PROTECTION OF STATE LANDS.

Trespasses on state lands, during the past year, have been very limited, which is due in a measure to the efficiency of the agents appointed to protect the same.

A large number of old trespasses have been ferreted out by the agents, and parties committing said trespasses have been compelled to patent the lands, thus saving to the state no inconsiderable amount from lands which had been rendered next to worthless. Much of the labor of the timber clerks has been expended in forcing old trespassers to purchase the tracts they had stripped, and the results have been quite satisfactory.

LANDS HELD BY THE STATE.

The whole amount of lands held by the state at the close of the fiscal year, September 30, 1874, was 1,691,403.80 acres.

The table marked Exhibit "G," shows the number of acres belonging to each fund, and the counties in which they are situated.
