The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

Garden of Eden

Close to where the big Lake Ontario lies is where most fruit grows including these cherries. The way it looks it must have been that Garden of Eden that is written about in the Bible and the Oneidas used to say that the devil created the snake when our maker rewashed the earth. So it must have been here that Noah was born or to the east of here on the continent where the great flood happened and perhaps the ark was out east and the wind drove it to another continent called Europe. The boat arrived and these Jews got off there. Perhaps they are related, the Oneidas and the Jews. They are rather dark and their hair is black and they have big noses so they quite a bit resemble the Oneidas.
