Jackson Foundation for the Advancement of Military Medicine (HJF) to create this online course on *Medical Response to Weapons of Mass Destruction*.

EDUCATION YOU CAN RELY ON.

This interactive online course is designed to rapidly equip medical professionals with the information and decision-making skills vital in response environments.

Medical Response to Weapons of Mass Destruction delivers:

- Unsurpassed content from experts at USUHS
- 10 interactive online modules (consisting of a case and lecture) addressing the most likely agents used in terrorist attacks:

Anthrax
Plague
Smallpox
Venezuelan Equine Encephalitis
Botulinum Toxin
Cyanide
Incapacitating Agents
Mustard
Nerve Agents
Radiation Injury

- Consistent instructional design including lectures, cases and post-tests
- Engaging flash animations and audio to enhance the learning experience
- Additional lecture modules on: Principles of Emergency Decontamination, Psychosocial Aspects of Weapons of Mass Destruction, Nerve Agents: Sarin-Mechanism of Action
- A Certificate of Completion from USUHS
- Continuing education units for physicians and nurses
- Lecture notes on PDA

ACCESS YOU CAN DEPEND ON.

The web-based format of the course allows for anywhere, anytime access.
