INTRODUCTION

Alphabetization

Lao place names are filed letter by letter with no value given to a space between words. Thus Ban Tha Pho is filed in the same place as Ban Tha Pho is filed in the same place as Ban Thapho and both towns before Ban Then. Filing this way is quite logical since in written Lao there are no spaces between words. The Spaces in the romanization merely aids the foreign speaker.

Pronunciation

For the most part, Lao place names use a French system of romanization. In this system, an "h" which follows a "k", "t", or "p" merely indicates that the consonant should be aspirated. Thus "kh" is pronounced /k/, "th" is simply /t/, and "ph" is /p/. The reverse is true also; if there is no "h" the consonant is unaspirated (pronounced without a burst of air). Thus "k", "t", and "p" should be pronounced quietly. The letter "x" is pronounced simply as "s".

Vocabulary - common Lao geographical terms.

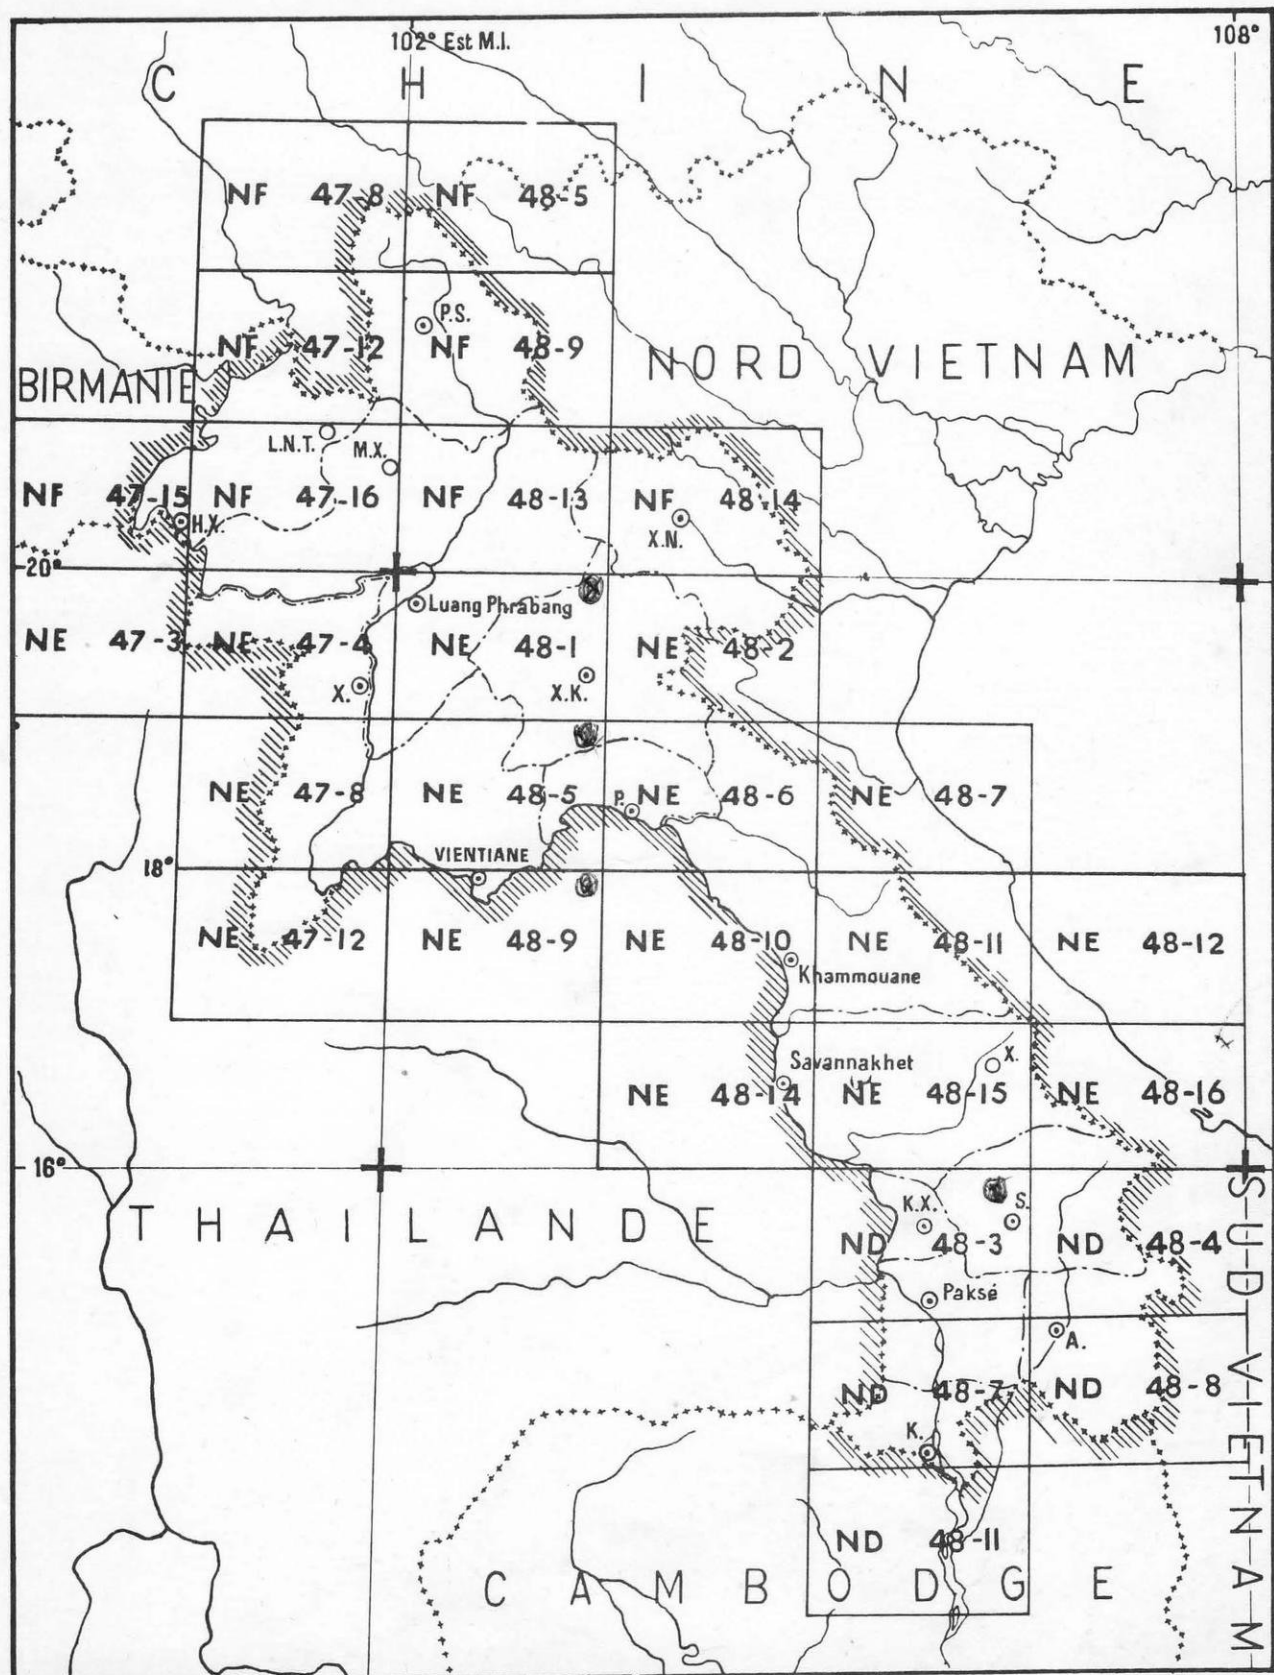

AO - Bay, cove, estuary	Muong - village: district (2)
Ban - village (5)	Nam - river
Bung - canal, lake, marsh	Nong - lake, marsh, pond
Ban - sub-district (3)	Phou - hill, mountain
Don - island	Song - stream
Khoueng - province (1)	Tasseng - village group (canton) (4)
Laem - cape, peninsula, point	Tong - plain
Lôi - hill, mountain, peak
