MINUTES OF THE REGULAR MEETING

of the

BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM

Green Bay, Wisconsin

Held in Room A106 - Student Union - UW Green Bay
Friday, September 6, 1985
8:30 a.m.

- President Lawton presiding -

PRESENT: Regents Clusen, Finlayson, Fish, Gerrard, Grover, Hanson, Heckrodt,
Lawton, Nikolay, O'Harrow, Saunders, Schilling, Vattendahl,
Veneman and Weinstein

ABSENT: Regent Knowles

Upon motion by Regent Finlayson, seconded by Regent Weinstein, the minutes of the regular meeting of the Board of Regents of the University of Wisconsin System, held on July 12, 1985, were approved as mailed to the members of the Board.

REPORT OF THE PRESIDENT OF THE BOARD

Upon motion by Regent Clusen, seconded by Regent Saunders, Regent Veneman was unanimously elected to serve as Vice President Pro Tempore at this meeting, in the absence of Regent Vice President Knowles.

✓ HEAB - Report of July 19, 1985, meeting, p. 1

Report of the July 19, 1985, Meeting of the Higher Educational Aids Board

It was noted by President Lawton that this report was included in the Regents' agenda materials and that Regent members Finlayson, Nikolay and Weinstein were present. Regent Finlayson thanked System Assistant Vice President Albert Beaver for his assistance to the Regent members of HEAB.

✓ Knowles, Robert P. - Report on health of, p. 2

Board President's Report

Reporting that he continued to be in regular contact with Regent Vice President Knowles, Regent Lawton said that Regent Knowles was at home where he was receiving excellent care, that his interest in Regent business was as strong as ever, and that he continued to be a constant source of good humor and sage advice.

President of the System - Report on smooth

~~Secondly, it was reported by Regent Lawton that the transition from President O'Neil to Acting President Lyall had been completed smoothly and that he had assured Dr. Lyall of Regent support for such initiatives as she deemed timely.~~

p. 2

With respect to the resignation of UW-Milwaukee Chancellor Frank Horton to head the University of Oklahoma, Regent Lawton observed that in the last several months the UW System had lost two chancellors to prestigious institutions, which was a compliment (although not a welcome one) to the UW System and its institutions.

✓ UW-Milwaukee Staff - Resolution of commendation to Chancellor Horton, R 3355, pp 2-3

Resolution of Commendation, UW-Milwaukee Chancellor Horton

The following resolution was presented by Regent Finlayson, who moved its adoption. The motion was seconded by Regent Schilling and unanimously carried.

✓ Chancellor - Resolution of commendation to UW-Milwaukee Chancellor Horton, R 3355, pp 2-3

Resolution 3355: Whereas, Frank Horton has distinguished himself in his five years as chancellor of the University of Wisconsin-Milwaukee as a strong and innovative leader; and

Whereas, during his chancellorship the University of Wisconsin-Milwaukee has added new academic programs, extended its outreach to the business community, undertaken new cooperative efforts with the Milwaukee Public Schools and grown significantly as an integral part of the Milwaukee community; and

Whereas, his direction and commitment to quality have helped mold the University of Wisconsin-Milwaukee into one of the nation's most distinguished urban universities; and

Whereas, his candor, good humor, dedication and seemingly boundless energy made him not only an effective administrator but a welcome associate;

THEREFORE, be it resolved that the Board of Regents expresses its gratitude and appreciation for a job well done; and

✓ Horton, Chancellor Frank - Resolution of commendation, R 3355, pp 2-3

BE IT FURTHER RESOLVED that the Board of Regents extends sincere congratulations and best wishes for abundant success in a distinguished and challenging new assignment.

Chancellor Horton made the following statement: "I appreciate the opportunity to publicly thank former President Robert O'Neil and Acting President Lyall and all the Board of Regents members who have served while I have held the position of Chancellor of the University of Wisconsin-Milwaukee. UWM has really enjoyed the support of former President O'Neil and each of you in a host of ways. Some have spoken about my success at UWM, but you know and I know one individual doesn't bring about success. Faculty, staff and students in the Greater Milwaukee community have worked hard to develop and implement the series of initiatives that I believe are important to UWM and the Milwaukee community.

"I particularly appreciate your support and recognition of the necessity for continued programmatic and facility development at the University of Wisconsin-Milwaukee. UWM is a critical element in the maintenance of the economic, cultural and social well-being of southeastern Wisconsin. Your past and continuing support of UWM underscores your understanding and your commitment to this extremely important geographic area of the state. I can only hope that I will enjoy the level of faculty, staff, student, community and board support that I have received during my time here. Nancy and I will always be grateful for the friendships that we have developed and will maintain in the future.

"The spotlight often focuses on the chancellor; however you know and I know that Nancy is the real reason for any success that might have been achieved, and I want to publicly thank her for her commitment to UWM.

"I look forward to returning to Wisconsin often, and I have indicated to Assistant Chancellor Melkus that I will return personally and help the university move from the Kenilworth Building when that time comes in the very near future.

"Thank you again for your support, and I look forward to seeing you all often in the future. Nancy and I certainly wish the great UW System, my chancellor colleagues and the Board our very best wishes for the future. And thanks for a great opportunity."

- - -

REPORT OF THE PRESIDENT OF THE SYSTEM

Approval of Non-personnel Actions/Informational Items

Upon motion by Regent Fish, seconded by Regent Schilling, Resolution 3356 was adopted unanimously.

Resolution 3356: That the report of non-personnel actions by administrative officers to the Board of Regents and informational items reported for the record (copy on file with the papers of this meeting) be received for the record; and that actions included in the report be approved, ratified and confirmed.

✓ Regs - Presentations

Presentation by Chancellor Edward Weidner, UW-Green Bay, pp 4-6

Reporting first on UW-Green Bay's fund-raising campaign, Chancellor Weidner noted that, although the goal of \$2.2 million was an ambitious undertaking for so young a university, \$2,150,000 had already been raised and it was likely that the goal would be exceeded by \$100,000-\$200,000. Of that amount, \$75,000 came from alumni, \$75,000 from faculty/staff, and the rest from friends in the community, whose generosity was a measure of their support for the university. Of the funds raised, \$1 million would be earmarked for UW-Green Bay's new residence hall project, nearly \$600,000 for five professorships, making a total of six such professorships on the campus, and about \$500,000 for the arboretum.

✓ Regs - Meetings - Meeting held at UW-Green Bay (no further reference)

Turning to the report of the Wisconsin Strategic Development Commission, Chancellor Weidner read to the Board the written reaction of one of his senior staff members, which criticized the report for ignoring current and potential contributions of University Cluster institutions and the UW Centers to the development of the state. Stating that he shared that view, the Chancellor emphasized that it was not credible to suggest that the future economic development in Wisconsin was limited to the I-94 link between Madison and Milwaukee. Unlike some other parts of the state, he commented, Brown County and the Fox River Valley showed vital and dynamic economic growth--a fact which should be kept clearly in mind in considering Wisconsin's future.

✓ UW-Green Bay - Board meeting held at & presentation by Chancellor Weidner, pp 4-6

Chancellor Weidner then spoke about unique aspects of UW-Green Bay's academic plan, explaining that unlike many universities, UW-Green Bay had a set educational philosophy and that most issues were discussed in terms of that philosophy.

Distributing a paper he had presented at Sweden's Linkoping University in 1975, the Chancellor said it demonstrated the continuity in UW-Green Bay's academic plan from that time to the present. He then summarized the main points of that paper, which first indicated that the movement toward more effective liberal education encountered at least four major problems: difficulty in defining liberal education; difficulty in relating liberal education to the disciplines; difficulty in relating liberal education to professional schools or colleges; and attacks from proponents of career education. It was in that context that applied liberal education at UW-Green Bay found special significance, since a problem-oriented approach provided clues for avoiding those four difficulties. The university following such an approach had fewer problems with the definition of liberal education; a problem orientation provided an appropriate educational role for the disciplines and professions; and finally, a problem-oriented education had a variety of job applications.

The paper went on to state that problem-oriented education also provided important advantages for the student, such as a substantial motivation to learn. For the faculty, a problem-oriented university could provide a wider range of stimuli both inside and outside the classroom. There were also important advantages for research and community outreach.

At conventional universities, the paper continued, students made choices in terms of subject matter or professions, while at UW-Green Bay there was a third option. While a student could decide to emphasize a traditional discipline or profession, he or she also could choose either an interdisciplinary major or minor. At a conventional university, faculty members were organized either on the basis of disciplines or professional areas, while at UW-Green Bay, the faculty was organized into multi-disciplinary, problem-oriented units called concentrations. Thus, neither from a faculty nor from a student point of view did disciplines or professions predominate.

The academic plan at UW-Green Bay was based on the idea of social responsibility, and an important element in problem-oriented education was avoidance of elitism on the part of students and faculty. Also necessary to a problem-oriented approach was an interdisciplinary focus, since problems did not confine themselves to boundaries of particular disciplines. A special emphasis on future time was appropriate to problem-oriented universities, as was comparison among different cultures in order for students to understand how similar problems could be affected by cultural variables. A merger of university and community resources was useful because students needed to have a substantial amount of experiential learning. Finally, if students were to learn problem solving, it was appropriate for them to have considerable freedom in choosing among many different alternatives for their own education.

Stating that this was the kind of institution that UW-Green Bay aspired to be, the Chancellor noted that it was probably impossible for any university to completely carry out the principles he had outlined. Rather, these were goals which could be extended or enlarged as experience and new knowledge were accumulated. These goals, he added, were embraced by the faculty, as well as by the student government which discussed the academic plan and how changes might affect it.

As to the results of this type of education, Chancellor Weidner cited the example of a letter just received from a former UW-Green Bay student who was enrolled in graduate school at Arizona State University. Expressing appreciation for the excellent undergraduate education provided by UW-Green Bay, the student attributed success in graduate school to the thorough academic preparation and research experience received at UW-Green Bay. When comparisons were drawn with students from other universities in terms of academic preparation, the student said "it was quite evident that my UW-Green Bay education was much more personalized, broader in scope of required readings, more thorough on methods courses, and given more direction by my urban studies professors, who always took great interest in helping me develop my professional identity."

The Chancellor then gave a video-tape presentation on UW-Green Bay, which provided the following information. During its short history, the

university had a profound effect on the community, enrolling more than 40,000 students and touching the lives of countless others. The quality of these students was reflected in high employment rates after graduation. UW-Green Bay students, who must meet admission standards that were among the highest in the state, could choose from more than 50 undergraduate programs of study, in addition to which there were graduate programs leading to master's degrees in four different tracks. While the majority of students enrolled directly from high school, the student body also included a large number of adult learners.

The high goals of UW-Green Bay students were indicated by the many freshmen who expressed an interest in pursuing graduate or professional studies, as well as by graduate admission tests, on which UW-Green Bay students tended to do well. Each student at UW-Green Bay was expected to take an active role in the development of an individual academic plan, working closely with his or her faculty advisor. All academic plans must include a significant general education component, emphasizing the humanities and the natural and social sciences. Programs incorporated broadly based interdisciplinary study, without losing sight of the practical application of that knowledge. During the January interim, students could combine specialized study with travel to Germany, Mexico or England.

Professors emphasized a problem-solving approach, encouraging students to put the knowledge gained in the classroom to work in the outside world. One example was work done with paper-mill sludge to make fertilizer briquettes, as well as to recover it in the briquette form for burning at the paper companies themselves, so that the sludge could be used as fuel rather than as land fill. The value of such projects was two-fold: first, to assist industry in applying new technology; and secondly, as an opportunity for students to learn about various businesses and to become involved in research projects. In addition, members of the Business Administration faculty offered advice and encouragement to entrepreneurs through the Small Business Development Center.

Examples of the university's special relationships to northeastern Wisconsin included the Area Research Center and a substantial collection of Belgian materials.

In addition to classes on campus, courses taught at the Green Bay Correctional Institution by university faculty gave inmates the chance to acquire college credits, which could be applied toward an associate or bachelor's degree.

Throughout the year, thousands of community members attended a wide variety of campus events, including the International Bay Fest, a dinner-lecture series on far-away places, a series in the performing arts, and summer camps on the campus which offered youngsters instruction in an assortment of programs.

UW-Green Bay also housed an award-winning television production center, and the university library ranked among the best in the UW System. With the recent addition to the Student Union and expanded housing opportunities through construction of new dormitories, the university continued to prepare for an exciting future.

Chancellor - UW-River Falls Chancellor Gary Thibodeau introduced
Introduction of New System and Campus Leaders p.7

Acting President Lyall introduced UW-River Falls Chancellor Gary Thibodeau, who had taken office on August 15. A biologist with extensive teaching and research experience, the new Chancellor came to the UW System from South Dakota, where he was Vice President of Administration.

The Acting President acknowledged with appreciation the presence of Dr. William Kuepper, as Interim Vice President for Academic Affairs, and Mr. Paul Brown, as Interim Vice President for Physical Planning and Development.

Chancellor - UW-Milwaukee Acting Chancellor Norma Rees and UW-Parkside Acting Chancellor Elizabeth Shutler acknowledged

Noting that the UW System was beginning the academic year with two acting chancellors, Dr. Lyall recognized Dr. Norma Rees, who was to serve as Acting Chancellor of UW-Milwaukee, and Dr. Elizabeth Shutler, who was serving as Acting Chancellor of UW-Parkside.

UW-Milwaukee - Staff - Acknowledgement of Acting Chan. Rees, p.7

Chancellor Marshall, of UW-Stevens Point, introduced two new deans: Dr. Joan North, Dean of the College of Professional Studies, and Dr. James Schurter, Dean of Academic Support Programs.

UW-Parkside - Staff - Acknowledgement of Acting Chan. Shutler, p.7

UW-Stevens Point - Staff - Two new deans introduced, p.7

Publication of 1985-86 Introduction to the University of Wisconsin System

Publications - "Introduction to the UW System" for 1985-86 disseminated p.7

Referring to the latest edition of this annual publication, Acting President Lyall indicated that it provided a brief overview of the UW System and each of its institutions, as well as information on admissions, transfer policies, student housing, student expenses, financial aid, and undergraduate majors. Also included were names and telephone numbers of contact people in those areas at each institution. Copies of Introduction went to all high school counselors and to many others throughout the state.

Lyall, Katharine - Observations on future of the UW System, pp 7-9
President, System - Observations by Acting System President on the future of the UW System, pp 7-9

Observations by Acting President Lyall on the Future of the UW System

Acting President Lyall made the following statement: "In what remains of my time this morning, I would like to share some thoughts, observations and hopes for the future of the UW System. As you are only too well aware, the UW System has recently been through a period of stress and some internal division surrounding what has come to be called 'the great catch-up debate.' As necessary as that struggle for competitive salaries was--and I believe it was essential to the future of the System--it leaves some scars that we must work hard in the coming years to heal.

"Since last year's debate, there are those who have called for tougher management and a more centralized structure for decision-making in the University System. They believe that traditional self-governance failed and that, faced with the first really tough policy decision since merger, we had to invite the Legislature in to resolve a family feud. They believe, and I think mistakenly, that more top-down management of the System would prevent

this from recurring in the future. This solution is based on a mistaken premise. Great universities, like great nations, are governed--not managed.

"The other side of the coin, however, is that if we do not govern ourselves responsibly and with restraint, we will surely be managed by others whose goals and purposes may well be narrower and shorter-term than we would believe appropriate for a great university system. In the year ahead, I think we have some work to do to restore the belief of the people of Wisconsin that we can govern ourselves with restraint and in a manner that produces just treatment for all segments of the university community. I believe we can rise to this occasion, and I solicit the participation of faculty and staff throughout the UW System in turning our attention to what we do best: the important business of teaching, research and service to the State of Wisconsin. Among the challenges facing us as a system in the coming year are at least three of special importance that I would like to mention.

"First, I think we must bring to a prompt and satisfactory conclusion the work now in progress to develop a fair and equitable compensation system for academic staff throughout the UW System. Indeed, substantial progress has already been made in this direction. The systemwide committee appointed last year has developed a revised set of academic staff titles that are currently under review at each institution. We hope these titles will form the basis for the development of a complete compensation system, as mandated by the Legislature, no later than June 1986. The successful completion of this task is necessary to bring our academic staff colleagues back in full partnership in the university community.

"Secondly, I hope that the faculty, together with students, throughout the System will undertake to examine carefully this year the nature and quality of undergraduate education in the UW System. Our current diversity of approach in programs is an important asset, but we need to assure as well that undergraduate education at each of our institutions provides some balance and coherence in its exposure to the major branches of learning and that it confers more than narrow technical or professional competence for our graduates going into the 21st century. We need to consider carefully what the future holds for us in the way of shifting demands for new areas of study and new pressures on our resources for achieving and sustaining excellence throughout the institutions. We need to face squarely and plan rationally for the implications of resource limitations in an era of continuing growth and demand for higher education. Vice President Kuepper has announced that the vice chancellors will be reviewing program array in the UW System this year and that they will be reporting on their progress periodically to the Education Committee. Those discussions, I am sure, will come here in your Friday sessions as well.

"Finally, I believe we need to do a better job this year of improving university relations with the business community, in making those in the wider community more aware of the enormous range of resources, programs, centers and services already available to assist individuals in our communities. As a member of the Governor's Strategic Development Commission this past year, I was struck repeatedly by the disjuncture between what the business community says about us and what we are actually doing to provide access and resources to strengthen the state's economy. In the Yankelovich survey of businesses throughout the state, respondents listed the UW System

as one of the state's greatest economic assets and simultaneously listed us as one of the state's liabilities with respect to the anti-business attitude of the university. When individuals who had actually taken advantage of university resources were queried, this schizophrenia disappeared. They were overwhelmingly positive in their assessment of the university and its faculty. I think we need to talk more about our successes, not only in business and economic assistance, but in services to the state's public schools, to farmers and to agriculture. In short, we need to blow our own horn a bit more and to reach out to bring the wider community into partnership with us in many of these areas. But we must also be clear that the primary mission of the UW System is to educate. We are not primarily a business consulting service, and our outreach activities to all communities must be linked to the dissemination of knowledge generated within the university and to educational opportunities available to our students.

"In the coming months, I will be addressing a number of business groups to better acquaint them with the UW System and its resources. And I will also need the help of each Regent to help me carry this message to the external community. The year ahead holds challenges and tasks a plenty. With you, I look forward with optimism to an invigorating and rewarding new year. Yogi Berra once resolved a dispute with the umpire at home plate by saying, 'I guess we just agree different.' Vigorous debate is at the heart of the academic community. In the coming year, undoubtedly we will 'agree different' about a number of things. But I am confident that we can return to a unified pursuit of excellence in the critical business of teaching and learning, and I look forward to that activity this year."

✓ United Council of UW Student Governments, - Report on goals for coming year, pp 9-10

Report of United Council of UW Student Governments

Expressing her hope that the coming academic year would bring a new wave of student activism, JoAnna Richard, President of United Council, reported on activities being planned by that group. United Council's annual leadership retreat was to be held October 18-20 at the Green Lake conference center, with more than 100 students from around the state expected to participate. The opening session was to feature Ed Garvey, Past President of the National Student Association, and Tom Swan, current President of the United States Student Association. Panel discussions were to include the legislative process and the state of higher education and its future, as well as a panel on shared governance featuring past United Council presidents, including State Representative Robert Jauch.

At the United Council meeting in August, the General Assembly designated six goals for the coming year--one for each committee. The President's Committee set recruitment as its goal in order to unite all System schools in unified representation. The Director's Committee was to conduct a fund-raising drive, including grant writing, in order to provide more services to students. The Women's Affairs Committee was continuing its child-care study to itemize services on campuses and provide recommendations for improvement. The Minority Affairs Committee was to continue coordinating high school minority student conferences, in order to provide guidance to grade and high school students on what groundwork must be laid before entering the University System. The Academic Affairs Committee was

to examine how state and federal aid had affected the attainability of a university degree and whether the majority of students were aware of how many financial aid programs were available to them. Finally, the Legislative Affairs Committee was to set up a lobbying network of students from around the state who would be available to contact their legislators whenever needed.

Referring to the report of the Strategic Development Commission, Ms. Richard commented on the importance of responding to recommendations affecting the UW System and enabling students to participate in that response, particularly since unity among the various elements of higher education would make the response more powerful.

REPORT OF THE EDUCATION COMMITTEE

UW-Green Bay - Presentation on interdisciplinary mission, growth as a regional university & changes to undergraduate students, p. 10

Presentation on Selected Aspects of the UW-Green Bay Academic Plan

Interim Vice President Kuepper introduced Acting Vice Chancellor David Jowett, who commented to the Committee on changes which had taken place among undergraduates in recent years. Carol Mishler and Tim Sewald, of the Wisconsin Assessment Center, distributed reports they had prepared on that subject. Dr. Jowett also pointed to the growth of UW-Green Bay as a regional university and introduced two faculty members to give examples of the interdisciplinary mission in action. The first, Professor Hallett Harris, described the UW-Green Bay role in the Sea Grant Program, a ten-year research program to study Green Bay as a microcosm of the problems and potentials of the Great Lakes as a whole. The second, Professor David Galaty, discussed an NEH-funded project for faculty to improve instruction while engaging in interdisciplinary research on the relationship among revolutions in art and ideas during the early 20th Century.

In the discussion which followed, Acting Vice Chancellor Jowett expanded his observations on the workings of UW-Green Bay's interdisciplinary mission, noting that the problem-oriented liberal education seminars (LES) for freshmen and sophomores had been superseded by a structured core of three courses each in humanities, social sciences and sciences, while the LES concept had been transferred to a required senior seminar which provided a capstone experience. On another subject, it was noted that UW-Green Bay's retention rate had been a problem in the past but was expected to improve now that campus housing was available.

Reaffirmation of Policies and Procedures for Academic Program Development

Review of the development & approval process for new academic degree programs; reaffirmation of policies & procedures for development; legislative inclusion in biennial budget of UW-Madison School of Urban Journalism, R 3357, pp 10-15

Dr. Kuepper introduced Associate Vice President Peterson to review with the Committee the lengthy and demanding process undergone by new degree

Board of Regents Meeting 9/6/85

✓ Policy - Reaffirmation of academic program development policy¹¹
R 3357, pp 10-15

programs from conception through approval and evaluation, including the four stages of review--preliminary entitlement to plan, authorization to plan, authorization to implement, and five-year evaluation and review. It was noted that the development and approval process could take years to accomplish.

Committee members discussed the recent inclusion in the biennial budget bill of a school of urban journalism at UW-Milwaukee, a proposal which did not go through the prescribed steps of review/approval and which was passed by the Legislature in spite of vigorous objection by System Administration and members of the Board. It was agreed that the Committee should express its strong reaffirmation of the established procedures for approving new programs/programmatic units, and a resolution to that effect was presented. However, because some Committee members felt more time was needed to consider the matter, the resolution was tabled.

✓ UW-Milwaukee - Legislative inclusion in biennial budget of School of Urban Journalism, pp 10-15

In discussion at the Board meeting Regent Clusen, emphasized that Committee members were in agreement that the Regents should express publicly their support of the established process for approving new programs and that they did not find circumvention of that process acceptable. The reasons for tabling the resolution were shortage of time, difficulty in wording the motion to the satisfaction of all Committee members, and concern about presenting so important an issue to the Board without advance notice.

Regent Fish inquired about the view of those who voted against tabling the motion.

X ref. ✓ Legislature - Legislative inclusion in biennial budget of UW-Milwaukee School of Urban Journalism, pp 10-15

Regent Grover noted that the program approval process was an arduous one which reflected university priorities and institutional missions. Stating that there was a growing tendency to seek other means to create programs, he said "I think everyone ought to be able to compete on a fair and equal basis. If we are going to have two methods by which programs are ultimately judged acceptable and meritorious, then we ought to signal that to the faculty and the chancellors so that they can pursue alternative routes to find solutions to program ordination other than through this rigorous process. But we ought not to have double standards for the faculty. Many of them put years of time and effort into the advocacy and development of a program, and then some come along through the back door, and in six months we have an instant program regardless of the judgment of the System Administration personnel and the recommendations of the chancellors and staff people within the institutions." It was the responsibility of the Board of Regents, he emphasized, to speak out on this matter.

X ref. ✓ Journalism - (Same as above)

Regent Fish felt all Regents would agree with that statement.

Explaining that the resolution presented to the Education Committee called for reaffirming the university's program approval process and encouraging others to respect that process, Regent Grover said that while he favored adopting such a resolution at this time, others felt it was too strongly worded and that it came without advance notice.

X ref. ✓ Budget, Biennial - (Same as above)

Expressing agreement with Regent Grover, Regent O'Harrow suggested that the resolution be reworded so that the Board could state its position at this meeting.

- Regent Veneman presiding -

While he thought all Regents would support reaffirming the university's program approval process, Regent Lawton explained that he had moved to table the resolution because he considered some of the wording inappropriate and because he felt the policy issue was significant enough to deserve full deliberation as an agenda item at the next meeting.

Regent Clusen then read the resolution considered by the Committee:

Resolution 3357: Be it resolved that the Board of Regents reaffirms its position that the current academic program development policies and procedures, as contained in the policy document entitled "Academic Program Guidelines" (ACIS-1) and dated August 1984, constitute the appropriate procedure through which any new academic programs in the UW System should be advanced for approval by the Board of Regents.

Further, the Board strongly objects to any activity of faculty, administrators, legislators or others which circumvents this process or leads to the imposition of new academic programs or academic units at any of our institutions without the proper and legitimate involvement of the responsible departmental faculty, faculty governance bodies, university administrators and the Board of Regents.

Therefore, the Board of Regents takes exception to such departures and advises all those who may be inclined to circumvent established processes to recognize the proper role and function of the Board of Regents, administration and faculty in these matters.

Regent Hanson asked if the Legislature had appropriated any funds for a school of urban journalism, and Dr. Lyall responded in the affirmative.

Regent Finlayson explained that she had seconded the motion to table the resolution because of her concern about reaction of the public and the people to which it was directed. "I thought about the period we just came through and the need to heal some wounds. We could say what we really mean and engender respect for our procedures without creating additional hostilities and impacting negatively upon our attempts to heal those wounds." Her vote, therefore, was not against the concept but against the potential reaction to negative wording.

Regent Schilling considered it ironic that the Governor cited journalism in expressing concern about duplication of programs and then the

Legislature, within the same year, created a new journalism school which was not requested by the university. "I think it is important that the Board speak plainly and quickly to the notion that the Legislature should not be helter-skelter creating programs for our institutions, because it is very a dangerous precedent. It sends the wrong message to so many people." Stating that he favored a resolution much like the one that was proposed, he urged the Board to act on the matter at this meeting.

It was noted by Regent Weinstein that the purpose of a resolution was to restate policy, to enunciate new policy, or to educate people as to current policy. "If there is confusion as to what current policy is, then there is some urgency to restate the policy. I would not want the policy to change by erosion or neglect on our part."

Regent Lawton felt that deferral of the matter until the October meeting would not be an undue delay. He and Regent Grover would then have an opportunity to formulate a mutually acceptable resolution that could be submitted to the Regents with their agenda materials.

It was Regent Heckrodt's belief that the Legislature was aware of the Regent's policy. Stating that he saw nothing wrong with the resolution that had been proposed, he said, "If we beat around the bush for another month or two, trying to figure out something that everybody can digest easily, I think that we are being wishy-washy."

Regent Vattendahl shared the concern that delay of action would invite more circumvention of the process. "My basic feeling is to get it done, and there is nothing wrong with the resolution."

Explaining why she broke a tie vote in order to pass the motion to table the resolution, Regent Clusen explained that she had proposed adopting only the first paragraph, which stated in positive terms reaffirmation of the Board's policy, but that the Committee was not satisfied with that solution. She thought the resolution said too much and could be worded in a more positive way so as not to offend people whose support was needed. "Another thing that worries me about the resolution as it stands is more than an implication that some end-runs are due to faculties and campuses. I don't know that for sure, and I don't know that I want to say that publicly." For those reasons, she stated that she could not support this particular resolution.

It was Regent Grover's position that chancellors and faculty--not just the Legislature--should be advised of how strongly the Regents felt about the matter. If they were not, he thought they could see in the urban journalism matter a precedent for avoiding the established process. Not believing that the idea for a school of urban journalism came totally from sources external to the university community, he felt there probably was some faculty advocacy for it which caught favor with the Legislature. "I think it is important for us to reaffirm the process for everybody, probably for the faculty and chancellors most of all."

Stating that he was not concerned about adverse reaction to the resolution, Regent Fish felt the Legislature as a whole, as well as the general public, would support the Board's policy of rigorous scrutiny for

new program proposals. With regard to the urban journalism matter, he did not believe the idea was created by legislators alone, and that it actually originated elsewhere. He did not see great benefit in restating the Board's policy, since the Legislature knew what that policy was when they voted to fund an urban journalism school. His concern was that circumvention of the Regents' process could expand, not only in the area of degree programs, but also into the building program, as was attempted in the last budget. Inquiring as to the Board's authority with respect to withdrawing such a program, he stated "I think we have to try to find some kind of action for the Regents to take to show that better results can be achieved by coming through the Board of Regents than by circumventing it."

Regent Saunders moved adoption by the Board of Resolution 3357, which was the resolution considered by the Education Committee, and the motion was seconded by Regent Heckrodt.

Referring to the mandatory five-year review of new programs, Regent Weinstein pointed out that it was difficult to eliminate a program once it became institutionalized. He asked if the Board had authority not to implement a program mandated by the Legislature.

While the situation was not quite the same, Regent Veneman noted that the Legislature had mandated establishment of the School of Veterinary Medicine, in spite of Regent opposition.

Although the Board voted against the School of Veterinary Medicine time and time again, Regent Fish added, the Legislature kept bringing the proposal up, and prior to the time they took the final vote, the Board voted to approve the school if mandated by the Legislature. At that time, the question was raised as to what would happen if the Regents stood firm in their opposition, but because of the Board's action that point was never resolved. This case was different, he observed, in that the Legislature was creating a school which had never been considered by the Board, without asking if the Board would accept it.

Regent Schilling said his position was that the resolution should be passed today but that the question of what could be done with regard to the urban journalism matter should be deferred so that it could be listed on the agenda and carefully considered. "If we are to be the buffer that we were originally constructed to be and if we are to be vigilant in terms of keeping the university a step separate from the Legislature, when our function is ignored, I think we first have to object and then look to reacting in constructive ways."

Put to the vote, Resolution 3357 was adopted, with Regent Clusen voting "No."

-President Lawton presiding-

Regent Weinstein said it would be helpful to know as quickly as possible what the options were when issues like this one arose.

Regent Schilling felt there should be a general report on the urban journalism issue at the next meeting, including when legislative approval occurred, what the response had been, and what specifically was being done about implementing the program, followed by a discussion of options available to the Board.

It was pointed out by Regent Fish that the Board's action should not be interpreted as an attack on the urban journalism school. The point was that the school was authorized without going through the proper procedures of the UW System and the Board of Regents.

It was noted by Interim Vice President Kuepper that the action of the Legislature was to establish a structure, rather than to mandate establishment of a specific academic program.

Academic Programs - First reading of BA/BS in Women's Studies, UW-Madison; BS in Horticulture at UW-River Falls p. 15

New Academic Programs - First Reading: B.A./B.S. in Women's Studies, UW-Madison; and B.S. in Horticulture, UW-River Falls

UW-River Falls - First reading of new academic program; BS in Horticulture, p. 15

Continuing the report of the Education Committee, Regent Clusen said the history of the UW-Madison Women's Studies program was described by Vice Chancellor Cohen, who noted that the program was celebrating the tenth anniversary of its founding. Over the years, the program had developed 22 courses of its own and 15 courses cross-listed with other departments. Since a 15-credit certificate program was introduced in 1979, 225 students had received certificates.

Women's Studies - First reading of new academic program; BA/BS in Women's Studies, UW-Madison, p. 15

In response to Committee questions, it was indicated that the double-major option would prepare students for graduate work and that the program provided general preparation for a range of jobs after graduation.

Chancellor Gary Thibodeau presented the B.S. in Horticulture. It was felt by Committee members that this program fit well within the mission of UW-River Falls.

Action on both programs was scheduled for the October meeting.

approved
Endowed Chairs - Endorsement of concept of establishing endowed chairs with public/private funding, R 3358, pp 15-16

Establishment of Endowed Chairs

Senator Donald Hanaway made a special presentation to the Committee on his proposal to establish two endowed chairs each in the Schools of Business at UW-Madison and UW-Milwaukee. Explaining that his interest was in implementing one of several recommendations made by the Wisconsin Strategic Development Commission, he said many business leaders around the state were supportive of this initiative and that legislatures in ten states had established such endowed chairs. His request was that the Board consider recommending establishment of endowed chairs in business at the Doctoral Cluster institutions to the Legislature when it met later in the month.

On behalf of the Committee, Chairman Clusen expressed appreciation for Senator Hanaway's comments on an issue of keen interest to the Board. Committee members agreed with Acting President Lyall that, while many of the complex recommendations to the UW System from the Strategic Development Commission would require lengthy discussion, this recommendation lent itself to consideration at the present time. Noting that he had met with Acting President Lyall, Vice Chancellor Cohen and Vice President Bornstein, Senator Hanaway said the need was recognized to build up endowment funds to support the proposed chairs.

Regent Clusen moved and Regent Finlayson seconded adoption by the Board of the following resolution, which had been approved by the Committee:

That the Board of Regents endorses the concept of the establishment of endowed chairs at UW-Madison and UW-Milwaukee, as recommended by the Strategic Development Commission, and encourages UW System Administration to pursue joint public and private funding for such chairs in 1985-86.

Regent Heckrodt asked if there was any discussion about placing the chairs only in the Doctoral Cluster, when there were other universities in the System with excellent business programs.

Responding in the negative, Regent Clusen explained that prospect may have been overlooked because the wording of the Strategic Development Commission recommendation was used in formulating the resolution.

Regent Saunders felt University Cluster institutions also should have an opportunity to submit proposals and compete for the chairs.

Indicating that Senator Hanaway's bill was probably not yet in final form, Regent Lawton observed that schools other than business schools might also be eligible for such chairs. The Committee's intention, he felt, was to support the concept rather than the details of the proposal.

Regent Heckrodt remarked that this issue illustrated the point made earlier in the meeting by Chancellor Weidner that the Strategic Development Commission's report ignored contributions to business/educational cooperation by University Cluster institutions. It was Regent Heckrodt's feeling that the resolution should take a broader view.

Regent Lawton thought Senator Hanaway would be open to such suggestions from the Regents.

Regent Nikolay indicated he could not vote for the resolution without knowing the specifics of the bill being drafted by Senator Hanaway.

It was moved by Regent Schilling and seconded by Regent Veneman that the resolution be amended to delete the words "at UW-Madison and UW-Milwaukee, as recommended by the Strategic Development Commission."

While she recognized the need to establish better relationships with the business community, Regent Hanson cautioned against becoming carried away by the current enthusiasm for service to business. "In the 1960s, we went overboard trying to bring in students who had not gotten the education they were supposed to have in high school, and we are now paying for it. I hope we remember that, as President Lyall said, our primary duty is to educate, not train."

It was pointed out by Regent Vattendahl that the recommendation by the Strategic Development Commission was to establish a minimum of ten such chairs in the next five years.

Dr. Lyall added that there was some discussion of that question with Senator Hanaway at the Committee meeting, but it was decided not to include numbers in the resolution.

Noting that the Education Committee was unanimous in its support for the resolution as originally presented, Regent Finlayson suggested retaining that wording and adding at the end language to allow consideration for such chairs at other institutions.

Regent Clusen did not think the Committee necessarily intended to tie the resolution to any specific proposal, but rather wished to endorse the idea of endowed chairs with both public and private money.

Put to the vote, the amendment was unanimously approved.

The question then was put on Resolution 3358 as amended, and it was adopted, with Regents Finlayson, Hanson and Nikolay voting "No."

Resolution 3358: That the Board of Regents endorses the concept of the establishment of endowed chairs and encourages UW System Administration to pursue joint public and private funding for such chairs in 1985-86. 1

✓ Libraries, (CUWL) - Annual report of Council of UW Libraries, p. 17

Council of University of Wisconsin Libraries (CUWL) Annual Report

Continuing the report of the Education Committee, Regent Clusen stated that Jerome Daniels, 1984-85 Chair of CUWL and Director of the Karrmann Library at UW-Platteville, gave an overview of the cooperative endeavor in selecting a vendor of integrated library automation systems for the University Cluster, with the request for proposals being the most complex ever produced by the UW System. While the System Library Automation Task Force conducted the process, CUWL was involved throughout and unanimously endorsed the task force recommendation to select the Online Computer Library Center as the vendor. He gave examples of enhanced resource sharing and service to library patrons that automation would make possible and noted that planning was in process to assure an interface between the new University Cluster system and the Doctoral Cluster's Network Library System, as well as inclusion of the UW Centers. One of the CUWL committee projects--development of a model plan of preparing for damage resulting from water, tornadoes or other disasters--also was described by Dr. Daniels.

Board of Regents Meeting 9/6/85

✓ Academic Staff - Implementator of s. 36.09(4m), Wis. Stats., 18
on academic staff governance, R 3359, p. 18

Implementation of s. 36.09(4m), Wis. Stats. concerning Academic Staff Governance

The Committee then approved a resolution to formally direct that the institutions implement this section of the statutes and to call attention to the fact that progress in addressing the matter was well under way before legislative action.

✓ ref Governance - (same as above)

Regent Clusen moved adoption by the Board of Resolution 3359. The motion was seconded by Regent Weinstein and unanimously carried.

Resolution 3359: That, upon recommendation of the Acting President of the UW System, the Board of Regents, recognizing that the fundamental intent of section 36.09(4m) of the Wisconsin Statutes is to mandate that academic staff shall be viable participants in university affairs and particularly in academic staff personnel matters, directs each institution to implement the letter and spirit of 36.09(4m) and delegates continuing responsibility for the implementation of this section to the Chancellors in consultation with the academic staff, faculty and students of their institutions.

The Board notes that significant progress has been made to improve and clarify the role of academic staff in institutional governance through the academic staff review conducted by System Administration during the 1984-85 academic year and through the continuing review and actions by each institution which were reported to the Board in July, 1985. The Board commends the academic staff, faculty and administration for proceeding effectively with that review which has laid a firm foundation for implementation of 36.09(4m) and should facilitate any additional actions necessary to achieve full compliance with the law.

✓ UW-La Crosse - Staff - Authorization to recruit Dean of College of Business Administration, R 3360, p. 18

Authorization to Recruit Dean of the College of Business Administration, UW-La Crosse

Upon motion by Regent Clusen, seconded by Regent Saunders, Resolution 3360 was adopted unanimously by the Board.

Resolution 3360: That, upon the recommendation of the Acting President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-La Crosse, the Chancellor of the University of Wisconsin-La Crosse be authorized to recruit for a Dean of the College of Business Administration.

Board of Regents Meeting 9/6/85

Hospital - Administrator - Authorization to recruit associate professor¹⁹ or professor in CHS/Hospital/Pediatrics, R 3361, p.19

Authorization to Recruit Associate Professor or Professor in CHS/Hospital/Pediatrics, UW-Madison

Reporting Committee approval of this new position, Regent Clusen called on Acting Vice Chancellor Jay Noren to provide further information.

Noting that the new position was in the subspecialty of pediatric cardiology, Dr. Noren explained that a new unit was being created to provide a service which in the past had been performed by cardiologists who did not specialize in pediatric cases.

Upon motion by Regent Clusen, seconded by Regent Saunders, the following resolution was unanimously adopted by the Board:

Resolution 3361: That, upon the recommendation of the Acting President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Madison, the Chancellor of the University of Wisconsin-Madison be authorized to recruit for an Associate Professor or Professor in CHS/Hospital/Pediatrics

✓ Chancellor - Authorization to recruit Chancellor, UW-Milwaukee, R 3362, p.19
✓ UW-Milwaukee - Staff - Authorization to recruit Chancellor, R 3362, p.19

Authorization to Recruit Chancellor, UW-Milwaukee

Adoption by the Board of Resolution 3362 was moved by Regent Clusen, seconded by Regent Schilling, and unanimously voted.

Resolution 3362: That, upon the recommendation of the Acting President of the University of Wisconsin System, the Board of Regents approves the Request for Authorization to Recruit for a Chancellor at the University of Wisconsin-Milwaukee.

Regent Finlayson registered her hope that community involvement would be sought in the search committee process.

It was indicated by Acting President Lyall that, although membership on the search committee was limited to institutional faculty, staff and students, the committee would be encouraged to work vigorously with alumni and community groups to develop a pool of candidates.

✓ Centers, UW - Authorization to recruit Dean, UW Center-Marshfield/Wood County, R 3363, pp 19-20

Authorization to Recruit Dean, UW-Center-Marshfield/Wood County

Presenting Resolution 3363, Regent Clusen pointed out that the authorization to recruit was requested because of the Dean's coming retirement.

✓ UW Center - Marshfield/Wood County - Authorization to recruit Dean, R 3363,

It was moved by Regent Clusen, seconded by Regent Saunders, and carried pp 19-20 unanimously that the following resolution be adopted by the Board:

Resolution 3363: That, upon the recommendation of the Acting President of the University of Wisconsin System and the Executive Dean of the University of Wisconsin Centers, the Executive Dean of the University of Wisconsin Centers be authorized to recruit for a Dean of the University of Wisconsin Center-Marshfield/Wood County.

✓ UW-Whitewater - Staff - Authorization to recruit Dean, College of L&S, R 3364, p. 20

Authorization to Recruit Dean of the College of Letters and Science, UW-Whitewater

The following resolution was unanimously adopted by the Board upon motion by Regent Clusen, seconded by Regent Nikolay.

Resolution 3364: That, upon the recommendation of the Acting President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Whitewater, the Chancellor of the University of Wisconsin-Whitewater be authorized to recruit for a Dean of the College of Letters and Science.

Report of the Interim Vice President

Summarizing the Vice President's report to the Committee, Regent Clusen said it was noted first by Dr. Kuepper that the annual list of emeritus designations inadvertently omitted the designation of George Field as Chancellor Emeritus, UW-River Falls.

✓ Teacher Education - DPI rules re teacher preparation distributed, p. 20

A set of new rules proposed by the Department of Public Instruction concerning teacher preparation had been distributed throughout the System for comment. System Administration was preparing a fiscal note and examining other aspects of the proposal; the education deans were to devote their September meeting to discussion of the rules; and DPI was to hold open hearings on them in the next two months. While some initial concerns had been expressed about the effect of the proposed rules on governance issues, discussion continued with DPI in an atmosphere of cooperation. Dr. Kuepper expected to report to the Committee soon on the proposed rules and on response to the Benchmarks report.

✓ Public Instruction, State Dept. - (same as above)

In view of legislation being introduced to require that UW System institutions not start classes before September 1, the vice chancellors were examining the impact of this requirement on their calendars and preparing for the possibility of passage. The legislation would continue to permit registration and advising before September 1.

✓ Calendar - Legislation on beginning times of fall classes reported, p. 20

It was announced by Dr. Kuepper that he would form a working group from among the vice chancellors to examine aspects of program array in the UW System. Possible topics for consideration included gaps in the undergraduate curriculum, the core curriculum, the master's degree array in the University Cluster, and the concept of the baccalaureate degree.

new card

✓ Program Array - Working group of vice chancellors to study aspects of program array, p. 20

Reporting on the highlights of the International Association of Universities' conference on international education, Associate Vice President Lattin said a pervading sense of the conference, at which 77 nations were represented, was that international education was in decline--a victim of world economic and political conditions. A concern expressed about the United States was that only 20,000 American students were studying abroad last year, while 300,000 foreign students attended universities and colleges in the U.S., in addition to which development of foreign language skills in America was poor. Dr. Lattin expected to report soon to the Regents on recommendations concerning international education in the UW System. *p. 21*

✓ Business Administration - *First meeting of business administration program study steering committee, p. 21*

It was noted that the business administration program study had begun under Associate Vice President Peterson's direction and that the steering committee for the study had held its first meeting.

✓ Professorship - Jerry Leer - *UW-Milwaukee Professor Paul M. Fischer named, R 3365, p. 21*

✓ Fischer, Paul M. - *Named UW-Milwaukee Jerry Leer Professor, R 3365, p. 21*

It was moved by Regent Clusen, seconded by Regent Nikolay and unanimously carried that Resolution 3365 be adopted by the Board.

✓ UW-Milwaukee - Staff - *Paul M. Fischer named Jerry Leer Professor, R 3365, p. 21*

Resolution 3365: That, upon the recommendation of the Acting President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Milwaukee, the status of Paul M. Fischer be changed from Professor, School of Business Administration, University of Wisconsin-Milwaukee, to Jerry Leer Professor, School of Business Administration, University of Wisconsin-Milwaukee, for a period of three years beginning with the 1985-86 academic year.

✓ Professorship - Helen Denne Schulte - *Regina P. Lederman named Professor of Nursing, R 3366, p. 21*

Named Professorship, UW-Madison

Upon motion by Regent Clusen, seconded by Regent Weinstein, the following resolution was unanimously adopted by the Board:

Resolution 3366: That, upon the recommendation of the Acting President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Madison, the status of Regina P. Lederman be changed from Professor, School of Nursing, to Helen Denne Schulte Professor of Nursing, School of Nursing, University of Wisconsin-Madison, effective immediately.

✓ Lederman, Regina P. - *Named Helen Denne Schulte Professor of Nursing, R 3366, p. 21*

REPORT OF THE BUSINESS AND FINANCE COMMITTEE

Chairman Weinstein presented the Committee's report.

Approval of Gifts, Grants and Contracts

In his report on gifts, grants, and contracts, Vice President Case advised the Committee that the total for the first three months was \$6.4 million ahead of last year.

Adoption of Resolution 3367 was moved by Regent Weinstein, seconded by Regent Fish and voted unanimously.

Resolution 3367: That, upon recommendation of the President of the University of Wisconsin System, the gifts, grants and contracts presented at this meeting (copy on file with the papers of this meeting) be accepted, approved, ratified and confirmed; and that, where signature authority has not been previously delegated, appropriate officers be authorized to sign agreements.

✓ Legislature - Report of UW System legislative matters, p. 22

Legislative Report

Noting that all Regents had received a report of legislative matters affecting the UW System, Regent Weinstein stated that this document would be incorporated in the minutes by reference. (Copies are on file with the papers of this meeting.) Calling attention to Senate Bill 249, which had to do with opening the records of non-profit organizations assisting public radio or television stations, he said the Committee had asked staff to provide all Regents with background material and urged that Regents contact legislators immediately upon receiving that information. "These kinds of attempts to open the books and records of non-profit organizations, in our opinion, would be not a breath of fresh air, but the kiss of death for private fund raising," Regent Weinstein stated.

Annual Report on Trust Funds

Regent Weinstein noted that this report, which had been presented to the Committee and provided to all Regents, would be incorporated into the minutes by reference. (Copies are on file with the papers of this meeting.)

✓ Credits - Development of uniform guidelines for loan collections resulting from the national direct student loan collection's audit, p. 22

Report of the Vice President

With regard to the national direct student loan collection audit, the Committee was advised that a set of uniform guidelines was being developed to deal with collection of these loans.

✓ Financial Aids - (same) add → ; one-year contract renewal for federal reimbursement of indirect costs, pp 22-23

The Committee was also informed that the contract for federal reimbursement of indirect costs had been renewed for another year on the same terms.

✓ Fees, segregated - Possibility of auxiliary & segregated fee budgets, p. 23

With regard to auxiliary and segregated fee budgets, Mr. Case advised that it might be necessary to reexamine fee rates adopted at the June meeting because, on some campuses, dormitory occupancy was greater than had been anticipated.

Finally, it was reported that the reserve for revenue shortfall and other contingencies remained at approximately \$1.4 million.

- - -

REPORT OF THE PHYSICAL PLANNING AND DEVELOPMENT COMMITTEE

Chairman Heckrodt presented the Committee's report.

✓ Budget, Capital - supplemental projects for submission w/ 1985-87 budget, R 3368, pp 23-24

The Committee was advised that, at the July State Building Commission meeting, Governor Earl summarized the impact of the 1985-87 budget on the building program, expressing his concern that the minimum maintenance program had been reduced by \$8 million. He also indicated that authority to construct the Trostle medium security correctional institution in Milwaukee had been deleted, freeing up \$13 million in borrowing authority. Therefore, Senator Risser and Representative Shoemaker were being asked to develop a list of projects to be submitted to the Legislature for approval in the September/October session, if possible, and no later than the spring 1986 session. According to the Division of State Facilities Management, the list would total \$13-15 million.

The six GPR projects identified by System Administration for inclusion on this list were those which the Board approved for the 1985-87 building program but which did not receive subsequent approval by the State Building Commission or the Legislature.

Also identified for submission was the UW-Madison Center for Health Sciences linear accelerator project, to be funded with available University Hospital and Clinics funds. This project was previously approved by the Board for planning at a lesser scope but, as the project was developed, the cost came to exceed \$250,000, requiring enumeration in the authorized building program.

The Committee expressed its support for these projects but wished to assure that the State Building Commission be asked to consider funding them in the order listed, consistent with the Regent-approved 1985-87 priority list adopted in December 1984.

Adoption by the Board of Resolution 3368 was moved by Regent Heckrodt, seconded by Regent Fish and unanimously carried.

✓ UW-Oshkosh - Bldgs - Polk Library Addn. resubmitted for 1985-87 capital budget, R 3368, pp 23-24

Board of Regents Meeting 9/6/85

✓ UW-Parkside - Bldgs - Library/Learning Center remodeling resubmitted - 24 for 1985-87 capital budget, R 3368, pp 23-24

Resolution 3368: That, upon the recommendation of the Chancellors and Acting President of the University of Wisconsin System, authority be granted to resubmit for supplemental legislation the following Regent-approved 1985-87 Capital Budget projects which were not approved by the State Building Commission (or at a funding level below that adopted by the Board) nor enumerated in the 1985 State of Wisconsin Budget Bill and that Regent-recommended priorities be maintained:

✓ UW-Milwaukee - Bldgs - Chapman Hall remodeling resubmitted for 1985-87 capital budget, R 3368, pp 23-24

Project	University	Funding	Proposed Budget
Polk Library Addition	Oshkosh	Major GPR	\$ 1,100,000
Library/Learning Center Remodeling	Parkside	Major GPR	290,000
			R 3368, pp 23-24
Chapman Hall Remodeling	Milwaukee	Major GPR	2,249,600
Physical Education Addition	Stout	Major GPR	5,000,000
Chilled Water System Imp.	Madison	Utility GPR	5,300,000

✓ Air Conditioning - Chilled water system improvements resubmitted for 1985-87 capital budget, R 3368, pp 23-24

✓ Energy Conservation - (same)

Further, that approval be granted to include in this submission the UW-Madison Linear Accelerator project (previously approved for planning as a minor project at an estimated cost of \$246,000), at its presently estimated cost of \$640,600. Should the supplemental list of projects not be submitted for legislative action, authority is granted to secure enumeration of this project through separate legislation.

✓ UW-Whitewater - Upham Hall HVAC update resubmitted for 1985-87 capital budget, R 3368, pp 23-24

Upham Hall HVAC Update	Whitewater	Utility GPR	500,000
TOTAL:			14,439,600

Approval of Major Project Budget Increase: Science Hall Total Facilities Performance Evaluation, UW-Madison

Noting that bids were received for heating, ventilating and air conditioning on May 1, 1985, Regent Heckrodt reported that, while contracts for the construction portion were awarded, the electrical and general portions were rebid, with bids opened on July 18, 1985. Although the electrical bid was under budget, the general bid exceeded the budget by \$387,400. It was anticipated that \$50,000 could be negotiated out of the contract, still requiring an increase of \$256,400 in minimum maintenance funds to cover higher-than-budgeted costs of masonry and roof repairs.

Upon motion by Regent Heckrodt, seconded by Regent Nikolay, the following resolution was adopted unanimously by the Board:

✓ Science Hall - Budget increase & project authority for total facilities performance project, R 3369, pp 24-25

Resolution 3369: That, upon the recommendation of the UW-Madison Chancellor and the Acting President of the University of Wisconsin System, a budget increase of \$256,400 be approved for the Science Hall Total Facilities Performance Remodeling project, and authority granted to award contracts and construct the project at a revised total cost of \$1,966,400 from General Fund Supported Borrowing (\$1,585,900, 1983-85 Minimum Maintenance/Health and Safety; \$256,400, 1985-87 Minimum Maintenance; \$119,400, 1983-85 Energy Conservation and \$4,700, 1983-85 Remove Architectural Barriers Allocations)

White, Helen C. Hall - major project budget increase for parking ramp repairs, R 3370, p. 25

Approval of Major Project Budget Increase: Helen C. White Parking Ramp Repairs, UW-Madison

✓ Parking Areas - major project budget increase for Helen C. White Hall parking ramp repairs, R 3370, p. 25
The Committee was advised that, when final plans and specifications for this project were being prepared, asbestos was found in the roof, requiring a cost increase of \$116,900.

✓ Roof Problems - (same)

It was moved by Regent Heckrodt and seconded by Regent Nikolay that the following resolution be adopted by the Board:

Resolution 3370: That, upon the recommendation of the UW-Madison Chancellor and the Acting President of the University of Wisconsin System, a budget increase of \$116,900 be approved for the 1983-85 Helen C. White Parking Ramp Repair project and authority granted to prepare final plans and specifications, bid and construct the project at a revised total cost of \$969,000 from Program Revenues (Parking Receipts).

Regent Fish asked if the figure of \$116,900 was an actual cost estimate, and Interim Vice President Brown responded in the affirmative.

Put to the vote, Resolution 3370 was unanimously adopted.

Approval of 1985-87 Advance Land Acquisition Request

Regent Heckrodt reported on Committee approval of Resolution 3371, which concerned release of \$1,345,000 of advance land acquisition funds and authorization to appraise, option and purchase fourteen specific parcels throughout the University System, all of which had been offered for sale within the past six months. An additional \$155,000 was requested to acquire other properties which might be offered during the remainder of the fiscal year. While the authority covered acquisitions at or below the average of two appraisals plus required relocation costs, additional Regent action would be required to purchase any parcel above the average of the appraised values, as well as for all parcels not specifically identified in this request.

Bldgs + Land - Approval to appraise, option + purchase UW-Madison parcels and systemwide parcels

The following resolution was unanimously adopted by the Board upon motion by Regent Heckrodt, seconded by Regent O'Harrow:

R 3371, pp 25-26

Resolution 3371: That, upon the recommendation of the UW-LaCrosse, Madison, Platteville, River Falls, Stevens Point, Stout, and Whitewater Chancellors and the Acting President of the University of Wisconsin System, authority be granted to seek the release of \$1,500,000 of 1985-87 Advance Land Acquisition Funds to appraise, option and purchase the specified parcels at or below the average of the appraised values.

Parcels to be acquired under the Systemwide contingency portion of the allocation as well as any parcel which cannot be acquired at or below the average of the appraised values will be returned to the Board for further consideration.

University	Parcels to be Acquired	Estimated Expense (Purchase, Relocation and Closing Costs)
<i>✓</i> UW - LaCrosse - <i>Bldgs + Land</i>		\$ 109,000
Madison	<i>3</i>	690,000
<i>✓</i> UW - Platteville - <i>Bldgs + Land</i>		113,000
<i>✓</i> UW - River Falls - <i>Bldgs + Land</i>		70,000
<i>✓</i> UW - Stevens Point - <i>Bldgs + Land</i>		55,000
<i>✓</i> UW - Stout - <i>Bldgs + Land</i>		220,000
<i>✓</i> UW - Whitewater - <i>Bldgs + Land</i>		88,000
Systemwide	-	155,000
Contingency	-	
	14+	\$1,500,000

(same notation as ea.)

Each parcel acquired under this authority is to be reported to the Board in the Report of Non-Personnel Actions by Administrative Officers of the Board.

- Approval to appraise, option + purchase parcel(s) of land, R 3371, pp 25-26

Approval of Primate Research Center Acquisition/Federal Funds Use/Authorization for Property Disposal, UW-Madison

The Committee approved acquisition of the Wisconsin Regional Primate Center Annex for UW-Madison, using \$510,000 of residual bonding authority to acquire the presently leased property, which was originally authorized for purchase using funds from the sale of the former Neurological and Rehabilitation Hospital at 1954 East Washington Avenue. The sale had not yet taken place, and it was pointed out that \$450,000 of federal grant funds would be lost if the university did not acquire the building by the end of September, as well as an additional \$100,000 of federal funds which would be available in each of the next five years. An earlier question by the Division of State Facilities Management as to whether the State Building

remodel w/ federal funds; authority to dispose of Neurological &

Commission had authority to proceed with the purchase using residual bonding
authority had been resolved, and upon favorable Regent action, the request
would be included on the Commission's September agenda.

Rehabilitation Hospital at 1954 E. Washington Ave., Madison, R 3372,

In response to concern by Committee members about approving a project pp 26-28
in order to take advantage of federal funding, Chancellor Shain reaffirmed
UW-Madison's position that interest in securing federal funding was directly
related to the high priority the university placed on this program.

x ref - Primate Laboratory (Center) - (same as above)

Regent Heckrodt moved adoption by the Board of the following
resolution, and the motion was seconded by Regent Weinstein:

Resolution 3372: That, upon the recommendation of the UW-Madison
Chancellor and the Acting President of the University
of Wisconsin System, authority be granted to purchase
the Wisconsin Regional Primate Research Center
located at 33-35 North Orchard Street and 1214-1220
Capitol Court, Madison, Wisconsin (0.67 acre parcel)
at an estimated total acquisition cost of \$510,000,
using UW System academic residual bonding authority
funds;

✓ 33-35 N. Orchard St. - Authority to purchase & remodel for Primate Research Center,
R 3372, pp 26-28

✓ 1214-1220 Capitol Court - (same as immediately above)

✓ 1954 E. Washington Ave -
Authority to dispose of
property toward purchase
of Primate Research
Center, R 3372, pp 26-28
That authority be granted for any federal funds
received as a result of ownership of the property to
be utilized to remodel the Primate Research Center
property; and further,
That authority be granted to sell, exchange or
otherwise dispose of the former Neurological and
Rehabilitation Hospital property located at 1954 East
Washington Avenue in Madison, Wisconsin, with the net
proceeds of that sale being deposited in the State
General Fund to reimburse the debt costs of the
purchase of the Primate Research Center.

Regent Fish asked if there still was a prohibition on use of federal
funds to purchase real estate, and Mr. Brown answered in the affirmative.

In response to an inquiry by Regent Fish as to what would happen if the
university did not get the federal money, Chancellor Shain explained that
there would not be the opportunity to remodel the building, install
additional cages, and expand the program. The university, however, still
would plan to purchase the building.

Vice Chancellor Len Van Ess added that the Primate Center was funded on
a five-year horizon basis by the National Institutes of Health, which
authorized use of up to \$100,000 a year for remodeling, in addition to which
the university had a one-time grant from NIH for \$350,000 in additional
remodeling funds for this federal fiscal year. It was necessary to inform
NIH that progress was proceeding for purchase within the next month and
construction must be started by April 1986; otherwise NIH would reallocate
to other programs the \$350,000 grant plus the \$100,000 which would be
available for this year.

Regent Fish asked if the purchase transaction could be completed in time to comply with the federal deadline, and Mr. Brown replied in the affirmative.

It was pointed out by Regent Fish that the agenda materials on this project did not make clear the degree of assurance that federal dollars would be received or the alternatives available if they were not.

Regent Heckrodt noted that discussion at the Committee meeting had clarified those points.

The question was put on Resolution 3372 and it was unanimously adopted.

Approval of Minor Projects

Continuing the report of the Physical Planning and Development Committee, Regent Heckrodt presented Resolution 3373, which concerned approval of a series of 36 minor projects involving all four-year universities and authority to plan, bid and construct at a total cost of \$4,412,700 from several funding sources, including general obligation bonding, minimum maintenance, health/safety and environment, energy conservation, gift, program revenue and operating budget funds.

Upon motion by Regent Heckrodt, seconded by Regent Nikolay, Resolution 3373 was adopted unanimously by the Board.

Resolution 3373: That, upon the recommendation of all UW System Chancellors (except UW Extension) and the Acting President of the University of Wisconsin System, the following minor projects be approved as described and authority granted to plan, bid and construct the projects, at the cost and from the funding sources indicated:

- ✓ ~~UW-Eau Claire~~ Parking Lot Removal and Pedestrian Walks Improvement, ~~\$170,000, 1985-87 General Obligation Bonding~~ R 3373, pp 28-30 *Always had - approval of*

Report of the Interim Vice President

Interim Vice President Brown informed the Committee that at the July State Building Commission meeting all requests submitted by the UW System were approved. However, the request to purchase an approximate 65-acre parcel of farm land at UW-River Falls was approved with the provision that the option to purchase include a right of first refusal upon the remaining

acreage of the farm and approval of the relocation assistance plan. Subsequent to the Building Commission's action, the purchase was negotiated with inclusion of that provision.

The name change of the Physical Education facility at UW-River Falls to the Robert P. Knowles Physical Education and Recreation Center was approved by the Building Commission.

✓ UW-Stevens Pt. - Bldgs - Bldg. Commission approval of development of Science Bldg. chemistry lab. ventilation project, p. 31

The Science Building chemistry laboratory ventilation project at UW-Stevens Point was approved only through the stages of preliminary plans/specifications and concept/budget report development.

✓ UW-Parkside - Bldgs - Bldg. Commission conditional approval for transfer of 18 acres of land from Board to UW-Parkside Benevolent Fdn., p. 31

A special meeting of the Building Commission was held immediately following the regular meeting, to discuss transfer of 18 acres of land from the Board of Regents to the UW-Parkside Benevolent Foundation, to construct student housing. The transfer of two nine-acre parcels was approved; however, if the second nine acres were not used for student housing within three years, they would revert to the Board of Regents. This approval was based on the terms and conditions stated in the letter of agreement between the Division of State Facilities Management and the Foundation. A status report was also presented, indicating that financing for the project had been received.

✓ Energy Conservation - Annual report on UW System energy management, p. 31

Annual Report on UW System Energy Management

Regent Heckrodt reported Committee acceptance of the annual report on energy management in the UW System, showing a one-tenth-of-one-percent increase in total expenditures, which was a million dollars below estimates. The Committee was pleased that all institutions had done so well in their efforts to save energy.

✓ UW-Platteville - Bldgs. & Land - Approval of major project budget increase for Ottensman Hall addition, R 3374, pp 31-32

Major Project Budget Increase, UW-Platteville

A budget increase of \$60,000 in residual bonding authority for the Ottensman Hall addition project at UW-Platteville was approved by the Committee. Rebid in July after earlier bids exceeded available funds, the project was within the authorized construction budget, but funds were not available to accept a desirable alternative bid to allow development of two unexcavated basement-level instructional areas, totaling 2,605 assignable square feet. Since the additional funds needed to develop this area were only \$23.03 per assignable square foot, approval of the requested increase was sought. Committee members concurred that the opportunity should not be lost to develop this space at the time the building was being constructed.

Regent Heckrodt moved and Regent O'Harrow seconded the following resolution, which was unanimously adopted by the Board:

Resolution 3374: That, upon the recommendation of the UW-Platteville Chancellor and the Acting President of the University of Wisconsin System, a budget increase of \$60,000 of GPR-Supported Residual Bonding Authority be approved for the Ottensman Hall Addition project for a revised total project cost of \$2,328,000 from GPR-Supported Borrowing (\$2,100,000), Renewable Energy Resources and Demonstration Funds (\$150,000), Program Revenues (\$18,000), and GPR-Supported Residual Bonding Authority (\$60,000).

✓ Bldgs + Land -

Land Sale Authorization, UW-Madison

Regent Heckrodt presented Resolution 3375, which was approved by the Committee in closed session, and moved its adoption by the Board. The motion was seconded by Regent Nikolay and carried unanimously.

Resolution 3375: ~~That, upon the recommendation of the UW-Madison Chancellor and the Acting President of the University of Wisconsin System, authority be granted to sell approximately 50 acres of land on the west side of the Charmany Farm to Credit Union National Association (CUNA) Mutual Investment Corporation, in accord with the provisions contained in their Offer to Purchase, dated September 3, 1985 (copy on file). This authorization is subject to the approval of the State Building Commission and is in accord with the provisions of section 36.33(2), Wisconsin Statutes.~~

R 3375
p. 32

~~Further, the Right of First Refusal, contained in the Offer, to repurchase any unused portion of the parcel is assigned to University Research Park, Inc., in order for such unused portion to be developed as a part of and in harmony with the rest of the research park.~~

✓ UW-Green Bay - Appreciation to UW-Green Bay for Campus Tour and Review of Development Plan, p. 32

Concluding his report, Regent Heckrodt stated the Committee's appreciation for the excellent presentation and tour related to UW-Green Bay's development progress and plans. "It was an extremely interesting and well-planned session, and the time and effort of all of the staff involved in its preparation should be recognized."

UW-Green Bay - Resolutions of appreciation to UW-Green Bay for hosting meeting, R 3376, p. 33

ADDITIONAL RESOLUTIONS

Resolution of Appreciation to UW-Green Bay

Regent O'Harrow presented the following resolution and moved its adoption. The motion was seconded by Regent Weinstein and voted unanimously.

Resolution 3376: Whereas, the Board of Regents has appreciated the opportunity to hold its September 1985 meetings at UW-Green Bay; and

Whereas, it is particularly appropriate to come to this campus at the beginning of UW-Green Bay's 20th anniversary celebration, which recognizes the university's distinctive contributions to higher education in Wisconsin and its special role in the UW System as an institution with a select mission focus on interdisciplinary studies; and

Whereas, our visit has been greatly enhanced by the interesting presentations, campus tour and all the special arrangements made for this occasion;

Therefore, be it resolved that the Board of Regents of the University of Wisconsin System hereby expresses deep gratitude for the warm and gracious hospitality that has been extended to us by Chancellor Weidner and the entire UW-Green Bay community.

Regent O'Harrow expressed special appreciation to the UW-Green Bay students, who had given up space in the Student Union to make room for the Regent meetings.

UNFINISHED AND MISCELLANEOUS BUSINESS

Regent Committee - Selection Committee for UW-Milwaukee Chancellor
Appointments to Regent Selection Committee for Position of Chancellor, UW-Milwaukee

~~Regent Lawton announced that the following Regents would serve as the Regent Selection Committee for the position of UW-Milwaukee Chancellor: Regents Veneman (Chairman), Finlayson, Fish, Schilling, Vattendahl, Lawton (ex officio) and Knowles (ex officio)~~ *appointed to committee, p. 33*

Identification of Issues to be Addressed

Regent Weinstein identified three issues raised at this meeting which needed further attention by the Regents: (1) the challenges set forth by

Chancellor Weidner; (2) the governance issues cited by Acting President Lyall; and (3) the recommendations of the Strategic Development Commission which would affect the UW System. He requested that Regent President Lawton and Acting President Lyall formulate a plan to address those issues in a meaningful and forthright manner.

Regent Lawton responded that he certainly would work with Dr. Lyall on those issues and that some steps had already been taken to address them.

Stating that she would be pleased to work with President Lawton to develop such a plan, Dr. Lyall added that Interim Vice President Kuepper had begun a discussion with the vice chancellors about program array, which would speak to some of the concerns in the Strategic Development Commission report.

His major concern, Regent Weinstein said, was the implication in the Strategic Development Commission's report the Regents did not have the willingness or expertise to take a broad view of the University System. "We need to look at it and indicate that we do have the capabilities for doing those things."

Expressing agreement with Regent Weinstein, Regent Schilling said he had often been concerned in past months that, in view of the work of the Assembly Select Committee, the Strategic Development Commission and various legislative committees, it sometimes appeared that everyone but the Board was talking about the broader issues affecting the UW System. While there had been reason to be circumspect in such discussions, much of which was due to the difficult controversy over faculty compensation, he observed that "if we don't address the broader issues, everyone else is going to continue to talk about them; if we don't do something about them, someone's going to do it for us."

At 11:10 a.m., the following resolution, moved by Regent Nikolay and seconded by Regent Weinstein, was unanimously adopted on a roll call vote, with Regents Clusen, Finlayson, Fish, Grover, Hanson, Lawton, Nikolay, O'Harrow, Saunders, Schilling, and Weinstein voting "Aye" (11), and no Regents voting "No."

Resolution 3377: That the Board of Regents recess into closed session to deliberate on a case which was the subject of a quasi-judicial hearing, as permitted by s. 19.85(1)(a), Wis. Stats.; to consider personnel matters, as permitted by s. 19.85(1)(c), Wis. Stats., to consider the sale or purchase of land, as permitted by s. 19.85(1)(e), Wis. Stats., to consider personal histories, as permitted by s. 19.85(1)(f), Wis. Stats.; and to confer with legal counsel, as permitted by s. 19.85(1)(g), Wis. Stats.

CLOSED SESSION ACTIONS

The Board arose from closed session at 2:25 p.m. and announced adoption of the following resolutions:

Resolution 3378: That, upon the recommendation of the Acting President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Green Bay, the following appointments be made to the UW-Green Bay Board of Visitors for terms ending in June 1988:

UW-Green Bay - Bd of Visitors

The University of Wisconsin System

VICE PRESIDENT FOR BUSINESS AND FINANCE

1752 Van Hise Hall 1220 Linden Drive Madison, Wisconsin 53706 608-262-1311

August 28, 1985

To: All Regents
From: Floyd B. Case 
Subject: UW-System Trust Funds

Enclosed is a summary of Trust Fund activities for year ended June 30, 1985.

9/6/85

I.2.d.

UW System Trust Funds
Summary of Activity
For the Year Ended June 30, 1985

The book value of Trust Funds principal on June 30, 1985 totaled \$105,989,357 compared with \$100,584,131 on June 30, 1984. Of this amount \$65,658,889 was under the control of the University and \$40,330,467 held by outside trustees. Funds under the control of the University reflected an increase of \$3,649,276 during the year consisting of:

Gifts and Bequests	\$ 2,856,597
Net Gain on Sales of Securities	1,170,119
Net Transfers of Current Restricted Funds	-377,440
	\$ 3,649,276

Investment counsel was furnished by Heritage Investment Advisors, Inc. (Equity Portfolio), Morgan Stanley Asset Management, Inc. (Fixed Income Portfolio), and Smith Barney, Harris Upham & Co. (Balanced Portfolio) for 92% of principal funds at market. For the funds on which outside counsel was furnished, equity investments increased 28.5% compared to an increase in the S & P 500 of 32.7%. The bond segment of the portfolio increased 27.7% during the fiscal year compared to an increase of 25.0% for the Lehman Brothers Kuhn Loeb Government Corporate Intermediate Index. Adjusting the indices to match the June 30 endowment asset ratio would produce a comparative indice return of 23.2% compared to the endowment return of 22.9%.

Shortly after the close of the fiscal year several changes were made to the investment management team. Heritage Investment Advisors, Inc. was merged with Marshall & Ilsley Investment Management (equities), Smith Barney, Harris Upham was terminated as a balanced manager, and Trinity Investment Management was hired to manage 50% of the equities. Morgan Stanley remains as the fixed income manager for the portfolio..

The remaining principal funds are separately invested in accordance with the provisions of the gift instrument or because they are temporary in nature. These funds are invested in short term securities through the State of Wisconsin Investment Board.

The income earned on principal investments in the amount of \$5,261,441 represents an average yield at market of 8.0% compared with income earned of \$4,573,714 and a yield of 7.3% for the previous year.

In addition to the principal funds the balances in income accounts as of June 30, 1985 amounted to \$20,458,255. Included in the June 30, 1985 balance are gifts, given for current use, of \$1,300,330 compared to \$801,506 received during the preceding fiscal year. The earnings from income investments were \$2,432,785 which represents an average yield at market of 12.9% compared with earnings of \$2,031,474 and a yield of 12.6% for the previous year. Investment counsel was furnished by Heritage Investment Advisors, Inc. for 71% of the income accounts at market. The remaining income funds, which are temporary in nature, are invested through the State of Wisconsin Investment Board.

The investment objective for the endowment and similar funds group is to minimize investment risk without unduly sacrificing current income or the possibility of long term growth. The temporary and income accounts are, however, invested with an emphasis on low risk and maximization of current income.

The Board of Regents of the University of Wisconsin System has adopted a social responsibility investment guideline in accordance with Section 36.29 of the Wisconsin Statutes which states that "no such investment shall knowingly be made in any company, corporation, subsidiary or affiliate which practices or condones through its actions discrimination on the basis of race, religion, color, creed or sex".

III. REPORT OF ACTIONS TAKEN (MEMOS OF AGREEMENT)

UW-Extension - Lease with security self storage for storage space for Geological & Natural History Survey, nonpers. item A

A. The Lease between UW Extension (Geological and Natural History Survey) and Security Self Storage, 510 Rolfsmeyer Drive, Madison, for 864 feet of storage space has been signed by the Interim Vice President for Physical Planning and Development. The lease is on a month-to-month basis at a cost of \$2,232 per month and is needed because of a substantial expansion of the Geological and Natural History Survey.

UW-La Crosse - Agreement with Northern States Power Co. for attachment of cables to utility poles, nonpers. item B

B. An Agreement between Northern States Power Company and UW-La Crosse to allow the university to attach certain coaxial cables and other appurtenances for its computing services to NSP utility poles has been signed by the UW-La Crosse Chancellor. Initially covering a two-year period, the Agreement can be extended for additional one-year periods until terminated by either party at the end of any one-year period by providing at least six months prior written notice.

1954 E. Washington Ave
C. The UW-Madison's Agreement between the Board and the City of Madison for use of space at 1954 East Washington Avenue for the City of Madison's Department of Public Health (reported at the June 1984 meeting), has been amended to delete one room of 142 ASF and add a second room of 450 ASF. The rate for this space will be \$7.00 per square foot to June 1, 1985, when it will increase to \$9.00.

7/26/85: Amendment to lease of space agreement for Madison Dept. of Public Health, nonpers. item C

D. The Indenture of Lease between the UW-Madison Division of University Housing and Lakeshore Halls Association, covering 2,307 square feet in the basement of Mack Hall, has been signed by the Director of Business Services. The space will be used to establish a convenience store for the residents of Lakeshore Halls. The rental rate will be \$382 per month from June 1, 1985 through May 31, 1986.

Housing - 7/26/85: Indenture of lease w/ UW-Madison Division of University Housing & Lakeshore Halls Assn. for convenience store for residents of Lakeshore Halls, nonpers. item D

E. The Lease Agreement for UW-Madison's Arlington Headquarters Residence #1 (Building #845), previously reported in October 1984 has been rewritten to reflect the hiring of a new resident manager, Mr. Dwight Mueller, and covers the period July 1, 1985 to June 30, 1986. The previous resident manager recently retired.

Burlington Arms - Amendment to show new resident manager in lease agreement, nonpers. item E

F. On signature of the Vice Chancellor for Administration, the Lease between UW-Madison and the University of Wisconsin Credit Union covering approximately 198 square feet of space in Room J5/117 in the Clinical

Credit Union - Lease agreement for space in Clinical Sciences Center, nonpers. item F

Sciences Center, has been renewed for the period July 1, 1985 through June 30, 1990, with provision for an additional five-year renewal option. The per square foot cost will be \$21.88 in the first year, increasing annually to a rate of \$22.54 per square foot in 1990. Provision is also made for adjusting the rates if the renewal option is exercised which will reflect the fair market value of the premises.

✓ UW-Platteville - Cable TV agreement, nonpers. item G

G.
