FEBRUARY 29, 1940

## LEAP YEAR

It will a long while before "Bay Leaves" is published on February 29th again and thus it is worth mentioning.

1940 is called a Leap Year. The calendar is said to leap forward one day. This is necessary to catch up on the sun. The solar year is 365 days, 5 hours, 48 minutes and 47.8 seconds in length. Even by adding one day in every four to the regular 365 days by Julius Caesar, in the course of 400 years the difference would throw the calendar about three days behind the sun.

In 325 A.D. at the Council of Nice the matter of the discrepancy which at that time amounted to ten days was taken up and as a result the Gregorian calendar superceded the Julian Calendar. The ten days was made up by calling the day after the 4th of October, 1582 not the 5th but the 15th of October. It provided for the future by dropping from one leap year of every century whose number could not be divided by 400 the extra day, as 1700, 1800, 1900; but retaining it in 2,000. This new calendar is so accurate that it is off less than a day in 3,000 years.

In a Leap Year the young ladies are given the privilege of proposing marriage, according to an old custom. Not that they do not in other years. Those who have collected facts have found that the female of the human species has not always waited for a leap year to propose.

Those who are born on Feb. 29th also have a supposed disadvantage in not being able to have birthday celebrations except once in four years. However some of the ladies can truthfully say, if they were born on February 29th that they have had less birthdays, than their sisters.

## LET'S GET READY FOR A GOOD WEEKEND.

Norman Ross on the C.&N-W. Hour Wednesday gave a good boost for Williams Bay Winter Sports. He stated that we had 8 inches of snow and that the skiing and tobogganing were excellent.

He did ask listeners to tune in for more details each morning from 7:00 to 8:00.

Given the snow we should have another fine crowd.

CHARLES ACKERSON ,GARDENER and Lester.

Last Tuesday afternoon the mortal remains of Charles Ackerson was laid away in Oak Hill cemetery, but the memory of him will last for many years to come.

The funeral service was held at the Habecker-Derrick Funeral home, where a large group of friends and co-workers assembled to pay their tribute to his friendship and love.

The north end of the chapel was reserved for the family and the south alcove was reserved for his fellow members of the Lake Geneva Foremen and Gardeners Association.

Probably there were never any more beautiful floral tributes any funeral in this community.

They all seemed so appropriate as Mr. Ackerson seemed to be sleeping amid flowers which he knew how to develop to their full beauty.

Mr. Ackerson was born in Iwe, Sweden where he attended public schools, and as a boy took up the work of gardening. He worked for five years at Baekaskog, the summer seat of King Gustave of Sweden. In 1884 he came to America, settling first in Sheffield, Illinois, where he engaged in farming, and in 1891 he came to the F.L. Chapman farm on the north shore of Lake Geneva.

In 1901 he began his work with Mr. S.B. Chapin at "Flowerside Farms" and since 1909 has been foreman and gardener.

He has helped through the years bring the beautiful grounds from a virgin forest to one of the show places on Lake Geneva.

Through the years he has been encouraged in his work by his wife, whom he married in 1892, shortly after he had made his home on Lake Geneva shores.

Surviving Mr. Ackerson are his wife, and three children, Herbert, Goldie

Rev. George Winters officiated both at the chapel and at the grave.

The pallbearers were: J.D. Gaskill, Simon Erbe, William Millar, Robert Millar, William Greene and William Dowty.

WILLIAMS BAY CLUBS  
PRESENT ARTISTS IN A PROGRAM

The musicale held at Mrs. Allen P. Lovejoy's home Sunday afternoon under the auspices of the Williams Bay Tuesday Evening Study Club and Williams Bay Woman's Club was a very enjoyable affair.

The artists presented were Eileen Steller Stroesser, pianist, Mrs. Charles Ilsley, soprano, of Milwaukee. Mrs. Stroesser greatly pleased her audience, who at all time gave attentive ear to her artistic rendition of groups of classical and modern compositions. Her faultless technique and interpretation of the works of the masters, showed her to be a musician possessing much talent and ability.

Mrs. Ilsley's pleasing personality and songs selected for her two groups of solo numbers, delighted her listeners.

Mrs. Karen Steele and Miss Ethel Gray, members of the Study Club, and Mrs. H.A. Bradt and Mrs. Robert Anderson of the Woman's Club presided as hostesses. The Misses Mary Calvert and Margaret Matthews were a committee in charge of arrangements together with Miss Gray, Mrs. Bradt, Mrs. Anderson.

Attorney W.H. Freytag is at home with the influenza for a few days. Paul Barnes is back on the job after a siege of flu.

The Village Board will meet on Monday at 7:30 in the Fire Station Club Room.

During March an advertising campaign will be put on by "Bay Leaves". Slogan- "All business firms in at least one issue".

A note received from Mrs. Gina Jensen, proprietor of Rest Cottage in Williams Bay during the summer, and who is Florida for the winter, says "since February 21 it has been rather cold down here, but had a few days of little warmer weather, but not the natural warm Florida sunshine, which has been scarce this winter."

In a popular resort town in Texas 15 tourist court and hotel operators advertised confidently at the start of the winter season that their accommodations would be rent free for every day the temperature dropped to freezing. And the temperature was that way for eight days straight. Moral—Never make rash promises.

Karen Steele wishes to thank her friends who voted for her little friend, Jackie Sebbs on Feb. 11. Jackie won first prize on the Rubin Amateur Hour broadcast on a popular radio program. She will be on the air Thursday eve, Feb. 29, between 8:45 and 9 P.M. over station WCFL, Stars of Tomorrow Program.

At the tender age of ten Jackie conceived the idea to start early to sing her way thru college. A good start and a good cause, so continued success to Jackie.

## PLANET PARADE IS INTERESTING

A rare grouping of planets in the western sky is being watched with much interest by people inhabiting the Western and Eastern hemispheres these nights and since the beginning of February. "The grouping of the planets, Mercury, Jupiter, Venus, Saturn and Mars is an unusual constellation that is only disturbing the routine aspect of the sky," says Dr. G. Van Biesbroeck of Yerkes Observatory. The planets have been known to man prior to 1781 and are best seen in the early evening in the western sky.

Venus is the brightest of the planets, being six times as bright as Jupiter. "The assemblance of the planets is as unusual as it is beautiful and will not recur again for one hundred years," says Dr. Robert G. Aitken of Pasadena, Calif. February 28 was said to be the time the constellation was the most brilliant, but the planet Venus will continue to increase its brilliance, and remain so until the early spring.
