MINUTES OF THE REGULAR MEETING
of the
BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM

Madison, Wisconsin

Held in the Clarke Smith Room, 1820 Van Hise Hall
Friday, April 9, 1982
9:00 a.m.

- President Erdman presiding -

PRESENT: Regents Beckwith, Erdman, Finlayson, Fitzgerald, Fox, Gerrard, Grover, Heckrodt, Hendrickson, Jesinski, Knowles; Lawton, O'Harrow, Podlesny and Schilling

ABSENT: Regent Veneman

Upon motion of Regent Fitzgerald, seconded by Regent Beckwith, it was voted that the minutes of the regular meeting of the Board of Regents of the University of Wisconsin System, held on March 5, 1982, be approved as mailed to the members of the Board.

REPORT OF THE PRESIDENT OF THE BOARD

Regent O'Harrow, Chairman of the Special Regent Study Committee on Extension, commented on the Committee's report, stating that many suggestions had been received in the past month and that some revisions had been made in order to clarify recommendations and render them less susceptible to misinterpretation. These modifications, he emphasized, did not change the intent or the objectives of the recommendations submitted to the Board in March.

Adoption of the following resolution was moved by Regent O'Harrow and seconded by Regent Finlayson:

Resolution 2558: That the Board of Regents accept the report of the Special Regent Study Committee on Extension and endorse each of the recommendations contained in its report. Further, that the Board of Regents charge the Chancellor of UW-Extension in conjunction with each of the Chancellors and their faculties and staff with the responsibility of developing a statewide, coordinated extension plan as called for in the report. Further, that the administration and faculty of each institution recognize the importance of the extension function and proceed to give appropriate and adequate recognition to those involved in extension activities.
Regent Fox inquired about a change in the last sentence of recommendation number 8, which had originally read: "Further, that ultimate responsibility for the budget and positions associated with UW-Extension will remain with the UW-Extension Chancellor." Noting that the words "and positions" had been deleted from the revised recommendation, he asked for an explanation of the purpose of that amendment.

Regent O'Harrow indicated it was hoped that the revision would help to strengthen negotiations for interinstitutional agreements.

Regent Fox asked if the change meant that someone other than the UW-Extension Chancellor would have responsibility for positions or if it was assumed that the word "budget" included positions.

It was observed by Regent Beckwith that the policy issue at stake was whether or not there should be a System extension plan and a budget reflecting that plan, so that when there were changes, either in needs or in staffing, they could be negotiated by the UW-Extension Chancellor with the individual institutions. Indicating that there had been concern by chancellors of the four-year universities that they were being given additional extension responsibility without an adequate resource base, he explained that recommendation number 8 had been rewritten and that section (c) had been added in order to assure that they would have the benefit of longer-term commitments to support extension activities. Rather than stating that the Chancellor of UW-Extension would have control of positions as such, he said, it seemed adequate to provide for him to have ultimate control of the budget, which encompassed positions and would give him the necessary power to negotiate with other chancellors as change was required. The words "and positions" had become more a matter of heat than light, he remarked, adding that the Committee members did not feel that removing those words substantially changed the thrust of their recommendation.

Regent Knowles pointed out that, if reference to positions were left in recommendation number 8, it would appear to conflict with recommendation number 5 which called for the filling of positions on the campus, if possible. He felt that the word "budget" would include positions.

Regent Beckwith noted that at one end of the spectrum were those who wished to have UW-Extension disassembled, its budget allocated to individual campuses and extension functions performed by those institutions with the minimal oversight, while at the other end there were those who wanted UW-Extension to remain essentially the same, with a separate budget, a separate faculty, and interinstitutional agreements when possible. He said the Committee's report was an effort to move toward an integrated system and toward more extension being delivered by the four-year institutions, with more economic resources available to them to fulfill that obligation, but "without abandoning the idea that we cannot, in 1982 or 1983, decide how extension is going to be on each of our campuses forever. In other words, there has to be enough flexibility to deal with a System extension plan over time."

Referring to the first four lines of recommendation number 9, Regent Fox noted that they read: "Suggest the use of the following criteria in determining the involvement and best use of resources for the extension function at the various institutions. The seven criteria recommended by the President's Advisory Group on Extension are." He suggested that those lines be revised to read: "Suggest the use of the seven criteria recommended by the President's Advisory Group on Extension in determining the involvement and best use of resources for the extension function at the various institutions. They are."
As those who made and seconded the motion, Regents O'Harrow and Finlayson indicated their acceptance of that modification.

Noting that the next-to-the-last sentence in recommendation number 7 and the last sentence in recommendation number 5 began with the word "that," Regent Erdman suggested that they be changed into complete sentences. Those additional revisions also were accepted.

The question was put on Resolution 2558, and it was adopted unanimously.

(The report is appended as EXHIBIT A.)

President Erdman observed that the Committee's report was one of the most important policy documents to come before the Board of Regents. Both she and Vice President Lawton commended Chairman O'Harrow and regent members Beckwith and Knowles for their diligent and successful efforts.

Regent Beckwith, Chairman of the Council of Trustees of the UW Hospital and Clinics, reported first that the financial condition of the hospital was essentially good. While the hospital was running somewhat below budget, due to patients staying for shorter lengths of time, no serious difficulty was anticipated. In university research hospitals, the length of stay is typically longer than in general hospitals because the acuteness of illness is greater, he explained, adding that perhaps one reason for the movement toward shorter lengths of stay was that the patient population was becoming more like that of a general hospital, due to the number of tertiary care centers in the state. Referring to a new method of vascular diagnosis which could be performed on an out-patient basis, he pointed out that progress in technology also shortened periods of hospitalization. "That has some interesting philosophical implications. Obviously, we would prefer to have a shorter length of stay, but that may have adverse financial implications." He thought it might well be that over time the daily rate for hospital services would increase but the length of stay would decrease, so that the net cost to the patient might remain about the same. The Council also had reviewed the hospital's 1982-83 budget, which was to be presented to the Board's Business and Finance Committee at the May meeting.

Reporting on behalf of the Special Regent Committee on Student Discipline, Regent Finlayson said the Committee had held a hearing on March 29 concerning an appeal filed by Eugene Jurczyk from a decision by the UW-Oshkosh Student Conduct Hearing Panel. Mr. Jurczyk and representatives of UW-Oshkosh had been invited to file written briefs in advance of the hearing and to present oral arguments at the hearing. Assistant Chancellor Edwin B. Smith appeared on behalf of UW-Oshkosh to present the University's position, which also had been set forth in a written brief, and to answer questions from the members of the Committee. Mr. Jurczyk did not submit a brief, nor did he appear at the hearing. Following the hearing, the Committee decided to uphold the decision of the Student Conduct Hearing Panel and a written determination to that effect was being rendered. Regent Finlayson also noted that another appeal, which was filed by Mr. Michael Pung from a decision by the UW-Oshkosh Student Conduct Hearing Panel, had been withdrawn by Mr. Pung.
Regent Erdman thanked the members of the Committee—Regent Finlayson, Regent Heckrodt and Chairman Veneman—for their work in reviewing those student appeals.

Regent Hendrickson, President of the State Board of Vocational, Technical and Adult Education, reported that the VITAE governance bill had been passed by both houses of the Legislature and forwarded to the Governor. Acknowledging especially the leadership of Senator Gary Goyke, Chairman of the Senate Education Committee, he said the bill provided a rational approach to correcting administrative problems and strengthening of the State Board's hand in guiding district operations. He added that one major by-product of the legislative effort had been development of a much-improved working relationship between the state and district boards.

Noting that the Senate version of the budget adjustment bill included provision for a Legislative Council study of coordination between the UW and VITAE systems, Regent Erdman said she had recently received a review of the extent of such cooperative endeavors. "It is encouraging to see the amount of really enthusiastic coordination that does go on, and it is a pity, I think, that more people are not aware of this and not realizing that this effort is so well focused."

REPORT OF THE PRESIDENT OF THE SYSTEM

It was moved by Regent Knowles, seconded by Regent Jesinski and unanimously carried that Resolution 2559 be adopted:

Resolution 2559: That the report of non-personnel actions by administrative officers to the Board of Regents and informational items reported for the record (copy on file with the papers of this meeting) be received for the record; and that actions included in the report be approved, ratified and confirmed.

President O'Neil called attention to an item in the report which concerned a delegation agreement between the Department of Administration and the University System on purchasing and printing. Observing that the agreement formalized the most recent success in ongoing efforts toward deregulation, he said it delegated to the System substantial authority to purchase biddable commodities, including printing services, and expanded authority to purchase contractual services. Within the past year, there had been similar delegation agreements with regard to data processing and the purchase of telecommunications equipment, he recalled, adding that further progress was anticipated due to the conscientious work of the Deregulation Task Force created jointly by the UW System and the Department of Administration. Deregulation of this sort was much more than simply formalistic, particularly in times of increasingly scarce resources, he stated, noting that the University had asked state government for maximum flexibility in allocating and extending the resources which remained, arguing that, if reductions must be made, sometimes on very short notice, at least there should be broad latitude in making them.
Turning to other regulatory issues, the President cited concern a month previously about the prospect that salary increases for persons earning over $30,000 would be prohibited by state law, despite the discretion given to the Board of Regents by the Joint Committee on Employment Relations in passing the biennial pay package. This proposed ceiling later was rejected by a bipartisan coalition in the Senate, and the money which would have been deleted from the pay plan was fully restored. Although the outcome in the Assembly was not yet known, he felt the Senate's recognition of the crucial need for flexibility in salary determination and the importance of merit in recognizing the contributions of senior scholars was a most encouraging sign. In the legislative session which had just-ended, he continued, a bill dealing with toxic substances had been amended to remove a potentially grave threat to scientific research laboratories where certain kinds of chemicals were stored and used. Responding to concerns expressed by university scientists, legislators had reshaped the constraints in such a way as to reconcile the need for safety and environmental protection with the equally vital needs of innovative scientific research. In addition, a bill which would have further restricted the practices of state-owned hospitals, including the University Hospital, failed to pass during the session. "While these actions do not fit the conventional notion of deregulation," he stated, "the sensitivity of legislators, as well as those in the executive branch, to the special and critical needs of higher learning in university-based research is especially gratifying at a time when the basic budget issues—even for this biennium—remain unresolved."

Noting that he had just received two letters from faculty colleagues expressing deep concern on the part of faculty about state and federal government policies which might severely, if often inadvertently, hamper their work, President O'Neil said he would respond that, while the University probably had experienced more successes than failures of late in the regulatory area, important challenges remained in such areas as conflict of interest rules, availability of sabbatical leaves, and research involving laboratory animals. Stating that he would acknowledge the appropriateness and necessity of much of the government regulation to which universities are subject, he pointed out that the task is to differentiate clearly between rules which are warranted and those which are needlessly intrusive.

Mr. Robert Kranz, President of the United Council of UW Student Governments, summarized the status of a number of United Council projects, noting first that information had been provided to campus representatives concerning the termination of social security benefits, so that affected students could be encouraged to register before May 1 and to write letters asking for postponement of the cut-off date. Another project related to review of court cases which dealt with student media and First Amendment, including questions of prior restraint and censorship, as well as definitions of libel, obscenity, invasion of privacy and what constitutes disruptive literature.

Reports would be presented in May, Mr. Kranz indicated, regarding student perspectives on programs aimed at recruitment and retention of minority and disadvantaged students, and on programs for women. In conclusion, he noted that United Council had forwarded to HEAB its appointments to the Council on Financial Aids and that it was now up to HEAB to call that body into session. "We are hoping that they will do that in a very timely fashion so that students can once again have a primary mechanism for input into the development of policy at the Higher Educational Aids Board."
Regent Schilling said he would inquire at the next HEAB meeting about the disposition of those appointments.

Mr. Kranz added that United Council was very pleased that the Joint Committee on Finance had amended the budget adjustment bill to restore approximately $1.6 million to the HEAB budget, inasmuch as students felt the state should be responsible for taking up some of the slack caused by federal reductions in student financial aid.

Chairman Beckwith presented the Committee's report.

The Committee first considered sexual harassment disciplinary processes developed by UW-Madison, UW-Parkside, UW-Stevens Point and the UW Center System. Executive Vice President Kauffman commented briefly, noting that regent approval would complete the process started almost a year previously by adoption of Regent Policy Document 81-2 entitled "Sexual Harassment Policy Statement and Implementation." The disciplinary processes of the other eleven institutions had been approved at the April 1982 meeting. System Associate Counsel Patricia Hodulik, who had reviewed the proposed disciplinary procedures, indicated that they satisfied the criteria established in the Board policy.

Adoption of the following resolution was moved by Regent Beckwith, seconded by Regent Jesinski, and voted unanimously:

Resolution 2560: That, upon the recommendation of the President of the University of Wisconsin System, the Board of Regents approves the sexual harassment disciplinary processes of the following institutions in the UW System: UW-Madison, UW-Parkside, UW-Stevens Point, and UW-Center System, Exhibits 1 through 4.

(Copies of the exhibits are on file with the papers of this meeting.)

Regent Beckwith stated that a report on educational programs designed to combat sexual harassment was presented to the Committee in compliance with Regent Policy Document 81-2, which required, in addition to development of disciplinary processes, that each institution establish educational programs designed to inform employees and students of the nature of sexual harassment, to increase their sensitivity to it, and to publicize the procedures, sanctions and remedies available against it. Informational reports had been provided for all System institutions except UW-Milwaukee and UW-Parkside, which would submit their reports after committee work was completed.
A new academic program proposal for a B.S. Degree in Computer Science at UW-Platteville was presented to the Committee for a first reading. Indicating that the 36-credit program was consistent with the institution's mission and compatible with the academic needs and orientation of the UW-Platteville School of Business, Industry and Communications and the College of Engineering, Vice President Lyall recommended that the program be approved when returned to the Board for action in May. Chancellor Carrier then described the planning process employed at UW-Platteville to identify resources for the implementation of this and other new programs, noting that it involved reallocation of faculty positions from areas of declining enrollment to areas experiencing significant growth. Positions deallocated from areas such as criminal justice, sociology and education would be available for curricular needs in such areas as mining engineering, agriculture and computer science.

Regent Beckwith noted that an information report on the William F. Vilas Trust Estate had been deferred until the May Committee meeting.

Upon motion by Regent Beckwith, seconded by Regent Fitzgerald, Resolution 2561 was adopted unanimously.

Resolution 2561: That, upon recommendation of the President of the University of Wisconsin System, the Chancellor of the University of Wisconsin-Madison, and the Chancellor of the University of Wisconsin-Milwaukee, the Board of Regents requests that the Trustees of the William F. Vilas Trust Estate supply the following funds for the fiscal year July 1, 1982 to June 30, 1983, subject to the availability of funds, as provided by the terms of the William F. Vilas Trust:

1. Continuation of 10 Vilas Undergraduate Scholarships at $400.00 each $4,000.00
2. Continuation of 10 Vilas Graduate Fellowships:
   a. 5 at $600.00 each $3,000.00
   b. 5 traveling fellowships at $1,500.00 each 7,500.00 $10,500.00
3. Continuation of 16 Vilas Research Professorships at $10,000.00 plus auxiliary allowances of $15,000.00 for each of the following: $400,000.00

Leonard Berkowitz - Vilas Research Professor in Psychology, College of Letters and Science, UW-Madison

R. Byron Bird - Vilas Research Professor of Chemical Engineering, College of Engineering, UW-Madison
Board of Regents Meeting 4/9/82

George E. P. Box - Vilas Research Professor of Mathematics and Statistics, College of Letters and Science, UW-Madison

Winston J. Brill - Vilas Research Professor of Bacteriology, College of Agricultural and Life Sciences, UW-Madison

Arthur S. Goldberger - Vilas Research Professor of Economics, College of Letters and Science, UW-Madison

Reinhold Grimm, Vilas Research Professor of Comparative Literature and German, College of Letters and Science, UW-Madison

Joel F. Handler - Vilas Research Professor in Law, Law School, UW-Madison

Ihab Hassan - Vilas Research Professor in English and Comparative Literature, College of Letters and Science, UW-Milwaukee

Jost Hermand - Vilas Research Professor in German, College of Letters and Science, UW-Madison

Robert J. Lampman - Vilas Research Professor of Economics, College of Letters and Science, UW-Madison

Henry A. Lardy - Vilas Research Professor of Biological Sciences, College of Agricultural and Life Sciences and Graduate School, UW-Madison

Willard F. Mueller - Vilas Research Professor of Agricultural Economics, College of Agricultural and Life Sciences, UW-Madison

Walter Rudin - Vilas Research Professor of Mathematics, College of Letters and Science, UW-Madison

Jan Vansina - Vilas Research Professor of History, College of Letters and Science, UW-Madison

Professor to be named (Chaffee replacement)

Professor to be named (Harrington replacement)

4. a. Continuation of 50 additional scholarships at $400.00 each $20,000.00

b. Continuation of 50 additional fellowships at $600.00 each $30,000.00

$50,000.00
5. Continuation of eighty (80) additional scholarships at $400.00 each under the provisions of Paragraph (3), Article 4 of the Deed of Gift and Conveyance by the Trustees of the Estate of William F. Vilas $32,000.00

6. Retirement benefits for five (5) Vilas Professors (Fellman, Hurst, Sanchez-Barbudo, Sewell, Willard) at $2,500.00 each $12,500.00

7. Continuation of support for encouragement of merit and talent or to promote appreciation of and taste for the art of music:
   a. UW-Madison: Frescobaldi International Conference and Quadrocentennial Celebration $11,000.00
   b. UW-Milwaukee: A Series of Events Highlighting Twentieth-Century Performance Practices in Music $9,750.00 $20,750.00

8. One-time special funding for Professor Henry Lardy 9,400.00

TOTAL VILAS REQUEST $539,150.00

Vice President Lyall reported to the Committee on a comparison of the three interinstitutional cooperative agreements in educational administration in effect between UW-Madison-UW-Oshkosh, UW-Madison-UW-Whitewater, and UW-Superior-UW-River Falls. Noting that the agreements had been analyzed with regard to provisions for admissions, course work, advisement, and program review, she indicated that they provided substantially comparable program opportunities. She also spoke of the useful precedent set by the cooperative agreements for possible future application in other academic areas in order to enable satisfaction of regional curricular needs, with reduction in the necessity for expanding programs or large expenditures.

Admissions—data on percentages accepted & denied, p8-9.

Regent Beckwith stated that the Committee then reviewed a report concerning data on applications for admission at each of the System institutions. Dr. Lyall emphasized particularly several findings in the report, including: (a) that 83% of all applicants met institutional requirements for regular admission; (b) that 3.5% were admitted as special students on probationary status or in special academic support programs; and (c) that 9.3% were denied admission. In interpreting data about applications, she pointed out, several considerations should be kept in mind, such as the process of self-selection by which students not meeting admissions requirements are counseled away from making applications, the fact that many students are admitted to UW institutions but do not enroll because they
could not be admitted to particular programs of their choice, and that numbers of applications and rejections alone tell little about the quality of the students who are accepted. The report also included a table showing that in 1981 all System institutions, except the Center System, drew more than 60% of their students from the top half of the students' high school classes. In Committee discussion, various ideas were exchanged dealing with measures useful for predicting success in college and possible methods for testing the effectiveness of measures currently used, such as rank in high school class and Scholastic Aptitude Test scores.

In response to the request of the Chairman of the Education Committee for assistance in examining the Board's current admissions policy, Dr. Lyall advised the Committee that she would present a working outline for such a study at the May meeting.

Regent Beckwith moved adoption of Resolutions 2562-2564. The motion was seconded by Regent Podlesny and unanimously voted.

Resolution 2562: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Madison, the status of John T. McNelly be changed from Professor, School of Journalism and Mass Communication, College of Letters and Science, to Evjue-Bascom Professor, School of Journalism and Mass Communication, College of Letters and Science, UW-Madison, effective immediately with no change in salary.

Resolution 2563: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Madison, the status of David C. Lindberg be changed from Professor, Department of History of Science and Integrated Liberal Studies, College of Letters and Science to Evjue-Bascom Professor, Department of History of Science and Integrated Liberal Studies, College of Letters and Science, UW-Madison, effective immediately with no change in salary.

Resolution 2564: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Madison, the status of Michael B. Petrovich be changed from Professor, Department of History, College of Letters and Science, to Evjue-Bascom Professor, Department of History, College of Letters and Science, UW-Madison, effective immediately with no change in salary.

Expressing appreciation for the Evjue-Bascom professorships, Regent Beckwith emphasized that, in times of declining state support, such professorships would be particularly significant factors in preserving the quality of faculty on the various campuses.
Regent Beckwith then presented Resolutions 2565 and 2566, noting that at UW-River Falls two positions were being combined into one, thereby reducing costs and providing greater efficiency. The request by UW-Milwaukee, he said, was to recruit a Dean of the School of Architecture, to replace Anthony Catanese, who had accepted another position. "I would like to observe that we regret very much having to lose Dr. Catanese who has become a friend of many of us and who is really one of our outstanding deans and has done an outstanding job of developing the School of Architecture at UW-Milwaukee, but at the same time, we wish him well in what is a bigger and more responsible position at another institution."

It was moved by Regent Beckwith, seconded by Regent Heckrodt and carried unanimously, that the following resolutions be adopted:

Resolution 2565: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Milwaukee, the Chancellor be authorized to recruit for a Dean of the School of Architecture and Urban Planning at the University of Wisconsin-Milwaukee.

Resolution 2566: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-River Falls, the Chancellor be authorized to recruit for a Dean of the Graduate School and Director of Extension-Continuing Education and Summer Session at the University of Wisconsin-River Falls.

REPORT OF THE BUSINESS AND FINANCE COMMITTEE

The Committee's report was presented by Chairman Fox.

Speaking in Committee about the status of the 1981-83 state budget for the UW System, President O'Neil observed that in the current session the Assembly was taking up two matters—the budget adjustment bill and reapportionment. Inasmuch as attention had been focused first on reapportionment, it was still uncertain when the budget adjustment bill would be finalized. Asked what would happen if no action were taken, he indicated that the System would build a budget based on the 1982-83 portion of the biennial budget with anticipation that changes would occur during the fiscal year.

Regent Fox stated that the Committee next reviewed the monthly list of gifts, grants and U.S. government contracts, which included 55 grants from the National Institutes of Health, 15 of them being restorations of previous budget cuts, for a total of almost $6.5 million from NIH. There also was a $2 million contract with the Department of Energy for high energy physics and 29 grants from the National Science Foundation totaling $2.2 million. Outside support for the year thus far added up to $189.6 million, $4 million more than for the same period a year ago. The federal portion was about $5 million less, but non-federal aid continued to be approximately $9 million ahead of the previous year.
Adoption of the following resolution was moved by Regent Fox, seconded by Regent Finlayson and voted unanimously:

Resolution 2567: That, upon recommendation of the President of the University of Wisconsin System, the gifts, grants and contracts presented at this meeting (copy on file with the papers of this meeting) be accepted, approved, ratified and confirmed; and that, where signature authority has not been previously delegated, appropriate officers be authorized to sign agreements.

As a supplement to the above report, the Committee heard a presentation from Chancellor Swanson, who discussed extramural funding for UW-Stout. He indicated that the ten-year-old Center for Research and Education Improvement at UW-Stout had been successful in aiding the acquisition of outside support, with 149 proposals having been developed the previous year, 59 of which were funded. One-third of the University staff had been involved in these projects, the largest federally-funded grant being $575,000 for research and training in the Vocational Rehabilitation Center. He described various research and development projects with private companies, such as Tonka Toys, Kellogg, Donaldson, Minnesota Mining and Manufacturing and General Mills, also mentioning a joint program with the Northeast Wales Institute of Education and an extended program in Algeria. The Chancellor then outlined activities of the UW-Stout Foundation which had assets in excess of $1 million. There were comments concerning privately funded student financial aid, and issues of confidentiality and monitoring of faculty effort in University-corporate relationships were discussed.

In discussion at the Board meeting, Regent Schilling stated that, while the University should carve out an appropriate role in contributing to the state's employment and economic well-being by working with private industry, there were potential dangers in terms of confidentiality, ownership of patents, and other proprietary interests. Noting that during the Committee meeting he had inquired about development of policy to address such problems, he reiterated his concern, raising the question of whether it should be a matter of Regent policy or whether guidelines should be established by the individual institutions.

It was Regent Erdman's understanding that Vice President Lorenz would report further on the matter at an upcoming meeting of the Business and Finance Committee.

Regent Fox added that a System committee was working to identify the types of relationships which were in existence on the various campuses, noting that it was a complex area involving different kinds of relationships.
In his report to the Committee, Vice President Lorenz indicated that operations were proceeding on the basis that institutions would have to absorb any further reductions mandated by the Legislature and the Governor and that contingency planning was in effect to accommodate those uncertainties. The projected year-end free balance was under one million dollars.

---

REPORT OF THE PHYSICAL PLANNING AND DEVELOPMENT COMMITTEE

Chairman Gerard presented the Committee's report.

Stating that the regents had been given a very interesting and informative tour of the UW Hospital the previous day, Regent Gerard observed that such visits helped to foster appreciation for the greatness of the University, and he expressed the hope that tours of various facilities would continue to be scheduled.

Regent Lawton noted that tours conducted after Committee meetings had not been successful in terms of attendance, primarily because the meetings sometimes lasted longer than anticipated. Inasmuch as many regents had been able to participate in the hospital tour, which had been held before Committee meetings, he asked for reaction to arranging more tours at that time of day.

Regent Gerard felt it would be a good idea to do so, and Executive Vice President Kauffman said that visits to facilities could be scheduled in that way almost every month if the Board wished.

As a new member of the Board, Regent Podlesny indicated that she found such tours to be very helpful.

With regard to the hospital tour, Regent Gerard said it had been pointed out that, while the complex cost $110 million, of which $50 million was state funds, for 1.5 million square feet, a new hospital being constructed by the University of Michigan was going to cost $250 million for less than half the square footage.

The cost of the Michigan hospital, Regent Schilling added, was without furniture, while the $110 million for the UW Hospital included furnishings.

Regent Lawton noted that the UW Hospital also housed the Medical and Nursing schools, but that he did not believe the University of Michigan Hospital would have teaching space. Recalling that there had been much criticism of the UW Hospital during the six-year building process, he observed that "the last two years, there has been a tremendous surge in morale, activity and everything that goes with it because of this new building, which is turning out to be a real bargain; functionally it was obviously a good decision."

The 1982 transportation plans for UW-Green Bay and UW-La Crosse were presented to the Committee by Chancellors Weidner and Richards.
Upon motion by Regent Gerrard, seconded by Regent Hendrickson, Resolution 2568 was adopted unanimously.

Resolution 2568: That, upon the recommendation of the UW-Green Bay and UW-LaCrosse Chancellors and the President of the University of Wisconsin System, the 1982 Campus Transportation Plans for the University of Wisconsin-Green Bay and the University of Wisconsin-LaCrosse, prepared in response to Resolution 2222 which directed each campus to base its transportation planning efforts upon Section 291 er. 36.11 (8m), Wisconsin Statutes, be adopted.

Regent Gerrard reported that the Committee then considered the UW-Madison 1982 transportation plan, which had been deferred at the March meeting for review of additional changes requested by the City of Madison’s Director of Transportation. System Administration and UW-Madison staff felt that the changes reflected in the most recent summary document adequately addressed the concerns he had expressed, while at the same time recognizing the realities of current campus use of existing modes of transportation and the campus view of future transportation developments and trends.

It was moved by Regent Gerrard and seconded by Regent O’Harrow that the following resolution be adopted:

Resolution 2569: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, the 1982 Campus Transportation Plan for the University of Wisconsin-Madison, prepared in response to Resolution 2222 which directed each campus to base its transportation planning efforts upon Section 291 er. 36.11 (8m), Wisconsin Statutes, be adopted as modified.

Regent Lawton asked if the City of Madison was represented at the Committee meeting.

Regent Gerrard responded in the negative but stated that UW-Madison Vice Chancellor Len Van Ess presented documentation showing that all the changes requested by the City Transportation Commission had been addressed.

Put to the vote, Resolution 2569 was unanimously adopted.

Regent Gerrard stated that the Committee approved concept and budget reports for a $600,000 central chilled water line extension to serve seven buildings on the UW-Madison agriculture campus and a project to construct a $272,000 potato farm storage facility on the UW-Madison’s experimental farm in Oneida County.
Adoption of the following resolution was moved by Regent Gerrard, seconded by Regent Fitzgerald and carried unanimously:

Resolution 2570: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, the concept and budget reports for the following projects be approved and authority granted to plan, bid and construct the projects, at the cost and from the funding source indicated:

- Chilled Water Line Extension-Agriculture Campus, R.2570, P. 14-15
- Starks Potato Farm Storage Facility (Experimental Farm in Cassian Township, Oneida County), $272,000 from Non-GPR Program Revenues - an increase of $22,000 from the Regent-approved budget

The Committee considered a request by UW-La Crosse to sell a small parcel of vacant, surplus land located outside the campus boundaries.

Resolution 2571 was unanimously adopted, upon motion by Regent Gerrard, seconded by Regent Heckrodt.

Resolution 2571: That, upon the recommendation of the UW-La Crosse Chancellor and the President of the University of Wisconsin System, authority be granted to sell a non-contiguous parcel of land on 13th Street in the City of La Crosse to the high bidder at a price of $22,100, with net proceeds of the sale to revert to the State Building Trust Fund.

It was reported by Regent Gerrard that the Committee approved addition of a flue gas recirculation system to three boilers at the UW-Madison Charter Street heating plant. The purpose of the project was to increase overall boiler efficiency and reduce emissions, with the reduction in coal use expected to provide annual savings of $102,300 and a payback period of four years.

Upon motion by Regent Gerrard, seconded by Regent Hendrickson, the following resolution was adopted unanimously:

Resolution 2572: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, a major project involving the Charter Street Heating Plant Boilers #1, 2 and 3 Flue Gas Recirculation Systems be approved at a cost of $415,000 to be funded by General Obligation Bonding - Energy Conservation Allocation and authority be granted to plan, bid and construct.
The Committee received a status report concerning installation of a mosaic mural on the College of Natural Resources Building at UW-Stevens Point. It was noted that on July 22, 1977 (Resolution 1503), the Board had approved the project which was to be funded by $120,000 in gifts, using volunteer labor to make the individual tiles in the mural. A condition included in the resolution was that, when the mural was completed and before construction of the supporting framework, the Committee was to be advised that all funds were available for the installation. A member of the UW-Stevens Point Foundation staff was present at the Committee meeting to confirm completion of the fund-raising effort.

Regent Gerrard then called on Chancellor Marshall, who displayed a model of the mural at the Board meeting, noting that it included many of the animals, landmarks and geographical features of Wisconsin. He said the mural would be approximately 50' by 150' in size, and would consist of 286,000 tiles which had been mounted on boards. The next step was to place them in steel framework on the south wall of the building, a project which was to begin after the summer session in August and should be completed in November.

Regent Hendrickson added that all labor and materials had been donated.

Regent Gerrard moved adoption of Resolution 2573. The motion was seconded by Regent Fitzgerald and unanimously voted.

Resolution 2573: That, upon the recommendation of the UW-Eau Claire, Green Bay, Madison, Oshkosh, Platteville, River Falls, Stevens Point, Stout, Superior and Whitewater Chancellors and the President of the University of Wisconsin System, authority be granted to plan, bid and construct the following minor projects, at the cost and from the funding sources indicated:

- Horan Hall Shower Safing Repair Project, Program Revenues-Non-GPR $35,000
- Putnam Hall Window Improvement Project, Program Revenues-Non-GPR $48,000
- Physical Education Building Masonry Repairs Project, SPFF-GPR R-2573, P 16-17 $29,500
- Sheep Barn Replacement, Spooner Experimental Farm, Insurance Funds-Non-GPR R-2573, P 16-17 $50,000
- Wilgus/McGregor/Royce Halls Improvements Project, Program Revenues-Non-GPR $57,900
- Five Building Masonry Repairs Project, Program Revenues-Non-GPR $25,200; Cap. Imp. Fund Earnings-GPR $24,000 R-2573, P 16-17 $49,200
The Committee heard a proposal by Mr. Douglas Backus, of Real Estate Concepts Ltd., and Mr. Kevin Upton, representing a local public relations firm, to exchange 255 acres of farm lands located immediately west of the West Beltline and north of Mandt Farm for an approximate 25-acre parcel on the Rieder Farm located on the corner of Mineral Point Road and Whitney Way, Madison, as a site for the construction of a food merchandising center. After discussion, the proposed exchange was referred to UW-Madison for study and recommendation.

Vice President Winter reported to the Committee that construction bids for the UW-Madison East Campus Physical Education/Recreation Building were to be received on April 16. The project, budgeted at more than $10 million, would be the largest to be bid by the UW System in the biennium.

Indicating that the Committee discussed final plans for visits on April 13, 14 and 15 to System campuses in Superior, Marshfield, Stevens Point and Green Bay, Regent Gerrard noted that all regents were welcome to participate in these tours.
REPORT OF THE SECRETARY

Secretary Temby reported that the regent meetings on May 6 and 7, 1982, would be held at UW-Milwaukee.

---

At 10:30 a.m., the following resolution, moved by Regent Knowles and seconded by Regent Fitzgerald, was carried on a unanimous roll call vote, with Regents Erdman, Finlayson, Fitzgerald, Fox, Heckrodt, Jesinski, Knowles, Lawton, Podlesny and Schilling voting "Aye" (10) and no regents voting "No."

Resolution 2574: That the Board of Regents recess into closed session to consider personnel matters, as permitted by s. 19.85(1)(c), Wis. Stats., and to consider sale or purchase of land, as permitted by s. 19.85(1)(e), Wis. Stats.

---

CLOSED SESSION ACTIONS

The Board arose from closed session at 11:35 a.m., and adoption of the following resolution was announced:

Resolution 2575: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Milwaukee, Dr. Norma S. Rees be appointed Vice Chancellor of the University of Wisconsin-Milwaukee and professor (with tenure) in the Department of Speech Pathology and Audiology, effective July 1, 1982, at an annual salary of $61,500.

The meeting was adjourned at 11:35 a.m.

Resolutions 2576 and 2577 were adopted in closed session on February 5, 1982, and March 5, 1982, respectively, but were not reported, pending campus receipt of acceptance from the nominees.

Resolution 2576: That, upon the recommendation of the UW-Milwaukee Chancellor and the President of the University of Wisconsin System, the following persons be awarded honorary degrees, to be conferred at Commencement exercises on May 23, 1982, at the University of Wisconsin-Milwaukee:

Fred Harvey Harrington - Doctor of Humane Letters
Max Henry Karl - Doctor of Commercial Science

- Harrington, Fred Harvey - to be awarded D. H. L. by UW-Mil (R. 2576, p. 18)
- Karl - similar entry.
Resolution 2577: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, the following persons be awarded Honorary Degrees, to be conferred at Commencement in May 1982 at the University of Wisconsin-Madison:

- Daniel C. Aldrich - Sc.D.
- Ethel K. Allen - Sc.D.
- Marie Davis Gadsden - L.H.D.
- Melvin Laird - LL.D.
- Leonard Silk - L.H.D.
- Esmond E. Snell - Sc.D.

One entry each person to be awarded honorary degree by UW-Madison, R 2577, p 19.

### RESEARCH

1. **Acid-Base Balance Regulation of Renal Metabolism**
   - Restoration of Previous Budget Cuts
   - For the period 12-01-81 through 11-30-82
   - At a total cost of $141,689.00
   - Award #: 2 RO1 AM8351-08, MOD. 1
   - MSN HS-MED MEDICINE, NEPHROLOGY (144-R617) 12,236.00

2. **Proteolytic Regulation of Picornaviral Replication**
   - Restoration of Previous Budget Cuts
   - For the period 12-01-81 through 11-30-82
   - At a total cost of $51,138.00
   - Award #: 5 RO1 AI17361-02, MOD. 1
   - MSN HS-NED MEDICINE, NEPHROLOGY (144-R619) 4,261.00

3. **Cholesterol Metabolism and Mitochondrial Cytochrome P450**
   - Restoration of Previous Budget Cuts
   - For the period 12-01-81 through 11-30-82
   - At a total cost of $871,629.00
   - Award #: 5 RO1 AM17685-07, MOD. 1
   - MSN HS-MED PHARMACY (144-R642) 6,440.00

4. **Hormone-Responsive Ca2+ion Localization in Hepatocytes**
   - Restoration of Previous Budget Cuts
   - For the period 12-01-81 through 11-30-82
   - At a total cost of $53,067.00
   - Award #: 5 R23 AM26277-03, MOD. 1
   - MSN HS-PDR ENZYME INSTITUTE (144-647) 3,793.00

5. **Active Lipids Derived from Polyunsaturated Fatty Acids**
   - Restoration of Previous Budget Cuts
   - For the period 12-01-81 through 11-30-82
   - At a total cost of $109,418.00
   - Award #: 5 RO1 AM09688-17, MOD. 1
   - MSN HS-PHR PHARMACY (144-R648) 9,721.00

6. **Peripheral and Central Ventilatory Control**
   - Restoration of Previous Budget Cuts
   - For the period 12-01-81 through 11-30-82
   - At a total cost of $84,600.00
   - Award #: 5 RO1 HL15473-08, MOD. 1
   - MSN VET M DEVELOPMENT (144-R649) 7,851.00

7. **Immunity to Low Virulent South Indian Mycobacteria**
   - Restoration of Previous Budget Cuts
   - For the period 12-01-81 through 11-30-82
   - At a total cost of $50,660.00
   - Award #: 5 R22 AI17368-02, MOD. 1
   - MSN HS-MED MED MICROBIOLOGY (144-R652) 4,221.00

8. **Morphologic Studies of Diabetic Retinopathy**
   - Restoration of Previous Budget Cuts
   - For the period 12-01-81 through 11-30-82
   - At a total cost of $45,109.00
   - Award #: 5 RO1 EY03630-02, MOD. 1
   - MSN HS-MED OPHTHALMOLOGY (144-R653) 6,475.00

REPORT OF THE SPECIAL
REGENT STUDY COMMITTEE
ON
EXTENSION

Submitted to Board of Regents
on
April 9, 1982
In the State 1979-81 Biennial Budget Act the Wisconsin Legislature mandated that the Board of Regents report on three aspects of the University of Wisconsin-Extension: (1) the prospects for federal funding of cooperative extension, and plans for dealing with those prospects; (2) the method the Board uses to insure that its priorities are reflected in decisions to reprogram public service funds within UW-Extension; and (3) the progress made in implementing UW-Extension's continuing education fee policy, and areas in which that policy could be improved. The first of these studies concerning cooperative extension funding was delivered to the Legislature and Governor in November, 1979. The reports on the reprogramming of public service funds and the continuing education fee policy of UW-Extension were submitted to the Legislature and the Governor in June of 1980.

Regent review of UW-Extension in 1979-80 raised a number of issues which were peripheral to the immediate legislative mandates but of such significant concern to the Board that the President of the Board appointed a special committee to review them. Issues of concern included, for example, questions related to rank and tenure for community faculty, organizational concerns and fee policy.

The Special Regent Study Committee on Extension was appointed in July, 1980 and initiated its study by holding a number of public hearings. Hearings were held between September 4, 1980 and December 4, 1981. In addition, the Special Study Committee reviewed numerous studies and memoranda on the subject.

On May 4, 1981 the Regent Study Committee requested of President Robert M. O'Neill that he consider the appointment of a President's Advisory Group on Extension (PAGE) composed of UWS faculty and administrators. It was to review and synthesize all the information that had been generated by the Regent Study Committee plus a number of other reports and documents which were in the process of being developed within UW-Extension and between UW-Extension and UW-Milwaukee and to provide recommendations to the President. On May 9, 1981, President O'Neil appointed the President's Advisory Group on Extension. That body provided the President with advisory recommendations in December of 1981. On February 4, the Regent Study Committee received a report and set of recommendations from President O'Neil. These recommendations reflected the President's study of several documents submitted to him, including the report of the President's Advisory Group on Extension. At the Board of Regents meeting on February 5, the Chairman of the Regent Study Committee invited comment and reaction to President O'Neil's recommendations and asked that it be available by February 19. The Committee has received a substantial number of comments from faculty and administrators within UW-Extension and from faculty and administrators at other UW System institutions. In addition, individuals and groups outside the UW System have also responded. Each member of the Regent Study Committee has reviewed these comments and the Committee is now prepared to submit its recommendations for consideration by the Board of Regents.
Prior to setting forth the Regent Study Committee's recommendations it is important to note that it has based them on the same assumptions which President O'Neil included in his report of February 4. The Regent Study Committee endorses the assumptions which are as follows:

"(a) A reaffirmation of the University of Wisconsin System commitment to the Wisconsin Idea.

(b) Improvement of a coordinated statewide extension function within the University of Wisconsin System.

(c) Development of a statewide coordinated plan for extension which would provide a clearer focus and better understanding, for both internal and external observers, as to what Extension is and is not, how Extension resources are being used, where future needs appear to be, and how we plan to respond to those needs.

(d) Enhancement of the interinstitutional relationships between UWEX and the UW System institutions by providing more meaningful institutional involvement in needs assessment, program priority setting, and programming and budget responsibility.

(e) Reduction in administrative costs and streamlining of administrative and program decision making within UWEX, while avoiding unnecessary duplication and increased administrative costs at the institutional levels.

(f) Continuation of the strong, historical relationships with county governments and other state and local agencies, thereby continuing to extend the capacity of our universities to resolve problems and improve our society.

(g) Enhancement of the general faculty understanding of the Extension function, so that appropriate recognition may be given when personnel questions are being reviewed."

Based on these assumptions, the Special Regent Study Committee on Extension recommends that the Board of Regents:

1. Reaffirm the historic commitment of the UW System to the Wisconsin Idea. The extension function is essentially one of utilizing university resources beyond the classroom for the benefit of the state and society at large. The university has a long history of success in seeking new ways of serving the citizens of the state. The decade of the 80's will bring increased demand for extension services, which will require more institutional involvement if that expanded need is to be addressed. Institutional involvement and commitment to extension will require that all faculty and departments commit themselves to the enhancement of the extension function as they have to teaching and research.
2. Resolve that University of Wisconsin-Extension should continue as an institution of the University of Wisconsin System with the chief administrator's title continuing to be that of Chancellor. (Using the authorization to recruit for a "chief administrative officer" previously approved by the Regents, the Search and Screen Committee is directed to proceed as rapidly as possible to seek a new chancellor who might take office as early as July 1, 1982.)

3. Further emphasize the University of Wisconsin System's commitment to a systemwide, coordinated extension effort by requesting that UW System Administration monitor, from a System perspective, the extension programs offered by the institutions of the UW System and review annual program plans and budgets, and biennial budget submissions. System Administration will not assume operational responsibility, but will mediate any unresolved interinstitutional disputes.

4. Assign the leadership responsibility for program coordination and statewide planning of the UWS extension function to the Chancellor of UW-Extension. In cooperation with the Chancellors of the other UW System institutions, the Chancellor of UW-Extension shall develop and maintain a coordinated, statewide extension plan. In this context, annual plans for campus-based noncredit programs within the region must be reviewed by UW-Extension to ensure the needed degree of coordination and compatibility of program offerings with institutional mission.

5. Encourage integration of existing UW-Extension faculty with faculties of the other institutions of the UW System. Steps toward such integration should begin as soon as feasible. Any plans for integration of UW-Extension faculty into campus departments or other units must be approved by the appropriate faculty and administrative review bodies of each institution involved, be approved by the President's office, and reported to the Regents. In order to encourage greater integration of faculty and staff in general extension with the institutions, when a position budgeted to UW-Extension becomes vacant the needs it served should be met insofar as possible through campus-based faculty. Only if those needs cannot be met within existing campus academic units should a general extension position be perpetuated. Further, the expression "integration" is expanded, where appropriate, to include the concept of bringing together in a meaningful way each university's administration and faculty in planning and coordinating its extension efforts and in establishing appropriate planning and programming models.

6. Encourage the use of interinstitutional committees to review existing interinstitutional agreements and to initiate steps toward integration of faculties. These committees may also address such issues as needs assessment, program priorities, budget, and personnel policies and make recommendations leading to new interinstitutional agreements between UW-Extension and the other institutions.
7. Support move toward integration of UW-Extension faculty in Milwaukee with the University of Wisconsin-Milwaukee as proposed by the Joint UWM/UWEX Committee to serve as the initial phase for such integration. Implementation should be preceded by full faculty consideration within both institutions. A condition of this recommendation on UWM/UWEX integration is that an evaluative phase be included which will result in a report to the Regents at the end of the 1983-84 academic year. Its purpose will be to assess the strengths and weaknesses of such integration and include recommendations on how to resolve any lingering problems and strengthen and improve extension programming in the Milwaukee area.

8. Require that allocations from UW-Extension to institutions be based on interinstitutional agreements reached between the Chancellor of UW-Extension and the Chancellor of the institution involved; that such allocations permanently retain their budgetary identity as funds in support of extension programs; and that they be accompanied by substantial and adequate assurance of continued performance of the extension function and fiscal commitment to existing personnel. Modifications in interinstitutional agreements occasioned by required budget cuts or by vacancies due to retirement, death, or resignation of personnel must not be handled unilaterally, must be consistent with good personnel management, and must be compatible with the statewide plan for extension. The budget allocations identified in the interinstitutional agreements must assure sufficient stability and duration to permit institutions to make long-range commitments for carrying out that portion of the statewide extension plan for which they have accepted responsibility. Interinstitutional agreements may include three types of commitments: (a) continuing fiscal support for tenured and probationary faculty (and their program support) with specific long-term assignments to extension activities, (b) annual commitments to faculty and staff for short-term projects and activities and their program support to implement agreed upon programs, and, (c) longer term commitments which might support continuing education activities not permanently identified with specific individuals. Allocations based on these long and short-term commitments will be administered through the UW institutions' faculty and administrative structures. Ultimate responsibility for the budget associated with these allocations and based on the interinstitutional agreements will remain with the UW-Extension Chancellor.

9. Suggest the use of the seven criteria recommended by the President's Advisory Group on Extension in determining the involvement and best use of resources for the extension function at the various institutions. They are: (1) relatedness of mission; (2) acceptance of financial responsibility; (3) compatibility of institutional and systemwide extension program priorities; (4) availability of faculty and staff with appropriate disciplinary competencies; (5) accessibility of a meaningful clientele; (6) evidence of clear and substantial institutional commitment; and (7) the likelihood of "minimum critical mass of resources" reflected in a meaningful proportion of each faculty appointment designated for extension activity.
10. In the interest of improving and streamlining UW-Extension administration and enhancing communications, support the internal reorganization of UW-Extension substantially as proposed by the UWEX Joint Faculty Administration Committee and urge the President of the UW System and the Chancellor of UW-Extension to proceed towards the establishment of a structure by July 1, 1982, which reflects three separate and homogeneous units—(a) general extension and special mission programs; (b) cooperative extension and special mission programs; and (c) educational communications, each administered by a dean or director. Each of the administrative positions is to be filled through a regular search and screen process. UW-Extension should examine each of the programming and service units either concurrently or following the divisional reorganization to determine its viability and the appropriateness of its divisional placement.

11. Reconfirm its charge that UW-Extension continue to develop and expand, through reprogramming and reallocations, the internal budget and personnel flexibility required to meet changing societal needs. The recently developed program evaluation process, wherein every program is evaluated within an eight year cycle, should continue to have as one of its objectives a determination whether the program being evaluated is consistent with the mission of UW-Extension, does not inappropriately duplicate programs being offered by other state agencies, including specifically VTAE and DPI, or more appropriately should be offered by others. Continued interaction and cooperation between UW-Extension and other state agencies are encouraged.

12. Support the recommendation of the President of the UW System for adoption of specific proposals in the report of the Special UW-Extension Committee on Faculty Rank and Tenure. (The basic premise of that report is that the concept of rank and tenure continue for community faculty with certain modifications.)

13. Make no attempt, at this time, to alter current policies with regard to off-campus credit courses (ACIS-3); and, that the relevant portions of the Regents' 1973 and 1978 policies should remain intact.

As in all organizations, there are problems which need to be addressed and resolved in order to improve operational and programming efficiency. In many cases, corrective action has been and is being taken within the UW-Extension organization and others can and will be resolved if the recommendations of this Committee are approved by the Board of Regents. The purpose of these recommendations is to establish Regent policy and guidelines and thus a context within which the UW System extension function can be implemented. The details will have to be worked out within UW-Extension and between UW-Extension, the other System institutions, System Administration, and, of course, by our faculties.
The Regent Study Committee is not unmindful of the heavy responsibility being given the Chancellors of the UW institutions to work cooperatively in developing a systemwide extension plan and the specific responsibilities given the Chancellor of UW-Extension. It is expected that the concept of a systemwide, coordinated approach to providing extension programming in response to clientele needs will be supported by the Chancellors and faculties of each institution. It is essential that a positive cooperative environment be established and maintained and that the resources of the state, which are entrusted to the UW System, be utilized in ways which avoid unnecessary duplication and excessive administrative costs, and are directed to responding to the high priority needs of the System and the state.

In concluding this report the Special Regent Study Committee on Extension would like to extend its thanks and appreciation to the many individuals and groups who made written and oral contributions to our study effort. The Committee especially would like to compliment the administration, faculty and staff of UW-Extension for their patience and understanding during the past three years of rather intensive review and analysis of their institution and its functions. They provided any and all information requested in comprehensible form. It enabled the Committee to develop a greater understanding and appreciation of the quality of the personnel and the programming which they have historically provided and continue to provide to the citizens of this state and nation.
A. Agreements for leases of the indicated space in the Annex Office Building located at 1954 East Washington Avenue has been signed by the UW-Madison Vice Chancellor for Administration. The term of each agreement is January 1, 1982 through December 31, 1982, at a rental rate of $6.93 per square foot. The space will be used for offices for programs which will contribute toward the goal of improved educational, vocational, and social opportunities for the handicapped, consistent with university policies and in cooperation with the University programs for the handicapped.

- Options in Community Living, Inc., Madison, Gail Jacob, Program Director, 429 net assignable square feet of space.

- Stoughton's Own Group Homes, Inc., Art Humberg, President, 115 net assignable square feet of space.

B. A Delegation Agreement between the Department of Administration and the University of Wisconsin System covering purchasing and printing, in accordance with s. 16.71 and 16.82(4), Wis. Stats., was signed by representatives of both agencies and became effective on February 26, 1982.

C. A new carrier to provide optional term insurance for UW System employees has been retained following a solicitation for proposals from the industry. The National Guardian Life Insurance Company, Madison, Wisconsin, has issued a master policy to provide the coverage now available through Northwestern National Life Insurance Company. The coverage is essentially the same but provides for premium reductions averaging 43%. The policy will become effective on April 1, 1982 (Group Policy No. GL-60) replacing coverage through Northwestern National Life Insurance Company. The policy will become effective on April 1, 1982 (Group Policy No. GL-60) replacing coverage through Northwestern National Life Insurance Company.

D. An agreement between the Eau Claire Family Practice Clinic and Dr. Robert Hume, a podiatrist, for the lease of approximately 1,100 square feet of space has been signed by the UW-Madison Vice Chancellor for Administration. In addition to providing podiatry service, Dr. Hume will be providing teaching services and consultation to the Department of Family Medicine and Practice residents. The lease period is January 1, 1982 to August 31, 1983, with a monthly rental of $480.
