## MORE Milk, Eggs, Meat

WITH LESS LABOR AND FEED

FORT ATKINSON, WISCONSIN

# Victory via Dairyland

Although our present world conflict offers scores of problems and new situations, we as dairymen must ever strive toward our ultimate goal — the development and improvement of our herds. Our testing program must continue despite the critical labor situation. Testing, rigid culling, and careful selection is the only foundation upon which we can continue to build better herds.

As the leading member in the “front-line” of production, the dairy industry is making a worthy contribution in this world-wide battle. In this effort we must never substitute quantity for quality, if we are to retain our position as the world’s leading dairy center. We must keep high standards in our industry at all times.

Food has proven to be as essential as guns and planes in winning the war, and our dairy cows are the best machines in the world for the manufacture of foods — milk and butter-fat, so important in the diet of our fighting men, the people at home and abroad.

Now is the best time “to put our house in order” in anticipation of the recession which is sure to follow in a few years after the close of the war. Dairymen who wisely reduce their farm debts and build better herds will be in a stronger position when prices are adjusted back to normal or below.

To the utmost of our ability we dairymen must follow the fine example of our boys in service. Victory is our business!

*Herbert F. Schroeder*

President, Wisconsin Dairymen's Association

# A Proclamation

Record production of milk and manufactured dairy products was again achieved in Wisconsin during the past year in answer to the call for more food to supply the United Nations and our fighting forces on the far flung battle fronts throughout the world.

Wisconsin farmers were able to meet this challenge of increased production in spite of the shortage of labor and machinery. They produced 14 1-3 billion pounds of milk the past year — a large amount of which was distributed in other forms to our soldiers, sailors, and marines and to our allies.

Through several decades Wisconsin farmers have been building the dairy industry of this state into the greatest enterprise of its kind in the world. Through specialization in dairy breeds, dairy herd improvement work, proper feeding and other good farming practices, they have made Wisconsin universally famous for its dairy cattle and dairy products.

Through the years, the influence of the Wisconsin Dairymen's Association, an organization which will hold its 72nd annual convention in Madison, February 7, has been important in developing dairying to its present high levels of productiveness.

This meeting, therefore, provides a timely occasion for reminding the people of Wisconsin of the splendid job the dairy industry is doing in supplying food needed to win the war.

Now, therefore, I, Walter S. Goodland, Acting Governor of the State of Wisconsin, do hereby designate and proclaim February 7, 1944, as Dairy Day in Wisconsin and urge that the occasion be observed with fitting exercises in recognition of the Wisconsin dairy industry and its vital part in the food for victory program.

*Walter S. Goodland*

Acting Governor of Wisconsin

# J & J

## NEW-IMPROVED **RAPID-FLO** FILTER DISKS

## **NOW FIBRE-BONDED** for SAFER MILK FILTRATION

**FIBRE-BONDING**, an exclusive Johnson & Johnson Patented Process, overcomes channeling or fibre separation, common faults of old style strainer pads, frequent causes of rejected milk. Dairy farmers from coast to coast are recognizing the Double Value of the New J & J Fibre-Bonded Rapid-Flo Filter Disk. It safely removes dirt which gets into milk in spite of all precautions, therefore it is a dependable "farm sediment test" indicating causes of dirt which can be corrected.

### **AVOID REJECTED MILK**

USE THIS SAFE FILTER DISK  
AS YOUR OWN "FARM SEDIMENT TEST"

After filtering the milk place the used filter disk on a piece of stiff paper or cardboard. When the foam has disappeared carefully examine the dried disk. The amount and kinds of dirt present in the disk indicate corrective steps that can be taken. For clean milk production, always use J & J Fibre-Bonded Rapid-Flo Filter Disks for Double Value—a safe filter disk,—a reliable "farm sediment test."

# SECRETARY'S REPORT

JANUARY 1, 1943, TO JANUARY 1, 1944

The policy of the Wisconsin Dairymen's Association to aid and assist in an educational way among dairy farmers of Wisconsin, and in Junior activities, has been continued during the past year as always before. The activities of the Association have been directed toward the interest of both better dairying to attain maximum production for the War Effort, and greater dairy income for the state of Wisconsin. The program of work was outlined with the thought of extending cooperation to other existing agencies, including the College of Agriculture, Department of Agriculture, Vocational Agricultural Departments, County Agricultural Agents, Breed Associations, and the Wisconsin State Fair. To promote and encourage Bull Associations, Production Record Keeping, Production Shows and Breeding Schools, and to work in every way possible with the Junior Dairymen. The Association has endeavored to cooperate fully with the above named groups. A brief summary of activities is included in this report.

## 1943 WINTER MEETING

The 71st Annual Meeting of the Wisconsin Dairymen's Association was held at the Park Hotel, Madison, February 12, 1943. Because of the War and transportation problems, the meeting this year was streamlined into a one-day program with every emphasis possible being placed on greater production from Wisconsin dairy herds to meet the nation's war-time demands. Therefore, in outlining the program, special emphases were placed on Dairy Herd Improvement, Marketing Problems, and Production.

It was the close coordination of all groups participating that made the meeting possible; and to them, we wish to express our sincerest thanks and appreciation for the assistance and cooperation given.

## GENERAL PROGRAM

At the General Assembly in the morning, the Association's Activities for 1942 were discussed by Mr. R. W. Stumbo, Secretary of the Association. "Our Job for 1943" was outlined by our President, Stanley Jamison, Appleton. In the absence of Mr. Herman Ihdes, who was seriously ill at the time, Mr. Russell Frost brought greetings from the State Department of Agriculture to all Wisconsin dairymen in attendance. Mr. Ralph Ammon of Prairie Farmer stressed the importance of Dairy Advertising and State Fairs in war time. Dr. Heizer, Wisconsin College of Agriculture, the last speaker on the morning program talked on the subject, "Future Demands on the Nation's Dairy Herd". In the afternoon Mr. Burt Oderkirk, Manager, Babson Farms, Inc., Dekalb, Ill., spoke on "Owner-Tenant Cooperative War Effort." The Business Meeting of the Wisconsin Dairymen's Association followed. A joint informal dinner, with special entertainment and fun, was held in the evening.

## NOON LUNCHEONS

The Wisconsin Jersey and Brown Swiss Associations held their Annual Meetings immediately following their individual noon luncheons.

The Wisconsin Holstein Breeders' Association canceled its Annual Meeting for the year, but had its Board of Directors meet with other state leaders for a noon luncheon and an enlarged Board meeting immediately following.

## JUNIOR AWARDS

At the Wisconsin Dairymen's Association's Junior Luncheon, Mr. Milo Swanton of the Wisconsin Council of Agriculture was the principal speaker.

In the F. F. A. Activities, certificates of merit were awarded by Mr. L. M. Sasman of the State Department of Future Farmers of America to 21 F. F. A. boys completing 5 years of Jr. D. H. I. A. work. The individual awards went to:

Algoma F. F. A. Chapter:

Cyril Halada  
Sylvester Uecker

Beaver Dam F. F. A. Chapter:

George Butterbrodt  
C. E. Butterbrodt

Fort Atkinson F. F. A. Chapter:

Merle A. Punsel  
Francis Cooper  
William J. Heitz  
Wilhelm Pingel

Mondovi F. F. A. Chapter:

Clifford Accola

Oshkosh F. F. A. Chapter:

Andrew Benn  
Wayne Bradley  
James Cross  
Alfred Devens  
Dale Nolte  
Lawrence Pfaffenroth  
Quintin Metzger

Owen F. F. A. Chapter

Gilbert Kessenich

Racine Co. School of Agr. F. F. A. Chapter:

Eugene Tenpenny

Shell Lake F. F. A. Chapter:

Royce E. Lindholm

Whitehall F. F. A. Chapter:

Harland Schaefer

Whitewater F. F. A. Chapter:

Wilfred Ludeman

Mr. Verne V. Varney, Assistant State 4-H Club Leader presented the awards to the ten 4-H Club Dairy Honor Members. This group was composed of:

Dale Burdick, Hillsdale  
Gene G. Clausing, Grafton  
Ralph T. Elmer, Monticello  
Robert Erickson, Port Wing  
William H. Harrison, Chippewa Falls  
Clifford Jurgens, Milton Junction  
Stanley Marsden, Edgerton  
Harvey Pautz, Horicon  
Marjorie Irene Quilling, Elk Mound  
Harriet Stanchfield, Fond du Lac

## DAIRY QUEENS HONORED GUESTS

Mrs. Dorothy Cerny, Madison; Miss Helen McDonald, Fond du Lac; and Miss Joyce Radel, Spring Green, 1940, 1941, and 1942 Wisconsin State Dairy Queens respectively, were guests of the Wisconsin Dairymen's Association at the Noon Luncheon and presented with enlarged, colored photographs of themselves as they appeared on the float in the Dairy Day Parade at the 1942 Wisconsin State Fair.

## D. H. I. A. RECOGNITION

In accordance with a program launched three years ago, honors were paid dairymen who had tested their herds over a period of 25 years or longer. In checking with the Department of Dairy Husbandry, Wisconsin College of Agriculture, it was found that Mr. P. C.

Burchard, Fort Atkinson, and Lutheran Home Farm, Stoughton, were eligible for the recognition this year.

This program of recognizing consistent and long-time testing of dairy herds will be continued as an annual event by the Association.

## PROGRAM OF WORK

Following is the program of work adopted by the Association's Board of Directors.

### GOALS:

1. Organize ten new bull associations.
2. Three county bull programs.
3. Exhibits at twenty production shows and county fairs.
4. Make one state fair exhibit.
5. Promote at least five F. F. A. and 4-H Bull Sales in cooperation with breeders and Service clubs.
6. Dairy schools—25 counties.
7. 150 vocational agriculture departments keeping complete records.
8. Visit all Vocational Agricultural Instructors.

### I. BETTER SIRES PROGRAM:

#### A. Bull Associations.

1. Visit farms of all Association members with county agent or vocational agricultural instructor in charge.
2. Make permanent record of bulls in use and results of Association bulls previously used.
3. Attend annual meetings when possible.
4. Assist in locating replacement bulls.
5. Make recommendations on better practices.
6. Organize new associations.
7. Bull Health.

#### B. County Bull Program.

1. Educational meetings.
  - (a) Bull Placement cooperative.
  - (b) Bull Associations.
  - (c) Artificial insemination.
  - (d) Junior bull clubs.
  - (e) Proved sires and offspring.
  - (f) Health.
2. Committees.
  - (a) To hold bull meetings.
  - (b) For demonstrations.
  - (c) County Shows.
3. County Bull display days.

### II. SHOWS AND EXHIBITS:

#### A. Breed Production Shows.

1. Assist in organization.
2. Assist in conducting.
3. Provide educational exhibits.
4. Encourage educational features.

#### B. County and State Fairs.

1. Assistance in exhibits.
2. Provide educational exhibits.
3. Assist with dairy day program at State Fair.
4. Provide cooperative dairy educational exhibit at State Fair.

### III. EDUCATIONAL MEETINGS:

#### A. Summer Meetings.

1. Develop plans for summer dairy tour.
2. 4-H Clubs and F. F. A. Chapters.

**B. Fall and Winter Schools.**

1. Work with college faculty in conducting feeding, breeding and management schools.
2. Assist with farm institutes.
3. Hold meetings with vocational agricultural departments and 4-H Clubs.

**IV. SALES—CLASSIFICATIONS—PICNICS—ETC.:**

- A. Cooperation with breed fieldmen.
1. Attend and assist with herd classification.
  2. Attend major sales where possible.
  3. Attend and assist with summer picnics.
  4. Attend annual meetings of breed groups.
- B. Attend F. F. A. and 4-H Bull Sales.

**V. TESTING PROGRAM:**

- A. Production record keeping.
1. Cooperate with College on D. H. I. A. program.
  2. Encourage continuous testing of herds.
  3. Herd analysis to get greater use of records.
  4. Junior D. H. I. A.

**VI. HERD HEALTH:**

- A. Plan of work.
1. Make up placard and supply to D. H. I. A. herds.
  2. Recognition for herd owners following herd health program; both vocational agriculture and D. H. I. A.

**VII. DAIRY SCHOOLS:**

- A. Breeding, Feeding and Management schools conducted in cooperation with other existing agencies: College of Agriculture, Breed Associations, Vocational Agricultural groups and County Agricultural Agents.

**VIII. ANNUAL CONVENTION:**

- A. Arrange and hold annual meeting of the Association.

**IX. ORGANIZATION:**

- A. Membership.
1. Junior members.
  2. D. H. I. A. members.
  3. Other members.
- B. Awards.
1. Junior.
  2. Senior.

**EDUCATIONAL EXTENSION ACTIVITIES**

In carrying out the Program of Work for the past year, cooperative Educational Extension Activities have been extended into the field in cooperation with representatives of the University of Wisconsin and the Vocational Agriculture Department of the State Board of Vocational and Adult Education. County and District meetings have been jointly held in connection with these representatives, and in connection with the various Breed Associations, in sponsoring and carrying on their Breed Association activities.

During the year, particular emphasis has been placed on dairy herd management, and most rural educational meetings have been organized around this central thought.

Cooperation between various state agencies has been sought in every possible means. Bull Associations have continued to be a major project of the Wisconsin Dairymen's Association and much time was spent in organizing and supervising cooperative associations so that more good bulls would be alive when proven, and greater use would be made of the great sires when found.

County Better Sire Campaigns which were carried on for the past two years were continued in an organized way. While during the past two years it was the intention and purpose of these meetings to lead to building of organization and cooperation in the use of selected sires, and cooperative exchange of sires, this year's meetings were, more or less, directed toward good dairy herd management practices, and other discussions centering around herd management practices which had a direct or indirect influence on the building of better herds through good breeding and management.

### **STATE FAIR EXHIBIT**

"Wisconsin Dairymen Gear for Victory Production" was the title of this year's Production Exhibit at the Wisconsin State Fair, provided for through the cooperation of the Wisconsin Dairymen's Association, Wisconsin State Fair, and the University of Wisconsin.

The exhibit consisted of two groups of cows—each group being composed of one representative of each of the five major dairy breeds. The first group of cows illustrated the value of good breeding and management practices in attaining greater production, while the second group of mediocre cows represented the average production of Wisconsin dairy cattle. An eight point program for increasing production was set forth at one end of the exhibit, while a chart showing how Wisconsin dairymen have met the challenge for greater production of dairy products caught the eye of each passerby at the opposite end.

The principal purpose in outlining and arranging the exhibit this year was to offer constructive and worthwhile recommendations to Wisconsin dairy farmers in their all-out attempt to produce a maximum of high quality dairy products for the War Effort.

### **DAIRY HONOR ROLL**

Again this year, the Department of Dairy Husbandry and the Wisconsin Dairymen's Association will award certificates and seals to 243 Wisconsin D. H. I. A. members having made a herd average of 350 lbs. butterfat production or above for each of the past three or more consecutive years. However, the displaying of names and addresses of the Dairy Honor Roll members in connection with the Production Exhibit at the State Fair was discontinued.

### **COUNTY KEY-DAIRYMAN PROGRAM**

A new program, sponsored by the Wisconsin Dairymen's association in cooperation with the Wisconsin Agriculturist and Farmer, College of Agriculture, and State Department of Agriculture was launched in the spring of 1943, known as the County Key-Dairyman Program.

The purpose of this program is to select annually for honorary recognition a leader from each Wisconsin county who has done a real job in the community in building dairy and agricultural interests. Nominations were made by ballot appearing in the Wisconsin Agriculturist and Farmer.

Nearly 300 nominations were received and County Key-Dairymen were selected for 46 counties. It is our hope that another year a Key-Dairyman may be selected from every county in Wisconsin.

Presentation of awards will be made at the 1944 annual Meeting to be held at the Park Hotel, Madison, Feb. 7, 1944 and at County Victory Institutes.

### JUNIOR D. H. I. A. SUPPLIES

The Wisconsin Dairymen's Association has continued to cooperate and encourage Jr. D. H. I. A. activities in High School Vocational Agricultural Departments during the past year.

Herd book covers, cow record sheets, and monthly summaries which were furnished by the Wisconsin Dairymen's Association at approximate cost has been the principal way in which our cooperation supported this activity. The number of copies of this material furnished through this office, as stated in the Activity Report, indicates the importance of this phase of work in the Wisconsin Dairymen's Association program. A correlation between the Jr. D. H. I. A. and the regular organized D. H. I. A. work has been encouraged in every way possible.

### APPRECIATION

The Wisconsin Dairymen's Association, its officers and directors, truly appreciate the cooperation afforded by all those who assisted in making the past year's work possible.

We, the undersigned officers of the Wisconsin Dairy-  
men's Association, in accordance with Chapter 94.80  
of the statutes, hereby certify that the within state-  
ment of the financial affairs of the said association is  
accurate to the best of our knowledge and belief and  
that the business of said association has been efficient-  
ly conducted during the preceding fiscal year, and in  
the interest of and for the promotion of the special  
agricultural interests of the state and for the purpose  
for which the association was organized.

*Herbert P. Schroeder*

**HOW TO  
SPARE THE MILK *and*  
SAVE THE CALF**

With Security Calf Food on duty, there's no need of holding back milk for feeding - which Uncle Sam could be using. Send it to market; MILK is MILITARY POWER. . . Since 1900 Security Calf Food has given service on thousands of dairy farms. A 25 lb. pail will help four calves through the dangers of the first six weeks—and the saving over milk will amaze you. A New Free Folder is yours upon request!

# Save That Milk

SAVE MESS  
AND  
MONEY, TOO

**MANAMAR**

## CALF PELLETS and CALF MEAL

- Save up to 1,500 lbs. of milk per calf raised
- Every dollar invested in pellets or meal saves you \$3 to \$5 worth of milk badly needed for human use
- No mess of mixing gruel —no pails to wash nor water to heat
- See your local dealer, or write for details

*Although the sale of Cattle ManAmar is now limited by the problem of obtaining ingredients, the benefits of the Man-Amar program can be given to calves through the use of our Man-Amar Calf Pellets or Calf Meal.*

## “YOUR PROBLEM IS OUR PROBLEM”

The purpose of the Wisconsin Dairymen's Association is identical with the one of all major dairy breed associations — to assist in every way possible in aiding to develop Wisconsin's dairy herds.

### WE CAN HELP YOU:

- *Locate production bred males and females of your particular breed.*
- *Work out a breeding program.*
- *Plan a bull paddock.*
- *With your herd management problems.*

**CALL ON US**

# **WHO'S WHO**

## **Alphabetical List of Wisconsin Dairymen's Association Members**

## **Breed Associations**

## **Wisconsin D.H.I.A.**

## **Agriculture Departments and F. F. A. Chapters**

## **Wisconsin Bull Testing Associations**

**Wisconsin Ayrshires are noted for their freedom from disease, heavy production and good type—many herds from which to choose.**

**Why . . .  
The AYRSHIRE  
Is the Cow for  
Wisconsin Farmers**

1. Heaviest Producer of 4% Milk — at least feed cost.
2. Wears like iron — more 100,000 pound producers of 4% milk than any other breed.
3. Milk in demand for special market purposes.
4. Good grazers — hardy — rugged.
5. Correct type . . . sound udders — the buyer's choice.

The nation's first county  
in dairy production  
votes overwhelmingly for—

## CO-OP UNIVERSAL

The Universal Milking Machine Company has been serving the dairy farmers of Wisconsin for over 27 years. During this period, we have enjoyed and are grateful for the confidence placed in us by Wisconsin dairy-men as witnessed by their selection of our machines. In Waukesha County, the top dairy producing county in the United States, over 80% of all milk produced by machine milkers is produced by Co-op Universal machines.

On February 1, 1943, Universal Milking Machine Company was purchased by National Cooperatives. It is now owned and controlled by organizations which in turn are owned and controlled by the farmers themselves. We welcome this opportunity to serve our new owners, our members and the communities of which they are a part. *Universal Milking Machine Co., Waukesha, Wis.*, Division of National Cooperatives, Inc., Chicago.

# **MASTITIS -- (Garget)**

**Can Now Be Effectively Treated**

## **"STREPTO - LAC"**

**(Tyrothricin)**

is a combination of Gramicidin - Tyrocidin and an effective agent for the treatment of Chronic Mastitis due to Streptococcus Agalactiae (both on dry and lactating cows), and about 90% of such cases may be successfully treated. STREPTO-LAC is injected (30 c.c. dose) through the teat canal into the diseased quarter. Probably half the cases respond from the first injection, while no case should be considered hopeless until several injections have been tried at seven to ten day intervals. STREPTO-LAC keeps well, even after opening, at ordinary temperature. A 125 c.c. bottle retails for \$2.75 and Canula, which fits any standard syringe, costs 25 cents. A 250 c.c. bottle sells for \$5.00. It's well worth trying.

# **BROWN SWISS WINS FARMER APPROVAL**

- Interest in Brown Swiss cattle is growing more rapidly today than in any other dairy breed in America.
- The reason for this is that Brown Swiss have proved themselves to be what real dairymen want.
- Here are some of the features on which they win approval.

- Size and Body Conformation
- Vitality and Ruggedness
- Producing Ability
- Quality of Milk
- Veal and Beef Value
- Disposition and Attractiveness
- Popularity and Demand

# GUERNSEYS

*set the Pace*

Guernseys account for sixty per cent of the total increase in sales of registered dairy cattle since the last war. (Comparison of 1917 with 1943)

Of the total increase in registrations of purebred dairy cattle since the last war, Guernseys account for forty-eight per cent. (1917-1943)

Sales of registered Guernseys are averaging twenty-five per cent above last year.

In thirty-six public auction sales held during the first half of this year, Guernseys averaged \$469, as 1,249 animals sold for \$607,631.50.

Registrations of Guernseys during the past six months total twenty-four per cent above the same period last year.

Despite the critical labor situation, more Guernsey breeders are now testing more animals for production under official rules than one year ago.

Sales of milk under the national trademark as Golden Guernsey are up forty-five per cent above one year ago.

# **Hoard's Dairyman Farm**

## **Guernsey Sires**

### ***Playhaven's Y. Plymouth***

Playhaven's Y. Plymouth, our senior sire, is a son of Douglaston Lady Dorothea 413158, who made 11,341.5 lbs. milk and 629.5 lbs. butterfat as a junior 2-year-old and 15,943 lbs. milk, 809.8 lbs. butterfat in Class AA. She in turn is sired by Imp. Financier of Myrtle Place 166260 whose 62 daughters average 11,054 lbs. milk and 564 lbs. butterfat. The sire of Plymouth is Raemelton Yankee 222777. His daughters are large, roomy heifers that give promise of developing into very desirable cows. One of them has a record of 644 lbs. butterfat in GG, while another produced 13,712 lbs. milk 688.1 lbs. butterfat in E. His dam, Green Meadow Tranquil 359360, made 801 lbs. butterfat as a junior 3-year-old and is considered one of the outstanding Guernsey cows of today. Plymouth combines both production and individuality. One of his young sons should please you.

### ***Raemelton Triumph Dairyman***

Raemelton Triumph Dairyman, one of our junior herd sires is being proved on HOARD'S DAIRYMAN FARM, was selected for use because of his excellent type, splendid production backing, and particularly for the strength and dairy qualities of his dam, Caumsett Bertha, who has a record of 607 lbs. fat in class G, and over 743 lbs. fat in AA.

### ***Playhaven's C. Paul***

Playhaven's C. Paul, one of our junior sires, is a very typy three-year-old which we confidently expect will prove to be a most satisfactory sire. His sire, Broadland Challenger, is by a son of Green Meadow Coronation Prince and from a very good granddaughter of Green Meadow Coronation King. Paul's dam, Playhaven Pauline, is one of the outstanding daughters of Raemelton Sunny Triumph, a proven son of Green Meadow Tranquil, bred, developed and proved in the Raemelton herd. Playhaven Pauline was one of a number of outstanding foundation cows selected by Gordon Hall for H. W. Mercer's Hominy Hill Farm, New Jersey, where she recently completed a Class BBB record of 13,508.7 lbs. milk and 636.6 lbs. butterfat.

Sons of the above three sires out of the steady, good producing daughters of Allen's Show Boy now in our herd, will help both your production and type. Write us for prices and descriptions of our bull calves before purchasing your next herd sire. We have several that are priced for quick sale. Herd accredited.

ASSOCIATION**

Fort Atkinson, Wisconsin

**THRIFTY COWS**

The potent medicinal tonic and mineral supplement, supplying Iron, Iodine, Calcium, Phosphorus and essential Vitamin D. Give Kow Kare daily with the feed to promote better digestion and assimilation for milk production, and build bodily vigor needed to forestall common cow ills and calving disorders. \$1.25 and 65c sizes.

Bag Balm combines the virtues of a refined, medicated ointment with an exclusive, liniment-like oil that penetrates and promotes quick healing. Valuable in treating Caked Bag, Sore Teats, Bunches, Chaps, Cuts, Inflammation and common ills and injuries.

Blg 10 ounce package 60c.

Molded of smooth, ivory-like composition. Holds muscles in correct shape for unobstructed healing of teat canal. Will not melt or "give" under pressure. 25 Dilators, sterilized and packed in Bag Balm, 60c.

DAIRY ASSOCIATION CO., INC.,  
Lyndonville, Vt.

# WINNING *its* WINGS

Farm equipment now faces the battle of its life. The year past was tough, but ahead is the real test. Old machines—overworked and worn to the danger point — *must* continue for at least another year.

New machinery will be manufactured in whatever quantities war conditions permit, but it would be a fatal mistake to assume that there will be enough to meet all the urgent needs. Every salvageable implement must be pressed into service.

We need to be extremely *thrifty* with repair parts. You are cautioned against ordering extra parts not actually needed. That's a rule we should all observe this year.

Allis-Chalmers dealers have set as their goal the complete preparedness of every machine — tractors, All-Crop Harvestors and implements, back to the early serial numbers. Worn parts should be repaired if at all possible. Farm Commando wings on A-C farm implements will tell the world that when our country called, *they* were Ready to Roll!

# ALLIS-CHALMERS

TRACTOR DIVISION — MILWAUKEE, U. S. A.

# HOLSTEINS FOR MOST PROFIT

- More than one third of the 122,000,000,-000 pounds of milk set as the 1944 goal by the Government will be produced by Holsteins.
- In Wisconsin more than 70 per cent of all registered dairy cattle are Holsteins. It takes a big machine to do a big job. Holsteins are the largest of all dairy breeds.
- Holsteins produce the most milk per cow. They have unequalled ability to "step-up" production and turn inexpensive home-grown feeds into great quantities of milk and butterfat.
- Holsteins are not only the heaviest milk producers during their active years but they also have the greatest salvage value when their days as dairy animals are done.
- Read production records. Holsteins lead in every official class. Tie up with a winner. Build a herd that gives top production in return for feed and care.

For proof of the superiority of Holsteins,  
write Box 2097

*Extension Service*

*These . . .*  
**ARE OUR SIRES**

***Wisconsin Admiral Burke Lad***

9 years old. Gold Medal Proven Sire.  
Index 827 lbs. of fat, 3x, 3.9% on 15  
pairs.

Grand Champion—Utah 1937.

***Sir Ormsby Skylark Barbetta***

5 years old. 4 crosses to Creator, Gold  
Medal Proven Sire.

Daughters now fresh and on test. One  
has finished with 640 lbs. fat on 3x at  
2 years and was first prize 2-year-old,  
Wis., 1943.

***Pabst Barta Prilly Wayne***

2 years old. All American Junior Year-  
ling 1942, Son of Sir Ormsby Skylark  
Barbetta. From a splendid daughter of  
Carnation Sensation.

***Pabst Roamer***

1 year old. A son of Burke out of the  
same dam as Pabst Barta Prilly Wayne.

---

Sons of the first three sires are available to  
head your herd. They have splendid type and  
are out of dams with yearly records in our herd  
of 300 pure bred Holsteins.

Sons of these sires can help you raise the level  
of your herd. Use one.

**SELL YOUR CULLS AND FEED THE REST.**

# CONCRETE

## DAIRY IMPROVEMENTS

### AID MILK PRODUCTION — CONSERVE SCARCE MATERIALS

A concrete milk house, cooling tank, or dairy barn will help you step up milk production for war needs. Concrete's sanitary features meet health board requirements; keep your cows healthier; make your work easier.

The Portland Cement Association has prepared designs for these and other farm structures which **SUBSTANTIALLY REDUCE OR ELIMINATE REINFORCING STEEL**. Concrete materials are usually available locally, requiring a minimum use of transportation.

Write for the Helpful Free Booklet . . . .  
"Dairy Farm Improvements of Concrete."

### PORTLAND CEMENT ASSOCIATION

735 N. Water St., Milwaukee 2, Wis.

## PUREBRED JERSEY FIRSTS

### *In Things More Important*

- First recorded date of recognition of Jersey cattle as a dairy breed — 1734.
- First dairy cow registered in America — a Jersey (Lily No. 1 dropped in 1851).
- First purebred dairy organization in America — American Jersey Cattle Club.
- First to conduct Parish Shows in America — Jersey breeders (1926 in Indiana).
- First in production efficiency in every impartial test — purebred Jersey cattle.
- First (and only) breed with a national butterfat average over 5% — Jerseys.
- First dairy breed in America to adopt Selective Registration — Jerseys (1939).
- First Super Registration ("Star Bull") program initiated by Jerseys (1939).
- First cow choice of 50,000 American dairy breeders — purebred Jerseys.
- First choice of 2,000,000 American dairy farmers — Jerseys (purebreds, grades).

### CRAIGNOLL FARM

Estab. 1927

**JOSEPH A. CRAIG, Owner**

Janesville, Wis.

#### **Breeder of Registered Jersey Cattle**

1. Our blood lines run to Volunteer and Blonde families.
2. All our Herd Sires are Star Bulls from 2 to 4.
3. We have several Gold and Silver Medal cows.
4. Our herd average last year on 20 cows—416 lbs. fat.
5. Some of our older cows ran over 500 lbs.
6. Bull Calves from tested dams for sale each year.

*Congratulations . . .*

## **WISCONSIN DAIRYMEN**

**You're conducting a magnificent "battle" on the home front. Against tremendous difficulties you're turning out the greatest flood of milk known in history.**

**We Purina dealers and field men are proud to be a part in your great battle. We're bending every effort to keep feed rolling in to your barns. With your good cows and good care. . . . and good supplements to balance your grain . . . we know you'll keep the torrent of milk flowing to help lick the Axis.**

BUILDING

WISCONSIN

DAIRY NEED

INCOME

Congratulations  
 WISCONSIN DAIRMEN  
 You're receiving a magazine devoted to  
 the home farm. Against numerous odds  
 we have managed to get this special issue  
 of milk known in history.  
 The future depends on the milk we produce  
 to be a part of your great future. We're  
 building every year to help you realize it.  
 In your home... with your good cows and  
 good care... and good management to  
 produce your profit... we know you'll soon  
 be the owner of milk known in history.
