OLD COUNTRY FARMING

DEAN HENRY DISCUSSES EUROPEAN AGRICULTURE.

Interesting Science Club Lecture—English Government Indifferent to Farming Interests—Denmark Leads.

An interesting meeting of the Science Club was held at the Engineering Building last evening, at which Dean W. A. Henry spoke upon "Some Observations on Agriculture in Europe." He said among other things:

Great Britain has given to the world the best breeds of live stock with but few exceptions, her farmers being natural stockmen. Home markets have been the great instrument in elevating British agriculture. The British farmer was at his best more than half a century ago. With the abrogation of duties on grain the change for the worse in some particulars began; the British farmer gave up protection and received nothing in lieu thereof. The English government is doing almost nothing for agricultural education. The greatest agricultural experiment station on earth is that at Rothamsted, established and maintained by private munificence. Denmark is today the greatest example of intelligent agricultural push and progress. The area of Denmark is about one-fourth of Wisconsin, while the population is ten per cent. greater. The dairy industry leads. Wisconsin sends to other states and countries probably \$12,000,000 worth of creamery butter; Denmark exports about \$35,000,000 worth annually. The best agricultural school in the world is located at Copenhagen. The buildings are plain, the equipment rather meager, while the strength of the institution is largely in its faculty of highly trained able men. Throughout Denmark the farmers are joining more and more into corporative associations for the purpose of reducing expenses in the disposition of their products and for securing better markets abroad. A notable example are the syndicates for selling eggs. Each egg handled by a syndicate is stamped with the number of the local syndicate and the number of the individual member of such syndicate and the day it was laid. If on examination at Copenhagen any eggs are found to be unsatisfactory, a fine of about \$1.00 for each bad egg is assessed upon the local syndicate, and the member of such syndicate in turn.

The agricultural features of Holland were next discussed. In a one story, rectangular brick house with thatched roof lives the Dutch farmer together with his cows. Hay, grain and vehicles are stored in the same building. Scrupulous cleanliness prevails, the cow stables being as clean as the living rooms in the better class of American houses. Many of the Dutch farmers use gas for lighting their houses, for cooking, etc. The scenery is charming, embracing as it does the intensely green meadows and pasture fields surrounded by ditches of water, which serve in lieu of fences. Dotting these are the numerous cattle, while always in sight are the great wind-mills, which remove the excess water, lifting it from one canal to the next until it pours over the dike into the sea. Years ago the Dutch farmers were

MATERIAL ALL IN

FINAL COPY FOR BADGER IN HANDS OF PUBLISHER.

Annual Will Appear Before May 1—Will be a Model of Book Maker's Art.

All material for the Badger is in the hands of the publishers, the Marsh and Grant Co. of Chicago. After seven months of faithful work, the 1902 Badger Board has accomplished its purpose. The book is promised before May 1, one month earlier than last year. The chairman of the Board has been in Chicago for the last four days superintending the printing of the first sixty-four pages of the book. This will be done by the end of this week and the work will be pushed through without delay until it is finished.

For such an early date the board has been unusually successful in the collection of statistics, photographs and in fact all material for the book. Out of three hundred and four seniors who graduate this year, two hundred and ninety will insert photos in the Badger.

The book will abound in innovations from the artistic cover to the last page of literary matter. The number of half tones and zinc etchings has been greatly increased. The faculties of the colleges of law, agriculture and engineering, nineteen fraternities and sororities, all literary societies, the Haresfoot Club and every prominent University organization will be represented. A large number of excellent views in and about the University will also be inserted.

The new method of arranging the senior photos is pronounced by the engravers and publishers to be a decided success. They are grouped alphabetically and by colleges, the summaries appearing on the page opposite the group in which the photo appears. This will do away with the confusion which has previously existed in locating the photos and summaries.

That this year's annual will be in great demand has already been shown by the unusual interest taken in it, not only by the students and faculty but also by alumni and townspeople who are enthusiastic over the contemplation of a book which will be a model of perfection in bookmaking and a credit to a progressive University.

Dean Johnson's Appointment.

The committee now in charge of the plans for the new Carnegie school of Technology which it is reported is to have an endowment of \$25,000,000 has invited Dean Johnson of the University to act on a committee of educators in determining the plan and scope of the new institution. This comes as a high compliment to the University and to the ability of Dean Johnson in the line of technical education.

Naval Ball, April 13.

The Social committee has been petitioned for permission to hold the annual Naval Ball in the gymnasium on the evening of April thirteenth. The committee will decide the matter at a meeting to be held this evening.

—Professor E. T. Owen is back from Central America where he has spent several months.

ENGINEERS' TRIP

JUNIORS' ANNUAL TOUR DURING EASTER WEEK.

About Thirty Students Will go—Will Visit Chicago and Milwaukee.

The junior mechanical and electrical engineers will take their annual Easter trip next week. About thirty students will go. They will be under the charge of Professors Swenson, Maurer, Richter and Mr. Frankenhof.

The students will start Monday morning from Madison, going directly to Milwaukee where they will spend Monday and Tuesday. Here they will visit the E. P. Allis shops, Nordberg Engine company, Johnson Electric service company and several other places.

Tuesday evening the students will go to Chicago. Here they will visit many interesting concerns such as the plants of the Western Electrical company, Illinois Steel company, Chicago Shipbuilding company, John Mohr Boiler Works, Frazier, Chalmers & Co., Metropolitan Electrical Railway, and some of the Edison & Co.'s stations. The Chicago city pumping station will also probably be visited as will some other plants. Visiting these different places will occupy their attention nearly the entire week.

The trip to be taken by the juniors this year will be similar in many respects to the one taken last year, except that instead of going to Joliet, the party will go the South Chicago. Institutions of exactly similar character to those visited last year will be visited. This annual trip is a part of the regular University training and all juniors in the Electrical and Mechanical courses are strongly urged to go.

While at Chicago the party will probably stay at the Briggs House.

At some of the larger and more interesting places the party will spend a half day. The different processes and machines will be explained, thus in this way the students will have a chance to see the practical side of the work. They will also be enabled to find out just what the different large industrial organizations are doing. They will have an opportunity to see representative concerns such as the E. P. Allis plant which builds the largest engines made in the world and the Frazier, Chalmers & Co., who are particularly noted for their manufacture of mining machinery.

Interscholastic, June 1.

This year's Interscholastic will come off on June first. A large number of circulars are being prepared to send to the various High Schools, inviting them to send teams. These circulars will be sent out the latter part of the week. Until a reply can be received from the High Schools no estimate of the number of entries can be made. The regular list of events will be continued as in former years, the only difference being that the half mile walk, which was thought to be an objectionable feature, will be omitted this year.

—Philomathia has decided upon May third as the date for their annual Freshman Blowout.

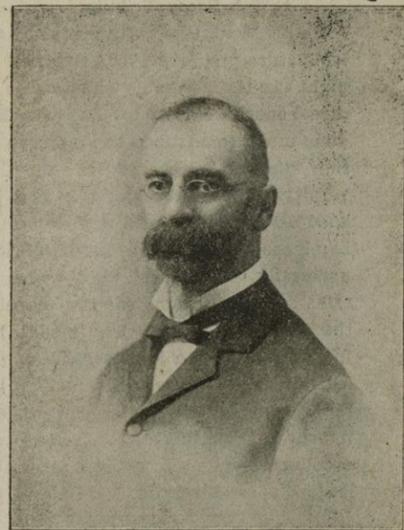

—Professor J. M. Olin is in Beaver Dam on professional business.

WILL HONOR BABCOCK

JOINT SESSION OF LEGISLATURE TO PRESENT MEDAL TONIGHT.

Recognition of Unselfish Public Service—Speeches by Gov. La Follette, Ex-Gov. Hoard and Others.

This evening the legislature will formally present to Professor Stephen Moulton Babcock the medal awarded him by the State of Wisconsin. It will be a notable occasion. The legislature will meet in joint session at 8 o'clock, Governor La Follette presiding. The exercises will be held in the Assembly chamber. A number of addresses will be made by prominent citizens, among them ex-Governor W. D. Hoard, who will speak for the state at large, Senator Hatton and Assemblyman Gilman, for the legisla-

Professor S. M. Babcock.

ture, and Professor W. A. Henry for the University. Ogden H. Fethers will make the presentation speech, Dr. Babcock responding.

The medal was awarded to Professor Babcock by the State of Wisconsin in recognition of his generosity, and public spiritedness in giving to the people his famous inventions.

Professor Babcock is known all over the world as the inventor of the Babcock Milk Test. The milk test is an exceedingly simple device whereby the relative density and quality of milk may be ascertained very easily. This test has effected a revolution in dairy manufacturing everywhere and is of inestimable value to proprietors of creameries, cheese factories, etc.

Professor Babcock, realizing the importance and value of this invention to the agricultural world generously refused to have the device patented for his own personal gain. Had a patent been secured Professor Babcock would have gained enormous wealth through the sale of the tester. This wealth he generously sacrificed.

The legislature, appreciating what Professor Babcock had done, awarded him this medal in 1899 as an expression of the gratitude of the state. Ogden H. Fethers of Janesville, John W. Whelan of Mondovi and John W. True of Baraboo were appointed as a committee to secure an appropriate design for the medal and to have it cast.

Eleven different designs and the bids on them were furnished by com-

A Great Tribute.

The presentation of a medal by the legislature to Professor Babcock tonight in the assembly chamber is a rare honor accorded to one who has done much to advance the interests of the state of Wisconsin and the University. The Babcock Milk Test is used all over the world and especially in places where none but absolutely pure milk can be used such as hospitals and institutions for the care of the sick and feeble. The medal, being presented in a joint session of the legislature, expresses the feeling of the people, of the state toward Mr. Babcock. The medal in itself is an excellent memento, being one of the largest ever struck off.

Tennis Tournaments.

The arrangements for the spring tennis season are now well under way and the outlook at present is very promising. There has been a great deal of interest in tennis matters during the last year or two but as this department is entirely dependent on the membership fees for its support those who expect to join the association would aid the management by taking out their membership cards at once, as then the spring tournaments could be arranged. Besides the inter-collegiate tournament the University should be represented in several dual meets this spring as in past seasons. The contests with Iowa and Beloit last year proved to be excellent tournaments to keep up the interest in that department here. The intention of the management to better the courts this year by moving the nets farther back from the courts will be appreciated by all the players as fast playing has been hindered somewhat heretofore by these back stops.

The Weather.

Cloudy tonight and Thursday.

SUTHERLAND ASSISTANT COACH.

Will Assist Andy O'Dea in Navy Department.

At a special meeting of the athletic council last evening at the gymnasium W. C. Sutherland, '00, was elected assistant coach of the 'Varsity crew. The demands made upon Coach O'Dea's time in coaching both 'Varsity and freshman crews, as well as his

W. C. Sutherland.

duties as athletic instructor, brought about the appointment of Mr. Sutherland. The official W's were granted to several members of the baseball team at this meeting.

Mr. Sutherland has been prominent in crew matters for several years and is fully qualified to act as coach being familiar both with the system in vogue at as will assist the famous Yarra Yarra stroke. He made the 'Varsity in his freshman year, stroking the freshman crew that year as well. In '98 he captained the 'Varsity in the race at Saratoga, taking the place of Alexander who had resigned in order to go to war. He was stroke on the '99 crew and last year he rowed his last year at the University.

petitors in both the United States and Europe. After much consideration of the merits of the various designs the contract was finally awarded to Spink & Sons of London, Eng., who are the greatest medal and seal manufacturers in the world. They make the great seals for the British Museum.
The medal is said to be the largest ever cast. It is five inches in diameter and was made at an expense of \$300. The design is very appropriate, being a representation of the University, the State of Wisconsin and the agricultural and dairying interests.
A laurel wreath on the reverse side of the medal encloses the following inscription:
"Recognizing the great value to the people of this state and of the whole world of the inventions of Prof. Stephen Moulton Babcock, of the University of Wisconsin, and his unselfish dedication of these inventions to the public service, the State of Wisconsin presents to Prof. Babcock this medal."
The medal is undoubtedly one of the finest ever brought into this country.
It is thought that there will be a very large attendance at this meeting. The public is invited to be present at the exercises.

Student Notices.

Junior Law Class.
There will be a special meeting of the Junior Law class in the Junior law lecture room, Thursday, March 28th at 12.
Richardson, Chairman.

RUSH MEDICAL COLLEGE.
In Affiliation with the Univ. of Chicago.
Organized 1837.
The academic year of Rush Medical College is divided into four quarters, corresponding with those recognized with the University of Chicago, beginning respectively the first of July, first of October, first of January and first of April, each continuing for twelve weeks. A recess of one week occurs between the end of each quarter and the beginning of the next following.
The general course of instruction requires four years of study in residence with a minimum attendance upon three Quarters of each year. A student may begin his college work on the first day of any Quarter, and may continue in residence for as many successive Quarters as he desires. Credit will not be allowed, however, for more than three consecutive Quarters. At least 45 months must elapse between the date of a first matriculation and the date of graduation. For further information, address

less progressive than the Danes in
agricultural matters and consequent-
ly lost their markets. Great hard-
ships followed and the prices of land
in Holland fell greatly.

Switzerland is the ideal spot for
the tourist seeking charming scenery
combined with the conveniences and
comforts of modern civilization. Cog
railroads, cable lines, etc., enable the
sight-seer to climb mountains and
place himself in the midst of the wild-
est scenery without discomfort. The
valleys and lower mountain sides are
intensely green with grass or fir trees.
The houses or chalets are particular-
ly picturesque with their broad over-
hanging roofs. In August the cattle
are to be found only in the highest
valleys close up to snow lines, grazing
on the short vegetation which luxu-
riates for but a few weeks. Every
cow in Switzerland wears a broad
strap about her neck, to which is at-
tached a tinkling, silver-toned bell.

SHAM BATTLE.

Captain Curtis Secures Ammunition
for That Purpose.

Military drill this year will culmi-
nate with a sham battle on Observa-
tory Hill. At the recitation in mili-
tary tactics yesterday, Captain Cur-
tis announced to the officers of the
regiment that he had nine thousand
rounds of blank cartridges on hand,
and that they could hold a sham bat-
tle this spring. He pointed out the
necessity of conscientious prepara-
tion, especially among the non-com-
missioned officers, to make the event
a thorough success. The movements
will be in extended order, and any-
one interested will find complete ex-
planation in the Drill Regulations,
pages 186-227. The plan is to have
one battalion defend Observatory Hill,
while the other acts as an attacking
party and attempts to take the hill by
storm. The majors of the battalions
will draw lots to see who will have
the offensive and who the defensive
part.

This will be the first sham battle
held at the University for four years,
but if it proves to be a success it will
probably be made an annual event.
The freshmen and sophomores who
are drilling will be especially inter-
ested, as it holds out to them the
prospect of burning more powder than
the usual fourth of July affords.

The new line of ladies' fancy hose
includes all of the desirable styles;
our 39c hose will surprise you to see

glove stock is that splendid 2-clasp
kid glove at 89c. A better one for
\$1.00. The very best \$1.50.

The Burdick, Pecher, Murray Co.

ALFORD BROS., STEAM LAUNDRY.

It may not be an act of charity, but
it certainly is not an act of economy
to patronize fourth grade laundries. If
you are looking out for "Number
One" you should certainly patronize
us. 113 and 115 N. Carroll street.
Phone 172.

In our muslin underwear stock we
are showing our usual strong line;
only good muslin and trimmings and
made up in the best style. Prices
right.

The Burdick, Pecher, Murray Co.

Madison Steam Laundry, 111 King
street, Telephone 815. Prices Reason-
able. Work first class, goods delivered
promptly.

Madison Steam Laundry.

Bullesbach's.

At 708 University Ave. is the place
to buy your spring shoes. His stock
is complete and up to date. He also
makes a specialty of repairing.

J. M. Clifford makes real estate plans.

THE HUB

**Our Specially Tailored
Ready-to-wear Spring Clothing**

is now in stock. These garments are exclusive patterns, made specially for
us with stiffened hair lined fronts, to insure their retaining shape, and cut
in the new military style. We have both in suits and coats and vests from
\$10 to \$20. Especially designed for young men. An investigation will
convince you that there is no need of paying double for custom made.

**Nobby
Footwear**

In shoes it has been our aim
and study to carry in stock
all the latest creations the
season offers in young men's
styles at popular prices, \$3
to \$5. We think we have
succeeded. We illustrate one
of the swellest styles of the
famous Stacy, Adams & Co
make. We show many Ox
fords.

THE

13th Annual Session

OF THE

Dept. of Medicine,

University of Minnesota.

Course of study, four years of eight
and one half months.

The first two years are devoted to the
fundamental laboratory studies; the last
two years to the essentially clinical
branches. The clinical opportunities of
the hospitals and dispensaries of Minne-
apolis and St. Paul are at the disposal of
the College of Medicine and Surgery.
The medical buildings are situated upon
the University Campus.

For further information, address Dr.
Parks Ritchie, Dean.

UNIVERSITY OF MINNESOTA,

MINNEAPOLIS, MINN.

"In The Blues"

is a common saying of a person
who exhibits low spirits, nerveless
action and a failure to enjoy even
the most cheery surroundings. Nine
times out of ten this condition
is accounted for by poor diges-
tion, which affects the mind and
nervous system, besides enfeebling
the body.

**Pabst
Malt Extract
The Best Tonic**

is a complete remedy for the 'blues'
and a promoter of good health and
good cheer, being a pure, nourish-
ing, concentrated food of easy
digestion and soothing action.

I prescribe your "Best" Tonic in all
cases where a pure and reliable malt extract
is indicated. It has given me the best satis-
faction. DR. W. B. PAYNE, Covington, Va.

CHANGE OF LOCATION.

We are now situated at 215 State Street with everything new
and up-to-date. The quality of our work is our best argument
for permanent trade.
J. L. OSTIN, Tailor.
