NOTICE TO THE TRADE.—All Colors bearing the name of C. T. RAYNOLDS & CO., and labeled "GENUINE," are guaranteed to be of **Absolute Purity**, and equal to any similar goods either of foreign or domestic manufacture. The "KINGS CO." brand represents the next best quality, and is a favorite grade with dealers throughout the country, since it can be sold at a lower price than "Genuine," while it is still fully equal to much that is sold for **Strictly Pure**. The "MONTAUK" comes next in quality, at a corresponding reduction in price, while the "EXTRA" or "TRADE" Colors supply the wants of those sections where cheapness is imperative.

All the above brands are, however, equal in respect to fineness and uniformity of grinding, differing only in the quality of material used.

SPECIAL NOTICE.—We trust our customers will not confound the above "GENUINE" and "ABSOLUTELY PURE" Colors with those of other manufacturers branded "Genuine," but which are confessedly **their** second and third qualities, and offered at correspondingly low rates.

DEGOLYER'S

COACH AND CARRIAGE VARNISHES.

WEARING BODY	\$5.50
For last coats on bodies of best work. Unequaled in Finish and Durability.	
COACH BODY	5.00
For last coats on bodies where dispatch is necessary. A rapid drying Body Varnish. Produces a fine luster and wears well.	
No. 1 WEARING BODY	4.50
Designed for all General Carriage Work, except the best. Dries much quicker than our Best Wearing, leaves a good finish, but less durable.	
ELASTIC GEAR	5.00
For last coats on gears. A free working, heavy Varnish, of unexcelled brilliancy and durability.	
ONE COAT GEAR	4.50
A similar Varnish to our Elastic Gear, but of quicker drying properties, and particularly desirable on gear work where no rubbing coat is used, although it works equally well over Rubbing Varnish.	
QUICK DRYING GEAR	3.50
An excellent Varnish for repair work, or for new work where the greatest durability is not called for. It works free, dries hard, and with good luster.	
BODY RUBBING (4 DAY)	4.50
For under coats where best results are desired. Will not sweat out, and rubs to a perfect surface.	
QUICK RUBBING (2 DAY)	4.00
Similar to our Body Rubbing, but quicker, and for use where time cannot be given for our Body Rubbing to harden.	
No. 1 RUBBING	3.50
A very desirable and useful article for repair work, or, in fact, any work not strictly first-class.	
BLACK RUBBING	4.00
A combination of our regular Rubbing with the Best Black, finely ground.	
JAPAN GOLD SIZE	3.00
A superior drier, light in color, for binding and hardening fine colors.	
OIL JAPAN	2.00
Mixes readily with oil, and is an unexcelled drier for carriage painters' use.	

NO CHARGE FOR PACKAGES.

SUGAR-COATED PILLS,

CONTAINING

Quinine and Other Cinchona Alkaloids.

Owing to the frequent market fluctuations of Sulphate of Quinine, and the consequent necessary changes in the prices of pills containing it, we place them by themselves, for convenience of reference. Prices given are for pills in bottles of 100, on the basis of quinine at \$3.60 per ounce. Usual reduction in bottles of 500.

LIST OF STANDARD FLUID EXTRACTS,

OFFICINAL AND UNOFFICINAL,

MANUFACTURED BY

LORD, STOUTENBURGH & Co.

Our Fluid Extracts are made, STRICTLY and INVARIABLY (except Fluid Extract Opium, which is the same strength as the officinal tincture), so that each minim represents the medicinal virtues of one grain of the root, herb or bark. We do not, as many claim, pursue the same process for the manufacture of all Fluid Extracts, but study the nature and character of each separately, and adopt that which is the BEST in each case. Our MATERIAL is selected with the greatest care, which we deem of FIRST importance in the manufacture of Fluid Extracts.

DIRECTIONS FOR PUTTING ON GLASS LABELS.

Cement.—Yellow wax, one part; resin, two parts; melt together with a gentle heat. Place the bottle (which should be clean and dry) in a horizontal position; apply the cement, when about the consistency of syrup, with a spoon or small brush to the label, and carefully press evenly upon the bottle. While the cement is still soft, pass the point of a knife around the edge of the label, so as to form a groove. Allow the cement to thoroughly harden before removing what adheres to the bottle outside the groove. Clean the bottle and label with a little turpentine. To insure uniformity of position, make a gauge for each size bottle, measuring from the bottom of the bottle to the bottom of the label. Labels may be removed by carefully heating.

DR. JOHN BULL'S

Smith's Tonic Syrup

FOR THE CURE OF

FEVER & AGUE

—) OR (—

CHILLS AND FEVER.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the **SAFE, CERTAIN AND PERMANENT** cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of **BULL'S VEGETABLE FAMILY PILLS** will be sufficient.

The genuine **SMITH'S TONIC SYRUP** must have **DR. JOHN BULL'S** private stamp on each bottle. **DR. JOHN BULL** only has the right to manufacture and sell the original **JOHN J. SMITH'S TONIC SYRUP**, of Louisville, Ky. Examine well the label on each bottle. If my private stamp is not on each bottle, do not purchase or you will be deceived.

PETROLINA

(Solid at 100 to 110 Fah.)

THE

NEW PETROLEUM JELLY,

— FOR —

Medicinal, Toilet and Pharmaceutical
PURPOSES.

PETROLINA

IS the quintessence of Petroleum, with all its objectionable features removed, while its soothing, healing and pain-allaying properties are so intensified that in itself alone it is a remedy of universal usefulness. It may be applied with perfect safety to irritable ulcers, wounds, or any inflamed or contused conditions of the skin, with the most surprising results.

The attention of physicians and druggists, and the public generally, is called to this new preparation, as being a most valuable product in the making of ointments, salves, etc.

PETROLINA OIL.

Possessing the same medical qualities as Petrolina, but put up in liquid form, constituting one of the most elegant and valuable dressings for the Hair extant.

VETERINARY PETROLINA,

(Being Darker in Color.)

Put up in the same style packages as the Petrolina, is the best possible substance for use on Horses and Cattle.

Our facilities as manufacturers of this class of goods, put us in position to place the price at the very lowest limits.

HUSBAND'S CALCINED MAGNESIA.

FIRST PREMIUM SILVER MEDALS

Awarded by the Franklin Institute, Philadelphia; by the Mechanics' Association, Boston; by the American Institute, New York, and by the Maryland Institute.

In the report of the twentieth Exhibition of American Manufactures, by the Franklin Institute, Pa., it is stated that

HUSBAND'S MAGNESIA

IS

"BELIEVED to be THE BEST in the UNITED STATES."

Its superior qualities consist in its being entirely deprived of carbonic acid; in its freedom from unpleasant taste, smell or other disagreeable property, and without roughness or grittiness to the touch or palate. One teaspoonful of it is equal in strength to three or four teaspoonfuls of the common Calcined Magnesia, thus combining smallness of dose with the most agreeable form in which Magnesia can be administered.

ISINGLASS ADHESIVE PLASTER.

This Plaster has been found to be admirably adapted to strapping after surgical operations, and as a dressing to either incised or lacerated wounds. It is cleanly, of easy application, adheres firmly *without producing inflammation*, and, being semi-transparent, allows of an examination of the parts without their having to be disturbed by its removal, until, in many instances, the cure is effected. This Plaster is not affected by age, and will bear exposure to any climate.

Professor Mutter, in his late edition of Professor Liston's Lectures on Surgery, etc., remarks that "The Isinglass Plaster referred to by Mr. Liston is exceedingly well made by Mr. Husband, of this city; and for some time past I have almost abandoned the use of the old Adhesive Plaster of the shops, which often in persons of a delicate skin, or children, produces troublesome irritation."

The following testimonials from some of the most distinguished Surgeons in the United States will show the estimation in which it is held by the profession:

"I consider the Isinglass Plaster prepared by Mr. Husband a very valuable article for many surgical purposes, and think it ought to be introduced into general practice."

W. GIBSON, M.D.,

Late Professor of Surgery, etc., in the University of Pennsylvania.

"I have used the Isinglass Plaster prepared by Mr. T. J. Husband, and find it an excellent article. It is, therefore, with much pleasure that I recommend it to the profession."

THOMAS D. MUTTER,

Late Professor of Surgery, etc., in Jefferson Medical College.

BREAKS EASILY JUST THE RIGHT SIZE.

 The Purest and Finest Flavored in the Market. 

202 This extract of Licorice is one of the purest in the market, unsurpassed in flavor by any foreign or domestic brand, and will be acceptable to the most fastidious taste. The stick being RINGED, the consumer is enabled to easily break off a piece for use without fear of losing half by its flying when struck—A GREAT ADVANTAGE OVER THE OLD STYLE. It is securely packed in wood boxes holding 5 pounds each, and NO BROKEN STICKS when ordered in this shape of wholesale dealers. The RINGED LICORICE averages 17 sticks to the pound, (although the rings give it the appearance of about 15), making it the most profitable Licorice in the market for the retailer to sell.

 **Extract from Report of the COMMISSIONER of INTERNAL REVENUE on**
TOLU ROCK AND RYE.

TREASURY DEPARTMENT,
Office of INTERNAL REVENUE,
WASHINGTON, D. C., January 26, 1880.

MESSRS. LAWRENCE & MARTIN,
111 Madison St., Chicago, Ill.

Gentlemen—I have received "a certified formula" giving the ingredients and relative proportions used in the manufacture of an article which you advertise and sell under the name of "TOLU ROCK AND RYE." This compound, according to your formula, in the opinion of this office, would have a sufficient quantity of the BALSAM OF TOLU to give it all the advantages ascribed to this article in pectoral complaints, while the whisky and the syrup constitute an emulsion rendering the compound an agreeable remedy to the patient. In the opinion of this office, an article compounded according to this formula may properly be classed as a medicinal preparation under the provisions of Schedule A, following Section 3,437 U. S. Revised Statutes, and when so stamped may be sold by Druggists, Apothecaries and other persons without rendering them liable to pay special tax as liquor dealers.

Yours respectfully,
(Signed.)

INVENTORS AND MANUFACTURERS,

LONDON, ENGLAND.

This article possesses advantages over any other material that has been used for the destruction of these pests. It is at once the

Cheapest, Safest and Best.

Being, as it is, about ONE-HALF THE PRICE of Paris Green, its cheapness is greatly in its favor, and is 40 PER CENT STRONGER than that article. LONDON PURPLE will therefore require an additional quantity of flour, plaster, or any other ingredient mixed with it, if it is dredged, and very much more water if so mixed and sprinkled.

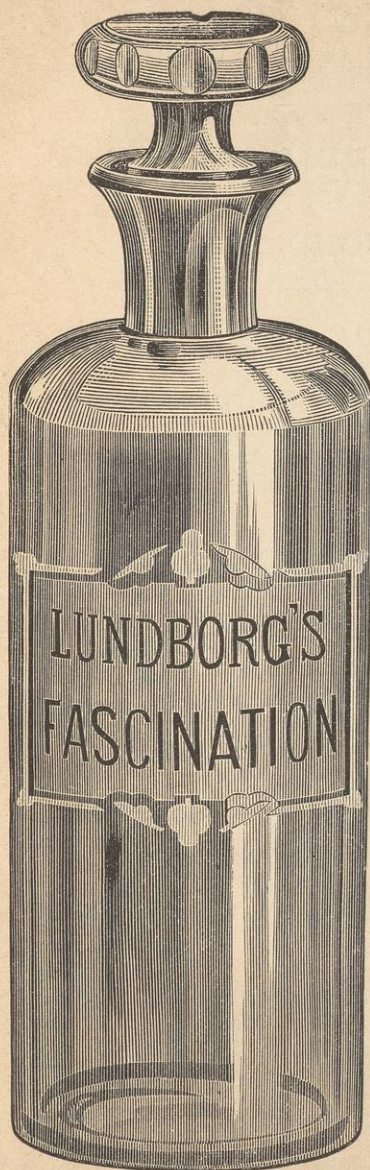

W. L. WILLIAMS, Oshkosh, Wis., July 17, 1879, writes: "I have a certificate signed by several farmers as to its merits."

Professor J. L. BUDD, Professor of Horticulture, Ames, Iowa, says: "A single application placed every one of the pests on their backs over the ground, either dead or in a dying condition, in less than six hours."

Mr. C. E. BESSEY, Professor of Botany, Ames, Iowa, who was kind enough to conduct a series of experiments with this material, upon the grounds of the Iowa Agricultural College, under the direction of careful and competent gardeners, says:

"It promises to be a most excellent remedy. It quickly kills both the Larvæ and the Winged Insects. You will be the means of conferring a great blessing upon the growers of Potatoes in regions affected by the Colorado Beetle."

TROMMER EXTRACT OF MALT.

I have thoroughly examined this Extract, with the following results:

Malt Sugar.....	46.65
Dextrine, Bitter Extractives and Fatty Substances.....	22.5
Albuminoids.....	2.5
Phosphates.....	1.713
Sulphates and Chlorides of Potash and Soda, etc.....	.51
Water.....	26.1

This Extract is one of the best samples which has come under my notice. The various combinations of the Extract, with Hypophosphites, Pyrophosphate of Iron, and with Cod-Liver Oil, which are prepared by the Trommer Extract of Malt Company, are all what they are represented to be, and in my opinion cannot fail to prove valuable additions to the physicians' armamentarium.

TROMMER EXTRACT OF MALT CO.
FREMONT, OHIO.

TROMMER EXTRACT OF MALT.

LONG experience in manufacturing Malt Extract has enabled us to completely overcome the many difficulties attending its manufacture in large quantity, and we positively assure the profession that our Extract of Malt is not only perfectly pure and reliable, but that it will keep for years, in any climate, without fermenting or moulding, and that its flavor actually improves by age. We are engaged EXCLUSIVELY IN THIS MANUFACTURE, and so are enabled to maintain, BY UNREMITTING PERSONAL ATTENTION, the uniformity and excellent quality which has established the high reputation of our productions on both sides of the Atlantic.

The Malt from which it is made is obtained by carefully malting the very best quality of selected Toronto (Canada) Barley. The Extract is prepared by an *improved process*, which prevents injury to its properties or flavor by excess of heat. It represents the soluble constituents of Malt and Hops, viz: Malt Sugar, Dextrine, Diastase, Resin and Bitter of Hops, Phosphates of Lime and Magnesia, and Alkaline Salts.

Attention is invited to the following analysis of this Extract, as given by S. H. Douglas, Professor of Chemistry, University of Michigan, Ann Arbor:

TROMMER EXTRACT OF MALT Co.—I inclose herewith my analysis of your Extract of Malt:

Malt Sugar, 46.1; Dextrine, Hop Bitter, Extractive Matter, 23.6; Albuminous Matter (Diastase), 2.469; Ash—Phosphates, 1.712; Alkalis, .377; Water, 25.7. Total, 99.958.

In comparing the above analysis with that of the Extract of Malt of the German Pharmacopoeia, as given by Hager, that has been so generally received by the profession, I find it to substantially agree with that article.

Yours truly,

SILAS H. DOUGLAS,

Professor of Analytical and Applied Chemistry.

This invaluable preparation is highly recommended by the medical profession as a most effective therapeutic agent for the restoration of delicate and exhausted constitutions. It is very nutritious, being rich in both muscle and fat-producing materials.

THE VERY LARGE PROPORTION OF DIASTASE renders it most effective in those forms of disease originating in the *imperfect digestion of the starchy elements* of food.

A single dose of the Improved Trommer Extract of Malt contains a larger quantity of the active properties of Malt than a pint of the best ale or porter; and, not having undergone fermentation, is absolutely free from alcohol and carbonic acid.

The dose for adults is from a dessert to a tablespoonful three times daily. It is best taken after meals, pure, or mixed with a glass of milk, or in water, wine or any kind of spirituous liquor. Each bottle contains 1½ lbs. of the Extract.

Our preparations of Malt are for sale by druggists generally throughout the United States and Canada, at the following prices:

ENTERPRISE Combination Tincture Press.

Patented September 30, 1879.

PRICE \$3.50.

The above cut illustrates our new "Combination Tincture and Fruit Press," which is particularly adapted and designed for Druggists' use. Its principle will commend itself, as it dispenses with all the re-handling of materials necessary with other Presses, the entire substance of the article pressed being extracted in one operation.

It is invaluable in making Fruit Juices, Syrups, etc., from all kinds of Fruits and Berries, and especially in making Decoctions, Infusions, etc., as it dispenses with many of the slow forms of maceration and percolation and with the use of press cloths—delivering the refuse uniformly dry.

Prof. Remington, in *American Journal of Pharmacy* for December, 1879, says: "The writer has used this press with great satisfaction in pressing juices from fruits, recovering alcohol and weak tinctures from percolation residue, and it is particularly useful with arnica flowers, hops, etc., and in expressing opium mass in preparing aqueous extract of opium," etc.

TRADE-MARK CASE.

"This is a case commenced by the plaintiffs, who are druggists in Boston, and proprietors of 'BROWN'S BRONCHIAL TROCHES,' to restrain the defendant, a New York druggist, from violating the trade-mark of the plaintiffs.

"The Court held that the defendant's labels and wrappers, being a close imitation of the plaintiffs' trade-mark, the plaintiffs were entitled to an injunction to restrain the defendant from the further use and violation of plaintiffs' trade-marks, and from

Making or Selling Lozenges under the name of 'BRONCHIAL TROCHES,'

and from any further use of the plaintiffs' labels, wrappers and other trade-marks."

NEW YORK, December 21, 1859.

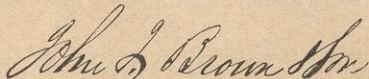

Brown's Bronchial Troches

contain ingredients acting directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring their healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. To PUBLIC SPEAKERS and SINGERS they will be found invaluable. The TROCHES are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well merited rank among the few staple remedies of the age. Each year the BRONCHIAL TROCHES go to new localities in various parts of the world, and this is the universal verdict wherever they are introduced.

At all seasons COUGHS, COLDS, HOARSENESS and SORE THROAT prevail, and all druggists should have a supply of

MILLIONS TESTIFY THAT THE HANDY PACKAGE DYES,

MANUFACTURED BY THE
Handy Package Dye Co., Adams Center, N. Y.

Are, in all respects, far superior to any other dyes in use. The success which has attended their use has brought them into favor over nearly all of the United States and Canada. We thank our many customers for their very liberal patronage. Our motto is "ALWAYS THE BEST." As science aids in the production of new coloring materials, and the inventive genius of man cheapens the methods of production, we, from year to year, are increasing very largely the quality and quantity of our dyes, and adding new and desirable colors to our list, and are determined they shall be in the future, as they have ever been in the past, the best that can be made.

Our success and popularity have brought forth in various localities, as every successful article ever will, imitations which are promised to do wonders, but be not deceived; the Handy Package Dyes are as much superior to all others as a gold eagle is better than a counterfeit. To make them so, we consider it not necessary to stuff our packages with paper and adulterations to make them bulky, and give the appearance of ability to color large amounts. A test of our dyes will ever prove their superiority, and the reason why all should

BEWARE OF IMITATIONS.

EAGLE METALLIC BRUSH COMPANY'S PATENTED BRUSHES.

The EAGLE METALLIC BRUSH Co. desire to call attention to their new improved and patented Metallic Hair Brush, and to its superiority of style, strength, durability and flexibility; also, to the advantage it has over all other Brushes in the market, in the manner of fastening the rubber by a *nickel-plated rim*, leaving the sides perfectly smooth, preventing the breaking or tearing out of the hair, and preventing the water from getting under the rubber in cleaning, thereby preserving it from rotting. We ask the ladies' special attention to these facts, convinced they will find them confirmed.

The Metal pins are inserted by a new process, causing the pins to yield and give in every possible way and regain their position. The use of the brush upon the head and passing through the hair is always refreshing, cooling and soothing, and causes an exhilarating sensation, particularly to the scalp, keeping it free from dandruff and other impurities, imparting new life and vitality to the hair (which no bristle brush can do), giving softness, strength and beauty on account of the electricity produced by the metal pins and the cleanliness of the head—a restful and quieting feeling being produced in cases of fatigue; and in case of headache its use will be found to be invaluable. This Brush answers for both comb and brush; it will not break, pull out or catch the hair in brushing, passing easily through it to the scalp, leaving a pleasant, thrilling sensation.

IMPORTANT CHANGE.

DR. SHALLENBERGER'S FEVER ❖ AND ❖ AGUE ❖ ANTIDOTE.

ONE DOLLAR PER BOTTLE.

The high retail price of this medicine, which is the only possible objection ever named against it, will stand no longer in the way of largely increased sales.

We present to the public our new size, twenty-five Pills for \$1.00, and the Pills being a trifle larger, are equal in quantity to twenty-seven Pills of the old size.

We believe this amount of the medicine will be found sufficient to cure any ordinary case of Ague, and being so nearly equal to the old, will very soon take the place of it in the market.

We shall still make and sell the old size — 30 Pills for \$1.50, precisely as it has been for twenty years, in order to accommodate some persons who look with suspicion upon the slightest change.

The new size has a large margin for profit, and is abundantly supplied with advertising matter.

KENDALL'S SPAVIN CURE

Is a sure cure for Spavin, Splint, Curb, Callous, Sprains, Swellings, Galls, Lameness, and all Enlargements of the Joints or Limbs. It will completely remove a Bone Spavin without blistering or causing a sore. It is also as good for man as for beast, and is used full strength, at all times of the year, with perfect safety. A cure which we are knowing to is a person who suffered fifteen years with hip-joint lameness and was permanently cured two years ago with Kendall's Spavin Cure. Remember, we claim it will cure a Bone Spavin and completely remove the bunch without blistering.

STATEMENT MADE UNDER OATH.

To Whom it may Concern: In the year 1875 I treated, with Kendall's Spavin Cure, a bone spavin of several months' growth, nearly half as large as a hen's egg, and completely stopped the lameness and removed the enlargement. I have worked the horse ever since very hard, and he never has been lame, nor could I ever see any difference in the size of the hock joints since I treated him with KENDALL'S SPAVIN CURE.

R. A. GAINES.

ENOSBURGH FALLS, VT., February 25, 1879.

Sworn and subscribed to before me this 25th day of February, A.D. 1879.

JOHN G. JENNE, Justice of the Peace.

CHICAGO, ILL., December 15, 1879.

GENTS.—It is several years since we first bought "Kendall's Spavin Cure" of you, and we do not hesitate to say it is the *very best* article for spavin, ring-bones, scratches, splints, etc., that we have ever used. We would not be without it in our large livery for thousands of dollars, as we use it constantly with a success that we did not anticipate. Every one who has used it around here speaks of its wonderful cures in the highest terms. Having used every known remedy which has been placed before the public, we do not hesitate to pronounce "Kendall's Spavin Cure" one of the greatest discoveries of the age, and something that no horse owner should be without. It stands without a peer in horse liniments.

Respectfully yours,

HANCHETT & CARTER.

Proprietors of the 12th St. Livery, Chicago, Ill.

READ ABOUT ITS EFFECTS ON HUMAN FLESH:

BAKERSFIELD, VT., December 23, 1879.

DR. B. J. KENDALL & Co.,—*Sirs:* I wish to add my testimony in favor of your invaluable liniment, "Kendall's Spavin Cure," for sprains and rheumatism. In the spring of 1862 I slipped on the ice and sprained my right limb at the knee joint. I was very lame at times and suffered the most excruciating pain. I wore a bandage on it for over a year, and tried most everything in my reach, but could find nothing that would give me any permanent relief. When I overworked, it would pain me very much. In April, 1878, I began to think I should be a cripple for life, but having some of your "Kendall Spavin Cure," thought I would try it. I used one-third of a bottle in a week. At the end of that time I felt that my limb was well. It has not pained me since. I feel very grateful to you, and recommend "Kendall's Spavin Cure" to all who suffer with sprains or rheumatism.

Yours truly,

MRS. J. BOUTELL.

Druggists, Take Notice.

The Drug market of the entire country is overstocked with unmerited preparations for the cure of all diseases that flesh is heir to. Profuse advertising and pushing salesmen cause these medicines to sell to a certain extent, but their life is of short duration. A trial is all that is required to convince patients of their utter unworthiness, and show them their folly in parting from the old tried and merited medicines. We beg to call your special attention to medicines of true merit, which stand pre-eminent on the list.

ALLEN'S LUNG BALSAM.

A Safe, Sure and Reliable Remedy for Curing

COUGHS, COLDS AND CONSUMPTION.

As an Expectorant it has many rivals, BUT NO EQUALS. It has been thoroughly tested throughout this entire country for many years, with merited success, while the demand for the Balsam from foreign countries is large and steadily increasing. The price of Allen's Lung Balsam is such as to justify both Wholesale and Retail Druggists in giving it precedence, for it pays both a better profit and gives more universal satisfaction than any similar preparation. It is sold by all medicine dealers.

TIME TESTS THE MERITS OF ALL THINGS.

Perry Davis' Pain-Killer

Has now been the favored remedy of the people for thirty-nine years, and in that time has been tested in every variety of climate, and by almost every nation known to Americans. It is the almost constant companion and inestimable friend of the missionary and the traveler, on sea and on land, and no one should travel on our lakes and rivers without it.

Pain-Killer was the First, and is the Only Permanent Pain Reliever.

WHY IS THIS SO?

It is because DAVIS' PAIN-KILLER is what it claims to be, a Reliever of Pain. *Its merits are unsurpassed.* If you are suffering from Internal Pain, twenty to thirty drops in a little water will almost instantly cure you. There is nothing to equal it. In a few moments

It cures Colic, Cramps, Spasms, Heartburn, Diarrhoea, Dysentery,
Flux, Wind in the Bowels, Sour Stomach,
Dyspepsia, Sick Headache.

In sections of the country where FEVER AND AGUE prevail, there is no remedy held in greater esteem. Persons traveling should keep it by them. A few drops in water will prevent sickness or bowel troubles from change of water.

SEABURY & JOHNSON'S

PHARMACOPŒIA AND MEDICINAL

India-Rubber Porous Plasters.

Pharmacists and Druggists will have the kindness to bear in mind that we manufacture but **ONE QUALITY** of Medicinal and Surgical Plasters. When a physician prescribes an official preparation he invariably expects such article to be of pharmacopœia strength. To depart from established formula, or to cheapen medicinal preparations by the introduction of inferior drugs or extracts, is simply reprehensible. Such preparations not only baffle the acknowledged skill of practitioners, but also reflect disadvantageously the judgment and intelligence of the dispensing pharmacist or druggist. It has never been our aim, and never will be, to calculate how cheap we can produce a suspicious class of medicinal articles.

The extensive demand, united with our **UNEQUALED FACILITIES** for the economical production of our specialties, enables us to offer the best quality of elegant and unimpeachable goods at exceptionally low prices. They are skillfully made of purified India rubber, selected drugs, and incorporated with an unquestionable quality of alcoholic medicinal extracts. Every pharmacopœia article is warranted to be of proper strength and guaranteed to give perfect satisfaction in every respect.

ANALYSIS OF BELLADONNA PLASTERS, BY PROF. R. OGDEN DOREMUS.

BELLEVUE HOSPITAL MEDICAL COLLEGE,

NEW YORK, September 7, 1878.

MESSRS. SEABURY & JOHNSON.—*Gentlemen*: I obtained from Messrs. W. H. Schieffelin & Co., of this city, samples of Belladonna Plasters prepared by Grosvenor & Richards, Boston; Mitchell's Novelty Plaster Works; Seabury & Johnson, New York and London. I have examined these varieties for the purpose of determining which possesses the largest quantity of atropine. I employed equal surfaces of each, and my analysis demonstrated that Seabury & Johnson's contains the greatest proportion of the active principle of belladonna, and is the most reliable plaster.

PROF. R. OGDEN DOREMUS, M.D., LL.D.

NEW YORK, June 7, 1878.

MESSRS. SEABURY & JOHNSON.—*Gentlemen*: Samples of the Belladonna Plaster manufactured by your firm and by Dr. Grosvenor's were purchased by me of a well known drug house, and comparative tests made of the same, for the purpose of determining the relative amount of extract of belladonna in each. The tests used were applied to an equal quantity of each plaster, and under similar conditions. I find that a larger amount of the solid extract of belladonna is contained in your preparation, which result was corroborated by repeated trials.

Respectfully yours,

J. P. BATTERSHALL, Ph.D.,

DR. BARNES'
Blackberry Balsam.

FOR THE CURE OF

Diarrhoea,

Dysentery,

Cholera Morbus,

Flux, etc.

The reputation of the Blackberry Root has been sadly abused by the attempt of incompetent persons to prepare it for use. Its virtues have been but partially extracted, or it has been mixed with other incompatible drugs, so as to in part, if not wholly, destroy its otherwise uniformly excellent effects.

Dr. Barnes' Blackberry Balsam

Is prepared from the very choicest roots, the medicinal properties of which have been extracted by the best process known to Pharmacy, and, combined with valuable auxiliaries, renders it a most valuable remedy for all the diseases above specified.

THE WANT SUPPLIED!

FOWLER'S PATENT FLY FAN.

THE GREAT HOME COMFORT AND LUXURY.

Premiums Awarded by the Centennial International Exhibition, Philadelphia, and American Institute, New York, 1876.

DESCRIPTION.

The machine is self-acting, keeps flies off the table, winds up like a clock, and runs about one hour and a half at each winding. For convenience, a key is attached to the case, so that it can be rewound at any time, and run as long as desired. It is light and portable, and a perfect substitute for the old fly-brush in the hands of a servant. It is ornamental, and occupies less space on the table than a castor. It has a beautiful bronzed base, with the stem and projections nickel plated, to which fans are attached, which revolve noiselessly above the head, with no inconvenience to persons seated at the table. It fills a long-endured want in the household, and is so simple that a child can operate it. The first cost is a permanent investment, as it will last many years. It has been adopted in some of the first hotels and private families in the country, and wherever introduced has given entire satisfaction. It is easily set on a bed or chair to keep flies off children or the sick, and is far preferable to net-work, being much cooler. To the invalid, in summer, it will be a most welcome companion and faithful sentinel—never weary. Flies frequent most where there is most to feed on. Use Fowler's Patent Fly Fan to keep them from the table and they will leave the house. This is the best receipt yet given—better than all the baited traps that draw more than they catch.

\$36.00 PER DOZEN.

MANUFACTURER OF

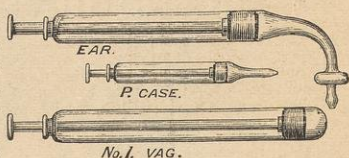

McElroy's Patent Glass Syringes, Glass Tubes,

AND TUBING OF EVERY DESCRIPTION,

EAST CAMBRIDGE, MASS.

In calling attention to my goods I would simply say they are the best that can be made. They will stand more rough usage, without breaking, than those of any other make. *First*, They are made of the best material. *Second*,

The rubber washers on the pistons prevent them from breaking while in use. *Third*, They are thoroughly packed, so that it is not necessary to repack them, which is often the case with all others, and as complete Glass Syringes they are **superior** to anything offered to the trade. In proof of my statements please read the following

Testimonials from the Principal Druggists of Boston and Elsewhere:

We have sold more of McELROY's SYRINGES for the past three years than any other kind. They give good satisfaction, and we consider them the best in the market.

Dr. McINTOSH'S NATURAL UTERINE SUPPORTER.

The attention of the medical profession is invited to this instrument as the most perfect ever invented for treating Prolapsus Uteri, or Falling of the Womb. It is an Abdominal and Uterine Supporter combined.

The Abdominal Supporter is a broad morocco-leather belt, with elastic straps to buckle around the hips, with concave front, so shaped as to hold up the abdomen.

The Uterine Supporter is a cup and stem made of very highly polished hard rubber, very light and durable, shaped to fit the mouth of the womb, with openings for the secretions to pass out, and which can be bent to any curve desired by heating in very hot water.

The cup and stem is suspended to the stem by two soft elastic rubber tubes, which are fastened to the front of the belt by simple loops, pass down through the stem of the cup and up to the back of the belt. These soft rubber tubes, being elastic, adapt themselves to all the varying positions of the body, and perform the service of the ligaments of the womb.

The instrument is very comfortable to the patient, can be removed or replaced by her at will, can be worn at all times, will not interfere with nature's necessities, will not corrode and is lighter than metal. It will answer for all cases of Anteversion, Retroversion or any Flexion of the womb, and is used by the leading physicians with never-failing success even in the most difficult cases.

PRICE—TO PHYSICIANS, \$8.00; TO PATIENTS, \$12.00.

Dr. McIntosh's Electric or Galvanic Belt,

For the treatment and cure of Chronic and Nervous Diseases, such as Rheumatism, Epilepsy, Neuralgia, Dyspepsia, Seminal Weakness, Impotency, Affections of the Kidneys, Liver, Lungs, and the great class of Nervous Diseases. The McIntosh Electric Belt is constructed on purely scientific principles, consisting of a series of galvanic cells placed in pockets on a belt. Each cell is composed of hard rubber, in which the negative and positive plates are packed in a porous material to hold a weak acid to generate an electric current and permit its passage from plate to plate, thus forming a complete galvanic battery. The belt is worn as seen in the figure, and so arranged that the current can be used strong or weak, and the patient can apply it by means of the fine connecting cords to a particular part of the body, or the whole system can be brought under its influence.

Price \$10.00, or with Suspensory, \$12.50.

OUR PAMPHLETS ON ELECTRICITY, giving a full description of the belt, and many of the diseases which are benefited and cured by its use, will be sent free by mail on application to the

To the Drug Trade, and our Patrons especially.

We have placed in the market the above Bitters, which we guarantee superior to most, and equal to the best in every respect. They are the same size and similar in style to Hostetter's, also similar in flavor, but we think better, while the medicinal effect is the very best that can be produced in a Bitter of this class. All the ingredients used are the most popular and reliable for their tonic and appetizing effect, and we feel sure the article will give entire satisfaction. We place them at

\$6.00 PER DOZEN,

Which is from \$2.00 to \$2.25 less than other Bitters, while they have all the intrinsic merits of the very best. In selling them, you make a much greater profit, while your customer is equally well served, and you do him no injustice.

*Try a Dozen, and we do not believe you will there-

PROPERTIES.
Tonic, cathartic and astringent. Useful in jaundice, hepatic diseases and for removal of worms. Decoction, one ounce in a pint of hot water. Dose, a wineglassful.

COMMON NAMES.

Snakehead, Turtlebloom, Turtlehead, Saltreum Weed, Fishmouth, Broom-shell Flower and Bitter Herb. *Glatte Chleone*

The above cut is a fac simile of the label used on our ounce packages of herbs. Its advantages over other styles are that it gives, on each package, the botanical, German and all the common names, properties, and dose and antidote in case of poison.

The size and shape is the same as the old Shaker package.

Having had fifteen years' experience in the botanical business, we are satisfied it is the most complete and convenient package and label for the consumer in the market.

All our herbs are carefully selected by ourselves, and our roots and barks are crushed and sifted before pressing, thus rendering them clean and uniform. Our goods can be had of the Jobbing Druggists at lowest market prices.

TESTIMONIALS.

From the *Christian Union*, August 22, 1877.—“Ever since Dr. Wm. M. Giles, of 120 West Broadway, extended a frank invitation to owners of lame horses to bring their equine property around to his place of business for free treatment, the corner of Twenty-seventh street and Sixth avenue has come to resemble a horse fair. The doctor's bold defiance, which is thus thrust upon the curious attention of his neighbor, is based upon his earnest belief in his Iodide Ammonia Liniment, which is now preferred to all others by the chief stock-raisers and sporting men of the country.” A valuable horse of the writer's was kicked on the hock; swelling and lameness ensued, rendering the animal nearly worthless. We were advised to try Giles' Liniment, and are gratified to say it acted like a charm. About two inches of bone came away, the sore healed up and the lameness and swelling are fast disappearing.—*Henry Ward Beecher and Lyman Abbott, editors.*

“I had twelve strokes of paralysis. My leg, tongue and arm were useless; was obliged to use a catheter every day. Dr. Giles' Liniment Iodide of Ammonia has cured me. Will answer any inquiries, so that all afflicted may know of it.”—*John Appell, North Bradford, Conn.*

CHESTNUT HILL, PHILADELPHIA, April 22, 1876.

W. M. GILES, Esq.—*Dear Sir:* I used your Iodide of Ammonia Liniment on “Flora Temple's” hind pastern joint. She had been quite lame; the effect was wonderful; she walks now quite well. Very respectfully yours, A. WELSH.

P. S.—I am now using it on “Littleton's” right fore-leg.—A. W.

ASTHMA.—“The tortures and agonies I endured for six years none but those who have suffered with the disease can know. My life was miserable. In desperation I tried Giles' Liniment Iodide of Ammonia. It gave me instant relief. Used it internally as well as externally.”—*Thos. Brannigan, 27 W. 22d St., New York.*

“I was in a dreadful condition. Joints swollen; pain intense. Injections of morphine into my veins failed to relieve me. Giles' Liniment took away the deposits from my joints. I want every one who suffers to know what will cure them.”—*Fordyce Lothrop, North Hyde Park, Lamoille County, Vt.*

NEURALGIA: WONDERFUL CURE.—The great revivalist, Rev. Wm. P. Corbett, says: “Giles' Iodide of Ammonia is, in my judgment, the best remedy for Neuralgia ever put before the public. I have been afflicted with this terrible disease thirty-two years, and never until I fell upon Mr. Giles' remedy did I find any assured relief. I take pleasure in saying this, inasmuch as I desire always to be a benefactor to the human family.”—*Wm. P. Corbett, Chairman of the Methodist Church Extension, New York.*

“In my family, and for the stock, I have used Giles' Liniment Iodide of Ammonia. It is unsurpassed, and I am surprised at the many different maladies in which it is applicable. It gives the utmost satisfaction.”—*John B. Carter, Superintendent of Eastern Pennsylvania Experimental Farm.*

THE GREAT MEDICAL WONDER!

HAMLIN'S WIZARD OIL,

FOR INTERNAL AND EXTERNAL USE.

The great reputation which this remedy has attained during the past few years must be attributed solely to ITS REAL VALUE. A worthless medicine, when stimulated by advertising, will sell for a time, but as soon as allowed to depend upon solid merit it drops out of the market entirely. This is not the case with HAMLIN'S WIZARD OIL. When once introduced into any section of country IT NEVER DIES OUT.

WHAT DRUGGISTS SAY OF HAMLIN'S WIZARD OIL.

We have had cases quite often where Wizard Oil has cured the worst forms of Inflammatory Rheumatism, and it is getting to be very popular. We always recommend it, and it has a large sale here.

F. C. DILLAYE, Syracuse, N. Y.

Under my observation as a druggist I have seen some of the wonderful effects of Wizard Oil upon severe cases of Rheumatism, Sprains, Bruises, etc. One man in particular, named Wheeler, after lying in bed two months, and trying everything physicians and friends could recommend, allowed his prejudices to be overruled and tried Wizard Oil, which had the desired effect. He is now well and a staunch friend of your great remedy.

LESLEY WILLIAMS, Fulton, Ill.

The demand for your medicines becoming larger every day is sufficient testimony that they are fully as good,—even better,—than represented by you.

CROARKIN & TWOMEY, Dexter, Mich.

Please send me some of your pamphlets with my business card printed upon the cover. Wizard Oil gives great satisfaction, and sales are increasing every day.

ADOLPH MUELLER, Highland, Ill.

We have never sold a better preparation, nor one which gives better satisfaction, than Wizard Oil.

We desire to call attention to the following facts, viz.:

THAT our Ales and Porter are unsurpassed for fine flavor, quality and purity.

THAT we use none but the best Malt and Hops in their manufacture, and we guarantee them STRICTLY PURE.

THAT they are fast taking the place of imported Ales and Porter.

THAT after five years' trial in bottling we are enabled to offer to our customers Ale and Porter second to none in the market.

THAT the Faculty recommend them.

THAT we manufacture Ale and Porter specially for bottling, and bottle ourselves; being therefore both BREWERS AND BOTTLERS, we have unusual advantages.

THAT our Ale was, out of the large number of competitors, one of the few that was recommended for an Award at the Centennial Exposition.

All labels and corks bear fac-simile signature of Wm. Besley, Pres. None other will be genuine.

For shipping, we pack in barrels of 4 dozen quarts or 8 dozen pints.

Orders may be addressed to our CHICAGO DEPOT OFFICE, 134 and 136 N. Jefferson St., or to the Office of the Brewery, at Waukegan, Ill.

PRICE LISTS ON APPLICATION.

FREQUENT urgent requests from our patrons for a RELIABLY Pure Castile Soap, has made it almost imperative for us to procure, if possible, an article that was FREE FROM ADULTERATION, containing all the valuable properties peculiar to the old Castilian Soaps, and which we could unhesitatingly recommend.

This Brand will be found entirely free from the many worthless adulterations in such common use among Soap Manufacturers, and we have no doubt will soon become the favorite brand.

We have both the "White" and the "Mottled" in bars and boxes of the usual sizes, also in $\frac{1}{4}$ lb and $\frac{1}{2}$ lb cakes in cases of about 40 lbs.

In presenting these goods to our customers, we do so in the belief that they will assist us in giving to the consumers an article at once pure and effective; and in establishing a demand for it thus add to their own sales and profits.

BIROTH'S PEPSIN.

This Pepsin has received considerable attention from physicians during the season of infantile summer complaint. It is the only Pepsin in the market which contains the digestive principle of the

PIG'S STOMACH AND CALF'S RENNET COMBINED.

The latter has the property of forming a **soft**, flocculent coagulum with cow's milk, resembling that formed by the human gastric juice with human milk.

The fundamental cause of **Summer Complaint** is undoubtedly **Indigestion**. Milk remaining in the stomach for some length of time without being digested, especially during the hot weather of our summer months, soon undergoes fermentation. The acids formed during this process, together with the **hard** curd precipitated by them, produces an irritation of the infantile stomach, causing vomiting and diarrhoea, followed by general exhaustion, and ending in the death of the child.

In administering this Pepsin, the hard coagulum is dissolved, the acetous fermentation is checked, and the formation of new hard curd is thus prevented. Now normal digestion again takes place, aided especially by small doses of Pepsin (two or three grains); the child recovers rapidly; the sunken eyes resume their former brightness; the appetite increases, and life and vigor are once more restored.

This Pepsin is also used successfully in artificial feeding. A large proportion of the infants in this country are raised with cow's milk, which is more difficult to digest than mother's milk, hence the prevalence of constant illness and the larger mortality among these children. There is no remedy which acts so beneficially in such cases as Pepsin, given before each meal, either in form of powder or wine.

WARINNER'S
PURIFIED
Aromatized Castor Oil.

A GREAT BLESSING TO THE SICK, AND
ESPECIALLY TO CHILDREN.

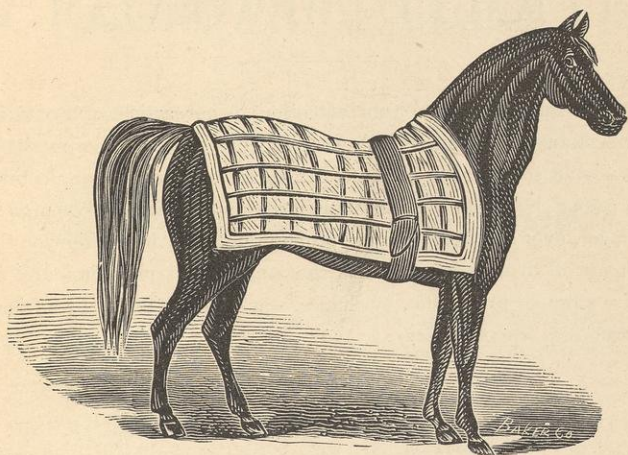

By reducing the retail price on WARINNER'S AROMATIZED CASTOR OIL to Twenty-five Cents for a Four-Ounce Bottle, we place it on a par with the common Castor Oil as ordinarily sold, and as it is so far superior for medicinal use, both in the ease with which it is taken and retained in the stomach and in the diminished griping effects of its operation, we confidently trust the retail druggists will, in the interest of their customers, recommend it where Castor Oil is wanted for internal use.

*THIS CASTOR OIL IS CHARACTERIZED BY THE FOLLOWING
UNIQUE ADVANTAGES:*

1. It is not as liable to rancidity or deterioration by age or climatic exposure.
 2. Ordinary Castor Oil, even of the best quality, is seldom available to patients of delicate organization; but by the use of Dr. Warinner's method the weakest stomach tolerates it whenever indicated.
 3. The DESIRED EFFECTS of Castor Oil are GREATLY ENHANCED by this process, while the properties which induce griping and "recoil" are wholly eliminated.

Horse and Cattle Medicines

that may be relied upon as superior to any similar preparations ever before offered. They are prepared from

CAREFULLY SELECTED MATERIALS,

that many years of scientific research and practical experience have found to be most efficient and curative for the diseases and complaints for which they are recommended.

In confirmation of the foregoing facts, we subjoin the following certificate of Dr. G. H. DADD, whose well-earned reputation and skill in his profession makes his opinion entitled to the confidence of horse owners, and those who have the care of Horses and Cattle.

CERTIFICATE.

CHICAGO, January 1, 1863.

I hereby certify that I have examined and thoroughly tested in my practice the articles known as "American Equine Powders," "American Equine Liniment," and "American Equine Ointment," prepared by LORD, SMITH & Co., Chicago, Ill. I regard them as preparations of great merit, and would cordially recommend them as being prepared with special care, from reliable remedies, and more efficacious for the treatment of the various diseases for which they are designed than any remedies of which I have knowledge.

SOLUBLE CITRATE MAGNESIA.

We especially invite your attention to our article of SOLUBLE CITRATE OF MAGNESIA, which we claim possesses superior merits to any now in the market, either of American or foreign manufacture. We cannot better describe the superiority and advantages we urge in its favor, over any other similar preparation, than by giving you the contents of an unsolicited letter from an eminent physician, and an entire stranger to us, who, by chance, was given a bottle by a friend visiting him from this city.

No. 206 QUINCY ST., BROOKLYN, Sept. 29, 1875.

MESSRS. LORD, STOUTENBURGH & Co.,

Wholesale Druggists, Chicago.

Gents: About two months ago a friend of mine from your city gave me a bottle of your EFFERVESCENT CITRATE OF MAGNESIA, and I have given it a very faithful trial, and have become convinced that it possesses a great superiority over Bishop's, Ford's and Eads' or Rogers' preparations in its perfect and instant solubility without residuum, in its ready effervescence, and above all in its medical properties. As a corrective of flatulence and indigestion, as a preventive of cholera morbus and irritation of the stomach and a gentle laxative, it has no superior. One great advantage it possesses over Seidlitz Powders, Tarrant's Aperient, Rochelle Salts and Lemon Juice, or any other medicine of its class, is that it does not induce a constipated or irritable condition of the lower bowels after its laxative force is expended. I am desirous that it should be widely known, and my object in writing now is to find out whether you have an agency or place of sale for it in New York. I have described it to several of our leading druggists here, and find that they would be very glad to keep it if they could obtain it. If you have no agency in New York, can you arrange for one soon, and let the facts be made known to the druggists here?

I remain, with great respect, your obedient servant,

L. P. BROCKETT, M.D.

THE HAIR

A CROWN OF GLORY.

In selecting Medicines and all compounds, **QUALITY** and **EFFECT** are of the first importance. As the country is now flooded with Hair Preparations, and many put up similar to "BARRETT'S," we deem it but justice to ourselves and the public to say that

Barrett's Hair Restorative

HAS NO EQUAL IN MERIT.

It is composed of the very Choicest Material that can be selected, and is Perfectly Harmless. After five years of careful study and experience we are satisfied that our present formulæ cannot be improved. We have many letters and testimonials from parties who have used preparations put up in a similar manner and introduced to the public long before ours, declaring in *most emphatic terms* that "BARRETT'S" is far ahead of all others, being much cleaner, better perfumed, and will more readily accomplish the desired result.

☞ The great question with all who wish for a fine head of Hair is, "WHAT PREPARATION SHALL I USE?" This question is easily settled by the fact that to "BARRETT'S" was awarded a SILVER MEDAL over every other competitor, the only one ever given to any Hair Preparation.

☞ We simply ask a faithful trial to the extent, if necessary, of two bottles of the "Barrett's Hair Restorative," feeling assured the result will fully meet the expectations of the party using it.

LORD, STOUTENBURGH & CO.

Reasons why "Barrett's Hair Restorative" is the Best.

- 1st. It is thorough in its action upon GRAY or FADED HAIR.
 - 2d. It is sure to restore the hair to its youthful beauty, producing one distinct shade, while others leave the hair in many varied colors.
 - 3d. When restored, the color is made fast, and the hair does not fade into its former discolored appearance.
 - 4th. It promotes growth, when the others fail to reproduce a single hair.
 - 5th. It acts directly upon the roots, and not as a dye.
 - 6th. It cures all diseases of the scalp, and removes dandruff and hair-eaters.
 - 7th. It is highly perfumed, free from all dirty and gummy substances, and does not stain the scalp or soil the finest fabric.
 - 8th. It thoroughly cleanses the scalp of all dirt, dandruff, and other extraneous substances.
 - 9th. It causes the hair to grow thick, luxuriant and glossy.
 - 10th. It prevents BALDNESS and premature decay.
 - 11th. The ingredients used in this preparation are the very best that can be found, and are as harmless as water.
 - 12th. BARRETT'S took the first premium (a silver medal) over all competitors, at Nashua, New Hampshire, in September, 1866.
- These are the reasons why BARRETT'S is the best Hair Preparation in the world, as well as the reasons why every one should use BARRETT'S in preference to all others.—*Cincinnati Globe*.

\$500 REWARD will be given for any compound that will restore Gray or Faded Hair to its natural color, prevent baldness, promote growth, cure diseases of the scalp, and cause the hair to grow thick, luxuriant and glossy, quicker and more effectual and satisfactory than "Barrett's," to which was awarded a "Prize Medal," the only one ever given to any Preparation for the Hair. ☞ Every Bottle Warranted.

GRAY'S SPECIFIC

FOR

NERVOUS DEBILITY.

TRADE MARK

BEFORE TAKING.

An unfailing cure for Seminal Weakness, Spermatorrhoea, Impotency, and all diseases that follow as a sequence of Self-Abuse, as Loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age, and many other diseases that lead to insanity or consumption, and a premature grave.

TRADE MARK

AFTER TAKING.

Full particulars in our pamphlet, which we desire to send free to every one. The Specific Medicine is nicely put up for the Drug Trade in one dozen boxes, finished in such a manner that they are an ornament for any druggist's show case; aside from this, the boxes form a better medium for advertising than show cards.

Gray's Specific is an article that the Drug Trade can recommend without fear of the goods reverting again to their hands. Below we give a few testimonials from parties of unquestioned merit.

NORTHROP & LYMAN.

HAMILTON, ONT., July 22, 1876.

Gentlemen,—The Specific Medicine sells well, and gives universal satisfaction. Truly yours,

J. WINER & Co.

LONDON, ONT., July 2, 1876.

Gentlemen,—Your Specific Medicine sells well, and what is better, gives satisfaction. Truly yours,

B. A. MITCHELL.

LONDON, ONT., July 10, 1876.

Gentlemen,—In reply to yours of 1st will say that the Specific Medicine has taken the place of all other remedies for nervous diseases. It not only sells well, but gives entire satisfaction to our customers. Respectfully,

C. McCALLUM.

This article, prepared by a regular graduate in medicine, has taken a foremost rank among the proprietary articles of the country; it is being extensively advertised, and the manufacturers design it shall be on the counter of every druggist in America.
