The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

# ENVISION THE PRECISION

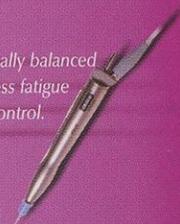

A SURGICAL SYSTEM SO ADVANCED YOU'LL THINK IT'S A PART OF YOU.

Enter the new millennium – Storz Millennium™, the world's first *truly* integrated modular ophthalmic surgical system. With pump technology so innovative it can accurately reproduce the fluidics of either venturi or peristaltic systems. And a foot controller so unique it allows you to control fluidics *and* ultrasonics or vitrectomy cut-rates simultaneously. To learn more about technology that will advance your control well into the next century, please call your Storz Millennium representative.

The new Storz Millennium system available with anterior, posterior or dual functionalities.

Ergonomically balanced handpiece for less fatigue and improved control.

A touch of the foot switches modes, adjusts surgical parameters, programs system-response characteristics.

Designed for longevity via modular upgrades you can install.

Unique scroll pump allows for instantaneous selection of flow or vacuum control.
