Mr LARSON.

This is the tape I wrote you about this spring. It took a long time to get the Cover history together, but I think the artist done a good job on the Cover.

Hope you like the music overlook the misplaced Keys I think we were all very nervous being the first time in a recording studio

We had a big year a Rollay Minn the music talent is getting better every year, the same studio taped Friday Nite We will see how it comes out
