The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

When tension,
anxiety,
resentment pile up

Dosage: As a daytime sedative, 15 mg. ($\frac{1}{4}$ gr.) to 30 mg. ($\frac{1}{2}$ gr.) t.i.d. or q.i.d.

Cautions and side effects: At daytime sedative dosage levels, drowsiness, skin rash, "hangover" and systemic disturbances are seldom seen. To be used with caution in moderate to severe hepatic disease. If a hypersensitivity reaction should occur, discontinue use. (*Warning:* May be habit forming.)

Available: Tablets, 15 mg. ($\frac{1}{4}$ gr.), 30 mg. ($\frac{1}{2}$ gr.), 50 mg. ($\frac{3}{4}$ gr.), 100 mg. ($1\frac{1}{2}$ gr.); Elixir [30 mg. ($\frac{1}{2}$ gr.)/5 cc.] Alcohol 7%.

McNEIL LABORATORIES, INC., Fort Washington, Pa.

McNEIL

on the "nervous personality"

BUTISOL SODIUM®
BUTABARBITAL SODIUM

... cushions the impact of daily frustrations by relaxing the taut nervous system, without inducing lethargy

Comparative studies* favor BUTISOL SODIUM butabarbital sodium over many commonly used agents for control of anxiety and tension as seen in everyday practice. Unlike phenobarbital, BUTISOL SODIUM butabarbital sodium was not found to produce undesirable effects on the central nervous system, gastrointestinal tract, liver or kidneys.*
