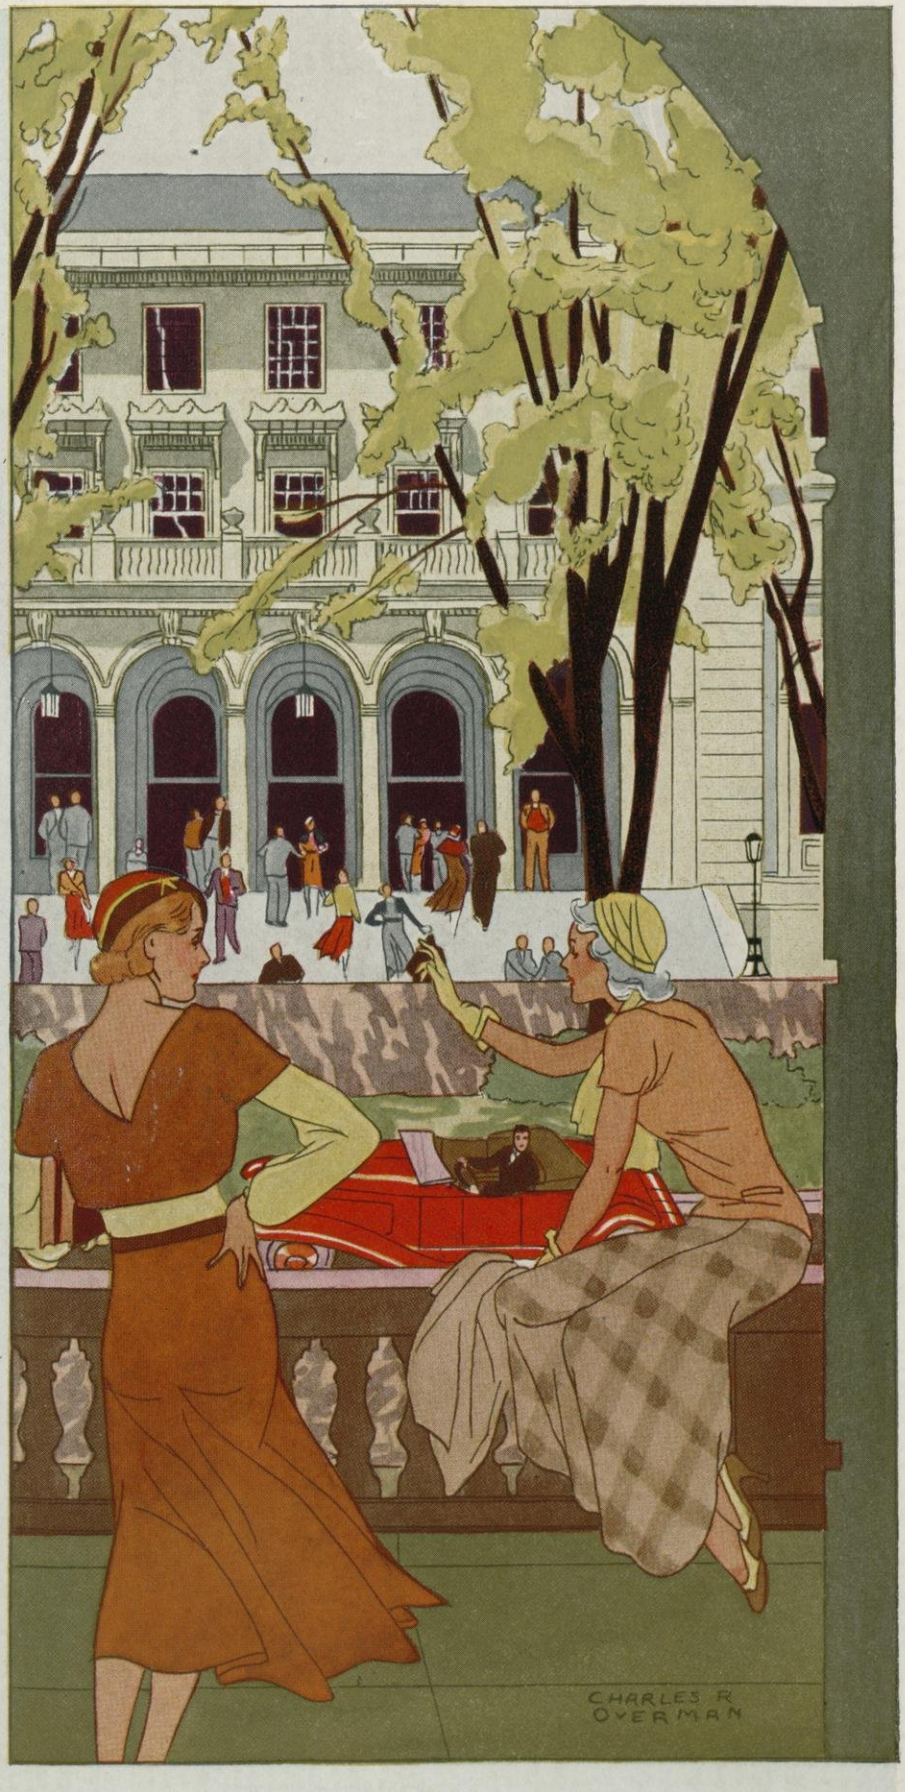
FOREWORD

The old alumnus, lamenting the passage of tradition from college life, often accuses youth of a modern materialism which has destroyed college spirit. Memory singles only pleasant moments from the past, and it is the alumnus, not the student, who forgets the whole of college life. Glamour and beauty still exist, although our means of expression have changed, and Wisconsin still is dedicated to the greater tradition of developing the well-rounded gentleman. It is to the realization of this ideal that the Wisconsin Badger is dedicated.

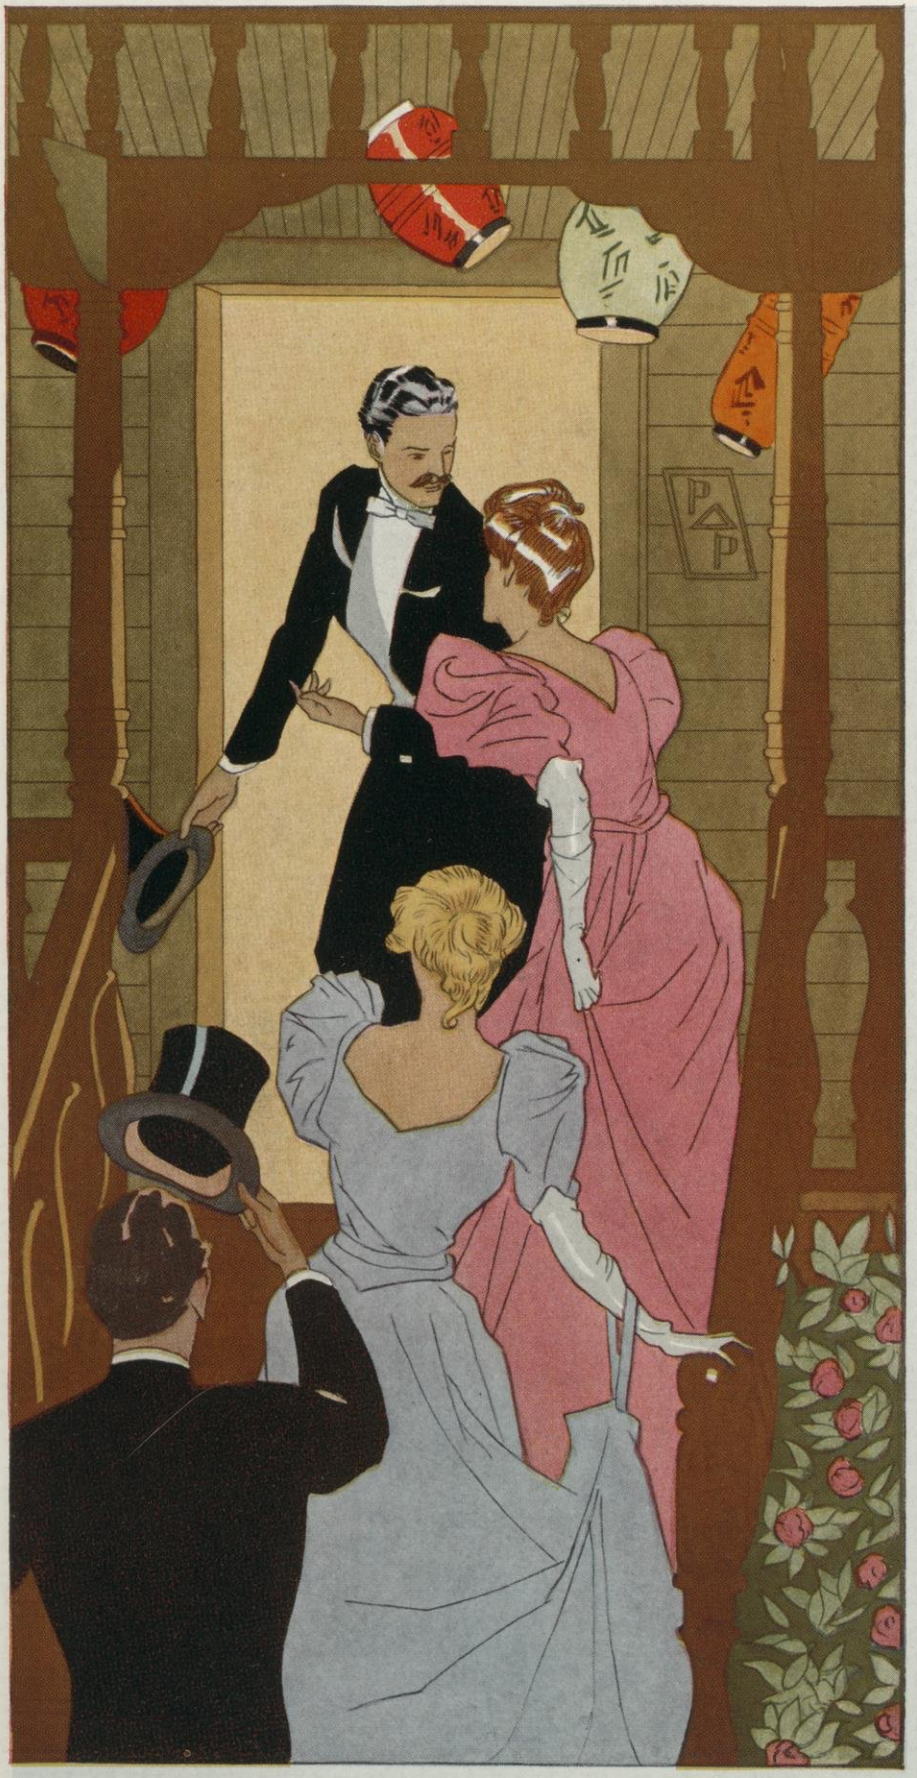
Years ago under these same arches the students lingered, casually enjoying the pleasure of college days, or hurried up this hill to their classes, living through those pleasant moments that lie along our way in the great quest for knowledge.



And still we gather in the friendly intimacy of college companionship, despite the changes in the world that surrounds us, intent upon the quest, pursuing it with the same spirit of thoughtful adventure which has always marked the true university.

The quiet of college life years ago was often broken by traditional class warfare, for tradition then dictated that only by hazing could the individuals be molded into a solid class and as a class set upon the attainment of knowledge.

But today we feel that common interest rather than common danger fosters solidarity and only by the friendly guidance of upperclassmen can the new students in their early period of changed surroundings be started rightly upon their search for knowledge.



Every alumnus recalls the happy gaiety of the social life of his day, the parties and sleigh rides, and canoeing on the lake. He remembers the informality of less hurried days, and regrets that modern customs have crowded romance from our lives.

Our social life is different now and many of the intimate scenes have been displaced by more crowded, more formal functions, but the spirit behind them, of pleasant companionship and genuine affections still remains unchanged.

The simple life of the university years ago saw in athletics the representation of the spirit of her men. Without necessary equipment, without publicity these early athletes developed the ideal of crystallizing in their performance the spirit of Wisconsin.

Today despite the charges of commercialism and over-emphasis the university still realizes that the ideal of developing the well-rounded man must be expressed in athletics and finds justification for sport as a manifestation of this spirit of the university.

THE CAMPUS

The old alumnus who laments the passage of the spirit of his college days still may find consolation in the changeless beauty of the Wisconsin campus. Bounded by beautiful lakes, crossed by wooded walks and rambling drives, the campus remains. The buildings themselves remain unchanged except as time has gently softened their stone lines. It is with this realization of Wisconsin as a changeless place of beauty that we present these scenes of the campus.

ADMINISTRATION

President Glenn Frank

President Frank's Message

THIS Badger will stand as the memory-book of a class that leaves the University to enter the active life of a profoundly disturbed era in our national life. I content myself with expressing here the hope that the men and women of the Class of 1932 shall bring to the affairs of their time that combination of scientific precision and social passion which alone can bring constructive results out of a confused time.

GEORGE C. SELLERY, *Dean of the College of Letters and Science*

The College of Letters and Science

THE College of Letters and Science is, of course, a college of liberal arts; historically the two names mean exactly the same thing. As a college of liberal arts our college teaches those subjects which are believed to contribute largely to a liberal education, that is, an education which helps human beings to live a richer life. Of course, the College of Letters and Science does much more than this; it teaches the tool subjects such as English, mathematics, the sciences, and foreign languages for the students in all of the colleges, and it has certain groupings of subjects organized into schools or courses which are of a semi-professional character. These are: School of Commerce, School of Journalism, School of Music, Library School, Course in Chemistry, Chemistry-Commerce Course, Course in Pharmacy.

All in all, the College of Letters and Science has no longer the simple purpose of helping people to live on a higher plane of existence, but that, I think, is still its central purpose. To this end it teaches the literatures, music, art history (that is to say, the history of architecture, sculpture, and painting), history and the sciences. It does not teach theology, since that is not permissible, but it does teach philosophy. Promoter of so many aspects of human creative capacity, it seems to me unlikely that the colleges of liberal arts will be reduced to the providing of mere general preparation for professional careers. A man is more than a lawyer, doctor, engineer, or merchant. He has interests that transcend his profession, and if and when society succeeds in organizing life on a reasonably satisfactory basis, then the interests that are called higher, for lack of a better term, will become even more important than they are today. "Is not the life more than meat and the body than raiment?"

G. C. Sellery

OTTO

MAX CARL OTTO
Professor of Philosophy

Whose gifted chalk visualizes man and nature to overflowing classes, whole attackers of his tenets talk.

PAXSON

FREDERIC L. PAXSON
Professor of History

A pioneer in the new history of the West, an unbiased authority on America's part in the World War, and a lecturer and writer of insight and precision.

FISH

CARL RUSSELL FISH
Professor of History

Of red vest fame . . . Nationally a historian and teacher; traditionally a speaker at Wisconsin homecomings and pep meetings . . .

BLEYER

WILLARD G. BLEYER
Professor of Journalism

Whose pioneering venture twenty-six years ago in the field of journalism teaching has resulted in the School of Journalism today.

BUCK

PHILO M. BUCK, Jr.
Prof. of Comparative Literature

Cosmopolitan in his life and his studies, he has, through his lectures and his books, given to many an intelligent insight into the riches of world literature.

YOUNG

KIMBALL YOUNG
Professor of Social Psychology

Sociology professor whose lectures show us man's big battle to find an excuse for himself.

CHRIS L. CHRISTENSEN, *Dean of the College of Agriculture*

The College of Agriculture

THE college of Agriculture, since the department was made one of the separate colleges of the University, has steadily grown to meet the demands placed upon it by the agricultural interests of the state.

The early demands upon the College of Agriculture were principally those of class room instruction for the young men seeking training in the basic principles of farming. This, today, is still one of the several important activities and functions of the institution and every year its students are preparing themselves to assume duties in the actual management and operations of farms or for positions with the farm industries, while others achieve positions of leadership in the educational, industrial, and scientific fields. Graduate students from the several states and from many foreign lands come to the Wisconsin college of agriculture to obtain specialized training in its various departments, many of which already are internationally known for their high standards of work.

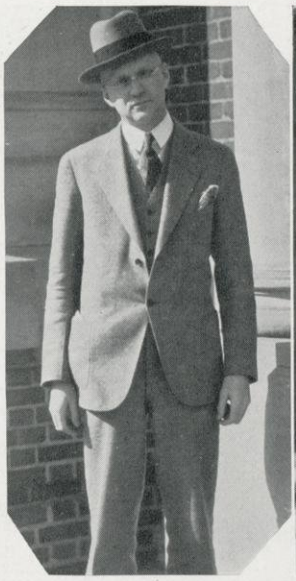
Today, however, the campus of the College of Agriculture in reality is bounded only by the four boundaries of the state and its student body is far greater than those whose names actually appear on the enrollment lists. Thousands of farmers and their families, representing about every community in the state, are annually carrying on projects under the direction of resident instructors or extension specialists of the College.

Every day, in the rapidly changing order of our modern agriculture, new and unsolved problems confront the Wisconsin farmer and homemaker. These problems the busy farmer refers to the College of Agriculture for solution and in the laboratories, in the feed lots, in the field plots, and in rural communities, research workers are found at work gathering data to help solve the increasingly numerous problems of production and distribution of farm products the solution of which contributes to a richer rural life.

In the new problems of merchandising agricultural products with which the Wisconsin farmer is becoming more and more concerned, he is turning to his college of agriculture for information and guidance.

In its three main activities—resident instruction, research, and extension, the College of Agriculture seeks to make available the latest scientific and practical information on all phases of the agricultural industry. In doing so, it seeks to assist in the development of that great industry upon which much of the fame and success of the state has been built.

Chris L. Christensen



STEENBOCK

HOPKINS

JONES

COLE

HARRY STEENBOCK
Prof. of Agricultural Chemistry

Ranking with the foremost of those contributors to the stores of knowledge of the numerous vitamins . . . Who followed in the footsteps of his teacher Dr. Stephen Moulton Babcock, when he gave his patents to the University and renounced personal profit . . .

ANDREW W. HOPKINS
Professor of Agricultural Journalism

Under whose guidance agricultural journalism has put its best foot forward, former pupils leading a dozen similar departments in as many other schools.

LEWIS R. JONES
Professor of Plant Pathology

An inspiring teacher, a sage counselor, and a practical investigator . . .

DR. LEON J. COLE
Professor of Genetics

Zoologist and pioneer investigator in animal genetics . . . A member of the National Research Council, and an authority on his subject . . .

HIBBARD

FROST

B. H. HIBBARD
Prof. of Agricultural Economics

A pioneer and leader in agricultural economics, an authority on agricultural movements of economic nature, and a spokesman for progress.

WILLIAM DODGE FROST
Professor of Agricultural Bacteriology

A founder of the present department of bacteriology, author of scientific texts and articles of international recognition . . . a Wisconsin man since '95.

F. E. TURNEAURE, *Dean of the College of Engineering*

The College of Engineering

SCIENTIFIC discoveries during the past one hundred and fifty years and the inventions that converted those discoveries to practical uses, have given mankind such great resources of mechanical power and such a command over nature, that there has resulted a revolutionary change in the modes of life and work of the whole civilized world. These developments have made available new materials of construction, have transformed manufacturing processes, and have wrought great changes in the methods of transportation and communication and in the supply and distribution of water, heat, light, and power. All of these new activities involve, to a greater or lesser degree, the application of scientific principles and call for the services of the engineer.

The function of the College of Engineering is twofold: first, to give young men a training in engineering; and, second, to make scientific investigations of various engineering problems.

Training is offered in four-year undergraduate courses and in graduate courses that continue from one to three years beyond the under-graduate courses. The training is designed to accomplish two things: First, it aims to give its students sufficient skill in certain technical operations to enable them to begin the practice of their professions immediately upon graduation. The graduate begins the practice of engineering as a computer, draftsman, instrument man, timekeeper, testman, inspector, or laboratory assistant and should be able to do creditable work in one or more of these lines. Second, it aims to train men to analyze engineering problems scientifically and reach sound conclusions about them. In addition to the technical objectives, the training is designed to enable the graduate to meet other men in business and social intercourse upon terms of equality and to rise to the highest positions of responsibility in business and public affairs.

The research work of the college is done under the auspices of the Engineering Experiment Station, which was established by the Regents for the purpose of promoting the engineering and industrial interests of the state. This work is an important and constantly-enlarging part of the college activities, and commands the efforts of both faculty and students.

F. E. Turneaure

WITHEY

M. O. WITHEY
Mechanics

A mind of brilliance, honored by science and student alike . . . a man of warm personality, high moral courage, great faith, and reverence . . . a teacher of inspiration and deep insight.

MEAD

DANIEL MEAD
Hydraulic Engineering

A career of achievement, curbing and harnessing Nature's mighty forces, a personality inimitable and beloved as it is respected.

MCCAFFERY

R. S. McCAFFREY
Mining Engineering

He keeps a fire in his pipe and a fire of ambition in his department, small in numbers but big in achievement; he is well known in the field of mining engineering practice and education, and a most popular teacher withal.

BENNETT

E. E. BENNETT
Electrical Engineering

The electrical engineers, the radio station, and the field of inventive science claim the attention of this teacher . . . an excellent thinker and an inspiring personality.

WATTS

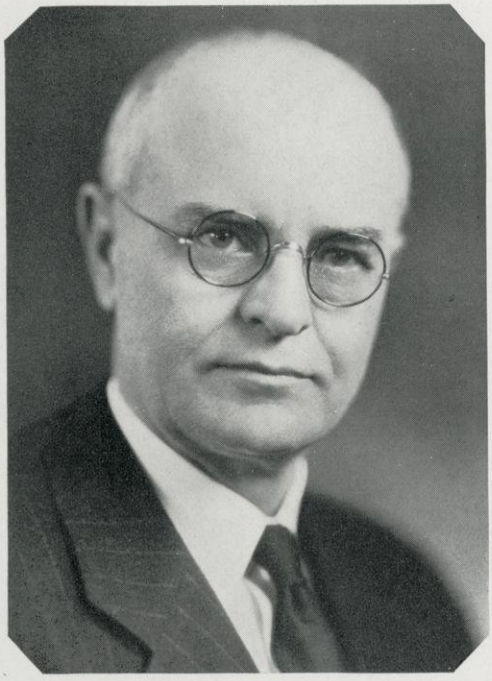
O. P. WATTS
Chemical Engineering

A true scientist: experimenter, thinker, and authority in electro-chemistry, whose life is broadened by travel, enriched by countless friendships, and blessed with a New England sense of humor.

OWEN

RAY S. OWEN
Civil Engineering

He tries everything . . . from secret code to city council . . . variety is his watchword, activity his creed, and success his portion.

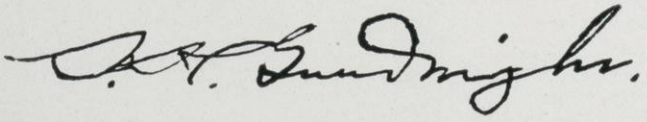


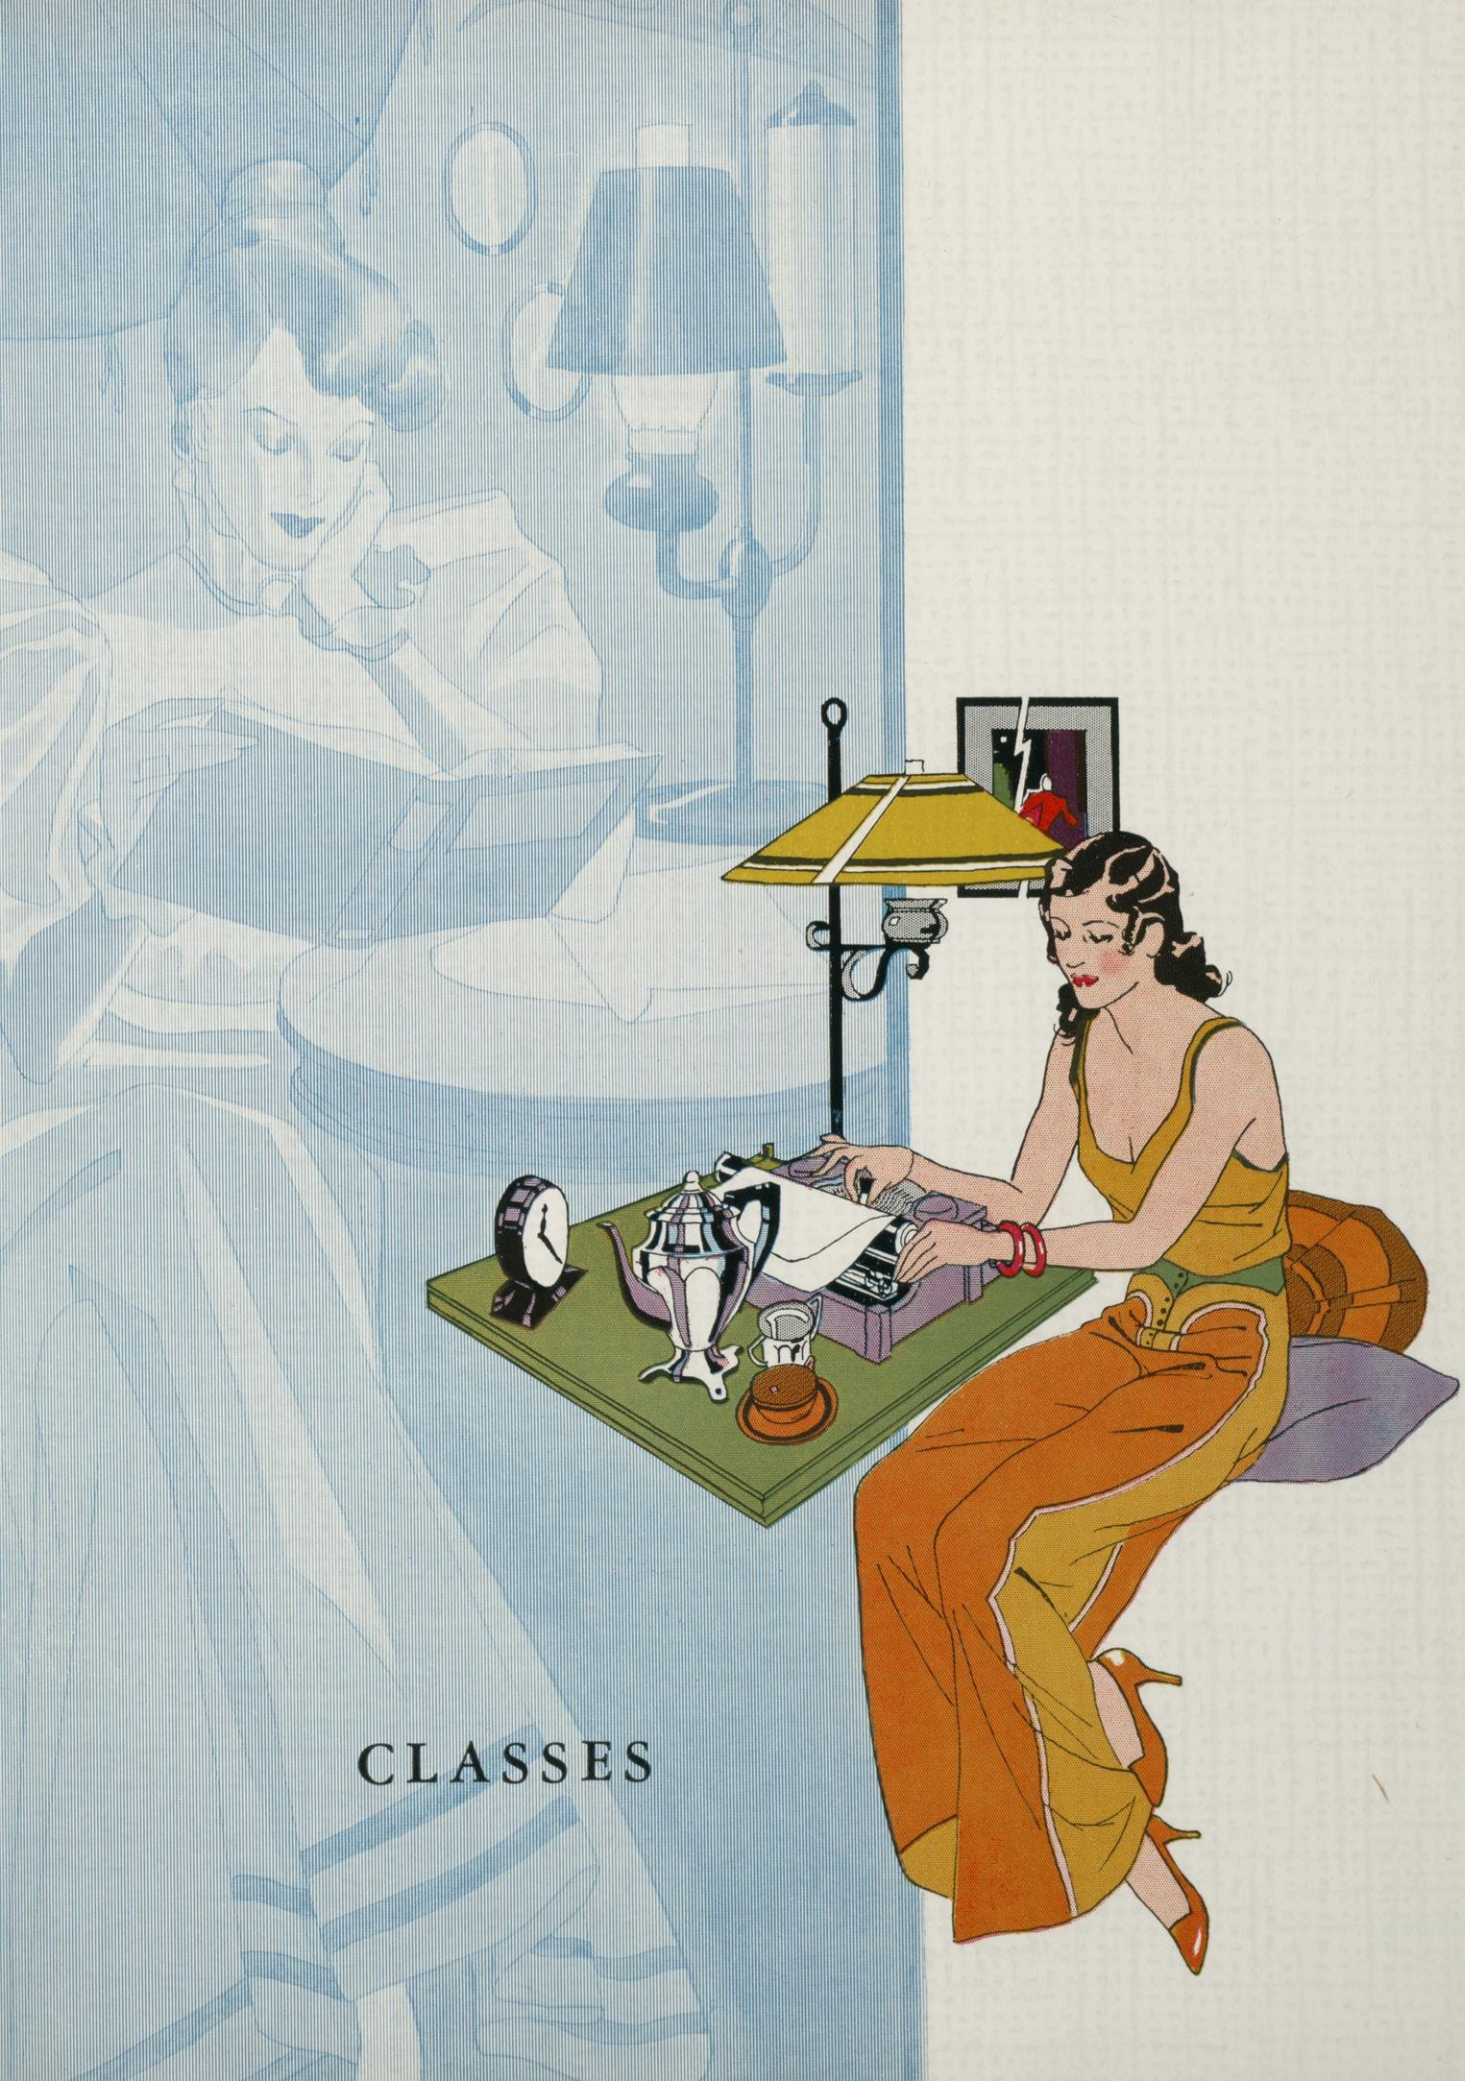
SCOTT H. GOODNIGHT, *Dean of Men*

Dean Goodnight's Message

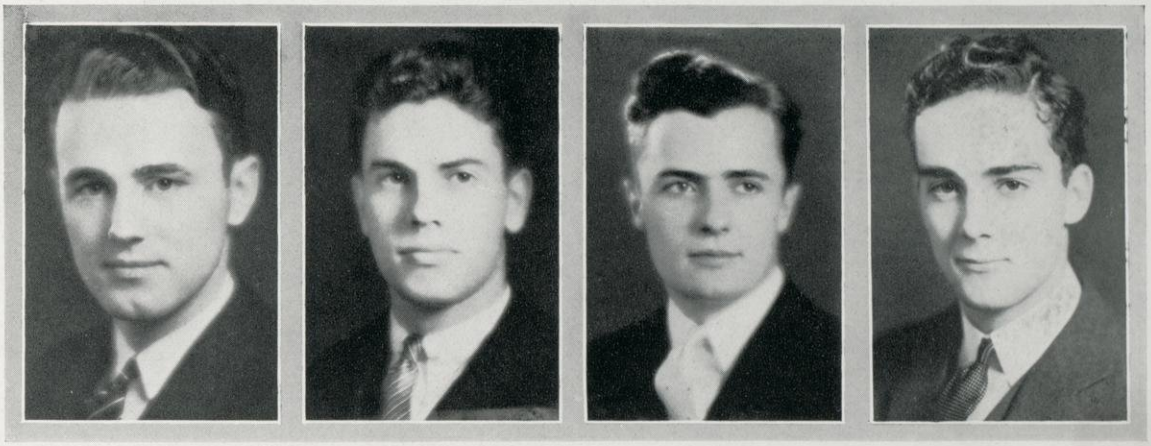
FOR the first time in Badger history, the book is issued this year by the Senior Class. Heretofore it has been a junior undertaking, now it becomes the chronicle of the graduating group.

It is a chronicle of their record here. What would a history of their careers twenty years hence contain? Who would venture a forecast of the course of events during the next two decades? Classes have graduated from Wisconsin in critical periods in the past, in periods of war, of depression, of political upheaval; but probably no class which ever graduated here has gone out into a world so unsettled and so at odds with itself, socially, politically, economically. Truly, no class ever had more need for reliable information, for analytic insight, for power to think straight and for emotional control. We hope their four years of opportunity at Wisconsin have been utilized in the acquisition of these things. We hope that their future records may prove their possession of these qualities, and that they may contribute real service in bringing about a better adjustment of the forces now in conflict and in returning to modern life more of the sanity and balance which it so much needs.





CLASSES



WEAVER KINSLEY DOOLITTLE KENNEDY

Class of 1932

The slave philosopher, Epictetus, once wrote—"The state has said, only the free shall be educated, but God has said, only the educated shall be free."

The Class of 1932 has spent the last four years in an environment particularly adopted to the search for freedom. It has been a period of adjustment, during which many of the traditions of the University as well as of the world at large, have been broken completely, but the essential purpose of our life has been the same. The University, which is itself a member of and exists for society, has continued to offer opportunities to its students in every field, to prepare themselves for a constructive, intelligent existence.

The members of the Class of 1932 who are about to make that transition from student to alumnus, must inevitably ask themselves what their new relation to their Alma Mater will be. Since the interests of the individual and the University are identical, they can best serve her by serving themselves, by furthering her best traditions as well as by more direct support of her projects.

H. DOUGLAS WEAVER, *Senior Class President*

Class of 1933

The Class of 1933 considers itself indebted to the University of Wisconsin for the unlimited opportunities it has offered to the class as a whole. The accomplishment of our aims, the achievements of our members, and the general success of the past year are thus partly due to these opportunities and partly due to the aspirations and ambitions of our class. We look back with pride on a year past, a year intermingled with moments of worthy friendships, moments of happiness and success, together with moments of grief and sorrow and apparent failure, which justifies an emotional feeling of perfect satisfaction and acknowledgment of an important step in our progress.

We are looking forward to much and have more obstacles to conquer. It is by the upholding of ideals and traditions which are indispensable to the assumption of responsibility and the necessity of the highest fulfillment of clean and successful living that we may succeed. In this the Class of 1933 will repay the University by adhering to the ideals, standards, and traditions which she has given us.

EDWIN J. KINSLEY, *Junior Prom Chairman*

Class of 1934

As a representative of the class of 1934, it is my privilege to express certain sentiments entertained by my classmates.

With the class of 1934 came the advent of many new policies relative to degree requirements and higher scholastic standards. These were not, of course, perpetrated by the class; we were useful merely as experimental material. One of these measures has claimed its toll from our ranks, but it seems reasonable to assume that such a loss would have been suffered by any class in any other year that one might choose.

We have, with a creditable amount of success, pursued the course of instruction required since our matriculation into the University. With this preliminary training a thing of the past, we feel that we are prepared to digress from the beaten path and enter the various fields of specialization which will ultimately lead to a realization of our objectives.

JOHN W. DOOLITTLE, *Sophomore Class President*

Class of 1935

Without the advantage of retrospect, it is impossible to state accurately what definite achievements the class of 1935 has made. Nevertheless it may look back with pride upon the achievements of its members and the spirit it has shown in its first year at the University of Wisconsin. Last fall this class arrived at this institution in various stages of dismay at the appalling and, to some, rather mysterious challenge offered them in the form of higher education. The members of this class have indeed tried to live up to the ideals and traditions of the university and now feel themselves sufficiently initiated into the true spirit of Wisconsin and able to become the main cog of the University when their turn comes.

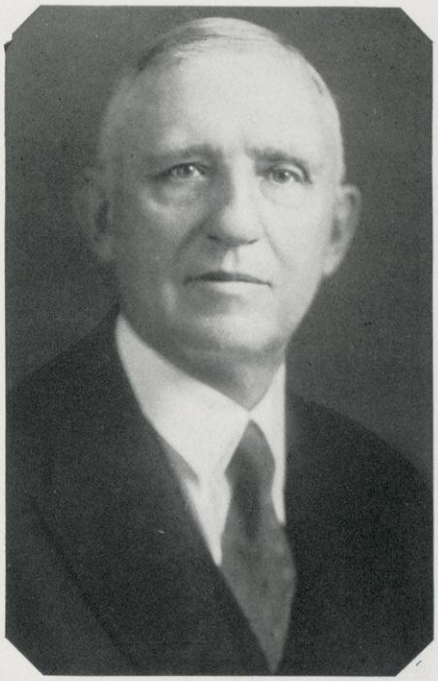
ALUMNI



ASA G. BRIGGS

Alumni President's Message

To Students and Alumni of the University of Wisconsin:

STUDENTS soon become alumni; the transition is quick, yet very real.

As alumni get farther and farther from commencement day they learn and appreciate more and more how much the University has aided them. Their gratitude swells with their appreciation. They love and honor the University and the state that gave them so much. They become partisans for both and seek ways to recompense.

Some alumni regard superiority in athletics of great importance and seek to make it secure. Some regard character and scholastic work as paramount and contribute accordingly.

Many alumni joined in constructing the beautiful, serviceable Memorial Union Building. Many others contribute liberally of their time and energy in service in legislatures, on state boards, and in other ways. Individuals have been happy in making large donations.

The alumni have started and are now building a student loan fund which has already reached considerable proportions. The intention is to make this fund adequate in amount to give substantial aid to worthy students in times of need.

Alumni are grateful for what they have received; they are not in position to demand; they do not demand. They do wish to serve and be useful that their Alma Mater may grow in merit and appreciation.

April 5th, 1932. ASA G. BRIGGS, *President.*

BASIL I. PETERSON, *Treasurer*

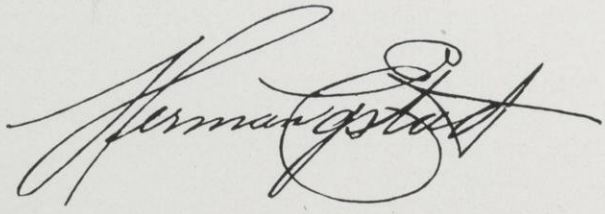
HERMAN M. EGSTAD
General Secretary

EARL VITS, *Vice-President*

Alumni Secretary's Message

THE representative student has a very real interest in the university and its welfare, and that interest does not end with graduation. The Alumni Association provides the medium through which such intimate contact with the campus can best be maintained and the impulse to serve find its larger opportunities.

Whether the Association shall continue to be a more effective instrumentality of service to the university, its student body, and its alumni, will depend upon the interest shown by our former students. It is, therefore, the hope of the officers and directors of the Association that the Class of '32 will accept its share of responsibility in this program of development.



General Secretary.

A. J. Ackerman
J. A. T. Bjornson

W. G. Anderson
H. Culver

M. Appel
R. C. Disque

F. Bascom
C. Doyle

Though he received his degree in electrical engineering, ADOLPH JOHN ACKERMAN, '26, has completed most of the requirements for the civil engineering course as well. Before finishing his senior year at Wisconsin, he worked on the Alcona Dam at Au Sable, Michigan, as assistant resident engineer. Following his graduation in 1926, Mr. Ackerman became a designer and checker on hydraulic and reinforced concrete work for Stone, Webster, and Company, Boston, where his principal work was on the great Conowingo development. In 1927 he became designing engineer for the Aluminum Company of America. A nationally known maker of hydroelectric equipment has the manufacturer's license for his automatic lifting beam for flood gates on dams, invented in 1930. The United States Government is now planning a dam at the Panama Canal, and Mr. Ackerman is supervising the design and fabrication of equipment for this project.

WILLIAM GILBERT ANDERSON, ex '82, spent an incredible proportion of his two years at Wisconsin in the organization and support of activities, and he has been increasingly active ever since. He has done everything from selling life insurance to practicing medicine; but all along he has stood by his first love, athletics, be it in helping organize the American Physical Education Association and its branches, in studying abroad, in amassing degrees, in organizing physical education schools, in teaching summer schools from coast to coast, or, best of all, in his real job which he has had for forty years, that of Director of the Department of Physical Education at Yale University.

MONTE APPEL, '10, has practiced law in Washington, D. C. since his graduation except for a period during the war when he was in government service. From 1917 to 1918 he was assistant general counsel for the United States Shipping Board, and in 1918-1919 he was a special representative of the Secretary of War. When he was in the university, Mr. Appel was editor-in-chief of the Daily Cardinal, an intercollegiate debater, and the president of his class. He is a member of the French Legion of Honor.

FLORENCE BASCOM, '82, majored in geology, an unusual field for women even today, and then was one of the first women to get the Ph.D. degree at Johns Hopkins university. After instructing in geology and petrography at Ohio State university for two years, she went to Bryn Mawr in 1895 to be lecturer and professor in geology until her retirement in 1928. Since 1896 she has been an active worker in the United States Geological Survey. She became a fellow in the Geological Society of America in 1894, six years after it was founded, and her part has been active in building up this organization, as well as other scientific associations. She is also an authoritative writer of geological folios, papers, and bulletins.

JOHN A. T. BJORNSON, '82, went to Ada, Minnesota, after his graduation, and became interested in a drug store there. He continued in this field when he moved to La Moure, North Dakota, in 1886. When engaged in the drug business he served in several official capacities, namely, delegate to the Democratic National Convention in 1892, postmaster of La Moure, member of the Kulm board of education, and alderman of the city of La Moure. For three terms he served as representative in the North Dakota legislature, and he is now in his second term as county treasurer of La Moure county.

HARRY CULVER, '10, after graduation from the university, continued medical study at Rush Medical School, Chicago, until 1913. He took his two years' interneship in Cook County hospital, then spent three years in clinical research in bacteriology at the University of Illinois, where he received the master of science degree. He served on special medical duty in the army during the World War. At present he is in private practice limited to genito-urinary diseases; he is a professor at Northwestern; and he is senior urologist at St. Luke's and Cook County hospitals, Chicago.

After ROBERT CONRAD DISQUE had received the bachelor of science degree in electrical engineering in 1908, he became an instructor and then assistant professor in electrical engineering at the University of Wisconsin. During the war Mr. Disque served as major in the air service, instructing in mechanics and radio. From 1919 to 1923 he was professor of engineering at Drexel Institute, Philadelphia, and from 1923 to the present time he has been Dean of the College of Engineering of this institute. Mr. Disque is a member of the American Institute of Electrical Engineering, of the Society for the Promotion of Engineering Education, and of the board of education of Swarthmore.

An unusual career is that of CECILIA DOYLE. After receiving the LL.B. degree from this university in 1927, Miss Doyle became associated with her father, T. L. Doyle, in the practice of law at Fond du Lac, Wisconsin. Aside from her work in this firm, Miss Doyle is actively interested in public welfare and women's affairs. She is president of the Fond du Lac chapter of the American Association of University Women, a member of the board of the Fond du Lac Public Welfare association, the chairman of the committee on the legal status of women of the Fond du Lac branch of the Women's Voters League. As circuit court commissioner for her county, she is unique in that she is the first woman in her state to hold the position.

E. A. Drake
L. M. Gay

J. Farris
E. M. Gilbert

H. G. Ferris
L. F. Graber

F. W. Fratt
P. L. Grange

While studying for the master of science degree in 1883 and 1884, EMMET ADDIS DRAKE, '82, was an instructor in the University of Wisconsin. From 1884 to 1891 he was an instructor at the Missouri School of Mines. Then he managed the Columbia Mining company until 1897, when he became professor of modern languages at the New Mexico College of Mines, in Socorro. From this professorship, he advanced to the presidency of that school from 1908 to 1913. From 1900 to 1913, he was also editor of the Socorro Chieftain. Since 1913, Mr. Drake has been connected with the El Paso Herald.

HAROLD GANO FERRIS left the university in the spring of 1901, to work in Kansas City, Cincinnatti, and Racine in various capacities in drafting and engineering. In 1907, Mr. Ferris moved to Spokane, Washington, where he has been engaged in engineering sales work since that time. In 1918 he organized the Hofius-Ferris Equipment company, of which he is now president. Mr. Ferris is also president of the Construction Equipment company, which he organized in 1929. He is a member of the Inland Empire section of the American Society of Mechanical Engineers.

After her graduation, LUCY MARIA GAY, '82, began teaching French in the university. In 1889 and 1890 she studied in Paris and in the University of Chicago, and did important research work in libraries in France and England in 1911 and in the summers of 1924 and 1928. Miss Gay is also a contributor to Wisconsin Studies, the Modern Language Journal, Publications of the Modern Language society, Modern Philology, Romantic Review, Philological Quarterly, and the Modern Language Review of Cambridge, England. In addition, she is a member of the Wisconsin Academy, the Modern Language Association of America, and the Modern Humanities Research association.

LAURENCE FREDERIC GRABER, '10, a member of the faculty of the University of Wisconsin since graduation, is now professor of agronomy. He is known throughout the country as the Alfalfa King because he has had an important part in the culture of alfalfa, and is a strong advocate of its attributes. To supplement his studies and experiments on alfalfa, he invented an electric thermometer to test the hardiness of this plant. As well as being the author of several scientific papers related to organic nutrition of plants, Prof. Graber is a member of the more important national scientific organizations.

Three years after JOHN FARRIS, '07, left Wisconsin he established, and in 1915 incorporated, the Farris Engineering company. Some of his bridges may be seen at Washington, D. C. One of these leads across the Potomac to Arlington, while the beautiful and structually perfect Rock Creek bridge leading to Memorial Park, was a prize design by Mr. Farris. Another achievement was the construction of Mount Royal mausoleum, an imposing edifice of marble and bronze completed in 1929 in Pittsburgh and known as the Westminster Abbey of Pittsburgh. Mr. Farris is engineer and architectural consultant for the department of public grounds and buildings of Pennsylvania and for many of the individual counties.

FREDERIC WILLIAM FRATT, '82, took a responsible position with the Soo Line, at graduation from Wisconsin, and became chief engineer before he was 29. In 1892 he resigned to build some five hundred miles of new track for the Missouri, Kansas, and Texas railroad. He directed extensions made into Houston, San Antonio, Shreveport, Joplin, and Oklahoma City. In 1906 he became president of the Armour-Swift-Burlington interests in Kansas City, Missouri. He spent eleven years in the development of the city, and resigned in 1917 to look after his own interests.

After graduation from the university, EDWARD M. GILBERT, '07, became head of the Biology department of Superior Normal school, returning after three years to the University of Wisconsin as an instructor. In 1912 he was promoted to an assistantship. In 1915 he became a fellow at Harvard, and returned to this university as an associate professor in 1917. In 1923 he became professor of botany, in 1926 of botany and plant pathology, and in 1927 he became chairman of the Department of Botany. He is an active member of several scientific societies, and this year was elected president of the American Microscopical society.

PAUL LEROY GRANGE, '27, just five years after his graduation, has been appointed manager of the Swift and Company Produce plant at Waterloo, Iowa. Mr. Grange grew up in a Wisconsin creamery community and came to the university first as a short course student. After finishing this course, he realized the inadequacy of his training and decided to enter the university, specializing in butter culture. Immediately after graduation he received an appointment as assistant manager of the Swift and Company La Crosse plant, and from there he was transferred to Atlantic, Iowa, in the same capacity, later to be promoted to Waterloo.

J. C. Grey
E. H. Kifer

H. F. Helmholz
W. I. King

H. L. Janes
F. C. Krauskopf

A. A. Johnson
A. H. Lambeck

JOHN CHESTER GREY, '02, after getting a degree in mechanical engineering at the University, was employed by the United Gas Improvement company of Philadelphia for 18 years in their plants in Des Moines, Omaha, Savannah, and Fort Wayne. He then went to Lansing, Michigan, where he served as manager of the Lansing Fuel and Gas company for five years. Mr. Grey is now president of the Atlantic City Gas company, New Jersey. He is past president of the American Gas association, and a member of the civic and fraternal organizations in Atlantic City.

After his graduation from Wisconsin, HENRY FREDERIC HELMHOLZ, '02, received the M.D. degree at Johns Hopkins university in 1906. From 1907 to 1909 he studied in Berlin and Vienna, then became assistant professor of pediatrics at Rush Medical school, Chicago, serving until 1920. During this period he was medical director of the Infant Welfare society, Chicago, and a member of the S. A. Sprague Memorial Institute for Medical Research. Dr. Helmholz is now professor of pediatrics at the Mayo Foundation of the University of Minnesota. He was editor of the American Journal of Diseases of Children from 1917 to 1924, and is at present a member of the American Pediatric society, of the American Society of Pharmacology and Experimental Therapeutics, and the American Physiological society.

HENRY LORENZO JANES received the B.L. degree in 1902, and then took master's and doctor's degrees in 1903 and 1906 respectively. A scholarship at Columbia university and post-graduate work in Berlin and Paris were followed by American diplomatic service, in which he served as charge d'affaires of the legation in Cuba, Chile, Brazil, and Turkey. Mr. Janes was then assistant chief of foreign affairs in the Department of State in Washington, and arbitrated on the revolutionary claims in Ecuador. Shifting from the diplomatic service, he assumed charge of government negotiations in the South American offices of American construction firms, then took up investment banking, and is now president of Johnston-Coney-Janes, Incorporated, New York City.

ALBERT AARON JOHNSON, '07, began his post-college career in the organization and superintendency of agricultural educational institutes in Wisconsin and elsewhere, staying at the last, Farmingdale, New York, from 1914 to 1923. His experience as chairman of the first unofficial American commission to Russia in 1921 aroused his interest in the Soviet state. Since then, he has visited Russia frequently, either on commissions, or in connection with his economic and trade promotion service conducted for American manufacturers in the Soviet Union. In this work he has associated with the most important officers of Soviet Russia. He has published three books of economic charts on the Soviet Union, besides writing many syndicated newspaper articles.

EDWIN HENRY KIFER, '08, was vice-president and general manager of the Binghamton, New York, Gas company before he became director, vice-president, and general manager of the San Antonio Public Service company, as well as the director and vice-president of the Texas Security Life Insurance company, and director of the Guaranty Building and Loan association. His ability and leadership have been recognized in all primary civic enterprises; he has served as president of the chamber of commerce, the Safety Council, and of the Business Men's club. In 1922 Mr. Kifer was elected president of the Southwestern Division of the National Electric Light association.

WILLFORD ISBELL KING, '12, was associate statistician in the United States Public Health service, and in 1917-1920 was engaged in studying pellagra. From 1920 to 1927 he was economist with the National Bureau of Economic Research. He has been secretary of the American Statistical Association. Since 1924, he has been professor of economics at New York University, where he has charge of work in statistics at the school of commerce. He has written books and numerous magazine articles dealing with statistics and economics. In 1931 he was granted the LL.D. degree from the University of Nebraska.

Before receiving the master of science degree in chemistry at Wisconsin in 1907, FRANCIS CRAIG KRAUSKOPF taught chemistry at Indiana and Cornell. He became assistant professor here in 1911, associate professor in 1919, and now is full professor in part charge of work in elementary chemistry. His interest has centered on analytical and inorganic chemistry, and his special research has been in the separation of lithium, vapor pressure, the absorption of carbon monoxide, silicon and litanium, and the substitution of ammonium molybidates and tungstates.

After his graduation from Wisconsin, ARTHUR HUGO LAMBECK, '07, became head of the history department of the South Division High school, Milwaukee. In 1920 he left the teaching field to join the First National Bank of Milwaukee as educational director. In 1925 he was cashier of the Mechanics' National bank, and in 1930 became vice-president of the Bay View National bank. Mr. Lambeck is also active in civic affairs: from 1908 to 1910 he was secretary of the Republican State Central commission, and in 1917-1918 was chairman of Draft Board Number 3; in 1927-1929 he was vice president and in 1929 president of the Milwaukee Association of Credit Men, and in 1928-1930 he was district commander of the Milwaukee County community.

J. Messmer W. Meyer W. J. Mutch R. A. Nestos R. M. Niven
B. V. E. Nordberg E. H. Ochsner V. E. Porter C. B. Quarles

Since 1909, JOHN MESSMER has designed and built residences, commercial structures, public buildings, and bridges. For 13 years he was associated with R. A. Messmer and Brother, architects, and during the war made building appraisals for the government. In 1928 he was appointed Commissioner of Building of Milwaukee, and, with the exception of the agricultural school buildings, has been identified with the construction of all the county building projects. Mr. Messmer is especially interested in amateur athletics and still serves as an official of the Western conference.

WALLACE MEYER, '16, for four years before he entered college worked on his home town newspaper, and when he graduated from the university, his first job was as a copywriter for J. Walter Thompson. When war broke out he was advertising manager for H. W. Gossard Company, but left this position to serve in the signal corps in 1918 and 1919. Leaving service, he became copywriter and account manager for the Charles F. W. Nichols company and served there until he took his present position, that of vice-president of the Reincke-Ellis company, advertisers.

After graduation from Wisconsin, WILLIAM JAMES MUTCH, '82, was ordained into the ministry in 1885 and was pastor of the Howard Avenue Congregational church of New Haven, Connecticut, from 1885 to 1907. From 1907 to 1925 he was professor of philosophy and religion in Ripon College. Mr. Mutch is a member of the British Institute of Philosophical Studies; he was a lecturer in Religious Education at Yale from 1901 to 1904; he has been a member and institute conductor of the American Institute of Religion since 1901; and he has written many documents of a religious nature.

RAGNVALD ANDERSON NESTOS, '02, received the LL.B. degree from the University of North Dakota in 1904, and became a member of the law firm of Johnson and Nestos at Minot, North Dakota. From 1911 to 1913 he was a member of the North Dakota legislature, and served as state's attorney of Ward county. In 1921, a coalition of the Stalwart Republicans and Democrats of North Dakota voted to recall from office the governor and cabinet, and in a state-wide convention drafted Mr. Nestos as candidate for governor. He was elected in the fall of 1921 and in the next year he was reelected. Since 1929 he has been active in the nation-wide drive against illiteracy.

ROBERT M. NIVEN, '07, received the LL.B. degree from the Chicago Kent Law school after graduation from Wisconsin. He was admitted to the bar in 1911, and moved to Pontiac, Illinois, in 1914 to engage in the general practice of law. He was city attorney of Pontiac for four terms and was important in the prosecution of many outstanding cases. He has also been a member of the city school board and a trustee of the Baptist church In 1928 he was elected to the office of state's attorney of Livingston county, Illinois.

BRUNO VICTOR EDWARD NORDBERG, '07, a member of the advisory board of the Wisconsin College of Engineering, is a widely known Milwaukee engineer. Since 1914 he has been with the Nordberg Manufacturing company, first as manager of the oil engine department, then as sales manager, and finally, since 1922, as executive engineer. He served as vice-chairman of the Milwaukee sewerage commission, and as director of the engineering society of Milwaukee. In the A. S. M. E. he has served both on the code committee on reciprocating steam engines and on the code committee on wire ropes research, as well as being active in other professional organizations.

EDWARD H. OCHSNER, '91, surgeon, graduated from Rush Medical school in 1894, then followed two years residence at Cook county hospital with two years of post graduate study in Leipsig, Vienna, and Hamburg. He was president of the Illinois State Charities commission from 1912 to 1916, and of the Illinois State Medical society in 1923 and 1924, in addition to being active in many other organizations and the author of several important medical papers. Since 1904 he has been the attending surgeon at the Augustana hospital in Chicago.

VIRGINIA ELIZABETH PORTER received the bachelor of science degree in Home Economics in 1929, and is now associated with Libby, McNeill, and Libby, Chicago, as director of home economics. Aside from her regular work, Miss Porter is well-known as a radio broadcaster and lecturer. She gives numerous demonstrations in schools, colleges, and universities throughout the country. Some of her main work consists of evolving and testing recipes, writing articles for trade papers and magazines, and teaching a foods class for the members of her organization.

CHARLES B. QUARLES, '07, is one of Wisconsin's most outstanding lawyers. After he was admitted to the practice of law in 1909, Mr. Quarles became a member of the firm of Lines, Spooner, and Quarles in Milwaukee. He is active in Milwaukee affairs as president of the Gyro club, and of the Milwaukee Civic alliance, a member of the Milwaukee county, state, and American bar associations. He was formerly secretary of the Milwaukee University club, and is director of the Milwaukee legal aid society.

H. A. Schuette B. R. Shurley M. N. Smith-Peterson B. F. Springer J. A. Stevenson
W. E. Tottingham C. L. Van Auken H. R. Wahl F. E. Williams

HENRY A. SCHUETTE is a member of the university faculty, having been appointed assistant in chemistry when he graduated in 1910. Since then he has become professor. Prof. Schuette's activities make him vice-president ex-officio of the American chemical society. He has been chemist of the Wisconsin Natural Historical and Geological survey, and a member of the Wisconsin dairy and food commission, the bureau of aircraft production, and the Wisconsin academy of science.

BURT RUSSELL SHURLEY, '94, received his doctor's degree at the Detroit College of Medicine and Surgery in 1895, where he has been professor of otolaryngology, chairman of the research committee, and dean (1913-1916) successively. In 1915 he organized, then was chief of staff of, the Detroit eye, ear, nose, and throat hospital. He served in the U. S. Navy in the Spanish-American war, and organized and took overseas the first 1000-bed hospital during the world war. He is a member of the various scientific organizations, and is president-elect of the American Academy of Opthalmalogy and Otolaryngology.

MARIUS NYGAARD SMITH-PETERSEN became an assistant in physiology at the University of Wisconsin upon graduation in 1910. In 1912 he entered Harvard medical school in Boston, where he received the M.D. degree in 1914. After serving a year's interneship in Peter Bent Brigham hospital, he went to France with the first Harvard unit under Dr. Harvey Cushing. Recently he was appointed surgeon-in-chief in the orthopaedic department of the Massachusetts general hospital and assistant professor in orthopaedic surgery at the Harvard medical school.

BENJAMIN FRANKLIN SPRINGER, '10, began work in the sales department of the Kieckhofer Box company in Milwaukee after graduation. One year later he became department manager of the John Schroeder Lumber company, and in 1919 became secretary of this same firm. In 1932 he went into a new field and became president of the Playskool Institute, Inc. From 1917-1919 Mr. Springer was secretary of the Milwaukee box manufacturers, and president of the Milwaukee Lumbermen's association. Since 1931 Mr. Springer has been president of the International Fraternal Order of Lumbermen.

In 1912 JOHN ALFORD STEVENSON received a master's degree at Wisconsin, lecturing at the same time. For four years he was a department manager in a Chicago publishing house, and for three years an assistant professor at University of Illinois, and Director of the Summer Session 1918-1919. He organized and directed the School of Life Insurance Salesmanship at Carnegie Institute of Technology 1919-1920, becoming in 1920 3rd vice-president of the Equitable Life Assurance Society of the United States, and 2nd vice-president in 1921. In 1928 he became manager of the John A. Stevenson agency of The Penn Mutual Life Insurance company, Philadelphia, which position he still holds. He was elected vice-president of the same company in 1931.

WILLIAM EDWARD TOTTINGHAM, M.S. '08, after receiving a doctor's degree at Johns Hopkins university in 1917, returned to Wisconsin as associate professor of agricultural chemistry, a position which he still holds. He was joint publisher of *General Agricultural Chemistry*, written in 1913, and of *Chemistry of the Farm and Home*, published in 1916. He is now president of the American Society of Plant Physiologists, and is a member of the American Association for the Advancement of Science, and the American Chemical society.

CLAUDE LINN VAN AUKEN, '10, had had experience in railroad work before graduation, so he immediately after graduation took a position with the Chicago, Milwaukee, and St. Paul railroad. In 1912 he was with the Condron Company, designers of concrete structures, but after two years he returned to railroads serving the Rock Island and New York Central. Changing from practical engineering to traction publications, he became associate editor of *The Railway Review* in 1917 1918; then for six years he served as editor and business manager of *Electric Traction*. Since 1924 he has been vice-president and managing editor of the Kenfield-Davis Publishing company, publishers of traction publications.

HARRY ROSWELL WAHL, '08, an eminent pathologist, received the M.D. degree from Johns Hopkins Medical school in 1912. From 1912 to 1914 he taught pathology at Western Reserve university in Cleveland, Ohio. In 1916 he was director of laboratories in Mt. Sinai Hospital in Cleveland, and in 1917 and 1918 he served as captain of the Yale Army school. Following the war, Dr. Wahl went to the University of Kansas as professor of pathology and in 1927 became the dean of the school of Medicine there. He is also pathologist at Bell Memorial, St. Margaret Bethany, and Providence hospitals, in Kansas City.

FRANK ERNEST WILLIAMS, '10, began his teaching career as an instructor and assistant professor of geography at the University of Wisconsin from 1910 to 1920. In 1920 he went to the University of Pennsylvania to be professor of geography there. Mr. Williams is the author of some twenty publications on various subjects of geographical interest; he has done field work in Alaska, South America, Wisconsin, and Minnesota. He was a captain of the Army Military Intelligence Division during the war and in 1919 an "expert" in the Caribbean region. He is actively associated with geographers' organizations.

OCCASIONS

This Year on the Campus

THE Badger for several years has received severe criticism. Much of this criticism has been unfounded for it has come from individuals lacking an understanding of the problems of publishing a yearbook; some has resulted merely from the general breakdown of tradition. But a part of the criticism has arisen from responsible persons who saw some of the many shortcomings of the Badger.

Chief among the shortcomings, in the minds of this latter group of critics, is that the Badger which supposedly is an annual history of the university presents only the obvious comings and goings of students, while the fundamentally important changes, both institutional and mental, go unrecorded.

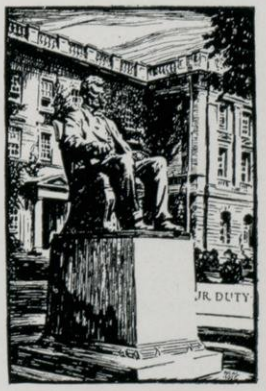
In the following few pages, the editors have attempted to rectify this shortcoming by recounting briefly, and often, unfortunately, incompletely, more important events and movements which can not elsewhere be recorded.

The Badger prides itself in being the oldest tradition on the University of Wisconsin campus. Despite the current reaction to all tradition, the editors feel wholeheartedly that many of the traditions which develop at an institution such as the university are worth while and add immensely to the education of the student.

The drift of reaction against tradition has been developing in the last decade and has become most evident within the past four or five years. The result has been both good and bad. Undoubtedly, many of the traditions which have been discontinued were worthless, and with their discontinuation has come a more wholesome attitude toward the real purpose of the university. The attitude of students has become more mature. But going too far has resulted in an undergraduate cynicism which best may be described as a lack of sense of humor.

The old robust days of a decade ago are gone, much to the lament of the students of that day, and they never will come again. The student of today is more honest, education is more honest, and out of these will come a more creative student body, holding to what is good, discarding what is bad.

It is the hope of the editors that the Badger will continue to grow and change with the university, and so it must to continue as a campus institution.



The Administration

A SCOURGING of the faculty and administration of the university of Wisconsin by John B. Chapple, ex '21, managing editor of the Ashland Daily Press, as he upheld the defense of American Principles, appeared in headlines frequently during the last academic year when frequent accusations of atheism, loose moral standards, and adherence to Communistic

THE DORMS
Scene of the "Ex" College

and Socialistic standards by certain of the faculty were made by Mr. Chapple.

The activity of a state university such as the University of Wisconsin always is precarious because of the control of the institution by the state legislature. Particularly is this true in the state of Wisconsin where politics is of the closest interest to every voter.

The university this year experienced the fullest of comment and investigation from the legislature as well as from the press.

The athletic situation perhaps touched off the flame. The difference of opinion between groups as to the athletic policy of the university resulted in lengthy investigations and newspaper review. This situation was added to by the financial demand to cut the budget. In an attempt to restrict expenditures, such attacks as these arose: cut out the "deadwood," cut salaries, cut the president's salary, restrict research.

With the university a subject of front page prominence, everything concerned with the university became news, and as the very essence of news is based upon the unusual occurrences, interesting—but not characteristic—events of university life received considerable mention. John Chapple and William Dawson, the latter through the medium of the "Uncensored News," attacked the university as a hot bed of communism and atheism. The charges were discounted by intelligent people as mere political food, although undoubtedly they had a serious affect upon the good name of Wisconsin.

But while the press was filled with criticism, while investigators investigated and legislators condemned, Wisconsin continued to live, attempting to continue the liberal and progressive ideals of education which always have been a basic reality.

Charges fired at the faculty were frequent and meant to be decidedly explosive in nature, but campus public opinion seemed to rally to the defense of those scourged through a general discrediting and disinterest on the part of the student body of the facts and fancies of John B. Chapple.

The administration, for the most part, preferred to let the charges go unanswered, assuming them to be apparently unfounded and charging them in some instances as unworthy of answer.

Appointment of Mrs. Louise Troxell as successor to Miss F. Louise Nardin, for 13 years dean of women, came at the beginning of the school year, and that of Lloyd K. Garrison, New York attorney, as dean of the law school succeeding Dean Harry S. Richards, who died in 1929, was made at the opening of the second semester. Mr. Garrison will arrive in Madison to assume his new duties on July 1.

The resignation of Glenn L. Gilbert, for twenty-three years bursar of the university, at the beginning of the school year, was followed by a major reorganization of the business department of the school, J. D. Phillips, business manager, assuming additional responsibilities, and a student assistant taking over the actual routine work of the bursar's office.

PROF. COMMONS
Rawleigh Investigator

The publishing of the Experimental College report, in March 1932, the summary and conclusions of a five-year experiment in

education, marked a forward step in the knowledge of the country's educators, the report having been eagerly awaited as a means of measuring a radical step in educational methods. The decision a year ago of the college to admit no freshmen was adhered to, with the result that the sophomore group which ends its two-year course this June will mark the end of the Wisconsin Experimental College as an actuality and place it in the category of great experiments of the past.

The presentation of the "Bleyer report" named after Chairman Prof. W. G. Bleyer, of the committee presenting it to the faculty, favoring the establishment of another college similar to the Experimental College, aroused much talk and discussion. The report was essentially a modification of the Experimental College report by its advisors, asking for but one unit, instead of the five originally requested.

The report further provided that an opportunity be given the student in the special college to take the regular science, mathematics, or language requirements, in addition to the regular experimental college curriculum, on a 50-50 to 25-75 basis with the experimental college curriculum on the heavy side.

A second committee was appointed to consider the Experimental College report, the Bleyer report, the Fish report on the revised curriculum, and the report of the Bureau of Guidance and Records in the hope that detailed plans for a new school and a new curriculum might be arrived at.

A most interesting sidelight on university policy arose during the summer months, when President Frank brought the matter of the Brittingham trust fund to the attention of the Board of Regents. The trustees of the trust fund in keeping with the general assumption when the gift originally was made, had proposed that support be withdrawn from the Chair of Philosophy which had been created by the bequest and held for five years by Dr. Meiklejohn, and be used to stimulate research in bio-chemistry.

President Frank denied this general assumption of periodic changing of support, and the Regents decided that the fund could be used only after the "strings" had been untied. The objectionable "strings" were only requirements suggested by Dean Slichter to Mr. Brittingham, governing the manner in which the bequest was to be used by the Graduate school.

The action of the Regents brought considerable criticism since the Rawleigh gift which specified research work in tariff reform by Prof. John R. Commons had previously been accepted.

The retiring of Prof. Daniel W. Mead, of the engineering department, long a familiar and leading figure in the engineering department, the acceptance by Prof. Warren Weaver, Mathematics, of a position with the Rockefeller Foundation in New York, and the resignation from the Department of Political Science, of Prof. Pitman B. Potter, that he might devote his entire time to work of international character in Geneva, Switzerland, are other losses in its personnel.

Death claimed Dr. Stephen Moulton Babcock, famed originator of the butterfat test for milk, early in the summer of last year, the nation thereby losing one of its greatest men.

Prof. Thomas Lloyd Jones, for seventeen years a member of the department of education, died in August.

One of the years' severest losses is that of Prof. Frederic L. Paxson who leaves Wisconsin at the end of the year to accept a professorship at California.

The resignation of Prof. William Amassa Scott, for thirty years connected with the Commerce school, marked the passing into retirement of an outstanding university figure. Similarly, the appointment of Prof. Harold M. Groves, as a member of the tax commission deprived the school of another able teacher. The transfer of Major Tom Fox, for four years commander of the university R. O. T. C., to active duty in the Philippine islands, likewise marks a change in the faculty of the school.

The university lost another leader with the sudden death of Prof. M. V. O'Shea, professor of education since 1897. Professor Jenne Greenleaf died in January and Prof. Frank P. Woy in April.

1843-1931

Athletic Problems

AFTER three months of dickering with a score of "nationally prominent" football coaches, with Dr. Clarence W. Spears, former Minnesota "power mentor" always in the background, the Wisconsin Athletic council on March 30, 1932, signed Coach Spears on the dotted line and so settled one of the most perplexing athletic problems faced in a decade by the university.

"Utz"
Erstwhile Director

The resignation of Glenn Thistlethwaite, for five years football coach, following the earlier resignation last fall of George Little, as director of athletics, left the athletic department headless for all practical purposes, and led to rumor after rumor being circulated, investigations being countenanced, and lengthy committee sessions getting nowhere, all concerning the athletic situation.

The settlement of the problem came only after prolonged investigation, not only by the athletic council and the Regents but also by a committee appointed by the state legislature.

The athletic department as a result of the investigations was divided into three groups; intercollegiate athletics, intramurals, and department of physical education. Irvin Uteritz, "B" team football coach, was appointed to the important post of director of intercollegiate athletics. After three months of dickering the Board of Regents, after reversing the decision of the athletic council, announced the appointment of Dr. Spears as football coach. Coach Spears comes to Wisconsin at the highest annual salary ever paid a coach at Wisconsin, his national reputation and recognized coaching ability being deemed reason enough for the salary increase.

The most recent complication arose when on the eve of the banquet for Dr. Spears on April 27 came the report that Irv Uteritz, director of athletics during the hectic period in which a new football coach was being selected, had resigned to accept the position of backfield coach. The resignation leaves Wisconsin once again without an athletic director. Such possibilities as Guy Sundt, George Downer, Coach Meanwell, or Coach Spears himself have been suggested, but at press time no definite action had been taken by the Board of Regents.

The positions of the Regents in regard to athletics was made more clear when in April the reorganization of the athletic council was passed. After considerable discussion during which various proposals were under consideration, the council was limited to these members: four faculty members, two alumni, and one student representative, with the business manager of the university and the chairman of the Regent's physical education committee as ex-officio members. The new composition permits faculty control as necessary under the Western Conference regulations, and also through the ex-officio members makes for greater financial and Regent control. Prof. A. T. Weaver replaced Prof. Pyre as chairman.

The attitude of the faculty throughout the difficulty was that intercollegiate athletics should be put on a healthy basis, and that Wisconsin should refrain from entering into "big time" athletics. The entire reversal of this attitude by the Regents leaves the whole matter undecided. Nevertheless, hopes for the future are brighter than they have been for several years, and Dr. Spears was given a hearty welcome at a banquet in the men's gymnasium on April 27.

George Little, at the helm of Wisconsin athletics since 1924, later accepted the position of director of athletics at Rutgers college in New Jersey. He left for the eastern school in April.

The school year of 1931-1932 has seen an attempt on the part of the faculty to limit the alumni control exercised upon the athletic council, and also a student movement aimed at seating two representatives of the student body upon that group. The publicity given the council's activities dur-

"Doc" Spears
Badger's Hope

ing the three months between the resignation of Thistlethwaite and the appointment of Spears is deemed by many as sufficient to bring about a major change in athletic government within the near future. The actions and inactions of the council were severely criticised by representatives of public opinion.

BLANCHE TRILLING
Gym for Women

The presentation to the faculty on January 18, of a report on athletics, the result of a year's work, by a faculty group of four headed by Prof. Ray Brown of the Law school, crystallized the faculty attitude upon the athletic situation around seven main points including a new athletic council of seven members with but one from the alumni organization; athletic coaches on a faculty basis of similar rank and pay; a new and realistic definition of amateurism to be framed by the Western Conference; criticism of the "extravagance of coaching and executive staff" of the athletic department; further development of intramural sport and play; a limitation of students to engage in more than two major sports a year, or football and basketball without the express permission of the council; and an expression of disapproval of long-distance athletic contests requiring an absence of competing students from classes for long periods of time.

The report was taken as an expression of the general faculty opinion of the university and came in for much newspaper comment, with little action upon it, however.

The Board of Regents late in April referred the whole matter of compulsory gym work back to the faculty to readjust the differences between the requirements for men and women.

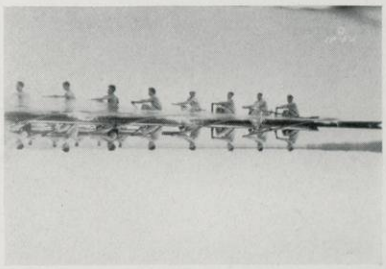
The faculty had voted to abolish men's gym but had provided proficiency tests to be passed before exemption could be allowed for women. Throughout the faculty discussion Miss Blanche Trilling, director of physical education for women, had demanded necessary gym work for all women students.

The legality of awarding two major "W"s to basketball players ineligible the second semester of the year was the cause of a controversy between the athletic department and The Daily Cardinal, student publication, another of a long series of disagreements between the styled organ of student opinion and the athletic authorities.

"B" team football saw very likely its last season this year. Although highly successful under the direction of Irv Uteritz, the plan was not generally favored at other Big Ten universities. Uteritz found difficulty in scheduling games since smaller colleges found the competition too severe, and few of the large universities continued under the plan. It is undoubtedly unfortunate that this form of competition be eliminated for it offered an opportunity for high grade competition without any nervous tension which accompanies varsity football, and offered as well an excellent training ground for those not quite ready for the first team.

The Wisconsin Crew association, with a membership limited to varsity and numeral winners, was formed at the conclusion of the 1931 school year, for the purpose of furthering the interests of crew at the university. Construction of an inside rowing tank was approved by the Regents but its erection deferred due to lack of funds. The lack of ice on Mendota till mid-winter, and a likewise early spring breakup allowed the crew more time than usual for being upon the water. The crew will not enter the Poughkeepsie Regatta, but it is expected that funds will be available to enter it in the Olympic trials.

A gigantic athletic carnival held at the field house the latter part of March marked the conclusion of the intramural work of George Little, resigned director of athletics. The yearly high school cage meet occupied the first weekend in April and saw Beloit High school's first championship.



THE CREW
Olympic Entrants

The academic year of 1931-1932 witnessed far-reaching changes in coaching personnel and athletic policies within the university, marking in many instances the culmination of a period of flux extending over years. Wisconsin faces 1932 with an upward surge of optimism.

University Economy

A voluntary budget slash of $408,609, was Pres. Glenn Frank's answer on March 3, 1932, to the demands of Gov. Philip F. LaFollette and the state emergency board that university costs be cut to an irreducible minimum.

A marked reduction in laboratory work of the elementary courses in physical sciences, a considerable reduction in the amount of quiz work by graduate assistants, and an increase in the amount of classroom teaching by the professorial staff, were mentioned by President Frank as the means of accomplishing in part the saving of almost half a million dollars, reducing the budget through the strictest of economy to the level of a decade ago.

GOVERNOR "PHIL"
"Cut the Budget"

The instructional staff protested the contemplated cutting of instructors from the rolls, but the fears of the junior instructional group have been in part allayed by later statements from departmental heads to the effect that annual turnover would take care of the majority of the cases and that few, if any, instructors would be dropped from the school.

But in spite of the efforts of President Frank when the budget reduction was considered by Gov. LaFollette's administrative council, a further reduction was demanded over the $440,000 cut already made by the president. The means of effecting this reduction was not designated by the council, although it was assumed that some measure such as forced vacations would be necessary.

A reduction in dormitory board and room rentals was effected during the school year, in keeping with the dropping prices throughout the locality, while several fraternity houses attempted a solution of their financial difficulties through taking in non-affiliates as roomers.

Investigations of the Memorial Union budget by members of the state legislature during the school year of 1931-1932 were more fiction than fact, the local newspapers, especially, giving frequent front space to rumors later turning out to be unfounded.

Economically the university and community witnessed a thorough retrenchment both in policy as economically dictated, and in the costs and phases of local living. An increasing number of partial and fully self-supporting students, and a stricter practice of economics on the part of the rest, was the reaction of the world wide economic movements as seen in the university community. An expected decreased enrollment materialized only in part, due to the increased number of older students, who deprived of their jobs, returned to the university to learn in the time they could not earn.

The establishment of a faculty credit association for the purpose of financial aid to faculty members upon sufficient need and security, was a forward step in economic interdependence within the university. The suggested plan of a loan fund based upon the German principles and concepts as now there in use was discussed the latter part of 1931 but came to an end untried, due to impracticalities in application here.

Concentrated effort to refill the coffers of the Loan Fund came to a head in the pre-Christmas student drive which netted over $1,500 for student aid. Alumni support later in the academic year added over $8,000 more to the fund, which under the administration of Prof. Julius Olson, has aided a greater number of students this year than ever before.

An enrollment drop of four hundred for the semester of the school year, and the strained financial circumstances of many more students showed up in the fraternity and sorority circles where Delta Sigma Tau merged with Delta Chi at the beginning of the school year. Sigma Pi, Lake street fraternity, disbanded at the close of the first semester due to lack of members, and Beta Sigma Omicron, social sorority, relinquished its

PORTER BUTTS
Union Investigation

house. With but one or two exceptions all fraternities are feeling the strain of the present economic period.

As an aid in minimizing the costs of operation a fraternity buyers' association took form in April, being incorporated under state laws with Dean Scott Goodnight as the head. The fraternity cooperative buying plan is not new on the campus but actual organization has previously always been deferred.

A determined attempt on the part of students and friends of the commerce division of the Letters and Science School, to secure a separate School of Commerce was witnessed during the past year, the additional cost of the project being the principal reason for postponing action on the part of the Regents for the present. Alpha Kappa Psi, commerce fraternity, was especially zealous in leading a state-wide effort to place the School of Commerce upon a par with other university schools of business.

Greater control of its individual problems was the aim of this movement for a separate Commerce school. It has been felt that while still a part of the College of Letters and Science the school is hampered by the many requirements of that college.

Statistical reports as to the number of university students full or partially self-supporting gives further light upon the economic situation of university and members. November 1931 data showed 1,810, or 23% of the first semester students, as fully self-supporting, and 2,851 more as partially self-maintaining, a considerable increase over numbers of former years.

Student Affairs

A series of open forums and discussion meetings, sponsored by the Memorial Union and the League for Industrial Democracy, aided in the crystallization of a fermenting student opinion through the scheduling of such national figures as Norman Thomas, Scott Nearing, and Prof. Don Lescohier in a triangular discussion upon the merits of socialism, communism, and capitalism, Stuart Chase, Kirby Page, and others.

The popularity of the open forum type discussion meeting came greatly to the fore this last school year and saw an apparent attempt at serious thinking along recognized world lines being made by the university students as a group.

Dr. Robert Andrew Millikan, physicist of international reputation, spoke to a capacity audience in January concerning the forward march of science. Other speakers of national prominence also appeared before sections of the student body, many of them appearing due to student influence and arrangement rather than administrative.

Sixteen hundred students, two hundred of them candidates for master degrees, received their degrees in June 1931, at which time the Mechanical Engineering building, newly erected, was dedicated. The following fall saw the dedication of the State Orthopedic hospital, built during the summer.

For the first time in years no Varsity Welcome awaited the freshmen, the slogan "it never rains on Olson" not withstanding. As a matter of fact the rain did cease about seven minutes before the appointed hour, but no effort was then made to honor the Frosh with the traditional fete.

Statistical reports concerning scholastic averages rated Alpha Kappa Lambda as foremost of all social fraternities for both the second semester of 1931, and the first one of 1932. Alpha Chi Omega relinquished its hold upon sorority leadership with the publishing of grades made the first semester of 1932, which transferred scholastic prowness to Kappa Kappa Gamma.

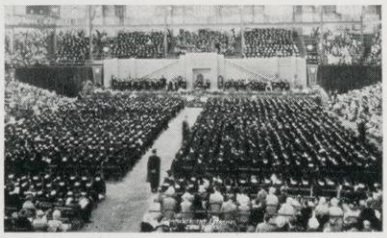
VARSITY WELCOME
Rained Out

Sigma Chi and Pi Alpha Tau lost entire social privileges due to two consecutive semesters below the minimum grade point eligibility rate, Pi Alpha Tau,

social sorority, later disbanding. Sigma Chi, after three years of attempting to elect a class officer, put its candidate Edwin J. Kinsley, '33, in as Prom king, regardless of the social ostracism of low grades, and raised them sufficiently to become eligible and to again participate, after the conclusion of the first semester.

Phi Eta Sigma, freshman honorary fraternity, initiated seventy-five men during the course of the year; Sigma Epsilon Sigma, its feminine counterpart, inducting thirty-nine into membership. Phi Kappa Phi, general honorary fraternity elected forty-eight from faculty and students during the course of the year.

Interest in student government was shown with the organization of an active student eligibility committee designed to aid in the formation of such rules of self-government as in keeping with the liberalistic tendency towards greater student freedom which prevails upon the campus. This committee advocated the participation of freshmen in various activities, incurring the condemnation of the faculty for such an eligibility idea.



COMMENCEMENT
Farewell to the Class of '32

For the first time in class history, a senior advisory council of fifty-four members was appointed by Douglas Weaver, senior president, to act in conjunction with a senior advisory council of nine, thus making concrete the idea of organization and participation by members of the class in class government.

The Gridiron Banquet of Sigma Delta Chi occurred March 19, after a procession of sheeted Gandhi's had solemnly marched down the hill to the tunes of a clarinet and French horn, gathered its goats and salt shakers together, and mailed the coveted invitations.

The eighth annual banquet, which took place in Great Hall of the Memorial Union, witnessed the presentation to ex-Coach Thistlethwaite of the traditional red derby. Dr. Ernest Gruening, publisher of the Portland (Maine) News, was the principal speaker of the occasion.

A report made following a research study by members of Alpha Kappa Psi, commerce fraternity, disclosed the fact that university women were sleeping fully an hour longer daily than men, and likewise studying a greater amount of time than were their male cohorts.

The disbanding of the local chapter of Zeta Psi, social fraternity, marks the reappearance of a local fraternity upon the campus, the group reorganizing in the spring as the Algoma Club. The conception of Beta Alpha Psi, professional honorary accounting fraternity, also took place in the spring of the school year.

The annual Haresfoot production, this year termed "Lucky Breaks," carried a total of eighty-five members of the cast upon its traditional spring vacation trip, including an orchestra of twenty men.

After a precarious existence of numerous years, the Interfraternity council, by vote of its members, was dissolved in April. The council which had been reorganized in the fall of 1930 to include only fraternity presidents, found itself unable to control rushing, to effect a plan of fraternity buying, or even to collect dues from its own members. The dissolution of the council, weak as it was, throws the entire control of these organizations to the faculty.

The Daily Cardinal celebrated its 40th anniversary in April by issuing a special 56-page Sunday edition containing historical reviews—of Cardinal activity as well as reviews of other campus institutions.

The Cardinal in 1931-32 reflected more than ever before the personality of one individual and continued its policy which has characterized it for several years of criticizing campus institutions and policies. Important among the attacks was that upon the conduct of athletics, another upon the policy of Delta Sigma Rho fraternity in barring Negroes from membership. The latter which was carried over from the previous spring resulted in no action from the national chapter and little reaction from the campus at large. The Cardinal as in previous years made little definite attempt to mirror general student opinion, and as a result sometimes criticism of the university at large was based on its editorial opinion alone.

Despite the charge which is often made by alumni who recall the days of a generation ago when forensic activities comprised the leading

extra-curricular activities, the university this year felt added impetus in the intra-mural debate. Student organized and student directed, these debates continued to attract a large number of contestants.

T. Parry Jones, a varsity debator for three years, a member of Delta Sigma Rho, honorary speech fraternity, and also a Methodist minister, was awarded the Frankenburger prize. The prize is given annually to the man who has shown the greatest ability in public speaking. The award this year is of great interest because of the winner's unique position as student and pastor. Jones discussed the important problem of religion and its relation to the university.

Student affairs show the movement of a healthy group of students fired with different desires but with the hopes of individual success.

Things Left Undone

THE Wisconsin Badger goes to press. The year at Wisconsin comes to a close with the graduation of the Class of 1932. This class leaves Wisconsin with numerous unsolved problems which the university in the coming year or several years must face.

Most pertinent of all of the immediate problems is that concerned with the entire economic situation. What will result from the budget reduction? Will it cause severe harm through the loss of professors such as Prof. Paxson or boundless good to the students through a closer classroom contact with professors rather than with instructors? How will the loan fund survive under such economic pressure? And how will Wisconsin fraternities and sororities be affected?

Athletics seem to have made a rapid spiritual recovery at Wisconsin this spring with a new attitude on the part of the Board of Regents and the arrival of Dr. Spears as football coach. But what will be the faculty reaction to this regime? Will Dr. Spears find Wisconsin the "coaches graveyard?" What will be the result of the move to abolish compulsory gym training, or will an intramural program be developed to offer sufficient attraction to make such compulsory work unnecessary? These are pressing questions which only the next year or two can answer.

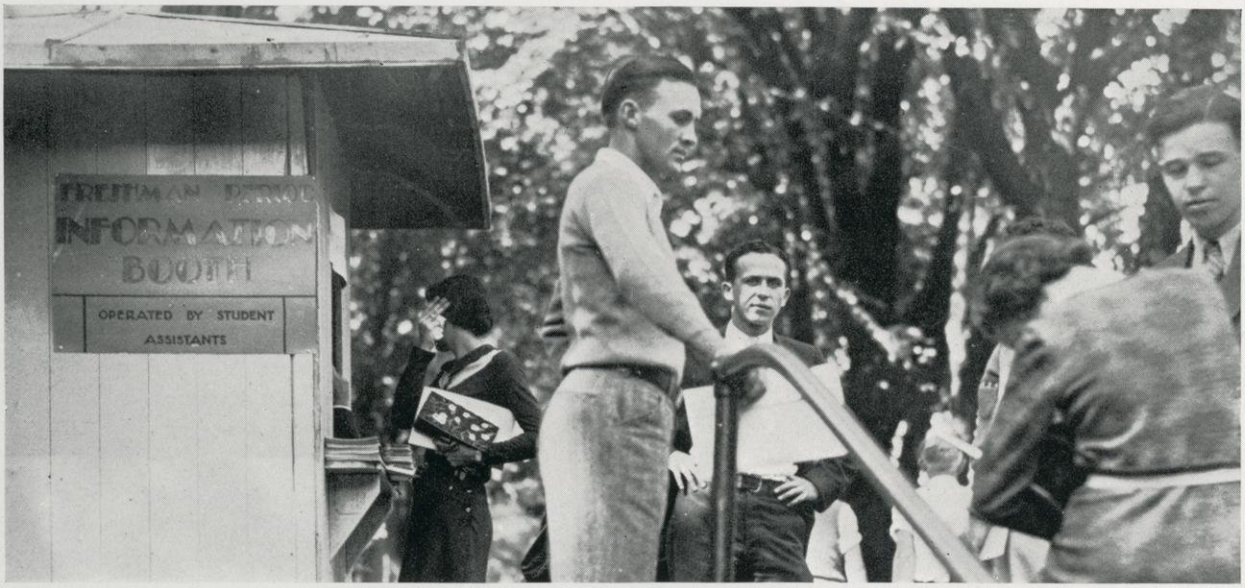
The Experimental College this year came to an end, but Wisconsin very evidently is not content to declare the experiment a complete failure, for the recent committee reports favor another experiment in education. What avenue will this experiment take? What also will be the results of the recent curriculum changes? What will result from the recent requirements in foreign languages?

Again we may ask, will the Regents continue their position on "stringless" gifts as they have in the past, or will they accept such excellent (to an interested outsider) gifts as the Brittingham fund?

In the field of student activities, we may inquire into the future of the Memorial Union. Will the Union be able to answer the charges and criticisms made against it? When will a third wing be built to complete the structure? Will the student forums which have represented such a valuable field for student interest this year be continued and enlarged in the future?

And finally, what, may we ask, is the future for tradition at Wisconsin? Will such traditions as Varsity Welcome, Senior Swingout, even Homecoming be permitted to die from lack of interest, or will student interest be rekindled with a better athletic program as many persons maintain?

These are questions which only the university administration and future university generations can answer. And to them we must leave the task of discovering the best answers. The seniors enter a world beset by far-reaching problems. It is the hope of the Badger that as college graduates they may intelligently consider those ills in an effort to turn their academic training to the practical purpose of correcting them.



Freshman Information Booth

Freshman Orientation Week

IN 1928 the traditional Freshman Welcome expanded into the first Freshman Orientation Week. The Orientation program this year was more extensive than it has ever been. Assisted by a general woman's chairman and likewise one for the men, Registrar Holt was able to work out a series of events for orienting the new freshmen and for acquainting them with campus life during their first week here.

Laura Haney and Albert Martin were the chairmen, and both had a large committee under them. Each member of the committee acted as an advisor to a small group of freshmen entrants, assisted them all week to make friends, took them on campus tours, and helped them to classes.

ALBERT MARTIN, *Men's Chairman*

Freshman Counselors

Freshman Orientation Week

MANY social functions were given as a part of the Orientation program. For the women, there were luncheons and teas with the Y. W. C. A., W. A. A., and W. S. G. A. as hostesses. The men were entertained at smokers and theater parties or enjoyed the varied entertainments in the Union Rathskellar with their advisors.

The grand climax to the Orientation week was the Freshman Mixer for both men and women in the Great Hall of the Memorial Union. The Rathskellar was open to them also and free beer checks were issued the first part of the evening.

Every pleasure was extended the new freshmen and the committee was large enough to give each of them some special attention in their problems during that first week of aimless orientation and possible loneliness.

LAURA HANEY, *Women's Chairman*

Fathers' Day Banquet

Fathers' Day

WISCONSIN has many traditions, but the two which perhaps mean the most to every student are Dads' Day and Mothers' Day. The Dads are guests in the fall and the Mothers in the spring.

The first Dads' Day was held in 1922 when only a few were present. This year approximately 3,200 Dads were guests of the University of Wisconsin and attended the Purdue-Wisconsin football game in their honor, as well as the reception and banquet which followed in the Great Hall of the Memorial Union.

Campus tours in the forenoon and the special Dads' Day performance of Wisconsin Players all helped to acquaint him with the campus life we enjoy so much all year. He sees not only the social and athletic side of it, but the beauty and seriousness of student life.

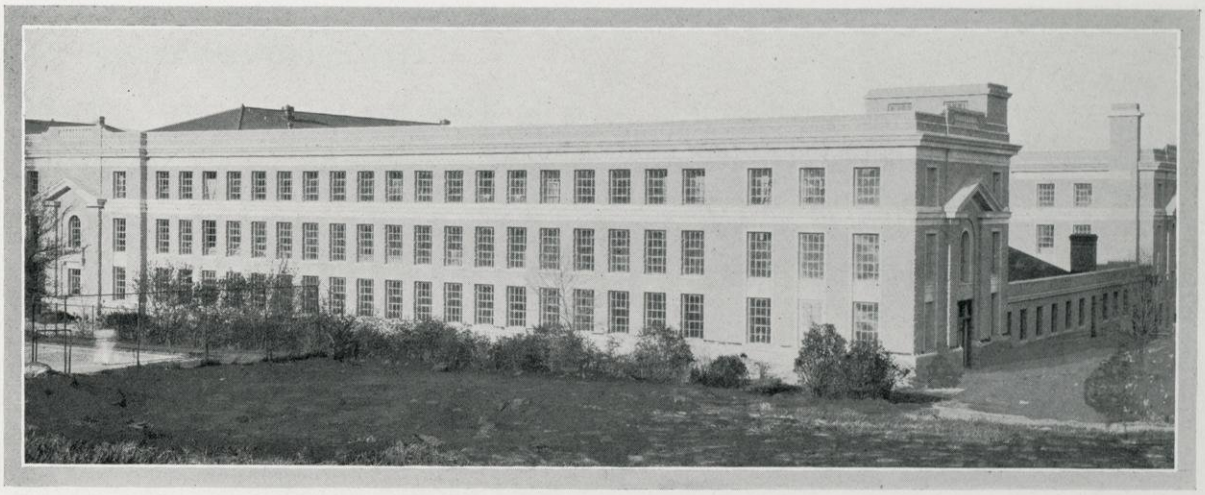
At the Game



The New Mechanical Engineering Building

Mechanical Engineering Building Dedication

DEDICATED on June 22, 1931, the Mechanical Engineering Building is the newest structure on the campus. It is constructed of Madison stone with terra cotta trimming conforming to a modernized Italian Renaissance style of architecture and designed by Arthur Peabody.

Mechanical engineering is one of the oldest branches of the College of Engineering. Throughout the history of the course the enrollment has increased faster than the space provided. Formerly the shops were located in old Science hall until it burned in 1884.

The erection in 1887-1888 of the present Science hall provided more room for equipment, but the quarters were still inadequate. Between the years 1910-1931, the only additional space received by the college was the Randall shop building, which gave twelve thousand six hundred square feet of floor.

In 1927, a realization of the needs of the College of Engineering led to an appropriation by the State Legislature for the erection of the present Mechanical Engineering Building. The corner stone was laid in 1930 and the construction was begun immediately.

Spacious lobbies, well lighted drafting rooms, laboratories, and every convenience essential to the student of engineering are found in this new home for mechanical engineers.

ROGER MINAHAN
General Chairman

1931 Homecoming

MORE than 5,000 alumni poured into Madison by airplane, train, and automobile to witness another of those colorful Wisconsin Homecomings—that of 1931.

Hopes were held high for victory in the Homecoming game against Ohio State by such mottoes as "Buck the Buckeye," "This isn't Ohio's Good Year," and "The Buckeye Bawl," and almost every student house was transformed with clever decorations to welcome back their alumni.

Kappa Alpha Theta took first honors for sorority house decorations while Delta Sigma Phi received the fraternity award.

Hundreds of alumni got together with the team and students in the shadows of the traditional bonfire on the lower campus where they cheered and sang once again as they had done when they were students.

The week-end was crowded with parties and dances at the Memorial Union and Greek houses. In short, enthusiasm and excitement had no end until they left for their respective homes, having witnessed another of those unforgettable events—Homecoming at Wisconsin. No one escapes this thrill of pride and loyalty.

The Prom of 1933

POMPUS, Romantic, Ostentatious, Magnificent—these are the four words that mean Prom Time—and they are especially descriptive of the Prom of 1933.

No one event is ever so marked with pompus formality and royal dignity as is a junior prom at the University of Wisconsin. The entire Union is transformed into a palace for courtly men and women all loyal to their king and his chosen queen. The strains of soft music and dimly colored lights carry the dancers far away into clouds of silver baloons while multicolored gowns steal from the radiance of the scene and make pretty girls even more beautiful.

The elegance and brilliance of this night leave memories never to be forgotten.

Military Ball

RICH gleaming leather boots of officers, formal military uniforms, and many hued folds of soft evening gowns all blended with the music of two orchestras to make the twentieth annual Military Ball the most outstanding event of the second semester, 1932.

Rifles, machine guns, and small cannon transformed the Memorial Union into a veritable military camp where the Major Arnold H. Dammen and his chosen lady, Helga Gundersen, held sway. A Scabbard and Blade drill during the intermission and the specialty numbers by the orchestra entertainers added the final touches to the affair.

This was an especially important Ball for Major Tom Fox, commandant and director of the military science department for four years, for it marks his last year here and consequently his last ball as commandant of Wisconsin military activity.

The Traditional Senior Farewell

Mothers' Day

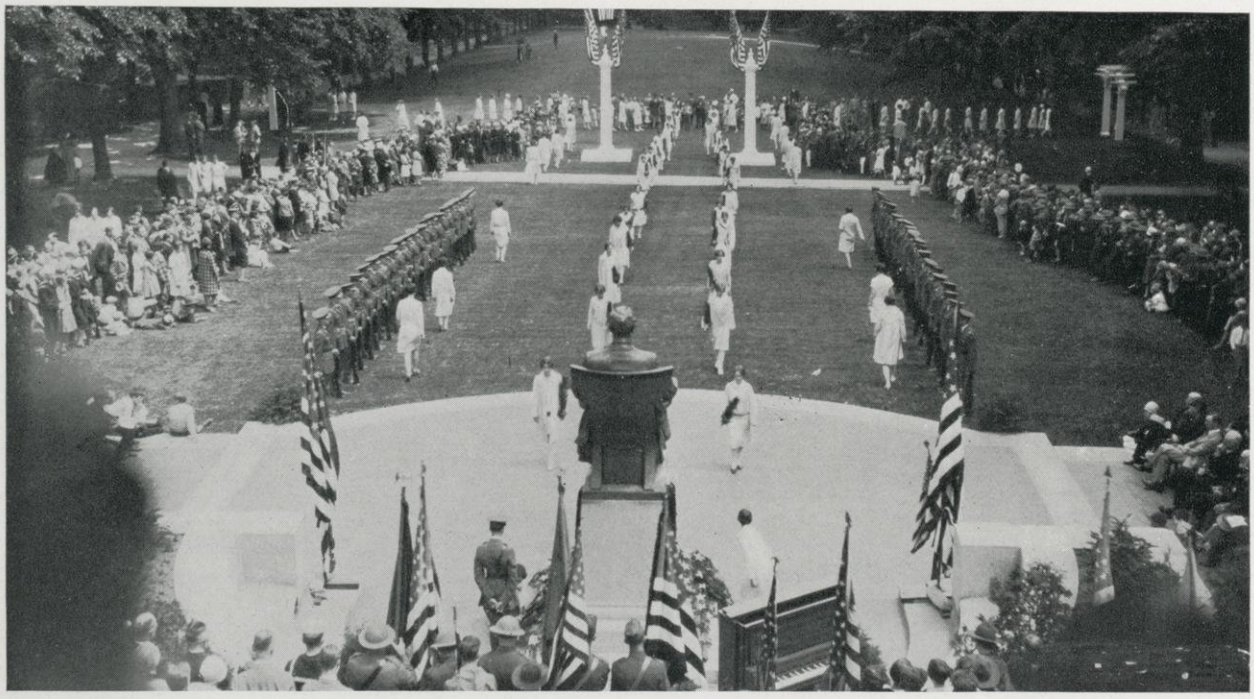
MOTHERS' Day at the University of Wisconsin has been another of the cherished traditions ever since 1922 when it was begun. Since then one day each year has been dedicated to honor every student's mother, to fete her, and to have her as a guest at many affairs. Special invitations are extended by the University of Wisconsin faculty to the mother of each student.

This year May 22 was set aside in order to devote it entirely to tours, teas, and visits with the faculty. A broader, more understandable view of university campus life is presented as well as some degree of social atmosphere which was perceived at the traditional Mothers' Day banquet in the Great hall of the Memorial Union. The Senior Swingout ceremony takes place on the Lincoln Terrace during this week-end also. At this time honorary awards are granted and the mothers are officially welcomed by the Mothers' week-end chairman.

Each year more mothers attend and likewise more elaborate plans are made. Almost two thousand were presented this year, and surely every possible effort was extended to make them happy.

DORIS JOHNSON, *Swingout Chairman*

LETITIA MAYER, *Mothers' Day Chairman*



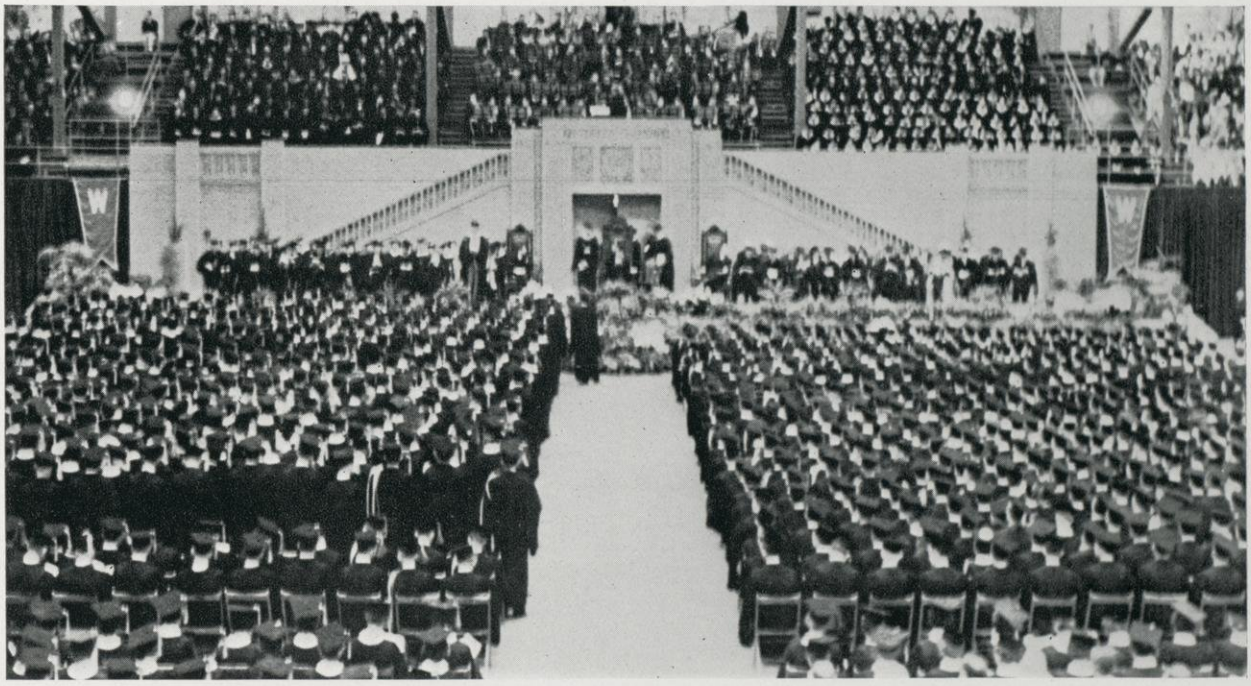
To Honor Wisconsin's Soldier Dead

Memorial Day--1931

WHEN the whole world is honoring its war dead, and hearts are turned once again to lost loved ones, the students at the University of Wisconsin also stop in their work to give reverence to them. May thirtieth is set aside as a time for quiet ceremonies honoring them. Taps sound in salute of their bravery and services rendered to their fatherlands.

Women in white carry up the hill wreaths representing the love and faith that we—the living—still hold for the dead. And a program of songs and speeches further expresses the sentiment of those who survive, "to keep faith with them who died."

Services at Lincoln Statue



As the Class of 1931 Was Graduated

Baccalaureate--Commencement 1931

WHEN the goal which every university student is seeking has been finally reached and the last classes have convened, it is only fitting and proper that some form of recognition should be shown them and that for one last time the group which has been together for so long should be assembled as a symbol of their unity of spirit and friendship.

That is why such elaborate plans are made for commencement week. Graduation day leaves with the outgoing men and women a picture of what they have done and a firm hope for what they will want to do in the future.

The messages of the president and of other faculty members are given at the various ceremonies of Baccalaureate and Commencement. Friends and relatives of the graduates are present to hear also the words of these men.

WOMEN'S ACTIVITIES

LOUISE F. TROXELL, *Dean of Women*

A Message from the Dean of Women

THE close of this semester brings to an end my first year as Dean of Women at the University of Wisconsin. It has been a time of stimulating contacts with a great variety of students and an opportunity to verify an opinion I have long held; that students, in the main, see life with unusual honesty and live it with remarkable fearlessness.

If one part of my work has been more interesting than another, it has been that in connection with my membership on the Loans and Scholarships Committee. Due to the pressure of the times this has brought me in touch with some of the ablest students in the university many of whom are members of the class whose Badger this is. If their ability to meet difficult situations is any index of the general character of their group, we shall have no cause to worry about the success of the Class of 1932.

Sports and intramurals play a big part in the athletic life of women students at Wisconsin and it is chiefly through the many opportunities offered by the various departments of the W. A. A. that such interests are maintained and furthered.

The W. A. A. promotes sports and intramurals by group participation and organized sport clubs including Dolphin and Orchesis. The individual clubs are Alumni, Archery, Basketball, Baseball, Bowling, Cottage, Dolphin, Hockey, Intramurals, Orchesis, Outing Club, Publicity, Tennis, and Volley Ball. Activity in any one of them qualifies a girl for full membership in the W. A. A.

Besides stimulating sport interests, the club awards one scholarship each year as a reward for the Wisconsin woman excelling in both athletics and scholastic activity. This year's recipient was Martha Konz, '32.

The Physical Education Club

The Physical Education Club is composed of majors in Physical Education. The aims of the club are to stimulate professional interest and act as a connecting link for the various interests of its members through its social activities.

The Scholarship Committee deserves special credit for its work in furnishing financial aid to those who desire it. A fifty dollar scholarship is awarded annually.

Informal teas, sponsored by the various classes, have been held in Lathrop Lounge throughout the year. Seasonal sports, assemblies, and outings are among the other activities of the Club.

Intramurals

The W. A. A., by fostering Intramurals, has been able to stimulate group interest in various sports among the campus groups. This year the All-Americans have been outstanding, winning the Basketball and Bowling tournaments. Alpha Gamma Delta won the Volley Ball tournament and Barnard pitched the best horseshoe.

An Outing Club Trip

The Juggler of Notre Dame

Orchesis

ORCHESIS is an organization built on student interest in the study of the dance as a science of body mechanics and an art of expression. In addition to the weekly periods of practical work, extra hours have been given this year to a study of the art epochs of history in preparation for the Dance Drama given annually on Mothers' Week-end, which has as its central theme the evolution of art. Original groups and solo compositions presented at studio recitals private to the members not only furnish an opportunity for entirely independent creative work, but also give groundwork on which the later public performances can be built. Orchesis has also had the opportunity to study briefly under two guest artists, Bertha Ochsner and Gertrude Prokosch, and to aid in sponsoring recitals by Angna Enters and by Harald Kruetzberg and his group. A dance form of "The Juggler of Notre Dame" was given as a contribution to the All-University Christmas Festival.

Dance Drama

Outing Club

The Wisconsin Women's Outing Club keeps interest and spirit high for hikes, and week-end parties at the W. A. A. Cottage. Skiing and canoe trips are included.

Hockey Takes the Place of Frills and Ruffled Lace

Baseball Club

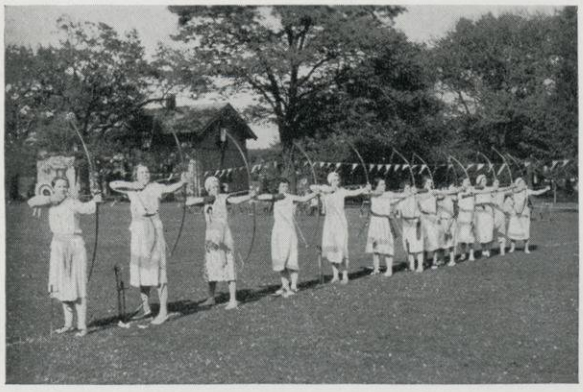
Spring calls to the diamond, fans and members of the Baseball Club who are interested in excelling in this sport.

Basketball Club

Jump ball! Women of this club have trained themselves to be just as swift and alert on the basketball floor as any men's quintet.

She Who Pulleth Best

Overtakes the Rest



Archery Club

These women Archers are popularizing the sport. Qualifications to hit the bull's eye are straight aim, keen eyesight, and a steady hand.

Tennis Club

Good form is essential to participants in spring tennis tourneys, sponsored by the Tennis Club. Keen rivalry and interest are aroused between the contestants.

Not Hobble Skirts

But Hobble Sports

Field Day

In connection with Mothers' Week-end, W. A. A. gives a field day rally with riding, tennis, archery, and track finals. Tumbling feats are one of the outstanding performances.

Dolphin Club

The Dolphin Club annually presents a pageant and this year the swimmers of this honorary organization showed outstanding skill and technique in their races, strokes, and dives.

ATHLETICS

Wisconsin Athletics

THIS spring finds Wisconsin's athletic hopes running at high pitch after a winter of difficulties which centered about the football situation but involved all other athletics as well. The final selection of Dr. Spears as football coach, the reorganization of the athletic department, the reorganization of the athletic council, and an attitude on the part of the Board of Regents which apparently distinctly favors athletics are the chief results which the investigations and discussions have effected.

GEORGE LITTLE
Resigned Director

The failure of Coach Thistlethwaite to develop a football team of the caliber expected resulted in his resignation in December, a short time after George Little had resigned as athletic director. The athletic council after considerable discussion proposed a reorganization of the athletic department into three divisions, one for intercollegiate athletics, another for intramurals, and a third for gymnasium work and the course in physical education. The plan was approved by the Board of Regents which also announced the selection of I. C. Uteritz, for several years "B" team coach, as director of intercollegiate athletics.

The athletic council aroused reaction from the public and the press for its inability to select a football coach. Finally when its selection was made to the Regents, the Board failed to give its approval and reopened negotiations with Dr. Spears which culminated in his selection as head football coach.

Shortly after Dr. Spears' arrival in Madison, Uteritz resigned as athletic director to become backfield coach. The position as yet is unfilled.

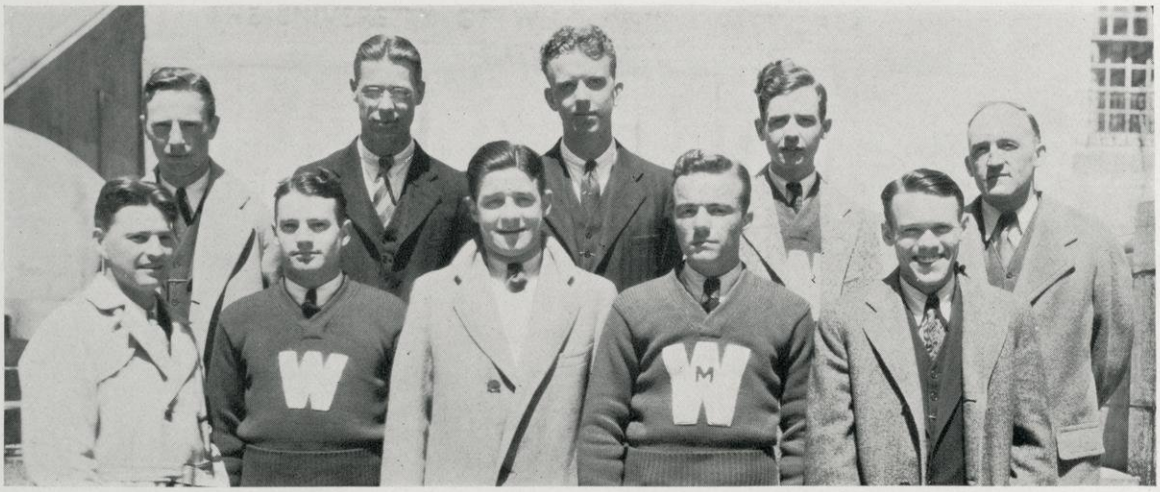
The athletic council was reorganized by vote of the Regents in April to permit ex-officio regent regulation, faculty control with four members, and alumni and student representation with two and one members respectively. Prof. A. T. Weaver was selected to replace Prof. J. F. A. (Sunny) Pyre as chairman.

"IRV" UTERITZ
Temporary Director

A rebirth in activity among the athletes was apparent during the year with the reorganization of the "W" men in school. Under "Jim" Plankey the club sponsored an athletic carnival and made plans for a banquet to be held later this spring.

Dr. Spears began spring practice shortly after his arrival here, calling out all of last year's veterans to give them the fundamental training which his style involves. Attempts to strengthen the line and perfect his famous off-tackle plays featured the early drills.

Hopes that Wisconsin will have a strong team, if not a championship team, next year are based upon Dr. Spears' past record and upon the spirit of players, students, and alumni during spring practice. With the backing of these groups, Wisconsin well can hope for the future.



Athletic Board
Top Row: T. Shaw, H. Silbernagel, H. Smedal, K. Bertrand, F. Nickerson
Bottom Row: J. Plankey, E. Darbo, M. Steen, W. Erler, H. Cortwright

The Athletic Board

THE Athletic board of this year is composed of a representative from each of the five sports, football, basketball, baseball, track, crew, and cross country, three representatives from all other sports, a president, a junior non-"W" man, and a senior non-"W" man.

During the year the structure of the board has been revised. The board voted that hereafter the captains of all sports, with the exception of golf, shall be members of the board, and Mr. Nickerson will be permanent secretary to give guidance and to act as a contact between the student board and the athletic department.

The policy of having non-"W" members on the board was discontinued for it was felt that the athletes themselves being students could reflect the wishes of the student body in regard to athletic matters. Further it was felt that since the board controls the student participation in athletics that the control should be in the hands of athletes.

The plan was accepted only after long discussion and will go into effect next fall.

The "W" Club

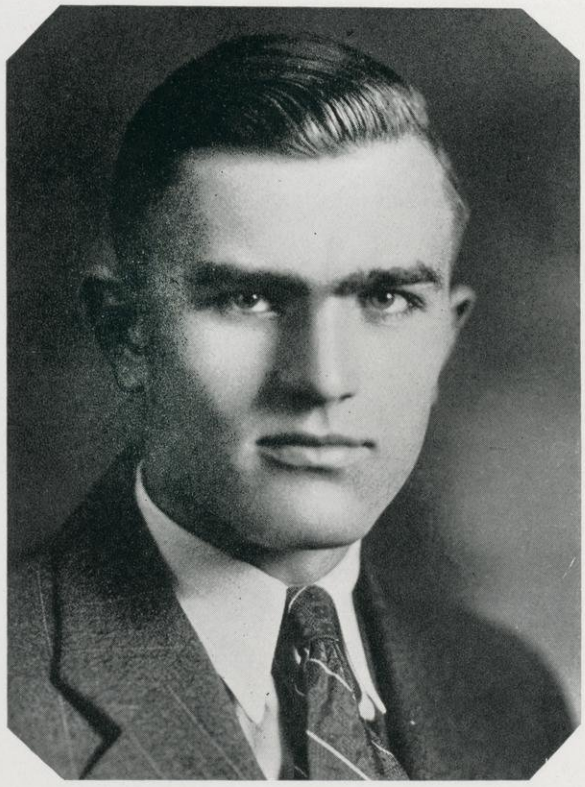
The "W" Club

WHEN the "W" club was reorganized last semester, it was realized that to make it an active organization, it must have definite activities and purposes. Such activities as Homecoming, the Interscholastic meet, and an athletic carnival were to be sponsored by the club; and as the school year progressed the above activities were successfully undertaken. The Homecoming chairman was selected from the club membership, the state high school basketball boys were welcomed and entertained by the "W" men, and the athletic carnival, under the guidance of George Little and the "W" club, made an impressive beginning.

By creating a better fellowship among "W" wearers the purpose of the club is twofold: first, to weld the letter men of the university into a club which will stimulate and foster those functions which will promulgate the spirit of Wisconsin; and, second, to perpetuate these self-same ideals through the activities of the graduate members in order that the distinction and honor attendant upon the possession of a "W" will encourage young men tomorrow to select Wisconsin as their alma mater.

The club looks forward to much success and when we come back as graduates we can be proud to be alumni members of an active and progressive organization.

JAMES G. PLANKEY,
President.



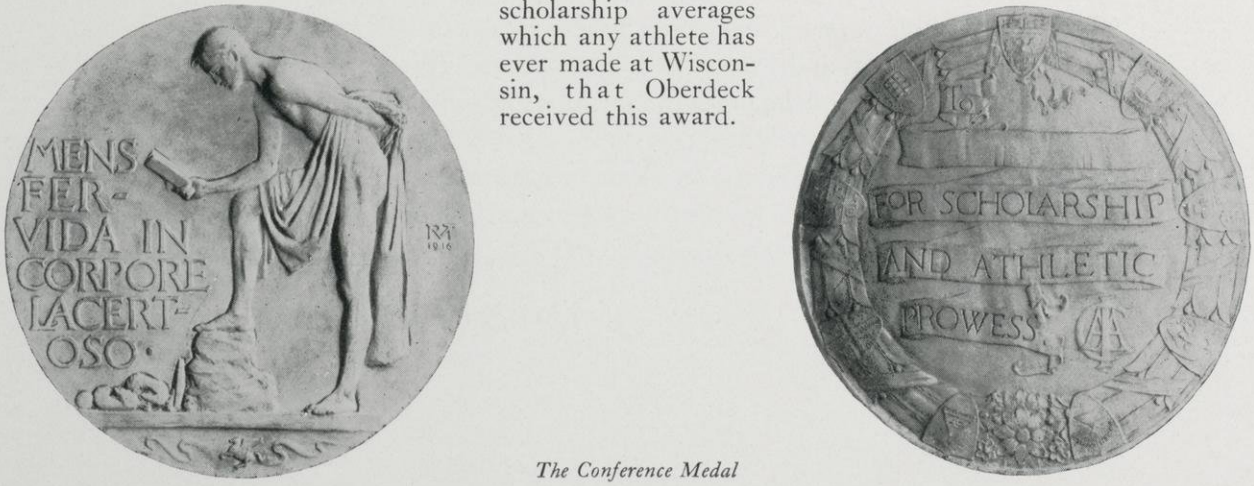
LOUIS OBERDECK

The Conference Medal

LOUIS ERNST OBERDECK was awarded the 1931 Conference medal for the student maintaining high scholarship and showing outstanding athletic ability. Oberdeck, who comes from Edgerton, Wis., was a regular member of the Wisconsin crew for three years, and in his senior year was elected captain.

During the three and one-half years at the University he maintained a grade point average of 2.66, and in those courses in which a numerical grade was given an average of 93%. He is a graduate of the Letters and Science college, and because of his scholarship was elected to Phi Beta Kappa.

Although he was not above average size Oberdeck was, during his entire college career, an outstanding oarsman. He received three major letters in crew, and was captain of the crew which was rated as the best which Wisconsin has produced since 1924. It was because of this remarkable athletic record, accompanied by one of the highest scholarship averages which any athlete has ever made at Wisconsin, that Oberdeck received this award.



The Conference Medal

Dr. Clarence W. Spears

FOOTBALL

To Dr. Spears, upon his arrival at Wisconsin, the Badger extends its best wishes in the hope that under his direction, football will lead the way in a return of Wisconsin spirit.

Football

Brilliancy as well as mediocrity characterized Wisconsin's 1931 football team. Rising to heights seldom attained by any athletes, the Badgers defeated Purdue in an early season game but thereafter failed to approach that brilliant performance and ended the season with five victories, four defeats, and one tie. Three victories were registered against Big Ten teams and three defeats received to place the Badgers in sixth place in Conference competition.

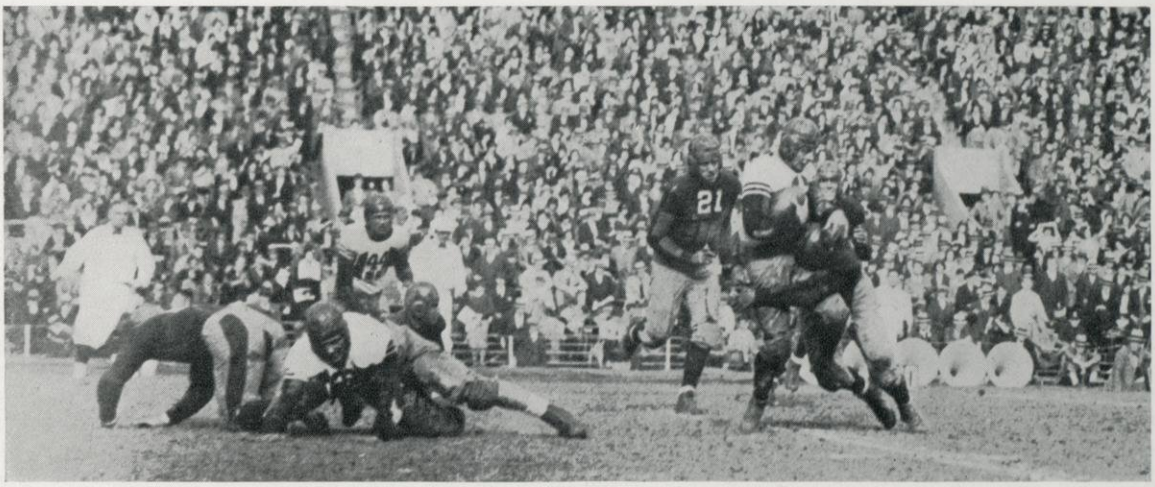
In recounting the history of the 1931 team, any writer must start with the Purdue game, for it was then, if never again, that Wisconsin, hopelessly rated as the under dog, broke through in a glorious offensive to defeat the Boilermakers 21 to 14.

The game was on the third Saturday of the season; Wisconsin was "keyed" to the limit after having won an opening double-header from Bradley and North Dakota and scraped through with a tie against Auburn the Saturday before on a rain-soaked field.

In just eight plays after the kickoff, John Schneller, Wisconsin fullback, drove through Purdue's line for a touchdown. This touchdown climaxed a march from mid-field in which Schneller and Halfback "Micky" McGuire broke through for steady gains. The whole team was "clicking," the linemen and blocking backs were taking out interference with dash and precision.

Captain "Hal" Smith
Tackle

Coach Glenn Thistlethwaite



Three Tacklers Pull Down Rebholz After a Gain Through Penn's Line

Six minutes later Wisconsin scored again to end a 55-yard drive, and then before the first quarter closed "Greg" Kabat blocked a Purdue punt for a third touchdown. All three tries for extra points were successful, and the score stood at 21 to 0. Throughout this first quarter Purdue had had no chance to start an offense. The Boilermakers were completely demoralized.

Wisconsin failed to score in the second period, but its large lead was never threatened. Purdue stopped further long gains but at no time was able to organize an offensive.

A Purdue team in a completely different frame of mind came onto the field at the start of the second half. Wisconsin protected its lead by defensive football, while Purdue strove desperately to score, resorting to its favorite weapon—the forward pass. Largely by its use two touchdowns were scored, and the Boilermakers threatened to score a third as the game neared a close. While the packed stands were in an uproar, Wisconsin snuffed out the Boilermaker's last scoring threat. "Rus" Rebholz intercepted a pass, and the game was Wisconsin's, 21 to 14.

Immediately, Wisconsin fans started "counting chickens." To many of them the conference championship was all but won.

On the following Saturday, Wisconsin invaded the East for the first time in 31 years by playing Pennsylvania at Franklin Field. While critics did not expect Wisconsin to recover sufficiently from its efforts of the Saturday before, at least it was hoped that the Badgers might play par football.

JOHN SCHNELLER
Fullback

CAPTAIN "GREG" KABAT
Guard

"Don" Cuthbert
Tackle

Wisconsin lost 27 to 13. What had happened to Purdue happened to Wisconsin. It may be alabied that the men were tired after so long a trip, that they were over-confident, or stage struck. Whatever it was, Penn had scored 27 points before the Badgers revived. Pennsylvania ran wild in the first half, scoring 20 points largely on Badger errors, and blocked a punt to make the score 27 to 0 early in the second half.

But then with substitutions, Wisconsin recovered. Led by "Bobby" Schiller at right half, the team came to life and scored two touchdowns. Many who saw the game believe that Wisconsin would have won had it not been for that last blocked punt. The lead after that was too great to overcome.

After this upset it was felt that Wisconsin would come back against Minnesota. By defeating Iowa 34 to 0, Minnesota had demonstrated sufficient strength to blast any last bit of Badger over-confidence. But the Minnesota game was almost a duplicate of the Penn struggle.

Minnesota scored first after recovering a Badger fumble. Manders, the 200-pound Gopher fullback, on a spinner play that was identical to that used by Pennsyl-

"Mickey" McGuire
Right Halfback

"Moose" Kruger
Center

Joe Linfor
Left Halfback

vania to score its first touchdown, broke through between right tackle and right guard and dashed 56 yards to score.

Again in the second quarter with their advance apparently stopped on fourth down, Minnesota scored from the 34-yard line on a forward pass to Robinson, end, who tossed it backwards to Munn. Munn shook off the last Badger tackler on the five-yard line. Manders' kick was good and the score was 14 to 0 as the half ended.

Wisconsin's recovery was remarkable in the second half. Twice they reached the five-yard line, and twice, on other marches, were on the 15-yard line, but the old Badger trouble of failing to score when in scoring territory took Wisconsin.

Wisconsin on the following Saturday resumed athletic relationships with Illinois after a lapse of eight years and defeated Bob Zuppke's sophomore team 7 to 6. Although the score was close, the game was Wisconsin's throughout. Once in the first half, the Badgers really earned a touchdown when Nelson fell on a Wisconsin punt which rolled over the goal line after touching Horsley, Illini quarterback. But the field judge ruled

HARVEY KRANHOLD
Guard

CLAIR STRAIN

"CHUCK" BRATTON
Tackle

"RUS" REBHOLZ
Left Halfback

"Buckets" Goldenburg
Quarterback

that the ball had not been touched and gave it to Illinois on the four-yard line. Both teams scored in the third period; Wisconsin when Kabat blocked an Illinois punt, and Illinois when Horsley passed to Shalk. Kabat blocked the try for extra point to give Wisconsin the game.

The Badgers faced Ohio State at Homecoming on a muddy field with an occasional flurry of mist or rain making the footing treacherous and the ball hard to handle.

Ohio scored its single touchdown in the opening period. After stopping a Buckeye march on the 27-yard line when Haubrich's attempted place-kick went wide for a touchback, the Badgers put the ball into play on the 20-yard line. Schneller attempted a punt. Four or five Ohio linemen dashed through and blocked it, but the Badger fullback recovered on the six-yard line. Again he attempted a punt, but again he was given little protection and Varner, guard, blocked the ball and Bell, left tackle, fell on it for a touchdown.

Throughout the remaining 46 minutes of play, neither team scored, but Ohio State had the advantage throughout. Twice Wisconsin threatened. Once in the second period, a pass, McGuire to Rebholz, netted 30 yards and put the ball on Ohio's ten-yard line where a fourth down pass went into the end zone. Again, at the start of the second half, "Rus" Rebholz took the kick-off and with beautiful interference returned the ball 51 yards. The Buckeye safety man, by dodging the last interferer brought down the little Wisconsin star when he had a clear field ahead of him.

The Badgers closed the regular season against Chicago by winning 12 to 7 from a vastly improved Maroon eleven. "Mickey" McGuire returned to his Purdue game form and was the big feature in the Badger attack. He scored both Wisconsin touchdowns, the first on a short pass back of the line and a 32-yard romp through the entire Chicago team, the second shortly afterwards when he returned a Chicago punt 38 yards to score.

By a vote taken some weeks before, all Big Ten teams played a charity game on November 28. Wisconsin was paired with Michigan and the game was scheduled to be played at Ann Arbor. The Wolverines, hoping to play Northwestern and gain a tie for the championship by defeating the Wildcats, openly disapproved of Wisconsin as an opponent and practically boycotted the game.

"Pip" Nelson
Quarterback

Wisconsin made a valiant attempt in the first half, coming once within a yard and a half of the goal, but the superior strength of Michigan appeared in the second half, and the Wolverines went on to win 16 to 0 by scoring two touchdowns and a field goal.

Wisconsin fans were greatly disappointed after their early season hopes, built up largely because of the victory over Purdue, had failed to materialize. It was felt that because of the only partial success of Badger teams in the past few years, the team had lost confidence in Glenn Thistlethwaite, its coach. Coach Thistlethwaite resigned shortly after George Little handed in his resignation as athletic director. The position was left unfilled until April, when the Board of Regents secured Dr. Clarence W. Spears, former Minnesota coach.

The season brought out such stars as Captain "Hal" Smith, whose work always was consistent. "Rus" Rebholz, another senior, was a stellar performer, as were Kabat and Kranhold, guards; Simmons and Kruger, centers; Schneller, Linfor, and McGuire, backfield men.

Next year's prospects under Dr. Spears are hopeful. Few regulars are lost and some good material has been developed in this year's freshmen.

At the close of the season, "Greg" Kabat was elected captain for the following year, and Captain Smith was voted the most valuable player.

Dr. Spears Directing Spring Practice

Spring Practice

So that the football squad would loose no time in learning his system of play, and so that he could better adapt it to the Wisconsin material, Coach Spears started spring football practice immediately after spring recess. Fifty-five men reported for the first practice.

"Doc" Spears has been stressing the fundamentals of blocking and tackling so that each player will become so familiar with them that when he enters actual competition they will be second nature to him.

Not completely satisfied with the showing which some men had made and in an effort to build up the line, Coach Spears has been temporarily shifting his men about. John Schneller, fullback of last season, has been temporarily transferred to center in an effort to fill the position left open by the graduation this spring of Simmons and Kruger. Another change has been the removal of Goldenburg from quarterback to tackle. Of course these changes may prove to be only temporary.

Spears has divided the squad into two teams, Goldenburg acting as the captain of one squad, and Schneller, the other. "Greg" Kabat, captain of the 1932 squad, has been unable to go out for spring practice because of his position on the track squad.

Interest throughout the state has increased tremendously in the last few months and the squad next fall should receive tremendous support from all the people in the state who wish "Doc" Spears luck in his first year as head football coach at Wisconsin.

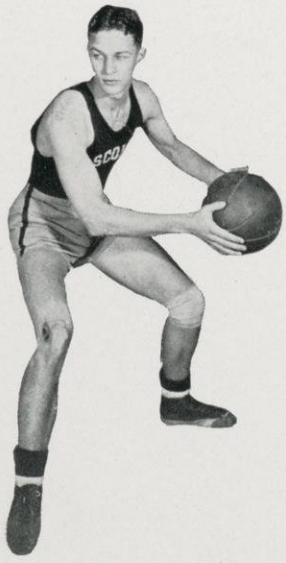
Basketball

Convinced that there was little hope for success in Big Ten competition with a team composed of small men, Coach Walter E. Meanwell set out to develop a group of taller sophomores at the beginning of the season. Although the three regulars who returned, Capt. Steen, Poser, and Doug Nelson, were all below six feet, he had three sophomores, Dwight Swan, Stan Rewey, and Carl Vaicek, who were well above this mark. In addition to these, Roy Oakes, who had been ineligible the year before, was ready to once more enter varsity competition.

"Doc" Meanwell

In a game against the alumni, Dec. 2, Coach Meanwell gave the entire squad a thorough tryout, but the results were not impressive, and the alumni won 14-10. Against Brigham Young University the Badgers showed marked improvement, and were able to defeat the strong Utah team 30-16. Wisconsin gave a fine exhibition of clean ball handling and accurate shooting, and Poser and Nelson at the guard positions held Captain Romney, the Brigham Young star, to one field goal.

On Dec. 15, the Badgers met Pittsburgh, for years among the leading eastern teams, and after a hard struggle which ran into an overtime period, the Badgers were able to defeat them 30-29. The Badgers' attack functioned smoothly, and after defeating such a powerful team as Pittsburgh, they entered the Marquette game hopeful of wiping out the previous year's defeat. Meanwell's men showed less skill than in the previous game, and Marquette was able to repeat the victory of the preceding year, 23-26.



"Bob" Poser
Guard

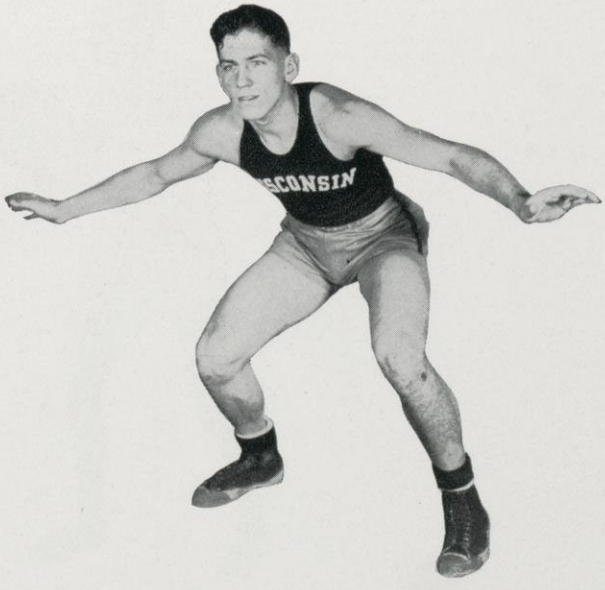
In the last game before entering the Big Ten season, the Badgers met Maryland, the southern conference champions, in perhaps the most breath taking battle of the year. After allowing Maryland to gain a lead of 10 points in the first few minutes of the game, the Badgers rallied to tie the score. In the overtime Captain Steen scored three field goals, and Wisconsin finally won 32-30.

In the opening game of conference competition Wisconsin lived up to its fighting reputation, and although not conceded a chance to defeat Northwestern, they forced the former champions into an overtime period, only to lose 31-30. Michigan invaded the Wisconsin field house on January 9 to administer, after a hard struggle, another conference defeat to the Badgers 24-18. Two days later Wisconsin travelled to Lafayette to meet defeat at the hands of Purdue. Although the score, 38-22 would indicate a somewhat lopsided contest it was not until Purdue began to stall, and the Badger five attempted to get the ball, that the Boilermakers piled up a large lead.

Following the Purdue game the Badgers invaded the new Chicago field house to win their first conference game. Ahead 15-12 at the half, Wisconsin garnered a number of field goals, and easily won 25-18. In an attempt to avenge the one point defeat at the hands of Northwestern early in the season, the Badgers invaded Evanston fully primed. The difference in height between the two teams again spelled defeat for the Wisconsin men, however, Northwestern finally winning 28-24.

The opening of the second semester found "Doc" Meanwell facing a tough schedule with a team which ineligibilities had

Steinmetz



Nelson

Oakes

WICHMAN

completely disorganized. Bobby Poser and four of the most brilliant sophomores were forced to remain on the bench during the remainder of the season. During the intermission between semesters, the Badgers again met the strong Marquette team, this time to win a thrilling victory, 18-16.

Following the Marquette victory, Meanwell's men were able to overcome an early lead from the highly touted Butler team, and to win an easy victory 28-17. A great part of Wisconsin's success in this contest was due to Harry Griswold, who entered the game and was able to turn the tide. It was his brilliant play at center, where he managed to get the tipoff from his taller opponent, that accounted for the ease of the Wisconsin victory.

After winning these two games the Badgers again entered conference competition to go down to defeat. After trailing Indiana by only a few points throughout the greater part of the game the Badger defense cracked, and the Hoosiers coasted through to a 33-21 victory. Following this game the Badgers met Minnesota and were again severely beaten. The Wisconsin squad seemed completely disorganized and at no time could control the high scoring Gopher team. Minnesota finally won 43-17. Wisconsin attempted to get back once more into the win column against the snappy Purdue outfit, the Conference leaders, but due to bad breaks on shooting, after a struggle which lasted until the last few minutes of the game, the Badgers were defeated once more 28-21.

Hard luck still followed the Badgers when they again met

GRISWOLD

KASTEIN

Michigan, and they stayed in their slump to let the fast travelling Ann Arbor quintette defeat them 33-13. The Badgers secured only four field goals during the entire game.

In their next game against Indiana Wisconsin led from start to finish. They were completely out of their slump, and although Indiana seemed superior in personnel, the final score was 35-26 in the Badger's favor. Wisconsin almost scored what would have been one of the season's major upsets by holding the strong Minnesota team to a score of 23-21 in the final game. Although Wisconsin played one of its best games of the year Minnesota was just a shade too good. During this game Harry Griswold led Wisconsin in scoring, while Ray Wichman played one of the best defensive games of the year.

In view of the number of times which Coach Meanwell had to completely reorganize his team, due to the illness and injuries of his players, and the loss through ineligibility of Bobby Poser, his most outstanding performer, with seven other members of the varsity squad, the season's record of three victories and nine defeats in the conference, which gives Wisconsin a tie with Iowa for eighth place is extremely commendable.

The prospects for the coming season are much better because, although the team will lose many of its experienced players through graduation, their places will be filled from this year's freshman team which included many individual stars, and was one of the best first year organizations which Meanwell has ever coached.

CROSS COUNTRY

Top Row: T. Jones, coach; J. Schwalbach, H. Cortright, J. Crummey, T. Burgess
Bottom Row: G. Wright, K. Bertrand, L. Kirk

Cross Country

The Wisconsin 1931 Cross Country team again lived up to the brilliant record which Coach Jones' men have made in previous years by winning all its dual meets, the quadrangular meet at Evanston, and placing second in the Western Conference Championship run.

Coach Jones started the season with four major letter men: Kenneth Bertrand, Lawrence Kirk, George Wright, and Harry Cortwright, and a reserve from the previous season, James Crummey. MacClure Thompson, who had been elected captain at the close of the previous season was unable to run because of illness during the summer. Bertrand was elected to take his place as captain of the squad.

The Badgers opened the season by defeating the Milwaukee Y. M. C. A. which was led by a former Wisconsin star, Stan Zola. Eleven Wisconsin runners crossed the line before the first of the visitors. Wright, Crummey, Bertrand, Cortwright, and the new sophomore find, James Schwalbach, tied for the first five places, with Johnson, Bone, Kropp, Horswell, Mett, and Dever following. Kirk was ill at the time of the race and did not compete.

Two weeks later the Badgers travelled to Evanston to win the quadrangular meet with a score of 25 points, Notre Dame coming in second, Illinois taking third, and Northwestern finishing fourth. Lawrence Kirk came

Coach Tom Jones

Thompson

Kirk

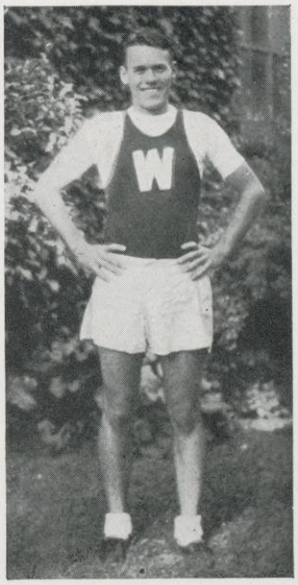
Crummey (No. 3) Sprints into the Lead

in first, and Wright finished third. Bertrand, Schwalbach, and Cortwright finished sixth, seventh, and tenth to complete the Badger score.

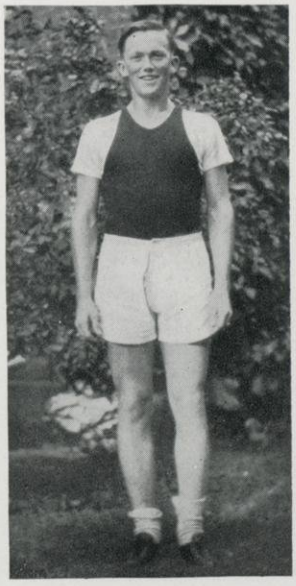
A week later the Cross Country team accompanied the football squad to Philadelphia to compete with Pennsylvania, the holders of the collegiate four-mile title. Although the eastern course was exceptionally rough and hilly, the Badgers came through with a 24-37 victory. Dan Dean, the winner of the Eastern Intercollegiate harrier title, nosed out Kirk for first place. McNiff of the Quaker squad finished third, and Crummey, Bertrand, Wright, Schwalbach, Cortwright, and Kropp followed in order.

Michigan was the next victim of the Badger harriers, and their defeat 19-46 upheld the perfect record which Wisconsin Cross Country teams have made against the Wolverines. Although the course was extremely muddy, George Wright was able to nose out Howell of Michigan for first place. James Schwalbach ran his best race of the year to finish third. Bertrand, Kirk, Crummey, and Cortwright followed.

Coach Jones had little difficulty in picking the six men whom he would enter in the Conference championship race, because Wright, Kirk, Bertrand, Cortwright, Crummey, and Schwalbach had led in practically every race in which the team had competed. Indiana, who had won the championship for three consecutive years, again loomed as the most outstanding contestant, although it was admitted that the Badgers would give them a good



CORTRIGHT



WRIGHT

CRUMMEY

Lined Up for the Start

race. Minnesota, Michigan, and Illinois were also believed to have a chance to take the championship away from the Hoosier runners.

The course at Iowa City was mostly turf and was extremely soggy, which made it ill-suited to Coach Jones' men who had been practising on the gravel of the lake drive. It was apparent early in the race that either Indiana or Wisconsin would win, but George Wright, who was leading the pack at better than the half way mark, was suddenly stricken with the return of a nerve injury in his leg, and was forced to drop from the race. Although this ruined the Badgers chances to defeat the Indiana team, the remaining five runners continued, and took second place. Bertrand and Kirk took sixth and seventh places, and the remainder of the squad came in farther behind, but considerably ahead of most of their opponents.

The annual Turkey Day race for non-squad men was won by a freshman, Winston Bohn, Henry Lashway coming in second, and Alfred Johnson third. At the annual Cross Country banquet George Wright was elected captain for the 1932 season, and letters were awarded to Bertrand, Cortwright, Kirk, Crummey, Wright, Schwalbach, and Manager Burgess. Lawrence Kirk was voted the most outstanding Cross Country runner of the season, and awarded the Billie Goldie trophy.

TRACK

1932 Four-Mile Relay Team
Kirk, Crummey, Schwalbach, Cortwright

Outdoor Track--1931

After fifteen years of intense struggle, during which they ranked high among the leaders, Wisconsin climaxed the 1931 season by a smashing victory in the Western conference meet at Evanston, winning its first Big Ten Championship since 1916. Although many of the best performers suffered from injuries or illness during the season, the squad came through in true Wisconsin style.

Coach Jones' team went through the season losing only one meet, the quadrennial, to Ohio. In the first outdoor meet of the season Wisconsin won a thrilling meet from Notre Dame 64-62, during which Greg Kabat broke the Notre Dame record in the discus, and George Wright in the two-mile run. In the Drake relays Behr placed second in the shot put, Kabat in the discus, Frisch in the hammer throw, and Shaw in the high jump.

In the Wisconsin State Intercollegiate meet the Badgers ran up the top heavy score of 112½ points to its nearest opponent's 48. In this meet Kirk broke the Camp Randall record in the mile. The Badgers met their only defeat of the season in the Quadrennial meet losing to Ohio by only 1⅛ points.

Coach Tom Jones

Shaw, *1932 Captain*

Lovshin

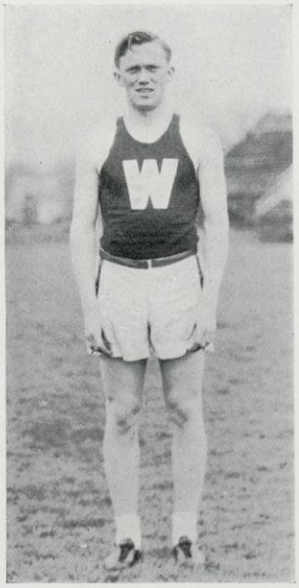
Capt. Henke Wins

The Wisconsin squad made a comeback in the triangular meet held here, taking the meet with 86 points to Iowa's 62 and Chicago's 17.

Before the Big Ten meet few experts conceded Wisconsin a chance for better than third place. When Captain Bill Henke was injured in the preliminaries, and Behr and Frisch showed poor form, few fans figured they had a chance for the title. Results showed, however, they had not known the true ability of the team. Wisconsin showing exceptional strength in field events, piled up a total of 46 points. Illinois finished second with 39⅝. In this meet Kabat won the discus, Shaw tied Hackle of Minnesota for first in the high jump, and Wright broke the conference record for the two mile run.

In the last dual meet of the season Wisconsin easily defeated Minnesota 82½ to 52½. Although somewhat tired after the record performance of the week before, the squad again displayed skill and balanced strength.

For the final meet of the season the team travelled to Chicago to compete in the National Collegiate meet. Representing more or less a congregation of individual stars, this meet calls together the best of the country's track material. In this meet Behr took second in the shot, Frisch took fourth in the hammer throw, and Kabat placed fourth in the discus. In the opening of the 1932 season the team again shows balanced strength although such individual stars as Behr and Frisch are gone. In the Drake relays Lovshin showed improvement and took first in the pole vault, and the shuttle relay team second.



WRIGHT

SAM BEHR

RODEN

The 1932 Sprint Relay Team
RICE, GLUCK, JONES, SWEENEY

Indoor Track

Minus some of their most outstanding performers from last year Coach Jones' team was forced to be satisfied with fifth place in the conference indoor championship track meet held in the new Chicago field house, March 12.

In the first meet of the season the Badgers were able to defeat the strong Marquette team 49½-36½ by winning the last three events.

In the annual quadrangular meet at Evanston, Wisconsin finished second to Ohio. Ohio secured 50 points, Wisconsin scoring 46, Chicago 21, and Northwestern 15. The brilliant performance by Simmons in the shotput and Crummey's victory in the two mile run were outstanding events in the meet.

By a victory in the mile relay the Badgers were able to defeat Minnesota in the dual meet held at Minneapolis. Although no records were broken, Wright's victory in the mile run, and Shaw's in the high jump added thrills to the meet.

Somewhat weakened by the absence or poor condition, due to illness of several stars, Coach Jones' men won ten points in the Conference championship meet and took fifth place. Murphy's victory in the high jump in which he narrowly beat out Shaw was the only individual first place which the Badgers received. The Badger mile relay team took first place in the second section of the run. Wright earned the remainder of the Wisconsin points by winning third place in the two mile run.

Crew--1931

With the impetus which the knowledge that the alumni and students are solidly behind him gives a coach, Mike Murphy developed in 1931 one of the most capable crews which Wisconsin has had since 1924. The decision of the athletic conference to finance sending the crew to the Poughkeepsie regatta was immediately followed by the announcement that a group of alumni headed by Walter L. Alexander, '97, would head a drive among alumni and students to purchase a new shell and to set up The Wisconsin Crew Fund which would be a permanent fund to purchase equipment for crew activities at Wisconsin.

Students on the Campus with but little in the way of preparation immediately raised $1,250 as the initial contribution to this fund. With this and alumni contributions the new shell was promptly purchased, and the

crew began to work harder than before in preparation for the eastern race. The result was that, although the crew had had no racing experience it turned in better time on Lake Mendota than any crew had made in recent years.

With Captain Oberdeck, Miller (coxswain), Woodward, Zabel, and Smedal back, Coach Murphy had a capable nucleus around which to build his crew. He drew Silbernagel and Tessendorf, from the freshman crew and Ihde and Dutton from the reserves to fill out the shell. Although the crew had not performed at home during the entire season interest was greater than had ever been shown in recent years. The students planned a giant send-off when the crew entrained to start to Poughkeepsie. Several hundred students marched to the station, pulling the crew in the historic "red wagon," and amid the cheers of the students Lieutenant Governor Henry Huber wished them success on the part of all the people of the state.

After a short period of practice on the Hudson, Coach Murphy declared the crew to be in better shape than

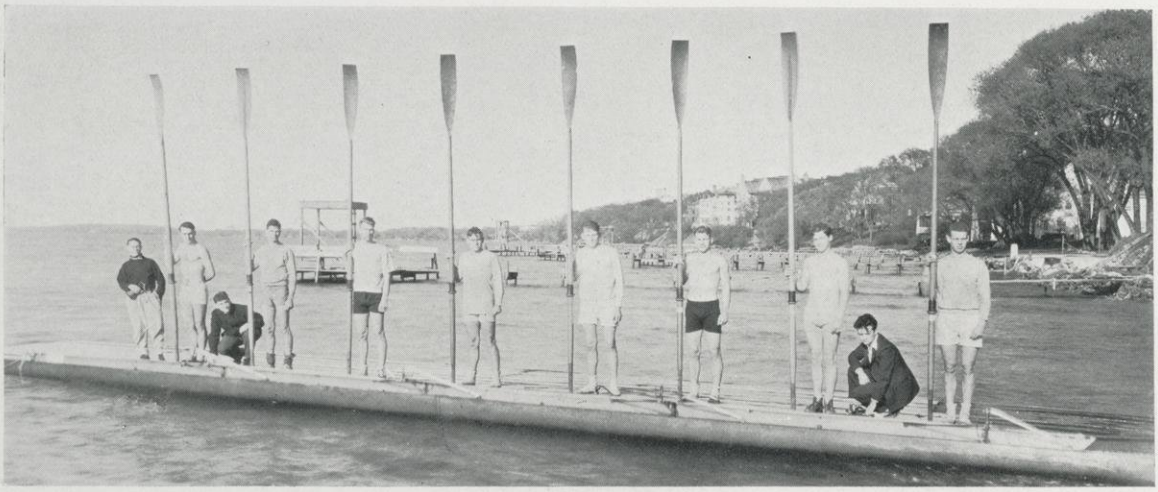
Stroke

ZABEL
No. 7

IHDE
No. 4



1931 Freshman Crew

any recent Wisconsin crew. Although it was conceded that Wisconsin would not probably win, experts believed it quite possible that Wisconsin might place third or fourth.

However, although the crew lived up to their reputation throughout the year as the best Badger crew since 1924, they were outclassed in this collection of the best crews which had ever been assembled for a Poughkeepsie race. Wisconsin really never got going, and it was apparent from the first that the race was between Navy, Cornell, and Washington. The Badgers, however, made excellent time and finally finished the four mile course, 19:36, in eighth place.

The position on the river could not be considered an excuse because the winners in the race occupied lanes farther out than Wisconsin, and the advantage, if any, should have gone to Columbia who finished just before the Badgers. Although Wisconsin was severely outclassed they made the course in time at least equal to any they had made during the entire season, and lived up to Coxswain Miller's promise that they would give the best that was in them.

Baseball--1931

With a team exceptionally strong in hitting strength but with only one veteran pitcher with conference experience, Wisconsin went through an exceptionally difficult schedule to win five conference games, lose four, and place fourth in the Western Conference standing. The Badgers also won mid season games from Hosei university, Japan, and from Notre Dame.

Coach Lowman started off the season with an exceptionally successful Southern trip during which the Badgers won five games and lost only two. After returning from this trip they opened the Big Ten Season against Chicago's powerful team, losing 5-4. The game with Illinois, the day following, was rained out, and the Badgers were forced to meet them in a double-header when the Illini nine came to Camp Randall. The Badgers were in better form during the following games and won from Hosei university 6-0, defeated Minnesota 8-4, Iowa 2-1, and Notre Dame 2-1. The most gratifying thing about the Notre Dame game was that not only did the Badgers play errorless ball, and hit the ball when it meant runs, but they completely outsmarted the Irish, catching Notre Dame baserunners napping on the sacks five times during the nine innings.

The Badgers probably played the best ball of the year against Northwestern. The Wildcats who had won eight straight games, seemed strong title contenders until this setback. The rejuvenated Wisconsin team led by Sommerfield who granted the Purple batsmen nine hits, but kept these scattered and succeeded in fanning nine men, secured 17 hits from the Northwestern pitcher. These included doubles by Poser and Sommerfield, a triple by Smilgoff, and a home run by Cuisinier.

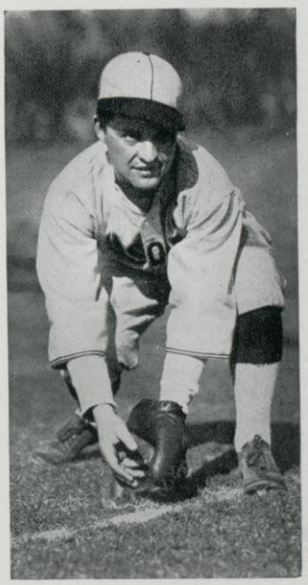
Second Row: W. Kaplin, H. Wolfe, G. Anderson, W. Miller, R. Falk, M. Rosenberg, K. Kundert, N. Deanovich, K. Nordstrom, J. Capicek
Bottom Row: C. Feuerstein, G. Koppe, D. Olson, M. Ross, P. Blumenth

The Badgers were rained out at Iowa City, which reduced their title chances to a mere mathematical possibility, and left them with only a ten-game conference schedule. The Wisconsin nine returned home from Iowa City to meet Illinois in a double-header at Camp Randall. Jake Sommerfield's steady hurling and wicked hitting by the Badgers accounted for the first game 8-3. Poser opened the second game for Wisconsin, and Lowman's men led until the fifth when Poser weakened and Illinois tied the score 5-5. Sommerfield was called in to relieve him, and held the Illini batsmen scoreless until the ninth, when Illinois cracked out four hits to net them three runs. In the last half of the ninth the Illinois pitcher held the Badgers from securing a hit.

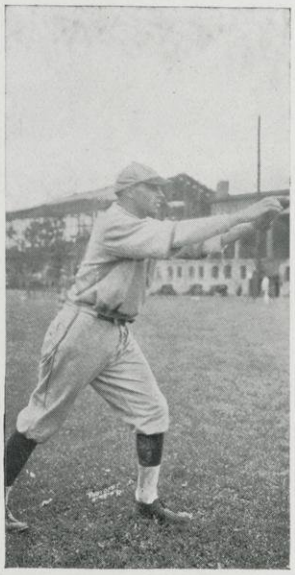
The Wisconsin nine was again rained out at Ann Arbor, the third time that this had happened during the season, and the schedule was still further reduced to nine conference games. The Badgers were considered easy favorites over the Minnesota team, which they met at Minneapolis following the Michigan trip, but Matteson, the Minnesota pitcher, pitched a no hit game, and received excellent support from his team, to win 3-0. Sommerfield again opened for Wisconsin, and struck out two men. Olson, who relieved him succeeded in striking out three, but the Badger batsmen were unable to hit the Gopher pitcher at any time during the game.

To close the season the Badgers again met the strong Chicago team who were at this time tied with Illinois for the conference championship. Illinois had finished their schedule, however, so the Wisconsin game decided the Maroon's chance for a championship team.

Coach Lowman



Plankey



SCHNEIDER

SMILGOFF

CUISINIER

Once more Sommerfield occupied the box for Wisconsin and pitched his usual stellar game to hold the Chicago nine to three scattered hits during the entire game. The Cardinal batters knocked out nine hits to score five runs and won the game 5-0. This game gave Illinois the undisputed championship and placed the Badgers in fourth place.

Wisconsin's baseball prospects look unusually bright this year since Lowman lost only Capt. Weiner and Ernie Lusby through graduation, and Bobby Poser through ineligibility.

Hockey

Lack of practice due to adverse weather conditions hindered a Badger hockey team that was destined for better things. Two wins, one tie, and five losses was the best they could accomplish during the season of 1931-32.

It was not an envious position that Art Thomsen, former swimming and hockey star, stepped into when he took the job as coach. Scarcity of funds coupled with the absence of playing ice was enough to faze any newcomer, but Coach Thomsen made the best of it, and will have seven Sophomore lettermen back next year with a group of freshmen that will be an asset to any hockey six.

This year there was only one veteran with experience around which a team could be built. He was Gordon Meiklejohn, captain of the squad, and all-American defense man. His vicious body checking and sterling defensive play was always outstanding. In addition he was a greater offensive threat than any defense man in the middle-west. A fast skater and possessing a hard shot, "Gordy" led his teammates in scoring. In the three conference games in which he participated, Capt. Meiklejohn was the outstanding player on the ice, even though the Badgers were at the short end each time.

One of the most serious set-backs which the squad experienced at the hands of the unseasonal weather, was the inability to prepare the goalies for their particular tasks. As a result, even though the team often outplayed its opponents, many goals were scored on long hard shots from the blue line. Ordinarily these would have been easy saves for the Badger goalies.

John Roethe, wingman, and Meiklejohn will be lost through graduation, but the remainder of the squad will remain intact. Greg Kabat, captain of the football team, who improved greatly during the season will be back on the forward line as will Roy Kubista, another Junior. Bruce Michaels, Vernon Stehr, Billy Southworth, Jim Lyke, Dick Fawkes, and Bob Halvorson are the sophomores who will return. Paul Blumenthal and Westley Silvian, goalies, will complete the squad.

Boxing

The Wisconsin annual boxing tournament proved this year to be the greatest single drawing card held in the Field House, and attracted a crowd of 6,500 to one of the most exciting matches in the history of boxing at Wisconsin. Two knockouts headlined the bouts, at which three former champions retained their crowns, and six others were added to the list.

In the chief fight of the evening Max Knecht defeated Rosenbaum, last years title holder in the heavyweight bout. Max showed ability to stand up under the heavy punching of the champion and his superior boxing skill won him the decision.

Deanovitch defeated Grindell in the most exciting fight on the bill, in the light heavyweight class. Both fighters were evenly matched and the fight continued with the decision in doubt until the bell rang on the final round. As a result of the tough fight which he put up Grindell was awarded the trophy which is annually given to the "fightenist fighter."

Dave Horwitz won a technical knockout in the 110-lb. class over Gerald Pool. Referee Steinauer stopped the fight after Pool had been down three times for nine counts.

Carl Gerold got the second knockout of the evening when his fight with John Phillipi was stopped in the second round.

In the flyweight contest Abe Rutel won a decision over Harold Burchet, and in the featherweight division Phil Canepa defeated John Fleury after a three round struggle.

Louis Dequine retained the championship in the welterweight division by defeating Bob Wolf in a three round fight. In the middleweight contest Ed Marsh won a decision over Harrison Langley and in the Junior welterweight division Bill Dorrans took a decision over Claude Towne.

Interest in boxing at Wisconsin is increasing annually and the number and ability of the men taking part improves with each year's tournament, and the amount of courage and fighting spirit shown exceeds that of most boxing exhibitions.

1932 Tennis Team
Top Row: P. King, D. Silverman, captain; J. Blackstone, manager; C. Sickinger, G. Meiklejohn
Bottom Row: P. Cary, W. Erler, W. Hawes, T. Kernjack

Tennis

The Wisconsin Tennis team of 1931 experienced a most unfortunate season. The Badgers started the year with hopes for a successful year because of the large number of regulars from the preceding season who formed the nucleus for the team. However, because of rain which forced them to play most of the matches on cement courts instead of the clay courts on which the team had practiced, they were unable to win a single conference match. The caliber of the competition in the conference was extremely high and proved too much for the four veterans, Captain Goodsitt, Siegel, Silverman, and Erler, who were assisted by Gordy Meiklejohn, Kernjack, King, and Sickinger.

The first match of the year was held with the faculty and after one tie match, a second was held with the faculty getting the decision 5-4. The netters then held another practice match, this time with Lawrence, and trounced the Big Four Champions severely 9-0.

The Big Ten season was opened with Illinois at Madison and the Badgers lost 7-2, Erler and King winning their singles matches. In their next match the Wisconsin team met Ohio, who eventually won the title, in Madison and were again defeated 7-2 in a match that was featured by the Badgers' inability to take the matches that went into three sets. Silverman took his singles and Meiklejohn and Kernjack their doubles match to secure the Wisconsin points.

Wisconsin lost its next match to Minnesota by one match 5-4, Siegel winning two matches, doubles and singles, King winning his singles match, and Meiklejohn and Kernjack their doubles. The next Saturday the team travelled to Northwestern and by dropping all five of the three set matches lost to the Wildcats 7-2. Erler took his singles, and Meiklejohn-Kernjack again won their doubles match.

On the Monday of the week before the conference championship meet the Badgers played Chicago, and after losing long drawn out individual matches, dropped the match 7-2. Erler again won his singles and a new combination of Erler-Silverman won their doubles.

The conference match was held at Columbus and Ohio took first place. The Goodsitt-Erler combination went to the quarter finals but lost to the Northwestern team. The 1931 team was coached by Loren Cockrell. For the 1932 season the Badgers, although they will be without a coach, expect a better season. Although the team lost Siegel and Goodsitt all the other regulars will be back in conference competition, and assisted by two promising freshmen from last year's squad, Cary and Howes, these men expect to place higher in the conference competition.

Gym

The Wisconsin Gymnastic team suffered the fate of many of the other minor sports by having no schedule because of limited finances. The team was organized, however, and took part in the Wisconsin Athletic Carnival, and gave gymnastic exhibitions at Wisconsin basketball games and at Baraboo. Captain Howard Darbo was the most outstanding performer during the year, and his work on the horizontal bar and rings was one of the features of these exhibitions. Other members of the squad were Henry Zingg, Chester Anderson, Sanford Atwood, and Alex Moore. Many of the chief contestants for places on the squad were forced to discontinue during the year because of ineligibility or withdrawal from school.

1931 Golf Team
A. Wilmot, A. Sundene, F. Murphy, Capt. R. Stewart, W. Stringfellow, J. Musser, J. Germann, M. Reierson, H. Page, W. Stock, Coach G. Levis

Golf

Wisconsin's 1931 golf team experienced a season of many close matches, some of which were not decided until the last hole with the Wisconsin man invariably losing the contest.

The team was composed mainly of Captain Stewart, Reierson, Page, and Stock, with Musser, Murphy, Germann, Stringfellow, McGuire and Sundene held in reserve.

The first match of the year was held April 24 at Madison with the Lawrence College aggregation, and the result was an overwhelming victory in favor of the Badger stick wielders 23½-½.

The first conference match was played here with Illinois on May 2, and the Suckers just came out ahead in an extremely closely contested match 10-8. Several of the individual matches were not decided until the closing holes, with an Indian always conquering.

The next match with Chicago at Chicago on May 8 found the Wisconsin golfers in excellent form and the Chicago team went down 11-7 before their onslaught despite the fact that they put up a stubborn resistance. This proved to be the only Wisconsin victory of the year.

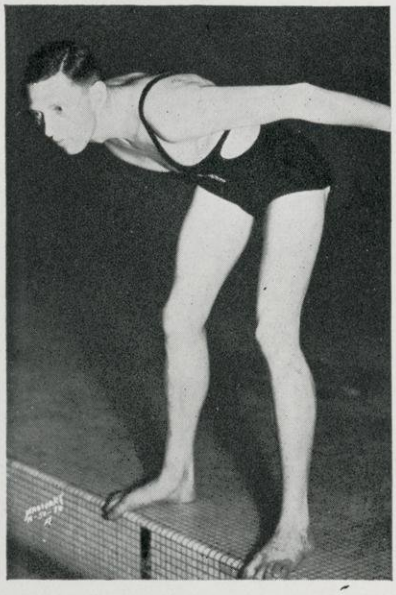
On May 15, Wisconsin and Minnesota engaged in a dogged match so typical of the two school's athletic relationships and when the smoke of the battle had cleared the result was a tie, 9-9

In the last match of the year with Northwestern at Evanston, the team played their poorest golf to lose 12½-5½.

The Big Ten conference meet was held during the closing weeks of May on the University of Michigan golf links at Ann Arbor, Michigan. Illinois with their beautifully balanced team of Alpert, Crowe, Martin and Lyon conquered the field, with Michigan a close second. Wisconsin placed fifth in the field of eight, and Henry Page turned in the lowest individual score of the Wisconsin team. Russell Martin of Illinois won the individual crown with a score of 311 for the 72 holes.

Fencing

Wisconsin's fencing team did not compete in Western Conference competition this season due to the lack of finances, but Coach Masley kept the sport alive and trained a team which demonstrated its skill in exhibitions at Wisconsin basketball games, at an exhibition at Stoughton, and at the Wisconsin Athletic Carnival. Among the members of the team which was never completely organized were Lawrence Kerstetter, Sven Magnusson, Latham Hall, and Santo Zaccone. With a large number of experienced fencers back, Coach Masley hopes next year to once more arrange a complete schedule for the team.



CONNELL

Swimming

Financial difficulties played havoc with Coach Joe Steinauer's swimming team, and forced them to withdraw from Conference competition and to cancel all meets except the one with Iowa. In this meet Wisconsin showed the weakness of a team from which most of the high point winners had graduated, and were easily defeated.

In the 220 yard breast stroke Nielson of Iowa took first place, while Gouber and Youngchild of Wisconsin took second and third. Connell of Wisconsin took second in the 150 yard backstroke, while Fogg of Wisconsin took third in the Fancy Diving contest. Traskell of Wisconsin placed third in the 220 yard swim. The prospects of next season seem more promising because of the large number of squad members who improved during the season and will return next year to form a nucleus around which to build the squad.

Wrestling

The Wisconsin wrestling team was greatly hindered this season by lack of finances, and by the fact that Coach Hitchcock started the season without any of the lettermen from the 1931 squad around which to build his team. Richard Ferguson was the only member of the squad who was not a sophomore, and he showed the result of his previous experience by winning victories in all the three matches in which he competed.

The Badgers lost by lopsided scores to both Iowa State Teachers' College team and the Cornell College eight in a preliminary training trip, and at home they were easily defeated by Minnesota and Northwestern. The team showed the result of a year's experience when they met the Chicago wrestling squad, but the veteran Chicago team finally defeated them by a small margin. In these meets Ferguson, and Marion Roudebush, a 126 pound sophomore, were the most consistent winners for the Badgers. George Stenbach, another sophomore, also scored victories for Wisconsin.

INTRAMURALS

Delta Sigma Pi—Badger Bowl Winners
Top Row: Wurtz, Burgeson, Michler, Hansen, Waite, Dorrington, Schuette, Holz, Bennett, King, Lundell
Second Row: Lueloff, Rahr, Torrey, Place, Wagner, Braun, Lewis, Shuck
Bottom Row: Loftus, Schaenzer, Lochmund, Neichs, Pauls

Intramural Sports

In keeping with the Wisconsin slogan of "Athletics for All," 2,559 different men competed in intramural sports during the year 1930-31. Of these 1,833 were in the Fraternity League, 438 in the Dormitory League, 75 in the Wisconsin League, 82 in the Y. M. C. A. League and 133 in the All-University League.

Delta Sigma Pi, without winning a single first place, but by gathering 887 points through second and third places, won the coveted 1930-31 Badger Bowl, in the Fraternity League. Delta Theta Sigma was second with 826 points and Phi Kappa was third with 820 points.

By sweeping the field with championships in touch football, cross country, basketball, hockey, diamond ball and outdoor track, Oschner House won the Dormitory Supremacy cup with 619 points. Spooner House was second with 360 points and Frankenburger was third with 330 points.

The year 1931-32 was one of the most successful in the history of Intramural athletics in the teaching of fundamental sports and in furnishing the needed facilities. The Independent League program advanced with the addition of a swimming meet, track meet and cross country run, with the University Y. M. C. A. serving as a nucleus about which organized unaffiliated men went into team sports.

A new system of grading teams was inaugurated under the direction of J. C. Steinauer, head of the Intramural department, to encourage groups to continue in the running of each sport until the season was ended. A definite number of points were given for entry, a definite number for winning one of the first two places in the division round robin and additional points were given those winning the first four places in the final standing. Major sports which include touch football, varsity football, bowling, basketball, indoor track, diamond ball, baseball and outdoor track called for a greater number of points than the so-called minor sports which are cross country, hockey, swimming, water polo, golf and tennis.

Alpha Gamma Rho—Cross Country Champions

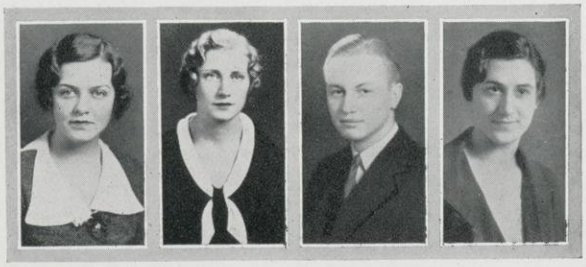
FRANK R. MONEY
Managing Editor

The Wisconsin Badger

THE problem of repeating as editor of the Badger offers boundless possibilities for the individual so favored to develop ideas suggested only after he has passed through one year in the office. It also involves the difficulty that the work may become a tedious repetition in many ways of those tasks of the previous year. The Editor of the Wisconsin Badger has attempted to avoid the latter and to use all of the ideas which his last year's experience suggested. And he finds himself at the close of his second year still dissatisfied and still anxious to develop more recent ideas.

The staff throughout the year has worked tirelessly under the direction of Frank Money, managing editor. It has been the good fortune of the editor to continue a second year with a staff composed of experienced workers who have made his work constantly easier and more pleasant.

The Badger this year contains a new section, the object of which is to correct an evil which for some time has caused criticism. In this new section which is a review of the year's activity, the Badger attempted to cover those important social and admin-



C. JOHNSON, B. DITFURTH, C. SCHLUETER, M. RICHARDSON

The Wisconsin Badger

istral changes which can not be portrayed by in the customary medium of pictures.

Financial limitations alone have made the year difficult for the business manager and also for the editor. However, through willing cooperation of all of those associated with the staff, we feel that the Wisconsin Badger can take its place with those books of former years without an apology.

Throughout the year the staff has been tirelessly aided by Herb Brockhausen of the Brock Engraving company who has carefully developed with the staff the plan and technical layout of the book. Joe Sexton, of the Cantwell Printing Company, has given his wide knowledge of printing to working out the special printing. William J. Meuer and Mrs. Kroyer, of the Photoart Studio, have developed an improved system of photographing the seniors and have cooperated in the rapid production of prints whenever needed. "Ras" Rasmussen, printing foreman of the Cantwell Printing Company, has worked overtime to prevent mistakes which are the danger of rapid production. To A. P. Nelson and William Rockwell, of the David J. Molloy Company, goes the credit for the creation of the cover.

The Daily Cardinal

Forty years ago, April 4, The Daily Cardinal was first issued under the guidance of W. W. Young and J. T. Saucerman, the first editor and business manager of the only college publication in the United States that operates without faculty censorhip, and is controlled entirely by the student body.

Celebrating the fortieth anniversary of this founding, The Daily Cardinal on April 17 issued a 56-page anniversary edition, in which was related the entire history of the university and all campus organizations. It has, throughout its four decades of active work on the university campus, maintained the policy of depicting the activities of all students, and has published many special editions of more than 24 pages that elaborately picture university events.

LITTLE ACORNS

Policy

EDITORIAL policy is the backbone of the newspaper. By watching it carefully, the student of the press can readily learn the worth of the particular newspaper in the community. No paper with a definite program in mind can afford to permit outside organizations, no matter how closely related to the newspaper, to wield any influence over the material to appear in the news columns. When such a state of affairs comes about, it is a bad day for the backbone of the paper. It ceases to be a medium for the dissemination of news, and becomes something akin to a parrot.

June 2, 1931

Attitudes

IT is practically impossible to plan to do things with a student newspaper and then actually accomplish them, but we are ready to say that despite any opinions to the contrary we have adhered to our original basic program. We have fought for student rights, the good name of the University of Wisconsin, and endeavored to avoid cheap sensationalism. Some may take the attitude that our attitude is the wrong one, but we refuse to sit on the fence.

June 6, 1931

Hallucinations

WHAT of the student opinion that The Daily Cardinal is too anti-student body? Our reply is that it is a dream, a mirage, an Ionic hallucination, or any other machination of imagination which you may prefer to our terminology. Like most people, students only keep in mind what they want to remember. They never check to determine how accurate their charges really are. They merely say what they believe.

Finale, Act One

Haresfoot--Season of 1932

The thirty-fourth annual production of the Haresfoot Club, "Lucky Breaks," was the second revue to be produced by the club, and contained 31 brilliant scenes which dazzled audiences everywhere.

The itinerary included Richland Center, LaCrosse, Eau Claire, Wausau, Minneapolis, Duluth, Manitowoc, Menasha, Oshkosh, Chicago, and a week-end in Milwaukee, a total of fifteen performances on the road, with six more in Madison.

Authors of the sketches and lyrics were William H. Purnell, director of the club, Holley J. Smith, '31, Irving Tressler, '30, Arnold Serwer, '33, Orrin Evans, '31, Sam Steinman, '32, and David Welton, '32. Welton also was the composer of all the original music in the show.

A company of eighty-three men took part in the production, one of the largest in recent years. The chorus was under the direction of Roy M. Hoyer, Broadway stage star, and the orchestra was conducted by James Donohue, former RKO vaudeville pianist.

Reviews throughout the tour indicated that "Lucky Breaks" surpassed any show that Haresfoot has ever produced, being a "beautifully costumed, well staged, and fast moving revue that kept audiences alert throughout the performance."

President Glenn Frank was enthusiastic over the production, stating that he had never seen "such a smart, up-to-the-minute, and thoroughly entertaining show" and indicating that Haresfoot had reached a peak which will be hard to surpass in the future.

So Haresfoot rests for another year, laying away its props, piling its crates and boxes in the gloomy warehouse, and putting the furry rabbit's foot, from which the club derives its name, back into the make-up box. A new list of names has been added to those already chalked above costume hooks in many dressing rooms, and the ghost of "Lucky Breaks" will haunt dusty theaters in the years to come.

Haresfoot is sleeping, dreaming of shows of the past, and planning for those to come, knowing that "All Our Girls Are Men, Yet Everyone's a Lady."

Instructional Staff

Emergencies fall upon a country that must be met immediately. To meet them requires the ready coordination of a large number of trained leaders. Just as our civil authorities look to our educational Institutions for their future executives, so must our country look to the colleges and universities as the natural source of trained officers.

It should be the moral obligation as a citizen of every incoming freshman to avail himself of the opportunities afforded college men for the study of Military Science and to prepare himself for future leadership. This University differs from similar institutions in that the study of Military Science is optional. However, the active interest displayed by the Instructional Staff combined with a rare sense of leadership has established a standard of efficiency and instilled a spirit of service in the Military department that continues to keep the Wisconsin Regiment of R. O. T. C. among the leaders in student military training.

MAJOR TOM FOX, *Commandant*

Major Tom Fox, Infantry, was graduated from the United States Military Academy at West Point in 1915; served in the Mexican Expedition and with the 5th (Regular) Division in the World War; graduated from the Infantry School, 1925; Distinguished graduate, Command and General Staff School, 1926; Major Fox has completed his term of service as Commandant and Professor of Military Science and Tactics at the University. Under his leadership the Corps has repeatedly been awarded the "Distinguished College" rating. His leaving will be keenly felt by the entire unit.

Cadet Major P. H. Werner, Cadet Major A. H. Dammen, Cadet Col. F. L. Maytag, Cadet Lieut. Col. G. A. MacEachern
Cadet Major E. J. Saridakis, Cadet Major R. W. Rummele, Cadet Major W. M. Kelley

Cadet Regimental Staff

Selected on the basis of proficiency and leadership, the Cadet Regimental Staff represents the best military talent in the Infantry and Signal Corps Battalions. This staff determines the activities and policies of the entire Cadet Corps. It is on their shoulders that the responsibility of the annual government inspection rests. The excellent morale of the entire Cadet Corps has been largely due to their influence and the example they have set.

The Cadet Staff

FREDERICK L. MAYTAG, Cadet Colonel
GEORGE A. MACEACHERN, Cadet Lieut. Col.

Drill Team

The Wisconsin Drill team is an honorary drill organization consisting of nineteen picked men who represent the university in all exhibitions and competitive drill meets. An excellent team last year took first place in the Wisconsin Reserve Officers spring roundup, competing against crack drill organizations from every military school in the Sixth Corps area. The excellent turnout and spirit displayed by the unit this year gives promise of equally excellent results.

Bottom Row: C. Bradley, J. Peot, W. Oestreich, A. Colpitts, Captain; L. Bohm, B. Hansen

Varsity Rifle Team

The Badger team has won every shoulder to shoulder match as well as annexing a number of hard fought victories and near victories in all National Intercollegiate matches fired to date. Led by Captain Arnold L. Colpitts, the squad has nobly demonstrated the prowess of Wisconsin's Sons on the range.

Pistol Team

Competing with practically all the leading Colleges and Universities in the United States who have pistol teams, this year's squad composed almost entirely of Sophomores and Juniors, have lost to date only one National Rifle Association match, and that by a very close margin.

With every man returning next year, there is every reason to hope for even better results. Lieutenant Meade, Coach, is to be congratulated on the excellent results that have been attained through his efforts.

The Pistol Team

Forensic Board

Date of Organization, 1916

Officers

Aaron L. Tietelbaum	*President*
Charles Watson	*Vice-President*
Lura Walker	*Secretary*
Marguerite Hoyer	*First Sem. Treasurer*
Charles Watson	*Second Sem. Treasurer*

The Forensic Board is composed of fourteen members, six of which are appointed by the literary societies, Castalia, Pythia, Hesperia, and Athena, and the two speech societies, Delta Sigma Rho and Phi Beta. The rest of the members are elected at large by the student body.

The Forensic Board co-operates with the speech department in sponsoring the intercollegiate debates, the Frankenburger contest, Northern Oratorical League contest, freshman speech events, the intramural discussions, and high school debating and declamatory contests.

Vilas Medal Wearers

Each year Mrs. Vilas presents seven medals in memory of her husband, the late William F. Vilas. These are awarded to seven men or women who have distinguished themselves in speaking. It is the highest award giving recognition to excellence in speech at the University of Wisconsin.

Aaron Levine
Jacob Muchin

Ruth K. Batterman
Alice H. Peterson
Elizabeth Kyle

T. Parry Jones
1932 Frankenburger Prize Winner

Winner of Frankenburger Oratorical Prize

Date of Inscription, 1927

David B. Frankenburger was professor of rhetoric and oratory at the University of Wisconsin from 1878 to 1906, and it is in memory of him that this prize has been named.

Each year the winner of the university oratorical contest receives one hundred dollars, contributed by an alumnus. The winner then represents the University in the contest held by the Northern Oratorical League, composed of the following colleges: Iowa, Michigan, Minnesota, Northwestern, Western Reserve, and Wisconsin.

The Orator who received first place this year was T. Parry Jones, whose oration was entitled, "These Godless Institutions."

Freshman Speech Activities

This year the program of freshman speech events included extemporaneous speaking, reading, debating, and oratory. The winner of the Reading Contest was Lorraine Brown, and of the Extemporaneous Speaking Contest, Charles Merten.

The debate team met that of the Milwaukee Extension Division, on March 14. The question was: Resolved, That the several states should exact legislation providing for compulsory unemployment insurance. The Wisconsin affirmative won here, but the negative lost at Milwaukee.

The team was composed of as follows: affirmative, Dorothy Grey, Edward Manthei, Myron Krueger; negative, Charles Merten, Edwin Wilkie, and Robert Beyer.

Question: Resolved, That Great Britain should immediately grant independence to India.

Affirmative of Wisconsin vs. Iowa at Wisconsin
Negative of Wisconsin vs. Affirmative of Minnesota at Minnesota
Decisions to: Wisconsin affirmative
Wisconsin negative

Intramural Public Discussion

The movement for intramural public discussion contests is a new one, arising from a steadily increasing interest in forensics. Teams, composed of three members each, represent sororities, fraternities, various campus groups, or unaffiliated students who are interested. The topic for discussion is chosen by the speech department, and the members of the teams speak on any angle of the question which they desire. This is the third year during which this event has taken place, and the question for discussion was: "Who Should Bear the Cost of Higher Education?"

Winners in Women's Division

Alpha Gamma Delta . . . . . Beth Wines
Ruth Steinmetz
Lucile Benz

Winners in Men's Groups

Phi Kappa . . . . . Clyde Paust

Castalia Literary Society

Purpose: To foster interest and participation in music, art, and literature.
Motto: Fideliter, Fortiter, Feliciter.

The purpose of the Castalia Literary Society is to further interest in every branch of the fine arts: music, art, dancing, reading, writing, and debating. The members of the society are selected through tryouts which are open to all university women except first semester freshmen.

The program of the society this year included four joint meetings with the other Literary Societies.

Officers

Semester

Marianne Smith	*President*
Alice Reinhardt	*Vice-President*
Louise Langemo	*Secretary*
Frances Stiles	*Treasurer*
Janet Smith	*Publicity Chairman*
Margaret Gleason	*Intersociety Representative*
Helen Davies	*Forensic Board Representative*

Members in Faculty

Miss H. C. White — Miss R. C. Wallerstein

Pythia Literary Society

Purpose: Self-expression in capacities for which we are best fitted.

Pythia Literary Society was established to foster creative ability in the fields of music, art, literature, and speech. Members are chosen on the basis of tryouts, all women of the University being eligible except first semester freshmen.

The four literary organizations have formed an Intersociety Council, composed of one representative, and the President of each organization. This council sponsored two joint meetings each semester with the other societies.

Officers

First Semester

Evelyn Nuernberg	*President*
Helen Loomis	*Vice-President*
Rebecca Becker	*Secretary*
Alice Dieterle	*Treasurer*
Helen Loomis	*Social Chairman*

Arden Club

Officers

Vickery Hubbard	*President*
John Biesanz	*Vice-President*
Ruth Shafer	*Treasurer*
Sally Tenniston	*Secretary*
Virginia Robertson	*House President*

PURPOSE

It is the purpose of the Arden Club to provide a center for campus literary people and to effect "a general atmosphere conducive to interest and creative work in the field of literature."

To this end the reading and living rooms of the house are always available to members and their friends. The Friday afternoon teas are open to all and draw a varied and cosmopolitan group of people. Also open are the Sunday evening fireside talks when various faculty members speak informally on a wide range of subjects, from travel experiences to present economic problems.

The poetry group sponsored by the club meets every alternate week to read and criticize original work in prose as well as poetry. This smaller unit has recently become affiliated with the national organization of College Poetry.

The Arden Club is built neither upon fraternity nor upon professional lines, but aims rather to bring together in an informal way people who find a point of contact in literature and its accompanying interests.

Le Cercle Francais

Officers

ROBERT M. WITT . . . . . *President*
BEN CARRUTHERS . . . . . *Vice-President*
(*President, Second Semester*)
LUCILE STUMPF . . . . . *Secretary-Treasurer*
CATHERINE STAUDT . . . . . *Faculty Advisor*

The purpose of "Le Cercle Francais" is to afford all those interested in French, contact with the French people and their language and thus to bring about an understanding of French culture. Meetings are held the first and third Tuesdays of each month in the French house parlors. At some of the meetings lectures are given; at others short plays are presented. French songs are sung by the group and often games are played.

Women's Commerce Club

Membership in the Women's Commerce Club is elective and requires a student to be enrolled at the university at least one semester before being elegible. Such members must intend to pursue the Commerce Course.

Purpose: To encourage women to enter the Commerce School and to bring them in closer touch with each other and with the activities of the business world.

Dairy Cattle Judging Team

Top Row: M. Seavseth, R. Holsten
Bottom Row: W. Renk, I. Rupel (coach), J. Moy

Saddle and Sirloin

The expenses of the Fat Stock and Dairy Cattle Judging teams are paid by the Saddle and Sirloin Club. The Saddle and Sirloin Club was founded in 1920, and is for students interested in Animal Husbandry. Each year the Club sponsors the Little International and Horse Show, which defrays the team's expense.

Y. M. C. A.

Purpose: The underlying purpose of the Young Men's Christian Association is to discover and make available resources for character development and worth while living. This is done by offering students opportunities for interchanging workable ideas and enriching experiences with fellow students, teachers, business men, religious leaders, and others.

Franklin T. Matthias

Kenneth Sterling Day Award

"SO long that earth shall bear such names as these, so long shall hope remain." This is the inscription on the base of the Kenneth Sterling Day Memorial which is the bronze figure of a young man holding up the globe. It was donated to the University in 1923 by Mr. and Mrs. S. P. Day, of Cleveland, Ohio, in honor of their son. It bears the successive names of the senior men chosen each year as the best specimen of manhood in the University. Christian character, religious participation, scholastic ability, and physical fitness are the basis of the award.

The following men have received this honor in the past: Gamber F. Tegtmeyer, 1924; John L. Bergstresser, 1925; George D. Hanna, 1926; Lowell E. Frautschi, 1927; Louis Behr, 1928; Theodore Thelander, 1929; and Donald Meiklejohn, 1930.

In 1931 Franklin T. Matthias was given the Kenneth Sterling Day Award. His active participation in a varied number of activities shows his fitness for the award. He ranked high in his scholastic work, was elected to honorary academic and engineering fraternities, was editor of the Wisconsin Engineer, President of the University Y. M. C. A., a committee chairman in R. O. T. C., in Union activities, and participated in intramural sports.

The committee of faculty members appointed by President Frank to make the award in 1931 included: G. S. Bryan, chairman; R. R. Aurner, H. C. Bradley, C. R. Fish, J. G. Fowlkes, and G. E. Little.

SATIRE

MIGHTY OAKS *from Little Acorns Grow*

How the university corrupts the morals and ruins the reputations of the young innocents intrusted to its care is graphically illustrated by this sad, sad case of a prominent young journalist of campus fame.

To the left, above, we see him pondering over the injustices of a world in which a basketball man, ineligible after the first semester, still is awarded with a "W" while ineligible Cardinal workers can not even have their names in the masthead.

In the center picture, he succumbs to the evils of the university, seeking to replace the old values, driven out by the teachings of Russian paid professors, with the demon rum.

Finally, convicted by the Chapples and the Schofields, of intellectual liberalism, he languishes behind the bars. How the mighty are fallen!

DEDICATION

To John Chapple, staunch defender of the faith and fearless champion of the status quo this section is dedicated. The pictorial lesson of this page is mute testimony to the truth with which he speaks.

The Badger Aldum

Alexander Shannon Cannon of Union fame is seen brooding over the intricacies of the Sigman report.

Bethana Bucklin, W. S. G. A. president, welcomes the freshmen at the kindergarten school with a dissertation on campus morals.

One of the few pictures in existence in which Queen Louise Dvorak is not wearing somebody's fraternity pin.

Douglas Weaver, immaculate in the cap and gown which he and his classmates receive for two bits less than did those of last year.

Among Our Souvenirs

Walker B. Johnson smilingly tells Samuel Steinman that it takes more than one to choose an editor.

"I popped the question in front of Bascom," says Edwin Kinsley, the boy who resigned from the Senate to run the State Fair.

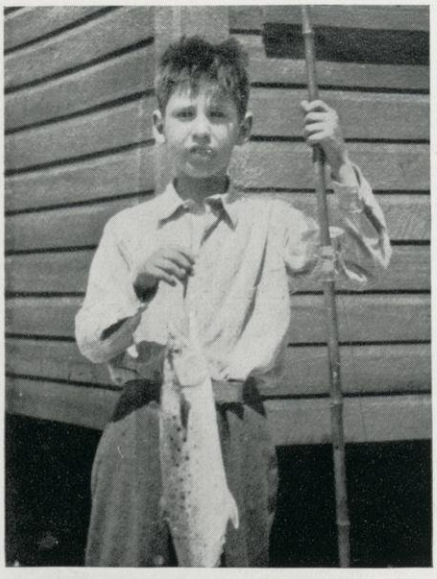
Miss Margaret Pennington coyly weaves the laurel wreath for the noble brow of Wisconsin's football captain.

Ensconced on the mortgaged Kappa divan, Jane "Hatcha" Pierce describes Wisconsin's love life to a Milwaukee Journal photographer.

Kodak As You Grow

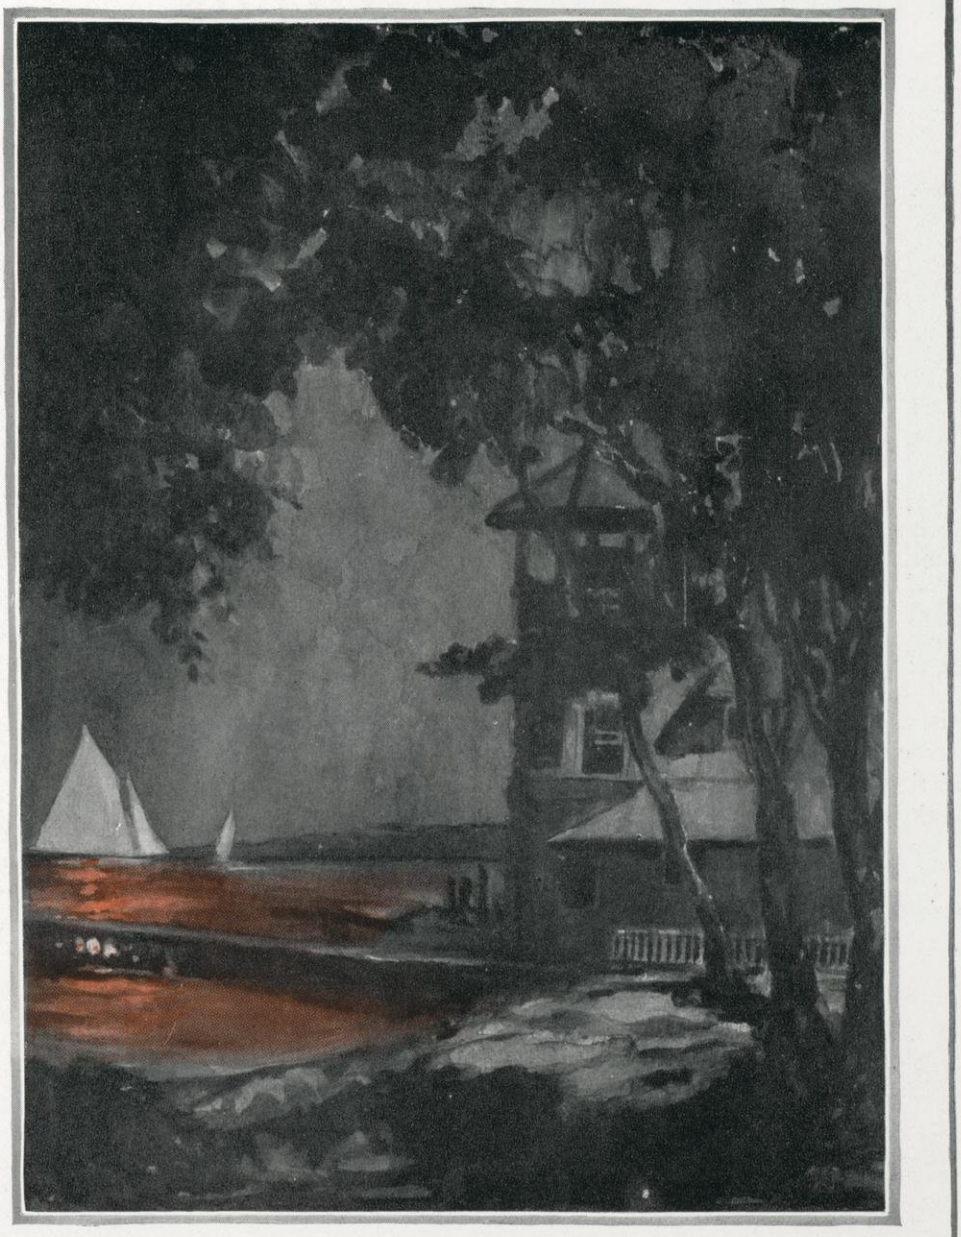
Albert Martin warns the residents of his dormitory section to stay in nights and study if they want to make Phi Beta Kappa and win scholarships to Germany.

Robert Bassett composing one of those unwritten editorials which won him a place on the Daily Cardinal staff—which was unduly mentioned in his senior summary.



Master Holley J. Smith takes a moment off from classes to pose behind this Lake Mendota carp.

Miss Ruth Biehusen waves a fond farewell to "Daddy" Bleyer, the only male member of Theta Sigma Phi, at the close of the Matrix banquet.



PAPER *is the printer's canvas* . . . when he seeks to produce an oustanding piece of art printing. The choice of the paper is so fundamental to the success of the finished job, that printers everywhere have turned to Warren's Papers as the standard on which they can always depend.

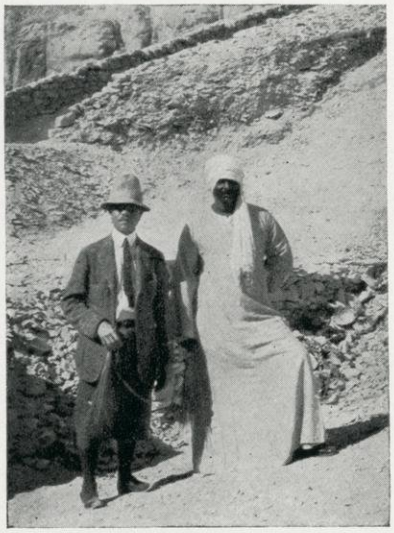
The 1932 Badger is printed on Warren's New Cumberland Gloss— an improved printing paper of high quality at a reasonable price.

W. F. NACKIE PAPER COMPANY

OF MILWAUKEE

Faculty Photographs

MAX CARL OTTO is here seen contemplating the havoc which his nefarious atheistic teachings have wrought in the gullible minds of poor and unsuspecting students. The sweater is the latest Russian fad and is a gift of Stalin.



WILLARD GROSVENOR BLEYER is hot on the trail of the guy who swiped the Bed Springs (Ark.) Bugle from the newspaper files in South Hall. The native at the right is Yuba, whom Prof. Bleyer is employing to add local color while crossing the Sahara desert. Upon his return, the professor will publish two new textbooks, "Gnus that I Knew," and "Reporting a Blessed Event."

JOSEPH CHRISTIAN STEINAUER is issuing instructions to his varsity swimmers submerged two feet below the surface of the gym tank. Wires carry the coach's voice to the mermen who receive their directions by means of earphones. "What's the matter, are you saving yourself for prom?" Prof. Steinauer is saying.

GEORGE CLARKE SELLERY snapped at the conclusion of his lecture on the inestimable value of the Experimental College as an educational institution. "What we need is less hard work and more creative effort," he has just been telling the Delta Gamma sewing circle.

CARL RUSSELL FISH has just arisen from a warm bed to run down a rumor that Abraham Lincoln was an old rounder and told smutty stories to the White House charwoman. Notice the quaint costume, presented in token of appreciation by his class in Representative Americans.

The Cantwell Mark is an adaptation from the famous Dolphin and Anchor of Aldus, first used in 1499—the Dolphin symbolizing alertness and agility, and the Anchor stability and security

The printer's Mark is the treasured heritage which modern printers trace back through four and one-half centuries; it is the traditional forerunner of the modern trade-mark which leading companies guard so jealously today. In the fifteenth century printers proudly placed their Mark, or device, on every piece of their handiwork. And it is with real pride that we point to this thirteenth Badger,

"A Burlesque to End Burlesques"

WRONG NO. | Michaelmas Day, Last Year | CHEAP

Sex Decried at Campus Meeting

Prof. Lionhearted Defies Taboos in Speech to Junior Women

"Sex should be exiled from the campus of the University of Wisconsin. It should follow the other mildewed traditions that have made their exit in recent years and have given us more time to read our funny papers." declared William Ellery Lionhearted at a meeting of the junior women at Mark's last night.

"A nuisance that we should no longer tolerate, sex has crept insidiously into the minds of the young, into our bed chambers, and into the Bachelor Apartments," he continued. This dastardly evil is responsible for a score of students going back to the farm last semester. It is responsible for the notoriety of the rocking chair. It is responsible for prohibition and the business depression.

"Sex is making us cliquish and clandestine. Sex makes parents invent stories about storks. Is this the spirit of liberalism? Hell no!" he emphasized.

"Let us see how life would be without sex. Father Bungle would be at a loss for sermon topics. The W. C. T. U. would begin teaching Sanskrit to the Indians. Sorority houses could hold open house all night. Wouldn't that be fun?

"In place of sex we could have bean-bag tournaments and square pretzels. Mixed groups could play hop-scotch without blushing. Girls could dunk doughnuts in the Rathskeller. And instead of dates, one could absorb a few chapters of Gibbon's Decline and Fall of the Roman Empire," he concluded.

Adams Reds Get Haircuts

Singing the Internationale in high C and wearing red spats, fourscore and seven residents of Adams hall paraded around Madison streets yesterday to protest against the size of noodles in the refectory soup.

"We want shorter hours and longer noodles," stated Herman Zinsky, R. F. D. 4, who led the young band of Communists in their free demonstration.

Mistaking a barber shop for a speakeasy, the Experimental college boys got their hair cut instead of their liquor. Whey they left the tonsorial parlors, they were observed to be capitalists of the common garden variety and so were unmolested by police.

Thetas Sacrifice Saturday Beers

Members of Kappa Alpha Theta sorority will omit their usual Saturday night beers and donate the money saved to the loan fund, it was decided at an informal chapter meeting held at Emmett's last night.

"It's a great idea," stated Lizzie Gruntz, '38 or bust, when interviewed very exclusively by The Snaily Cardinal. "And besides, just think of the publicity it will bring us."

Oscar Oats, Theta Janitor, said "I get sick and tired, dammit, of picking bottles out of wastepaper baskets. The new resolution will give me a chance to visit my grandmother Sundays."

To Probe Dance Revels at Union

Laxity of Student Morals at Military Ball Draws Criticism

Charges of rowdyism and indecency were hurled at Military Ball officials today as university and city authorities probed into sub-rosa activities which allegedly took place in the Memorial Union, April 15.

Investigation began when a university regent told dean of men Scott H. Goodbye that on the night of the ball he had gone up to the third floor "to get a drink of water" and saw things that "thoroughly disgusted" him.

"One couple was sitting outside the Snaily Cardinal office smoking cigarets and talking about birth control," the regent reported. "In the editorial rooms I found a youth with his arm around a young lady's waist and she made no effort to resist escort. I left this den of iniquity to discover the elevator stalled between the second and third floors. It's frightful the way these students carry on."

The Scrambler, Cardinal columnist, made graver accusations. "There were five bottles lined up in the third-floor corridor the next morning. The milk-man probably forgot to collect them."

Dean Bans Drinking

"There will be no drinking by the student body, stated Dean Goodbye when queried by The Snaily Cardinal. "If anyone did violate a moral law, that person will be apprehended and dealt with summarily."

"Students are quite capable of taking care of themselves," William Ellery Lionhearted said in reply to the dean. "If they want to hold hands, let them."

Blames Familiarity

When informed of the alleged laxness in student morals, Father Bungle wrote a 10,000-word statement, which reads in part as follows:

"Young people of today are giving way to insidious temptations because professors condone familiarity between the sexes. If those who profess to instruct our young would teach the truths of Christianity instead of the false doctrines of atheism and free love, incidents such as this would never occur."

Work of Moscow

John B. Grapple, Cashland editor, also holds a pessimistic outlook. "The tentacles of Communism are closing about these students," he said, "nurtured by a faculty that is in direct communication with Moscow. This is but another example of it."

WE NOMINATE

BILL DAWSON, editor: Because, himself a former student, he has chosen to malign the university for mere political reasons in his malignant UNCENSORED NEWS; because he has played up the cheapest minor incidents to vulgar proportions; and finally because in a time when the party he has chosen to represent so needs a vigorous publicity organ, he has, in his blatant way, produced a journalistic oblution pandering to the lowest mob sentiment.

HOLLEY J. SMITH, student editor: Because under his editorship OCTY has become the prime example of the closed corporation; because his editorial axiom has been that the scissors is mightier than the sword; because he raised a mustache, funnier than his magazine, only to shave it off to become a HARESFOOT lady; because he has consistently refused to let his scholastic requirements interfere with his various activities, and because among these pursuits there are several one does not mention in his senior summary.

JOHN DERN, Law I: Because he is still dazzled by the dim twilight of his undergraduate glory; because he insists upon using the Union lobby as a rostrum from which to demonstrate his vaudeville wit and humor; because he is an organizer of one of the most half baked political clubs which has ever graced the campus; and finally because he has won for himself the reputation of being among the poorest winners and the hardest loosers who has ever shuffled a deck of cards.

DAVID SIGMAN, legislator: Because for personal and political reasons he has become the self-appointed house detective of the Memorial Union; because as an investigator he has shown a density and unawareness of the facts unbecoming in a college graduate; because his minority report is a monument of prejudice and bias; and finally because for a year and a half he has lacked the sagacity to discover where the members of the union board really were on the night of February 19.

FOR OBLIVION

BILL EVJUE, editor: Because he is a power behind Wisconsin politics and the political administration of the university; because he has so strenuously upheld the Regents' "stringless" gift policy which refuses such funds as those of the Brittingham foundation with limitations which were made only at the discretion of a dean of the university himself but accepts as "stringless" those of Mr. Rawleigh; and lastly, because he is the editor of the CAPITAL TIMES.

ROBERT VAN HAGAN, editor of THE WISCONSIN ENGINEER: Because he has ignorantly and stubbornly attacked the policies of THE WISCONSIN BADGER; because he has sought to strengthen his story by the publication of false and unwarranted charges; because he has used his position as editor without any regard to fair play or journalistic ethics; and finally because he hits in the dark and then seeks immunity in a fog of side issues, evasions and veiled threats.

PROF. J. A. F. (SUNNY) PYRE, ex-chairman of the athletic council: Because he still thinks of football in terms of the flying wedge of the celluloid collar era; because his vacillating answers during legislative investigation of athletics discredited in the public eye the whole faculty attempt to place college sports in their proper relationship to the rest of the college curriculum; and, finally, because his attempts at humor have made his courses the most cut of any on the Hill.

CHARLES (BUCKETS) GOLDDENBURG: Because his vagaries have won him the title of "Wisconsin's bad boy of football," because it seems manifest that he personifies that small group which attends the university for the sole purpose of playing football; and because by permitting a Milwaukee store to capitalize upon his athletic notoriety, he has violated the spirit, if not the letter, of the amateur code.

CHICAGO

Ye Badger Bard Sings of Ye Conquest of Ye First Semester, Anno Domini, 1931

Hearken, all ye men and maidens,
To the deeds that have been done
By that worthy clan of Badgers
Since ye fall of '31.

Near eight thousand is ye total
Registered for winter session,
Somewhat less than last semester
On account of ye depression.

Mrs. Troxell is successor
To ye dean, Louise F. Nardin,
Who declines ye job of teaching,
Which she wants to take no part in.

Sigma Chis go on probation
Just as Kinsley runs for king;
Esther Beach is made headquarters
For ye campaign gathering.

Parking in ye Latin quarter
Rates a fine, ye chief proclaims;
In return for coppers' tags,
Playboys put a pier in flames.

Chapple sees as Communistic,
Twenty profs and Prexy Frank;
Students part with precious money
To give crew a rowing tank.

Due to ranking only sixth in
Big Ten football competition,
Folks demand another coach to
Take Glenn Thistlethwaite's position.

George E. Little leaves directing
To a youth named Uteritz;
For ye shoe that Thisty's leaving
They can't find ye foot that fits.

Gallistel, a self-made justice,
Gathers fines from violators
Of his self-made traffic statutes,
Disregarding agitators.

Three debate on fav'rite "isms,"
Thomas, Lescohier, and Nearing;
Pros and cons get wide discussion
On the worth of student beering.

Miss Dvorak promenades
To ye tunes of Isham Jones
While ye dancers disappear
Past the gaze of chaperons.

This is not all what has happened,
To the contrary, in fact,
'Tis much worse than doting parents
Think their children ever act.

THE WISCONSIN BADGER

MEMORIAL UNION BUILDING

Madison, Wisconsin

Brock Engraving Company
113 S. Carroll Street
Madison, Wisconsin

Dear Brock:

This is the second year that we have had the pleasure of working with you in the production of the Badger, and the year has only gone to confirm our opinion of the indispensable value of your personal interest and technical advice.

Our contract with you calls for only the routine production of engravings and for the physical planning of the book. This you have done admirably; but in addition to this you have freely given your time and your thought to the perfection of that multitude of details which constantly confront the staff of a year book.

This year we have been confronted by the problem of producing a Badger equal in quality to its predecessors on a reduced budget. Whatever success we may have had is due in great part to your efforts, and to that knowledge of annual work which you have gathered in your position as engraver for the last eight Badgers.

May we then add our sincere thanks and appreciation to those of the former editors and business managers who have had the pleasure of working with you?

Sincerely,

Jack Thompson

Mr. William J. Meuer
The Photoart House
413 State Street
Madison, Wisconsin

Dear Bill:

Your willingness to co-operate in the development of an efficient photographic service has saved time and trouble for the one thousand and more members of the Class of 1932 whose pictures are represented in the senior section of the Badger, and for the Badger staff as well. This year in particular, when our budget called for a minimum of expense, a careful and accurate handling of the thousands of pictures which appear in the book was absolutely essential. This you have done at all times, and it must be a particular gratification to you, as it has been to us, to realize that the work has progressed so smoothly throughout your first year as the official photographer for the Badger.

To you, and to Mrs. Kroyer, who has so admirably overseen the execution of this program, we should like to extend our sincere thanks and appreciation for the part you have played in the production of the Wisconsin Badger.

Most sincerely yours,

Jack Thompson

A NEVER-ENDING STRUGGLE

"Methinks, my miniature messierus, many men must mentally meliorate. My missive mandates moral meditation, methodical mastication, microspic measurement, modest missions, miscellaneous material. Move! Mirror! Measure! Memorize! Mix! Modify! Motivate! Modernize!"

Thus spake the good King Frenn to new men in the battle who gathered on the Hill to struggle for the right. Quoth a Greenman "Whom do we fight and what may be our implements of war?" "You fight ignorance and use your head," quoth the man who professed to know. Whereupon the youth was anxious for battle and saith "When do we start?" for he was desirous of fighting Ignorance and was strong although he had just returned from Orientation Weak. "Immediately after we have seen your Fees, Phis, Foes, and Froms," returned his professor. And that took time—and money.

When that was over the Greenmen turned to their struggle hoping to accomplish much the first day of battle, but rather undoing much of what they had learned in training camps. But they no sooner turned to work than the officers brought their attention to the fact that they should not wear red, must not speak of prunes, nor wear pajamas. When this in turn had passed, English Dora, the philosopher's wife, told of kids and families.

Rising ambitiously the second day the warriors said, "We know the field of battle now. We shall conquer all today," and they plunged in recklessly, overthrowing all plans of predecessors and officers for their own. We shall be the ones to create a new plan and win this struggle against Ignorance for all time," they shouted. But the officer said, "Say not so, for you want too much to struggle. You must revel. Come let us have a Homing day for all who've flown. They shall return and see your progress on the field." But low, when the returning warriors of other years came they paid no heed of battles but stood away and viewed what they thought the struggle to be and consumed great tubs of liquors and chewed fat. Whereupon the young warriors became Sinnical. "Goodnight, this will never do," said the officer of the guardhouse and mounting his rocking horse stood guard. "Not that" cried a poetic soul and sitting down on his reputation wrote:

"I am liberal, liberal, liberal
I am liberal, liberal, liberal
Now that is perfect verse,
All conservatism curse."

But finding himself more than two blocks from his field he scampered home. "But we must conquer" cried the youths and putting themselves to the task would have won that battle that very day.

Not arriving back at the scene of battle until it was too late for action they were told to stand on guard for three hours' session as punishment for their neglect. But it was hardly that, for they swam in the lake of luxury with so little to hamper them that people thought it scandalous.

The third day, however, found them skeptical and ill at ease, for they knew not which way to turn.

But no sooner had they set themselves into the struggle than the cry "A probe" was raised by the bigwigs at the roundhouse. And parties of the first and second part on Middleton Road were investigated.

The dawn of the fourth day brought clearer visions of their foe. Employing theses as maps to show the way they brought in Norman and Scott to study with Don deEcon the plans for future civilizations. Meanwhile the gentlemen in the roundhouse and the old warriors decided that a new carriage was needed to take the warriors to victory, saying "A Thistle has its good points, and too, Little is known, but new Spears are needed to spear them into action."

Finding now that the best thing to do was to carry on their campaign alone the warriors kept with their struggle and let the men behind the trenches govern themselves. Whereupon late in the day a warrior came to the professed one and said, "We see personification of our foes."

"Where?" shouted the officers.

"In your chapple" quoth they.

"Here" quoth the officers, "Take along this rag which Tribunes call red and we call Cardinal and attack yon edifice."

This they did and found it to be merely an abandoned political stronghold. And Chief Frenn convoked the warriors to talk on morals.

"Verily," quoth King Frenn, "I've a yenn for another speech. "Tomorrow I shall give a new message and to the new men I shall say, 'Only observation offers openings on our objective . . . '"

YOU CAN SAVE ON THE COST OF YOUR FURNITURE HERE

THE management of THE WISCONSIN BADGER should like to take this opportunity of expressing their thanks to the IMPERIAL FURNITURE COMPANY for their cooperation in furnishing a prize to the winning sorority in the Badger sales contest for the past two years.

BECAUSE our location outside the area of high rentals enables us to make substantial reductions in our overhead expenses—a saving which is transmitted directly to the purchaser, whatever the amount of his order.

We are proud of the furniture which we have placed in Wisconsin sorority houses, and cordially invite you to visit our display rooms and see a selection of pieces which are especially adapted for club use. Both in price and quality, our furniture is especially attractive to the Wisconsin sorority and fraternity.
