The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

Problem: Chondrectomy

How to excise degenerated and fibrillated cartilage from the undersurface of the patella or the femoral condyles with the diagnosis of chondromalacia without damage to adjacent articular cartilage.

Answer: Ninety-Four

Assemble a stainless steel, sterile, disposable Beaver No. 94 blade into a Beaver No. 8 stainless steel handle, an 8-94 combination — the best combination for solving a tough surgical problem.
