MINUTES OF THE REGULAR MEETING

of the

BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM

Madison, Wisconsin

Held in the Clarke Smith Room, Room 1820 Van Hise Hall

Friday, December 11, 1987

9:00 a.m.

- President Weinstein presiding -

PRESENT: Regents Clusen, Davis, Fish, Flores, Gerrard, Grover, Hanson, Hassett, Heckrodt, Lyon, Nicholas, Nikolay, Schenian, Schilling, and Weinstein

ABSENT: Regent Vattendahl

Approval of Minutes

Minutes of the regular meeting held on November 6, 1987, were unanimously approved, upon motion by Regent Schenian, seconded by Regent Hanson.

REPORT OF THE PRESIDENT OF THE BOARD

Adoption of 1988-89 Meeting Schedule, R 3937, p.1 + EX A

Upon motion by Regent Nikolay, seconded by Regent Hanson, Resolution 3937 was adopted unanimously.

Resolution 3937: That the 1988-89 Board of Regents meeting schedule, dated December 11, 1987, be approved.

(The approved meeting schedule is attached as EXHIBIT A.)

Regent Committee -
Report of the Ben R. and Ruth M. Lawton Scholarship Fundraising Committee - Update on pledges, p. 2

Regent Heckrodt reported that \$210,000 had either been received or pledged toward the goal of \$250,000. Plans therefore could be made to announce the first scholarships, which probably would be awarded for the fall of 1989. With the help of the UW Foundation, the committee expected to undertake an extensive follow-up effort, and a substantial return before the end of the year was anticipated. Those to be recontacted included the physician and surgical groups, and there were a number of requests to foundations throughout the state still pending. There was close to 100 percent participation among those who had served on the Board of Regents with Dr. Lawton. The next meeting of the committee was to be held in March or April 1988.

Co-chairman Regent Hanson added that the money received or pledged amounted to 84 percent of the goal. The committee was very pleased with the progress that had been made.

✓ Mission - scheduling of public hearings on mission statements, pp 2-3
✓ Minutes - scheduling of public hearings on minority recruitment/retention, pp 2-3

Scheduling of Public Hearings on Mission Statements, Minority Recruitment/Retention, and Extension Integration

✓ Extension - scheduling of public hearings on Extension Integration, pp 2-3

With regard to upcoming reviews of mission statements, President Weinstein noted that s. 36.09(1)(b) of the statutes required that public hearings be held at each institution on proposed revisions. A suggested list of hearings, with a member of the Board of Regents chairing each, had been distributed. The dates would be determined by the regent chair in consultation with the chancellor.

Another set of hearings concerned integration of the extension function into system institutions. Hearings were to be held in Milwaukee, Stevens Point and Madison, to be chaired by Regents Flores, Grover and Weinstein, respectively. Proposed dates for the hearings had been distributed.

Noting that the UW-Extension Chancellor would be unable to attend the hearings on two of the proposed dates, Regent Grover suggested that the schedule be changed so that the chancellor could participate.

There was consensus that the dates should be changed accordingly, and after consultation it was announced that the hearings would be held as follows: December 18 in Milwaukee at the UW-Milwaukee Student Union in the morning and at the Civic Center Campus in the afternoon; December 21 at the UW-Stevens Point Student Center; and January 8 at the Wisconsin Center in Madison.

The third group of public hearings was to be held on the status of minority students, faculty and staff. The schedule was as follows: January 25 (Regent Schilling, chair), to be held in the morning at UW-Milwaukee, and in the afternoon at the Martin Luther King, Jr. Center in Milwaukee. On January 26 (Regent Weinstein, chair), at the State Historical Society in the morning and the South Madison Neighborhood Center in the

afternoon. On January 27 (Regent Lyon, chair), at UW-Green Bay, in the morning and in the auditorium of the Norbert Hill Center, Oneida, in the afternoon. On February 1 (Regent Hanson, chair), at the Lac du Flambeau Tribal Government Center; and February 2 (Regent Grover, chair), at UW-La Crosse. Topics would be divided into three major categories, with a number of sub-topics under each. The broad subject areas were: (1) matters which are exclusively UW System responsibilities; (2) other matters in which responsibility is shared by the UW System with other state agencies or external organizations; and (3) responsibilities which impact the UW System but are more appropriately borne by external bodies such as the federal government. Sub-topics were to include the nature of campus environment; the public view of minority-oriented programs; suggestions for ways to improve institutional performance; and the recruitment and retention of minority students, faculty and staff.

Stating that the hearings signified the genuine intention of the Board of Regents to reach out to the minority community for their ideas and counsel, President Weinstein noted that the hearings would be completely open to the public and that they would be advertised as widely as possible, making special efforts to make them known in the minority communities throughout the state. Advance registration would not be required. While speakers would be asked to limit their presentations, they also would be encouraged to submit written transcripts for consideration after the hearings. Those not able to attend the hearings could submit written testimony, which would become part of the record.

The Assembly Committee on Colleges and Universities planned to sponsor public hearings on minority student concerns, in addition to which the President's Select Committee on the Status of Minority Faculty and Staff conducted a series of open meetings during the months of November at each UW System institution.

Regent Davis inquired as to whether there was a list of those invited to testify at the public hearings and whether faculty, deans and other university representatives were included. He was interested in how shared governance translated into shared responsibility for the solution of these types of problems.

Replying that such a list was being compiled, Vice President Trani indicated that persons with particular expertise on the subjects in question were being sought and that the list would be sent to the members of the board. He asked to be advised of any suggestions from regents as to persons who might be asked to appear.

In addition to those formally invited, President Shaw noted that it would be made clear to members of the university community in general that their input would be welcome. Faculty, academic staff and student representatives all would receive notice of the hearings.

President Weinstein added that all regents were invited to attend all of the hearings.

UW-Whitewater Student Campaign: Celebrating Our World p.4

Regent Weinstein had distributed symbols of the campaign, which had been given to him during a visit to UW-Whitewater. The students had developed an inventive week-long campaign called "Celebrating Our World" to increase sensitivity as to how students should learn to get along with each other and live together in peace.

REPORT OF THE PRESIDENT OF THE SYSTEM

Approval of Nonpersonnel Actions/Informational Items

Resolution 3938 was unanimously adopted, upon motion by Regent Schilling, seconded by Regent Schenian.

Resolution 3938: That the report of nonpersonnel actions by administrative officers to the Board of Regents and informational items reported for the record (copy on file with the papers of this meeting) be received for the record; and that actions included in the report be approved, ratified and confirmed.

Announcement of TRIO Achievers Awards pp4-5

President Shaw referred to annual awards made by the National Council of Educational Opportunity Associations (NCEO) to approximately 20 former TRIO students, to recognize individuals who successfully completed their college education and achieved recognition within their chosen professions. The federally funded TRIO programs included Upward Bound, Talent Search, special services, veterans' Upward Bound, and educational opportunity centers.

Noting that in 1985 a TRIO achiever award had been received by Dr. Danielle Sanders, professor of special education at Milwaukee, President Shaw announced that two additional people associated with the UW System received 1987 TRIO achievers awards. Tracey Mosley, who graduated from UW-Stevens Point in 1984, was active in student government, in the Stevens Point community and was elected as a Portage County Board member. Mr. Mosely, now assistant director of admissions at Maryville College in Tennessee, attributed much of his success to the support he was given by the TRIO program at UW-Stevens Point.

The second winner was Irma Jean Walker, who became associated with Project Talent Search of the Wisconsin Educational Opportunity Program in 1977 while working as a part-time secretary for UW-Extension. She returned to college in her mid-30s, while raising six children, and earned a B.A. in education in 1980 from UW-Milwaukee. She was now working on her master's degree in administrative leadership at UW-Milwaukee. Ms. Walker received

the award in recognition of her service to the Milwaukee community, ranging from involvement in developing housing projects for minorities, to employment and career opportunity programs, to founding the Urban Family Camping Association and serving as vice president of the City Ballet Theater.

Transfer of Credits -

Milwaukee Area Technical College Minority Students' Transfer Agreements with UW-Madison and UW-Whitewater Schools of Education P. 5

It was announced by President Shaw that UW-Madison and UW-Whitewater had signed agreements with the Milwaukee Area Technical College to ease transfer of minority students interested in teacher education from MATC to the universities' schools of education. Their agreements were intended to encourage minority students to choose teaching as a career, an area of critical need. They also exemplified the benefits of cooperation between the UW and VTAE systems to achieve a mutual goal.

Summary of Legislative Activities

President Shaw called attention to the information which had been distributed regarding legislative activities.

REPORT OF THE BUSINESS AND FINANCE COMMITTEE

Chairman Lyon presented the committee's report.

Approval of Gifts, Grants and Government Contracts

Acting Vice President Ray Marnocha reported that gifts, grants and contracts for the five-month period ending November 19 totaled \$169.5 million, \$9.9 million more than the same period last year. The federal share increased \$7.6 million, accounted for by an increase in research of \$4.7 million, an increase in instruction of \$2 million, and an increase in student aid of \$1.6 million. A decrease of \$500,000 for UW-Extension accounted for the majority of the remaining net change. The non-federal share increased \$2.3 million over the prior year. A procedures paper was to be developed to establish uniform reporting of awards to make comparable data available each year.

Resolution 3939, which was unanimously approved by the committee, was moved by Regent Lyon, seconded by Regent Schenian and adopted unanimously by the board.

Resolution 3939: That, upon recommendation of the President of the University of Wisconsin System, the gifts, grants and contracts presented at this meeting (copy on file with the papers of this meeting) be accepted, approved, ratified and confirmed; and that, where signature authority has not been previously delegated, appropriate officers be authorized to sign agreements.

Bequests

→ Bequest of Frances G. Nelson, R 3940, p. 6

Regent Lyon moved adoption by the board of Resolution 3940, which was unanimously approved by the committee. The motion was seconded by Regent Schenian and carried unanimously.

✓ x ref Nelson, Frances G. - (same)

Resolution 3940: That the bequest of the late Frances G. Nelson, Houston, Texas, be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the will; and that the Trust Officer or Assistant Trust Officers be authorized to sign receipts and do all things necessary to effect the transfer for the benefit of the University of Wisconsin-Madison.

(The will provides: "Remainder. I give, devise and bequeath all of the rest, residue and remainder of my estate, real, personal and mixed, wherever situated, including my interest in the Floyd A. and Frances G. Nelson Trust, as amended, to the following public institutions in the proportions designated. The University of Wisconsin General Scholarship Fund, Madison, Wisconsin, one-fourth of the residue.")

(The University of Wisconsin-Madison, General Scholarship fund will receive approximately \$400,000.)

Business/Industry

→ Report on SNE Project, pp 6-7

The committee heard a report on the status of the SNE Enterprises Project, an example of UW System involvement in the state's economic development efforts. SNE had been evaluating sites in Wisconsin, Illinois, Tennessee and Missouri for the construction of a new 800,000 square foot facility, and in August 1987 legislators requested the university's assistance in keeping SNE Enterprises in Wisconsin.

Because the loss of the company would have a significant economic impact on North Central Wisconsin, since the company had facilities at Wausau and Stevens Point, the state requested the assistance of UW-Stout to help plan and lay out a new facility, with a planning cost of \$298,500 over a two-year period. The new facility would initially employ an estimated

1,200 individuals and have an annualized payroll of \$20 million, with potential growth to 2,000 employees with a payroll of \$36 million.

With Governor Thompson's approval, the UW System was allowed to reallocate unneeded fringe benefit funding to support the project. On October 21, the SNE Board of Directors announced plans to consolidate their Stevens Point and Wausau facilities into a new plant at Mosinee.

Chancellor Swanson described the mutually advantageous project and its impact on UW-Stout, noting that the university enters into these types of agreements only if they are of educational benefit to faculty, staff and students.

✓ Audits -

Informational Report on the Role of the System Office of Internal Audit p.7

Regent Lyon reported that Mr. William Brunkow, Director of Internal Audit, discussed the mission of the System Administration Internal Audit Department, having a primary role to provide the post-audit function on management and use of all funds received by the UW System, assuring necessary financial and management controls. Auditing and reviewing various areas of System Administration and institutional operations, the department also served as liaison with external audit authorities at the state and federal levels.

Most of the audits performed were of operational, rather than financial nature, due to the strong emphasis on pre-audit of financial transactions in the UW System. Currently, much of the audit time was spent on the auxiliary operations due to the high risk associated with those large revenues. However, beginning in 1987-88, federal financial aid audits could no longer be performed by the system because of federal regulations. The Legislative Audit Bureau would perform these audits under contract at a cost of \$200,000 for a two-year period. Financial aid audits had taken about 40 percent of the audit staff's time, so there would now be a significant amount of time available to do management audits which had not been conducted on a regular basis. Regent Lyon commented that he was pleased that management audits would now be performed, even though there would be some additional cost to the university.

✓ Regent Policy -

Modification of Regent Policy 75-7 on Salary Limit, R 3941, pp 7-9

The committee unanimously approved Resolution 3941, which was intended to make the regent policy consistent with Senate Bill 100 which was passed in the recent legislative session. Discussing the impact of the proposed policy modification, President Shaw stressed that the change would not affect those within the Executive Pay Plan with salaries currently approved by the president and the Board of Regents. Only others with salaries in excess of the Group 5 maximum would be affected. Of the 116 persons involved, about 75 percent were faculty, most of whom were at UW-Madison. The other 25 percent were deans, associate deans and directors, most of whom also were at UW-Madison.

✓ Ref Salaries - (same)

✓ Ref Compensation - (same)

Resolution 3941 was moved by Regent Lyon and seconded by Regent Fish.

Resolution 3941: That, upon the recommendation of the President of the University of Wisconsin System, the following revisions to Regent Policy Document 75-7 be approved:

Resolution 1083: (Regent Policy Document 75-7)

That the President of the University of Wisconsin System be authorized to approve, on behalf of the Regents, personnel actions involving staff in or for positions other than ~~central/system~~ vice presidents, ~~provost~~, and chancellors; and that the President be authorized to delegate such authority, with the following provisions:

That, prior to authorizing recruitment or promotion to fill any faculty, academic or limited staff position for which the planned rate of pay exceeds the maximum annual salary equivalent in Group ~~5~~ 6 of the State Executive Pay Plan, the President shall furnish the Board with a description of the position and a justification of the salary range assigned to it. Unless a Regent requests that the appointee be considered by the Board, the President may authorize recruitment and appointment, and

That prior to approving annual merit increases for faculty, academic and limited staff members whose rate of pay exceeds that stipulated above, the President shall review the list of such increases with the Board of Regents and obtain its approval.

In response to a question by Regent Flores, Regent Lyon indicated that the maximum of Group 6 was \$79,112, while the maximum of Group 5 was \$72,923.

Adding that many of these positions were in the medical field, President Shaw observed that one advantage to the change would be to provide the ability to move quickly in making mid-year salary adjustments for competitive reasons. No recommendations on moving people into a higher classification would be made until the Business and Finance Committee completed its review of the pay structure for administrators.

Noting that the individuals involved were highly paid, Regent Flores questioned the wisdom of delegating those decisions, particularly since there was always considerable public concern about top wages in government. He thought it should remain the board's responsibility to approve salaries at that level.

Regent Lyon explained that the committee's action in approving the resolution was consistent with the legislative decision granting flexibility through Group 6. He did not believe the proposed delegation of authority represented loss of control by the board, since the board had

authority to review the compensation of any university employee and would maintain an overview by receiving reports of salary actions.

Prior to the legislative change, President Shaw noted, the board was permitted to make changes in salary structure for people in classifications up through Group 5 of the Executive Pay Plan, which covered a small number of administrative people. The related board rule provided that salary exceeding the maximum of Group 5 had to be specifically approved by the board, even for persons not in the Executive Pay Plan. The change in the law gave the board flexibility to make decisions in the Executive Pay Plan through Group 6, but no actions in that regard were to be taken until completion of the Business and Finance Committee's study. As an extension of this grant of flexibility, he was requesting flexibility to approve salaries to the maximum of Group 6 rather than Group 5.

Regent Flores commented that flexibility often resulted in a tendency to move salaries toward the top. He felt the board also needed to retain flexibility.

President Shaw noted that a recommendation to move anyone in the Executive Pay Plan would require board approval. The Executive Pay Plan included the president, vice presidents, chancellors, vice chancellors and other administrators who by law were in the plan. Under the old law, the board could move people up to but not beyond Group 5. The regent policy accompanying that law provided that the board must approve those salaries for employees not in the Executive Pay Plan but whose salaries exceeded the ceiling for Group 5. The new law provided that the board could move people within the Executive Pay Plan up to but not beyond Group 6. What was requested now was a change in the accompanying regent policy compatible with the change that occurred in the law, to move the President's flexibility from the top of Group 5 to the top of Group 6. Those affected would include some deans, associate deans and directors, although 75 percent would be faculty, mostly in the Medical School.

In response to a question by Regent Flores, Regent Lyon indicated that deans were included in the administrative salary study being conducted by the Business and Finance Committee and that the study was to be completed in May.

It was moved by Regent Flores and seconded by Regent Grover that the matter be tabled until completion of the study. The motion failed on a roll call vote, with Regents Flores, Gerrard, Grover, Nikolay and Schilling voting "Aye" (5) and Regents Clusen, Davis, Fish, Hanson, Hassett, Heckrodt, Lyon, Nicholas, Schenian and Weinstein voting "No" (10).

In reply to a question by Regent Grover, General Counsel Stathas indicated that a resolution was sufficient to change board policy.

On a voice vote, Resolution 3941 was adopted.

✓ Graduate School

Update on Extramural Support Activities at UW-Madison Graduate School, p. 10

Continuing the report of the Business and Finance Committee, Regent Lyon summarized a presentation by Dean Robert Bock and Associate Dean Marvin Ebel of the UW-Madison Graduate School, who provided summaries of 1986-87 federal support for UW-Madison special projects, by agency and by support category--instruction and research. Also provided was a ten-year summary of both federal and non-federal awards for research, in total and adjusted for inflation. Dean Bock informed the committee that his office was carefully monitoring the fiscal year 1988 federal research budget. It was believed that across-the-board Gramm-Rudman-Hollings cuts would not be implemented and, in fact, increases were expected. It was expected that the research growth of the past decade would continue, since UW-Madison faculty had a record of competing more effectively than the national average for research grants.

✓ Research - (same)

Copies were distributed of a recent publication on the top 100 institutions in total federal obligations for research and development for fiscal 1986, which showed UW-Madison ranking eighth on the list. However, all institutions ranking higher than UW-Madison were major contractors involved in classified research for the Department of Defense. In another study, UW-Madison ranked second in total research activity, behind Harvard. The study considered all research funds, including those brought with faculty going to another institution on sabbatical. Faculty had brought significant funding with them to UW-Madison, including their salaries and research funds.

✓ Grants - (same)

The chair requested that the administration include on a future agenda a discussion of the patent and operating policies of the Wisconsin Alumni Research Foundation (WARF), p. 10

WARF - Request for

✓ Salary

Elimination of Wisconsin from University of California Salary Peer Group, pp 10-11

Associate Vice President Wallace Lemon briefed the committee on recent articles appearing in the press regarding the dropping of UW-Madison from the University of California's salary peer group. Mr. Lemon explained that the University of California used eight universities to determine their compensation level, four public and four private. By comparison, UW-Madison used a peer group of twelve institutions, all of which are public. Only two of the four on the University of California list also were included in the UW-Madison peer comparisons. The University of California, in concert with their Legislature, took action to remove Wisconsin, as well as Cornell, from their list. The University of Virginia and MIT were added because their average salaries were more in line with the other universities in the California grouping.

✓ Compensation - (same)

In discussion at the board meeting, Regent Fish stated that he had been assured that the peer groups used in Wisconsin for the catch-up formula would continue to be used on a constant basis here, so that there would be no statistical aberrations to make specific points. One problem with a peer group as small as the one used by the University of California,

he added, was that the institution with the lowest salaries would exert pressure to be brought into the middle, in addition to which there would be inflationary increases. The next year there would be another institution at the bottom which would want to be moved to the middle, continuing the ratchet effect.

Report of the Acting Vice President for Business and Finance

Report on Current Reserves

The committee was informed that the current reserve for revenue shortfall and other contingencies was estimated to be \$1,480,000. Fee projections were estimated to be \$200,000 to \$300,000 less than budgeted.

Fund

Reports on Legislative Audits

on property, liability & self insurances; on system

Regent Lyon reported on committee review of the status of various Legislative Audit Bureau audits which involved the UW System. Recently completed was an audit of how the Department of Administration administered the state's property, liability and workers' compensation self-insurance programs. (DOA had delegated authority to the UW System to settle workers' compensation claims.) Fiscal procedures were examined and all UW claims tested were fully documented and complete, while there were problems with approximately 22 percent of the DOA-processed claims. Audit recommendations included: 1) forming a steering committee to examine the feasibility of combining resources to complete the development of the DOA System or to adopt the UW System computerized methods for statewide use in compensation claims; and 2) reviewing the methodology for assessing premium charges for program revenue funds because the UW's favorable loss experience had been so much better than the state in total. The UW System had been assigned gross premiums based on the number of employees, which were much higher than premiums would be if based on relevant risk factors.

Administration

on deferred compensation programs &

on medical school costs,

pp 11-12

Close to completion was a follow-up on the 1985 audit of System Administration. Preliminary information indicated both the Board of Regents and System Administration had been responsive to the substantial number of issues that were raised about the operation and the management of the system.

Two audits by the Legislative Audit Bureau were being proposed. Representative Travis requested an audit of the deferred compensation program, including the UW System. The audit would include a comparison of the deferred compensation programs offered to university employees and to other state workers, an analysis of the program's administrative costs, and the number and type of investment options. State employees, other than university employees, had only two options, while there were 13 options for university personnel. The intent was to give state employees a greater number of options, and there was a study in progress that might expand and change some of the options for UW employees as well. Most of the audit time would be spent on deferred compensation programs outside the UW System, due to the number of complaints being received from other state employees.

Senator Lee, who requested an audit of Medical School costs, had expressed concern about the state's investment in medical education, based on his conclusion that there is an excess number of physicians in the health care marketplace.

In discussion at the board meeting, Regent Flores inquired about what prompted Senator Lee's request, given that most educational aspects of UW Hospital were paid by user fees or program revenues.

Noting that about \$20 million of GPR money went to the Medical School for educational purposes, Regent Heckrodt said there was interest in attempting to determine the actual cost of education versus other activities. There also was concern that an oversupply of doctors was resulting in high medical costs. Ten student positions already had been cut from the Medical School in the last four years, with possible interest in eliminating more and thereby reducing the educational costs of the Medical School.

Vice President Bornstein added that Senator Lee also was interested in comparing the costs of the Medical College of Wisconsin and the UW Medical School.

REPORT OF THE PHYSICAL PLANNING AND DEVELOPMENT COMMITTEE

The committee's report was presented by Chairman Nikolay.

Regent Policy - Director only
Use of Outside Funds for Capital Projects; Setting of Project Priorities, R 3942, pp 12-13

Regent Nikolay reported on a joint meeting of the Physical Planning and Development and Business and Finance Committees, to discuss the merits of establishing a regent policy on the use of outside funds for capital projects and in setting project priorities. The topic was extensively discussed, with varying views expressed ranging from having no formal policy to a degree of consensus with the approach set forward in the recommendations of President Shaw's special committee.

report due at 3/88 meeting
Regent Fish had indicated that he could not conceive of any policy which he would find supportable. It was his feeling that if a facility could survive the various approval processes on its merit, it should be the responsibility of the state to fund its construction. There could be very limited instances where an exception might be warranted, and he was concerned that a formal policy might limit the board's flexibility.

Regent President Weinstein had expressed concern that the special committee recommendations forming the basis of discussion were too limiting and should address whether the regents should have a policy relating to program revenue contributions toward the construction of university buildings--not only for convocation centers and auditoriums but for all types of facilities.

It was not the intent to develop a recommendation based on this discussion. Rather, it was viewed as an opportunity for regent input, and it was concluded that it was premature for those present to attempt to determine whether there was sufficient regent interest in having a policy to warrant staff developing an amended proposal. The committee then unanimously adopted Resolution 3942.

Adoption by the board of the following resolution was moved by Regent Nikolay and seconded by Regent Nicholas:

Resolution 3942: Resolved that, without taking a position on the necessity for or against a policy on private matching funds for Capital construction, the Physical Planning and Development and Business and Finance Committees request the President's Special Committee to draft a report for the March meeting.

In response to a question by Regent Davis, Regent Weinstein said the report would give the regents an opportunity to discuss whether or not there ought to be a policy on outside funding of public buildings, as a general proposition. It would include a proposal and accompanying rationale.

Regent Hanson requested that information be provided on past funding of buildings from non-state sources.

Vice President Brown said that material on that topic would be provided. He did not believe there had been uniformity in past actions.

Put to the vote, Resolution 3942 was unanimously carried.

UW-Madison: Approval of Major Project Concept and Budget Reports

The committee unanimously approved the concept and budget reports for updating the 90- and 100-year-old heating systems in the Education Building and Bascom Hall at UW-Madison. The budget for the Education Building project was \$571,500, while the budget for the Bascom Hall project was \$715,000. Both would be funded from statewide allocations.

Bldg. & Land - Concept & Budget report for Bascom Hall heating remodeling, R 3943,

Adoption of Resolutions 3943 and 3944 was moved by Regent Nikolay, *p. 13* seconded by Regent Schenian and unanimously carried by the board.

Resolution 3943: That, upon the recommendation of the UW-Madison Acting Chancellor and the President of the University of Wisconsin System, the Concept and Budget Report be approved for the Bascom Hall Heating System Remodeling project, and authority granted to complete Final Plans and Specifications and construct at a cost of \$571,500, from the following 1987-89 General Fund Supported Borrowing funding sources:

Maintenance Program funds:	\$ 470,500
Energy Conservation Program funds:	30,500

Total:	\$715,000

UW-Madison: Approval of Major Project Concept and Budget Report

Regent Nikolay reported unanimous committee approval of the concept and budget report for the parking ramp to be built at UW-Madison in the 600 block of University Avenue. A private developer would construct high-rise residential buildings to the north and east of the parking structure, on the site of an existing 380 vehicle surface parking area. The ramp would provide 475 stalls.

Budget Year - Concept & budget report for

Adoption by the board of Resolution 3945 was moved by Regent Nikolay and seconded by Regent Schenian.

Resolution 3945: ~~That, upon the recommendation of the UW-Madison Acting Chancellor and the President of the University of Wisconsin System, the Concept and Budget Report be approved for the Lower Campus Parking Structure project, and authority granted to complete final plans and specifications, bid and construct the project, including access to both Lake and Frances Streets, at an estimated total cost of \$3,898,000, from Program Revenue Bonding (\$2,940,000) and Program Revenue Funds (\$958,000).~~

R 3945, p. 14

X ref Parking Area - (same)

In reply to a question by Regent Schenian, Regent Nikolay said housing unit construction should begin in September 1988, with the first units ready for occupancy by the summer of 1989.

Put to the vote, Resolution 3945 was adopted unanimously by the board.

UW-Milwaukee: Approval of Major Project Concept and Budget Report

The committee unanimously approved the concept and budget report for the UW-Milwaukee Lapham Hall Science Center addition project, at a cost of \$19,885,000 from general fund-supported borrowing. The proposed building would provide centralized and integrated facilities for a variety of instructional and research related activities.

Upon motion by Regent Nikolay, seconded by Regent Schenian, the following resolution was adopted unanimously by the board:

✓
UW-Milwaukee - Budget and - Concept & Budget report for

Resolution 3946: That, upon the recommendation of the UW-Milwaukee Chancellor and the President of the University of Wisconsin System, ~~the Concept and Budget Report be approved for the Lapham Hall Science Center Addition Project, and authority granted to prepare Final Plans and Specifications, bid and construct the project for a total project cost of \$19,885,000 from General Fund Supported Borrowing.~~ → R 3946, p. 15

UW-Stevens Point - Budget and -

UW-Stevens Point: Approval of Major Project Concept and Budget Report

Regent Nikolay reported unanimous committee approval of the concept and budget report for a handicapped accessibility improvements project at UW-Stevens Point, involving ten buildings and including the usual types of improvements to make facilities usable for handicapped persons.

It was moved by Regent Nikolay and seconded by Regent Schenian that Resolution 3947 be adopted by the board.

Resolution 3947: ~~That, upon the recommendation of the UW-Stevens Point Chancellor and the President of the University of Wisconsin System, the Concept and Budget Report for the Handicapped Accessibility Improvements project, be approved and authority granted to prepare final plans and specifications, bid and construct at a total project cost of \$607,200, from the following General Fund Supported Borrowing funding sources:~~

Handicapped Access Improvements:	\$456,532
Removal of Architectural Barriers:	46,568
Removal of Architectural Barriers:	104,100
Total:	\$607,200

✓ R 3947, pp 15-16

Regent Davis inquired as to how these improvements related to the policy on disabled persons being developed by the Education Committee.

In response, President Shaw indicated that it was necessary to make these physical improvements regardless of whether there was a policy on other aspects of educational access for disabled students.

✓
Key Handicapped Accessibility

(some "add" at UW-Stevens Pt.)

Regent Davis asked if there was assurance that adoption of a policy would not require making changes in these types of projects.

Replying in the affirmative, Vice President Brown explained that the physical changes were in accordance with guidelines established by the Building Commission. He did not anticipate that those would change, since they were in compliance with existing law.

Regent Nikolay noted, however, that the Department of Industry, Labor and Human Relations or the Building Commission could change rules at their discretion.

Put to the vote, Resolution 3947 was unanimously adopted by the board.

Seed Farm →

UW-Madison: West Seed Farm Land Exchange/Use Agreement
Execution/Replacement Foundation Seed Facility; Seed Conditioning R 3948, pp 16-19

The committee reviewed a two-part transaction which would result in construction of a new, replacement foundation seed facility at UW-Madison's Arlington Agricultural Research Station. The 5.78 acres comprising the existing seed facility was valued at \$392,500 based on two appraisals, and this property would be traded to a developer for a replacement seed facility to be built for the same value. The second part of the transaction was a \$245,000, university-funded minor project for a seed conditioning operation, to be built in conjunction with development of the new Arlington Foundation Seed Facility to complete the new installation. The Secretary of the Board also would be authorized to execute a land use agreement needed to enable this development to occur.

After discussion, the committee approved the resolution, with Regent Gerrard voting in opposition.

✓ x ref *Approximate Farms - (same)*

Adoption by the board of the following resolution was moved by Regent Nikolay and seconded by Regent Heckrodt:

x ref *BCdpt + Land - (same)*

That, upon the recommendation of the UW-Madison Acting Chancellor and the President of the University of Wisconsin System, authority is granted:

- (1) to exchange the existing Foundation Seed Facility, consisting of approximately 5.78 acres of land and several agricultural/storage buildings, located at West Hill Farms, with an average appraised value of \$392,500, for Part One of a two-part, completed replacement facility to be situated on the University of Wisconsin-Madison Arlington Agricultural Research Station, at an estimated value of \$392,500;
- (2) for the Secretary of the Board of Regents to execute the necessary land use agreement; and

- (3) for the university to undertake an associated minor project (Part Two) consisting of a seed conditioning operation, including the relocation of existing equipment and the furnishing and installation of new equipment at an estimated total cost of \$245,000 from Gifts, Grants and Program Revenues.

In discussion at the board meeting, Regent Gerrard stated that he was opposed to selling this valuable land, particularly since the university would only receive a facility in return. He thought the time had come to stop selling land since the university might well need additional land in the future, the purchase of which would be prohibitively expensive. While he agreed that the parcel in question was not being put to the best use, he felt the answer was to change the use of the land, rather than to sell it. In the future, he intended to vote against such sales of university land.

In response to a question by Regent Flores, Regent Gerrard suggested that the land might be used in the future for trading purposes.

In reply to a question by Regent Davis, Regent Nikolay explained that the land was located just west of the Hill Farms State Office Building, in an almost 100 percent residential district.

Regent Gerrard pointed out that the university still owned land in the immediate vicinity on which a shopping center had been developed. Its worth had increased dramatically over the years.

Regent Lyon suggested that there might be consideration of a policy regarding future land sales, rather than making this pending transaction the basis for such a discussion. He inquired as to what would happen if the seed facility was needed but a decision was made not to sell the land.

Noting that the Foundation's seed program was operated by the College of Agricultural and Life Sciences on a program revenue-funded basis, Vice President Brown indicated that the college would prefer to have the facility, which was currently in a residential area, at the Arlington Farms, in order to integrate it with other agricultural operations. The alternative to trading the land would be to wait for two years to go through a building program request to the Legislature. Since there were not adequate farm receipts to fund it from a program revenue account, it would be necessary to ask for general purpose revenue funding, which probably would not be forthcoming. Therefore, the seed farm operation probably would have to remain at the present location. He noted that the parcel in question is not within the campus boundaries, but is an isolated parcel on the west side of the city.

Regent Fish suggested that, in the future, maps be provided showing the exact location of specific parcels being considered for acquisition or disposal. He also was concerned that as a result of this transaction the university would have neither the land or money, but instead would have only a facility.

Speaking in favor of the resolution, Regent Heckrodt observed that the transaction was a means of making the university a better neighbor to people in the area, while also benefiting to the School of Agriculture. Secondly, he did not favor participating in operations outside the academic endeavor by becoming involved in the real estate business. Similarly, he did not believe the university should run a heating plant but instead should contract with a utility for that type of operation.

While Regent Davis was not sure he would be opposed in principle to selling land, he had some concern about selling a prime piece of land in the middle of the city. He asked if the committee had viewed a map of the property, and Regent Nikolay replied in the affirmative.

Stating that he would be reluctant to support the resolution at this time, Regent Hassett suggested that action be deferred. Given the great value of the land, he was concerned about giving it up and wished to know more about the proposal and to see a map before voting.

Regent Schilling agreed that it might be appropriate to table this matter and inquired as to the consequence of deferring action until February.

Dean Walsh, of the College of Agricultural and Life Sciences, replied that the consequence probably would be to delay the project for a full year. It would be necessary to have a new facility into which to move the operation before the old facility could be razed. The move would have to occur in the summer, that being the period of the year in which seed is not processed. If that time frame were missed, it would be necessary to wait a year. The program could not be closed down temporarily because of the need to reproduce Foundation seed every year.

Regent Weinstein asked what would be done between now and February that could not be done between February and June.

Noting that the project would require approval by the Building Commission, Dean Walsh felt a two-month delay might make it less likely that the anticipated time frame could be met.

Regent Weinstein noted that there was no guarantee as to what action the Building Commission might take in any event.

Regent Schilling moved to table the resolution until the February meeting and the motion was seconded by Regent Flores.

The motion carried on a roll call vote, with Regents Davis, Fish, Flores, Gerrard, Grover, Hassett, Lyon, Nicholas, Schilling and Weinstein voting "Aye" (10) and Regents Clusen, Hanson, Heckrodt, Nikolay and Schenian voting "No" (5).

Resolution 3948: That consideration of approval of a UW-Madison two-phase West Seed Farm land exchange/use agreement execution/replacement foundation seed facility (Part I) and of seed conditioning operation minor project (Part II) be tabled until the February 1988 meeting of the Board of Regents.

President Weinstein suggested that arrangements be made for the regents to visit the property site prior to the February meeting and that a map of the property be included with the agenda materials.

UW Green Bay - Bldgs & Land - Tabled

UW Green Bay and UW Whitewater: Program Revenue-Funded Advance Planning for Performing Arts Centers, R 3949, pp 19-23

The committee unanimously approved program revenue-funded advance planning for performing arts centers at UW-Green Bay and UW-Whitewater. While each university had received substantial gifts to be used toward construction of the facilities, supplemental GPR funds would be requested in their 1989-91 capital budget submissions to System Administration. UW-Green Bay would spend \$195,000 to plan a proposed \$10 million facility, and UW-Whitewater would spend \$180,000 to plan a proposed \$9 million facility. The Division of State Facilities Management would hire a consultant architect to begin preliminary planning to develop more accurate cost estimates for planning purposes which also would facilitate fund raising efforts. It was pointed out that the viability of these projects would be affected by whatever policy the board might adopt relating to use of outside funding for capital projects and in establishing project priorities. The chancellors were aware that approval of these requests would not imply any commitment to either project by System Administration or the Board of Regents.

UW Whitewater - Bldgs & Land - (same)

It was moved by Regent Nikolay and seconded by Regent Schenian that the following resolutions be adopted by the board:

That, upon the recommendation of the UW-Green Bay Chancellor and the President of the University of Wisconsin System, authority be granted to hire a Consultant to prepare preliminary plans and a Concept and Budget Report for a future Performing Arts Center. The Consultant fee of \$195,000 would be paid with University Gift Funds. This authorization does not constitute endorsement of the project by System Administration or the Board of Regents.

That, upon the recommendation of the UW-Whitewater Chancellor and the President of the University of Wisconsin System, authority is granted to hire a Consultant to prepare preliminary plans and a Concept and Budget Report for a future Performing Arts Center. The Consultant fee of \$180,000 would be paid with University Gift Funds. This authorization does not constitute endorsement of the project by System Administration or the Board of Regents.

Stating his strong opposition both resolutions, Regent Fish noted that neither project had been included in the regents' priority list. In addition, he was concerned about accepting a vote by UW-Whitewater students to endorse a one million dollar student contribution--a contribution to be paid by students who followed them. Approval of planning for these projects, he felt, certainly would provide impetus for more such requests. While he was opposed to having a policy on outside funding, he observed that it was not logical, on the one hand, to delay action on such a policy, and on the other, to proceed with two projects that would be covered by such a policy.

Regent Weinstein observed that concern about these projects illustrated the need for a regent policy.

In response to a question by Regent Davis regarding priority lists, Regent Weinstein explained that each campus had a system by which they determined their own building priorities. These were submitted to System Administration, which recommended a systemwide list to the Board of Regents. As adopted by the board, the priority list was submitted to the Building Commission and finally to the Legislature.

Vice President Brown added that campus priority lists were updated every two years. The priority lists for the next biennium had not yet been submitted.

Regent Hanson noted that both universities planned to include these projects on their priority lists for the next biennium.

Chancellor Connor noted that UW-Whitewater had been given an entitlement to plan a performing arts center.

While the UW-Green Bay project had not received any prior approval, Chancellor Outcalt indicated that it was included in the institution's master plan.

Regent Fish commented that to use student fees for capital expenditures would set a dangerous precedent.

Expressing agreement with Regent Fish's position, Regent Hassett added that, because of the circumstance of having private contributions, these two projects were being moved forward without regard to others that might have a higher priority.

Regent Heckrodt noted that approval for planning only was being requested.

While these projects might not become top campus or regent priorities, Regent Clusen felt there should be a separate track to follow for buildings with gift funding, which would enhance a campus and improve its stature and attraction in the community. In both of these cases, there was an opportunity which might not come again, and in the case of UW-Green Bay, there was not involvement of student funding at this point. Instead, a community fund drive was planned. She felt there were two separate questions: first, should students be allowed to commit themselves or future students to such projects; and second, should an institution be denied the opportunity to accept private funding simply because the facility might not fit the stringent academic need requirement of the priority lists.

Noting that private funding would be used for these preliminary plans, Regent Flores stated that he would support the resolutions since the board would not be bound by this action to approve the projects. Because the questions of whether to approve them and how to fund them were not being decided now, he saw no need to tie these preliminary expenditures to that issue of a policy on outside funding of facilities.

Regent Davis expressed agreement with Regent Flores. While he was concerned about the issue of student involvement in capital funding, he assumed that such concerns could be incorporated into the planning process, with recognition that there might be difficulty in gaining approval of a proposal which included student funding. It was his view that donors should be free to expend gift funds for planning, with the understanding that there was no commitment to final approval. He therefore intended to support the resolutions.

Regent Fish noted that UW-Whitewater had requested a multipurpose auditorium in their list for the current biennium, but that it was not included in the priority list submitted to the Board of Regents by System Administration. He added, however, that he probably would vote for both projects if they came forward through the priority-setting process. With regard to the proposed preliminary planning, he observed that approval of advance planning funds, whether public or private, in reality implied a commitment to proceeding with the projects in future actions.

Regent Hanson asked if the gifts would be lost if these resolutions were not approved at this time, and both chancellors replied in the negative.

Regent Lyon suggested that the resolutions be tabled, not because he would not support the projects, but because he felt action should be deferred until the board had an opportunity to consider a means of becoming more uniform in decision making on the relationship of GPR funding to outside funding for university facilities.

Regent Schenian shared the view that there should be a policy on funding for capital projects and that action on these resolutions should be delayed until consideration of such a policy was completed.

In response to a question by Regent Hassett, Vice President Brown indicated that the capital budget was about \$92 million.

Noting that the UW-Whitewater and UW-Green Bay projects would cost \$12 million, Regent Hassett commented that approval at this time implied committing a substantial share of the capital budget to projects which were not yet determined to be on the regent priority list. He felt action at this time would be premature.

Regent Flores believed the board needed a policy on construction of buildings with non-GPR funds and also needed to maintain control of campus facilities. However, he was concerned that, in the competition for a place on the priority list, the arts would tend to be considered secondary to other needs.

Regent Fish responded that many such facilities had been included in past priority lists. He was concerned, however, about encouraging the Legislature to require students and institutions to raise their own funds for capital construction. It was his view that such funds could more appropriately be used for teaching chairs and other enhancements of education.

President Shaw noted that, on the one hand, there was a desire not to make commitments without knowing the range of facility needs. On the other hand, the institutions needed more than an abstract idea if they were to succeed in raising more private funds for these projects. The resolutions attempted to bridge the gap between those conflicting needs, by allowing preliminary planning to proceed but stating specifically that such authorization did not constitute endorsement of the projects.

Chancellor Outcalt added that UW-Green Bay planned a major fund raising effort next year with a committee ready to begin its work as soon as planning efforts were approved. Much progress needed to be made in raising these monies before a realistic proposal requesting state funds could be set forth for the next biennium.

Regent Nicholas asked the chancellors how important these projects were in their total building program.

In reply, Chancellor Outcalt noted that the enrollment management plan meant the campus would not need additional academic buildings as originally projected. Although the campus plan had not been updated to reflect the change, he considered the performing arts center to be the number one priority.

Stating that a performing arts center also was UW-Whitewater's highest priority, Chancellor Connor explained that it would replace an old 800-seat facility that was in unacceptable condition.

In response to a question by Regent Heckrodt, Vice President Brown said the UW-Madison engineering and business buildings, both of which were to be substantially funded by gifts, were approved for this biennium with the limitation that the planning process could not begin until a certain amount of money had been raised from the private sector.

Regent Clusen said she would be opposed to tabling the resolutions and urged the board to resist a tendency to defer action on items unless there was inadequate information to make a decision.

Stating that the purpose was to bring the resolutions forward when consideration of a policy on non-state funding was completed, Regent Fish moved to table the resolutions until that time, and the motion was seconded by Regent Hassett.

The motion was adopted on a roll call vote, with Regents Fish, Gerrard, Grover, Hassett, Lyon, Schenian, Schilling and Weinstein voting "Aye" (8) and Regents Clusen, Davis, Flores, Hanson, Heckrodt, Nicholas and Nikolay voting "No" (7).

Resolution 3949: That the resolutions for approval of program revenue funded advance planning for Performing Arts Centers at UW-Green Bay and UW-Whitewater be tabled until such time as a regent policy on use of public funds is considered.

Regent Heckrodt requested that assurance be given the donors that this action did not indicate opposition to or lack of appreciation for their willingness to contribute money for campus buildings.

Regent Weinstein added that the person heading the fund raising effort for UW-Green Bay advised him that they would feel comfortable with a regent policy on the subject.

Approval of Minor Projects

The following resolution, which was unanimously approved by the committee, was moved by Regent Nikolay, seconded by Regent Schenian, and adopted unanimously by the board.

Resolution 3950: That, upon the recommendation of the UW-Eau Claire, Madison, Milwaukee, Parkside and Whitewater Chancellors and the President of the University of Wisconsin System, the following minor projects be approved and authority granted to plan, bid and construct, at the budgets and from the funding sources indicated. The funding sources are summarized as follow:

1987-89 Minor Project Allocation	\$ 465,000
Program Revenues	807,500
Maintenance Program Funds	260,000
Total:	<u>\$1,532,500</u>

✓ UW-Eau Claire - Budget & Fund - Approval of

-- ~~Service Building Addition, \$236,000, GPR Minor Projects Allocation~~ R 3950, pp 23-24

✓ UW-Madison - Budget & Fund - Approval of

-- ~~University Houses Drive Renovation Project and \$225,000, Program Revenues~~

✓ -- ~~Elizabeth Waters Four-Wing Electrical Update, R 3950, pp 23-24 \$249,500, Program Revenues~~

x ref Housing - (same) ✓ UW-Milwaukee - Budget & Fund - Approval of

-- ~~Fine Arts Building Addition, \$165,000, GPR Minor Projects Allocation~~ R 3950, pp 23-24

✓ UW-Parkside - Budget & Fund - Approval of

-- ~~Three Parking Lot Repairs Project, \$163,000, Program Revenues (Parking)~~ and

-- ~~Two Building Skylight Repair/Replacement, R 3950, pp 23-24 \$260,000, Maintenance Program Funds~~

✓ UW-Whitewater - Budget & Fund - Approval of

-- ~~East Campus Site Development, \$234,000 (\$64,000, GPR Minor Projects Allocation) \$170,000, Program Revenues)~~ R 3950, pp 23-24

In response to a question by Regent Fish, Vice President Brown indicated that the two building skylight repair/replacement could exceed the \$250,000 minor project limit because they actually were considered two separate projects and because the limitation did not apply to all-agency accounts.

Report of the Vice President

Information reports were made to the committee on bid openings and actions of the State Building Commission at its December 2 meeting.

✓ Charter Street Heating Plant - Regent Tour, p. 24

Tour of UW-Madison Charter Street Heating Plant

Following the meeting, the committee was given an interesting tour of the Charter Street Heating Plant. On behalf of the committee, Regent Nikolay extended appreciation to all those involved with the arrangements.

Admissions
REPORT OF THE EDUCATION COMMITTEE

The committee's report was presented by Chairman Grover, who stated that all regents had been invited to participate in discussion of the first two agenda items.

Report on Admission Standards/Categories and Program Caps, related to Enrollment Management, p. 25

The presentation included two documents: (1) a report on admissions categories and requirements to be in effect for students enrolling in fall 1988; and (2) an incomplete report on policies that had been developed to control enrollment in over-subscribed programs. In committee, a motion was unanimously passed that the report on program capping be delayed until the February meeting of the board.

Xref Academic Programs - (same)
Xref Enrollment - (same)

Extension - Scheduling of public hearings on Extension function, p. 25
Report on Integration of the Extension Function

Public hearings were scheduled, after which the consultants were to review the report and the hearing results.

Report of the Vice President

Vice President Trani reported the following to the committee:

✓ Scholarships - Report on 1987-88
Fulbright Scholarships, p. 25

Twenty four UW System faculty members had been awarded Fulbright Scholarships for 1987-88.

✓ Mission - Hearings scheduled 2-3/88; statements to Board 2/88; Board action 3/88, p. 25
Mission Statement

Mission statements were to be brought to the board in February, with hearings to be held in February and early March. Action by the board was scheduled for the March meeting.

✓ Excellence, Centers for - Board review due 8/88
Centers for Excellence

Centers for Excellence proposals, due July 1, would be reviewed by consultants during the summer and presented to the board in September.

Drop/Add Policies

An informational report on institutional drop/add policies was presented, in accordance with a legislative mandate in the biennial budget bill.

Moscow State University - Visit by delegation due 4/88, exchange agreement exploring, p. 26
Visit by Moscow State University Delegation

Dr. Trani had been notified that a high-level delegation from Moscow State University planned to visit in late April, to conclude an exchange agreement with UW-Madison. It was hoped that this first step would develop into a broader agreement between Moscow State University and the University of Wisconsin System.

Awards

Announcement of 1988-89 Sabbatical Awards, p. 26

The list of 169 faculty awarded sabbaticals for 1988-89 was presented. Women comprised 19.1 percent of the recipients; minorities were 4.3 percent.

Authorizations to Recruit

Authorization to Recruit to Fill Three Vacancies in the Department of Psychiatry, Medical School, UW-Madison, R 3951, p. 26

Resolution 3951, which was unanimously approved by the committee, was moved by Regent Grover, seconded by Regent Davis and adopted unanimously by the board:

Resolution 3951: That, upon the recommendation of the Acting Chancellor of the University of Wisconsin-Madison and the President of the University of Wisconsin System, the Acting Chancellor be authorized to recruit for Assistant Professors, Associate Professors or Professors, to fill three positions in the Department of Psychiatry, Medical School, University of Wisconsin-Madison.

Authorizations to Recruit

Authorization to Recruit for the Director of the Diabetes Research and Treatment Center in the Medical School, UW-Madison R 3952, p. 26

Upon motion by Regent Grover, seconded by Regent Davis, the following resolution, which was unanimously approved by the committee was unanimously adopted by the board:

Resolution 3952: That, upon the recommendation of the Acting Chancellor of the University of Wisconsin-Madison and the President of the University of Wisconsin System, the Acting Chancellor be authorized to recruit for an Associate Professor or Professor, Department of Medicine, Director of Diabetes Research and Treatment Center, Section of Endocrinology, Medical School, University of Wisconsin-Madison.

Authorizations to Recruit

Authorization to Recruit for an Associate Professor or Professor with Expertise in Clinical Nutrition, Medical School, UW-Madison

R 3953, p. 27

The following resolution, which was approved unanimously by the committee, was moved by Regent Grover, seconded by Regent Davis and unanimously adopted by the board:

Resolution 3953: That, upon the recommendation of the Acting Chancellor of the University of Wisconsin-Madison and the President of the University of Wisconsin System, the Acting Chancellor be authorized to recruit for an Associate Professor or Professor, with expertise in Clinical Nutrition, Medical School, University of Wisconsin-Madison.

Authorizations to Recruit

Authorization to Recruit for a Vice Chancellor and Dean of the Faculty, UW-Parkside

R 3954, p. 27

Resolution 3954, which was unanimously approved by the committee, was moved by Regent Grover, seconded by Regent Schenian and unanimously adopted by the board:

UW-Parkside - Staff - (same) but drops "UW-Parkside"

Resolution 3954: That, upon the recommendation of the Chancellor of the University of Wisconsin-Parkside and the President of the University of Wisconsin System, the request of the Chancellor to recruit for a Vice Chancellor/Dean of Faculty, UW-Parkside, be approved.

Scholarships - Establishments with UW Foundation funds of

UW University of Wisconsin Scholarship Program (second reading)

R 3955, pp 27-29

President Shaw announced that the University of Wisconsin Foundation had given permission to use the proceeds from a \$1.2 million endowment to fund this scholarship program for the first group of students.

The resolution was revised in committee to make clear that if university foundations provided \$250 per student, the UW System would match that amount, the monies to be used for programs to support students. The resolution then was unanimously approved by the committee.

It was moved by Regent Grover and seconded by Regents Hanson and Hassett, that the Resolution 3955 be adopted by the board:

Resolution 3955: WHEREAS: The Board of Regents recognizes the achievement and potential of Wisconsin's top high school students and places their enrollment in the University of Wisconsin System as a high priority; and

WHEREAS: The Board of Regents acknowledges the need for creative and dedicated efforts by each institution to attract and nurture these students; and

WHEREAS: Other states are funding extensive scholarship programs to attract the brightest students from a nationwide pool; therefore

BE IT RESOLVED: That

1. Upon recommendation of the President of the University of Wisconsin System, the Board of Regents establish the University of Wisconsin System Scholarship Program, consisting of two parts:

a. Beginning in Spring, 1988, all 106 All-State Scholars will be offered \$1500 per year scholarships to be used during their second, third and fourth year at any University of Wisconsin System institution, conditional on maintaining full-time status and a 3.0 GPA;

b. Each institution whose foundation agrees to provide \$250 for each first time enrollment of an All-State Scholar or National Merit Finalist at that institution will receive from University of Wisconsin System funds a matching \$250, monies which may be used at the discretion of the institution for on-campus programs in support of high achieving students.

2. This pilot project will be supported with private funds. The number of All-State Scholars enrolling in the University of Wisconsin System and institutional efforts to attract and retain the state's highest achieving high school students will be reported to the Board of Regents in November 1988.

In response to a question by Regent Weinstein, Regent Grover indicated that the \$1500 scholarships would come from interest on the \$1.2 million endowment.

Regent Davis noted that the second "WHEREAS" clause simply acknowledged the need for creative and dedicated efforts, rather than suggesting that the efforts be expanded. However, he felt that point was addressed to an extent in the body of the resolution.

Regent Nicholas stated that he was very pleased with this project and hoped it could be expanded. He thought the program would be an excellent one for the University of Wisconsin System, and he expressed appreciation to the Education Committee for its efforts to initiate these scholarships.

Regent Hanson commented that the project extended efforts that the universities themselves had been making. Noting that some of them had been doing remarkable work with their foundations to make more money available for such scholarships, she expected to see even greater efforts in the years to come.

Regent Hassett agreed that some institutions were making fine progress, not only in raising money, but in encouraging students, sending them letters, and inviting them to enroll. It was his hope that each of the system chancellors would follow these successful examples.

Regent Schenian asked if there was a deadline for completion of the pilot project, since the intention was eventually to request funding from the Legislature.

Vice President Trani replied that the board would receive a report next fall, before presentation of the biennial budget request. It could be determined at that time whether results were statistically significant.

Adding that the committee had decided not to define the term "pilot," Regent Weinstein explained that the committee did not want to commit itself to a long-term project, without having the right to back away if it was not effective. Even if the project were terminated, the students who were awarded scholarships would continue to receive funding.

Regent Heckrodt noted that the freshman year was funded by the federal monies, with the UW System awards to cover the succeeding years.

Put to the vote, Resolution 3955 was unanimously adopted by the board.

✓ UW-Milwaukee - Report on remedial education, p. 29
Minutes -> Report on Remedial Education, UW-Milwaukee, p. 29

Reporting on this item, Regent Grover said that, following lengthy discussion in committee, it was suggested that the State Superintendent, Chancellor Smith, and members of their staffs, meet with Milwaukee area school officials, curriculum and instruction coordinators, and counselors, to further consider the placement at UW-Milwaukee of students with adequate skill levels in mathematics and English.

Ref UW-Eau Claire - Five-year review for BBA in Management Info. Systems, pp 29-30

At the request of Regent Davis, the committee agreed that, in the future, material supplied to the regents would include enrollment projections and the financial projections that were made when the original proposals were approved by the board.

Disabilities - first reading (p. 30)

UW-System Policy and Guidelines on Non-Discrimination on Basis of Disability (first reading), p. 30

Regent Grover reported that the committee heard the first reading of a proposed UW System policy and guidelines on non-discrimination on the basis of disability.

It was requested that the document contain a working definition of "learning disability" and that a legal interpretation be provided concerning Section 504 of the Rehabilitation Act, and whether the proposed policy met those requirements. The policy was to be returned to the committee for action in February.

Appointment to Natural Areas Preservation Council - Appointment of Robert Englehard, R 3956, p. 30

Resolution 3956, which was unanimously approved by the committee, was moved by Regent Grover, seconded by Regent Davis and adopted unanimously by the board.

Prof Englehard, Robert - Appointed to Natural Areas Preservation Council R 3956, p. 30

Resolution 3956: That, upon the recommendation of the President of the University of Wisconsin System, the Board of Regents, acting pursuant to legislative direction, reappoints Professor Robert Englehard to a new two-year term (January 1, 1988 to December 31, 1989) and Associate Professor Arne Salli to a new three-year term (January 1, 1988 to December 31, 1990) as University of Wisconsin System representatives to the Natural Areas Preservation Council.

UW-Stout - staff

Edwin Biggerstoffs

Appointment of Dean of the School of Education and Human Services, p. 30
UW-Stout

Chancellor Robert Swanson announced to the committee the appointment of Edwin Biggerstoffs as Dean of the School of Education and Human Services, UW-Stout.

Regent Grover presented Resolutions 3957 and 3958, which were approved by the committee in closed session.

Professorships

Named Professorship, UW-Milwaukee

Upon motion by Regent Grover, seconded by Regent Davis, the following resolution was adopted unanimously by the board:

Resolution 3957: ~~That, upon the recommendation of the Chancellor of the University of Wisconsin Milwaukee and the President of the University of Wisconsin System, Louise S. Jenkins be appointed to the Walter Schroeder Chair in Nursing Research, School of Nursing, University of Wisconsin-Milwaukee for a three year term, 1987 through 1989.~~

Hart, Visiting Professor, College of Business Administration, ~~is~~ designated Wisconsin Visiting Distinguished Professor, College of Business Administration, University of Wisconsin-Oshkosh, effective January 1, 1988.

R 3958, PP 31-32

President Shaw noted that the Legislature and the Governor approved \$250,000 for appointment of ten distinguished professors. Those dollars were to be matched with institutional and private funds, so that competitive salaries could be offered. This was an excellent example, he observed, of cooperation between the institutions, the private sector and state government, in order to enable recruitment and retention of the best possible people. Outside consultants had been used in order to provide an objective view. Four more recommendations in the spring would follow these six initial appointments.

Put to the vote, Resolution 3958 was adopted unanimously.

Congratulating the six appointees, Regent President Weinstein observed that they had emerged as winners in a rigorous competition. It was a momentous occasion not only for them, but for the UW System and the Board of Regents.

REPORT OF THE PERSONNEL GRIEVANCE COMMITTEE

Regent Schilling, chairman of the committee, presented the report.

In July 1987, the board had received from Professor Eugene P. Nolen a petition for review of a decision by the Faculty Grievance Committee at UW-River Falls. President Weinstein appointed a three-member committee to review the petition, consisting of Regent Schilling, chair, Regent Hanson and Regent Nicholas.

At the first meeting, a question arose as to whether the grievance was properly before the board. While there had been at least two earlier cases in which the board had automatically granted review of a grievance through request of the grievant, a literal reading of UWS 6.02, *Wisconsin Administrative Code*, did not seem to permit such a review. At the committee's request, System Senior Counsel John Tallman did an extensive review of the history and origin of sec. 6.02, and also reviewed previous grievances that reached the board. The result was an opinion, dated December 8, which concluded that despite past precedent, the rule should be read to mean that this matter was not properly before the board and that a faculty member who is dissatisfied with the processing and result of his grievance on campus does not have a right, nor does the board have an option, to review it.

The committee met to discuss the matter by a telephone conference on December 7 and met again on December 10, at which time the committee heard from Mr. Edward Muzik, who had been designated by Professor Nolen to be his representative in this matter. Chancellor Thibodeau also was present and had the opportunity to comment, but declined to do so.

Concurring with Mr. Tallman's opinion, the committee recommended to the board the following resolution:

That, based on the recommendation of the Regent Personnel Grievance Committee, the Board of Regents declines to review the UW-River Falls decision on Professor Eugene P. Nolen's grievance.

In response to a question by Regent Weinstein, Regent Schilling explained that the committee's reading of s. UWS 6.02 was that it is a primary faculty responsibility to review peers. Only if the faculty committee recommends one solution and the chancellor does not agree, can the faculty committee recommend that the board resolve the dispute. It would not be a right of the grievant under this language to come to the board.

Both Mr. Muzik and Mr. Tallman had brought to the committee's attention a growing concern among faculty that access to the board was becoming more difficult. Therefore, the second recommendation of the committee was that the board ask President Shaw, in consultation with appropriate faculty and institutional representatives, to review the language of s. 6.02 to determine whether a change might be desirable, although such a change would be prospective and would not affect this particular case.

On one hand, Regent Schilling added, faculty might want to have a rule permitting them to come to the board, but on the other hand, they might prefer to preserve the current language as a statement of confidence in faculty governance in reviewing grievances of colleagues.

It was moved by Regent Fish and seconded by Regent Hanson that the resolution presented by the committee be adopted by the board.

Regent Flores asked whether the committee was satisfied that s. 6.02 was the only section relevant to the case, or whether there might be some broader authority which would allow the matter to come before the Board of Regents.

Replying that the committee addressed that question, Regent Schilling said s. 6.02 was the provision appropriate to this case and the one under which the matter had been reviewed at UW-River Falls. The board had approved the UW-River Falls procedures, which stated more clearly than s.6.02 that a grievance matter must be brought to the board by the faculty committee.

Regent Hanson pointed out that it had been Professor Nolen's decision to proceed under UWS 6.02 and that it was not up to the committee to determine whether there might have been another avenue of appeal.

In order to make clear in the resolution the basis for the committee's conclusion, Regent Weinstein suggested that the language of the resolution submitted by the committee be preceded by a clause stating "Whereas the Personnel Grievance Committee does not believe that the Board of Regents has authority to review this grievance." That amendment was accepted by the maker and seconder of the motion.

President Weinstein then called on Dr. Muzik, who had requested an opportunity to appear before the board as Professor Nolen's representative in this matter.

Noting that he had become Professor Nolen's representative by virtue of a letter delivered to the board office the preceeding day, Dr. Muzik said his purpose at this meeting was to speak on behalf of granting Professor Nolen a hearing.

While he did not deny that the board had a right to refuse to hear grievances, he felt the real issue was the grounds upon which the decision was based. In his interpretation, s. UWS 6.02 would not exclude a faculty member from bringing forth a case. In that regard, he raised several questions: First, whether the board should deny a tenured faculty member, who had given long service to the UW System, a hearing such as previous boards had extended to faculty under s. UWS 6.02. Secondly, he asked if the broad sweep of power granted the board in Chapter 36, Wis. Stats., would not override any interpretation of the Administrative Code. Third, he asked whether it was proper for the decision not to hear the case to be made in a telephone conference meeting which did not include Professor Nolen. Finally, he asked if no standing should be given to an assurance received by Professor Nolen from a UW-River Falls authority that he had a right to a hearing before the board.

With respect to those issues, Dr. Muzik made the following comments: First, to his knowledge, no grievant had been denied a hearing under s. 6.02. Second, he felt the regents were being asked to change a policy which had served the system well and which there had been no outcry to

change. Third, the board was being asked to limit its authority by a restrictive reading of s. 6.02. Fourth, Chapter 36 grants the regents broad authority to provide access to all citizens, including faculty, to do whatever is proper and convenient in its operating policies to carry out its mandate under law, and to be the supreme governing body of the system and its institutions. He considered the interpretation, that the board could not grant hearing to a faculty member who had a grievance affecting his tenure rights, to be contrary to that broad grant of authority. Fifth, he believed the recommendation being made to the board was contrary to good public policy, especially since no one had brought a claim that the board acted wrongly in its previous hearing of grievances under UWS 6.02. Sixth, he had received the preceeding day the opinion of legal counsel which buttressed the conclusion already reached by the committee. At the December 10 meeting, Mr. Tallman made a brief summation of his arguments, and Dr. Muzik spoke extemporaneously in opposition to the points made in that summation. Seventh, he commented that the committee spent more time deciding not to hear Professor Nolen than if they had heard him and then formulated a recommendation. Eighth, he said that Professor Nolen received assurances from the vice chancellor of UW-River Falls that he had a right to a hearing before the Board of Regents. Ninth, he was concerned that there was a growing perception that the Board of Regents was unwilling to hear personnel issues. Of the many grievances filed each year, most were settled locally and few were appealed to the board. There had been no assertion that the number of such cases strained the resources of the UW System. To change policy, in his view, would increase the perception that the Board of Regents did not wish to hear faculty appeals. Finally, he commented that if the committee's recommendations were adopted, the board would appear to be saying that those grievants who preceded Mr. Nolen had a right to a hearing. Then, if the wording of 6.02 were to be changed after review, those who followed Mr. Nolen would have that right, and only Mr. Nolen would have been denied the right to appeal.

It was Dr. Muzik's recommendation that the board follow previous practice and grant Mr. Nolen a hearing.

On behalf of the committee, Regent Schilling made the following points in response to Dr. Muzik's comments: First, he agreed that the committee spent considerable time discussing the procedure in this matter, with the realization that consideration of the case on its merits would mean being asked to substitute regent judgment as to a professor's teaching abilities for the judgment of the faculty at that institution. Second, he was disappointed that Dr. Muzik would emphasize the fact that he became the representative of Professor Nolen less than a day ago, when Dr. Muzik was present at previous committee meetings and had been advised repeatedly that he could be considered Professor Nolen's representative only if the professor so advised the committee. Professor Nolen's letter had not been delivered to Secretary Temby until December 10. Third, proper notice of the telephone conference meeting had been given in conformance with the open meetings law. The secretary confirmed that notice of the meeting had been published as required by law.

Regent Flores commented that it did not seem to him that the language of UWS 6.02 prohibited the Board of Regents from reviewing the actions of the faculty committee. It does not state that the institutional decision is the final step in the grievance, nor does it state that the grievant is prohibited from appealing to the board.

Regent Schilling noted that the UW-River Falls faculty rules, developed under the auspices of UWS 6.02, interpreted the rule in the same way as the committee interpreted it. The faculty rules were approved by the Board of Regents.

Mr. Tallman added that the UW-River Falls faculty rules specified that a grievance would be heard by the board only when there was a conflict between the faculty committee and the chancellor in disposition of the matter. He had contacted UW-River Falls about the question and had received a written response that this was the clear intent of the faculty when the rule was written.

Regent Weinstein asked if the board had been made aware at the time the rules were approved that its jurisdiction over such matters was foreclosed, and Mr. Tallman replied that there had been no specific consideration of that point.

Regent Weinstein asked if any of the institutions had rules which would not preclude the board from hearing a case at the request of the grievant.

Mr. Tallman replied that two institutions specifically included a provision that the grievant may petition the board for review. In his opinion, those rules were inconsistent with UWS 6.02.

Regent Schilling noted that the board required institutions to establish grievance procedures that meet all the requirements of due process. In this instance, the final arbiters were at the campus level. Professor Nolen's grievance had gone through all campus processes, and the committee believed that s. 6.02 did not give him the right to bring to the board a grievance that had been decided at the institution.

Regent Davis inquired as to whether the board had at any time indicated a clear intent to deny access by a grievant. If it had not, he was concerned about denial based on approval of institutional procedures without any specific indication of regent intent.

Regent Schilling pointed out that if the board adopted a policy which provided access to the board for grievants, many more appeals would come to that level, and faculty and chancellors would not be perceived as final arbiters of those matters. While in other types of matters, such as complaints and tenure denials, there was provision for access to the board, that was not the case for grievances.

Regent Davis added that he would not argue the merits of hearing grievances because of the concern stated by Regent Schilling. He simply questioned whether the board had made a deliberate decision about policy in such cases.

Regent Schilling noted that UW-River Falls had thoroughly followed its interpretation of UWS 6.02 in this case.

Regent Clusen expressed concern that the board might, without due consideration, have approved faculty rules for a number of institutions which precluded access to the board in cases like this. She did not believe that was the board's intention, particularly since such rules provided for board review only on the recommendation of a committee which might already have decided that the case was without merit.

Regent Schilling pointed out that the UW-River Falls rule followed faithfully the wording of UWS 6.02, which provided that the only way a grievance could come to the board was if the faculty committee is dissatisfied with the resolution on campus. He observed that this discussion highlighted the need for the regent committee's two-pronged recommendation: first, that the request of Professor Nolen be denied; and secondly, that the whole issue of the consistency and clarity of the rules for such matters be reviewed. The committee did not believe it would be fair to delay a decision in Professor Nolen's case by involving it in a discussion of policy.

Regent Davis felt an approach was needed whereby the board would have the ability to deny a hearing, as well as the ability to grant a hearing. While he supported the resolution originally presented by the committee, he urged deletion of the "whereas" clause because it stated a limitation on the board's authority which he did not think should be adopted at this point.

Urging support for the resolution, Regent Nicholas noted that the committee had carefully considered interpretation of the rule and that Professor Nolen's grievance had received thorough consideration at UW-River Falls.

While he thought the board should have a policy on hearing grievances, Regent Flores felt this one was being denied on the wrong basis. He disagreed with the interpretation that under UWS 6.02 the grievant could not appeal to the board.

Noting that Mr. Nolen still had access to judicial review, Regent Schilling said that the resolution would declare that his administrative remedy was exhausted and allow him to proceed to court if he wished. If the board heard the matter and denied it, he would still have the same right of judicial review.

Regent Weinstein expressed concern that determination of the board's jurisdiction was made by institutional rules, rather than by the board, so that a grievant at UW-Oshkosh could appeal to the board, while a grievant at UW-River Falls could not.

Regent Nicholas agreed that there should be consistency in institutional rules. He noted, however, that the board had approved these differing procedures.

Regent Davis inquired as to the legal standing of the "whereas" clause, since he was uncomfortable with that clause but not with the rest of the resolution.

Regent Weinstein replied that it set forth the basis for action, which otherwise was not stated in the resolution.

Regent Schilling added that the record would include the opinion of counsel on which the decision was based.

Resolution 3959 was adopted on a roll call vote, with Regents Grover, Hanson, Hassett, Heckrodt, Lyon, Nicholas, Schilling and Weinstein voting "Aye" (8), and Regents Clusen, Davis, Fish, Flores, Nikolay and Schenian voting "No" (6).

Regent - Personnel Grievance Committee - Decision not to review Eugene P. Nolen case, R 3959, pp 32-38

Resolution 3959: Whereas, the Regent Personnel Grievance Committee believes that, under sec. UWS 6.02, Wisconsin Administrative Code, the Board of Regents does not have authority to review the grievance of Professor Eugene P. Nolen,

UW-River Falls - Decision not to review personnel case of Eugene P. Nolen, R 3959, pp 32-38
Be it resolved that, based on the recommendation of the Regent Personnel Grievance Committee, the Board of Regents declines to review the UW-River Falls decision on Professor Eugene P. Nolen's grievance.

Regent Schilling requested on behalf of the committee that the system president be asked to study the matter of rules regarding grievances, out of the context of this particular case, and report recommendations to the board.

Nolen Eugene P. - Personnel Grievance Committee decision not to review
President Weinstein added that the review should include each institution's rules. *UW-River Falls personnel case, R 3959, pp 32-38*

Regent Schilling thanked Regents Hanson and Nicholas for their participation in the committee's work.

Regent - Meetings - Cancellation of 1/88 meeting, R 3960, p. 38

ADDITIONAL RESOLUTION

Upon motion by Regent Nikolay, seconded by Regent Schenian, the following resolution was adopted unanimously:

Resolution 3960: That the meeting of the Board of Regents scheduled for January 8, 1988, be cancelled.

Elvehjem - Board thanks for hosting dinner, p. 38

Vet. School - Board thanks for tour, p. 38

President Weinstein thanked Acting Chancellor Cohen, his staff and the staff of the Elvehjem Museum and the staff at the School of Veterinary Medicine for their hospitality to the regents in providing tours of the school and museum and in hosting a dinner at the museum.

At 12:20 p.m., the following resolution, moved by Regent Schenian, and seconded by Regent Davis, was unanimously adopted on a roll call vote, with Regents Clusen, Davis, Hanson, Hassett, Heckrodt, Lyon, Nicholas, Nikolay, Schenian, Schilling and Weinstein voting "Aye" (11), and no regents voting "No."

Resolution 3961: That the Board of Regents recess into closed session to consider personnel matters, as permitted by s. 19.85(1)(c), Wis. Stats., to consider UW-Milwaukee honorary degrees and an appointment to the UW Centers Board of Visitors, as permitted by s. 19.85(1)(f), Wis. Stats., and to confer with legal counsel, as permitted by s. 19.85(1)(g), Wis. Stats.

CLOSED SESSION ACTIONS

The board arose from closed session at 12:45 p.m. and made the following announcements:

UW Centers - Bd of Visitors

Resolution 3962: That, upon recommendation of the Chancellor of the UW Centers and the President of the University of Wisconsin System, Mr. Thomas Alby ~~is~~ appointed to the UW Centers Board of Visitors, for a term ending June 30, 1989, R 3962, p. 39

Chancellor

Resolution 3963: That, upon recommendation of the President of the University of Wisconsin System, Bernard C. Cohen return to his permanent appointment as Vice Chancellor of ~~the University of Wisconsin-Madison,~~ effective January 1, 1988, ~~at an annual salary of \$86,000.~~ R 3963, p. 39

Chancellor

Resolution 3964: That, upon recommendation of the President of the University of Wisconsin System, Phillip Certain return to his permanent appointment as Associate Vice Chancellor of ~~the University of Wisconsin-Madison,~~ effective January 1, 1988, ~~at an annual salary of \$72,923.~~ R 3963, p. 39

Cohen, Bernard - Returned to his permanent appointment as Vice Chancellor, UW-Madison, as of 1/1/88, R 3963, p. 39

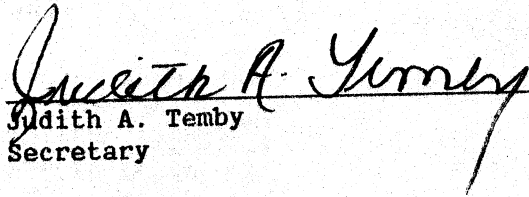

Certain, Phillip - Returned to his permanent appointment as Associate Vice Chancellor, UW-Madison, as of 1/1/88, R 3963, p. 39

Resolution 3965: That, upon the recommendation of the Chancellor of the University of Wisconsin-Milwaukee and the President of the University of Wisconsin System, John H. Schroeder ~~is~~ appointed Vice Chancellor for Academic Affairs at the University of ^{UW} Wisconsin-Milwaukee, ~~effective immediately, at an annual salary of \$81,000.~~ → R 3965, p. 40

Performance Evaluation (8607-27)

a. Change Order No. M-3 ADD \$ 39,019.00

III. REPORT OF ACTIONS TAKEN (MEMOS OF AGREEMENT)

✓ Athletics - Agreement w/ Dane County Coliseum for basketball, Napier, Item A.

A. On signature of the UW-Madison Vice Chancellor for Administration, an agreement has been executed with representatives of Dane County for use of the Dane County Coliseum by the University for three home basketball games during the 1987-88 season (12/01/87; 01/03/88, and 02/28/88). UW System General Counsel Stathas assisted the staff of the Division of Intercollegiate Athletics in the review of this agreement which provides for payment of \$4,500 per game. For this fee, the lessor will install the basketball floor, provide all normal basketball seating, ushers, ticket takers, door guards, first aid attendant, maximum three hours of switchboard service to end 1/2 hour after each game starts, normal maintenance and janitorial service, and police. The university agrees to pay all guarantees for its opponents and all officials for the conduct of the games. ✓

✓ UW-River Falls - Bldg. Easement - Electric easement, Napier Item B

B. Under authority granted by Resolution 518, adopted June 8, 1973, the officers of the Board have executed the following two easements:

From the Board to the City of River Falls for development of an electric transmission line and a substation on UW-River Falls property. The siting of the substation on university property is to the advantage of the university as the campus main feeder can then be served from two directions, reducing the possibility of a major outage. ✓

✓ Bldg. Easement - Easement with Madison Gas & Electric Co. for electric service to west campus restroom & service bldg., Napier Item B

From the Board to Madison Gas and Electric Company for the purpose of providing underground electric service to the UW-Madison's new west campus restroom and service building. ✓

✓ Experimental Hazard - Permit for hazardous waste incinerator located at Arlington Farms, Napier Item C

C. A Certification executed by the UW-Madison Vice Chancellor for Administration has been submitted to the Department of Natural Resources for issuance of a permanent operating license for the hazardous waste incinerator at the Arlington Agricultural Research Station. Prior to DNR assumption of authority for regulating hazardous waste facilities in the state, a final operating license had been granted by the Environmental Protection Agency. Since that time, the incinerator has been operating under an interim license from the DNR pending review and approval of the feasibility and plan of operation reports. DNR approved those reports on September 30, 1987 and will issue the operating license upon receipt of the university's application. The license is valid for 10 years, subject to payment of biennial licensing fees. ✓

✓ Hazardous Waste - (same)
