The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

The Daily Cardinal

Owned and Controlled by the Student Body of the University of Wisconsin

VOL. XXXII. NO. 145

MADISON, WIS., WEDNESDAY, MARCH 5, 1922

PRICE 5 CENTS

FEW STUDENTS SEEK OFFICE IN ELECTIONS

Booths to Be Placed in Private Rooms and Voters Checked

TO ELIMINATE POLITICS

A notable lack of candidates for campus officers is the characteristic feature of the coming student elections.

Thus far the only student office for which there are a number of candidates is the Cardinal Board of Control to which Carroll Callen '25, who is running for the two-year term, and Robert Merrill '25, who is running for one of the one-year terms have been added.

The method of election will also be changed from that of any previous year. Election booths will be placed in rooms in which students may be checked while entering and also checked again while going out.

The reason for doing this, according to Maynard Brown, chairman of the election committee, is to aid in eliminating politics by compelling the students to vote while in the election room, and not permit them to go out and let some politician dictate their vote for them.

The fact that a quorum is needed to vote favorably toward passing the amendments to the Cardinal constitution, facilities for voting will also have to be improved. A quorum of the student body is now one half of the entire student body. This means that over 3,500 students have to vote to have the amendments adopted to the constitution before they can be added.

In order to make it possible for that number of students to vote, more buildings will have to be acquired. In previous years only three buildings, the Biology building, Engineering building, and Agricultural hall, have been used for this purpose.

ENGINEERS HEAR TALK ON VALUE OF RADIO-PHONE

Lectures Delivered in Schenectady Heard in Sterling Hall

From the General Electric plant at Schenectady, N. Y., 30 members of the local chapter of the American Society of Mechanical engineers heard talks at Sterling hall last night upon the future value of the radio-phone by Dexter S. Kimball and Calvin W. Rice, president and secretary respectively of the engineering society.

Mr. Rice said that the time would not be far distant when every home, hospital, light-house, and ship would consider it practicable to install one of the instruments and that news would be disseminated to the citizens at large as soon as it was received by the press.

M. F. Hanson, chief operator at the university intercepted an exchange of greetings between the Kiwanis club of Toronto, Can., and the Kiwanians of Albany, N. Y. John O'Connor, president of the Toronto club dwelt upon the amicable business relations existing between Canada and the United States for the past 104 years. Mr. O'Connor also pointed out the important role that the 70,000 Kiwanians of North America are playing in the maintenance of this international friendship.

The Choral union concert at Music hall was broadcasted to radio-phone users throughout the middle west by Mr. Hanson following the meeting.

Nerve Center Of University Under Physics Building

The nerve center for the whole university is situated in a little room in Sterling hall under the physics auditorium. Truly this is where the university's impulses focus — the telephone exchange.

Four operators are kept busy putting up connections, answering foolish questions, and using that great gift called imagination. Students often do not wait until they are connected with the clinic, but pour out the stories of their ailments into the ear of an unsympathetic operator, according to the chief operator.

The names of university professors are mangled almost beyond recognition. Who but an ingenious operator, would connect a voice pleading for "Professor Vaccination" with "Prof. Max Mason?"

About 2,000 calls are answered daily and few of these are calls by number. Over 50 per cent of them are requests by the name of professors or departments, which necessitates an intricate system as there are 607 telephones operated by the university exchange.

In 1906 the university exchange was established on the main floor of science hall, and was transferred to Sterling hall shortly before last Christmas vacation because a more suitable room was obtainable.

By operating its own exchange the university has cut down telephone expenses practically 40 per cent, it was learned at the office of the university business manager. The equipment is leased by the university from the Bell telephone company. None of the fixtures are state property. The operators are employees of the telephone company, and one male student has the position of night operator in the exchange at Sterling hall.

Zona Gale to Give Lectures on Novels

Zona Gale, novelist, short story writer, and graduate of the University of Wisconsin, will appear here for the first time as a special lecturer for the department of English, on April 25, 27, and 28. She will give her lectures at 4:30 in 165 Bascom hall on subjects dealing with the modern novel.

Beginning a lecture tour of several universities and colleges, Miss Gale will make her first visit at Wisconsin. The subjects, based on her practical experience in the literary world, as announced by the English department are: "The Novel," "The Novel and Beauty," and "Making a Play from a Novel." "Miss Lulu Bett," a play written from Miss Gale's novel by that name, and other writings for popular story magazines have given Miss Gale a practical understanding of her subjects.

During last year's summer session, the university employed Miss Gale as a lecturer in the department of English, and recently has employed her for the coming summer.

MOTION PICTURES OF BALL TO BE TAKEN

Moving pictures will be taken of the Military ball by the Strand photographer. These pictures will portray the unusual as well as the usual features seen at the ball. Approximately 1,000 feet of film will be used which will show more detail than the moving pictures taken at the Prom.

EDWIN BOOTH ELECTS

Edwin Booth dramatic club announces the election of Henry Klos '24, Fulton Lieberman '25, and Thomas Wood '23. Regular tryouts will be held after vacation.

RURAL NEWS IS IMPORTANT, SAYS PROF. A. HOPKINS

That the food exporting nation is the ruler over the food importing nation, and that because agriculture is of such importance to the country, agricultural journalism should be given an important consideration, was the substance of a talk given by Prof. A. W. Hopkins of the department of Agricultural Journalism before a meeting of the Press club last night.

"Agricultural products are of greater value than those of any other industry. Eighty per cent of our commerce is agriculture. Materials for our clothes, all our food, half of the earnings of the railroads, and a stream of rugged people are all traceable to our rural life. Take away from this university W. A. Henry and S. M. Babcock, and you would have a college in place of a university."

Professor Hopkins further pointed out that Wisconsin is a great agricultural state; that our location is remarkable, and that if agriculture were removed, Wisconsin industry would be gone. In this great agricultural state, the country weekly plays a large part, and has a chance to play an even greater role.

The club will give its annual party, pi-night, on May 6. Allen Walters, '24, and Alfred Willoughby '24, were elected to membership.

KITTELESON GETS 2,500 MAJORITY

Rhode Wins in Fifth Ward; Mrs. F. T. Paxon Behind

I. Milo Kittleson was re-elected mayor of Madison yesterday by defeating Frank C. Bled 8,739 to 6,429. The vote in student districts was quite close, but Kittleson succeeded in gaining a three to one lead in the tenth ward, and also much support from the first, second, fifth, sixth, and seventh wards.

Aldermen elected in the student districts are first ward, J. L. Starr; second ward, G. H. Mason; third ward, G. H. Breitenbach; fifth ward, A. R. Rhode, and ninth ward, Thomas McGowan.

Full reports for treasurer were not in at a late hour last night, but in five wards Carl Moe led over John Taylor four to one. Two student wards supported Moe by a large vote.

Candidates for the judicial bench showed A. C. Hoppmann leading over J. H. Feeney, in the superior court. E. N. Warren, E. J. Reynolds, and Henry Casson were running close for the bench in superior court with only slight margins for each of the three candidates. Returns for judge for the Supreme court were coming in slowly, but Burr W. Jones was leading Kleist by a large vote late last night. The fourth was the only ward showing strong support for Bled.

Only a few returns on elections for the school board were in at a late hour last night. John Moran and Regina Groves had a slight lead over Mrs. F. L. Paxon.

UNIVERSITY MIXER TO BE HELD ON SATURDAY

The committee of the Union board promises the best mixer of the year in the men's gymnasium Saturday evening. S. G. A. will serve refreshments and Thompson's 10-piece orchestra will furnish music. Tickets may be purchased at the door for 25 cents, the proceeds of the event to go to the Memorial Union building.

KEEP OFF OF LAKE ADVISES CAPT. ISABEL

Water Too Cold to Take Chance, Says University Life Saver

LAUNCH CARDINAL SOON

Work on the Cardinal, university life boat, will begin today, and it is expected that the boat will be in the water by the end of the week, according to Captain Theodore Isabel, university life guard, who returned last night from a trip to Chicago. University regulations forbid the use of canoes until the Cardinal is in service.

"It isn't safe to go out in canoes yet," said Captain Isabel last night. "We've got nothing but a rowboat to do rescue work with. And I've noticed that people who turn over in the early spring are just about perished when they get pulled out, even when we have the Cardinal."

Violations Costly

Plans to improve university life-saving facilities are being considered by Dean S. H. Goodnight and Business Manager Phillips, but no definite plans have as yet been formulated, it was learned yesterday.

"Every case of drowning we had last year was a result of violating regulations," said Dean Goodnight in urging that students comply with boating rules. "In one case the students took no life preservers with them, and in the other they were warned to stay near shore."

Take Chance

"Sunday there were two fellows out there trying to sail a canoe among the chunks of ice," said Joe Steinauer, swimming instructor. "Those fellows would have had a slim chance of getting out of there if anything had happened. It would be impossible to stick to an overturned boat for more than thirty (Continued on Page 12)

FOREST LAB TO TEST STRENGTH OF YELLOW PINE

Structural Power Determined By Means of Huge Machine

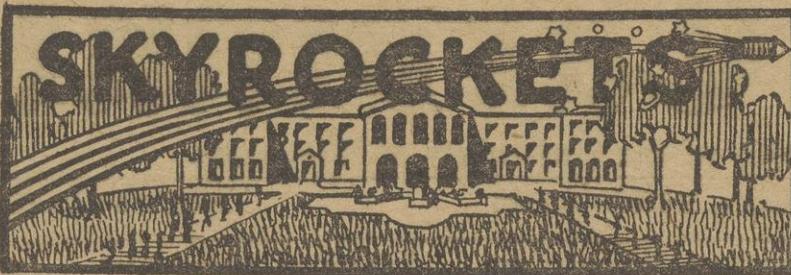

Exerting a pressure of 10,000 pounds at a time upon a Southern pine beam until it breaks constitutes the test for relative column strength of a timber 12x12 inches by 24 feet being conducted by the Forest Products laboratory. The tests are being made at noon each day in the barracks opposite the stock pavilion and are public.

Exactly 20 timbers of Southern pine are being used in the tests and a like number of Douglas firs are being tested in the same manner. The wood was cut during the winter months. Forty timbers of the pine have been cut recently and will be tested in two years.

Structural engineers will benefit from the results of the tests in determining strength values and what formulae are best. Pine and fir were selected because they are representative of the material now available for structural work. The wood varies in grade from rough to practically clear.

The tests will be made with pin end connections. A huge beam testing machine, purchased two years ago is being used for the first time. The pressure will be applied daily until the beam breaks. It has been estimated that only 700,000 pounds will be necessary although the machine is capable of applying 1,000,000 pounds.

Approximately four weeks will be devoted to the tests.

GOOD morning gents—

DON'T be alarmed. The advent of all the La. Palinas on the Hill yesterday was only due to the activities of our promising young politician, Daniel Quincy O'Neil. Other persuaders, surrounded by glass instead of wood, were dispensed on Lake street about noon. O, yes, we voted, several times.

OUR WEEKLY SCANDAL

Far be it from us to wreck a loidy's good name, but there was a certain young Pi Phi, whose initials comprise the missile of an Air-Rifle, who was tearing up and down State street in a car at a speedy rate last Saturday night. The damsel was entirely surrounded by S. A. E.'s, particularly one J—y D—d, and while we wouldn't swear to it, our B. P. eye would describe the condition of the party as one of slight (deleted by censor).

SIAMESE NATIONAL LOCOMOTIVE
O — WA — TA — NA
O — WA — TA — NA
O — WA — TA — NA

SIAM.

JIM BRADER, and the other charming young Beta, Herb Taylor, seem quite lost now that their two bottles of peroxide have wended their Orpheumistic way northward.

P. S.—It has just been discovered that Jimmy's middle initial is N. Remember that song she sang about Nat'an?

GORHAM STREET DIRGE
There is a young Pi Phi named Cheatham
Plays bridge with the boys just to beatham,
A Phi Gamm named Max
Brings peanuts in sax
With him she goes out just to eatham.

Her friend is a Pi Phi named Dot
Who goes out with Arthur a lot,
I know what will happen
If dates here don't slacken—
They'll get bounced out of school like a rock.

JELLYFISH—What's all the excitement?
Crab—Two scallops just got arrested for doing a mussel dance.

IT IS rumored hereabouts that the School of Law is now offering a course in Gordon Gin—one-fifth a week.

WANT AD COLYUM
ANYONE seeing a young lady walking down State street with two pairs of trousers, a pair of No.

Prof. Cestre to Give Third Lecture Friday

The third lecture of the series by Prof. Charles Cestre on the "Contribution by France to the Human Ideal" will be given on Friday, April 7, instead of on Wednesday, April 5 at 4:30 p. m., in 165 Bascom hall. This change has been made because of the lecture by Mme. Castelvecchio which can be given only at that time.

10 shoes, and another small article of more personal nature please communicate with me. These articles taken from my room the day of the Jamboree and I suspect the weaker sex.

SANDY DUCKETT.

OUR charming young Alpha Chi O, Irene Salb, is now out on bail. She was arrested by Dean Nardin for attending a Sunday night dance at the Candy shop some weeks ago. The other girl was not caught.

MY WOID!

Bowery Kid (out for a walk in the country)—O, see the party boid!

Teacher—Johnny, that isn't a boid, that's a bird.

Bowery Kid—Gee, dats funny, it sounded just like a boid to me.

PHARMACY FABLES

The Sig Chis were assembled for one of their regular informal meetings in the second pew at the Pharmacy. There was much noise and disturbance. Finally Paul Gangelin called for silence: "Order, order!"

RULES FOR PLEDGES
(Continued from the Tri Delt handbook)

Rule 6. Having made a date it is necessary to break the following excuses have been found satisfactory among Deltas:

- Mother, father, or friend of the family came to town;
- Unexpectedly called home (mother is giving a bridge party);
- Have your room mate telephone to say that you are not feeling well or that you are in the infirmary;
- Previous date that you had forgotten about and can't evade;
- Tried to break the date I had to give you one, but couldn't.

Rule 7. When you meet a man that you have broken a date with and want to make him feel good about it:

- Tell him that you had a terrible time on the night in question;
- Tell him that you thought about him constantly;
- Tell him that he is a much better dancer and that all the Deltas like him the best.

ANNOUNCEMENT

Wun Hungh Lo is now in the laundry business on State street, and will welcome business.

Lasker Backs Harding Ship Subsidy Bill

Makes Plea Before Joint
Congressional Hearing
Opening Today

WASHINGTON—Joint congressional hearings on the administration's merchant marine bill were begun today with republican leaders confident the house would be able to act on the measure before the close of the present session but generally doubtful as to whether the senate would find time to dispose of it until after congress reconvenes in December.

The senate commerce committee and the house merchant marine and fisheries committee will hear the testimony of shipping board officials and then ascertain the views of both proponents and opponents of the legislation.

Prompt action by the senate and house on the administration ship subsidy bill was urged by Chairman Lasker of the shipping board today. Delay may be fatal he declared, adding that the board would "view with alarm inaction by this congress" on the legislation which the president had advocated in behalf of the American Merchant marine.

Cost of Special Session is \$6,000

The cost of the special session of the legislature which completed its work on Tuesday, March 28, will approximate \$6,000, according to figures furnished by Elmer S. Hall, secretary of state.

Actual expenditures on mileage to members and for wages of legislative help amounted to \$5,636.70. Printing the one item yet unpaid, on which bills have not been received, is not expected to exceed \$500 in cost.

Gov. Blaine estimated the cost of the session at \$8,000. Expenses of the legislature are taken from the general fund of the state, and are not limited. The greatest part of the cost of the special session was in payment of mileage to the 183 members.

No wages are paid the legislators for attending the extraordinary sessions, their entire compensation being \$500 for the two year term.

MARSHALL WILL GIVE LECTURE TO DAIRYMEN

C. V. Marshall, of the Marshall Dairy laboratory, will give an illustrated lecture on his trip to Jamaica. He will deliver his talk Wednesday at 4:30 in the Dairy lecture room.

The lecture will be open to all students. Mr. Marshall comes here under the auspices of the Dairy Science club.

Senate Farm Body For Wilson Dam Budget

WASHINGTON—The senate agricultural committee virtually decided today to seek senate approval to an amendment to the army appropriation bill providing \$7,300,000 for resuming work on the Wilson dam at Muscle Shoals and to begin hearings next Monday on all private offers on the Muscle Shoals properties.

Lone Fireman Saves Ship From Burning

HOBOKEN, N. J.—The former U. S. army transport Mongolia, veteran of many adventures on the

seas, escaped destruction by fire at a local dry-dock today through efforts of firemen assisted by Tom Waldron, of Jersey City, an oiler. When the blaze was discovered in the engine room Waldron placed a wet towel around his head, grabbed an acetylene torch, plunged through clouds of smoke and burned a hole in a steel bulkhead through which tons of water were poured by helmeted firemen. Officials estimate the damage would be between \$10,000 and \$20,000.

GEORG' ANN KIMBERLY '24 PLAYS
LEADING ROLE IN VARSITY MOVIE

Comedy And Parody
Are Paramount
At Orph

By P. H. J.

Several acts on the present Orph bill are all that may be desired in the line of comedy, parody, and rhapsody. None of the offerings start off particularly promising, but as they mature each more than fills the bill. Mary Haynes' repertoire of exclusive songs and patter copped an unusual amount of appreciation, while Mel Klee, the black boy, pleased with a mellow voice and droll remarkings.

Rasso

Expert juggling of everything on the stage including a talking machine with the records.

Meeker & Kent

Monkey business by two of the noisiest players seen or heard this season. Nonsensical chatter coupled with music whose chief virtue was its blatancy.

Muldeon, Franklyn, & Rose

The typical act "in third" with the grand piano, the tuneful interpolator, and the dancing partners. The bowery dance was unusually picturesque and violent.

Mel Klee

Lots of laughs and pleasing songs afforded by a comedian who is adept in his line.

Mary Haynes

Such an abundance of novelty songs is rarely offered. Her offering of Dan McGrew was surprising as well as extraordinarily appropriate.

The Three Regals

Three men who have a good time hanging by the teeth from every imaginable contrivance found in a blacksmith shop. Their jaw strength is appalling.

**Nolte in Charge
of Decorating
State Capitol**

FREDERICK W. NOLTE.
—Courtesy De Longe

Frederick W. Nolte, '22, is in charge of the work of decorating the state capitol for the 1922 Military ball, which takes place Friday night. He is a member of Tau Beta Pi, Eta Kappa Nu, Scabbard and Blade, and Acacia fraternity. He is president of the engineers' student-faculty committee, secretary-treasurer of Polygon, and a member of A. I. E. E.

Last winter Nolte was assistant chairman of the ice carnival.

**BIRGE PRAISES
DRAMATIC WORK
OF HARESFOOT**

**Purnell Receives Letter of
Congratulation From
President**

In a letter recently received by William H. Purnell '22, Pres. E. A. Birge commends the work of the Haresfoot club, and states that he believes it is doing worth-while activities.

"The importance of the drama as an educational agency and the success of the Haresfoot club in producing original plays for many years impel me to commend especially the work of this campus organization," is the statement made by President Birge.

Other well known people who are interested in the productions of the Haresfoot club include Miss Zona Gale '99, novelist, playwright and author of "Miss Lulu Bett," the Pulitzer prize play of 1921. "I am in complete sympathy with the work which Haresfoot is doing. The task of writing, directing, and producing an original play in its entirety is no small one. Haresfoot is doing amateur work of a high grade."

Otis Skinner, the American actor now on tour with "Blood and Sand," sent the following greeting to the club at the time rehearsals were started. "I trust the Haresfoot club will prosper and achieve great things through the coming year, and through ensuing years."

Interest in the production of "Kitty Corner" and its appearance throughout the state is shown by the numbers of appeals for tickets which come daily to the Haresfoot office in the Union building.

**Tau Kappa Epsilon
Purchases New Home**

The Tau Kappa Epsilon fraternity, which was established here in 1917, has purchased the L. S. Hanks home at 216 Langdon street. It was understood that the price paid was approximately \$40,000. In addition to the property belonging to the house they purchased a bordering strip of land which extends from Lake Lawn place to Lake Mendota. \$10,000 will be spent in remodeling the place. Plans for the first floor include a large ballroom.

**Annual "Y" Banquet
To Be Held Tonight**

The annual election banquet, for members of the "Y," will be held in the parlors of the university "Y" Thursday evening at 6 o'clock.

At this banquet the officers for next year will be elected. Those running for office are Worth E. Shoultz '23 for president, Carl R. Rogers '24 and Haskell Coates '24 for vice-president, Loren Clark '23 and Elmer Gesteland '23 for secretary, and Harry Augustine '23 for treasurer.

Reports will be given, at this time, by the members of the cabinet on the results of the activities of their various committees.

Frederick E. Wolf, secretary of the university "Y," will report on the accomplishments of the Y. M. C. A. during the last five years.

**Y. W. C. A. Ratifies
New Amendment**

Final ratification of the personal basis membership amendment was adopted Monday at the annual business meeting of the Y. W. C. A. held at Lathrop at noon.

Since the adoption of the new membership requirement which is made on a broad Christian basis free from every kind of sectarian bias the active enrollment of the association has increased to 1,140, according to the report of Catherine Wheeler '22.

The reports of the following work were read and were accepted by the advisory board: finance, Cleo Parsley '23; social service, Miriam Arey '23; social, Betty Torkelson '23; conference, Martha Whitlock '22; industrial, Gladys Haskins '22; Y. W. C. A. board, Merle Shaw '23; sophomore commission, Paul Newell '24; change in cabinet, Isabelle Capps '23.

Miss Margaret H'Doubler and Prof. R. H. Whitbeck were elected members of the advisory board at a meeting of the board which followed the regular meeting.

**FRACKER TO ADDRESS
AGRIC GRAFTERS' CLUB**

D. S. B. Fracker of the State Entomology department will address the Grafters club on the subject of "State Nursery Inspection" in the Horticulture building, at 7:15 o'clock this evening.

Dr. Fracker is an authority on this subject and comes highly recommended. Sivitors are invited to attend the lecture, and refreshments will be served. There will be a short business meeting of the Grafters club after the lecture.

FOR YOUR OWN SAKES

WE have learned that some dare-devil students have already been canoeing on the lake in spite of the emphatic warning of the life saving captain. To those students we have little to say except to remind them of the tragic pall which fell over the university last year and to plead with them not to play with fate too much.

As a matter of university loyalty and self-preservation, students will please observe the regulations and warnings of Captain Isabel so that the lake may be regarded as a place of security and not of fear. The more regulations are broken the more unsafe does the lake become in the eyes of the less daring people. The Daily Cardinal will continually strive to agitate for adequate life-saving facilities, but the students must respond by observing the rules of those in charge.

Again, please keep off the lake when told to, for your own sakes and that of the student body as a whole.

GET INTO THE SWIM

HERE is at present a marked scarcity of candidates for the offices to be filled in the coming election. In only one case, that of the Cardinal board, are there an appreciable number of candidates in the field.

We can hardly admit that there are no other good men on the campus. Is it then that the student body is too lethargic to get more into the race? There are many important offices to be filled and it is only by a display of greater interest on the part of the students that the candidates most desirable will be given the offices. Those already out are good men and women, but there are many other good ones who should furnish a little competition.

Besides the elections to the various offices, there is the important matter of the amendment to the Cardinal constitution, which will be voted on at the same time. The amendment, to be

carried, will need a vote of a majority of the student body favorable to its adoption, so that the voting can have no effect unless at least half of the students turn out to vote.

People who are given the opportunity to avail themselves of higher education are looked upon by some as the logical leaders of their communities in years after their study. There are many on the campus, however, who by their tendencies at present promise to make strong bids for social leadership, but surely not for political leadership.

The cause of self-government certainly can lose nought if more on the campus get into the swing of the coming election and show a little spirit and interest in favor of some candidates or other. A wider interest will only tend to insure the best men for the various offices.

FREE SPEECH IN COLLEGES

It is a merry little war which is in progress on the campus of Clark University, at Worcester, Mass. An undergraduate organization called the Liberal Club two weeks ago invited Scott Nearing to address its members. A few minutes before the conclusion of his remarks the president of the institution, Dr. Wallace W. Atwood, entered the room and, after listening to five minutes of Mr. Nearing's remarks about the control of public opinion in the United States, abruptly arose, halted the proceedings and dismissed the audience.

The students, not unnaturally, were thrown into a state of most intense excitement. The membership in the Liberal Club is said to have tripled overnight. At a mass meeting of undergraduates and graduates a resolution was passed demanding that the president state his position as to freedom of speech in the future both among invited lecturers and the members of the faculty. This the president proceeded to do, in a carefully written speech, but the students are as unhappy as before. They declare that, in spite of his assurance that he will safeguard academic freedom, what he proposes is no more nor less than rigid censorship of visiting speakers and an atmosphere for the faculty of such implicit menace that they are sure to be gravely hampered by it.

Freedom of speech in institutions organized, developed and supported as are most American universities presents a problem of great difficulty. Most of our colleges are supported by private charity or by grants from state legislatures, and in either case the frame of mind of those who control the money is conservative, and likely to be suspicious of any tendency toward outspoken liberalism—to say nothing of radicalism. The college president who wants to build up his institution in accordance with the familiar American formula is thus between the devil and the deep sea. If he encourages a fearless faculty, he doesn't get the money; if he gets rid of the courageous and downright men among the instructors, he will also lose the students most worth retaining. In the long run the only course an honorable and broad-minded administrator can follow is the former; a university can get along without marble halls far better than it can without free and brave spirits. Before that decision is made, however, more than one college president must pass through such an unhappy experience as President Atwood's, an experience educative but painful.

The New York Globe.

Some 65 pharmacy graduates have received the degree of bachelor of science from the university.

Manitowoc county is represented by 77 students, including 60 men and 17 women, at the university this year.

BULLETIN BOARD

MILITARY BALL tickets can be obtained at Morgan's, Menges', University pharmacy, and the armory. Group orders can be obtained from Lawrence P. Warner at 625 N. Henry street.

PI EPSILON DELTA initiation has been postponed to Wednesday, April 5.

INDEPENDENT BASEBALL league wants two more teams entered before April 12. Clubs and rooming houses eligible. Report to Coach Lowman.

RED DOMINO banquet and initiation will be held in the Woman's building at 6 o'clock Thursday evening.

ALL DEMOLAYS who are interested in starting a local chapter of the order are requested to send their name, Madison address, and the name of the chapter to which they belong to Lane W. Hildreth, 115 N. Bassett street.

UNION BOARD ANNOUNCES that hereafter, clubs and organizations desiring to use any room in the Union building for meetings must secure permission from the Union board. Applications can be made to Leslie R. Gage, 640 North Henry street, B. 171.

RED ARROW MEN who wish to attend the club banquet on April 7 should call Amborn at B. 7675.

Ask Citizens to Aid In Cleanup Work

Health Officer Urges Cooperation In Annual Sanitation Drive

An appeal to the people of Madison to co-operate with the street department in cleaning up, the city is made in a statement today from Dr. E. V. Brumbaugh, new city health officer who took charge of the office on Monday. The statement reads:

The annual Spring clean up is at hand. Work was begun in the 3rd Ward to-day, and will be continued until the entire city has been covered. All citizens are urged to cooperate with the Street Department in placing their property in a clean, sanitary and attractive condition in the removal of the winter's accumulation of rubbish, ashes and miscellaneous debris of the winter season. The health department is co-operating with the street department in urging that prompt attention shall be given to this work.

HEALTH OFFICER.

Smith to Address Engineers Tonight

L. A. Smith '12, superintendent of the Madison water supply system, will address the American Society of Civil engineers this evening at an open meeting in the Engineering auditorium on the subject of Madison's water supply system.

The Madison system is unique in that artesian wells furnish the entire supply. The system is complete in every detail and is one of the most systematically operated of its kind. A new pumping plant has recently been constructed on the site of the old one without interrupting operation.

The problems involved in rebuilding and the operation of the system will be taken up in detail by Mr. Smith at the meeting.

Johnson Heads
Programs For
Military Ball

LEONARD M. JOHNSON.

Leonard M. Johnson, '22, is chairman of program committee for the 1922 Military ball which takes place in the state capitol, next Friday night. Johnson is a major in the a member of Scabbard and Blade, artillery, unit of the cadet corps, and of Lambda Chi Alpha fraternity. During the war he was a lieutenant in the air service.

Ball Cardinal to Be Memo of Events

A complete list of occupants of boxes at the Military ball will be one of the features of the special edition of The Daily Cardinal which will be published by Delta Pi Delta, professional journalism fraternity.

The issue will be a memorandum of all Military ball events, including week-end activities, and will find a place in many a memory book. A four-column picture will occupy the front page, and the two middle pages will contain pictures of Military ball committee chairmen and their partners.

Material for the edition is due today, and lists of persons occupying boxes can still be sent to Kenneth Hamline, B. 5089.

The edition will be delivered to the boxes and sold on the floor the night of the ball, and will also be delivered to fraternity houses and sold on the street Saturday morning. Arrangements for delivery of the first Military ball Cardinal to boxes and houses can be made through William Bolton, F. 1524. There will be no regular delivery of the Cardinal Saturday morning.

WOMEN SHOULD SIGN FOR RIDING LESSONS

All women intending to sign for riding lessons as their spring sport must report at Lathrop gymnasium today, as enrollment will close tonight at 5:30. The gymnasium will be open from 10 to 12 a. m. and from 3:30 to 5:30 p. m.

Horses from the Blackhawk academy will be used. The rates are \$32 for 20 lessons with a riding instructor attending. This special price is about half the usual rate, with an instructor. The girls will be classified as to their skill in riding, and there will be classes in walking, trotting and cantering. Any university woman may enroll.

WILL HOLD BOWLING AND BASEBALL SPREAD

Both the bowling spread and the baseball spreads are being held today. Those who have bowled this year are to bring their trays from the Lathrop cafeteria to the S. G. A. room at noon, where the Varsity bowling team will be announced.

The indoor baseball spread will be held tonight at 5:45 in Lathrop. Varsity indoor baseball team will be announced, and a picked team will be played after the spread.

For Good Cheer

Added beauty—better
mouth conditions

Whole races of people are almost immune to tooth troubles. Their teeth keep white and sound and healthy all their lives.

They are cheerful peoples. They do not suffer the germ toxins fed to others by their teeth. Those toxins are a major cause of ill-health and ill-nature.

Dental research has found the reason why those people are exempt. It lies in fruit—they eat it constantly. Fruit multiplies the tooth-protecting forces in the mouth.

Now authorities wish everyone to get those fruit effects. Dentists the world over are advocating fruit. And a tooth paste called Dentifruit has been made to embody the fruit elements required.

Acts instantly—with every use

Dentifruit is made to do what certain fruits will do. It gives manifold power to Nature's tooth-protecting forces in the mouth.

One fight is against the starch deposits. They gum the teeth and get between them. When they ferment they form acids; when they linger they breed germs.

Another fight is against mouth acids—the cause of tooth decay. The use of Dentifruit makes those fights vastly more effective.

It does this with every application. To show the effects we buy the first tube for you. See how it cleans teeth, how it whitens them, how it keeps the mouth in alkaline condition.

Dental authorities the world over urge this practice. Send the coupon; make a month's test and learn why.

A tooth paste based on elements derived from pineapple, orange, pawpaw, grapes and apples. Made to multiply, with every use, Nature's tooth-protecting agents in saliva.

Made to create in the mouth, regularly and often, the effects these fruits would bring. And thus to wage a constant and effective fight against enemies of teeth.

Fruit on Teeth

Modern dental research proves it a constant essential. So a tooth paste is made to apply it several times a day.

The Fruit Effects

One fruit element multiplies the ptyalin in saliva up to 12 times over. That is the starch digestant. It is there to digest the starch deposits which gum the teeth and get between them. When left, they breed germs and form acids.

One fruit element multiplies the alkalinity of saliva up to 8 times over. That is to neutralize mouth acids—the cause of tooth decay.

The object of Dentifruit is to bring fruit effects regularly and often. Without them, few escape tooth troubles. With them, millions are exempt.

Cow Breaks State Butter Fat Record

The state record for butter fat in the Brown Swiss dairy cattle breed was broken last week when Ruth Frietag, a Brown Swiss cow, owned by Prof. B. H. Hibbard, completed her yearly record of 705 pounds of butter fat.

Professor Hibbard is the head of the Agricultural Economics de-

partment of the University of Wisconsin. He owns a farm of 150 acres about six miles south of Madison which is stocked with a herd of some 30 Brown Swiss dairy cattle.

Ruth Frietag, the state champion Brown Swiss cow, is 11 years old. She is still giving large quantities of milk, though she has completed her yearly record. It is thought that she may rival the national record if her production continues.

Fraternities Entertain With Formal Dinner Parties

Many fraternities will entertain Friday evening with dinner parties previous to the Military ball. Various decorations and features are being planned. Out-of-town guests are expected at many of the functions.

Theta Chi Dinner

Members of Theta Chi will give a dinner Friday evening at the chapter house, 140 West Gilman street. There will be dancing between courses. Mr. and Mrs. William Hiestand will chaperon.

Triangle Fraternity To Give Dinner

Triangle fraternity will entertain with a dinner Friday evening previous to the Military ball. Covers will be laid for 21 couples. The chaperons will be Mr. and Mrs. Frank H. Moulton.

Phi Kappa Psi Formal Dinner

Phi Kappa Psi will give a dinner party Friday evening for the members attending the Military ball. It will be held at the chapter house, 28 East Gilman street. Dr. and Mrs. C. A. Harper will chaperon.

Farmhouse Fraternity To Give Dinner Party

Members of the Farmhouse fraternity will entertain with a dinner Friday evening at the chapter house. Prof. and Mrs. A. W. Hopkins will chaperon.

Phi Kappa Sigma Japanese Party

Phi Kappa Sigma will entertain Friday evening with a formal dinner at the chapter house, 614 Langdon street. Japanese effects will predominate in the decorations. Irving Woodhouse, Milwaukee, and Sunny Ray, Milwaukee, will be the only guests. Mr. and Mrs. William J. Meuer have been invited to chaperon.

Spring Decorations for Sigma Nu Dinner Dance

Members of Sigma Nu will give a formal dinner dance Friday evening at the chapter lodge, 625 North Henry street. French blue and canary are the colors to be used in decorating. The house will represent the interior of a garden to be entered through an arbor over which the Sigma Nu shield will be placed against a paneled French blue background. The walls will be covered with lattices and baskets of spring flowers will be suspended from the ends of the drop ceiling. Dr. and Mrs. Smiley Blanton will chaperon the party.

Phi Delta Phi Formal

Phi Delta Phi, law fraternity, will entertain with a formal dancing party Friday evening at the

Phi Delta Theta house, 620 North Lake street. Spring flowers will be used in the decorations. The professors of the Law school and their wives have been invited to chaperon.

Theta Xi to Give Formal Dinner Party

Members of Theta Xi will entertain with a formal dinner party Friday evening at the chapter house, 168 Prospect avenue, previous to attendance at the Military ball. On Saturday evening an informal dance will be held at the chapter house. Decorations will be in red, white, and blue, with similar lighting effects. Mrs. W. A. Hance, Freeport, Ill., will chaperon.

All Lutheran Women's Tea

A tea will be given Thursday afternoon from 4 until 6 o'clock for all Lutheran women at the Lutheran Memorial church. Miss Margaret Thun, social chairman, is planning a musical program to be given by Miss Gertrude Haase, vocalist, Miss Gladys Garness, violinist, and Miss Mildred Elser, pianist.

Milligan-Scherbel Wedding

Announcement is made of the marriage of Miss Dorothy Scheibel, '24, of this city to Prescott H. Milligan, a major in the university military department, which took place Monday evening at 6 o'clock in Rockford, Ill. Joseph C. Holbrook, '22, was best man, and Theora Tefft, a student at the university last year, was maid of honor. Miss Scheibel is a student in the college of Letters and Science, and is a member of Kappa Alpha Theta sorority. Major Milligan is a West Point man. The couple will reside in Madison.

Personal

Willet Kempton will leave today for New York city and from there he will sail for Europe for a six months' trip.

Miss Hazel West, dancing instructor, has just returned from Chicago.

G. O. P. Body Agree in Half Cent Film Duty

WASHINGTON — A tariff duty of one-half a cent a foot on unexposed moving picture films was agreed upon today by republican members of the senate finance committee. The duty proposed in the Fordney bill was 20 per cent ad valorem American valuation.

German Dye Makers Competing With U. S.

Manufacturers of bacterial dyes in America now have keen competition with German dye makers, according to W. D. Frost, agricultural bacteriologist at the University of Wisconsin, due, he says, to the fact that cheap labor and cheap materials are now available in Germany.

NEWS OF CONFERENCE SPORTS

PRELIM GAME WITH BELOIT IS POSTPONED

Call Match Off Because of Muddy Playing Field

Because of the muddy condition of Camp Randall baseball diamond, it has been necessary to postpone the game, which was to have been played between the Badgers and Beloit college this afternoon.

Coach Lowman took his athletes out for their first open field practice yesterday afternoon, but the regular diamond was a field of mud, and it will take at least a day of sunshine to put it into shape. The collegians will probably play here tomorrow afternoon.

Men in Shape

The wet condition of the ground made it impossible for Coach Lowman to send the players through a heavy practice, and the workout was confined to hitting and fielding. Most of the men appeared to be in shape for the beginning of the season, but no steps could be taken toward selecting the players who will be taken on the southern training trip.

Beloit college has a team of veterans who should be able to give the Badgers a good practice game. With the exception of two players, the team is the same that staged a practice tilt here a year ago, when Lowman's nine administered a 13 to 0 defeat in seven innings. Fans will remember that Miller pitched a wonderful brand of ball that day, but that an injury to his arm sustained a few days later prevented him from partaking in any more games during the season.

Miss Davey

Coach Lowman has a considerable task facing him in the filling of the position left vacant by Al Davey. Barry and Aschenbrenner are both being tried out at backstop, but neither appears to be as capable as was the former star.

The mound assignment appears to be well taken care of by Captain Paddock, Christensen, Hoffman, Reitchie, Mills, and Pickford. Any one of these men can go the full nine innings any time they are called upon to do so.

In case it is deemed advisable, the Beloit game will be postponed until Friday afternoon. Oshkosh comes here the following day for the final preliminary contest of the season, as the team leaves on Sunday for the south.

CHICAGO CAPTAIN ELECT INELIGIBLE

Milton Romney, captain-elect of the Chicago football team, who was declared ineligible for further competition at a meeting of Conference representatives last week-end, was debarred because he had completed his three years of participation in athletics, according to Prof. J. F. A. Pyre, chairman of the athletic council and Wisconsin representative at the Chicago meeting.

Romney played during the spring and fall of 1919 and the spring of 1920 at the University of Utah. He was inactive at Chicago during the fall of 1920 and spring of 1921 because of the one-year residence rule. "Mit" ended his college athletic career when he played football and basketball at the Midway during the last seasons.

He was not disbarred because of scholastic ineligibility, because he was a "tramp athlete," nor because he was said to be trying to prolong his undergraduate course.

Alumnus to Judge Joint Debate Friday

Emerson Ela, president of the Madison Chamber of Commerce, will judge the debate between Hesperia and the Agricultural Literary society which will be held in the Agricultural auditorium, Friday evening at 7:30 o'clock.

L. & S. IN LEAD, ENGINEERS 2ND, IN SWIM MEET

Hold Last Four Events in Inter-College Meet Today

The College of Letters and Science is leading in the inter-college swimming meet, four of the events of which were held yesterday afternoon. The other four are to be held this afternoon.

The Letters and Science swimmers took all of the first three places in diving, which gave them the nine out of their 14 1-2 points. The College of Engineering is close behind with 12 points. The Commerce school has five, and the Agries four and one half points.

First place in all events credits the winning team with five points, second place gives three, and third place one point. The events which were held yesterday were the 160 yard relay, the dives, the 40 yard swim, and the 100 yard breaststroke.

The summaries of the four events follow:

160 yard relay—L. and S., first, Engineering second, Commerce third. Time 1:29 1-2. L. and S. team: Lyons, Crane, Stiver, and Salisburg. Engineering: Ewald, Bond, Warren, and Evallion. Commerce: Sellitt, Yoeman, Hippel, and Ruggles.

Dives—Felton, L. and S., and Moroney, L. and S., tied for first; Paige, L. and S., third.

40 yard swim—Hippel, Comm., and Ewald, Eng., tied for first; Elliott, Agric, third. Time 20.3 sec.

100 yard breaststroke—Rand, Eng., first; Pabst, Agric, second; Kropp, Agric, and Bouman, L. and S., tied for third. Time 121.2 sec.

The events to be run off this afternoon are the plunge, the 220, the back stroke, and the 100 yard swim. The winner of each event will receive his college insignia, and only non-“W” men can enter the meet.

Indiana Baseball Team Leaves For Games in Far East

(Special to Daily Cardinal)

BLOOMINGTON, Ind.—Inspired by one of the greatest send-offs that has ever been tendered any Crimsonson athletic team, the Indiana varsity team is speeding today toward Seattle on the first lap of its long jaunt to the Orient.

Games have been scheduled with the Waseda University of Tokio, Japan, and other far eastern universities.

Levis Makes Trip

The entire student body, released from classes yesterday morning, bade farewell to the squad of 12 ball-players, Coach and Mrs. Levis, Dean and Mrs. Edmondson and Assistant Coach Minton.

With enthusiasm unequalled since the Purdue football game last fall, and with pride and a little envy perhaps, the university turned out en masse and marched to the Monon station to wish the diamond men the best of luck.

Details Arranged

The crowd mounted nearby boxcars, jammed the platform full and surged over the tracks. Led by Harry Hunciman, the biggest "Monon," the loudest "Series" and the snappiest "Team" were sounded out for the team. The train pulled out at 11:39 with the party on the back platform of the end Pullman waving goodbye to their friends.

All details for the trip to the Far East had been arranged when the team boarded the Monon yesterday morning. The transfer of baggage in Chicago to the St. Paul road and the second transfer from the railroad station to the S. S. Keystone State in Seattle will be made in the least possible time, and no delays are expected from that source, Coach Levis said before departing.

Commerce and Agric Basket Teams Meet

Commerce and Agric basketball teams will meet in the first game of the inter-college basket tournament finals to be played in the gymnasium at 7:30 this evening.

The Letters and Science five, which is the only other team in the running, drew a bye, and will play the winner of the Commerce-Agric match at 7:30 on Thursday evening.

Albert J. Knollin '22, who has charge of the games, has announced the following lineups: Agrics, Sykes and Hesse, forwards; Peterson and Nichols, guards, and Horne, center. Wackman may also play with the Agrics if he is eligible.

W. Morrison and Chapleau are the Commerce forwards; C. Morrison and Merkle are guards; Jessel holds down center position. Lang, Augustine, and Cross are the utility men.

The overwhelming defeat of the Medics by the Letters and Science aggregation and the fact that the latter team has drawn a bye seems to indicate that the hill men will put up a strong bid for first honors in the final game on Thursday.

The Letters and Science quintet is composed of Mainland and Pollock, forwards; Harris and Lieberman, guards, and Nolte or Meyers, center.

Intra-Class Track Meet Friday Will Terminate Season

Preparations for the indoor inter-class track meet, which closes the indoor season next Friday, are featured by the large number of entries already made, more than 25 performers having signified their intentions of competing.

Besides the usual track and field events there will be a special relay in which each track class will enter a team of four men to run two laps each. The relay gives promise of arousing stiff competition, especially between the teams being trained by Coach George Berg and those under Coach Meade Burke.

Coach Burke has recently announced that the men who show exceptional ability in Friday's contest will be given berths on the Freshman Varsity squad; this announcement should urge candidates to their best efforts.

Frosh Train With Varsity

The men succeeding in making the Freshman squad will be transferred to Camp Randall to train with the Varsity and Freshman teams under the tutelage of Coach Thomas Jones. Coach Jones starts his squads on outdoor training at Camp Randall today with the exception of the broad jumpers, pole vaulters, and high jumpers. The latter men are to train indoors until the weather is warm enough to eliminate the danger of pulling tendons and similar injuries.

Coach Vail to Take Crew on Mendota

With the disappearance of the last of the ice from Lake Mendota, "Dad" Vail is planning on taking the crew out on the water within a week. Many of the eastern eights have been on the water for two or three weeks.

Work will be started on the Varsity pier within a day or two, and as soon as that is completed so that the shells can be launched, the crew will go on the water. There are eight crews or 64 men at present. Of these eight, three are composed of Frosh, four are from the various colleges, and the other one is the Varsity eight. Some of the men on the college teams are also substituting on the varsity squad.

George Toepfer '22 has been the captain of the Badger crew for the past two seasons. If the remainder of the crew turns out to be as good as he is, the Badger shell may be entered in the annual regatta at Poughkeepsie this year.

The Wisconsin eight will row against the University of Manitoba on May 27.

FOOTBALL MEN TO HEAR PROF. DISCUSS RULES

Want More Men to Re- port For Spring Practice

Prof. Warner E. Taylor, football academic advisor, will outline the conference eligibility requirements and offer suggestions concerning scholastic work at a meeting of spring football candidates which will be held at 7:15 tonight in the gymnasium. All other football men have also been asked to attend.

In his talk, Taylor will give the men a thorough discussion of the eligibility rules, and will attempt to show the athletes how he and others are able and willing to assist them in their scholastic work. The athletic department expects by such talks to reduce the number of men who are barred from active competition every year because of low marks in studies.

Want More Men

Coach George E. Berg is dissatisfied with the number of men who are reporting for spring football drill. Only 39 recruits were issued equipment yesterday, and there are still many uniforms for men who will turn out for practice. The next issue of equipment will be made for new recruits from 3 to 5:30 this afternoon.

"We want more men to report," said Coach Berg last night. "Thirty or 40 more could be easily handled. The purpose of spring football is to uncover stuff that is worth developing. There are many potential linesmen who have weight and speed who did not come out for fall workout. Now is the time to find out if they are of Varsity calibre. If there are more candidates for the squad they can sign up at the gym tonight."

Coaches Experienced

Berg is an experienced football mentor. He is Varsity trainee, during the regular season and directs the treatment of injured players besides assisting Coach John R. Richards on the playing field. Brader is one of the few men who hold down a regular first team position for four years.

The following men now have uniforms and will begin reporting for practice under Coach Berg and Assistant Coach James L. Brader:

G. M. Mason, H. W. Weingandt, G. Schlotthauer, E. F. Guy, H. B. Stair, N. Neiman, Slaughter, R. C. Rosen, S. C. Davis, A. Field, G. Hrubecky, L. D. Stall, K. R. Stead, J. R. Belknap, J. C. Widder, Neilson Jones, R. H. Licking, B. Talbott, E. Bridge, B. H. Dogon, C. R. Willey, H. H. Erdman, H. A. Fehrman, R. H. Moore, C. E. Knutson, A. Rufalo, M. E. Mellor, J. A. Fladoes, C. J. Bareis, P. Eschweiler, J. E. Craig, T. H. Nammacher, J. Shrank, F. C. Fellows, F. Berken, H. W. Meyer, M. A. McDonald, J. Maniere, and C. J. Randall.

Italian Prof Talks

To Students Today

"Italian Political and Social Conditions" will be the subject of the talk by Signor L. P. de Castelvecchio at 4:30 today in Music hall.

Signor de Castelvecchio is a professor of Italian language and literature at the University of Birmingham in England. She is one of the four women who hold full professorships in British universities.

As representative of the National Association of University women, she is now on her way to Kansas City to attend the convention of the American association.

During her stay in Madison Signor de Castelvecchio will be the guest of Mrs. M. B. Rosenberry. A luncheon in her honor will be given this noon by the instructors and their wives, and tonight she will be entertained by Prof. and Mrs. M. S. Slaughter.

Ask Operators to Meet With Mine Owners

Houhe Labor Committee In Plea; Will Be Ignored

WASHINGTON.—Chairman Nolan of the Labor committee which has been hearing testimony in connection with the nation-wide coal strike, addressed the telegrams late to-day to operators in Indiana, Illinois and Eastern Ohio telling them that the United Mine Workers through John L. Lewis, president, had expressed a willingness to meet a representative body of the central competitive field.

The telegrams sent by Rep. Nolan asked the operators to indicate their attitude toward such a meeting. Other messages, Mr. Nolan said, probably would be sent to operators in the southern Ohio and Western Pennsylvania field.

The Labor committee chairman said he pointed in his telegrams that Mr. Lewis in testimony yesterday and today had indicated willingness of the miners union to meet the operators if a sufficient representation of the central competitive field was present to make possible the working out of the wage agreement covering the entire territory embraced in the field.

Alumnus to Judge Joint Debate Friday

Alexius Baas, an alumnus of the University of Wisconsin of the class of 1906 will take the part of the Prophet in the Passion play to be given at the Parkway. Baas is well known for his professional work as a soloist and reader and has studied voice and dramatic reading under Professor Herneman.

PALACE OF SWEETS IS PRIZE CONTRIBUTOR

A 5-pound box of candy given as one of the prizes at the Jamboree Saturday night was contributed by the Palace of Sweets, and not by Keeley's, as was published recently in the Cardinal. The various prizes were contributed by Madison merchants, and the mistake was made in making up the list of contributors.

Brann is Box Chairman For Military Ball

LESTER W. BRANN.
Courtesy De Longe
Lester W. Brann, 22, Bailey's Harbor, is chairman of the box committee for the tenth annual Military ball. He is a member of the varsity baseball squad, president of the commerce advisory commission, and was a division commander of the Memorial Union drive. Johnson is also a member of Acacia fraternity, the university post of the American Legion, Thirty-second Division club, Square club and Commerce club. He won his Croix de Guerre during his 16 months of overseas service.

Art Exhibit Opens At State Museum

The Madison Art association announces the opening of an exhibition of arts and crafts work at the State Historical museum. This exhibition consists of jewelry designed and made by Miss Jessie Ames Dunbar, Boston, and batik and lustre gowns and scarves made by the Noank Studio of New York. The exhibition represents the best work of its kind done in this country.

Keep Off of Lake Says Capt. Isabel

(Continued from Page 1)

seconds. They took a big chance." Steinauer called any attempt to venture on the water a foolhardy act and said that the lake would not be safe for some time yet. Boats will not be permitted to go out from the university pier until "Cap" Isabel announces that conditions are favorable and all repairs and preparations have been made.

Regulations Strict

"Quite a few canoes are going out from university piers," said Emil Niebuhr, boatman at the university pier. "There are always some who will take a chance, you know. Some of them forget about the city ordinance which requires every canoe to have a life preserver in it, too. They are taking a big chance, I think."

The Madison ordinance for Lake Mendota requires that all canoes, row boats, sail boats, and motor boats, shall carry one government inspected life preserver for each passenger when on the water. The ordinance also states that canoes 16 feet or under in length shall not carry more than two persons and that canoes 18 feet or under shall not carry more than three. Life guards have the authority to determine the capacity of every craft that goes out and the fitness of the people handling them. Fines of from five to fifty dollars cover these offenses.

Instructions in handling a canoe are being given to the swimming classes at the present time. Coach Steinauer plans to conduct a series of lessons for everyone in a short time. A canoe will be used in the tank to demonstrate features of self preservation and rescue work.

"Selling Yourself"

Mr. J. J. Munsell, who was chairman of the Stadium Committee that raised over \$500,000.00 in Columbus alone for that magnificent structure now being built at the Ohio State University, was for several years manager of the department at the National Cash Register Company, Dayton, Ohio, known at that time as the Employment, Promotion, and Discharge Department.

Mr. Munsell was personally responsible for the promotion of Mr. J. H. Barringer, Vice-President and General Manager of the National Cash Register Company from a humble clerical position to the position in the executive offices that proved a stepping stone to his present high position.

The numerous requests Mr. Munsell receives for advice and suggestions about the proper way to sell yourself, or to make application for a job and what to do when once you get it, led him to put the fund of information he has into booklet form. Any young man or woman expecting to, at some time, enter the business world, should read this booklet. The earlier in life you read it the better, it is information of value to anyone regardless of age.

The following is an extract from a letter written by President W. O. Thompson of the Ohio State University:

"One reads the pages with the feeling that here is a man in sympathy with young men, speaking plainly and truthfully to them about matters vital to their success and happiness in making their careers. The tone of the book is wholesome throughout.

(Cut this out as a reminder to order "Selling Yourself.")
Enclose either a \$1.00 bill or money order with your mailing address, and send same to J. J. Munsell, 11 East Rich street, Columbus, Ohio.
