MASS MEETING FRIDAY

TO AROUSE ENTHUSIASM FOR BELOIT GAME.

Prizes Offered for Football Song—
Sale of Seats Will Close 5 O'clock
Friday Afternoon.

There will be a football mass meeting Friday evening at seven o'clock in Library Hall for the purpose of giving the team encouragement and a good send-off for the hard game with Beloit Saturday. This is the first opportunity that has been presented to the students this year to turn out en masse and show the men who are to represent us on the gridiron that there is true Wisconsin spirit to support them. This opportunity should not be lost to make Old Library Hall ring with U-rah-rah, as only Wisconsin students can give it. Remember, "There are no quitters in Wisconsin."

Prizes for Songs.

The Athletic Association has offered ten dollars as a prize for the best original football song and the Cardinal offers five dollars as a second prize for the same. These songs must be in by the last of next week and are to consist of original words set either to the air of some up-to-date song or to music of the author's own composition. Songs are to be left with the managing editor of the Cardinal.

Seats for Beloit Game.

Seats for the Beloit-Wisconsin game are at present on sale at Sidney Rundell's. These seats consist of one section of the grand stand, price \$1 per seat, 2,000 reserved bleacher seats in the Wisconsin section, price \$1 per seat, and the general admission tickets at 50 cents. Carriage space will cost \$2. Boxes seating six people sell for \$10. Both carriage spaces and boxes may be reserved at Rundell's. The excursion train will leave Madison, via the Northwestern, at 8 o'clock Saturday evening and will return over the Milwaukee and St. Paul leaving Milwaukee at 11:30 p. m. The fare for the round trip is \$2.00 good over Monday.

Milwaukee citizens are, as usual, very enthusiastic over the coming game and the demand for seats has been unparalleled. The seats placed on sale here are going very fast. No seats will be sold here after Friday p. m. at 5 as at that time Graduate-Manager King will take the remaining seats to Milwaukee and put them on sale there. Students should make it a point to reserve their seats before that time.

Phinney's Band.

The management of the Madison Street Carnival has secured the services of Phinney's U. S. Band for a grand concert in the Fuller Opera House Tuesday evening, Oct. 16. The number of tickets sold will determine whether or not the band can be kept for the remainder of the Carnival. Tickets will be circulated for sale among the students, who it is expected, will contribute their share towards this musical treat. Phinney's Band is second to none in the country and is too well-known to need further commendation.

—Rev. B. B. Bigler will speak at the Y. M. C. A. meeting in the law building Sunday.

ADDITION TO DAIRY BUILDING

Many Improvements Made On Hiram Smith Hall.

The addition to the east side of Hiram Smith hall is well under way. The addition is a one story and basement building forty-seven by fifty-seven feet and is connected to the main building by a twenty-eight foot tunnel. The rooms in the basement have a height of nine feet being eight feet below ground. This floor is divided up into foreign cheese-making rooms and curing rooms for ordinary cheese. The floors, with the exception of the foreign cheese room, are of cement and the roof consists of steel arches lined with brick on which cement and dirt have been laid.

Several changes in the main building have been made in consequence of the new addition. The press room has been merged into the farm dairy room and the curing room will be fitted up with lockers. A Farrington cream ripener has been added to the equipment and electric power has been installed.

To the north of the dairy building is the new central heating plant for the dairy agricultural building. It is 50 by 40 feet and contains two stories and basement. In the basement are three eighty-horse power boilers connected with the one hundred and twenty foot stack. The first floor will be used as a machinery laboratory for dairy students and contains a full equipment of dairy machinery. The second floor will be used as a pipe-fitting and soldering room.

The Choral Union.

The first meeting of the Choral Union took place in Library Hall last night. Professor Parker estimates the attendance at about seventy-five, which is considered very good for the opening night. The membership will probably increase to twice that number before the season is over.

The first part of the evening was devoted to registration of members and the remainder to practicing a new selection entitled "Webber's Jubilee Cantata." The prospects seem excellent for a very successful year and it is hoped that all who have any musical talent will join this organization, which under the able direction of Professor Parker has for several years been one of the most important musical organizations of the University. Those who expect to join should do so as soon as possible in order to get the full benefit from the work. Meetings will be held every Tuesday evening in Library Hall.

Mandolin Club Elects.

Yesterday evening a meeting of the Mandolin Club was held at the Psi U house. A quorum of the old members were present and elected officers for the coming year. S. Tynes Smith, '02, was elected leader and Edward D. Jenner, law '00, manager. Mr. Smith is a skillful musician and will combine the qualities of a good leader with those of a congenial fellow-player. Since there is a possibility of a large number of new candidates, the plan of keeping a large club in practice, and then sending a select club on any trips which may be made was discussed. This is the plan of successful eastern university clubs. Many of the members also thought that a manager of the Mandolin Club should be chosen to have the same powers as the manager of the Glee Club on the trip. However no action was taken.

—Will McGrath, '00, is practicing law in Waupaca.

NEW TRAINING TABLE

ATHLETIC ASSOCIATION WILL RUN ITS OWN.

Plan to Procure Stock of Boat Club
and Set up a Table in Boat
House.

For some time it has been felt that the expense of training quarters for the football team and other athletic teams was too great for the advantages obtained.

Last summer a plan was worked out to better these conditions. It is proposed to make the present University boat house into training quarters. The boat house was originally built by the University Boat House Club, whose subscribers took stock in shares of five dollars each. The enterprise has never declared a dividend, the rent for boats being only sufficient to pay running expenses, so it is thought that there will be no difficulty in persuading the stock holders to transfer their shares to the Athletic Association. In fact, enough stock has already been transferred to give the Association control of the boat house, and it is thought that the others will soon turn in their stock. Different fraternities own between seventy-five and a hundred shares and there is no doubt but that they will be willing to give their stock to the Athletic Association. Each member who gives over his shares to the Athletic Association will still be allowed to keep his boat in the boat house as before, so he will really lose nothing by the transaction.

When the Association gets control of the boat house they will make over the second story into training quarters. By hiring a cook and running their own table the Association will be able to save considerable money since whatever profit there might be made goes into the hands of the Athletic Association rather than hotel keepers. It would also be more convenient being nearer the University.

The lower floor would be used as before for a boat house, and by running it on an economical basis it is thought that some profit might be cleared for the Association by the rental of boats. At least it would be well to give the plan a fair trial since there seems to be many advantages in such a system.

—At 8 o'clock tomorrow evening at Library Hall, will be given a mandolin recital by the popular local artist Hjalmar O. Anderson, assisted by James S. Smith as accompanist. The program includes some of the finest selections from the great classical composers as well as selections from the more modern successful composers. All students are cordially invited to attend.

—The geological department have come into possession of a very perfect tooth of a Mammoth which was found by "Dude" Mettcher at Newcastle, Indiana. The tooth was taken from the Harvey gravel pit and was fifteen feet under the sod. It has a circumference of 24 inches, is 11 inches long, 4½ inches broad and 7¾ inches deep. The grinding surface has an area of 22 to 23 square inches.

—Sec. Phelps, of the Y. M. C. A., is making a trip through the eastern part of the state in the interests of the proposed Y. M. C. A. building.

Communication.

To The Editor:

In the "Cardinal" of October the 8th, I noticed a statement to the effect that the formation of a "Chess Club" had been discussed among a number of the students. In my opinion there is ample material in the University to form such a club. Wisconsin had a very good club year before last, but for some cause or other the interest seemed to lag last year and no attempt was made to reorganize. Wisconsin has a foot ball team of which all are justly proud, and there is no reason why she should not take a prominent part in this "Queen of intellectual games."

If we are to have a club and gain any benefit from it it is absolutely essential that we get to work at once. A meeting should be called at the "Gym" or some other convenient place and a committee appointed to get things into shape. The idea suggested by the "Cardinal" should not be allowed to die out but the near future should see it materialize.

Lecture on Rome.

The second in the series of lectures on Rome took place yesterday afternoon at 4 o'clock in University Hall. There was a good attendance of students and citizens. The lecture was exceedingly interesting and instructive and profusely illustrated with stereopticon views.

Professor Sheldon traced the expansion of Rome from its beginning to the glorious Rome of the Augustinian age. He related the legends accounting for the founding of Rome and said that though they were gotten up for the purpose of providing divine ancestry for the Roman kings, still they probably contained a grain of truth, and we conclude therefrom that the founders of Rome were Greeks. From the names of gates and streets, we draw the conclusion that the first people were shepherds. Soon we find the Romans emigrating to the neighboring hills and the seven districts follow. During this period a festival was held, of which we have record, in which a horse was sacrificed, and the head afterward striven for in athletic contests.

An interesting part of the lecture was the Professor's exposition of the growth of art and love for beauty among the Romans, which changed the character of the city completely. The old Rome, he said, was built roughly and without ornament, and the first step toward the revolution in the appearance of the city was the use of marble as building material. This marble was brought in from conquered provinces and was followed by a similar importation of works of art. Under Augustus the greatest change was wrought. The forum was enlarged, finer temples built, elegant palaces constructed, roads improved, the Tiber put into a better condition to accommodate the immense commerce and an effective police force established. In short, everything was done to make this age the grandest in Roman history.

—The following members of the football team are now at training table at the Park Hotel:

Riordan, Tratt, Juneau, Schreiber, Skow, Lerum, Chamberlain, Marshall, Driver, Hammerson.

Driver and Hammerson were put on for the first time last night and others will be added as they show their ability.

—S. N. Smith, law, '03, left for Washington D. C. yesterday.

Glee Club Positions.

As there are several vacancies in the Glee Club since last year there is a great chance for any one with any musical ability to become a member of the club. The Glee Club should be made up of the best male voices in the University and since there are so many advantages to be gained from the Glee Club training a large number of applicants should respond to the call of the leader for this evening's meeting.

The Glee Club is now placed on a firm basis and will undoubtedly take several trips to different cities in the state. These trips are always very enjoyable and add much interest to one's college career. The leader is very anxious to make this season the most prosperous in the history of the University Glee Club and this will only be possible if everybody tries for a position. Failure to "make" the club last year does not necessarily mean that it is impossible this year, as everyone will be given a chance to show his ability.

An Eastern Debate.

Last year we failed to have a debate with some great Eastern university because no interest was taken in such an event until too late to make satisfactory arrangements. We should not commit the same mistake this year. The literary societies should elect at once a committee, whose purpose and object will be to negotiate immediately for such a debate. We have good, available material, and all that we need is an enthusiastic interest. Every loyal student wants to see Wisconsin meet an Eastern university in debate, because he feels that we can make a creditable showing. But we need something more than a general wish for such a debate, apathy must work at that. There is no need to enumerate the benefits to us from such a debate. Every student knows how our athletic contests with the East last year advertised us throughout the country. An intellectual contest will do likewise. The East has become acquainted with the brawn of Wisconsin; let them also meet the brain of our institution. Before it is too late, let the students take an enthusiastic working interest in such a debate, and thus do away once for all with the apathy and costly tardiness so prevalent before, when an Eastern debate was mentioned.

Scholarship And Loan-Funds.

The Committee of the faculty on scholarship and loan-funds desires to call attention to the following information, supplementary to that to be found on pp. 48 and 49 of the last University Bulletin: From the Amelia H. Doyon Fund two scholarships, \$120 each, are available for the current year. In accordance with the bequest of the donor these scholarships are to be given to two young women in attendance at the University who have good records and are in need of financial help. As the committee has no adequate way of ascertaining the financial status of students, it invites

applications for these scholarships. These applications must be made in writing, and should give detailed information as to the applicant's financial needs.

The class of 1900, as a class memorial, established a loan-fund for the benefit of needy students. The committee has now at its disposal \$360. This will be loaned to students, upon written application. In granting these loans the committee is anxious to relieve the most pressing financial needs of worthy students, and hence those who make application are urgently requested to give the committee as full information as possible concerning their financial resources.

Applications for the above scholarships and loans should be addressed to Professor Charles Forster Smith, the chairman of the committee, and must be left with the Registrar before Monday, Oct. 15 at 10 o'clock. The successful applicants will be notified by Oct. 25.

The John A. Johnson Fund now yields about \$300 annually. With the consent of the donor this fund has recently been made a loan-fund. Students that get loans from it are required to give their notes bearing 6 per cent. interest after six years. Applications should be addressed to Professor Olson, but need not be made until the beginning of the second semester, as the proceeds of the fund are not available until April.
