FIREWORKS AND PARADE SEEN AT ICE CARNIVAL

Toboggan Slide Iced For Skaters

Skating and iceboat racing, fancy skating and stunts, an elaborate display of fireworks, torchlight racing, and a huge bonfire on the lake last night marked the height of Winter Sports week.

In the afternoon, university students and town folk garbed in sweaters and mufflers crowded along the courses laid out on Lake Mendota.

Give Fancy Skating Exhibition
One of the special stunts of the afternoon was the fancy skating demonstration given by Violet Rusch, young exhibitionist from Milwaukee. In the evening, her father and sister performed with her.

Willis Wood '24 was the high man in the racing events, taking first in the 220-yard dash, the mile and the two-mile. In the meet recently held at Lake Placid, New York, where American universities competed for the Harding trophy, Wood placed third in two skating events.

Skate Down Toboggan Slide
Bernice Whiple and Helen Cushman were the high point winners in the girls' events.

Helen and Doris Cushman created the biggest sensation of the afternoon when they went down the iced toboggan slide on skates. In the evening the program began with a costume parade starting at the square and proceeding down State street finally ending at the rink at the foot of Park street.

Special stunts, tobogganing, fancy skating, and dancing on the ice formed the remainder of the entertainment for the frolicers for the rest of the night.

All of the skating events in the evening were run off on the large rink just east of the toboggan slide and which was encircled with fir trees strung with gaily colored lights. Two large searchlights played upon the skaters and served to light the surrounding ice.

The summary of the afternoon events is as follows:

(Continued on Page 8)

DARWIN THEORY AND EVOLUTION ARE DIFFERENT—GUYER

"The popular idea that the theory of evolution and Darwin's theory are identical is a misconception among people who know very little about the subject," Prof. F. M. Guyer of the zoology department declares.

"The theory of evolution had followers as early in history as 500 or 600 B. C., and in 400 A. D. Augustine made attempts to reconcile Bible doctrine with the idea of evolution. In 1809, the date of Darwin's birth, La Mark published his book which marked the beginning of the modern conception of evolution. It is obvious, therefore, that Darwin did not originate the theory.

"Darwin's theory contains the survival of the fittest and adaptation of environment idea. It explains evolution from this angle but later research has proved this is only a partial explanation. It has found that variations or changes in species occur for no apparent reason whatever, and that natural selection merely places a premium on changes in a favorable direction, but takes no account of negligible or harmful changes. Darwin's theory is neither dead nor discredited," Prof. Guyer asserted. "Science has merely advanced in this direction and found it to be incomplete in certain respects although containing a great amount of illuminating research."

Professor Guyer delivered a lecture on the present state of Darwinism, Thursday in Milwaukee.

Toboggan Injures Four on Observatory Slide

Four persons were injured, one seriously, and several others were badly bruised by a toboggan which veered into a crowd of onlookers last night at the bottom of the slide at observatory hill. The crowd had come in close to the slide to watch tobogganers and skaters bearing torches. There were neither lights nor guards to warn spectators of the oncoming toboggan.

Merle Jackson, who was most seriously hurt, was taken to the General hospital, where an x-ray by Dr. Tormley showed that one of Jackson's legs was fractured. A member of Sigma Kappa sorority who was with Jackson was also injured. She refused to disclose her identity.

Edwin Bayley '16, and his sister, Eleanor Bayley, a stenographer for the Beaver Insurance company, were badly shaken up and bruised. They were rushed to the infirmary, but were removed to their home, 9 South Spooner street, after their injuries had been cared for. Bayley suffered a cut on the head, but it is not believed to be serious. Miss Bayley was a freshman last semester.

GIVE SUMMER FACULTY LIST

Session Will Open on June 25 With 255 Instructors

Approximately 255 members of the university faculty and 25 staff members from other institutions will be in residence here during the 1923 summer session, which opens June 25, and continues six weeks, closing August 3. The session of the Law school lasts ten weeks and does not close until August 31. The regular registration day is Saturday, June 23.

The courses offered this year are numerous and varied. Of the 425 courses which will be given, almost all are of academic grade, and carry credit toward all degrees regularly offered by the university.

Offer Many Courses
In the college of Letters and Science many interesting courses are offered in almost all the departments; the Library school being the most striking exception. There will be no direct courses in Library training offered but another course will be substituted.

Prof. Theodore Svedburg, an addition to the university faculty this semester will also be here during the summer session, continuing instruction in colloid chemistry. Other professors, including Lenher and Walton, together with associate professor Krouskopt, and others will make up the group who will give the sixteen chemistry courses that are offered.

Secure Prominent Men
Many prominent men have been secured as lecturers for the courses offered in the school of education. They are, Anderson, assistant state superintendent of public instruction, Wisconsin; Davis teacher of science in the Wisconsin High school; Douglass, of the University of Oregon; Kohs, a psychologist from the Court of Domestic Relations, Portland, Oregon; Moffet, of the University of Iowa; and Miss Woods, who is the clinical psychologist and supervisor of special classes, in the state department of Public Instruction, Wisconsin.

An addition to the faculty for summer school in the course in geography and geology is W. D. Smith of the University of Oregon, who will act as lecturer.

The extensive courses in English which are offered are under the supervision of Professors Young, Lathrop, and Pyre, with Lecturer Moffet of the University of Iowa.

Give 10 Classes in Classics
Professors Smitley and Haley, with lecturers Logan and Miss Calla Guyles make up the tutorial force in the course in classics, in

GLEE CLUB WINS FIRST PLACE IN MIDWEST MEET

Illinois Given Second Place

The University Glee club was awarded a bronze tablet as first prize out of 12 contesting colleges and universities in the Middle West at the Intercollegiate Glee club contest held in Orchestra hall, Chicago, Friday evening.

The three songs sung by the club were "Peaceful Night," German; "The Hunter's Farewell," by Mendelssohn; and "Toast to Wisconsin." The first song was selected by the club, the second was sung by all the clubs and the third was the representative college song.

Swinney Praises Club
"The club did splendidly," Prof. E. Earl Swinney, director of the club who accompanied the members to Chicago, declared yesterday evening. "We won the contest through our excellent tone and uniformity in singing. Wisconsin, as the winner of this contest, may take a trip to New York in order to compete in the Eastern Glee club association contest held in May."

3,000 Hear Concert
More than 3,000 people crowded into Orchestra hall to hear the contest and filled it to capacity. Approximately 300 alumni seated in the Wisconsin section cheered their alma mater on to victory.

Illinois university was awarded second choice and Grinnell college received third mention.

Tone, enunciation, ensemble, interpretation, pitch and presence were all considered in determining the winner of the contest. The three judges were John A. Carpenter, D. A. Clippinger, and Karleton Hackett.

Contest Is First of Kind
This contest is the first of its kind to be undertaken in the West. It is conducted under the association of 12 glee clubs in the Middle West. The purpose of the association is to stimulate and improve male chorus singing at the colleges and universities of the Mississippi Valley.

The 12 colleges and universities represented at the contest were Purdue, Beloit, Millikin, Chicago, Grinnell, Amour, Northwestern, Illinois, Wabash, Iowa, Lake Forest and Wisconsin.

At the opening of the contest a chorus of all the clubs sang the national anthem. Robert C. Nethercut '24 gave two organ selections, "Sonata Movement," by Guilman and "Pilgrims Chorus," by Wagner. Nethercut also accompanied the club on the piano. Harry E. Carswell '23 is president of the organization.

DEPUTATION TEAMS TO VISIT NEAR-BY SCHOOLS

Deputation teams, each consisting of four university men, will make week-end trips during March and April to Elgin Military academy, Northwestern Military and Naval academy, St. John's Military academy, Neillsville, Walworth, Eau Claire, Janesville, Geneva and Rochester.

The objects sought are to present to high school men the religious, intellectual and physical development of a wholesome life, with an interpretation of the university at the place for that development.

Secretary Cockerall of the city Y. M. C. A. will give a coaching course to the men during the next four weeks on Tuesday evenings from 5:30 to 6:30. All expenses will be paid by the school receiving the men.

WEATHER: FAIR

Generally fair weather for today and tomorrow is the prediction for Madison and vicinity. The lowest temperature recorded yesterday was 5 degrees above at 7 o'clock. The maximum of 23.2 was reached at 4 o'clock.

Strom Takes First in Minneapolis Ski Event

Sverre Strom '24, took first prize in the event for college men at the tournament held yesterday at Minneapolis. A telegram received late last night gave the news of Strom's victory.

Strom has been the leading ski jumper in the university for two years and ranks well up with some of the best jumpers in the country. Two years ago he won the amateur championship of Illinois and has been adding to his laurels ever since.

He will compete in the national tourney today. The events run off today at Minneapolis were for college men primarily. Strom will return to Madison Monday and will be ready to enter the meet against Minnesota next Saturday.

LIST OF RIDERS IS ANNOUNCED

Winners Will Receive Silver Cups at Little International Show

Entries in the riding classes of the evening performance of the Wisconsin Little International Live Stock show that will be held at the stock pavilion February 24, were published by R. C. Klusendorf '23, chairman of the night show, yesterday.

Silver cups are to be awarded to the winners in all of the riding classes. In the Intersorority riding contest, keen competition is expected for the traveling silver cup that was won by the Chi Omega sorority, last year. Silver cups will also be given to the winners of the free-for-all five gaited, and the free-for-all three gaited classes.

Because of the fact that hundreds of high school students are expected at the night show, students are urged to order their tickets early. Tickets may be ordered by mail by enclosing a stamped self-addressed envelope together with the price of the tickets to H. C. Schaefer, Agricultural hall. Tickets are on sale at 75 cents and \$1.00 each.

The list of entries in the riding classes up to date, include:

Intersorority three gaited—Delta Delta Delta, Olivia Orth '24; Alpha Chi Omega, Alice Cockrell '23; Kappa Kappa Gamma, Pauline Ambrose '23; Chi Omega, Helen Callen '25; Alpha Phi, Anna Fox '25; Delta Gamma, Catherine Hastings '25; Gamma Phi Beta, Aileen Hall, '23; Pi Beta Phi, Ernestine Blatz '25.

Three gaited open class—Mary Wendnagel '24, Esther Dieter, Casper Swineholt, Chan Holt, Catherine Davis '25, Ruth Parkhill '23, F. S. Baker '25, J. P. Prindle '26, Constance Brewer '26.

Five gaited open class—Frances Bremley, J. P. Prindle, H. Broeckner, Mrs. Chan Holt, Alice Cockrell '26, Ralph Scheinflug '23, Vilas Hanks, John Suhr.

ENGINEERING SOCIETY INSTALLS OFFICERS

At the meeting of the student branch of the American Society of Mechanical Engineers, held Thursday night in the engineering auditorium, the following officers were installed: L. M. Johnson '23, chairman, A. F. Bowers '23, vice chairman, W. I. Senger '24, secretary, and J. L. Leonard '23, treasurer.

Mr. Cope of the Western Electric company gave a talk on "Engineering in the Future." Mr. Koehler, also of the Western Electric, spoke on "The Engineer's Environment and His Duties."

Editors of New Magazine Are Called Before Dean of Men

Editors of the Scorpion, the new publication which made its first appearance on the campus yesterday, have been summoned by the office of the dean of men to answer for starting a paper without the sanction of the faculty. No reason was given by the editors last night. Dean Goodnight did not make any statement as to the affair when questioned, but did confirm the report.

ALBERT KNOLLIN FORMER TRACK LUMINARY DEAD

Killed By Gas Engine Explosion

Albert Jason Knollin, Jr., '22, former track athlete was killed yesterday morning when a gasoline engine exploded at his farm, "Loma Vista," at Bethel, Kan., near Kansas City.

The meager details of the accident were telephoned by the mother to his sister, Mabel Knollin '25, yesterday afternoon, and she immediately left for her home. His father is in Idaho, and his mother was the only person on the farm at the time of the accident.

Graduated In June
Knollin was a member of Phi Kappa Sigma Klu Klux Klan, White Spades, Iron Cross, Star and Arrow, and Phi Kappa Phi. He was graduated last spring from the course in civil engineering.

On the cinder path he won three "W"s, and was captain of the track team last spring. At the Big Ten track meet in 1921, Knollin won the 120-yard high and the 220 low hurdles. In 1922 he won the high hurdles in 15 seconds flat, and finished fourth in the low hurdles. At the Penn relay last year he finished third, running against the holder of the world's record, Thompson of Dartmouth.

Was Hurdle Record Holder
He equalled the conference indoor high hurdle record at Northwestern last winter when he ran it in 6 4-5, tying the record of Carl Johnson of Michigan. Annex rec-

(Continued on Page 8)

ALPHA PI DELTA IS INSTALLED IN DELTA SIGMA PI

Thirty-one commerce men and 25 alumni were installed as Psi chapter of Delta Sigma Pi, international professional commerce fraternity, at the chapter house, 313 North Mills street, last night. A formal banquet at the Park hotel followed the ceremony. Psi chapter was for four years Alpha Pi Delta, local commerce fraternity.

Prof. Karl F. McMurry is an honorary member of the new fraternity. The active members initiated last night are John R. Degerstedt, Grad; Seniors—Orvin H. Anderson, Arthur H. Benson, Wilson M. Cross, Francis L. Cusick, Kurt M. Fox, Elmer Gesteland, John C. Gibson, Fred C. Greenwood, Wilbur J. Hever, Sidney J. Lang, Ernest R. McCartney, Arthur R. Miller, Peter R. Moeller, Herman Walther, Julius M. Wheeler, Kenneth G. Williams, Herbert L. Wolcott.

Juniors—Leo F. Dugan, William J. Frank, Manford C. Galby, Kenneth Kober, Albert J. McGlasson, Joseph C. Payne, Alfred Peterson, Otis H. Reyer, Edwin L. Schujan, William J. Webb, Archie R. Wiley.

Sophomores—Firman H. Haas, Daniele A. Kerth.

Delta Sigma Pi was founded November 7, 1907, at New York university. It is organized to foster the study of business, to encourage closer affiliation between students and the commercial world. There are chapters at New York, Northwestern, Boston, Marquette, Iowa, Kentucky, Detroit, Kansas, Pittsburgh, Georgetown, Ohio State, Vanderbilt, Michigan, Georgia, California, Georgia Tech, Utah, McGill, Southern California, Illinois, and Maryland. Speakers at the banquet were Henry G. Wright, Herman O. Walther, Harold P. Merry, Edmund E. McKune, Redding Putnam, and J. Lindley Williamson.

WISCONSIN WINS GLEE CLUB CONTEST

Cleveland Alumni of Big Ten Universities Give Banquet

Graduates of the universities comprising the Big Ten athletic conference living in Cleveland held a banquet and meeting last Friday night. Wisconsin has an organization of alumni in Cleveland. In many of the larger cities of the country organizations of Big Ten alumni are being made. The organization at Toledo announces a meeting to be held soon.

SOCIAL NOTES

Stuckey-Schmits

Announcement has just been made of the wedding of Elizabeth Stuckey, Rockford, Ill., to Raymond Schmits, Madison, which took place Thursday, February 8, at St. Peters church, Rockford, Ill.

Mrs. Schmits is a member of Kappa Alpha Theta and will be graduated from the university in June. Mr. Schmits is employed at the Hub Clothing company. He is a member of Delta Upsilon.

Students who went to Rockford to attend the wedding were Sophie Stieger, Elizabeth Sholes, Beatrice Turner, Grace Kellogg, Gertrude Collins, Katherine Kenn, Esther Lindstrom, Marjorie Boesch and Ellen Smith.

Miller-Wiese

Invitations have been issued for the wedding of Miss Ruth Miller, Chippewa Falls, and Mr. Lester Wiese which will take place February 12 at Chippewa Falls.

Both are former students of the university. Miss Miller is a member of Phi Omega Pi and Mr. Wiese is a Delta Chi.

Gamma Alpha Epsilon Entertains Today

Members of Gamma Alpha Epsilon, professional home economics sorority, will be at home for members of the home economics faculty from 3 to 6 o'clock this afternoon at the new chapter house, 1715 Kendall avenue.

Personal

Anne Alexander has gone to Chippewa Falls to be bridesmaid at the wedding of Miss Ruth Miller.

Irmegarde Foster is spending the weekend in Milwaukee.

Margaret Daly, Chicago, is a guest at the Gamma Pi Beta house. Miss Wilhelmina Tschudy, Monroe, is a guest of Marion Robison.

at the Chi Omega house.

Miss Mildred Miller, Markesan, has gone to her home after visiting at the Theta house.

Miss Marjorie Boesch, Burlington, Ia., and Miss Marjorie Todd, St. Louis, are guests at the Kappa Alpha Theta house.

Mrs. W. D. Plattenburg, Canton, Ill., is visiting her daughter, Virginia at the Kappa Kappa Gamma house.

Anita Langhoff is spending the week end in Milwaukee.

Mrs. Brownley, Detroit, Mich., is visiting her daughter, Frances at the Kappa house.

DIRECTS DRIVE FOR U. W. CLUB

ROBERT M. MCMYNN

RELIGIOUS LEADER TO TALK IN LOCAL CHURCH

Dr. Theodore M. Shipherd, social worker and moderator of the Wisconsin State Congregational conference, is one of the able preachers who will be heard in the special series of lectures between now and Easter at the First Congregational church.

Seven days in the week is the program of the many-sided community church that Doctor Shipherd has built up in Milwaukee. Thirty-five different social groups meet every week at Plymouth Congregational church, Milwaukee, which is a real community center.

Thousands of dollars are subscribed annually by people who are not members but feel that they and their children are benefitted. Girls' clubs, bowling and gymnasium classes, and similar activities are conducted by the church.

Dr. Shipherd will speak at 10:30 o'clock this morning at the First Congregational church.

APIS CLUB STUDENTS WILL GIVE PLAYLET

Interesting entertainment will be provided next Saturday evening in Agricultural hall, when the Apis club presents a playlet entitled, "Did You Ever Get Stung?" Beekeeping students have decided that in spite of the poet's, "How doth the little busy bee—", too few people know anything at all about how it doth. Accordingly they have arranged a program featuring the insect so noted for its industry.

The playlet was written by Geo. E. Marvin '23 and J. Forest Crawford '23, both of whom, with Walter A. Kuenzli '23, will take leading parts in its presentation. Besides the playlet, there will be movies and a short talk illustrated with lantern slides, by Harvey G. Ahrens, grad.

During the afternoon exhibits will be set up in the corridors, and before and after the program in the auditorium, demonstrations will be made of the process of extracting honey, and other operations the beekeeper performs. The Bee show, as it to be called, will last from 7:00 to 9:00 o'clock.

Expert on Mental Disorders Says Insanity is Increasing

If insanity continues to increase at the present rate the insane will be building asylums for the sane in 200 years according to Dr. A. A. Lowenthal, gland specialist and expert on mental disorders. 75 years ago records showed one case of insanity to every 500 persons; now

there is one to every 150 or 175 persons, Doctor Lowenthal claims. He advocates education of children against social diseases as a possible remedy for this situation.

Capital Candy Kitchen to Open Today in New Location

The Capitol candy kitchen which has been located at 19 North Pinckney street, will open today in its new quarters at 112 East Mifflin street. Matthew and Adams, the proprietors, promise a tasty stock. They make a specialty of packing their candy in boxes rather than in bags.

\$60,000 College Fire Destroys Reference Books

Hundreds of text and reference books were destroyed in a \$60,000 fire which occurred in the Carnegie building of William Jewell college, Liberty, Missouri, last week. The fire was said to have been caused by defective wiring.

BIGGER HOME FIELD FOR YANKS SHOULDN'T HANDICAP RUTH MUCH

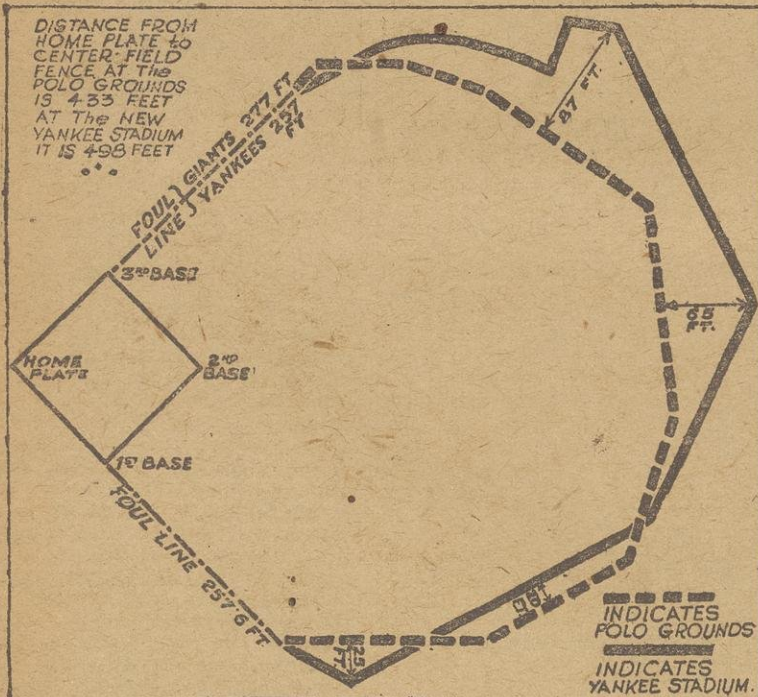

Diagram compares Polo Ground dimensions with those of Yankee's own park, now being completed.

The new home of the New York Yankees, nearing completion, has a playing field containing 20,000 more square feet in the fair playing territory than the Polo Grounds. In only one respect is it smaller than the Polo Grounds. The left field foul line is 20 feet shorter from home plate to the fence. The right field foul line is the same length on both fields, though, which means that Babe Ruth will not be handicapped in lifting them over the railing. The distance from home plate to the center field fence in the new Yank field is 63 feet greater than that in the Giant park, however, which will handicap Babe a bit when he poles 'em toward center.

NEWS OF CONFERENCE SPORTS

HAWKEYES TAKE FIRMER GRASP ON FIRST PLACE

Leaders in Title Race Win Again

CONFERENCE SCORES

Chicago 28, Minnesota 14.
Iowa 28, Northwestern 11.
Purdue 26, Ohio 21.

CONFERENCE STANDING

Team	W	L	Pct.
Iowa	7	0	1.000
Wisconsin	4	1	.800
Michigan	4	1	.800
Illinois	4	2	.667
Purdue	4	2	.667
Indiana	1	2	.333
Chicago	2	5	.286
Northwestern	2	5	.286
Ohio	1	6	.143
Minnesota	0	5	.000

Iowa's basketball quintet last night increased its hold upon the top notch in the Conference standing column by defeating the Northwestern team, 28 to 11, at Evanston.

Purdue, with a 26 to 21 victory over Ohio at Columbus, crept a notch higher in the team ratings and prevented the Buckeyes from advancing from their second from the last position.

Annexing its second win of the season from Minnesota at Chicago, 28 to 14, the Maroon team seems to have overcome its jinx and now is tied with Northwestern for seventh place.

Main interest in basketball now has shifted to the Wisconsin-Michigan contest next Wednesday night at Ann Arbor. The two quintets are tied for second place.

CHAIRMEN NAME BODIES TO LEAD RELIGIOUS MEET

Full committees for the annual campus religious conference which is to be held here March 2, 3, and 4 were announced yesterday by the respective chairmen serving on the executive committee.

Worth Shoults '23, is the general chairman, and Louise Moore '23 is the vice chairman, in charge of the women working.

The personnel of the committees will be as follows:

Arrangements: Allan Walter '24 and Helen Kingsford '24 chairmen; Elizabeth Stolte '25, Helen Haswell '24, Clara Hertzburg '25, George Gilland '24, Rudolph Noer '24, and Frederick Clapp '25.

Promotive forces: Gamber Tegtmeyer '24 chairman; Worth Shoults '23, Allan Walter '24, Henry Smith '25, George Gore '26, Paul Robertson '25, Cutr Sox, Walter Coutua '24, William Fronk '24.

Publicity: Walter Frautsche '24 and Frances Warren '24 chairmen; Gertrude Kehl '23, Helen Bauldauf '25, Fred Gustorf '26, Hampton Snell '25, Edward Wright '24, Edward Schele '25, John Weimer '25, Porter Butts '24.

House Addresses: Henry Smith '25 and Arlene Klug '24 chairmen; Janet Cherry '24, Anita Haven '24, Nina Ferris '24.

Music: William Fronk '24, and Beatrice Perham '24, chairmen; Oswald Krebs '24, Calvin Oakford '24, John Thompson '25, Bert Hopkins '24.

Commerce and Journalism to Be Four Year Courses at Ohio

The College of Commerce and Journalism at Ohio State university has been reorganized into a four-year course in accordance with a recommendation made by the administrative council composed of all the deans of the university and the board of trustees. The college was organized for a two-year course, with a prerequisite of two years in any college, but this was too brief a time to develop standards and interests essential in professional education according to Prof. James E. Hagerty, dean of the college.

Polo New Sport at Ohio State University
COLUMBUS, O., Feb. 10.—Polo will be introduced as a new sport at Ohio State university, with the improvement of the stadium recreation area. Early organization is promised by Major Edward C. Hanford, of the military department, who will coach the students. Major Hanford played at West Point and with the First Cavalry in Texas.

TANKMEN LOSE TO MINNESOTA

Badger Swimmers Trimmed By Gophers, 41-27; Feel Loss of Ewald

(Special to The Cardinal)
MINNEAPOLIS, Minn.—The Wisconsin swimming team was defeated by Minnesota tankmen in a meet held in the Gopher tank here last night, by a score of 41 to 27. The victory kept the slate of the Maroon and Gold swimmers clean. It was the first defeat of the season for the Badgers, who walloped Indiana in their initial start.

The Cardinal tanksters were hampered by the loss of Sterling D. Ewald '23, star performer in the dashes, who was declared ineligible the day before the meet.

Wisconsin's showing was due chiefly to the work of Captain Johnny Bennett, who came through as expected with a majority of the points garnered by Steinauer's aggregation.

SENIOR WOMEN STILL NEEDED FOR BASEBALL

Seniors are still needed for the women's class baseball teams, as only seven have come out for the sport. Unless others sign up the seniors will have to play through the inter-class baseball tournament short of players, putting them at a great handicap and losing the possibility of points for the all year championship.

Squads are to be picked in all the classes in baseball the end of this week, and the regular teams will be announced the early part of March.

Freshmen women are also needed, as there are not many out and a few are being declared ineligible.

Northwestern to Have Student Skating Rink

One of the best outdoor student skating rinks in the Big Ten Conference is soon to be opened by Northwestern university. An outdoor 220 yard track will encircle the rink.

No arrangements have been made yet for skating races. The purpose is to provide facilities for all students in the university.

Foster Will Speak to First Baptist Students This A. M.

Dr. Allyn K. Foster, Baptist national student secretary, will speak Sunday morning at 9:45 at the First Baptist church to all students and their friends. The subject is religion and academic studies. At 6:30 o'clock he will talk to the Christian Endeavor on "The Treatise of Prayer." At 7:30 at the church service he will speak upon "Science and Religion."

Alumnus to Address Presbyterian Meeting

Moses Breese, a university alumnus, will be the speaker at a free banquet for Presbyterian students and their friends, to be held at 6 o'clock Thursday in Lathrop hall. Miss Jones, in charge of the headquarters, will preside at the meeting. Tickets may be obtained by calling for them at the student headquarters on State street.

Students Discuss Economic Basis of Education Views

At the student conference recently held at Hartsdale, N. Y., students discussed the economic basis of education and their responsibility in view of it, on the basis of their own experience and of the critically examined evidence of others. This conference was brought about through the National Student forum. Four similar conferences are being planned by the students of Swarthmore, Oberlin, Chicago, and Reed College at Portland, Oregon.

GOPHER HOCKEY SQUAD IS HELD TO A 1 TO 1 SCORE

Overtime Periods Are Scoreless

Demonstrating form and ability which puts in the shade all previous performances, Wisconsin held the championship Minnesota hockey team to a tie yesterday in the second game played between the two teams.

The final whistle sounded with the two teams fighting to break a 1-1 tie and two overtime periods of five minutes each were played without a score being made.

The tie is almost equal to a defeat for the Gophers, for until they came to Madison they had been neither beaten nor scored upon.

Badgers Show up Better
Minnesota played with their full strength and while their play was not as flashy as it was on Friday it was up to standard. The tie result of the game was brought about by the superior playing of the Badgers who played the best game ever put up by a Wisconsin team since the innovation of the game here.

The first third ended with a no-score count and the Badger team was playing a hard game which was unbeatable. Both counts came early in the second period with Wisconsin scoring within the first few minutes after the period started. The point was scored on straight hockey when the Badger forwards worked the puck to within a few yards of the goal and Combacker, Wisconsin center, shot it into the net.

Minnesota Scores
Minnesota scored later in the period when Swanson shot the puck into the net on a close-in shot.

The work of Bross and Bartlett, Minnesota forwards, again featured the game. The men are fast and have an uncanny ability to keep control of the puck.

The work of every Wisconsin man was commendable, but Capt. Combacker's work stood out again as it did in the game Friday. Fiske, Badger wingman, played an aggressive game which was responsible for breaking up many plays which might have turned into success.

Play at Minneapolis Soon
Wisconsin will have another chance to win from the Minnesotans when the squad travels to Minneapolis for a series of two games in two weeks.

The line-up and the summary follow:

Minnesota	Position	Wisconsin
Graham	Goal	Tredwell
Jacobson	R. D.	Mokrejs
Wiatt	L. D.	Blodgett
Bartlett	R. W.	Fiske
Swanson	L. D.	Johnson
Bros	C. Combacker, capt.	

Spares: Minnesota—Higgins for Jacobson, DeForest for Swanson, Mann for Bross. Wisconsin—Vonceleski for Fiske.

Goals: Minnesota—Swanson; Wisconsin—Combacker. Referee, Smith, Milwaukee.

JUDGE ROSENBERRY TO GIVE TALK AT Y. M. C. A.

This will be a full day at the Y. M. C. A. Frederick A. Wolfe, secretary, says that a lecture of much value is in store for the short course students, when Judge Marvin B. Rosenberry of the Wisconsin Supreme court addresses them at 9 o'clock this morning in Agricultural hall. A discussion will follow the address. The subject for discussion will be "Reformation in Germany." This is the first of a series of discussions to be held from today until Easter concerning the reformation with regard to religion. At 5 o'clock Mr. Wolfe will meet representatives of the various foreign countries represented on the campus.

Social Science Club Will Hear Prof. Dawson Today

Prof. Percy Dawson will speak before the Social Science club at 3 o'clock this afternoon in Lathrop hall on his experiences and observations in his recent trip through the southern and eastern parts of the United States. Officers for the second semester will be elected.

Schools Disagree Over Course For Crew Race

Four eastern universities whose crews have annually competed on the Hudson river over the Poughkeepsie course, are deadlocked in a controversy regarding a change to be made in the length of the course. Penn and Cornell favor retaining the old three-mile course, and Columbia and Syracuse have voted in favor of a four-mile sweep. The university of Washington, which last year sent a crew to compete in the annual Poughkeepsie regatta, sides with Penn and Cornell in the matter, but is not a member of the association promoting the annual classic.

"Dad" Vail, rowing coach here, said last night that he heartily favors retaining the three-mile course. "It is difficult enough for a professional oarsman to row the three miles, and for an amateur it is worse," he declared. "If the four-mile course is adopted as proposed the amateur oarsmen will have a hard time of it. For this reason I heartily approve of the course now in use."

GYM TEAM WINS AT MILWAUKEE

Badger Squad Beats Cream City Y. M. C. A. 360 to 347

Wisconsin's gymnastics team added another win to its string of victories last night by defeating the Milwaukee Y. M. C. A. by a score of 360 to 347. All of the events were closely contested, each team taking a good share of firsts. The Badgers' strength lay in the seconds and thirds.

Wisconsin made a clean sweep in the fencing matches and piled up counters in the side horse event while Milwaukee scored heavily in the horizontal bars and the flying rings.

The summary of the events is as follows:

Horizontal bars—Zarse, Milwaukee, first; Milmont, Milwaukee, and Schmidt, Wisconsin, tied for second.

Side horse—Hansen, Wisconsin, first; Stevens and Bumer, Wisconsin, and Reeder and Wilmont, Milwaukee, tied for second.

Flying rings—Walsh and Zarnow, Milwaukee, tied for first and second; Porth, Wisconsin, third.

Parallel bars—Sears, Milwaukee, first; Porth, Schmidt and Kubosel, Wisconsin tied for second.

Tumbling—Kitchen, Wisconsin, first; Kasper, Milwaukee, and Kubosch, Wisconsin, tied for second.

Fencing—Thompson and Reinhold, Wisconsin, each won matches from Olson and Toussaint, Milwaukee.

MARINE ELEVEN MEETS MICHIGAN NEXT FALL

Through the efforts of Edwin C. Denby, secretary of the navy, a football game between Michigan and the United States Marine team of Quantico, Va. has been arranged at Ann Arbor on Nov. 10 according to Fielding H. Yost, Wolverine director.

This will make Michigan's seventh game for 1923, and unless the eight-game schedule is granted by the Western conference, the team will open its season at Ann Arbor on Oct. 23 with Vanderbilt. If eight games are allowed, Michigan will meet Case Technical school at Ann Arbor on Oct. 6.

Secretary Denby is a graduate of Michigan and was a football star in his undergraduate days, playing center on the team of '96 which lost only one game during the season.

Y. W. C. A. Sends Out Yearly Messages to 100 Alumni

More than 100 letters have been sent out from the Y. W. C. A. office during the past week to alumni who were active in Y. W. C. A. work while they attended the university. The letters contain a report of the work for the year and a personal message from friends in school. Letters are sent out annually to keep in touch with the alumni and to conduct the alumni drive for funds. Helen Smallshaw '23 is chairman of the committee in charge.

BADGER MATMEN TAKE TILT FROM GOPHERS' TEAM

Wrestlers Beat Minnesota in Match

Winning by the wide margin of 24 to 8, the Wisconsin wrestling team took Minnesota by surprise last night in the dual conference meet held here. It is the first time in eight years that a Badger wrestling team has humbled the Gophers.

By this victory Wisconsin remains in a tie for first place in the conference with Ames, Ohio, and Iowa. It is the second defeat of the season for Minnesota.

The Cardinal grapplers took five of the seven bouts, lost one, and the other resulted in a draw. Considering the fact that the Wisconsin team had two regulars out of the tourney, this win seems more significant of the Badger strength.

Hembre and Brown Draw

The feature match of the evening was the draw bout between Captain Brown of Minnesota and Hembre. It was an even fight throughout and neither man could get an advantage in the two three-minute overtime periods. Captain Templin took it easy with his man Catanzaro, getting a fall from him at eleven minutes, after punishing the Gopher a great deal.

Oster, the Minnesota football man did not participate as he is not wrestling now, but Bieberstein, Wisconsin guard, won a hard go from Clapp by a decision. Suzuki, Wisconsin Japanese wrestler, who worked in the place of Phelps in the light weight class, took a quick fall from Babcock in four minutes.

Badgers Lose One Match

Shakel, wrestling for Holmes in the 135 pound class, was the only Wisconsin man to lose. This was his first conference competition and he made his man go eight minutes before allowing him a fall. Benbow and Leahy had a nice friendly bout in which the former was awarded a well earned decision. Heuer had a fast set-to with Porzadek but gained a fall in nine minutes.

Summary:
115 pound class, Suzuki (Wis.) won from Babcock (Minn.) in 4 minutes.

125 pounds, Benbow (Wis.) won from Leahy (Minn.) by decision.

135 pounds, Halvorson (Minn.) won from Shakel (Wis.) in 8 minutes.

145 pounds, Brown (Minn.) and Hembre (Wis.) draw bout.

158 pounds, Heuer (Wis.) won from Porzadek (Minn.) in 9 minutes.

175 pounds, Templin (Wis.) won from Catanzaro (Minn.) in 11 minutes.

Heavyweight, Bieberstein (Wis.) won from Clapp (Minn.) by decision.

Referee—G. M. Pinneo.

\$30,000 Raised By Wisconsin For Colleges in the Orient

Between \$30,000 and \$40,000 of the national fund of \$2,000,000 for the Women's Union Christian Colleges of the Orient has been raised in the state of Wisconsin.

The organization has asked the Laura Spellman Rockefeller foundation for the \$1,000,000 with which it has agreed to match twice that sum raised for the enterprise.

In Wisconsin the drive was conducted exclusively by women, and there were no paid workers, voluntary cooperation having been employed. The money was raised in mass meetings and in smaller gatherings, 33 of which were dinner or luncheon meetings attended by between 200 and 400 women.

City Presbyterian Churches Visit Student Headquarters

More than 100 members of Westminster, Christ and Parkside Presbyterian churches were entertained at a reception at the Presbyterian student headquarters Thursday evening from 8 to 10 o'clock. The purpose of the reception was to enable the city members to become acquainted at the headquarters and gain a knowledge of the work being done among the students.

IN MEMORIAM:

ALBERT JASON KNOLLIN

It was with profound regret that we learned yesterday of the death of Albert Jason Knollin, Jr.

Wisconsin manhood has been nowhere better exemplified than in Al Knollin and his will be a loss keenly felt among the ever increasing numbers of Badger alumni.

There is perhaps no greater tragedy in life than the premature death of a young man of promise, a man acknowledged to be a 100 per cent man, physically, mentally and morally.

Al Knollin, during his all too brief span of life, was the true embodiment of Wisconsin spirit and ideals. What a pity that death should claim him before he was given a fair chance to show the true worth of a Wisconsin man.

The Cardinal extends heartfelt sympathy to his family, his fraternity and his many friends.

His death leaves a place that will not soon be filled. May his memory be cherished ever.

PLAYTIME

Yesterday was playtime.

Wintry blasts and a light pelting snow failed to interfere with the success of the annual Ice carnival.

Large crowds thronged to the brilliant university event, a fitting culmination of Madison's extensive Winter Sports week.

Genuine enjoyment in the greatest of all play-grounds—the incomparable outdoors of Wisconsin—was apparent on every hand.

Such intermingling is mutually beneficial and is to be commended. The form which it took is a healthful, wholesome one.

The value of winter sports at Wisconsin was demonstrated strikingly yesterday, if never before. The future success of similar events is assured.

ANOTHER VICTORY

Although it was not a Conference football championship that the

Glee club brought back from Chicago yesterday, its victory over clubs from 12 middle western organizations is significant.

That the Badger club was awarded highest honors proves conclusively that Wisconsin excels in other extra-curricular activities than athletics and that all emphasis here is not placed on sports.

Director E. Earle Swinney is to be congratulated upon his able direction. Members may well feel proud of their achievement. Wisconsin recognizes them as leaders in their field.

May their success be repeated next month in New York when they compete with the winner to be selected from among the eastern colleges.

TRY AGAIN

Advocates of a deferred fraternity rushing season should not be disheartened by the negative vote given their plan at the last meeting of the Interfraternity council.

Rather should efforts be made to revamp the proposal in such a manner as to make it acceptable to all men's Greek Letter societies.

Arrangements should be perfected whereby the advantages of a deferred system may be presented in detail at the various chapter meetings tomorrow night.

Too often the council delegate, when he casts his ballot, expresses only his own personal opinion and not that of the chapter he represents.

Let every fraternity reconsider the issue at length and instruct its representative as to how to vote at the next council meeting, Tuesday night.

The plan has succeeded admirably at other institutions. It certainly deserves a trial here, if nothing more.

WITH THE PUCKSTERS

Consistent playing on the part of the hockey team was rewarded yesterday in its second game with Minnesota when the encounter ended in a 1 to 1 tie.

Although perhaps not as satisfactory as would have been a win, yet there was rightfully evident a feeling of a moral victory, for it was the first time the puck had been driven over the Gophers' goal line.

THE N. G. W. these days

IS putting out

SUCH a large seventh

DAY edition that

WE feel it our

DUTY to digest it

FOR you here!!!

MEMORY TESTS

1. How long has Shorty Barr been at the university? Long enough to find out that he'll have to stay longer.

2. Who won the hockey match yesterday, score Wisconsin 1, Minnesota 1? Wisconsin.

3. Who won the Ice carnival yesterday? Madison.

4. Why do lazy students get up early? So they'll have longer to loaf.

EMBARASSING MOMENTS

Mine was when Walt Camp picked me as all-American tackle. I was walking down King street destination when something brushed against my left calf. It was Campie. "How are y' Ralfie?" he muttered. "Fine; never felt worse, Wallie," I smiled, dropping my eyes and two steins. "Well, you're IT," he cried, as he showed both his teeth smilingly. You can imagine my embarrassment.

\$1,000,000,000 MOVIE CONTEST

Here is a picture of a famous movie actress. Take a dull pair of scissors, cut along the dotted line and try and guess who it is. Hint: She is a famous vamp, is married, was born in Egypt, and likes Whitman's chocolates (adv.). Her first name begins with the twentieth letter in the alphabet, is five letters long and ends with the first letter in the alphabet. If she had a brother named Paul, he might be expected to assist at funerals. Dou you think we mean Theda Bara?

TRIBBY.

Latin Students Present Plautus

An interesting session was held by Latin students two days ago in a rather unusual place.

Friday evening down in the billiard room of the University club building the students of Prof. G. C. Fiske, of the Latin department, repeated the unique performance of two scenes of the Mastellaria of Plautus. The scenes had been translated by junior, senior and graduate pupils of Professor Fiske and acted by them in costumes for the entertainment of his freshman class.

The play is a comedy of manners and ghosts. A young Athenian who has fallen in love with a slave borrows money, during the absence of his father, to purchase her freedom.

At a gay supper party held by the son, his friend and two charming slaves, the sudden return of his father is announced. The slave guardian of the young man is in sore straits and, to save the young people from the old man's wrath, he informs the father that the house is haunted. The frightened father leaves precipitously.

The first scene acted by the group presented the slave girl making her preparations to meet her lover. The second showed the supper party. So universal human is the play that the slight changes into the modern vernacular made Plautus present a quite modern type of young woman in the freed slave.

The scenes will be given a third time this afternoon in a private performance at the University Women's club building at the corner of Carroll and Gilman streets.

At Local Playhouses This Week

By S. H. E.

There seems to be nothing exceptional booked at the Madison theaters for the coming week. After having made the rounds of the show houses we find that the managers are, as usual, enthusiastic about their forthcoming productions without, perhaps, just cause.

For the first part of the week the Orpheum is featuring a musical comedy playlet, "The Happy Medium," which does not promise anything extraordinary. Al G. Moore's United States Jazz band, which will be the headline number the second half, will doubtless tickle the feet of dancing patrons.

Mae Murray, with her vivacious ways and winsome wiles, will star at the Parkway the first part of the week. It is an impossible picture as far as plot is concerned, but the dance queen of the movies doesn't need a plot to make pictures hit the mark. The Parkway is the first play-house to obtain this film and it will not be shown again in the country until sometime in March.

A newspaper story is the subject of the picture at the Parkway for the rest of the week. It is the tale of a social feud which ends in quite a surprise.

"Kick In," which comes to the Majestic for the entire week, is the screen version of the crook play which was so popular some years ago. We will let the cast speak for the production, for it includes Betty Compson, May MacAvoy, Bert Lytell and Gareth Hughes.

A comedy built around superstitions—sounds conventional, doesn't it—is the feature at the Strand for the first three days of the week. We are able to recommend the program for the remainder of the week. Norma Talmadge in the high class society drama, "The Voice From the Minaret," quite reaches the acme of her work. The play itself doesn't amount to much.

Infirmity Visitors Are

Temporarily Prohibited

Owing to the present number of ailments being suffered by students in the infirmary, a rule as been passed which prohibits visiting of the patients by outsiders.

It is not known how long this rule will be in force, but is will probably be lifted as soon as the present wave of sickness subsides.

Yesterday there were 70 students at the infirmary. This is higher than the average number. One other day last week there were 89 patients. The infirmary is crowded and cots are being placed in the halls.

Origin Of Earth Theory Made By Sixth President

Chamberlin Continues Theological Work at Age of 80

By ELIOT H. SHARP

Thomas Chrowder Chamberlin, the sixth president of the University of Wisconsin and now emeritus professor of geology at the University of Chicago, was the chief figure at Wisconsin during the transition period of the institution when it was changing from a small place of learning, almost a college, into a large university.

President Chamberlin was practically a native of the State. He was born not far from its borders at Mattoon, Ill., in 1843. After graduating from Beloit in 1866, he served two years as professor of natural science at the State Normal school at Whitewater. He received his degree of doctor of philosophy from both Michigan and Wisconsin in 1882, at the close of his professorship of geology at Beloit.

He succeeded President Bascom in 1887 and for five years was the chief administrator at this university. Although his principal interests were scientific, he seemed to have, by nature, the university instinct. He accepted every opportunity that presented itself to be connected with institutions of learning.

Edited Geological Survey

At the age of 33 he was appointed chief geologist of the State in which capacity he edited the Geology of Wisconsin in four large volumes. But he became dissatisfied and joined the instructional staff of the University of Chicago.

President Chamberlain's relatives to the student body and the public often seemed rather distant and impersonal. Sentiment was absolutely lacking in his character. To those who knew him intimately, however, his softer nature and intellectual ardor appeared.

This character of the president brought out a new academic dignity. Because of it, Bascom's personal excuse system was abandoned, police were brought onto the campus to prevent hazing and other changes were made which tended to make for a larger and more impersonal institution.

Organized Group of Scientists

Perhaps one of the greatest feats ever achieved by any scientist is attributable to President Chamberlin. It was he who organized a body of scientific men—chemists, physicists, astronomers, mathematicians, geologists—to work out a theory on the origin of the earth. The team-work of these men for which he as chairman of the group was responsible, was an achievement which is amazing.

The hypothesis which these scientists worked out supplanted the older nebular theory of the origin of the earth. It is conceded by many to be the most widely accepted hypothesis for the origin of the earth.

Studied Swiss Glaciers

President Chamberlin made quite an extensive study of the glaciers in Switzerland. At different times he has been consulting geologist of the United States Geological Survey, geologist in charge of glacial divisions, and geologist for the Peary Relief expedition.

Although he is practically blind now, he is still carrying on his work. An entertaining and interesting conversationalist, one of the greatest scientists ever connected with the University of Wisconsin and an eminent educator, Thomas Chrowder Chamberlin is still carrying on at the age of 80 years.

Madison Theater's Sign Causes M. C. Train Delay

While number 5 train on the Michigan Central waited 10 minutes over-time at Battlereck, Mich. baggage men tugged and pulled at a huge crate containing the 25-foot sign for the New Madison theater in a vain effort to get it through the door into the baggage car. The engineer finally grew impatient and, with a toot of his whistle, pulled out of the Battlereck station. The sign had been left on the platform to await a train carrying a larger baggage car. It arrived in Madison a few days ago and will soon be erected in place above the canopy of the new theater.

Summer Session Faculty Lists Are Made Public

(Continued from page 1)

which ten courses including lectures on Greek art will be given.

Professor Boucher, of the History department, who has taken Carl Russel Fish's place this semester, will continue to lecture in history. Another lecturer in history for the summer session will be Professor Knipping, of the University of Ohio.

Miss Johnston, and Mr. Graham, both state supervisors of the Wisconsin state board of education, are two of the lecturers who have been secured for the course in Industrial Education and Applied arts.

Other lecturers are:

Schmidt, State supervisor of High Schools and Manual arts of the Wisconsin State department of Public Instruction, and Mrs. Turner, Research assistant of the Wisconsin State board of education. The courses in Industrial Education and Applied Arts, are divided into three parts. They are: Manual and Industrial Arts, Drawing, Painting, Design, and Craft Work, and Industrial Education.

Prof. G. M. Hyde, Assistant Prof. E. M. Johnson, and lecturer Radder, will give the seven or eight courses offered in Journalism.

In the speech courses Associate Prof. Blanton, who has recently returned from Europe, will be one of the instructors. The lecturers include, Miss Camp, Wisconsin State department of Public Instruction; Mrs. Hunt, Wellesly College; Merry, of the University of Iowa; Pichel of the University of California, and Miss Dwyer of the Madison Public schools.

Extensive courses under well-known professors will also be offered in Botany, Economics, German, Mathematics, Music, Physical education and many others. There will be only one course in Meteorology; Climate and Man, under Lecturer Miller.

Because there are as a rule fewer students who are pursuing technical courses in summer school than there are during the regular sessions, conditions for students wishing to carry forward professional work are exceptionally advantageous. The facilities such as laboratories, libraries, shops etc., which those who are in technical work use, are less crowded and opportunities for undisturbed work are better in summer school, than at any other time.

Many of the regular courses in the Medical school, and the Colleges of Engineering and Agriculture will be given.

In the Law school, Lecturer Perkins of the University of Iowa has been secured.

Miss Carol Rice to Talk at Vespers Meeting Monday

Vespers will meet at 4:30 o'clock today in Lathrop parlors. Miss Carol Rice of the physical education department will be in charge of Marian Metcalf '24. Tea is to be served at 5:15 o'clock.

ONCE REJECTED NOW IS INSURED FOR ONE MILLION

Jay C. Hills.

Thirty-two years ago Jay C. Hills, now millionaire president of the Peck and Hills Furniture Co., of Chicago, was refused a \$1,000 life insurance policy because of physical disability. Now he has just taken out his last policy bringing his total insurance to \$1,000,000.

AIR MAIL SERVICE GETS COLLIER TROPHY FOR GREATEST AVIATION ACHIEVEMENT

Postmaster General Work shaking hands with Dr. George W. Lewis.

The National Aeronautic Association recently awarded the Air Mail Service the Collier trophy for the greatest achievement demonstrated in the use of aviation in America for the year of 1922. The presentation took place at Bolling Field, Washington, by Dr. George W. Lewis. Dr. Hubert Work, postmaster general, accepted the trophy. The donors flew from New York with "Slim" Lewis.

TOBACCO POOL TO BE TESTED

Courts to Determine Legality of Contracts of Members

Whether or not the Northern Wisconsin Cooperative Tobacco pool can legally make contracts with farmers for their entire tobacco crop for five years, and whether or not the tobacco pool is constitutionally legal, will be determined by a trial in Circuit court before Judge E. Ray Stevens beginning Feb. 19, it was decided following a preliminary hearing in Circuit court yesterday afternoon.

Continuance of the temporary restraining order granted the pool by Judge Stevens a week ago enjoining the tobacco firm of M. H. Bekkedal from soliciting tobacco from members of the pool, was ordered by the judge yesterday.

The trial will determine whether or not the independent buyers have the right to purchase tobacco from members of the pool regardless of whether or not they are under contract to deliver exclusively to the pool, and whether or not the permanent injunction will be granted the tobacco organization.

Bekkedal started the suit when he was ordered to restrain from purchasing tobacco leaf from members of pool on a charge of conspiring to defeat the purposes of that organization. He rests his argument on the allegation that the pool did not become effective June 30, as was supposed, because the pool did not have the 75 per cent of the growers signed up. The contracts signed by the farmers state on their face that the pool shall become effective only when 75 per cent of the growers have been signed.

Notices that the 75 per cent of the growers had been signed were sent to the farmers in August by officers of the pool who declared that the total tobacco acreage in the state was only 44,994 acres, and that 34,227 acres were signed into the organization.

That there are more than 44,994 acres of tobacco grown in this state and that only 52 per cent of the total acreage has been signed is the argument of the Bekkedal tobacco firm through their attorneys, Walter D. Corrigan and W. H. Whyte of Milwaukee.

That the pool is unconstitutional because it restrains and stifles trade is another argument of the defendant, Bekkedal. Exemption from the anti-trust laws is claimed by the pool because it has no capital stock.

FRENCH ARMIES BAR CUNO FROM RUHR DISTRICT

PARIS—German cabinet ministers hereafter will be barred from the Ruhr by the Franco-Belgian forces. Premier Poincare of France and Foreign Minister Jaspar of Belgium sent a brief note to the German ambassadors in Paris and Brussels. The note reads: "The Belgian and French governments have established that the visit of Chancellor Cuno in the Ruhr region and the action he took there had for its sole object and really resulted in the provoking of a dangerous state of excitement, particularly among the big industrial leaders, chief functionaries and government employees. The French and Belgian governments, anxious to avoid disorders that might become sanguinary, find it necessary to inform the government of the Reich that the ministers of the Reich and of the German states no longer will be authorized to enter the Ruhr."

WOMAN PHARMACIST ELECTED HEAD OF STATE ASSOCIATION

Miss Marie A. Piesinger.

Miss Marie A. Piesinger of New Prague, Minn., has just been elected president of the state board of pharmacy. She is the first woman in the United States to be selected for such a position.

By Gone Events

THIRTY YEARS AGO TODAY.

Mr. Carroll of Chicago, noted engineer, lectured yesterday to the engineers on the municipal control of electrical plants.

Statement reads, "Miss Olivia Fulton '95, is slightly under the weather."

There were a number of students present at the assembly hall, which was held at Kehl's hall last night.

TWENTY YEARS AGO TODAY

The University Circus to be held in the Gym on March 7, promises to outclass all previous ones. The gym teams have been in training for a long time. Dr. Elsom went to Milwaukee this morning to secure costumes.

Prom decorations are gorgeous. Draperies of green and white, with brilliant electrical displays transform the gym.

TEN YEARS AGO TODAY

Capt. Roald Amundson, discoverer of the Northwestern passage,

and of the South pole, told of his adventures, last night.

Many contests have been planned for the opening of the second outdoor carnival next Saturday.

Erwin Gehrke, last of star trio of pitchers of Harvard's baseball team of last season, was granted a leave of absence Thursday until the fall. Gehrke plans to enter business at Cambridge, but intends to return to college in time to play football.

MAUDE ROYDEN COMES FRIDAY

Will Speak Under the Auspices
of Several Organi-
zations

Maude Royden's address at the national Y. W. C. A. convention last year was so inspirational and worth while that united effort has been made to bring her to Madison Friday night, according to Miss Mary Anderson, general secretary of the Y. W. C. A.

Miss Royden will speak in Lathrop hall under the auspices of the university, the Campus Religious council, the Y. W. C. A. and Y. M. C. A. and the city Y. W. C. A., all expenses being borne by these organizations. As a consequence her address will be free to the public.

Maude Royden, who has been many times proclaimed the "Jane Addams of England," has had a varied and remarkable career. Born into British aristocracy 46 years ago as the daughter of the late Sir Thomas Royden, she lived a life of ease and luxury until her graduation from Oxford university when she went into the slums of London as a member of the University settlement.

Her health breaking down a year later, she took up mission work in a country parish and was so successful as a speaker and producer of Shakespearean plays for her community that she was appointed to the Oxford Extension university as a lecturer, the first woman so named.

When the war was in progress she was named assistant rector of City Temple London, by Rev. Joseph Fort Newton, an American. Here she preached two years, resigning when Reverend Newton left. Since then she has been preaching in Guildhouse, London, and last fall came to this country for a short lecture tour.

Miss Royden will speak on "Can We Set the World in Order?" reviewing world events and giving a message for the future. In the east where she has already appeared she is greeted by capacity audiences.

RECORD CLASS TO GRADUATE AT OHIO STATE

COLUMBUS, Ohio.—Fully 150 more seniors will receive degrees from Ohio State university in June than a year ago, when 1186 students, a record class, completed courses, according to indications at the office of the registrar.

Seniors numbering 1345 are candidates for degrees in June at the end of the first quarter of the first year under the new four-year plan which has supplanted the former two-semester system.

As usual, the College of Arts, Philosophy and Science, which had an enrollment of 2871 during the quarter last ended, has the largest number of seniors. Enrollment in all colleges has reached 3843 for the year, including a summer session enrollment of 1942. Of 7914 students in all colleges during the fall quarter, 5708 were men and 2206 women.

Next in size after the arts college is engineering, with 1389 students, followed by agriculture with 960, education 713, commerce and journalism 487, graduate school 335, medicine 312, pharmacy 263, law 232, dentistry 171, arts-education 102, veterinary medicine 70, applied optics 43, and three-year agriculture 43.

SPIRIT OF MARDI GRAS HEADS NEW ORPH BILL

No act was every better received at the Orpheum than the "Spirit of Mardi Gras" appearing for a limited engagement two seasons ago. The management of the popular vaudeville theater is pleased to announce that this colorful and tuneful revue has again been secured for the first four days of the week, starting tomorrow.

Dick Fitzgerald and Jack Carroll are a pair of rollicking fun making comedians whose every move and gesture is laugh compelling, whose songs, parodies and patter are more than funny.

A real vaudeville novelty, one that will appeal to the children particularly, but which will be equally interesting to grown ups, will be staged by Paul Rahn and company. Attired as two birds, one an owl, another a chicken, Mr. Rahn and his fair partner will demonstrate their ability as versatile actors.

FETCHING SWEATERS AND HATS FOR LATE SPRING

Sweaters are no longer the drudges of the costume. They have burst forth this season with all the beauty and variety of the costume blouse. In fact they are costume sweaters and belong in the costume wardrobe of the sportswoman. The new sweater is an ornamental garment

which has little to do with sports except to appear on the side lines to watch. Blue silk embroidered in red, blue, green and tan makes the elaborate model at the right. Three smart looks are shown here for wear with the popular sweater costume. Tan straw trimmed with pleated rib-

bon in the same shade is shown at the left, green straw trimmed with apricot taffeta facing and ribbon flowers of green and apricot shades makes the little helmet shape in the center and blue straw with fluted rib edging; the brim makes the larger shape at the right.

1,806 WOMEN REGISTER IN PHYSICAL EDUCATION

The largest enrollments for women's winter sports ever reached here in the women's physical edu-

FAD FOR KNITTED SPORTS FROCK IS STEADILY GROWING

The new sports dress for golf and other outdoor games is knitted if it is fashionable. It may be a one or two piece frock but it must be knitted. This costume shows a smart knitted skirt with an odd design forming stripes and a border. The sweater blouse to match shows only the border.

cation department were announced by the department yesterday.

A total of 1806 women were registered at the beginning of the winter season this year. Of this number there were 795 freshmen, 613 sophomores, 398 upper classmen, and 151 physical education majors.

The individual sports show remarkably large rollcalls. In order

they are: gymnastics 631, bowling, 339, dancing 365, swimming 311, basketball 286, folk dancing 252, corrective department 227 baseball 148, light gymnastics 97, skiing and skating 67, horseback riding 51, rest gym 48, indoor golf 30.

The winter season lasts until Friday, March 31, after which there will be another period of registration for the spring sports. The number in the women's gym work has increased rapidly every year since the department was organized.

Twenty Bakers Attend Short Course at Iowa

Twenty commercial bakers enrolled for three weeks' baking instruction at the annual bakers' short course at Iowa State College this week.

The course is open to both women and men. Two of the bakers in attendance are from out of the state, one from New York City and the other from Battle Creek, Mich.

Demonstrations and lectures are being given for the bakers each day in the Chemistry building.

FIRE FORCES STUDENTS TO LEAVE RED MILL

The fire in the Red Mill yesterday morning has sent over half the girls to other dormitory quarters. Although repairs will be started Monday it is not expected that the rooms can be made ready for occupancy before the last of the month, Mrs. Finney, chaperone, stated yesterday.

The rooms were flooded from the fourth floor to the basement, and it will be necessary to replaster the entire building. Insurance of \$15,000 on the house and \$500 on the furniture will probably cover the loss, which has not yet been determined.

Considerable loss was suffered by the girls in several cases and none of this is covered by insurance. Men from nearby fraternity houses aided the girls in saving most of their personal property. The fire was caused by large flakes of soft coal soot igniting the shingle roof.

Azatalan, the ancient Indian village near Lake Mills was recently converted into a state park by the Wisconsin Archeological society.

URGE CLEAN UP OF TUBERCULOSIS AMONG CATTLE

A state-wide clean up of bovine tuberculosis, centered first in the counties where the production of milk is the greatest, is called for in a bill by Sen. John C. Schumann, Watertown, to be heard by the senate state affairs committee on Thursday, Feb. 15. An appropriation of \$1,000,000 annually is carried in the measure.

Application of the plan of eradication contained in the bill will drive tuberculosis out of Wisconsin dairy herds in five years, Senator Schumann says. The result will be a great decrease in human tuberculosis and an unprecedented boost to Wisconsin dairying, he believes.

Efforts of the state department of agriculture are to be concentrated upon a state-wide cleanup over a five year period. An annual appropriation of \$100,000 for testing and \$900,000 for indemnities is provided. This includes \$250,000 to indemnify cattle tested by veterinarians.

New Equipment Added To Office of Y. W. C. A.

Addition of new features and a general rearrangement of the Y. W. C. A. office will make it even more than ever the service shop and meeting place for university women, according to Miss Mary Anderson, secretary.

New curtains of blue and tan rep at the windows, a new desk lamp which was an anonymous gift, and the picture "April Twentieth," by Lawrence Mazzarsowich another anonymous gift, have been added.

A desk by the door has been cleared for general use, and is fitted out with ink and pencils for everyone's use. Women may now buy stamps, stationery, hairnets and candy at this office.

A reading table with recent magazines, and all of the publications belonging to Clef club has been recently added. Shelves on the bookcase have been cleared out so that women may leave books there at any time.

NEW POWER PLANT TO SERVE INDIANA CITIES

A new \$7,000,000 super-power plant which is being erected at a point about five miles from Terra Haute, Indiana, which will furnish electric power to 103 Indiana cities is drawing the attention of engineers all over the country.

The plant is built over coal-bearing lands and is on the banks of the Wabash river. One half of the water of the river will be diverted as water for the condensers at the rate of 200,000 gallons a minute.

If the experiment proves successful it is expected power will be sent over wires at a much higher voltage in the future than has been possible in the past.

Gray Is Favored For Spring Wear On New Fashion

All shades of gray are popular for spring wear. Suits, gowns and wraps are all appearing in various gray tones. Pearl gray, battleship gray and a new shade called gray-stone are among the most wanted shades. Often the gray is merely a background for stripes, plaids or colored embroidery. This chemise frock is made on straight lines of a novelty silk crepe. It is a pearl gray tone with red threads forming a boxed effect.

Accordion pleated chiffon in a pale gray shade trims the short sleeves and marks the waistline. The frills at the waist form a peplum and extend down the sides of the gown in a cascade effect. These side frills fall slightly below the hem forming an uneven edge to the skirt. This model is particularly simple and suitable for summer wash materials as well as for crepes. It would be a smart style for a fancy voile or ratine. Now is the time for the thrifty woman to begin thinking about her summer wardrobe for she can pick up many bargains in wash goods now which will be usable later in the season.

Beloit Only Badger School Favored By Noyes

Beloit college is the only school in Wisconsin with students who have taken advantage of the La Verne Noyes scholarships for veterans of the World War and their descendants. La Verne W. Noyes, prominent Chicagoan, who died in 1919, provided in his will for scholarships for men and women who served in the world war.

Stolen Car, Used By Bandits, Found Friday

What is believed to be the car used by the three masked bandits who Thursday night held up and robbed William Hines, night man at the Valvoline Oil Co., of more than \$60 in cash, was found abandoned on the east side of the city late yesterday by police.

The car which is the property of Perry Outhouse, route 5, was stolen from its parking place near the Methodist hospital Thursday evening.

School Survey Body Holds Meeting Tuesday

The first meeting of the school survey committee, completed by the election of three members of the common council Friday night, will be held next Tuesday evening at 7:30. Organization and plans for the tentative scope of work will be taken up. Members are Mayor I. M. Kittleson, Ald. John Stock, Ald. Thomas Quinn, Prof. E. B. Skinner, Miss Regina Groves, and John Moran.

The fund that five graduating classes have built up toward a set of chimes to the university now totals \$10,000.

Stuart Wilson, dash man at the University of Minnesota, was elected captain of the track team Tuesday.

SOCIAL WORKER SPEAKS TODAY

Theodore M. Shipherd

ALBERT J. KNOLLIN '22 IS KILLED BY ENGINE

(Continued from page 1)

Knollin was one of the greatest track stars that Wisconsin ever produced, and it is lamentable that a young man of such high character should be cut off so early in

his Junior year he was class treasurer. During his Freshman year he was on the Frosh basketball squad, and was chief of police in the '21 class rush. Last year he was a member of the Student Senate, Council of Forty, Athletic Council, and president of the Athletic Board.

"Knollin was one of the greatest track stars that Wisconsin ever produced, and it is lamentable that a young man of such high character should be cut off so early in

life," was the statement made by Prof. T. E. Jones, director of athletics, last night.

His untimely death is a sad blow to his many friends and to his sister to whom he was especially devoted. On the campus he was a big man, not only for athletic ability, but also for his moral stamina and his high scholastic standing. Harold Holmes '23, and Merritt Giles '23, fraternity brothers, will attend the funeral.

BREAKS SKATING RECORD 40 YEARS OLD

Donald Baker crossing the finish line.

Until Donald Baker of Brooklyn uncorked a burst of speed at Endicott, N. Y., the other day the record of 15 7-8 seconds for 150 yards on skates had stood for forty years. George D. Philips hung up that mark. Baker cut the time to 14 4-5 seconds.
