# The LAUTER BACK BOLT

holds the back, wrest-plank and plate as one solid piece and prevents the pulling apart of wrest-plank and back. This is an exclusive patented feature in our pianos and has been of much comment in the piano industry. Otherwise good pianos have been ruined by the pulling apart of the so-called pin block which is caused by the 40,000 pounds pull of the strings. The *Lauter* piano is renowned throughout the industry for its wonderful beautiful tone that is at once of liquid purity and remarkable volume. The scale is the result of long and experiments and has been pronounced by experts to be flawless. The instrument has exquisite modulation throughout the length of the keyboard.

## IRVING ZUELKE

After having used the Lauter Pianos for a number of years, almost constantly, both in the studio and at home, I can heartily recommend it as an instrument of faultless mechanism and unrivaled in beauty of tone.

To Irving Zuelke,  
*Arthur H. Krumpholtz*  
 Instructor in  
 Piano, Pipe organ  
 and Theory

In my judgment the Lauter is one of the best pianos on the market. Each Lauter is carefully constructed and possesses a soft, rich tone of wonderful power and beauty.

*Cecilia Pullinwider*  
 Violinist  
 Lawrence Conservatory

My dear Mr. Zuelke: I want you to know the satisfaction the Lauter piano has given me this year. It has a beautiful tone and splendid action. I would recommend it to any one wanting a good piano.

Very sincerely  
*George C. Rusty*

My dear Mr. Zuelke, -  
 Your beautiful Lauter piano added materially to the effect of the Paderfal tonight. Let me thank you again for the pleasure which it gave me. We strike and myself to have this responsive instrument.

Very Sincerely  
*March 1st*  
*Sabel & Bacher*

# WISCONSIN TELEPHONE COMPANY

## Move Order and Renewal Agreement

Neenah-Menasha Exchange,.....191...

The Subscriber requests the WISCONSIN TELEPHONE COMPANY, hereinafter referred to as the Company, to move the telephone equipment number.....

..... now located at.....  
to.....

on....., 191...., or as soon thereafter as practicable, under the following terms and conditions:

1. If such telephone has been continuously in its present location for one year or more, without any change in class of service, type of instrument or otherwise, then the contract covering same, subject to the approval of the Company, is hereby extended for one year from the date of installation of said telephone at the new location, in consideration of the Company not making any further charge for such move.

2. If the charge for the unexpired portion of the contract covering said service equals or exceeds the Company's regular charge for such move, as shown in the schedule below, Subscriber agrees to pay the regular moving charge or the cancellation charge provided by contract, in which latter case the contract is to stand renewed for one year from the date of installation of said telephone at the new location.

†3. If the Subscriber on whose contract the initial period has expired chooses to pay the scheduled moving charge in lieu of renewing such contract, he will note his election to do so in the space provided for below, it being understood that unless this is done, the agreement to renew such contract, as above set forth, shall apply.

4. It is also agreed by the Subscriber that the moving of the telephone, as above requested, is to be done on the expressed condition that if the existing contract for said telephone service has not expired, and no other arrangement made, that the same shall continue in full force and effect at the new location.

(Sign here).....  
Subscriber.

\*By.....

Will pay moving charge, yes or no.....

Accepted for Wisconsin Telephone Co.:

.....  
Manager.

Payment for moving charge must accompany all orders.

### SCHEDULE OF CHARGES.

Moving a telephone from one part of a building to a different location in the same room or building, except where subscriber occupies an apartment or similar building and work does not require services of lineman..... \$1.00

Moving a telephone from one building to another, and otherwise where line work is necessary..... 2.00

An estimate of the charge for moving private branch exchange systems will be submitted on request.

Note—Subscribers desiring their telephones moved will fill out and mail or deliver this order and agreement to the Company at least ten (10) days in advance, and the change will be made as promptly as practicable.

†Will pay moving charge and not renew contract.

\*In case of a corporation or firm, or signature of an individual by another, the name and title of the person signing must be given.

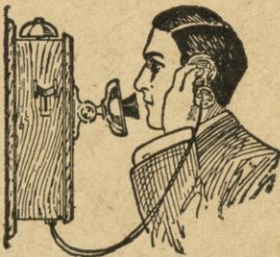

97-674

# Right and Wrong Way

FROM time to time subscribers complain that they cannot hear the party at the other end of the line. In some instances this is found to be the fault of the apparatus or of the lines, but usually such complaints are due to the failure of the party at the other end of the line to *speaK closely into the transmitter.*

The cuts below show the right and the wrong way.

Please follow the "right" way when using the telephone and thus assist in making the Neenah-Menasha service the best telephone service anywhere.

The Right Way.

The Wrong Way.

## TELEPHONE PLEDGE

*I believe in the Golden Rule and will try to be as courteous and considerate over the telephone as if face to face.*

Bell System

## Bell Long Distance Lines

are an invaluable safeguard and resource in the transaction of intra-state and inter-state business.

If an order requiring immediate shipment is not clear, a query by

### **LONG DISTANCE**

will make it so. If a shipment has gone astray, it can be quickly traced by

### **LONG DISTANCE**

If a sudden change in prices must be sent to men on the road,

### **LONG DISTANCE**

locates them readily and enables you to tell them of the change and the reasons for it. If you have a special offering to make to a customer for "immediate acceptance,"

### **LONG DISTANCE**

enables you to get word of it to him quickly and to receive his immediate acceptance or rejection. If you must have the opinion of and consent to an important proposition by a business associate,

### **LONG DISTANCE**

permits you to explain: him to consider intelligently and reply promptly.

### **BELL LONG DISTANCE LINES**

are a great convenience. The rates are low and the service is good.

Their use is quick, easy and simple.

**8,000,000**

Bell Telephones in service, covering the United States and Canada.

Another thought: Bell service, in addition to being urban, inter-urban and inter-state, is, in the broad sense, international, since you can telephone your telegrams and cablegrams to telegraph and cable stations.

Every Bell Telephone is a { Long Distance  
Telegraph  
Cable } Station.

**Wisconsin Telephone Company**

# Helpful Suggestions and Information for Bell Telephone Patrons

**The Use of the Company's Lines** is limited to communications between parties, both of whom are present at the telephone, and employees of the Company are prohibited from accepting written or verbal messages for transmission or delivery.

**The Chief Operator will Furnish** on request information not given above, new call numbers of subscribers not listed, and who have had service installed after this Directory was printed or of numbers which have been changed.

**Telegrams May be Sent** over the wires of this Company, to or from Telegraph offices. The Telephone Company does not assume responsibility for the correct transmission of the messages.

**Telephones are Installed**, in the first instance, at the location directed by the subscriber free of charge. If a change of location be desired, the charge therefor will be \$1.00, where the telephone is moved from one part of the room or building to a different location in same room or building when no outside work is done, and \$2.00 where it is moved from one building to another.

**Ten Days' Notice for Changing** location of telephones should be given. Subscribers are requested to report fully by letter any change in firm name or business, for correction in the following issue of Directory.

**It is Impossible for Operators** to give attention to complaints of trouble, therefore subscribers are requested to report any irregularities in their service promptly to the Chief Operator.

**Patrons are Cautioned** against the possible entry into their premises of Fraudulent Persons posing as Repairmen, Inspectors or Collectors. Employees of this Company, duly authorized to install, repair or remove telephones, or collect for service, are provided with proper credentials. Please guard yourself against any misrepresentation by asking to see these credentials.

**Schedules of Rates in Force** at each exchange are on file at the Central office and can be examined by applying to the Manager.

**This Company Connects** with the American Telephone & Telegraph Company, furnishing service to all of the important cities in the country.

**The Fire Department and the Police Department** are always available by telephone. Tell your story briefly, calmly and distinctly, giving your street address, and answer promptly any question asked by the Department called.

**The Company Cordially Invites** all users of the telephone to call at any Exchange for an inspection of the operating room and other interesting details of the business. The unique features of a Telephone Exchange are but little understood by the public at large, and observations by the subscribers often lead to suggestions, tending to the best results in the service.

**This Company Assumes no Liability** for damages arising from names left out of this Directory or from errors occurring in its compilation or printing.

**A Copy of this Directory** is delivered free to every subscriber for use until the next issue, but the book remains the property of the Company. It is imperative that the current issue be always used to obtain correct call numbers.

**To Make a Long Distance Call**—Call the local operator in the regular way and ask for "Long Distance." When the Long Distance operator answers, give her the number of the telephone desired (if known) the city or town and the state.

If a particular person is desired, give his name. Then give the telephone number from which the call is made and the name of the person making the call. If the number of the telephone desired is not known, give the firm name or the name and initials of the person under whose name the telephone is listed, and, if possible, the street address.

**Messenger Calls**—If the person desired is not connected by telephone a messenger will be sent to his address to request him to come to a telephone, provided the party calling guarantees payment for the messenger service. The exact amount disbursed for messenger service will be charged in addition to the Company's tariff rates.

**Appointment Calls**—Appointment to talk at a specified time may be made by notifying the long distance operator of the time at which the connection is desired. No extra charge will be made for appointment calls (except for messenger service when such service is involved), but the Company cannot guarantee the completion of the connection at the exact time specified.

**Collect Calls**—The charges on a long distance call, including messenger charges, if any, may be made against the telephone called, provided the charges are accepted by the party called. Requests to have the charges collected from the telephone called should be made when the call is given to the long distance operator.

**Leave Word Calls**—If the person with whom you wish to talk is not immediately reached at the telephone called, word may be left (without charge) to have him call when ready to talk.

**Reports**—In case delay is encountered in completing a call, the long distance operator will advise the person calling, at reasonable intervals, regarding the cause of the delay. If a report is desired, call the long distance operator and ask her for the information desired.

**Rates and Charges**—Rates for long distance service are based upon an initial period of two minutes to points within the state and upon an initial period of three minutes to points outside of the state. The two minute rate will be charged for connections not exceeding two minutes and the three minute rate will be charged for connections not exceeding three minutes. For overtime beyond the initial period in either case, the charge will be made by the minute for each additional minute or fractional part thereof. The long distance operator will not interrupt the conversation to notify the subscriber at the expiration of the initial period of two or three minutes, as the case may be.

When a particular person is asked for, every reasonable effort will be made to establish the connection with the person desired. If the person desired is not reached, no charge will be made for the service rendered, except for messenger service, should such service be involved.

When no particular person is asked for at the time the call is given to the long distance operator, charge will be made if connection with the proper telephone is established.

**Requests for Charges**—If a patron desires notification of the amount of the charge on his message, he will save time by so advising the operator at the time he gives his call. If the request for such information is not made until the completion of the conversation, unavoidable delay results while the operator obtains the rate and computes the charge.

**Supervision by Private Branch Exchange Operators**—The long distance operator is held responsible for the supervision and timing of all messages and for the character of the service furnished. Supervision of connections by Private Branch Exchange Operators interferes with satisfactory service, and such operators should not remain "cut in" on the line after the connection has been established.

Report all complaints of long distance service to the "Long Distance Chief Operator."

For information not given above, concerning long distance service, call "Long Distance Information Operator."

**B**USINESS MEN want quick action and their increasing use of the telephone springs from that desire.

To meet different requirements of its patrons the Telephone Company, like the railroad company, has established different classes of service

The party line, like the local train, is invaluable in its place; where trifling delays work no impairment to the service, it furnishes quick action

For the man in a hurry, who wants speed, privacy and a clear track everywhere always, the single line telephone, like the fast express, goes through direct, supplying quick and quiet service

**Wisconsin Telephone Company**

# Courtesy Between Telephone Users

Would you rush into an office or up to the door of a residence and blurt out, "Hello! Hello! who am I talking to?" and then, when you received a reply, follow up your wild discourteous salutation with "I don't want you; get out of my way. I want to talk with Mr. Jones." Would you? That is merely a sample of the impolite and impatient conversations that the telephone transmits many times a day.

There is a most agreeable mode of beginning a telephone conversation which many people are now adopting because it saves useless words and is at the same time courteous and direct. It runs thus:

The telephone bell rings and the person answering it says: "Morton & Company, Mr. Baker speaking." The person calling then says: "Mr. Wood, of Curtis & Sons, wishes to talk with Mr. White."

When Mr. White picks up the receiver he knows Mr. Wood is on the other end of the line, and without any unnecessary and undignified "Hellos," he at once greets him with the refreshingly courteous salutation: "Good morning, Mr. Wood." That savors of the genial handshake that Mr. Wood would have received had he called in person upon Mr. White.

Undoubtedly there would be a far higher degree of telephone courtesy particularly in the way of reasonable consideration for the operators, if the "face-to-face" idea were more generally held in mind. The fact that a line of wire and two shining instruments separate you from the person with whom you are talking, takes none of the sting out of unkind words.

Telephone courtesy means answering the telephone as quickly as possible when the bell rings—not keeping the "caller" waiting until one gets good and ready to answer. Telephone courtesy on party lines means being polite when some one else unintentionally breaks in—not snapping, "Get off the line; I'm using it."

In a word, it is obviously true that that which is the correct thing to do in a face-to-face conversation, is also correct in a telephone conversation, and anyone has but to apply the rules of courtesy, prescribed long years before the telephone was first thought of, to know the proper manners for telephone usage.

Be forbearing, considerate and courteous. Do over the telephone as you would do face-to-face.

# WISCONSIN TELEPHONE COMPANY

## Move Order and Renewal Agreement

Appleton Exchange,.....191...

The Subscriber requests the WISCONSIN TELEPHONE COMPANY, hereinafter referred to as the Company, to move the telephone equipment number.....

.....now located at .....

to.....

on....., 191...., or as soon thereafter as practicable, under the following terms and conditions:

1. If such telephone has been continuously in its present location for one year or more, without any change in class of service, type of instrument or otherwise, then the contract covering same, subject to the approval of the Company, is hereby extended for one year from the date of installation of said telephone at the new location, in consideration of the Company not making any further charge for such move.

2. If the charge for the unexpired portion of the contract covering said service equals or exceeds the Company's regular charge for such move, as shown in the schedule below, Subscriber agrees to pay the regular moving charge or the cancellation charge provided by contract, in which latter case the contract is to stand renewed for one year from the date of installation of said telephone at the new location.

†3. If the Subscriber on whose contract the initial period has expired chooses to pay the scheduled moving charge in lieu of renewing such contract, he will note his election to do so in the space provided for below, it being understood that unless this is done, the agreement to renew such contract, as above set forth, shall apply.

4. It is also agreed by the Subscriber that the moving of the telephone, as above requested, is to be done on the expressed condition that if the existing contract for said telephone service has not expired, and no other arrangement made, that the same shall continue in full force and effect at the new location.

(Sign here).....  
Subscriber.

\* By.....

Will pay moving charge, yes or no.....

Accepted for Wisconsin Telephone Co.:

.....  
Manager

Payment for moving charge must accompany all orders.

### SCHEDULE FOR CHARGES.

Moving a telephone from one part of a building to a different location in the same room or building, except where subscriber occupies an apartment or similar building and work does not require services of lineman.....\$1.00

Moving a telephone from one building to another, and otherwise where line work is necessary..... 2.00

An estimate of the charge for moving private branch exchange systems will be submitted on request.

Note—Subscribers desiring their telephones moved will fill out and mail or deliver this order and agreement to the Company at least ten (10) days in advance, and the change will be made as promptly as practicable.

† Will pay moving charge and not renew contract.

\* In case of a corporation or firm, or signature of an individual by another, the name and title of the person signing must be given.

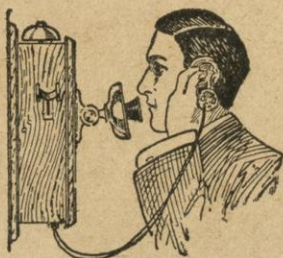

# Right and Wrong Way

FROM time to time subscribers complain that they cannot hear the party at the other end of the line. In some instances this is found to be the fault of the apparatus or of the lines, but usually such complaints are due to the failure of the party at the other end of the line to *speak closely into the transmitter*.

The cuts below show the right and the wrong way.

Please follow the "right" way when using the telephone and thus assist in making the Appleton service the best telephone service anywhere.

The Right Way.

The Wrong Way.

## TELEPHONE PLEDGE

*I believe in the Golden Rule and will try to be as courteous and considerate over the telephone as if face to face.*

Bell

System

## Bell Long Distance Lines

are an invaluable safeguard and resource in the transaction of intra-state and inter-state business.

If an order requiring immediate shipment is not clear, a query by

### **LONG DISTANCE**

will make it so. If a shipment has gone astray, it can be quickly traced by

### **LONG DISTANCE**

If a sudden change in prices must be sent to men on the road,

### **LONG DISTANCE**

locates them readily and enables you to tell them of the change and the reasons for it. If you have a special offering to make to a customer for "immediate acceptance,"

### **LONG DISTANCE**

enables you to get word of it to him quickly and to receive his immediate acceptance or rejection. If you must have the opinion of and consent to an important proposition by a business associate,

### **LONG DISTANCE**

permits you to explain: him to consider intelligently and reply promptly.

### **BELL LONG DISTANCE LINES**

are a great convenience. The rates are low and the service is good. Their use is quick, easy and simple.

**8,000,000**

Bell Telephones in service, covering the United States and Canada.

Another thought: Bell service, in addition to being urban, inter-urban and inter-state, is, in the broad sense, international, since you can telephone your telegrams and cablegrams to telegraph and cable stations.

Every Bell Telephone is a  $\left\{ \begin{array}{l} \text{Long Distance} \\ \text{Telegraph} \\ \text{Cable} \end{array} \right\}$  Station.

**Wisconsin Telephone Company**

102-701

# Helpful Suggestions

and

## Information for Bell Telephone Patrons

---

**The Use of the Company's Lines** is limited to communications between parties, both of whom are present at the telephone, and employees of the Company are prohibited from accepting written or verbal messages for transmission or delivery.

**The Chief Operator will Furnish** on request information not given above, new call numbers of subscribers not listed, and who have had service installed after this Directory was printed or of numbers which have been changed.

**Telegrams May be Sent** over the wires of this Company, to or from Telegraph offices. The Telephone Company does not assume responsibility for the correct transmission of the messages.

**Telephones are Installed**, in the first instance, at the location directed by the subscriber free of charge. If a change of location be desired, the charge therefor will be \$1.00, where the telephone is moved from one part of the room or building to a different location in same room or building when no outside work is done, and \$2.00 where it is moved from one building to another.

**Ten Days' Notice for Changing** location of telephones should be given. Subscribers are requested to report fully by letter any change in firm name or business, for correction in the following issue of Directory.

**It is Impossible for Operators** to give attention to complaints of trouble, therefore subscribers are requested to report any irregularities in their service promptly to the Chief Operator.

**Patrons are Cautioned** against the possible entry into their premises of Fraudulent Persons posing as Repairmen, Inspectors or Collectors. Employees of this Company, duly authorized to install, repair or remove telephones, or collect for service, are provided with proper credentials. Please guard yourself against any misrepresentation by asking to see these credentials.

**Schedules of Rates in Force** at each exchange are on file at the Central office and can be examined by applying to the Manager.

**This Company Connects** with the American Telephone & Telegraph Company, furnishing service to all of the important cities in the country.

**The Fire Department and the Police Department** are always available by telephone. Tell your story briefly, calmly and distinctly, giving your street address, and answer promptly any question asked by the Department called.

**The Company Cordially Invites** all users of the telephone to call at any Exchange for an inspection of the operating room and other interesting details of the business. The unique features of a Telephone Exchange are but little understood by the public at large, and observations by the subscribers often lead to suggestions, tending to the best results in the service.

**This Company Assumes no Liability** for damages arising from names left out of this Directory or from errors occurring in its compilation or printing.

**A Copy of this Directory** is delivered free to every subscriber for use until the next issue, but the book remains the property of the Company. It is imperative that the current issue be always used to obtain correct call numbers.

**To Make a Long Distance Call**—Call the local operator in the regular way and ask for "Long Distance." When the Long Distance operator answers, give her the number of the telephone desired (if known) the city or town and the state.

If a particular person is desired, give his name. Then give the telephone number from which the call is made and the name of the person making the call. If the number of the telephone desired is not known, give the firm name or the name and initials of the person under whose name the telephone is listed, and, if possible, the street address.

**Messenger Calls**—If the person desired is not connected by telephone a messenger will be sent to his address to request him to come to a telephone, provided the party calling guarantees payment for the messenger service. The exact amount disbursed for messenger service will be charged in addition to the Company's tariff rates.

**Appointment Calls**—Appointment to talk at a specified time may be made by notifying the long distance operator of the time at which the connection is desired. No extra charge will be made for appointment calls (except for messenger service when such service is involved), but the Company cannot guarantee the completion of the connection at the exact time specified.

**Collect Calls**—The charges on a long distance call, including messenger charges, if any, may be made against the telephone called, provided the charges are accepted by the party called. Requests to have the charges collected from the telephone called should be made when the call is given to the long distance operator.

**Leave Word Calls**—If the person with whom you wish to talk is not immediately reached at the telephone called, word may be left (without charge) to have him call when ready to talk.

**Reports**—In case delay is encountered in completing a call, the long distance operator will advise the person calling, at reasonable intervals, regarding the cause of the delay. If a report is desired, call the long distance operator and ask her for the information desired.

**Rates and Charges**—Rates for long distance service are based upon an initial period of two minutes to points within the state and upon an initial period of three minutes to points outside of the state. The two minute rate will be charged for connections not exceeding two minutes and the three minute rate will be charged for connections not exceeding three minutes. For overtime beyond the initial period in either case, the charge will be made by the minute for each additional minute or fractional part thereof. The long distance operator will not interrupt the conversation to notify the subscriber at the expiration of the initial period of two or three minutes, as the case may be.

When a particular person is asked for, every reasonable effort will be made to establish the connection with the person desired. If the person desired is not reached, no charge will be made for the service rendered, except for messenger service, should such service be involved.

When no particular person is asked for at the time the call is given to the long distance operator, charge will be made if connection with the proper telephone is established.

**Requests for Charges**—If a patron desires notification of the amount of the charge on his message, he will save time by so advising the operator at the time he gives his call. If the request for such information is not made until the completion of the conversation, unavoidable delay results while the operator obtains the rate and computes the charge.

**Supervision by Private Branch Exchange Operators**—The long distance operator is held responsible for the supervision and timing of all messages and for the character of the service furnished. Supervision of connections by Private Branch Exchange Operators interferes with satisfactory service, and such operators should not remain "cut in" on the line after the connection has been established.

Report all complaints of long distance service to the "Long Distance Chief Operator."

For information not given above, concerning long distance service, call "Long Distance Information Operator."

## MIXER FACTS

Every purchaser of Concrete Mixers should know the importance of thorough and rapid mixing and the durability of the mixer.

The Koehring Mixer has three independent mixing actions: A lifting and scattering, an unequalled end-to-end motion of the aggregates, and a constant flow distributed by the tilted-down inner spout.

The Elevating Charging Bucket is the most efficient: Easiest to fill and quickest to un-

load, simplest and strongest in construction.

Common sense construction and strongest built throughout: Large bearings, wide face runways, double gear drive, steel pinions, cast drum heads with round corners, and all steel frame and trucks.

Send for handsome booklet, explaining fully.

# Are You Properly Equipped?

THE TELEPHONE is the most important door to your place of business. Open it cheerfully and promptly, and your customers will call again.

**Complete Telephone Equipment** places every department of a business within instant reach of every other department.

**Complete Telephone Equipment** means that calls for you from the outside, and your calls to the outside, are not delayed by reason of your lines being busy.

**Complete Telephone Equipment** does away with busy reports, makes your telephone system flexible and adequate to meet all your needs.

Two essentials to good telephone service are:  
FIRST—That the subscribers have the proper kind of service.

SECOND—That they have enough of it.

Our studies show that 10% of the connections requested are refused for the reason that the line of the party wanted is busy.

It has been found that many subscribers are endeavoring to do a large amount of business over party lines, which are congested, and in other cases that those having a single line are attempting to handle more business over one telephone than it will carry.

The *Telephone* line is a door to your establishment through which *much* business enters. If the line is often *busy*, the door is often *locked*.

# GET THE HABIT

Discrimination in buying is a money saving habit. The highest priced goods are not necessarily the highest quality; the price is fixed by the dealer. Competitive brands are sold at the lowest prices.

## Gilt Edge Flour

can be had at any store in the Twin Cities by asking for it. The price is right, the quality superfine; there is absolutely nothing better on the market.

### *To Our Country Friends*

Your attention has been called to the fact that we are doing our level best in the way of price and quality inducements to have you come to town to do your trading in grain and grain products. Watch for our monthly circulars.
